AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Memorandum of July 21, 1977

Determination Under Section 620(x) of the Foreign Assistance Act of 1961, as Amended, To Permit the Sale of Certain Specified Defense Articles and Services to the Government of Turkey

[Presidential Determination No. 77–16]

Memorandum for the Secretary of State

THE WHITE HOUSE,
Washington, July 21, 1977.

Pursuant to the authority vested in me by section 620(x) of the Foreign Assistance Act of 1961, as amended (the Act), I hereby:

(a) Determine that the defense articles and defense services specified in the attached list, valued at $55.4 million, are necessary to enable Turkey to fulfill her defense responsibilities as a member of the North Atlantic Treaty Organization, and

(b) Suspend the provisions of section 620(x) of the Act and section 3(c) of the Arms Export Control Act, as amended, for the fiscal year 1977 in order that the defense articles and defense services specified in the attached list may be sold to Turkey and in order that Turkish procurement of those articles and services may be financed under the authority of the Arms Export Control Act, as amended, within the limitations specified in section 620(x) of the Act.

The determination supplements Presidential Determination No. 77–8 of November 19, 1976 (41 FR 53315), which authorized a previous sale (and financing) of defense articles to Turkey in the fiscal year 1977.

This determination shall be published in the FEDERAL REGISTER.

Jimmy Carter

Attachment: As stated.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation requires fresh market shipments of potatoes grown in Modoc and Siskiyou Counties in California and all counties in Oregon except Malheur County to be inspected and meet minimum grade, size, cleanliness, pack and maturity requirements. The regulation should promote orderly marketing of such potatoes by keeping less desirable sizes and qualities from being shipped to consumers.

EFFECTIVE DATE: August 22, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone: (202) 447-3545.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 114 and Order No. 947, both as amended, regulate the handling of potatoes grown in designated counties of California and Oregon. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The Oregon-California Potato Committee, established under the order, is responsible for its local administration.

Notice of proposed rulemaking was published in the July 25, 1977, Federal Register (42 FR 37820) inviting comments by August 9, 1977. None was received.

This regulation is based upon recommendations made by the committee at its public meeting in Klamath Falls, Oregon, on June 16, 1977.

The grade, size, maturity, pack, cleanliness and inspection requirements specified herein are the same as those issued during the last season. They are necessary to prevent potatoes of low quality or undesirable sizes from being distributed to fresh market outlets. These specific proposals benefit consumers and producers by standardizing and improving the quality of the potatoes shipped from the production area, thereby promoting orderly marketing and would tend to effectuate the declared policy of the act.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements are inappropriate or unreasonable.

Potatoes grown in and shipped from District 5 must meet higher size requirements, comparable to those in effect in Washington State which is contiguous. District 5 potatoes compete directly with Washington potatoes in the fresh market place and therefore size requirements should be similar.

Inspection requirements may be modified for certain handlers whose facilities are located far enough from major production areas to cause a substantial financial burden in maintaining a full-time Federal-State inspector.

A specified quantity of potatoes is exempt from maturity requirements in order to permit growers to make test diggings without loss of the potatoes so harvested.

Shipments are permitted to certain special purpose outlets without regard to minimum grade, size, cleanliness, maturity, pack and inspection requirements, provided that safeguards are met to prevent such potatoes from reaching unauthorized outlets. Certified seed is exempt, subject to the safeguard provisions only when shipped outside the district where grown.

Shipments for use as livestock feed within the production area or to specified adjacent areas are likewise exempt; a limit to the destinations of such shipments is provided so that their use for the purpose specified may be reasonably assured. Shipments of potatoes between Districts 2 and 4 for planting, grading, and storing are exempt from requirements because these two areas are homogeneous and have no natural division. Other districts are more clearly separated and do not have this problem. For the same reason, potatoes grown in District 5 may be shipped without regard to the requirements to the Counties of Adams, Benton, Franklin and Walla Walla in the State of Washington, and Malheur County, Oregon, for grading and storing. Since no purpose would be served by regulating potatoes used for charity purposes, such potatoes are exempt. Also potatoes for most processing uses are exempt under the legislative authority for this part.

Requirements for export shipments differ from those for domestic markets. While the standard quality requirements are desired in foreign markets, smaller sizes are more acceptable. Therefore, different requirements for export shipments are proposed.

Findings. After consideration of all relevant matter presented, including the proposal set forth in the notice which was recommended by the Oregon-California Potato Committee, established pursuant to said marketing agreement and order, it is hereby found that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after its publication in the Federal Register (5 U.S.C. 553) in that (1) shipments of potatoes grown in the production area will begin on or about the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the marketing season, and (3) compliance with this regulation, which is similar to that in effect during previous marketing seasons, will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective date hereof.

The regulation is as follows:

§ 947.335 [Removed]

1. *Termination of regulations:* Handling regulation § 947.335, as amended, effective August 5, 1976, through October 15, 1977 (41 F.R. 32695 and 52058) shall be terminated upon the effective date of this section.

2. Section 947.336 is added to read as set forth below.

§ 947.336 Handling regulation.

During the period August 22, 1977, through October 15, 1978, no person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a) through (f) of this section or unless such potatoes are handled in accordance with paragraphs (g), (h), or (i) of this section.

(a) *Grade requirements.* All varieties—U.S. No. 2, or better grade.

(b) *Size requirements.* All varieties—1⅞ inches minimum diameter except potatoes from District No. 5 shall be 2 inches minimum diameter or 4 ounces minimum weight. However, potatoes for export may be 1½ inches minimum diameter.

(c) *Cleanliness requirements.* All varieties and grades—As required in the United States Standards for Grades of Potatoes, except that U.S. Commercial may be no more than "slightly dirty."

(d) *Maturity (skinning) requirements.*

(1) All varieties—no more than "moderately skinned."

V42159 AUG 17 77 UMI

(2) Not to exceed a total of 100 hundredweight of potatoes may be handled during any seven day period without meeting these maturity requirements. Prior to shipment of potatoes exempt from the above maturity requirements, the handler shall obtain from the committee a Certificate of Privilege.

(e) *Pack.* Potatoes packed in 50-pound cartons shall be U.S. No. 1 grade or better, except that potatoes that fail to meet the U.S. No. 1 grade only because of hollow heart and/or internal discoloration may be shipped provided the lot contains not more than 10 percent damage by hollow heart and/or internal discoloration, as identified by U.S.D.A. Color Photograph E (Internal Discoloration—U.S. No. 2—Upper Limit), POT–CP–9, May, 1972, or not more than 5 percent serious damage by internal defects.

(f) *Inspection.*

(1) Except when relieved by paragraphs (g), (h), or (i) of this section and subparagraph (2) of this paragraph, no person shall handle potatoes without first obtaining inspection from an authorized representative of the Federal-State Inspection Service.

(2) Handlers making shipments from facilities located in an area where inspection costs would otherwise exceed one and one-half times the current per-hundredweight inspection fee, are exempt from on site inspection provided such handler has made application to the committee for inspection exemption on forms supplied by the committee, and provided further that such handler signs an agreement with the committee to report each shipment on a daily basis and pay the committee a sum equal to the current inspection fee.

(3) For the purpose of operation under this part each required inspection certificate is hereby determined, pursuant to § 947.60(c) to be valid for a period of not to exceed 14 days following completion of inspection as shown on the certificate. The validity period of an inspection certificate covering inspected and certified potatoes that are stored in mechanically refrigerated storage within 14 days of the inspection shall be 14 days plus the number of days that the potatoes were held in refrigerated storage.

(4) Any lot of potatoes previously inspected pursuant to § 947.60(a) and certified as meeting the requirements of this part is not required to have additional inspection under § 947.60(b) after regrading, resorting, or repacking such potatoes, if the inspection certificate is valid at the time of regrading, resorting, or repacking of the potatoes.

(g) *Special purpose shipments.* The minimum grade, size, cleanliness, pack, maturity and inspection requirements set forth in paragraphs (a) through (f) of this section shall not be applicable to shipments of potatoes for any of the following purposes:

(1) Certified seed, subject to applicable safeguard requirements of paragraph (h) of this section.

(2) Livestock feed: However, potatoes may not be handled for such purposes if destined to points outside of the production area, except that shipments to the Counties of Benton, Franklin and Walla Walla in the State of Washington and to Malheur County, Oregon, may be made subject to the safeguard provisions of paragraph (h) of this section.

(3) Planting in the district where grown, except that potatoes for this purpose grown in District No. 2 or District No. 4 may be shipped between those two districts.

(4) Grading or storing under the following provisions:

(i) Between districts within the production area for grading or storing if such shipments meet the safeguard requirements of paragraph (h) of this section.

(ii) Potatoes grown in District No. 2 or District No. 4 may be shipped for grading or storing between those two Districts without regard to the safeguard requirements of paragraph (h) of this section.

(iii) Potatoes grown in District No. 5 may be shipped for grading and storing to points in the Counties of Adams, Benton, Franklin and Walla Walla in the State of Washington, or to Malheur County, Oregon, without regard to the safeguard provisions of paragraph (h) of this section.

(5) Charity: Except that shipments for charity may not be resold if they do not meet the requirements of the marketing order, and that shipments in excess of 5 hundredweight per charitable organization shall be subject to the safeguard provisions of paragraph (h) of this section.

(6) Starch manufacture.

(7) Canning, freezing, prepeeling, and "other processing" (except starch manufacturing), as hereinafter defined (including storage for such purposes).

(h) *Safeguards.* (1) Each handler making shipments of certified seed outside the district where grown pursuant to paragraph (g) shall obtain from the committee a Certificate of Privilege, and shall furnish a report of shipments to the committee on forms provided by it.

(2) Each handler making shipments of potatoes pursuant to subparagraphs (2), (4)(i), and (5) of paragraph (g) of this section shall obtain a Certificate of Privilege from the committee, and shall report shipments at such intervals as the committee may prescribe in its administrative rules.

(3) Each handler making shipments pursuant to subparagraph (7) of paragraph (g) of this section may ship such potatoes only to persons or firms designated as manufacturers of potato products by the committee, in accordance with its administrative rules.

(i) *Minimum quantity exemption.* Any person may handle not more than 19 hundredweight of potatoes on any day without regard to the inspection requirements of § 947.60 and to the assessment requirements of § 947.41 of this part except no potatoes may be handled pursuant to this exemption which do not meet the requirements of paragraphs (a), (b), (c), (d), and (e) of this section. This exemption shall not apply to any part of a shipment which exceeds 19 hundredweight.

(j) *Definitions.* (1) The terms "U.S. No. 1," "U.S. Commercial," "U.S. No. 2," and "moderately skinned" shall have the same meaning as when used in the U.S. Standards for Grades of Potatoes (7 CFR 51.1540–51.1566), including the tolerances set forth therein.

(2) The term "slightly dirty" means potatoes that are not damaged by dirt.

(3) The term "prepeeling" means the commercial preparation in a prepeeling plant of clean, sound, fresh potatoes by washing, peeling or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422 of the United States Standards for Grades of Peeled Potatoes (7 CFR 52.2421–52.2433).

(4) The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, or starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, or dicing, or applying material to prevent oxidation does not constitute "other processing."

(5) Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114, as amended, and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated August 12, 1977, to become effective August 22, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XI—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS, MISCELLANEOUS COMMODITIES), DEPARTMENT OF AGRICULTURE

PART 1205—COTTON RESEARCH AND PROMOTION

Determination of Cotton Board Membership

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule revises the Regulations for the determination of Cotton Board membership. Cotton production volumes in cotton-producing states have changed since the 1961–65 period and a more recent base period for determining Board membership will assure compliance with the Cotton Research and Promotion Act and Order. In addition the rule provides that production figures will be based on 480-pound net weight bales rather than 500-pound gross weight bales.

EFFECTIVE DATE: August 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Alvin Deck, Marketing Programs Branch Cotton Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202–447–2072.

SUPPLEMENTARY INFORMATION: On December 14, 1976, a notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 54494) which presented a proposal to revise Section 1205.402 of the Regulations for the determination of Cotton Board membership. The proposed revision would have changed the production period used for determining representation on the Cotton Board for states entitled to more than one Board member and changed the basis for stating annual production from 500-pound gross weight bales to 480-pound net weight bales.

The Cotton Research and Promotion Act provides that Cotton Board members will be selected "* * * so that the representation of cotton producers on the Board for each cotton-producing State shall reflect to the extent practicable, the proportion which that State's marketings of cotton bears to the total marketings of cotton in the United States: Provided, however, That each cotton-producing State shall be entitled to at least one representative on the Cotton Board * * *"

Section 1205.318 of the Cotton Research and Promotion Order provides that each cotton-producing State shall be represented by at least one member and by an additional member for each 1 million bales or major fraction (more than one-half) thereof of cotton produced in the State and marketed above 1 million bales during the period specified in the regulations for determining Board membership.

Section 1205.402 provides that average annual production of upland cotton for the five marketing years 1961 through 1965 shall be used as the basis for determining representation on the Cotton Board for States entitled to more than one Board member. Production volumes in cotton-producing States have changed since the 1961–1965 period and a more recent base period should be used to assure compliance with the Cotton Research and Promotion Act and Order.

In lieu of a 5-year stated period which might need updating from time-to-time it was proposed to use the average of upland cotton production in each cotton-producing State during the most recent five marketing years. Under the proposed revision of § 1205.402 the Director of the Cotton Division, AMS would notify all certified cotton producer organizations in each cotton-producing State of the number of vacancies to be filled on the Cotton Board each year prior to the caucus. The proposal also provided that each member and alternate member appointed would serve a full 3-year term even though use of the 5-year moving average criteria resulted in a determination that a State's membership should be reduced in subsequent years.

Interested persons were given until February 11, 1977, to submit comments on the proposal. Written submissions were received by the Hearing Clerk from 13 parties. Comments received from all sources have been reviewed and considered.

None of the comments received were in support of the proposal to shift the 5-year production base to the most recent 5 years. However most of those commenting indicated some revision should be made in the criteria for determining Board membership. Several alternatives were suggested and considered but these would require a change in the Cotton Research and Promotion Act and/or Order and subsequent approval of an amendment to the Order in a grower referendum.

Some action is needed now to correct the present unequitable representation among the large cotton-producing states. It has been determined the most practicable means to accomplish this is to update the base period by annually dropping one year off the current 1961–65 base and adding the most recent marketing year.

In 1971 the industry adopted net weight trading terms in lieu of gross weight trading. Therefore, the basis for stating annual production in 500-pound gross weight bales as presently provided in § 1205.402 needs to be changed to 480-pound net weight bales to reflect current marketing practices. Those commenting did not object to this revision.

Therefore, under authority contained in Section 15 of the Cotton Research and Promotion Act as amended (80 Stat. 285, 7 U.S.C. 2114), and in consideration of the foregoing, 7 CFR Part 1205 is amended by revising § 1205.402 as follows:

§ 1205.402 Determination of Cotton Board membership.

(a) In determining whether any cotton-producing State is entitled to be represented by more than one member of the Cotton Board pursuant to § 1205.318, average annual production of upland cotton in terms of 480-pound net weight bales for the following marketing years, shall be used as the criteria for determination of such additional members:

For Cotton Board members whose term of office begins—	*Marketing years to be used*
Jan. 1, 1979	1962, 1963, 1964, 1965, 1977.
Jan. 1, 1980	1963, 1964, 1965, 1977, 1978.
Jan. 1, 1981	1964, 1965, 1977, 1978, 1979.
Jan. 1, 1982	1965, 1977, 1978, 1979, 1980.
Jan. 1, 1983 and thereafter	5 most recent marketing years.

(b) All members appointed from a State shall be entitled to serve a full 3-year term even though it is determined in a subsequent year that a State should have fewer additional members by using the average production of the 5 marketing years specified in paragraph (a) of this section.

(c) Each year the Director shall, based on the criteria set forth in paragraph (a) of this section, notify all certified cotton producer organizations in each cotton-producing State the number of vacancies to be filled on the Cotton Board.

Dated: August 12, 1977.

WILLIAM T. MANLEY,
Acting Administrator.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33–5851; 34–13844]

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Deferral of Effective Date of Beneficial Ownership Disclosure Requirements

AGENCY: Securities and Exchange Commission.

ACTION: Deferral of effective date.

SUMMARY: Because numerous inquiries have been raised concerning the applicability of the new beneficial ownership disclosure requirements scheduled to become effective on August 31, 1977, the Commission has decided to postpone the effective date until April 30, 1978. The action is being taken at this time so that interested persons will be aware of the postponement at the earliest practicable date. However, any person may on a voluntary basis choose to rely upon the new and amended beneficial ownership rules and forms during the interim period from September 1, 1977 through April 30, 1978.

DATES: Effective date: April 30, 1978, except that Rule 13d–3 will become effective on August 31, 1977 only for the purposes of Rule 14d–1(g).

FOR FURTHER INFORMATION CONTACT:

John Granda, Division of Corporation Finance, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202–755–1750.

On February 24, 1977, the Commission announced the amendment of existing rules and Schedule 13D (17 CFR 240.13d–101) and the adoption of new rules and Form 13D–5 (17 CFR 240:13d–102) relating to disclosure by certain beneficial owners of securities pursuant to Section 13(d) of the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a

V42159 AUG 17 77 UMI

et seq., as amended by Pub. L. No. 94–29 (June 4, 1975)). Concomitantly, the Commission amended certain of its forms and schedules under the Securities Act of 1933 ("Securities Act") (15 U.S.C. 77a et seq.) and under the Exchange Act to require issuers to disclose information regarding certain beneficial owners of their securities. These actions were to become effective on August 31, 1977. Securities Act Release No. 5808, Exchange Act Release No. 13292 (42 FR 12355). Since the Commission announced the adoption of the new beneficial ownership disclosure requirements, the staff has received numerous inquiries and requests for interpretative advice concerning their application. In addition, certain institutional investors have raised practical and other considerations relating to the impact of the rules upon them.

Accordingly, the Commission has determined to defer the effective date of the new rules from August 31, 1977 until April 30, 1978. Within the next several days, the Commission will distribute a release detailing the precise issues upon which it wishes comments.

Because of the interrelationship between Sections 13(d) and the 14(d) of the Exchange Act, the delay of the effective date of the beneficial ownership disclosure requirements will have certain effects on the operation of the Tender Offer Statement, Schedule 14D–1 (17 CFR 240.14d–100), and amended Rule 14d–1 (17 CFR 240.14d–1) which are scheduled to become effective on August 31, 1977.[1] Specifically, Rule 14d–1 (g) incorporates by reference for purposes of Section 14(d)(1) of the Exchange Act the definition of "beneficial owner" set forth in Rule 13d–3. In order to implement the amendments to Rule 14d–1, Rule 13d–3 will become effective on August 31, 1977 only for purposes of Rule 14d–1(g). A second effect of such delay concerns the filing requirements of a bidder under Section 13(d) after the termination of the tender offer. Pursuant to General Instruction F of Schedule 14D–1, the final amendment required to be filed on that Schedule is deemed to satisfy the reporting requirements of Section 13(d) with respect to all securities acquired by the bidder pursuant to the tender offer. However, should a bidder, who has acquired more than five percent of the class of securities of the subject company by its tender offer, acquire additional securities of such class subsequent to the termination of such tender offer, a reporting requirement under Section 13(d) would be triggered. To alleviate possible confusion and burdens upon such persons, the requirements of amended Schedule 13D may be complied with on a voluntary basis during the interim period.

The Commission hereby defers until April 30, 1978 the effective date of Rules 13d–1 (17 CFR 240.13d–1), 13d–2 (17 CFR 240.13d–2), 13d–3 (17 CFR 240.13d–3), (except that Rule 13d–3 will become effective on August 31, 1977 only for the purposes of Rule 14d–1(g)), 13d–4 (17 CFR 240.13d–4), 13d–5 (17 CFR 240.13d–5), 13d–6 (17 CFR 240.13d–6) and 13d–7 (17 CFR 240.13d–7), Form 13D–5 and Schedule 13D; the amendment of Forms 10 (17 CFR 249.210) and 10–K (17 CFR 249.310), and Schedules 14A (17 CFR 240.14a–101), 14B (17 CFR 340.14a–102) and 14C (17 CFR 240.14c–101); the amendment of Forms S–1 (17 CFR 239.–11) and S–11 (17 CFR 239.18), all as announced in Securities Act Release No. 5808, Exchange Acts Release No. 13291. Any person who so chooses may rely upon the new rules and forms and amendments as if adopted. No person is relieved from complying with the present statutory obligations under Section 13(d) pending the effective date of the rules, forms and amendments.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

AUGUST 10, 1977.

[FR Doc.77-23729 Filed 8-16-77;8:45 am]

[1] Exchange Act Release No. 34-13787 (July 28, 1977) (42 FR 38341).

[Release No. IC-9886, File No. S7-701]

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

Certain Persons Not Deemed Interested Persons

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission has adopted a rule to exempt certain persons from being deemed interested persons under the Investment Company Act of 1940. This exemption applies under specified circumstances to a broker or dealer, or any affiliated person of such broker or dealer, who would otherwise be deemed an interested person of an investment company, or of an investment company's investment adviser or principal underwriter. This rule will obviate the need for exemptive applications under circumstances in which the Commission has granted a number of orders.

EFFECTIVE DATE: Immediately.

FOR FURTHER INFORMATION CONTACT:

Mark B. Goldfus, Attorney, Division of Investment Management, Securities and Exchange Commission, Washington, D.C. 20549, 202–755–0225.

SUPPLEMENTARY INFORMATION: On June 3, 1977, the Commission published notice in Investment Company Act Release No. 9799 (42 FR 30215 (June 13, 1977)), that it had under consideration a proposal to adopt Rule 2a–5 (17 CFR 270.2a–5) under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.) ("Act"). The notice invited all persons who are interested in this matter to submit their views and comments on the proposed rule. The Commission has considered the comments received and has determined that, as modified herein, Rule 2a–5 is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. The adoption of Rule 2a–5 represents another step in the Commission's program to examine its regulation of investment companies and institute appropriate modifications where practicable.

In response to a concern that the proposed rule's reference to investment company "shares" may be thought to exclude from its scope variable annuity contracts or variable life insurance contracts, the rule has been modified by deleting the word "shares" in favor of the term "securities."

Because Rule 2a–5 is exemptive in nature, it is effective immediately.

Accordingly, Part 270, Chapter II of Title 17 of the Code of Federal Regulations is amended, pursuant to Section 6(c) of the Act (15 U.S.C. 80a–6(c)), by adding § 270.2a–5 as follows:

§ 270.2a–5 Certain persons not deemed interested persons.

A person shall not be deemed an interested person of another person, as defined by Section 2(a)(19), with respect to an investment company, or any investment adviser of or any principal underwriter for such investment company, solely because such person is a broker or dealer, as described in subparagraphs (A)(v) and (B)(v) of Section 2(a)(19), or an affiliated person of such a broker or dealer: *Provided*, That (a) such broker or dealer does not directly or indirectly act as a broker or dealer except in distributing securities issued by one or more registered investment companies other than such investment company; and (b) no such securities are distributed to such investment company.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

AUGUST 10, 1977.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

(T.D. 77-202)

PART 153—ANTIDUMPING

Modification or Revocation of Dumping Finding

AGENCY: United States Treasury Department.

ACTION: Exclusion of companies from a finding of dumping.

SUMMARY: This notice is to inform the public that Amax Potash, Ltd. and Duval Corporation of Canada are no longer selling potassium chloride, otherwise known as muriate of potash, from Canada at less than fair value under the Antidumping Act, 1921. Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries. In addition, Amax Potash, Ltd. and Duval Corporation of Canada have given assurances that future sales will not be at less than fair value. As a result of this action, shipments of this merchandise from these companies which were entered or withdrawn from warehouse, for consumption on or after February 11, 1977, will not be liable for special dumping duties.

EFFECTIVE DATE: February 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Vince P. Kane, Duty Assessment Division, United States Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229, 202–566–5492.

SUPPLEMENTARY INFORMATION: On February 11, 1977, there was published in the FEDERAL REGISTER (42 FR 8740) a "Tentative Determination to Modify or Revoke Dumping Finding" with respect to potassium chloride, otherwise known as muriate of potash, from Canada, produced and/or sold by Duval Corporation of Canada and Amax Potash, Ltd.

Reasons for the tentative determination were published in the above-mentioned notice, and interested persons were afforded an opportunity to make written submissions or request the opportunity to present oral views in connection therewith.

No written submissions or requests to present oral views having been received, I hereby determine that for the reasons stated in the above-mentioned notice, potassium chloride, otherwise known as muriate of potash, from Canada is no longer being, nor is likely to be, sold in the United States at less than fair value by Duval Corporation of Canada and Amax Potash, Ltd., and the above-mentioned finding of dumping is hereby modified to exclude the subject merchandise produced and/or sold by the aforesaid firms.

Accordingly, § 153.46 of the Customs Regulations (19 CFR 153.46) is hereby amended to show the exclusion from the finding of dumping of potassium chloride, otherwise known as muriate of potash, from Canada, produced and/or sold by Duval Corporation of Canada and Amax Potash, Ltd.

§ 153.46 [Amended]

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 744–77]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart O—Office of Management and Finance

DELEGATING AUTHORITY CONCERNING ACQUISITION OF REAL PROPERTY

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: Under existing Departmental regulations, the Assistant Attorney General for Administration has been delegated the authority to direct and administer policies and procedures concerning the acquisition of real property for Departmental use. This order designates the Assistant Attorney General for Administration as the official responsible for taking final action relating to the acquisition of real property for Departmental use. The purpose of the order is to clarify the authority of the Assistant Attorney General for Administration and involves requests to the General Services Administration for transfer of property to the Department from GSA's surplus Federal property inventory.

EFFECTIVE DATE: August 5, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert L. Dennis, Acting Director, Administrative Programs Staff, Room 6213, Department of Justice, Washington, D.C. 20530, 202–739–3217.

By virtue of the authority vested in me by 5 U.S.C. 301 and 28 U.S.C. 509 and 510, Section 0.76 of Subpart O of Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended by the addition of the following new paragraph (w).

§ 0.76 Specific functions.

Subject to the general supervision and direction of the Attorney General, the functions delegated to the Assistant Attorney General for Administration by this Subpart O shall also include the following specific policy functions:

• • • • •

(w) Taking final action, including making all required determinations and findings, in connection with the acquisition of real property for use by the Department of Justice.

Dated: August 5, 1977.

GRIFFIN B. BELL,
Attorney General.

[FR Doc. 77-23626 Filed 8-16-77;8:45 am]

PART 2—PAROLE, RELEASE, SUPERVISION, AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Paroling; Recommitting and Supervising Federal Prisoners

AGENCY: The United States Parole Commission.

ACTION: Correction.

SUMMARY: This document corrects the publication of a final rule governing extraordinary reviews by the full Commission. As originally proposed, the amended language should have been a substitute for an existing provision; instead the amendment was printed as an additional paragraph. This rule is now changed to reflect the Commission's vote that the new language substitute for the former provision.

EFFECTIVE DATE: August 9, 1977.

FOR FURTHER INFORMATION, CONTACT:

Michael A. Stover, Office of the General Counsel, United States Parole Commission, 320 First Street NW., Washington, D.C. 20537, telephone 202–724–3092.

V 42 159 AUG 17 77 UMI

SUPPLEMENTARY INFORMATION: On June 10, 1977, the Commission published a proposal to amend the language of 28 CFR 2.54(b). The proposed amendment (with some changes to reflect statutory time limits and to clarify cross-references) was adopted by the Commission at its meeting of July 28, 1977. The Commission's vote, however, was erroneously reported as intending that the amendment be printed as a new paragraph (c), and the publication, at 42 FR 39669 (August 5, 1977) reflected this error (F.R. Doc. 77-22724). A correction of the minutes revealed that the Commission intended the format to be as originally proposed, viz., the substitution of the new language for the existing paragraph (b).

Accordingly, pursuant to the provisions of 18 U.S.C. § 4203(a)(1) and § 4204(a)(6), 28 CFR Chapter 1, Part 2, § 2.54, is corrected as set forth below, effective August 9, 1977.

§ 2.54 Reviews pursuant to 18 U.S.C. §§ 4203/4215.

§ 2.54 [Corrected]

* * * * *

(b) Notwithstanding the provisions of §§ 2.23–2.26 and § 2.28, any decision made by a Regional Commissioner or the National Appeals Board shall, upon the petition of not less than three Commissioners, be referred to the full Commission for review and, by majority vote, affirmed, modified, or reversed. Such petition must be submitted to the Chairman of the Commission and be acted upon by the Commission not later than 30 days from the date of entry of the decision to be reviewed. The prisoner shall receive a written notice of this referral, which shall stay the decision in his case until such review has been completed. Following review by the full Commission, the prisoner shall be informed in writing of the Commission's decision and, if parole is denied, of the reasons therefor.

Dated: August 9, 1977.

CURTIS C. CRAWFORD,
Acting Chairman,
U.S. Parole Commission.

[FR Doc.77-23815 Filed 8-16-77;8:45 am]

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Paroling, Recommitting and Supervising Federal Prisoners

AGENCY: The United States Parole Commission.

ACTION: Final rule.

SUMMARY: This amended rule sets forth and interprets the statutory provisions governing eligibility for parole at 18 U.S.C. § 4205, for the information of prisoners, their attorneys, and the general public. The amendment is designed to clarify the previous interpretation.

EFFECTIVE DATE: August 10, 1977.

FOR FURTHER INFORMATION CONTACT:

Michael Stover, Office of the General Counsel, United States Parole Commission, 320 First Street NW., Washington, D.C. 20537, telephone 202–724–3092.

SUPPLEMENTARY INFORMATION: This amended rule, which merely attempts to illustrate the working of the statutory parole eligibility provisions in each of the types of sentences which may be imposed, is made effective immediately in order to promote public understanding of the sentencing laws [18 U.S.C. § 4205].

Accordingly, pursuant to the provisions of 18 U.S.C. § 4203(a)(1) and § 4204(a)(6), 28 CFR Chapter I, Part 2, is amended as set forth below to become effective August 10, 1977.

Dated: August 10, 1977.

CURTIS C. CRAWFORD,
Acting Chairman,
United States Parole Commission.

Sections 2.2 and 2.3 are revised as follows:

§ 2.2 Eligibility for parole; adult sentences.

(a) A Federal prisoner serving a maximum term or terms of more than one year imposed pursuant to 18 U.S.C. 4205(a) [or pursuant to former 18 U.S.C. 4202] may be released on parole in the discretion of the Commission after completion of one-third of such term or terms, or after completion of ten years of a life sentence or of a sentence of over thirty years.

(b) A Federal prisoner serving a maximum term or terms of more than one year imposed pursuant to 18 U.S.C. 4205(b)(1) [or pursuant to former 18 U.S.C. 4208(a)(1)] may be released on parole in the discretion of the Commission after completion of the court-designated minimum term, which may be less than but not more than one-third of the maximum sentence imposed.

(c) A Federal prisoner serving a maximum term or terms of more than one year imposed pursuant to 18 U.S.C. 4205(b)(2) [or pursuant to former 18 U.S.C. 4208(a)(2)] may be released on parole at any time in the discretion of the Commission.

(d) If the Court has imposed a maximum term or terms of more than one year pursuant to 18 U.S.C. 924(a) or 26 U.S.C. 5871 [violation of Federal gun control laws], a Federal prisoner serving such term or terms may be released at any time in the discretion of the Commission as if sentenced pursuant to 18 U.S.C. 4205(b)(2).

(e) A Federal prisoner serving a maximum term or terms of one year or less is not eligible for parole consideration by the Commission, except that a Federal prisoner sentenced prior to May 14, 1976, to a maximum term or terms of at least six months but not more than one year is eligible for parole consideration after service of one-third of such term or terms.

§ 2.3 Same; Narcotic Addict Rehabilitation Act.

A Federal prisoner committed under the Narcotic Addict Rehabilitation Act may be released on parole in the discretion of the Commission after completion of at least six months in treatment, not including any period of time for "study" prior to final judgment of the court. Before parole is ordered by the Commission, the Surgeon General or his designated representative must certify that the prisoner has made sufficient progress to warrant his release and the Attorney General or his designated representative must also report to the Commission whether the prisoner should be released. Recertification by the Surgeon General prior to reparole consideration is required.

(18 U.S.C. 4254)

[Order No. 746-77]

PART 16—PRODUCTION OR DISCLOSURE OF INFORMATION

Subpart E—Exemption of Records Systems Under the Privacy Act

REVOCATION OF AN EXEMPTION

AGENCY: Department of Justice

ACTION: Final rule.

SUMMARY: As explained in greater detail in the notice portion of today's FEDERAL REGISTER,[1] the Watergate Special Prosecution Force (WSPF) within the Department of Justice has been terminated and its systems of records are being transferred and duplicate travel records are being destroyed. Notices were previously published at 42 FR 12805–12806 (March 4, 1977) of the existence of the three systems of records maintained by the WSPF. Two of these systems of records, Justice/WSPF–001, Watergate Special Prosecution Force Investigative and Prosecutory Files, and Justice/WSPF–002, Watergate Special Prosecution Force Automated Investigation Files, were exempted by 28 CFR 16.78 from certain provisions of the Privacy Act. Inactive records in Justice/WSPF–001 and all records in Justice/WSPF–002 are to be transferred to the Archivist of the United States. Active records from Justice/WSPF–001 will be transferred to other law enforcement components of the Department and maintained in appropriate systems of records also subject to the Privacy Act. Accordingly, 28 CFR 16.78 is being revoked in its entirety because it is unnecessary.

EFFECTIVE DATE: August 5, 1977.

[1] See FR Doc. 77-23841 published in the notice section of this issue of the FEDERAL REGISTER under Department of Justice.

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

[AF Reg. 12-35]

PART 806b—AIR FORCE PRIVACY ACT PROGRAM

Subpart H—Appendices

AGENCY: Department of the Air Force.

ACTION: Final rule.

SUMMARY: This rule adopts a prescribed exemption which may be claimed under the Privacy Act for the system of records identified as: F04501 OKPNQSA Cadet Records. (See FR Doc. 77–23132, Department of the Air Force, in the Notices section of this issue). This action is being taken to protect the identities of persons who provide data, in confidence, which is used to determine the suitability, eligibility, or qualification of cadets for Federal Military Service.

DATE: This rule is effective August 3, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Jon E. Updike, 202–767–4545.

SUPPLEMENTARY INFORMATION: On July 1, 1977, the Department of the Air Force published a proposed amendment to 32 CFR 806b, Subpart H, to exempt the system of records described above from specified provisions of the Privacy Act. The proposal was initially published in FR Doc. 77–18784 of July 1, 1977 (42 FR 33776) and republished in the FEDERAL REGISTER of July 19, 1977 (42 FR 37019) to correct a typesetting error. Interested persons were invited to participate in the rulemaking process; however, no comments were received relative to the proposed amendment. The proposal is therefore adopted without change.

JAMES E. DAGWELL,
Chief, Documentation Management Branch, Directorate of Administration.

MAURICE W. ROCHE,
Director, Office of the Assistant Secretary of Defense (Comptroller).

AUGUST 8, 1977.

§ 806.58 Specific exemptions.

* * * * *

(m) *04501 Cadet Records*—(1) *Exemptions.* Portions of this system of records (Detachment POC Selection Rating Sheets; AFROTC Form 0–24—Disenrollment Review; Memorandum for Record and Staff papers containing staff advice, opinions, or suggestions) are exempt from the following provisions of 5 U.S.C. 552a: (c)(3), (d), (e)(4)(H), (e)(4)(G), and (f), but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an expressed promise that the identity of the source would be held in confidence, or prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence.

(2) *Authority.* 5 U.S.C. 552a(k)(5).

(3) *Reasons.* The release of information used to determine suitability, eligibility, or qualification for Federal Military Service would cause the identity of a confidential source to be revealed. The information contained in these documents is considered relevant and necessary to making judicious determinations as to the qualification, eligibility and suitability of cadets for graduation and for commissioning as an officer in the United States Air Force. This information could only be obtained by providing assurance to the source that his or her identity would not be revealed.

[FR Doc.77-23131 Filed 8-16-77;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 2—DELEGATIONS OF AUTHORITY

Office of the General Counsel

AGENCY: Veterans Administration.

ACTION: Final Regulation.

SUMMARY: This revision delegates authority to officials in the Office of the General Counsel to hold harmless or provide liability insurance for certain persons, for damage for personal injury or death, or for property damage, negligently caused by such person while furnishing medical care or treatment in the exercise of his or her duties. It increases the authority to settle and pay a claim made by a civilian officer or employee of the Veterans Administration for damage to, or loss of, personal property incident to service and provides authority to conduct investigations, examine witnesses and to countersign VA Form 4505. It also reflects the organization change that placed District Counsels (formerly Chief Attorneys) under the General Counsel and corrects references to gender. This revision provides for greater efficiency in operation.

EFFECTIVE DATE: August 10, 1977.

FOR FURTHER INFORMATION CONTACT:

Joseph J. Lindekugel (02A1), Director, Management and Operations Staff, Office of General Counsel, Veterans Administration, Washington, DC 20420 (202–389–3730).

SUPPLEMENTARY INFORMATION: On page 39339 of the FEDERAL REGISTER of September 15, 1976, there was published a notice of proposed regulatory development to amend § 2.6(e) relating to delegations of authority.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation. No written comments have been received and the proposed regulation is hereby adopted without change and is set forth below.

Approved: August 10, 1977.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

In § 2.6, paragraph (e) is revised to read as follows:

§ 2.6 Administrator's delegations of authority to certain officials (38 U.S.C. 212(a)).

Employees occupying or acting in the positions designated below are delegated authority as indicated:

* * * * *

(e) *General Counsel.* (1) Under the Federal Tort Claims Act, pursuant to the provisions of 28 U.S.C. 2672, authority is delegated to the General Counsel, Deputy General Counsel and Assistant General Counsel, or those authorized to act for them, to:

(i) Consider, ascertain, adjust, determine, compromise, and settle any claim accruing on and after January 18, 1967, and asserted under the Federal Tort Claims Act, as amended by Pub. L. 89–506 (80 Stat. 306): *Provided*, That any award, compromise, or settlement in excess of $25,000 shall be effected only with the prior written approval of the Attorney General or designee.

(ii) Execute an appropriate voucher and other necessary instruments in connection with final disposition of claims within their settlement authority, and to execute an appropriate voucher in connection with claims compromised by the Attorney General pursuant to 28 U.S.C. 2677, and to determine whether such claims meet the criteria, "potentially subject to the offset provisions of 38 U.S.C. 351," for the purpose of the last clause under the heading, Veterans Administration "Compensation and Pensions," in the Independent Offices Appropriation Act.

(iii) Authority delegated to the General Counsel may be redelegated by the General Counsel to selected District Counsels or those authorized to act for them.

(2) Under the provisions of 38 U.S.C. 236, the General Counsel, Deputy General Counsel, Assistant General Counsel

V 421159 AUG 17 77 UM

and District Counsel, or those authorized to act for them, are authorized to consider, ascertain, adjust, determine, and settle tort claims cognizable thereunder and to execute an appropriate voucher and other necessary instruments in connection with the final disposition of such claims.

(3) Under the provisions of "The Federal Medical Care Recovery Act," 42 U.S.C. 2651, et seq. (as implemented by Part 43, Title 28, Code of Federal Regulations), authority is delegated to the General Counsel, Deputy General Counsel, Assistant General Counsel, Deputy Assistant General Counsel and District Counsel, or those authorized to act for them, to collect in full, compromise, settle, or waive any claim and execute the release thereof; however, claims in excess of $20,000 may be compromised, settled, or waived only with the prior approval of the Department of Justice.

(4) Under the Federal Claims Collection Act of 1966, 31 U.S.C. 951, et seq., authority is delegated to the General Counsel, Deputy General Counsel, Assistant General Counsel, Deputy Assistant General Counsel, and District Counsel or those authorized to act for them, to:

(i) Make appropriate determinations with respect to the litigative probabilities of a claim (§ 1.932 of this chapter), the legal merits of a claim (§ 1.942(e) of this chapter), and any other legal considerations of a claim.

(ii) Collect in full a claim involving damage to or loss of Government property under the jurisdiction of the Veterans Administratioin resulting from negligence or other legal wrong of a person (other than an employee of the Government while acting within the scope of his or her employment) and to compromise, suspend or terminate any such claim not exceeding $20,000.

(iii) Collect a claim in full from a third party or legal entity who is liable for the cost of hospital, medical, surgical, or dental care and treatment of a person, and to compromise, suspend, or terminate any such claim not exceeding $20,000.

(iv) The delegations of authority set forth in paragraph (e)(4)(ii) and (iii) of this section do not apply to the handling of any claim as to which there is an indication of fraud, the presentation of a false claim or misrepresentation on the part of the debtor or any other party having an interest in the claim, or to any claim based in whole or in part on conduct in violation of the antitrust laws. Such cases will be considered by the General Counsel, who will make the determination in all instances as to whether the case warrants referral to the Department of Justice. The delegations of authority are applicable to those claims where the Department of Justice determines that action based upon the alleged fraud, false claim, or misrepresentation is not warranted.

(5) Pursuant to the provisions of the Military Personnel and Civilian Employees' Claims Act of 1964, 31 U.S.C. 241, the General Counsel, Deputy General Counsel, Assistant General Counsel, Deputy Assistant General Counsel, and District Counsel or those authorized to act for them, are authorized to settle and pay a claim for not more than $15,000 made by a civilian officer or employee of the Veterans Administration for damage to, or loss of, personal property incident to his or her service occurring subsequent to August 31, 1964.

(6) Authority is delegated to the General Counsel or designee to make the final decision on complaints of discrimination on grounds of race, color, religion, sex, or national origin brought by an aggrieved employee or qualified applicant for employment in the Veterans Administration.

(7) Under the provisions of 38 U.S.C. 4116(e), authority is delegated to the General Counsel, Deputy General Counsel, and the Assistant General Counsel (Professional Staff Group I), to hold harmless or provide liability insurance for any person to whom the immunity provisions of section 4116 apply, for damage for personal injury or death, or for property damage, negligently caused by such person while furnishing medical care or treatment in the exercise of his or her duties in or for the Department of Medicine and Surgery, if such person is assigned to a foreign country, detailed to State or political division thereof, or is acting under any other circumstances which would preclude the remedies of an injured third person against the United States, provided by sections 1346(b) and 2672 of title 28, United States Code, for such damage or injury.

(8) The General Counsel, Deputy General Counsel, and those authorized to act for them, are authorized to conduct investigations, examine witnesses, take affidavits, administer oaths and affirmations, and certify copies of public or private documents on all matters within the jurisdiction of the General Counsel. Pursuant to the provisions of § 2.2(c), the General Counsel, Deputy General Counsel, and those authorized to act for them, are authorized to countersign VA Form 4505.

(9) All authority delegated in this paragraph to District Counsels will be exercised by them under the supervision of and in accordance with instructions issued by the General Counsel.

[FR Doc.76-23754 Filed 8-16-77;8:45 am]

UPDATING OF LEGAL REGULATIONS

Miscellaneous Amendments

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: This revision is a consolidation of regulations reflecting an organization change which placed the District Counsels (formerly Chief Attorneys) under the administrative control of the General Counsel. It corrects reference to gender, changes the title of the field attorneys, limits to pure legal activities the involvement of the District Counsel in fiduciary and guardianship matters and implements the increased delegated authority of District Counsels. This revision provides for greater efficiency in operation.

EFFECTIVE DATE: August 10, 1977.

FOR FURTHER INFORMATION CONTACT:

Joseph J. Lindekugel (02A1), Director, Management and Operations Staff, Office of General Counsel, Veterans Administration, Washington, D.C. 20420, 202-389-3730.

SUPPLEMENTARY INFORMATION: On September 15, 1976, the Veterans Administration published proposed regulations (41 FR 39340) to revise Part 14. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations. One comment recommending changes in the recognition of organizations, representatives, agents, and attorneys was received. This subject is currently under review and therefore, no action on this recommendation will be taken at the present time.

Section 14.602 has been amended to include "Chicago" and "Houston", and to increase the dollar amount of settlement authority for all District Counsels. Changes are made in §§ 14.605, 14.608, 14.610, and 14.619 to show in-house administrative procedures, and § 14.506 is revoked.

Approved: August 10, 1977.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

PART 13—DEPARTMENT OF VETERANS BENEFITS, FIDUCIARY ACTIVITIES

§§ 13.400, 13.401 and 13.402 [Revoked]

1. In Part 13, §§ 13.400, 13.401 and 13.402 are revoked.

PART 14—LEGAL SERVICES, GENERAL COUNSEL

2. In Part 14, §§ 14.500 through 14.504 are revised and §§ 14.505, 14.506 and 14.507 are added so that the added and revised material reads as follows:

§ 14.500 Functions and responsibilities of General Counsel.

The General Counsel is responsible to the Administrator for the following:

(a) All litigation arising in, or out of, the activities of the Veterans Administration or involving any employee thereof in his or her official capacity.

(b) All interpretative legal advice involving construction or application of laws, including statutes, regulations, and decisional as well as common law.

(c) All legal services, advice and assistance required to implement any law administered by the Veterans Administration.

(d) All delegations of authority and professional guidance required to meet these responsibilities.

(e) Maintenance of a system of field offices capable of providing legal advice and assistance to all Veterans Administration field installations and acting for the General Counsel as provided by Veterans Administration Regulations and instructions, or as directed by the

General Counsel in special cases. This includes cooperation with U.S. Attorneys in all civil and criminal cases pertaining to the Veterans Administration and reporting to the U.S. Attorneys, as authorized, or to the General Counsel, or both, criminal matters coming to the attention of the District Counsel.

(f) Other matters assigned.

§ 14.501 Functions and responsibilities of District Counsels.

(a) Functions and responsibilities of the District Counsels are those set forth in this part and all other matters assigned by the General Counsel.

(b) In any matter within the jurisdiction of the General Counsel, delegated or otherwise assigned, the District Counsel and designated staff attorneys are authorized to conduct investigations, examine witnesses, take affidavits, administer oaths and affirmations and certify copies of public or private documents.

(c) The District Counsel is authorized to, and shall, under the guidance of the General Counsel, provide legal services, advice and assistance to Veterans Administration installations within the district assigned. In any area of regulatory, assigned or delegated responsibility, the District Counsel may delegate to staff members or other Veterans Administration attorneys authority to perform, to the extent specified, any legal function under the professional direction of the District Counsel. Conversely, the District Counsel may modify, suspend or rescind any authority delegated hereunder.

(d) The District Counsel is authorized to cooperate with affiliated organizations, legislative committees, and with local and State bar associations to the end that any State law deficiencies relating to Veterans Administration operations may be removed. No commitment as to proposed legislation will be made without the approval of the General Counsel.

(e) In any case wherein the District Counsel is authorized to take legal action and payment of costs and necessary expenses incident thereto are involved, the department requesting such action will pay such cost and expenses. Where it is impractical for the District Counsel to perform the legal service because of cost, distance, etc., the customary fee for the service rendered by a local attorney employed by the District Counsel will be borne by the department requesting such action.

§ 14.502 Requests for legal opinions from Central Office.

Requests for formal legal advice, including interpretation of law or regulations, shall be made only by the Administrator, the Deputy Administrator, Associate Deputy Administrator, Assistant Deputy Administrator, and the department head or top staff official having jurisdiction over the particular subject matter, or by a subordinate acting for any such official.

§ 14.503 Requests for legal advice and assistance in other than domestic relations matters.

(a) Requests from administrative officials in the field for legal advice or assistance will be addressed to the appropriate District Counsel and will be in writing if requested by the District Counsel. Questions regarding insurance activities at St. Paul and Philadelphia should be referred to the District Counsel at the respective station. Except as to matters referred to in § 14.504(b), the District Counsel's authority to render legal advice and assistance shall extend to the release (unless otherwise instructed by the General Counsel), without prior approval of the General Counsel, of opinions on all legal questions which are either:

(1) Wholly controlled by the interpretation or application of the laws of the State or States in the district office area, or

(2) Covered by Veterans Administration precedents and opinions of the General Counsel which the District Counsel knows to be currently authoritative on the issues involved.

In cases covered by § 14.504(b) and all others not included in paragraph (a)(1) or (2) or paragraph (b) of this section, the District Counsel will prepare a tentative opinion (including identification of the benefit sought) and forward it to the General Counsel for review. When it is returned, the District Counsel will conform the opinion (if necessary) to the views of the General Counsel, and release it to the requesting official. The District Counsel may release any modified opinion as the opinion of the General Counsel.

(b) The District Counsel may submit to the General Counsel any legal question, opinion, or question pertinent to legal functions, upon which the views or advice of the General Counsel are desired. This request should set forth the special circumstances, contain a statement of the legal implications involved (including any Veterans Administration benefits claimed), set forth the facts out of which they arise, and cite any statutes or court decisions readily available, regulations, related opinions of the General Counsel and other matters deemed pertinent, with appropriate discussion. If any department will be affected, a copy of the reply will be forwarded to that department head.

§ 14.504 Domestic relations questions, authority and exceptions.

(a) District Counsels have the same authority with respect to domestic relations questions as they do with respect to matters covered by § 14.503 except as specifically excluded by the provisions of paragraph (a) of that section.

(b) In the following instances the District Counsel, regardless of whether State law is wholly controlling or a Veterans Administration precedent is available, will prepare a tentative opinion, research as completely as possible with reasonably available facilities, and forward two copies thereof directly to the General Counsel for review and disposition (as provided in § 14.503 respecting other than domestic relations matters):

(1) Where it is not clear under applicable State law (i) whether the marriage of a veteran's child or the remarriage of a veteran's widow was void without decree of annulment, or (ii) whether an annulment decree was rendered by a court with basic authority to render annulment decrees;

(2) When fraud or collusion by either party appears to have influenced the granting of an annulment decree;

(3) Cases in which there are contesting claims;

(4) Unusual situations, such as those involving proxy marriages, the law of two or more jurisdictions or of a foreign country;

(5) Cases involving difference of opinion between District Counsels or between a District Counsel and the official who submitted the question involved.

§ 14.505 Submissions.

All submissions will set forth the question of law on which the opinion is desired, together with a complete and accurate summary of relevant facts. Files, correspondence, and other original papers will not be submitted, unless pertinent portions thereof cannot practicably be summarized, or copies made and attached as exhibits.

§ 14.507 Opinions.

Formal opinions of the General Counsel in individual claims (compensation, pension, insurance, loans, vocational rehabilitation, readjustment allowance, indemnity, etc.) are filed in the individual claims or insurance folder. (See § 1.525 of this chapter.)

Printed opinions of the General Counsel of a general nature (administration, claims, fiscal, personnel, contracts, loan guaranty, or insurance, etc.) will be digested and indexed. Copies will be filed in the Office of the General Counsel and in District Counsels' offices. Such opinions are not available for general distribution outside the Veterans Administration, but copies of printed opinions on subjects of general interest (as, for example, loan guaranty, vocational rehabilitation and education, etc.) may be supplied persons, organizations or agencies interested in the subject covered by the opinion, or affected by it, when, in the opinion of the General Counsel or of the service concerned, the public interest justifies or requires such action.

3. Sections 14.514 through 14.518 are revised to read as follows:

§ 14.514 Suits by or against United States or Veterans Administration officials.

(a) *Suits against United States or Veterans Administration officials.* When a suit involving any activities of the Vet-

V 42 159 AUG 17 77 UMI

erans Administration is filed against the United States or the Administrator or a suit is filed against any employee of the Veterans Administration in which is involved any official action of the employee, not covered by the provisions of §§ 14.600 through 14.617, a copy of the petition will be forwarded to the General Counsel who will take necessary action to obtain the pertinent facts, cooperate with or receive the cooperation of the Department of Justice and, where indicated, advise the District Counsel of any further action required.

(b) *Counsel and representation of employees.* The Department of Justice may afford counsel and representation to Government employees who are sued individually as a result of the performance of their official duties. A civil action commenced in a State court against an employee, as the result of an action under color of his or her office, may be removed to the applicable Federal District Court. If a suit is filed against an employee as the result of the performance of his or her official duties, where the provisions of either 28 U.S.C. 2679 or 38 U.S.C. 4116 are not applicable (see § 14.610), and the employee desires to be represented by the U.S. Attorney, the District Counsel will obtain a written request to this effect from the employee and will also obtain an affidavit of the station Director describing the incident in sufficient detail to enable a determination to be made as to whether the employee was in the scope of his or her employment at the time. These statements, together with a copy of the petition and two copies of a summary of pertinent facts, will be sent to the General Counsel, who will transmit copies thereof to the Department of Justice for appropriate action.

(c) *Suits by the United States.* In any instance wherein direct submission to a U.S. Attorney for institution of civil action has been authorized by the Department of Justice, the District Counsel will furnish the U.S. Attorney a complete report of the facts and applicable law, documentary evidence, names and addresses of witnesses and, in cases wherein Veterans Administration action has been taken, a copy of any pertinent decision rendered. The District Counsel will forward two copies of such report and of any proposed pleading to the General Counsel, and will render any practicable assistance requested by the U.S. Attorney.

§ 14.515 Suits involving loan guaranty matters.

(a) In actions for debt, possession or actions similar in substance (including title actions) in which § 36.4282 or § 36.4319 of this chapter has been complied with, the District Counsel is authorized to enter the appearance of and represent the Administrator of Veterans Affairs as the attorney of record and to file claims for debt in probate proceedings without prior reference to the General Counsel. Any such action will normally be taken within the time prescribed by law as though there had been valid service of process. In all other types of cases, the District Counsel will not enter an appearance or file any pleading on behalf of the Administrator except in imperative emergency until authorization is received from the General Counsel after submission of all relevant facts. In doubtful cases, the District Counsel will request instructions from the General Counsel, submitting copy of so much of the pleadings or other papers, together with a sufficient recital of the facts as will make clear the background, the issues, and the relief sought. The submission also will include names and addresses of adverse parties and attorneys so that immediate action may be taken if injunctive relief seems proper. Where necessary in any case to preserve rights which might be lost by default if there had been proper service of process, appropriate action will be taken by a special appearance, or, in jurisdictions where a special appearance does not serve the purpose or under State statute or decisions will constitute a general appearance for a later date, by an appearance through amicus curiae, to obtain an extension of time, preferably 30 days or more, in which to appear and plead without prejudice. If not feasible to obtain an extension, the District Counsel will explain to adverse counsel by letter, and personally, if desirable, the necessity of deferring all action and will see that the proper judge receives a signed copy of the letter before default day. The letter will point out that there is no valid service of process on the Administrator of Veterans Affairs but will not base the delay on that alone.

(b) The General Counsel or each District Counsel representing the General Counsel is the attorney of the Administrator of Veterans Affairs for all purposes of 38 U.S.C. 1820 and, as such, is authorized to represent the Administrator in any court action or other legal matter arising under said statutory provisions. Said authorization is subject to any applicable statutes and Executive orders concerning claims of the United States. A District Counsel may enter appearance in such cases, subject to the provisions of §§ 36.4282 and 36.4319 of this chapter and paragraph (a) of this section. Each District Counsel is authorized to contract for the employment of attorneys on a fee basis for conducting any action arising under guaranty or insurance of loans or direct loans by the Veterans Administration; or for examination and other proper services with respect to title to and liens on real and personal property, material incident to such activities of the Veterans Administration, when, such employment is deemed by the District Counsel to be appropriate. The authority delegated to the District Counsel may be redelegated with the approval of the General Counsel.

(c) The General Counsel and each District Counsel, in carrying out their duties as authorized in paragraph (a) or (b) of this section, are authorized (1) to contract for and execute, for and on behalf of the Administrator, any bond (and appropriate contract or application therefor) which is required in or preliminary to or in connection with any judicial proceeding in which the District Counsel is attorney for the Administrator, and to incur obligations for premiums for such bonds and (2) to do all other acts and incur all costs and expenses which are necessary or appropriate to further or protect the interests of the Administrator in or in connection with prosecuting or defending any cause in any court or tribunal within the United States, which cause arises out of or incident to the guaranty or insurance of loans, or the making of direct loans by the Veterans Administration, pursuant to 38 U.S.C. ch. 37.

(d) Except in an emergency, no District Counsel will initiate action for appellate review without prior approval by the General Counsel. These limitations do not preclude the filing of a motion for a new trial, appeal to intermediate court with hearing de novo, the giving of notice of appeal, reserving of bills of exception, or any other preliminary action in the trial court which may be necessary or appropriate to protect or facilitate the exercise of the right of appellate review, nor do they preclude the taking of appropriate steps on behalf of the Administrator as appellee (respondent) without prior reference to the General Counsel. Upon the conclusion of the trial of a case, the District Counsel will report the result thereof to the General Counsel with recommendation as to seeking appellate review if the result reported is adverse to the position of the Veterans Administration in the litigation. The reporting District Counsel who recommends appellate review will include as a part of the communication, or in exhibits attached, (1) a summary of the evidence; (2) a summary of the law points to be reviewed; (3) citations of statutes and cases; (4) statements of special reasons for recommending appellate review; (5) time limitations for the action recommended; (6) requirements, if any, respecting printing of the record and briefs; (7) the estimated total expenses to be incurred by reason of the appeal, reporting separately the estimated costs for printing the brief and record so that authority for printing may be granted in accordance with prescribed procedure, MP–1, part II, chapter 9; [1] and (8) the recommendation or a statement as to nonrecommendation by the Loan Guaranty Officer.

§ 14.516 Escheat and post fund cases.

In any case in which the Veterans Administration is entitled to possession of assets or property under the escheat provisions of 38 U.S.C. 3202(e), the gifts provisions of 38 U.S.C. ch. 83 or the General Post Fund provisions of 38 U.S.C. ch. 85, the District Counsel will endeavor to obtain possession of such assets or property in any manner appropriate under local procedure and practice, other than litigation. This procedure would include exploratory inquiry of the person having custody or possession of the assets or property for the purpose of determining whether the person would be willing to turn over the property to the Veterans Administration without litigation. If unsuccessful in this effort, a complete report will be submitted by the District Counsel to the General Counsel so that appropriate action may be taken to obtain the assistance of the Department of Justice in the matter.

[1] Available in any Veterans Administration station.

§ 14.517 Cases affecting the Veterans Administration generally.

District Counsels will establish and maintain such close liaison with the State and Federal courts as to insure that notice will be afforded the Veterans Administration on all cases affecting the Veterans Administration. Such information will be forwarded to the General Counsel promptly in every case.

§ 14.518 Litigation involving beneficiaries in custody of Veterans Administration employees acting in official capacity.

(a) *Service of process generally.* An employee, at a field station, served with a writ of habeas corpus involving a beneficiary of the Veterans Administration in the employee's custody will immediately notify the District Counsel of the district in addition to taking such steps as in his or her judgment are necessary for self protection.

(b) *Habeas corpus writs.* (1) If a Director of a Veterans Administration hospital concerned advises that, according to current medical opinion, hospitalization is necessary for the veteran's safety or the safety of others, the District Counsel will vigorously oppose the writ at the trial court level. If the writ is granted, no further action will be taken unless so instructed by the General Counsel.

(2) If the medical opinion is that hospitalization is not required for the veteran's safety or the safety of others but continued treatment is clearly indicated in the veteran's interest, the District Counsel will assure that the court issuing the writ is so informed and will abide by the court's decision.

(3) If the medical opinion is that there is no danger of self injury to the veteran or others and the need for continued treatment is not clearly demonstrated, the District Counsel will advise the Director of the hospital concerned that the veteran should be released and will notify the veteran's attorney of the planned discharge. These cases will be handled informally to the extent practicable.

(4) Involuntary confinement of mentally ill patients in Veterans Administration installations is predicated upon the law of the State in which the installation is location. In the event the writ is filed in Federal Court, the District Counsel will cooperate with the U.S. Attorney to the end that the case is removed to the appropriate State court.

4. Sections 14.560 through 14.583 are revoked and §§ 14.560 through 14.563 are added to read as follows:

§ 14.560 Procedure where violation of penal statutes is involved.

(a) The submission to the appropriate U.S. Attorney of a violation or suspected violation of the penal provisions of the statutes of the United States will be made by the District Counsel at the regional office, hospital or center, within whose jurisdiction the alleged offense appears to have been committed. Where the file or record which contains evidence of a penal offense is located in or forwarded to Central Office, the matter will be referred to the General Counsel for development and reference to the proper District Counsel or direct to the Department of Justice. Where the file or record is maintained in any other field station, it will be referred to the District Counsel of the regional office, center or hospital in whose district the station is located for development and determination as to whether prosecution is indicated and reference to the proper U.S. Attorney if in order.

(b) In all instances where, in developing a necessary administrative investigation, there is evidence of a violation of the penal provisions of the Federal statutes, the case will be submitted to the appropriate U.S. Attorney. In Central Office, Investigation and Security Service reports showing any criminal acts will be reported by the General Counsel to the Department of Justice. If such offense seems probable, but an administrative investigation is not necessary, the matter will be reported, without investigation, to the U.S. Attorney or the Department of Justice, as the case may be. The Department of Justice is charged with the duty and responsibility of interpreting and enforcing criminal statutes, and the final determination as to whether the evidence is sufficient to warrant prosecution in any case is a matter for that Department. The function of any administrative official is to marshal all evidence within his or her possession and, when the evidence is sufficient to make a prima facie case of a violation of the statute, to transmit the same to the U.S. Attorney for such action as the Department of Justice, acting through the U.S. Attorney, may deem necessary. If the U.S. Attorney decides to prosecute, the District Counsel will cooperate with the U.S. Attorney as may be requested. Cases deemed essential to protect Veterans Administration interests or policy will be reported to the General Counsel if prosecution is delayed or declined.

(c) A report will be made to the Federal Bureau of Investigation concerning criminal matters arising under prior laws authorizing readjustment benefits and War Orphans' Educational Assistance (see sec. 3, Pub. L. 85–857; 72 Stat. 1262) and current grants of readjustment and educational assistance as authorized in title 38, United States Code. In cases arising under the foregoing acts any evidence or information coming to the attention of a District Counsel requiring determination as to whether there may be a violation of a Federal criminal statute will be brought promptly to the attention of the local office or agent of the Federal Bureau of Investigation without attempting to develop any criminal aspects, as will such facts or evidence subsequently discovered in administrative investigation or other action. Copy of the final investigation report in administrative investigation shall be forwarded to the U.S. Attorney, if, in the opinion of the District Counsel, prosecutive action is necessary for administrative purposes. The District Counsel will bring to the attention of the General Counsel any case wherein the District Counsel is of the opinion that criminal action should be initiated, notwithstanding an adverse report or lack of a report by the Federal Bureau of Investigation.

§ 14.561 Administrative action prior to submission.

Before a submission is made to the U.S. Attorney in cases involving personnel or claims, the General Counsel, if the file is in Central Office, or the District Counsel at the regional office, hospital or center, if the file is in the regional office or other field station, will first ascertain that necessary administrative or adjudicatory (forfeiture (see Pub. L. 86–222; 73 Stat. 452), etc.), action has been taken; except that in urgent cases such as breaches of the peace, disorderly conduct, trespass, robbery, or where the evidence may be lost by delay, or prosecution barred by the statute of limitations, submission to the U.S. Attorney will be made immediately.

§ 14.562 Collections or adjustments.

When it is determined that a submission is to be made to the U.S. Attorney, no demand for payment or adjustment will be made without the advice of the U.S. Attorney. However, if, before or after submission, the potential defendant or other person tenders payment of the liability to the United States, payment will be accepted if the U.S. Attorney has no objection. If the U.S. Attorney determines that prosecution is not indicated, or when prosecution has ended, the file will be returned to the appropriate office with a report as to the action taken.

§ 14.563 Crimes or offenses on Veterans Administration property.

Upon receipt by the District Counsel of a report from the Director of any Veterans Administration facility located in the district regional office area, other than the District of Columbia, indicating a violation of any penal statutes occurring on such Veterans Administration property, the District Counsel will extend full cooperation and advice to the Director. In so doing, the District Counsel will be guided by the provisions of 18 U.S.C. 13 and 3041, and 38 U.S.C. 218. Serious crimes (felonies or misdemeanors) committed on a hospital or domiciliary reservation will be reported directly to the U.S. Attorney or local agent of the Federal Bureau of Investigation by the Director of the facility. The District Counsel will give every assistance to the Director in such cases.

V 42 159 AUG 17 77 UMI

5. In § 14.600, paragraphs (a) and (b) (1) are revised to read as follows:

§ 14.600 Federal Tort Claims Act.

(a) The Federal Tort Claims Act (28 U.S.C. 1291, 1346, 1402, 1504, 2110, 2401, 2402, 2411, 2412, and 2671 through 2680) prescribes a uniform procedure for handling of claims against the United States, for money only, on account of damage to or loss of property, or on account of personal injury or death, caused by the negligent or wrongful act or omission of a Government employee while acting within the scope of his or her office or employment, under circumstances where the United States, if a private person, would be liable in accordance with the law of the place where the act or omission occurred.

(b) The act provides that: (1) No court action (except those involving a third party complaint, cross-claim, or counterclaim) shall be instituted unless the claimant shall have first presented his or her claim to, and it has been finally denied by, the appropriate Federal agency. The failure, however, of the agency to make final disposition of the claim within 6 months after it is filed may, at the option of the claimant, be deemed a final denial of the claim (28 U.S.C. 2675(a));

* * * * *

6. Section 14.601 is revised to read as follows:

§ 14.601 Dismissal action.

Where a tort suit against the United States (other than by third party complaint, cross-claim, or counterclaim) is filed without being preceded by an administrative claim (see § 14.600(b)(1)), the District Counsel shall promptly, upon receipt of notice of the action thereon, notify the U.S. Attorney and the General Counsel, who will, in turn, notify the Department of Justice, that the provisions of 28 U.S.C. 2675(a) have not been complied with, and that the suit appears to be subject to a motion to dismiss for lack of jurisdiction. The General Counsel should be kept advised as to subsequent developments, and should be furnished a copy of any order of dismissal which may be entered by the court.

7. Section 14.602 is revised to read as follows:

§ 14.602 Scope and authority to consider claims.

(a) The Administrator and those delegated such authority in § 2.6(e) of this chapter are authorized to consider, ascertain, adjust, determine, compromise and settle claims for money damages against the United States in accordance with regulations prescribed by the Attorney General (28 CFR 14.1 et seq.). Any award, compromise, or settlement exceeding $25,000 shall be effected only with the prior written approval of the Attorney General or designee. In addition, a claim may be compromised or settled only after consultation with the Department of Justice when:

(1) A new precedent or point of law is involved;

(2) A question of policy is or may be involved;

(3) The United States is or may be entitled to indemnity or contribution from a third party and the Veterans Administration is unable to adjust the third party claim;

(4) For any reason, the compromise of a particular claim, as a practical matter, will, or may, control the disposition of a related claim in which the amount to be paid may exceed $25,000; or

(5) The United States, an employee, agent, or cost-plus contractor, is involved in litigation based on a claim arising out of the same incident or transaction.

(b)(1) All claims coming within paragraph (a) of this section will be referred to the General Counsel for disposition.

(2) Where full development of a claim indicates that liability exists and the potential settlement value exceeds $25,000, the District Counsel who received the claim will submit the case to the General Counsel for consideration.

(3) Where multiple claims (including claims of a subrogor and a subrogee) arise from the same incident, and the total of such claims exceeds the settlement amount delegated to the District Counsel, all such claims will be forwarded to the General Counsel for consideration.

(c) Authority delegated to the General Counsel by § 2.6(e) of this chapter to act on claims is redelegated to the District Counsels as follows:

(1) The District Counsels at Atlanta, Boston, Chicago, Cleveland, Denver, Detroit, Houston, Los Angeles, Montgomery, New York, Philadelphia, St. Louis, St. Petersburg, San Francisco, Seattle, Waco, and Washington, D.C. are delegated authority to determine and settle claims filed under the Federal Tort Claims Act, as amended, by disposing of those tort claims in which, in the view of the respective District Counsels, liability exists and the claim may be compromised or settled at or below $25,000.

(2) All other District Counsels are authorized to settle or compromise tort claims in which, in the view of the respective District Counsels, liability exists and the claim may be settled or compromised for amounts up to and including $10,000. Claims which these District Counsels determine to be within the delegated authority of the District Counsels at the locations set out in paragraph (c)(1) of this section will be fully developed and forwarded to the District Counsel having jurisdiction.

(3) The territorial jurisdiction and supervision for handling tort claims by the District Counsels enumerated in paragraph (c)(1) of this section is set out in instructions to all District Counsels.

(d) Where it is determined that liability on the part of the Government does not exist, the District Counsel who initially received the claim will deny liability regardless of the amount claimed or the potential value if liability existed. If liability is questionable, the District Counsel will refer the claim for final determination to that office having appropriate settlement authority.

(e) For the purpose of these tort claim regulations (§§ 14.600–14.617), any reference to the District Counsel includes all other personnel in the District Counsel's office to whom authority to handle Federal tort claims has been delegated by § 2.6(e)(1) and (2) of this chapter.

8. In § 14.603, paragraph (a) is revised to read as follows:

§ 14.603 Proper claimants.

(a)(1) A claim for damage to or loss of property may be presented by the owner of the property, his or her duly authorized agent or legal representative.

(2) A claim for personal injury may be presented by the injured person, his or her duly authorized agent, or legal representative.

(3) A claim based on death may be presented by the executor/executrix or administrator/administratrix of the decedent's estate, or by any other person legally entitled to assert such a claim in accordance with applicable State law.

(4) A claim for loss wholly compensated by an insurer with the rights of a subrogee may be presented by the insurer. A claim for loss partially compensated by an insurer with the rights of a subrogee may be presented by the parties individually as their respective interests appear, or jointly. However when an insurer presents a claim asserting the rights of a subrogee, he or she shall also present appropriate evidence to support his or her right.

(5) A claim presented by an agent or legal representative shall be presented in the name of the claimant, be signed by the agent or legal representative, show the title or legal capacity of the person signing, and be accompanied by evidence of his or her authority to present a claim on behalf of the claimant as agent, executor/executrix, administrator/administratrix, parent, guardian, or other representative.

* * * * *

9. Sections 14.604 and 14.605 are revised to read as follows:

§ 14.604 Filing a claim.

(a) Each person who inquires as to the procedure for filing a claim against the United States, predicated on a negligent or wrongful act or omission of an employee of the Veterans Administration acting within the scope of his or her employment, will be furnished a copy of SF 95, Claim for Damage, Injury, or Death. The claimant will be advised to submit the executed claim directly to the District Counsel having jurisdiction of the area wherein the occurrence complained of took place. He or she will also be advised to submit the information prescribed by § 14.607 to the extent applicable. If a claim is presented to the Veterans Administration which involves the actions of employees or officers of other agencies, it will be forwarded to the Veterans Administration General Counsel, who will transmit forthwith to the appropriate agency.

(b) A claim shall be deemed to have been presented when the Veterans Administration receives from a claimant, his or her duly authorized agent or legal representative, an executed SF 95, or other written notification of an incident, together with a claim for money damages, in a sum certain, for damage to or loss of property or personal injury or death: *Provided, however,* That before compromising or settling any claim, an executed SF 95 shall be obtained from the claimant.

(c) A claim presented in compliance with paragraphs (a) and (b) of this section may be amended by the claimant at any time prior to final Veterans Administration action or prior to the exercise of the claimant's option under 28 U.S.C. 2675(a). Amendments shall be submitted in writing and signed by the claimant or his or her duly authorized agent or legal representative. Upon the timely filing of an amendment to a pending claim, the Veterans Administration shall have 6 months in which to make a final disposition of the claim as amended and the claimant's option under 28 U.S.C. 2675(a) shall not accrue until 6 months after the filing of the amendment (see § 14.600 (b)(1)).

§ 14.605 Investigation and development.

(a) *Development of untoward incidents prior to receipt of a claim.* (1) A report of any collision involving a Government-owned vehicle which results in property damage or personal injury or death will be made by the operator of the Government vehicle immediately following the accident, on SF 91, Operator's Report of Motor Vehicle Accident, and shall be submitted to the Director of the station involved. A copy of said report, accompanied by an executed copy of VA Form 2162, Report of Accident, Injury, Occupational Illness, or Fire, and of VA Form 2162b, Report of Accident, Injury, Occupational Illness, or Fire (Continued), will be promptly submitted by the Director to the appropriate District Counsel, who will authorize such additional investigation as the circumstances of the case may warrant. Forms required by other agencies will continue to be used in addition to VA Form 2162.

(2)(i) Any incident resulting in damage to, or loss of, property, other than personal effects of a patient in a Veterans Administration facility, or in personal injury or death, due apparently or allegedly to the negligent or wrongful act or omission of an employee of the Veterans Administration acting within the scope of his or her office or employment, or damage to or loss of Government-owned property caused by other than a Veterans Administration employee acting within the scope of his or her office or employment, will be immediately reported on SF 92–A, Report of Accident Other Than Motor Vehicle. The Director of the station where such occurrence took place will promptly transmit a copy of the report to the appropriate District Counsel who will authorize such additional investigation as the circumstances of the case may warrant.

(ii) Where the incident involves the loss of personal effects of a patient in a Veterans Administration facility, the Director will assist the patient in completing an SF 95, Claim for Damage, Injury, or Death, and will advise the patient that it will be forwarded immediately to the appropriate District Counsel for consideration. The Director will forward along with the claim a brief summary of the facts, as well as his or her recommendation, to the District Counsel. The District Counsel will expedite the processing of claims of this nature.

(3) An employee will be designated at each station to investigate motor vehicle collisions and other incidents involving damage to, or loss of privately owned property or personal injury or death, apparently or allegedly resulting from the negligent or wrongful act or omission of an employee of the Veterans Administration acting within the scope of his or her employment, other than investigation of alleged malpractice, or damage to or loss of Government-owned property caused by other than Veterans Administration employees. In Central Office, the designation will be made by the Manager, Administrative Services, and at all other stations, by the Director.

(4) The District Counsel for the area in which a field station is located will be responsible for processing claims involving motor vehicle collisions and other occurrences resulting in property damage, personal injury, or death, within such area. The District Counsel, Veterans Administration Regional Office, Washington, D.C. will also have jurisdiction, except as otherwise provided in paragraph (a)(3) of this section over incidents occurring in Veterans Administration Central Office.

(b) *Postclaim requirements.* (1) Where a claim is presented, the District Counsel will immediately acknowledge receipt of the claim and commence an investigation. In the course of the investigation, statements will be obtained from the personnel involved as well as from others who have personal knowledge covering the relevant facts. Copies of all pertinent Veterans Administration medical and other records will be obtained and the copies will be assembled so that they are identical in arrangement to the originals. Pertinent medical, employment, and other records maintained by private hospitals, private industry, and other places will likewise be obtained as well as photographs or other graphic material.

(2) After completing the investigation of a claim, the District Counsel having jurisdiction of the case will review all the evidence available and prepare a concise, complete report, including a summary of the evidence, findings of essential facts, citations of applicable local law, regulations and decisions, and a conclusion as to the liability of the United States. If liability is indicated, this report will also include a determination as to the amount of the reasonable compromise or settlement range of the case. Sufficient copies of the report and supporting material will be prepared to enable the District Counsel to submit two copies to the office authorized to dispose of the claim if it is beyond the investigating office's jurisdiction, and two copies to the General Counsel if the claim subsequently reaches the litigation stage. An extra complete copy of the report and supportive material will be retained by the District Counsel and will be forwarded to the U.S. Attorney, together with the original report of investigation, if litigation is initiated. The report itself, and the supporting materials, will be indexed, tabbed and securely fastened so that it is one unit, if feasible.

(3) In medical malpractice cases, the District Counsel may refer the medical records and statements to the District Medical Director for review and for professional opinion or guidance. In the consideration of claims involving a medical question, the responsible District Counsel involved will be guided by the views of the District Medical Director and the General Counsel will be guided by the views of the Chief Medical Director as to the standard of medical care and treatment, the nature and extent of the injuries, the degree of temporary or permanent disability, the prognosis, the necessity for future treatment or physical rehabilitation, and any other pertinent medical aspects of a claim.

10. In § 14.606, paragraph (a) is revised to read as follows:

§ 14.606 Requests for medical information.

(a) Where there is indication that a tort claim will be filed, medical records or other information shall not be released without approval of the District Counsel.

* * * * *

11. In § 14.607, paragraphs (a) and (b) are revised to read as follows:

§ 14.607 Evidence to be submitted.

In conducting the investigation into the facts and circumstances giving rise to the claim, the District Counsel will consider the following guidelines to the extent applicable:

(a) *Death.* In support of a claim based on death, the claimant may be required to submit the following evidence or information:

(1) An authenticated death certificate or other competent evidence showing cause of death, date of death, and age of the decedent.

(2) Decedent's employment or occupation at time of death, including his or her monthly or yearly salary or earnings (if any), and the duration of his or her last employment or occupation.

(3) Full names, addresses, birth dates, kinship, and marital status of the decedent's survivors, including identification of those survivors who were dependent for support upon the decedent at the time of his or her death.

(4) Degree of support afforded by the decedent to each survivor dependent upon him or her for support at the time of death.

(5) Decedent's general physical and mental condition before death.

(6) Itemized bills for medical and burial expenses incurred by reason of the incident causing death, or itemized receipts of payment for such expenses.

V 42 159 AUG 17 77 UMI

(7) If damages for pain and suffering prior to death are claimed, a physician's detailed statement specifying the injuries suffered, duration of pain and suffering, any drugs administered for pain, and the decedent's physical condition in the interval between injury and death.

(8) Claimant may be requested to furnish a copy of a medical opinion supporting his or her contention of malpractice.

(9) Any other evidence or information which may have a bearing on either the responsibility of the United States for the death or the damages claimed.

(b) *Personal injury.* In support of a claim for personal injury, including pain and suffering, the claimant may be required to submit the following evidence or information:

(1) A written report by the attending physician or dentist setting forth the nature and extent of treatment, any degree of temporary or permanent disability, the prognosis, period of hospitalization, and any diminished earning capacity. In addition, the claimant may be required to submit to a physical or mental examination by a physician employed by the agency or another Federal agency. A copy of the report of the examining physician shall be made available to the claimant upon the claimant's written request provided that he or she furnished the report referred to in the first sentence of this subparagraph and has made or agrees to make available to the agency any other physician's reports previously or thereafter made of the physical or mental condition which is the subject matter of the claim.

(2) Itemized bills for medical, dental, and hospital expenses incurred, or itemized receipts of payment for such expenses.

(3) If the prognosis reveals the necessity for future treatment, a statement of expected expenses for such treatment.

(4) If a claim is made for loss of time from employment, a written statement from his or her employer showing actual time lost from employment, whether he or she is a full- or part-time employee, and wages or salary actually lost.

(5) If a claim is made for loss of income and the claimant is self-employed, documentary evidence showing the amount of earnings actually lost.

(6) Claimant may be requested to furnish a copy of a medical opinion supporting his or her contention of malpractice.

(7) Any other evidence or information which may have a bearing on either the responsibility of the United States for the personal injury or the damages claimed.

* * * * *

12. Section 14.608 is revised to read as follows:

§ 14.608 Disposition of claims.

(a) *Disallowance and appeal.* Where a determination is made that there is no liability on the part of the United States, the District Counsel or the General Counsel, as appropriate, will notify the claimant (or claimant's attorney or legal representative) by certified or registered mail. Notification of final denial may include a statement of reasons for the denial. Denial of a tort claim by any District Counsel will include appropriate notice of the appellate rights of claimants. The right to have an appeal within the Veterans Administration will extend only to the next higher level of authority. The claimant shall be advised in the denial letter of the specific office to which an appeal wil be referred and that the appeal must be perfected within 6 months. The denial letter shall also include a statement that, if the claimant is dissatisfied with the agency action, suit in an appropriate United States District Court may be instituted not later than 6 months after the date of mailing of the notice of final denial.

(b) *Statute of limitations.* Prior to the commencement of suit and prior to the expiration of the 6-month period provided in 28 U.S.C. 2401(b), a claimant, or claimant's duly authorized agent, or legal representative, may file a written request with the agency for an appeal from denial of a claim issued under paragraph (a) of this section. Upon the timely filing of an appeal the agency shall have 6 months from the date of filing in which to make a final disposition of the claim, and the claimant's option under 28 U.S.C. 2675(a), shall not accrue until 6 months after the filing of an appeal. Final agency action on an appeal shall be effected by the District Counsel if the claim is one within the jurisdiction authorized by § 2.6(e) of this chapter and § 14.602(c); otherwise, by the General Counsel. If the previous denial decision is upheld, the notice shall be by certified mail and will include advice as to the right to bring suit within 6 months.

(c) *Allowance or compromise.* (1) In the case of a claim where a determination is made by the District Counsel (if the claim is one for which authority has been delegated under § 2.6(e) of this chapter and § 14.602(c)), or by the General Counsel, that there is or could be liability on the part of the Government, an attempt will be made to obtain an agreement with the claimant, or claimant's attorney, as to a fair and reasonable settlement or compromise.

(2) If the claim is one being handled by the District Counsel and a settlement agreement is reached in a sum of $2,500 or less, the District Counsel will approve the voucher (SF 1145, Voucher for Payment under Federal Tort Claims Act) and send the signed original and three yellow copies to the General Counsel for processing. If the settlement agreement is above $2,500 but within the delegated authority of the District Counsel, the District Counsel will approve the voucher (SF 1145) and send the signed original and three yellow copies to the General Accounting Office for payment. Vouchers for settlement in excess of $25,000 will not be signed by any District Counsel, but will be forwarded to the General Counsel for signature and transmittal to the General Accounting Office. Also, in any case which is settled by the District Counsel at the specific request of the General Counsel, the voucher will not be approved by the District Counsel but will be sent to the General Counsel's Office for approval and processing. All original vouchers will be signed by the claimant or claimant's legal representative and his or her spouse, if appropriate. Where required by State law, approval of a court of competent jurisdiction will be obtained. Certified copies of appropriate court documents and duplicate originals of "hold harmless" and "covenant not to sue" agreements will accompany the transmittal of the voucher.

(3) If the claimant is a veteran, or the spouse or child of a veteran in a wrongful death claim, a copy of the letter to the General Accounting Office will be sent to the Adjudication Division of the regional office having jurisdiction over the veteran's claims folder.

(4) When a District Counsel is unable to effect settlement of a tort claim considered to be appropriate for compromise within authorized limits, the District Counsel will confer with the next level of supervising authority before issuing a letter of denial.

(d) *Attorney fees.* In any claim administratively settled or compromised, no specific portion of the award shall be designated as an attorney fee. However, 28 U.S.C. 2678 prohibits an attorney from charging, demanding, receiving, or collecting for services rendered, fees in excess of 20 per centum of any award, compromise, or settlement made pursuant to 28 U.S.C. 2672. Violation of this prohibition will subject the attorney to a fine of not more than $2,000 or imprisonment for not more than 1 year, or both. When a claimant is represented by an attorney, the voucher for payment shall designate as "payee" both the claimant and claimant's attorney and the check shall be delivered to the attorney whose address shall appear on the voucher.

(e) *Setoff for cost of unauthorized medical treatment.* In any tort claim administratively settled or compromised where the claimant owes the Veterans Administration for unauthorized medical treatment, there will be included in the tort claim award the amount of the claimant's indebtedness to the Government. The amount of the indebtedness is for credit to the appropriation account from which the services were provided. The voucher prepared for settlement of the claim will specify the amount to be deposited to the credit of the designated account and that the balance of the award be paid to the claimant.

13. Sections 14.609 and 14.610 are revised to read as follows:

§ 14.609 Tort suits following denial of an administrative tort claim.

Where civil action against the United States follows denial of an administrative claim, the General Counsel, upon receipt of notice of the action, will furnish to the Department of Justice a copy of the investigation report and other related materials obtained in connection with the consideration of the administrative claim previously submitted to the agency. The General Counsel will instruct the District Counsel to forward to the appropriate U.S. Attorney the investigation report and other related materials, including medical records and any other information, which may be appropriate to the litigation. The District Counsel will keep the General Counsel

advised of subsequent developments, and will render assistance as requested by the U.S. Attorney and the General Counsel with respect to the defense of the suit.

§ 14.610 Suits against Veterans Administration employees arising out of the operation of motor vehicles or based upon medical care and treatment furnished in or for the Department of Medicine and Surgery.

(a)(1) Section 2679 of title 28, United States Code, provides that no suit will lie against a Federal employee, or the employee's estate, for damage to property, personal injury, or death resulting from his or her operation of a motor vehicle while acting within the scope of his or her office or employment with the Federal Government. An action against the United States under 28 U.S.C. 2671–2680 is the exclusive remedy under these circumstances.

(2) Section 4116 of title 38, United States Code, provides that (i) where there is remedy against the United States under 28 U.S.C. 2671–2680, or (ii) where proceedings for compensation or other benefits from the United States are provided by law, and the availability of such benefits precludes a remedy under 28 U.S.C. 2671–2680 (as is the case, for example, in the Federal Employees' Compensation Act, 5 U.S.C. 8101, et seq.), such recourse is the exclusive remedy for property damage, personal injury, or death allegedly occurring as a result of malpractice or negligence committed by a physician, dentist, nurse, physician's assistant, dentist's assistant, pharmacist or paramedical (for example, medical and dental technicians, nursing assistants, and therapists), or other supporting personnel, while furnishing medical care and treatment in the exercise of duties in or for the Department of Medicine and Surgery. Accordingly, a malpractice or negligence suit for property damage, personal injury, or death will not lie against such personnel under the circumstances set forth in this subparagraph.

(b) The Department of Justice will defend any civil action or proceeding brought in any court against persons referred to in paragraph (a) (1) or (2) of this section under the circumstances set forth therein. Accordingly, when a suit is filed against any employee of the Veterans Administration (1) as a result of the employee's operation of a motor vehicle incident to employment with the Government, or (2) as a result of furnishing medical or dental care and treatment in or for the Department of Medicine and Surgery, the employee shall immediately forward a copy of all papers served on him or her to the District Counsel having jurisdiction over the area in which the employee works. The employee will also promptly forward to the appropriate District Counsel a signed statement indicating whether he or she desires the Department of Justice to provide representation, and to otherwise protect his or her interests as provided for by law. Even though there may not have been service, if an employee learns that a suit arising from either of the above-described circumstances has been filed against him or her, the employee shall immediately so advise the appropriate District Counsel, provide the District Counsel with a brief description of the facts unsolved, and state whether he or she desires Federal intervention.

(c) Upon receipt of notice that suit has been filed against an employee of the Veterans Administration who is entitled to protection under 28 U.S.C. 2679 or 38 U.S.C. 4116, the District Counsel having jurisdiction over the place where the employee works will conduct a preliminary investigation, which will include an affidavit by the employee's supervisor as to whether the defendant-employee was acting in the scope of his or her employment at the time of the incident, and a request from the defendant-employee for representation. The affidavit will contain a factual description of the employee's duties and responsibilities at the time of the incident and should describe the incident in question. Upon receipt of such information, the District Counsel will make a preliminary determination as to whether such suit comes within the provisions of either 28 U.S.C. 2679 or 38 U.S.C. 4116. The District Counsel will refer the matter to the appropriate U.S. Attorney with a recommendation as to whether the employee is eligible for protection under 28 U.S.C. 2679 or 38 U.S.C. 4116. The U.S. Attorney will decide whether the Veterans Administration employee is eligible for the protection. The District Counsel will submit to the General Counsel a preliminary report in duplicate containing the information furnished the U.S. Attorney. In all such cases, the District Counsel will conduct a complete investigation of the facts and law. Two copies of the investigation report will be sent to the General Counsel and one copy will be sent to the appropriate U.S. Attorney. The General Counsel, through the District Counsel, will keep the employee advised of the action being taken concerning the suit. In the event that the U.S. Attorney or the Department of Justice determines that the employee is not eligible for immunization pursuant to one of the aforementioned provisions, the General Counsel's office, through the District Counsel, will advise the employee and will call to his or her attention the discretionary conditional indemnification provisions of section 4116(e) of title 38, United States Code.

(d) Where a civil action is commenced in a State court against a Veterans Administration employee, and the matter is within the purview of either 28 U.S.C. 2679, or 38 U.S.C. 4116, the Department of Justice will be asked to remove such suit to the appropriate Federal District Court before trial, where it will be deemed an action against the United States. The defendant employee will be dismissed from the suit. After such removal, the United States has available all defenses to which it would have been entitled if the action had originally been commenced against the United States in the proper Federal District Court. Should a Federal District Court determine that the Veterans Administration employee whose acts or omissions gave rise to the suit was not acting within the scope of his or her office or employment, and therefore not eligible for immunization as provided for in the aforementioned sections, the case will be remanded to the State court from which it was removed, the employee will be reinstated as the defendant, and the United States will be dismissed from the suit. Where the employee has been reinstated as the defendant under such circumstances, in order to protect any rights which he or she may have under 38 U.S.C. 4116(e), he or she shall immediately notify the General Counsel, through the local District Counsel. Through the District Counsel, the General Counsel will call the employee's attention to the discretionary conditional indemnification provisions of section 4116(e).

(e) Under the authority of 38 U.S.C. 4116(e), the Administrator of Veterans Affairs may pay for monetary damages sustained by or assessed against an individual (or his or her estate) described in paragraph (a)(2) of this section, as the result of any suit instituted against such individual which is not cognizable under the provisions of 28 U.S.C. 2671–2680 because the individual was assigned to a foreign country, the said individual was detailed to a State or political division thereof, or the cause of action was specifically excluded under the provisions of 28 U.S.C. 2680(h): *Provided*, That the amount of damages sustained is reasonable when compared with similar cases, litigated or settled, and the United States was given a reasonable opportunity to defend such individual and to participate in settlement negotiations.

14. In § 14.615, paragraphs (b) and (c) are revised to read as follows:

§ 14.615 General.

* * * * *

(b) *Action by claimant.* Claims for property loss or damage may be filed by the owner of the property or his or her duly authorized agent or legal representative. If the property was insured and the insurer is subrogated, in whole or in part, and if both the owner and the insurer desire to file a claim for their respective losses they should join in one claim. Claims for personal injury may be filed by the injured person or his or her agent or legal representative. Claims for death may be filed by the personal representative of the decedent or any other legally qualified person. When filed by an agent or legal representative, the claim must show the title or capacity of the person representing the claimant and be accompanied by evidence of the appointment of such person as agent, legal representative, executor executrix, administrator/administratrix, guardian or other fiduciary.

(c) *Time for filing.* A claim may not be allowed under 38 U.S.C. 236 unless it is presented to the Administrator or his or her designee within 2 years after the claim accrues.

V 42 159 AUG 17 77 UMI

15. In § 14.616, paragraph (b) is revised to read as follows:

§ 14.616 Form and place of filing claim.

* * * * *

(b) *Place of filing claim.* Claims arising in the Philippines under 38 U.S.C. 236 will be filed with the Director, Veterans Administration Regional Office, Manila, Republic of the Philippines. Claims arising in other foreign countries will be filed with the American Embassy or Consulate nearest the place where the incident giving rise to the claim took place.

* * * * *

16. In § 14.617, paragraph (a) is revised to read as follows:

§ 14.617 Disposition of claims.

(a) *Disposition of claims arising in Philippines.* All claims arising under 38 U.S.C. 236 in the Philippines, including a complete investigation report and a brief resume of applicable law, will be forwarded directly by the Director to the General Counsel, together with a recommendation as to disposition.

* * * * *

17. In § 14.618, paragraphs (a), (b) and (c) are revised to read as follows:

§ 14.618 Collection action.

(a) In a case where the District Counsel determines that damage to or loss of Government property under the jurisdiction of the Veterans Administration resulted from the negligence or other legal wrong of a person, other than an employee of the United States while acting within the scope of his or her employment, the District Counsel will request payment in full of the amount of damage from the person liable therefor or such person's insurer.

(b) The District Counsel may collect, compromise, suspend or terminate collection action on any such claim as is authorized under § 2.6(e)(4)(ii) of this chapter, in conformity with standards in § 1.900 series of this chapter. Any such claim that has not been collected in full and which has not been compromised, suspended or terminated and does not exceed $20,000, will be referred by the District Counsel to the appropriate U.S. Attorney along with the information required by §§ 1.951 through 1.953 of this chapter. Any claim in excess of $20,000 for which payment in full has not been made, will be transmitted along with the report required by § 14.605(a)(2)(i), a report on credit data (§ 1.952 of this chapter), and any other pertinent information, to the General Counsel for appropriate action.

(c) The General Counsel or those designated in § 2.6(e)(4) of this chapter will take action to collect in full on such claims and to compromise, suspend or terminate any such claims not exceeding $20,000 in conformity with § 1.900 series of this chapter. Any such claims not compromised, or on which collection actions is not suspended or terminated and does not exceed $20,000, will be referred to the appropriate U.S. Attorney. Any such claims in excess of $20,000, which have not been collected in full, will be referred by the General Counsel to the Department of Justice for appropriate action.

* * * * *

18. A new centerhead and § 14.619 are added to read as follows:

CLAIMS FOR COST OF MEDICAL CARE AND SERVICES.

§ 14.619 Collection action.

(a) In a case where the District Counsel determines that medical care and services were furnished as a result of the negligence of a third party, other than an employee of the United States while acting in the scope of his or her employment, the District Counsel will request payment in full of the amount of damages from the person liable therefor or such person's insurer.

(b) The District Counsel may collect, compromise, suspend or terminate collection activity on any such claim as is authorized under § 2.6(e)(3) of this chapter. However, claims in excess of $20,000 may be compromised, settled, or waived only with the prior approval of the Department of Justice, which will be obtained through the General Counsel. Any such claim that has not been collected in full and which has not been compromised, suspended or terminated will be referred by the District Counsel to the appropriate U.S. Attorney along with appropriate information necessary to protect the interest of the Government. A copy of the referral to the U.S. Attorney will be sent to the General Counsel's office.

(c) In a case where the District Counsel determines that a claim is appropriate under the provisions of § 17.48(d) of this chapter for the cost of medical or hospital care furnished pursuant to § 17.47 (c)(1), (d), or (f) of this chapter to persons who are otherwise entitled to hospital care or medical or surgical treatment or to reimbursement for all or part of the cost thereof by virtue of any one or more of the following: Membership in an organization, rights under any medical insurance plan, or a medical rider on an automobile insurance policy, or by reason of a no-fault or worker's compensation or employer's liability or similar statute, State or Federal; right to maintenance and cure in admiralty; statutory or other relationship with third parties, including circumstances where the Veterans Administration is a third party beneficiary of a contract; the District Counsel may collect, compromise, suspend or terminate collection activity on any such claim not exceeding $20,000. Claims in excess of $20,000 may only be compromised, settled or waived with the approval of the Department of Justice, which will be obtained through the General Counsel. Any such claim not compromised, or on which collection action is not suspended or terminated, will be referred to the appropriate U.S. Attorney with sufficient data to enable that office to protect the interest of the Government. A copy of all materials referred to the Department of Justice will be furnished the General Counsel.

19. In § 14.620, paragraphs (b), (c), (d) and (e) are revised to read as follows:

§ 14.620 Power of attorney and delegation of authority.

* * * * *

(b) *Execution of power of attorney and delegation of authority.* The Director of a regional office will from time to time designate appropriate employees to be named in appropriate instruments commonly referred to as Power of Attorney, VA Form 2–23. The Loan Guaranty Officer, if any, will be one designee. At all times one additional employee shall be authorized to act by such power of attorney. Three copies of VA Form 2–23 will be filled in by the District Counsel for each designee and forwarded to the General Counsel who will secure execution and acknowledgment of two copies by the Administrator. One copy will be retained in Central Office file; the two executed copies will be returned direct to the District Counsel.

(c) *Revocation of power of attorney.* Any such power of attorney will be revoked promptly when, in the discretion of the Director, cause therefor arises; and in any event upon the designee's separation from the position of a loan guaranty official or from the service, and all executed copies of VA Form 2–23 designating such person will be marked "Canceled" and forwarded to the Office of the General Counsel. The District Counsel upon notification will prepare VA Form 2–24 accordingly and secure execution and acknowledgment thereof in like manner. It will be recorded in each county, if any, in which the power of attorney was recorded. All such copies of VA Form 2–24, whether executed heretofore or hereafter, shall be returned as promptly as feasible to the Office of the General Counsel by the District Counsel, with statement that a copy thereof was recorded in each county in which the revoked power of attorney was recorded. If the power of attorney has not been recorded, the District Counsel will so state when returning "Canceled" copies to the Office of the General Counsel. In such cases only one copy of the revocation will be executed and acknowledged by the Administrator, and it will be retained in the Office of the General Counsel.

(d) *Recordation.* VA Form 2–23 or VA Form 2–24 may be filed for record when in the judgment of the District Counsel it is appropriate to do so. If not so filed, any interested person may have the original recorded by the District Counsel upon payment of the recording fee therefor, or by including the amount thereof in the purchase price of the property, as may be agreed.

(e) *Recordation fee.* The Loan Guaranty Division is responsible for payment of the recordation fee when recordation is requested by Loan Guaranty Officer and approved by the District Counsel. Payment contemporaneously with filing for record may be accomplished by advance of cash.

20. In § 14.626, paragraph (a)(2) is revised to read as follows:

§ 14.626 Requirements for recognition of organizations.

* * * * *

(a) In requesting recognition, the following information will be supplied:

* * * * *

(2) Statement outlining the purpose of the organization and need thereof and the manner in which the veteran or his or her dependent would be benefited by such recognition.

* * * * *

21. In § 14.627, the introductory portion preceding paragraph (a) and paragraphs (a) and (c) are revised to read as follows:

§ 14.627 Accredited representatives.

Recognized organizations shall file with the Veterans Administration on the prescribed form furnished by the Veterans Administration (VA Form 2–21, Application for Accreditation as Service Organization Representative) the name of any person whom they desire recognized as accredited representative thereof. In recommending a person for recognition as a representative, the organization, through its appropriate officer, shall certify to the following: That the designee is a citizen of the United States, of good character and reputation, is qualified by ability and experience to present claims, is a member of such organization in good standing, or a full-time, paid employee thereof; and that the major portion of his or her time will be devoted to the preparation or presentation of claims for that organization or other organizations to which the designee may be accredited or that the designee is a national officer of the organization requesting accreditation; whether accredited to any other recognized organizations, and, if so, the name or names thereof; that the designee is not now employed in any civil or military department or agency of the United States and was or was not so employed within 2 years next preceding the date of recommendation for accreditation; if a veteran, the nature of discharge or separation from the active service. An accredited representative, who is a full-time paid employee of a recognized organization may, upon proper application, be accredited as a representative of another recognized organization or organizations without being a member or employee thereof but such accreditation shall be automatically canceled upon termination of employment. Recommendations for accreditation of representatives of National service organizations will be accepted only if approved by the national certifying officer of such organization; those of State organizations only if approved by the Director or higher officer of the organization.

(a) The recommendation for accreditation (VA Form 2–21) executed by a National organization or by a recognized State organization will be filed with the Office of the General Counsel. A recommendation received in Central Office may be sent to the appropriate regional office, if necessary, to secure sufficient facts to justify a determination whether the designee is qualified. The report of the District Counsel including the recommendation, if any, of the Director, together with VA Form 2–21 will be transmitted to the General Counsel, who will approve or disapprove the recommendation. If the designee is approved, FL 2–88, Notice of Approval as Accredited Representative, or FL/2–89, Notice to Accredited Representative of Supplemental Accreditation, will be issued by the General Counsel.

* * * * *

(c) Recognition of an accredited representative will be canceled at the request of the organization. A Director may suspend recognition in any case for cause, sending a report to Central Office, attention of the General Counsel, for final determination.

* * * * *

22. Section 14.628 is revised to read as follows:

§ 14.628 Powers of attorney.

(a) Before an organization may be recognized in an individual claim, there must be filed a power of attorney (VA Form 23–22, Appointment of Service Organization as Claimant's Representative) duly executed by the claimant specifically conferring upon the organization the authority to represent the claimant in the presentation of his or her claim, and to receive information in connection therewith, which power of attorney shall be presented to the Veterans Administration office concerned to be filed in the veteran's folder. The claimant may also authorize release to a local organization of information necessary to develop his or her claim and as to action thereon. The power of attorney must be signed by the claimant, or by the guardian, if any, or, in case of an incompetent without guardian, by spouse, parent, or other near relative (if interests are not adverse), or Director of hospital in which veteran is maintained. An organization which has filed a power of attorney in the case of a veteran shall, in the event of death of the veteran, and if the organization so desires, be recognized for a reasonable period thereafter to enable the new claimant or claimants to execute a new power of attorney or to state that none is desired.

(b) Upon receipt of the power of attorney, the organization named therein shall be recognized as the sole agency for the presentation of the claim covered thereby, and no other organization, agent, or attorney shall be recognized in the presentation of that claim or any phase thereof. The power of attorney given by the claimant may be revoked by him or her at any time and a subsequent power of attorney substituted, designating another organization, agent, or attorney; a subsequently executed power of attorney shall constitute a revocation of any existing power of attorney. Likewise, a power of attorney may be revoked by the organization named therein.

(c) Where, a veteran is temporarily incapacitated through illness or injury and unable to execute a power of attorney, the veteran's spouse or other next friend (if her or his interests are not adverse to that of the veteran) may execute a power of attorney, VA Form 23–22, appointing a service organization to act in the prosecution of the veteran's claim before the Veterans Administration. Such power of attorney shall remain effective during the period of the veteran's temporary incapacity. Upon regaining capacity the veteran should either execute a new power of attorney or notify the Veterans Administration in writing of the revocation of the power of attorney executed by the spouse or other next friend during the veteran's temporary incapacity. In the event that a guardian is appointed by a court of competent jurisdiction the foregoing power of attorney shall terminate and it will be necessary for the guardian to execute a new power of attorney, VA Form 23–22, reappointing the service organization to act for the veteran. This paragraph applies only to cases in which there has been no rating or other determination of mental incapacity on the part of the veteran.

(d) A parent and natural guardian of a minor child of a veteran or other person having custody of said minor, provided there is no legally appointed guardian, may execute a power of attorney, VA Form 23–22, appointing a service organization to act for said minor in the prosecution of his or her claim before the Veterans Administration. Such power of attorney shall remain in effect until the minor attains his or her 18th birthday or such later date as the minor may be eligible for benefits from the Veterans Administration or until he or she attains his or her majority under the law of the State of domicile, whichever is the earlier. In the event that a guardian is appointed by a court of competent jurisdiction the foregoing power of attorney shall terminate and it will be necessary for the guardian to execute a new power of attorney, VA Form 23–22, reappointing the service organization to act for the minor.

23. In § 14.629, paragraphs (a) and (b) (1) and (4) are revised to read as follows:

§ 14.629 Recognition of attorneys and agents.

(a) Claim agents will be granted recognition and certified by the Office of the General Counsel upon satisfactory evidence of qualification, including good reputation and knowledge of applicable law and procedure. Upon presentation to the General Counsel of a letter requesting recognition by the Administrator as an agent, any competent person of good moral character and of good repute who is a citizen of the United States, or who has declared an intention to become such a citizen, and who is not engaged in the practice of law may be recognized as an agent to represent claimants before the Veterans Administration, if the recognition is not precluded by any statutory or regulatory provision and such person has never been convicted, whether on trial or plea, of a serious penal offense, or of any violation of any penal provisions respect-

V 42 159 AUG 17 77 UMI

ing fees. Applicants for recognition as agents may be required to prove their fitness to render substantial service by undergoing a written examination testing their knowledge of the laws administered by the Veterans Administration and regulations promulgated thereunder.

(b) (1) The submission of a written declaration by a person stating that he or she is a member in good standing of the bar of the highest court of any State, possession, territory, Commonwealth, or the District of Columbia and that he or she is authorized to represent a particular claimant will, in the absence of contrary evidence, entitle such person to represent the claimant before this agency. The submission of the requisite declaration entitles the attorney to have access to the information in Veterans Administration files which would be available to the claimant as authorized by §§ 1.503 and 1.504 of this chapter. The additional submission of written authorization to inspect Veterans Administration records, signed by the claimant, will further entitle the attorney to have access to information and Veterans Administration files, as authorized by § 1.525 of this chapter. No particular form for the written authorization is required, nor are witnesses necessary.

• • • • •

(4) Any question as to the current qualification of a person under this paragraph shall be referred to the appropriate District Counsel for initial determination. Said determination may be appealed to the General Counsel by any interested party.

24. Section 14.630 is revised to read as follows:

§ 14.630 Agent affiliated with organizations.

The policy of the Veterans Administration precludes the recognition as an agent, of any person who is an officer or employee, appointive or elective, of any veteran, welfare, or State, county, or municipal organization engaged in assisting claimants in presenting claims before the Veterans Administration without fee or emolument, except that any person holding such office whose duties do not include actual assistance in the presentation of claims before the Veterans Administration may be recognized but will be precluded while holding such office from receiving a fee for services rendered as an agent in the presentation and prosecution of claims for benefits administered by the Veterans Administration. Furthermore, it is contrary to the policy to permit an agent to transact claims business from or at an office from or at which a veteran or welfare organization, or an agency of a State or other political subdivision, carries on its work incident to assisting claimants in presenting claims before the Veterans Administration or to use the stationery of such organization or agency in transacting claims business.

25. Section 14.635 is redesignated 14.632 and revised to read as follows:

§ 14.632 Suspension and revocation of recognition.

Whenever information is received that an attorney or agent recognized by the Veterans Administration is or has engaged in unlawful, unprofessional, or dishonest practice, or is incompetent, or has violated or refused to comply with the laws, regulations, and rules governing his or her recognition before the Veterans Administration, or who shall in any manner deceive, mislead, or threaten any claimant or prospective claimant by word, circular, letter, or advertisement, the General Counsel shall give the accused attorney or agent due notice with a statement of the charge or charges against the attorney or agent, which statement shall be sufficiently specific to permit the accused intelligently to make answer thereto, and shall cite said attorney or agent to show cause within 30 days, which time limit may be extended, why his or her recognition should not be suspended or revoked. Where deemed proper, the recognition of an attorney or agent may be temporarily suspended without notice, pending action as provided in this section.

26. Section 14.636 is redesignated 14.633 and reads as follows:

§ 14.633 Time allowed in answering charges preferred.

If said attorney or agent shall fail to file an answer or other pleading within the time specified, such charge or charges will be taken as confessed and judgment may be rendered as upon default.

27. Section 14.637 is redesignated 14.634 and revised to read as follows:

§ 14.634 Answer to charges.

If an answer, under oath, is filed denying the charges, or so explaining them as to raise an issue thereon, a time and place shall then be set for the taking of testimony. The testimony shall be taken at as convenient a place as possible for both the Government and the defendant, and notice shall be served on the defendant informing said defendant of the time and place at which testimony will be taken for the Government, in order that the defendant may be present and cross-examine the witnesses. Testimony shall be reduced to writing and be signed by the witnesses, unless otherwise stipulated, and may be taken before a District Counsel, attorney examiner, or other officer or agent of the Veterans Administration designated by the General Counsel for that purpose. The testimony, together with any brief desired to be presented by the person charged, will be considered by a board designated for such purpose, which shall recommend to the General Counsel the action to be taken. If the charge or charges be sustained and the General Counsel concurs in the recommendation, the General Counsel will suspend or revoke the recognition of such attorney or agent, or take such other action thereon as the facts warrant.

28. Sections 14.638 and 14.639 are revised to read as follows:

§ 14.638 Acts subjecting recognized attorneys or agents to suspension or revocation.

The recognition of any attorney or agent will be subject to suspension or revocation if such attorney or agent knowingly commits or is guilty of any of the following acts, to wit: (a) Presents or prosecutes a fraudulent claim against the United States or the Veterans Administration; (b) demands or accepts any unlawful compensation for preparing, presenting, or prosecuting any claim before the Veterans Administration or for advice or consultation concerning such a claim; (c) with intent to defraud has in any manner deceived, misled, or threatened any claimant or prospective claimant by word, circular, letter, or advertisement; (d) who, in the presentation or prosecution of, or in connection with, any matter or business pending before said Veterans Administration, has as an associate, or employs as an agent, subagent, or correspondent, any person who has been guilty of any of the abovementioned acts, or who has been denied recognition, or whose recognition has been suspended or revoked by the Veterans Administration, or who acts as the associate, agent, subagent, or correspondent of any such person; or who is otherwise and in any manner whatever guilty of dishonest or unprofessional conduct.

§ 14.639 Rules of recognition.

No person other than an accredited representative of a recognized organization shall be recognized in the preparation, presentation, or prosecution of any claim under statutes administered by the Veterans Administration, unless he or she has been recognized as an attorney or agent pursuant to these regulations, except (a) that any person (who is a citizen of the United States, or a resident of the United States or of one of its possessions) may be recognized for the purpose of a particular claim upon filing with the office where such claims folder is located a proper power of attorney and a statement signed by such person and the claimant that no fee or compensation of whatsoever nature shall be charged or paid for the services rendered, and, except (b) in claims for insurance benefits under a contract in which the Government admits liability on the contract, there is no issue or contest as to the designated beneficiary, and it is reasonably apparent that the attorney or agent will not charge a fee. In the first class of cases the attorney should be advised by letter regarding the requirements of being recognized in a particular claim or generally. In the latter class of cases, a paragraph substantially as follows should be incorporated in the letter acknowledging receipt of the claim:

The evidence submitted by you in connection with the claim for insurance benefits in the instant case has been received, and an adjudication of the claim for benefits will be made as expeditiously as possible. It

is understood, of course, that you are not entitled to any fee for services performed by you in connection with the preparation and presentation of this claim, inasmuch as you have not been regularly recognized to present claims before the Veterans Administration by the Administrator of Veterans Affairs.

29. Section 14.642 is revised to read as follows:

§ 14.642 Diligence or neglect on part of attorney or agent.

An agent or attorney shall be required to exercise due diligence in all claims in which he or she is recognized. Neglect to prosecute a claim for 6 months or failure to furnish evidence called for by the Veterans Administration within 90 days shall be held, in default of cause shown, presumptive evidence of the abandonment of all attorneyship rights in the claim.

30. Section 14.646 is revised to read as follows:

§ 14.646 Change of guardianship during pendency of claim.

A change of guardianship in any case during pendency of a claim shall not affect the question of attorneyship and fee, but no attorney fee shall be allowed to a guardian who prosecutes the claim of his or her ward, or to a firm of attorneys of which the guardian is a member.

31. Sections 14.649, 14.650 and 14.651 are revised to read as follows:

§ 14.649 Advertising and solicitation of claims.

Every agent shall submit to the General Counsel, in duplicate, copies of all proposed forms and letterheads intended for use in connection with business before the Veterans Administration, and the General Counsel will notify such agent as to approval or disapproval. The use by an attorney or agent of the characters "U.S." or the words "United States" as a part of his or her title or the title of his or her business shall not be permitted. The publication or circulation of ordinary simple business cards, being a matter of personal taste or local custom, and sometimes of convenience, is not of itself improper, but solicitation of business by circulars or advertisements, or by personal communications or interviews, not warranted by personal relations, is unprofessional and will render an attorney or agent liable to suspension, disbarment or revocation.

§ 14.650 Expenses incurred by attorney or agent in the prosecution of claims.

When an agent, attorney, or other person incurs any expense in the prosecution of a claim, a sworn itemized account of such expense must be filed with the Veterans Administration to be retained in the claims folder as part of the permanent record and the approval thereof secured, before demanding or receiving reimbursement from the claimant, by the adjudicating officer, or designee. Notice of the action taken in all cases shall be transmitted to the attorney concerned by the service handling the claim.

§ 14.651 Solicitation of fees.

Attorneys or agents shall not, directly or indirectly, solicit, contract for, charge, or receive, or attempt to solicit, contract for, charge, or receive any fee or compensation whatsoever for advice or consultation concerning the laws administered by the Veterans Administration and the regulations, rules based thereon, or for service to claimants thereunder, except such fee or compensation as is herein provided, whether a claim has been or is thereafter filed, or no claim is filed for the person in whose behalf such advice or consultation is given or held or service rendered. Any agent or attorney who shall so do shall thereby subject his or her recognition by the Veterans Administration to suspension or revocation and be subject to the applicable penal provisions of the law.

32. Section 14.657 is revised to read as follows:

§ 14.657 Approval of fees by Veterans Administration.

The fee provided in § 14.655 shall be due and payable only upon the approval of the claim by the Veterans Administration and then only in the event the attorney or agent has rendered material service in the prosecution of the claim. The filing of the claim may be considered as rendering material service if the attorney or agent is not in neglect but renders all the service necessary to complete the same, that is, where the attorney or agent has done all that he or she was called upon to do, or could do, even if it be the filing of the application alone, he or she is entitled to be paid the attorney's fee if one be provided in such case.

33. Section 14.663 is redesignated 14.660 and reads as follows:

§ 14.660 Banks or trust companies acting as guardians for veterans.

Banks or trust companies, corporate entities, acting as guardians for claimants, may be represented before adjudicating agencies as authorized representatives of claimants by an officer or employee thereof, including a regularly employed attorney, if such employee or attorney represents the corporation in its fiduciary capacity, but no fee may be allowed for such services under § 14.646.

34. Section 14.664 is revised to read as follows:

§ 14.664 Scope of authority and effective date.

Pub. L. 88–558 (78 Stat. 767), approved August 31, 1964, as amended, authorizes the Administrator or the Administrator's designee to settle and pay a claim for not more than $15,000 made by a civilian officer or employee of the Veterans Administration for damage to, or loss of personal property incident to such person's service. Authority is delegated by § 2.6(e)(5) of this chapter to the General Counsel, Deputy General Counsel, Assistant General Counsel (Professional Staff Group I), and the Deputy Assistant General Counsel, of said staff group and the District Counsel and those acting for them to settle and pay such claims on behalf of the Administrator, and such settlement shall be final and conclusive.

35. In § 14.665, paragraphs (a) (introduction), (a)(3) and (c) are revised to read as follows:

§ 14.665 Claims.

(a) The claim must be presented in writing on VA Form 2–4760, Employee's Claim for Reimbursement for Personal Property Damaged or Lost Incident to Employment. It will be submitted to the personnel office where the claim originates within 2 years after it accrues except that if the claim accrues in time of war or in time of armed conflict in which any Armed Force of the United States is engaged or if such war or armed conflict intervenes within 2 years after it accrues, and if good cause is shown, the claim may be presented not later than 2 years after that cause ceases to exist. The claim must be executed and certified by the officer or the employee suffering the loss or damage, or in the event of his or her death, by the surviving spouse, children, father or mother or both, or brothers or sisters or both. Claims of survivors shall be settled and paid in the order named. All claims must contain the following:

• • • • •

(3) A statement as to any claim or potential claim he or she may have for indemnification of the loss or damage against other than the United States and whether he or she will assign such to the United States and cooperate in its prosecution. Where such claim or potential claim is against a carrier or insurer, evidence that a timely claim has been properly made. Where a recovery from the carrier or his or her insurer has been obtained or offered, such information shall be included.

• • • • •

(c) The employee designated pursuant to § 14.605 will ascertain if such claim is complete in all respects and conduct such investigation as is necessary to establish all facts required to properly evaluate the claim both as to merit and the reasonable amount payable for the loss or damage. Where it is indicated that the claimant may have a potential claim against other than the United States, the employee designated will secure a suitable assignment of all right and title to such claim, to the extent the United States makes reimbursement, and the agreement of the claimant to furnish such evidence as may be necessary to pursue such claim. If the potential claim is against a carrier or insurer, the employee designated will ascertain that the claimant has filed a timely proper claim and procure evidence thereof. The employee designated will also include information concerning any offer of settlement the carrier may have made. The completed investigation, original claim and supporting evidence will be forwarded to the appropriate District Counsel.

V 42 159 AUG 17 77 UM

36. Section 14.666 is revised to read as follows:

§ 14.666 District Counsel responsibility.

(a) The District Counsel having jurisdiction will conduct such additional investigation as is deemed necessary to establish all facts required. If the claimant has a potential claim for indemnification against other than the United States, the District Counsel will ascertain that a suitable assignment, legally enforceable, of all right and title to such claim, to the extent the United States makes reimbursement, and the agreement of the claimant to furnish such evidence as may be necessary to pursue such claim is of record. If such potential claim is against a carrier or insurer, the District Counsel will ascertain that claimant has filed a timely proper claim against the carrier or insurer and review same for legal sufficiency.

(b) The District Counsel having jurisdiction over a claim will not authorize payment thereon unless the requirement of §§ 14.664 through 14.667 are met. In determining the equitable value of a claim, the depreciation schedule issued by the General Counsel will be used as a guide.

37. In § 14.667, paragraph (a) (2) and (4) is revised to read as follows:

§ 14.667 Claims payable.

(a) No claim shall be paid unless timely filed in proper form as provided in § 14.665 and the preponderance of the evidence establishes that the loss or damage:

* * * * *

(2) Was incident to the employee's service and his or her possession of the property was reasonable, useful, or proper under the circumstances.

* * * * *

(4) Was not caused wholly or partly by the negligent act of claimant, the claimant's agent, or employee, and that the claimant has no right to indemnification for the loss or damage from other than the United States, except to the extent that the claimant assigns such right to the United States and agrees to furnish evidence required to enable the United States to enforce such right. In the event there is a right to recovery for the loss or damage from a carrier or insurer the claimant will be required to file a timely claim for such recovery before consideration of the claim against the United States.

* * * * *

38. In § 14.668, paragraph (b)(2) is revised to read as follows:

§ 14.668 Disposition of claims.

(b) *Allowed claims.* * * *

(2) *Reimbursement by check.* The official authorizing settlement will forward allowed claims, other than those requiring reimbursement in kind, to the Finance activity at the Veterans Administration installation where the claim arose. That activity will audit the claim, which if found proper for payment, will be scheduled on SF 1166, Voucher and Schedule of Payments, and forwarded to the appropriate Regional Disbursing Office for payment.

39. A centerhead and §§ 14.700 through 14.709 are added to read as follows:

COMMITMENTS—FIDUCIARIES

§ 14.700 Court cost and expenses; commitment, restoration, fiduciary appointments.

Counsel to assure the protection of the veteran, his or her beneficiaries, and their estates in State court proceedings involving commitment and restoration, and the appointment of fiduciaries. To this end, certain expenses such as court costs, publication fees, recording fees, transportation expenses and fees for medical testimony may be authorized by the District Counsel. Payment of these costs will be borne by the department concerned. However, every effort will be made by the District Counsel to avoid having these costs imposed on the Veterans Administration. The travel and per diem cost of the District Counsel personnel will be borne by the District Counsel.

§ 14.701 Commitment and restoration proceedings.

(a) *State institutions.* District Counsels are authorized to cooperate with State courts, including the production of required records, in the commitment of veterans to State hospitals or in their restoration to full civil rights.

(b) *Veterans Administration institutions—(1) Assistance to courts in commitment proceedings.* The District Counsel will render assistance to the courts in cases involving the commitment of mentally ill veterans to the Veterans Administration. To this end, the District Counsel may:

(i) Produce Veterans Administration records.

(ii) Appear in court and present material facts.

(iii) When authorized to institute commitment proceedings under paragraph (b)(2) of this section, prepare and present all necessary legal papers, and arrange and authorize transportation costs of veterans and attendants at Veterans Administration expense (§§ 14.703 and 14.704).

(2) *Commitment proceedings.* If a mentally ill veteran will accept hospitalization voluntarily, no action will be initiated by any Veterans Administration employee to commit such veteran. If the veteran will not accept hospitalization, or after being voluntarily hospitalized by the Veterans Administration demands his or her release, and hospitalization is necessary for the veteran's safety or the safety of others, the District Counsel (if a relative of the veteran or other interested person has not done so) may institute proceedings to commit the veteran to the Veterans Administration subject to the following conditions:

(i) That the written consent of the veteran's nearest relative has been obtained. If the nearest relative cannot be readily contacted or refuses to consent, coupled with inability or refusal to offer adequate alternative care, the District Counsel may initiate the action if the petition is signed by another relative, a civil official or representative of a cooperating agency or other person authorized by State law.

(ii) If timely action cannot be taken under paragraph (b)(2)(i) of this section, the Hospital or Clinic Director, or designee, may sign the petition if permissible under State law, and the District Counsel will then take any action necessary to bring the matter before the appropriate court.

(3) *Illegal commitment.* When a hospitalized veteran, previously committed to the Veterans Administration, demands release and continued hospitalization is necessary for the veteran's safety or the safety of others, and the District Counsel determines the commitment to be illegal, immediate action will be taken to obtain a legal commitment.

(4) *Restoration proceedings.* When a veteran has been a committed patient in a Veterans Administration hospital and is subsequently rated competent by the Veterans Administration, the District Counsel upon request, may institute proceedings necessary to restore the veteran to full civil rights.

§ 14.702 Medical testimony in commitment or restoration proceedings.

(a) *Commitment.* When permissible under State law, Veterans Administration physicians, upon request of the District Counsel, will sign interrogatories or certificates of mental illness or insanity and, unless unavailable, as provided in paragraph (c) of this section, will testify in proceedings which the District Counsel is authorized to institute under § 14.701 to commit eligible veterans to the Veterans Administration.

(b) *Restoration.* (1) When permissible under State law, Veterans Administration physicians, upon the request of the District Counsel, will testify in proceedings brought for the purpose of restoring a committed veteran to full civil rights when the veteran is a committed patient in a Veterans Administration hospital.

(2) The Director of a Veterans Administration hospital or the District Counsel upon discharge of the veteran, may furnish a certificate of sanity or such similar certificate to the proper civil authorities.

(c) *Employment of private physicians.* When testimony of Veterans Administration physicians is prohibited or is unavailable because of a duty assignment, comparative expense or other valid reason, the Director of the Veterans Administration hospital, upon recommendation of the District Counsel, may employ any qualified physician for preliminary examination of the veteran and for testimony in any commitment or restoration proceeding which the District Counsel is authorized to institute under § 14.701, and authorize the payment of a fee not to exceed the prescribed fee, or in the absence thereof, the customary fee charged for the service rendered.

§ 14.703 Costs in commitment or restoration proceedings.

(a) When authorized to institute a proceeding under § 14.701, the District Counsel may authorize in advance or thereafter the payment or reimbursement of costs and other expenses for which the veteran is legally liable, including publication of notice necessary to accomplish the commitment.

(b) The District Counsel also may authorize the payment of necessary costs and expenses for which the veteran is legally liable incident to his or her restoration to full civil rights in any case in which the District Counsel is authorized to institute restoration proceedings under § 14.701(b)(4).

§ 14.704 Authorization of transportation necessary for commitment of a veteran beneficiary.

When a mentally ill veteran who should be committed is hospitalized by the Veterans Administration and under the law of the State wherein the hospital is located, a commitment may not be had locally, the veteran may be returned temporarily to the jurisdiction of the appropriate court in order that the commitment can be accomplished. If the veteran is in a Veterans Administration hospital, the Hospital Director may authorize travel of the veteran and an attendant or attendants, if necessary, upon request of the District Counsel. If the veteran is being maintained in a non-Veterans Administration hospital, the Director of the facility authorizing and paying for the care may authorize such travel upon request of the District Counsel.

§ 14.705 Authority to file petitions for appointment of fiduciaries in State courts.

(a) *Adult beneficiary.* The District Counsel is authorized to file or cause to be filed on behalf of a petitioner in a case coming within § 14.706(a) a petition for the appointment of a fiduciary and all necessary legal papers for an adult beneficiary only if it has been determined that alternative methods of payment would not be to the best interests of the beneficiary and when the District Counsel has obtained the written consent of:

(1) The beneficiary's spouse.

(2) The beneficiary's adult child, parent, adult brother or sister if the beneficiary is unmarried, or consent of the spouse is immaterial because of estrangement or mental incapacity, or refusal to consent coupled with failure to offer adequate alternative means for providing for the beneficiary's needs.

(3) A civil official or representative of a cooperating agency when none of the relatives listed in paragraph (a) (1) and (2) of this section can be located after reasonable inquiry or those located are not mentally competent to consent or refuse without offering adequate alternative means for providing for the needs of the beneficiary.

(b) *Minor beneficiaries.* The District Counsel is authorized to file or cause to be filed on behalf of a petitioner in a case coming within § 14.706(a) a petition for the appointment of a fiduciary for a minor, if permissible under the law of the jurisdiction concerned and if it has been determined that protection of the minor's rights under laws administered by the Veterans Administration requires the appointment, provided: the written consent of the minor's natural or adoptive parent or parents or the person or persons occupying the relationship of "in loco parentis" as defined, by the law of the jurisdiction, in which they reside has been obtained. The District Counsel will not institute a court proceeding for the appointment of a fiduciary over the objections of such parent or parents if they are sui juris unless the parent or parents have abandoned the minor or have otherwise refused to meet their parental obligations toward the minor or they have previously been appointed or recognized as the minor's fiduciary and failed to properly execute the duties of their trust. If the minor has no parent or the parent or parents are not sui juris, the District Counsel may file the petition without the consent of any relative.

(c) *Court-appointed fiduciaries.* In court-appointed fiduciary cases, the District Counsel may appear in the court of appointment or in any court having original, concurrent, or appellate jurisdiction, and make proper presentation relating to the foregoing matters. The District Counsel's authority includes but is not limited to:

(1) Petitioning the court to cite a fiduciary to account;

(2) Filing exceptions to accountings;

(3) Requiring fiduciaries to file bonds or make any necessary adjustments;

(4) Requiring investments;

(5) Filing petitions to vacate or modify court orders;

(6) Appearing or intervening in any State court as attorney for the Administrator of Veterans Affairs in litigation instituted by the Administrator or otherwise affecting money paid to such fiduciary by the Veterans Administration;

(7) Incurring necessary court costs and other expenses, including witness fees, appeal bonds, advertising in any newspaper or other publication, preparing briefs or transcripts, purchase of records of trial or other records;

(8) Instituting any other action necessary to secure proper administration of the estate of a Veterans Administration beneficiary, such as filing petitions for the removal of a fiduciary and appointment of a successor;

(9) Taking appropriate action to recover funds improperly disbursed.

(d) *Appeal.* Unless a trial is de novo, no appeal shall be taken to an appellate court and no costs incurred in connection therewith without the prior approval of the General Counsel and the Chief Benefits Director or their designees.

§ 14.706 Legal services in behalf of beneficiaries.

(a) The District Counsel may furnish legal services in behalf of minor and incompetent beneficiaries of the Veterans Administration in fiduciary appointment and estate administration matters involving Veterans Administration benefits or property derived therefrom when the beneficiary's estate or income is not sufficient to justify the employment of an attorney.

(b) The District Counsel may also furnish legal services in hardship situations when restoration from legal disability is a condition precedent to direct payment of Veterans Administration benefits.

(c) Where the fiduciary does not in due course institute the necessary action to terminate the trust relationship and the beneficiary requests representation by the District Counsel or in any such case where there is in question the proper administration of the estate, the District Counsel may file the necessary action and supply legal services. Costs, unless assessed against the fiduciary, should be charged to the estate of the beneficiary.

§ 14.707 Authorization of transportation of a veteran beneficiary for appointment of a fiduciary.

When the appointment of a fiduciary is required for an incompetent veteran hospitalized by the Veterans Administration and, under the law of the State wherein the hospital is located, the appointment cannot be had locally, the veteran may be returned temporarily to the jurisdiction of the appropriate court in order that the appointment can be accomplished. If the veteran is in a Veterans Administration hospital, the Hospital Director, upon request of the District Counsel, may authorize travel of the veteran and an attendant or attendants, if necessary. If the veteran is being maintained in a non-Veterans Administration hospital, the Director of the facility authorizing and paying for the care may authorize such travel upon request of the District Counsel.

§ 14.708 Costs and other expenses incident to appointment of fiduciary.

(a) The District Counsel may authorize the payment of costs and other necessary expenses incident to the appointment of an initial or successor fiduciary for a Veterans Administration beneficiary when:

(1) Authorized to render legal services under § 14.706.

(2) Appointment was caused by the Veterans Administration and it develops that no benefits are payable and there is no estate from which costs may be paid.

(3) Costs must be advanced when there is no immediate estate from which same may be paid. These costs are to be recovered from benefits payable unless the case falls within paragraph (a)(1) of this section.

V 42 159 AUG 17 77 UM

(b) Costs and necessary expenses include:

(1) All those chargeable by statute or rule of court and certified by the clerk of court.

(2) Certified copies of court records required by the Veterans Administration.

(3) Fees for guardian ad litem when chargeable as court costs and required by State law.

§ 14.709 Surety bonds; court-appointed fiduciary.

(a) It is the policy of the Veterans Administration to require, where possible under State laws and rules of the court, corporate surety bonds in all court-appointed fiduciary cases where the fiduciary is an individual and the estate is sufficient to justify the expense of procuring a corporate surety bond. Corporate bonds may be required of corporate fiduciaries in accordance with State laws. In cases wherein fiduciaries neglect or refuse to furnish corporate bonds, as requested by the District Counsel, the District Counsel should take appropriate court action and notify the Veterans Services Officer.

(b) When it is not practical or feasible to require a fiduciary to furnish a corporate surety bond, the District Counsel is authorized to accept bonds with such number of personal sureties as is permissible under State law, but in no event less than one. To be acceptable for Veterans Administration purposes, each personal surety must be worth at least the penal sum named in the bond over and above all debts, liabilities and exemptions and qualify in accordance with the requirements of State law. The District Counsel will request suitable evidence of financial responsibility whenever there is any question as to the ability of a personal surety to meet any probable liability. When suitable evidence is not furnished as requested, or financial responsibility is found to be insufficient to meet the penal sum of the bond, the District Counsel should take appropriate court action and notify the Veterans Services Officer.

(c) It is the policy of the Veterans Administration to require surety bonds in an amount commensurate with value of the personal estate derived from Veterans Administration benefits plus the anticipated net income from Veterans Administration benefits received during the ensuing accounting period. In cases where the fiduciaries neglect or refuse to furnish surety bonds in the amount requested by the District Counsel, the District Counsel should take appropriate court action and notify the Veterans Services Officer. When permissible under State law, the District Counsel may accept, without objection, a lesser degree of protection approved by the court when it is determined that such action will adequately protect the beneficiary's estate.

PART 2—DELEGATIONS OF AUTHORITY

40. Section 2.75 is revised to read as follows:

§ 2.75 The General Counsel, Deputy General Counsel, Assistant General Counsel (Professional Staff Group I), The Deputy Assistant General Counsel of said Staff Group, and the District Counsel and those acting for them are delegated authority to settle and pay a claim for not more than $15,000 made by a civilian officer or employee of the Veterans Administration for damage to, or loss of, personal property incident to such person's service, on behalf of the Administrator, and such settlement shall be final and conclusive.

This delegation of authority is identical to § 14.664 of this chapter.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 775-4]

PART 60—STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

PART 61—NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Authority Citations; Revision

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This action revises the authority citations for Standards of Performance for New Stationary Sources and National Emission Standards for Hazardous Air Pollutants. The revision adopts a method recommended by the FEDERAL REGISTER for identifying which sections are enacted under which statutory authority, making the citations more useful to the reader.

EFFECTIVE DATE: August 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Don R. Goodwin, Emission Standards and Engineering Division, Environmental Protection Agency, Research Triangle Park, N.C. 27711, telephone 919-541-5271.

SUPPLEMENTARY INFORMATION: This action is being taken in accordance with the requirements of 1 CFR 21.43 and is authorized under section 301(a) of the Clean Air Act, as amended, 42 U.S.C. 1857g(a). Because the amendments are clerical in nature and affect no substantive rights or requirements, the Administrator finds it unnecessary to propose and invite public comment.

Dated: August 12, 1977.

DOUGLAS M. COSTLE,
Administrator.

Parts 60 and 61 of Chapter I, Title 40 of the Code of Federal Regulations are revised as follows:

1. The authority citation following the table of sections in Part 60 is revised to read as follows:

AUTHORITY: Sec. 111, 301(a) of the Clean Air Act as amended (42 U.S.C. 1857c-6, 1857g (a)), unless otherwise noted.

2. Following §§ 60.10 and 60.24(g) the following authority citation is added:

(Sec. 116 of the Clean Air Act as amended (42 U.S.C. 1857d-1).)

3. Following §§ 60.7, 60.8, 60.9, 60.11, 60.13, 60.45, 60.46, 60.53, 60.54, 60.63, 60.64, 60.73, 60.74, 60.84, 60.85, 60.93, 60.105, 60.106, 60.113, 60.123, 60.133, 60.144, 60.153, 60.154, 60.165, 60.166, 60.175, 60.176, 60.185, 60.186, 60.194, 60.195, 60.203, 60.204, 60.213, 60.214, 60.223, 60.224, 60.233, 60.234, 60.243, 60.244, 60.253, 60.254, 60.264, 60.265, 60.266, 60.273, 60.274, 60.275 and Appendices A, B, C, and D, the following authority citation is added:

(Sec. 114 of the Clean Air Act as amended (42 U.S.C. 1857c-9).)

4. The authority citation following the table of sections in Part 61 is revised to read as follows:

AUTHORITY: Sec. 112, 301(a) of the Clean Air Act as amended (42 U.S.C. 1857c-7, 1857g (a)), unless otherwise noted.

5. Following § 61.16, the following authority citation is added:

(Sec. 116 of the Clean Air Act as amended (42 U.S.C. 1857d-1).)

6. Following §§ 61.09, 61.10, 61.12, 61.13, 61.14, 61.15, 61.24, 61.33, 61.34, 61.43, 61.44, 61.53, 61.54, 61.55, 61.67, 61.68, 61.69, 61.70, 61.71, and Appendices A and B, the following authority citation is added:

(Sec. 114 of the Clean Air Act as amended (42 U.S.C. 1857c-9).)

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Amdt. No. 1 to Service Order No. 1267]

PART 1033—CAR SERVICE

Louisiana and Arkansas Railway Co. Authorized To Operate Over Tracks of the Atchison, Topeka and Santa Fe Railway Co. and Over Tracks of Chicago, Rock Island and Pacific Railroad Co.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Amendment No. 1 to Service Order No. 1267).

SUMMARY: The Louisiana and Arkansas Railway has been required to discontinue use of certain yard facilities in Dallas, Texas, because of congestion in those facilities. Service Order No. 1267 authorizes the Louisiana and Arkansas to use similar yard tracks at Dallas owned by the Chcago, Rock Island and Pacific Railway and to operate over a short segment of line of the Atchison, Topeka and Santa Fe Railway in order to gain access to those yard tracks. Amendment No. 1 to Service Order No. 1267 extends for an additional six months the emergency authority given to the Louisiana and Arkansas Railway to operate over the tracks of these two railroads.

DATES: Effective 11:59 p.m., August 15, 1977; expires 11:59 p.m., February 15, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, Telephone (202) 275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C. on the 11th day of August, 1977.

Upon further consideration of Service Order No. 1267 (42 FR 26256), and good cause appearing therefor:

It is ordered, That: §1033.1267 *Service Order No. 1267* (Louisiana & Arkansas Railway Company Authorized to Operate Over Tracks of the Atchison, Topkea and Santa Fe Railway Company and over tracks of Chicago, Rock Island and Pacific Railroad Company) be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

§ 1033.1267 Service Order No. 1267.

* * * * *

(g) Expiration date. The provisions of this order shall expire at 11:59 pm., February 15, 1978, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., August 15, 1977.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2). 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10)-(17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael. Member Robert S. Turkington not participating.

H. G. HOMME, JR.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 26—PUBLIC ACCESS, USE AND RECREATION

Opening of Upper Mississippi River Wild Life and Fish Refuge, Illinois and Certain Other States to Public Access, Use and Recreation

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The director has determined that the opening to public access, use and recreation of Upper Mississippi River Wild Life and Fish Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: June 30, 1977 through June 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, 122 West Second Street, Winona, Minn. 55987, Jerry J. Schotzko, phone 507-452-4232.

SUPPLEMENTARY INFORMATION:

§ 26.34 Special Regulations; public access, use and recreation; for individual wildlife refuge areas.

Public use is permitted on the Upper Mississippi River Wild Life and Fish Refuge in accordance with state laws and subject to the following special conditions:

(a) The cutting of all live trees is prohibited, except that willow may be used for trap stakes, commercial fishing gear and hunting blinds.

(b) No live fire, including hot charcoal, shall be burned and/or left unattended.

(c) The abandonment, burying or placing in the water of garbage, trash, camping and picnic debris, and all other deleterious materials is prohibited.

(d) The use on refuge lands of motorized vehicles of any type is prohibited except on designated public roads and routes of travel.

(e) All state laws on use, possession, transportation and sale of all alcoholic beverages which are applicable to the geographic area concerned are adopted and made a part hereof.

(f) The use and/or possession on the refuge of all controlled substances, including but not limited to opiates, cocaine, marijuana, hashish, depressants, stimulants or hallucinogenic drugs is prohibited except when such use or possession is for the person's own use as authorized by law. All state laws on controlled substances applicable to the geographic area concerned are adopted and made a part hereof.

(g) Camping, defined as the use of tent camps; bedrolls; and all types of floating craft, motorized vehicles, trailers and other shelters for overnight stays for the purpose of sleeping, is permitted on the Upper Mississippi River Wild Life and Fish Refuge subject to the following restrictions:

(1) The period of camping by an individual or group shall not exceed fourteen (14) consecutive days at any one site or within 300 feet of such site.

(2) The leaving of tents, camping equipment or floating craft at an unoccupied campsite for more than 24 hours is prohibited. Such gear will be considered as abandoned and is subject to impoundment.

(3) The erection of tables, fireplaces, latrines and other structures and facilities related to camping is prohibited unless all vestiges of same are removed when the camper departs from the site.

(4) Camping is prohibited on developed access and parking areas and on all other areas posted against camping. Camping on the refuge while engaged in fur animal trapping is prohibited. Camping on land on the refuge while engaged in hunting is prohibited except on sites readily visible from the main commercial navigation channel of the Mississippi River or on designated developed camp sites. Camping while engaged in hunting is prohibited in all areas closed to such hunting.

(h) The placement on the refuge of boathouses, boat docks, boat slips, storage boxes or sheds, stairways, wells, septic systems, sewer systems of any type, and all other kinds and types of construction is prohibited without written authorization of the refuge manager or his authorized representative. All new structures, including boathouses, houseboats, docks, piers and floats authorized by permit to be moored, anchored, or secured along the shoreline and on the waters of the Mississippi River within the Upper Mississippi River Wild Life and Fish Refuge must use flotation methods and devices of a type constructed of polyurethane, high-impact polyethylene fiberglass material or other inert materials to provide flotation. The use of any iron or steel container not fabricated originally for flotation purposes, including barrels, tanks and other containers originally constructed for the purpose of containing fluids, powders or similar products is prohibited unless filled with polyurethane.

The provisions of this special regulation supplement the regulations which govern public access, use and recreation on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 26, and are effective until June 30, 1978.

CARL E. POSPICHAL,
Refuge Manager.

JULY 1, 1977.

V 42 159 AUG 17 77 UM

PART 32—HUNTING

Opening of Upper Mississippi River Wild Life and Fish Refuge, Illinois and Certain Other States to Upland Game Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The director has determined that the opening to Upland Game Hunting of Upper Mississippi River Wild Life and Fish Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: June 30, 1977 through June 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, 122 West Second Street, Winona, Minn. 55987, Jerry J. Schotzko, Phone 507–452–4232.

SUPPLEMENTARY INFORMATION:

§ 32.22 Special Regulations, upland game, for individual wildlife refuge areas.

The public hunting of upland game birds and upland game animals on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Restricted hunting of these species is also permitted on the areas designated by signs as "closed" to hunting, except that the Goose Island Closed Area in Pool 8 is closed at all times to hunting and the discharge of guns is prohibited thereon. The "open" areas comprising 153,000 acres and the "closed" areas comprising 41,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987, and from the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be subject to the following special conditions:

1. Hunting on designated "open" areas concurrent with applicable state seasons is permitted, but only during the periods from the first day of the earliest fall state game bird or game animal season applicable to the geographic area concerned, until the end of the applicable state seasons, or until the next succeeding March 1, whichever occurs first.

2. Except for the Goose Island Closed Area which is closed to hunting at all times, hunting on designated "closed" areas concurrent with applicable state seasons is permitted, but only during the period from the first day after the close of the last hunting season for ducks applicable to the geographic area concerned, until the end of the applicable state seasons, or until the next succeeding March 1, whichever occurs first.

3. The hunting of upland game birds and upland game animals shall be in accordance with all applicable state regulations which are adopted herein and made a part of this regulation.

No person shall hunt upland game birds or animals on the Upper Mississippi River Wild Life and Fish Refuge during any period that a person's small game hunting privileges are suspended or under revocation in any state or Canadian province for game law infractions.

5. Except with permission in writing obtained from the refuge manager, the discharge of guns of all types is prohibited on all lands and waters of the Upper Mississippi River Wild Life and Fish Refuge during the period from March 1, until the first day of the earliest fall state game bird or game animal season applicable to the geographic area concerned.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1978.

CARL E. POSPICHAL,
Refuge Manager.

JULY 1, 1977.

PART 32—HUNTING

Opening of Upper Mississippi River Wild Life and Fish Refuge, Illinois and Certain Other States to Big Game Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The director has determined that the opening to big game hunting of Upper Mississippi River Wild Life and Fish Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: June 30, 1977 through June 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, 122 West Second Street, Winona, Minn. 55987, Jerry J. Schotzko, Phone 507–452–4232.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special Regulations: big game; for individual wildlife refuge areas.

The public hunting of deer on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Restricted hunting of deer is also permitted on the areas designated by signs as "closed" to hunting, except that the Goose Island Closed Area in Pool 8 is closed to all hunting at all times. The "open" areas comprising 153,000 acres and the "closed" areas comprising 41,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987, and from the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be subject to the following conditions:

1. Bow and gun deer hunting on designated "open" areas is permitted concurrent with applicable state seasons.

2. Except for the Goose Island Closed Area which is closed to hunting at all times, bow and gun deer hunting on designated "closed" areas concurrent with applicable state seasons is permitted, but only during the period from the first day after the close of the last hunting season for ducks applicable to the geographic area concerned, until the end of the applicable state seasons, or until the next succeeding March 1, whichever occurs first.

3. The hunting of white-tailed deer shall be in accordance with all applicable state regulations which are adopted herein and made a part of this regulation.

4. No person shall hunt deer on the Upper Mississippi River Wild Life and Fish Refuge during any period that person's big game hunting privileges are suspended or under revocation in any state or Canadian province for game law infractions.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1978.

CARL E. POSPICHAL,
Refuge Manager.

JULY 1, 1977.

[FR Doc.77-23699 Filed 8-16-77;8:45 am]

PART 33—SPORT FISHING

Opening of Upper Mississippi River Wild Life and Fish Refuge, Illinois and Certain Other States to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The director has determined that the opening to sport fishing of Upper Mississippi River Wild Life and Fish Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: June 30, 1977 through June 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, 122 West Second Street, Winona, Minn. 55987. (Jerry J. Schotzko), (Phone 507–452–4232).

SUPPLEMENTARY INFORMATION:

§ 33.5 Special Regulations; sport fishing; for individual wildlife areas.

Sport fishing, commercial fishing, and the taking of frogs, turtles, crayfish and clams on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota and Wisconsin is permitted on all water areas of the refuge. The refuge water areas comprising 125,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987, and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. All fishing is subject to the following conditions:

1. Unless further restrictions are imposed by this regulation, all fish, frogs, turtles, crayfish and clams shall be taken in accordance with all applicable state regulations and seasons which are adopted herein and made a part hereof.

2. All sport and commercial fishing and all travel by boat or any other means across, through or on the Spring Lake Closed Area of the Upper Mississippi River Wild Life and Fish Refuge in Carroll Co., Illinois is prohibited from October 1, through December 20.

3. All persons, including their helpers exercising the privilege of commercial fishing on the Spring Lake Closed Area must possess a valid commercial fishing permit issued by the Refuge Manager which are set forth in the permit.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective until June 30, 1978.

CARL E. POSPICHAL,
Refuge Manager.

PART 32—HUNTING

Opening of Chassahowitzka National Wildlife Refuge, Florida, to Migratory Bird Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening of migratory bird hunting of the Chassahowitzka National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Same as prescribed for general waterfowl season in Florida.

FOR FURTHER INFORMATION CONTACT:

Edward Collinsworth, Refuge Manager, Chassahowitzka National Wildlife Refuge, Route 2, Box 44, Homosassa, Florida 32646, telephone A/C 904–628–2201.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory bird hunting is permitted on the Chassahowitzka National Wildlife Refuge, Florida, only on the areas designated by signs as open to hunting. This area comprising 2,500 acres, is delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Migratory bird hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. The hunting of ducks and coots only shall be permitted.

2. Hunting will be permitted only on Wednesdays through Sundays during the regular waterfowl season.

3. A National Wildlife Refuge hunting permit is required.

4. Only steel shot ammunition may be used. The use or possession of shotgun shells with lead or other toxic shot is prohibited.

5. Each hunter under 18 years of age must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

6. Hunter must follow the routes of travel within the refuge that are designated by posting by the officer-in-charge. The routes of travel for airboats to and from the public hunting area are shown on a map available at refuge headquarters. While traveling to and from the hunting area, hunters must have guns unloaded and cased.

7. Only temporary blinds are permitted.

8. The use of dogs is encouraged to retrieve dead and wounded birds. Dogs must be under control at all times.

9. A federal permit is required for the use of airboats on the area.

10. Decoys will be retrieved by owner at the end of each day's hunt.

11. All boats shall comply with Coast Guard and State safety rules and regulations. In addition, when operating in darkness, airboats must be equipped with a spotlight capable of producing an effective beam a minimum of 300 feet.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Date: August 10, 1977.

RAY R. VAUGHN,
Acting Regional Director.

PART 32—HUNTING

Subpart B—Migratory Game Bird Hunting

OPENING OF LAKE ALICE NATIONAL WILDLIFE REFUGE, NORTH DAKOTA, TO MIGRATORY GAME BIRD HUNTING

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to migratory game bird hunting of Lake Alice National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Geese, ducks, mergansers, coots and snipe—in accordance with open seasons established by the North Dakota Game and Fish Department.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Devils Lake Wetland Management District, Box 159–D, Devils Lake, North Dakota 58301. Telephone No. 701–662–2924.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory game bird hunting is permitted on the Lake Alice National Wildlife Refuge, North Dakota, only on the areas designated by signs as being open to public hunting. These areas comprising 3,167 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225. Upland game hunting shall be in accordance with all applicable state regulations subject to the following conditions:

1. Vehicle access and use restricted to established roads.

The provision of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 9, 1977.

PART 32—HUNTING

Opening of Lake Woodruff National Wildlife Refuge, Florida, to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Lake Woodruff National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Archery—September 9–11 and September 23–25, 1977. Primitive gun—October 7–9 and October 28–30, 1977.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Lake Woodruff National Wildlife Refuge, P.O. Box 488, DeLeon Springs, Florida 32028, telephone (904) 985–4673.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Lake Woodruff National Wildlife Refuge, Florida, only on those federally owned lands on Dexter and Tick Islands, approximately 1,450 acres. These areas are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer and feral hogs, subject to the following conditions:

1. Bag limits: White-tailed deer—same as State regulations. Feral hogs—no bag limit. Deer of either sex, except spotted fawns, may be hunted during the archery and primitive gun seasons.

2. Permitted methods of hunting:

a. Archery season: Weapons permitted are longbows, including compound bows, capable of casting a one (1) ounce hunting arrow 150 yards. Sharp broad-head arrows must be used. Firearms, crossbows and drug-tipped arrows are prohibited.

b. Primitive gun season: Weapons permitted are muzzle-loading percussion cap or flintlock guns with iron sights and rifled bores of .40 caliber (.40" diameter) or larger.

3. Stand hours: All hunters must be on stands from ½ hour before sunrise to 1½ hours after sunrise. No stalking or movement through the hunt area is permitted during the stand hours. There will be no required evening stand period, although still hunting is encouraged from 4:00 p.m. until sunset.

4. Access and hours of use: All hunters must check in daily at the check station before entering the hunt area and check out daily before leaving. Access to the hunting area is by boat, and hunters must furnish their own transportation. Airboats are prohibited on the area. No one may enter the hunt area prior to two hours before sunrise, and all hunters must clear the area by two hours after sunset. No overnight use is permitted on the refuge.

5. Permits: Each participant must have in his possession a valid hunting permit issued by the Lake Woodruff National Wildlife Refuge in addition to any required State permits, licenses, etc. A state archery permit is required. All permits are non-transferable.

6. All game must be checked at the check station on the southeast side of Tick Island (Bennett Landing) prior to being taken from the refuge.

7. Hunter must wear a minimum of 500 square inches of fluorescent orange colored material above the waistline during all hunts.

8. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

9. All fires and dogs are prohibited on the refuge.

10. It is unlawful to drive a nail, spike, or other metal object into any tree or to hunt from any tree in which a metal object has been driven.

11. Littering, cutting or blazing live trees, disturbing any other forms of wildlife, or digging in Indian mounds is prohibited.

12. Apprehension of a participant for any infraction of regulations shall be cause for immediate revocation of his hunting permit.

The provision of this special regulation supplements the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A–107.

Dated: August 10, 1977.

RAY R. VAUGHN,
Acting Regional Director.

PART 32—HUNTING

Opening of Eufaula National Wildlife Refuge, Alabama, to Mourning Dove Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to mourning dove hunting of Eufaula National Wildlife refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: October 1, 8, 15, 22, and 29, 1977.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Eufaula National Wildlife Refuge, P.O. Box 258, Eufaula, Ala. 36027, telephone 205–687–4065.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Mourning dove hunting is permitted on the Eufaula National Wildlife Refuge, Alabama, only on the areas designated by signs as being open to hunting. These areas comprising 300 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Dove hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Hunting shall be permitted from 12 noon until sunset (central time) on the Houston Tract Unit on October 1, 8, 15, 22, and 29, 1977.

2. Each hunter must have on his person a validated refuge hunting permit. Permits will be issued to the first 75 hunters at the refuge on each day of the hunt on a first-come, first-serve basis.

3. No hunters will be permitted within hunting areas before 11:45 a.m. each day.

4. All firearms must be encased and/or unloaded when outside the designated hunting area.

5. Each hunter who successfully takes a limit of mourning doves must leave the hunting area immediately.

6. Retrievers used by hunters shall be under the control of the owner at all times.

7. All hunters must check in and out of the refuge at the designated checking station.

8. All litter (paper, empty shell boxes, etc.) must be removed by individual hunters.

9. Wounded or dead doves falling outside the hunting area may be recovered, but firearms must be left inside the hunting area.

10. Vehicle parking will be limited to areas designated by refuge personnel.

11. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 29, 1977. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A–107.

Dated: August 10, 1977.

RAY R. VAUGHN,
Acting Regional Director.

PART 32—HUNTING

Opening of White River National Wildlife Refuge, Arkansas, to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to hunting of White River National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 24–26, December 1–3, December 8–10.

FOR FURTHER INFORMATION CONTACT:

Raymond R. McMaster, Refuge Manager, P.O. Box 308, DeWitt, Ark. 72042, 501–946–1468.

SUPPLEMENTARY INFORMATION:

§ 32.22 Special regulations: upland game: for individual wildlife refuge areas.

Public hunting of raccoon on the White River National Wildlife Refuge is permitted except in those areas closed to gun deer hunting and those areas west of Essex Bayou and Brooks Island south of Brooks Bayou and west of La-Grue Bayou and White River. The open area is delineated on a map available at Refuge check station. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of raccoon, subject to the following special conditions:

1. Species permitted to be taken: Racoon.

2. Bag Limits: State regulations.

3. Weapons: In accordance with State regulations.

4. Loaded guns are not permitted in vehicles or in camps. Shooting is not allowed from vehicles, boats, or roadways used by vehicles. All vehicles must stay on regularly used roads and trails. Camping is permitted in special designated areas. No fires are permitted outside the camping area. No trees will be cut.

5. Permit required. No person is authorized to enter the hunting area without a permit. All hunters must exhibit their hunting licenses, game, and vehicle contents to Federal and State officers upon request.

6. Hunters must check in and out each day at the designated check station between the hours of 5:00 PM and 2:00 AM. Boats will be prohibited in refuge waters. Hunters cannot enter the refuge by boats from navigable waters. Shooting hours begin at 5:00 PM and close at 1:00 AM.

7. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, in no case may one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A–107.

Dated: August 10 ,1977.

RAY R. VAUGHN,
Acting Regional Director.

V 42 159 AUG 17 77 UM

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 611—FOREIGN FISHING

Allocations for Short-Finned Squid and Long-Finned Squid

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Amendment to final regulations.

SUMMARY: This document amends the total allowable level of foreign fishing for short-finned and long-finned squid in the Atlantic Ocean and provides an increased allocation of both species to certain of those nations which had been provided an initial allocation of those species. This is the second reallocation of those species, the first having been made effective on July 29, 1977. Both reallocations are based on a commitment in the Preliminary Fishery Management Plan (PMP) for the Squid Fisheries of the Northwestern Atlantic (42 F.R. 9596) to re-evaluate the U.S. harvest of those species in mid-season in order to make available to foreign fisherman those quantities which U.S. fishermen would not harvest during 1977.

EFFECTIVE DATE: August 12, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard Schaefer, Chief, Fishery Management Operations Division, National Marine Fisheries Service, Washington, D.C. 20235 (202–634–7454).

SUPPLEMENTARY INFORMATION: On February 11, 1977, the National Marine Fisheries Service published Foreign Fishing Regulations (42 FR 8813) which included, in Subpart B, a list of species and the quantities thereof which represented that portion of the optimum yield which would not be harvested by U.S. fishermen and, therefore, under the provisions of the Fishery Conservation and Management Act of 1976, 16 U.S.C. 1801–1882, could be made available to foreign fishermen. Subpart B of the Foreign Fishing Regulations was amended on March 3, 1977 (42 FR 12176) by the inclusion of a list of countries which had made formal application to participate in specific fisheries, and the quantities of surplus species which the Secretary of State, in cooperation with the Secretary of Commerce, had allocated to each such country.

The Preliminary Fishery Management Plan for the Squid Fisheries of the Northwest Atlantic established, for 1977, an optimum yield of 35,000 metric tons of short-finned squid, and 44,000 metric tons of long-finned squid. Of those total amounts, it was initially estimated that U.S. fishermen would harvest 11,500 metric tons of short-finned squid and 25,000 metric tons of long-finned squid, resulting in a surplus for foreign fishermen of 23,500 metric tons of short-finned and 19,000 metric tons of long-finned squid for 1977. By the first of June, however, it had become obvious that U.S. fishermen would not harvest the quantities of squid which had been reserved for them and, consequently, a portion of the unused quantity of squid was reallocated to foreign fishermen by amending § 611.20 (Subpart B) of the foreign fishing regulations (42 FR 39106).

Since that initial reallocation was made, further analysis of U.S. catch data indicates that the U.S. harvest of those species for 1977 will be 5,000 metric tons of short-finned squid and 5,000 metric tons of long-finned squid. In light of this further analysis, the total allowable level of foreign fishing for those species for 1977 is now established at 30,000 metric tons of short-finned squid, and 39,000 metric tons of long-finned squid.

The following amendment reflects this determination by adding that portion of the optimum yield which will not be utilized by U.S. fishermen to the previously established total allowable level of foreign fishing for these species. The amendment further reflects the country allocation of these additional quantities which has been made by the Secretary of State in cooperation with the Secretary of Commerce. Foreign fishermen may not begin fishing for these additional quantities until their respective governments have accepted the additional allocations and the appropriate fees have been paid to the Department of Commerce.

This amendment does not modify the optimum yield for those species established in the PMP, nor does it adversely affect the conservation of the resource.

The Director finds that notice of proposed rulemaking is unnecessary because this amendment involves a foreign affairs function exempted from the requirements of the Administrative Procedure Act.

Signed at Washington, D.C. this 12th day of August 1977.

JOSEPH W. SLAVIN,
Acting Associate Director,
National Marine Fisheries Service.

This amendments to § 611.20 are as follows:

§ 611.20 [Amended]

1. The table in paragraph (b) is amended by increasing the quantity in metric tons of short-finned and long-finned squid to read as follows:

Fishery	Ocean area	Quantity (metric tons)
.	.	.
Short-finned squid..	Atlantic.....	30,000
Long-finned squid.....	do.....	39,000

2. The table in § 611.20(c)(1) is amended by changing the 1977 allocations of squid to certain foreign nations, as follows:

TABLE 1.—*Atlantic coast allocation*

Country	Fishery	1977 allocation (metric tons)
.	.	.
Poland.....	Long-finned squid.....	1,817
	Short-finned squid.....	6,684
Japan.....	Long-finned squid.....	16,930
	Short-finned squid.....	4,810
Spain.....	Long-finned squid.....	9,958
	Short-finned squid.....	7,811
Soviet Union.	Long-finned squid.....	2,131
	Short-finned squid.....	7,492
Italy.....	Long-finned squid.....	3,570
	Short-finned squid.....	1,703

§ 611.51 [Amended]

3. Section 611.51(b) catch quotas are amended as follows: In subparagraph (1) strike the number "25,000"; substitute "30,000", and in subparagraph (2) strike the number "30.000"; substitute "39,000".

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 919]

PEACHES GROWN IN MESA COUNTY, COLORADO

Proposed Expenses and Rate of Assessment for the 1976–77 Fiscal Period

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice invites written comment on proposed expenses of $1,000 and a rate of assessment of $0.00728 per cwt. of peaches for the functioning of the Administrative Committee for the 1976–77 fiscal period. This committee locally administers a Federal marketing order regulating the handling of peaches grown in Mesa County, Colorado. The regulation would enable the committee to collect assessments from handlers on all assessable peaches handled and use the resulting funds for its expenses.

DATES: Comments must be received on or before August 31, 1977. Proposed effective dates: December 1, 1976, through November 30, 1977.

ADDRESSES: Send two copies of comments to the Hearing Clerk, United States Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250. Comments will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202–447–3545.

SUPPLEMENTARY INFORMATION: The proposals under consideration were submitted by the Administrative Committee, established under the marketing agreement, as amended, and Order No. 919, as amended (7 CFR Part 919), regulating the handling of peaches grown in the county of Mesa in the State of Colorado, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer its terms and provisions.

The proposal would add a new section reading as follows:

§ 919.216 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Administrative Committee during the period December 1, 1976, through November 30, 1977, will amount to $1,000.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 919.41, is fixed at $0.00728 per cwt. of peaches.

Dated: Aug. 12, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77–23837 Filed 8–16–77;8:45 am]

[7 CFR Part 967]

CELERY GROWN IN FLORIDA

Proposed Expenses and Rate of Assessment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice invites written comments on proposed expenses of $65,000 and a rate of assessment of one cent per crate of celery for the functioning of the Florida Celery Committee. The regulation would enable the committee to collect assessments from first handlers on all assessable celery handled and to use the resulting funds for its expenses.

DATE: Comments due September 2, 1977.

ADDRESSES: Comments should be sent to: Hearing Clerk, Room 1077 South Building, U.S. Department of Agriculture, Washington, D.C. 20250. Two copies of all written materials shall be submitted. Comments will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone: 202–447–3545.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 149 and Order No. 967, both as amended, regulate the handling of celery grown in Florida. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The Florida Celery Committee, established under the order, is responsible for its local administration.

The proposals are as follows:

§ 967.213 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal year ending July 31, 1978, by the Florida Celery Committee, for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $65,000.

(b) The rate of assessment to be paid by each handler in accordance with this part, shall be one cent ($0.01) per crate of celery handled by him as the first handler during the fiscal year.

(c) Unexpended income in excess of expenses for the fiscal year may be carried over as a reserve to the extent authorized in § 967.62.

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

Dated: August 12, 1977.

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.
CHARLES R. BRADER,

[FR Doc.77–23836 Filed 8–16–77;8:45 am]

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[File No. 762 3082]

DAYCO CORP.

Consent Agreement With Analysis to Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: This consent order requires a Dayton, Ohio manufacturer and importer of occupational safety products and equipment to cease misrepresenting that its products meet non-existent "government standards," or that they are approved, endorsed or required by the Occupational Safety and Health Administration (OSHA). The firm is also required to cease using, or licensing the use of the "OSHA-SPEC" trademark, and to take steps to prevent the importation of "OSHA-SPEC" branded goods. Additionally, the order prohibits the company from publishing quotations from the OSHA Act or regulations, without including all relevant portions of the quoted section.

DATE: Comments must be received on or before October 14, 1977.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th and Pennsylvania Ave., NW., Washington, D.C. 20580.

V 42 159 AUG 17 77 UM

FOR FURTHER INFORMATION CONTACT:

Paul R. Peterson, Director, Cleveland Regional Office, Federal Trade Commission, 1339 Federal Office Building, 1240 East Ninth St., Cleveland, Ohio 44199. 216–522–4207.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the FTC Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record for a record of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b) (14) of the Commission's Rules of Practice (16 CFR 4.9(b) (14)).

UNITED STATES OF AMERICA BEFORE FEDERAL TRADE COMMISSION

In the Matter of Dayco Corporation, a corporation.

[File No. 762 3082]

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

The Federal Trade Commission having initiated an investigation of certain acts and practices of Dayco Corporation, a corporation, and it now appearing that Dayco Corporation, a corporation, hereinafter sometimes referred to as proposed respondent, is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated,

It is hereby agreed by and between Dayco Corporation, by its duly authorized officer, and its attorneys, and counsel for the Federal Trade Commission that:

1. Proposed respondent Dayco Corporation is a corporation organized, existing and doing business under and by virtue of the Laws of the State of Delaware, with its office and principal place of business located at 333 West First Street, in the City of Dayton, State of Ohio.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of the complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint here attached, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the said copy of the complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of Section 2.34 of the Commission's Rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in exact form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding, and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby, and it understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order, and that it may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

ORDER

For purposes of this order, the following definitions shall apply:

(a) "OSHA" means the Occupational Safety and Health Administration, an agency of the United States Government established pursuant to authority granted to the Secretary of Labor by the OSHA Act.

(b) "OSHA Act" includes the Williams-Steiger Occupational Safety and Health Act of 1970, 84 Stat. 1593, 29 U.S.C. Sections 651–678 (1975), and the regulations promulgated thereunder, 29 C.F.R. 1900 *et seq.* (1976).

(c) "Hazardous condition" means a circumstance or set of circumstances against which an employer must take precaution(s) in order to comply with the OSHA Act.

It is ordered that respondent Dayco Corporation, a corporation, its successors and assigns, and its officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the manufacturing, advertising, offering for sale, sale, or distribution of products or equipment in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication, orally or in writing, or by any other means:

(1) That any product or equipment advertised, offered for sale, sold, or distributed by respondent is approved or endorsed by OSHA or by any other governmental agency, provided, however, that this subparagraph shall not prohibit statements that any product or equipment is certified, approved, or endorsed by a governmental agency when, in fact, such product or equipment has been certified, approved, or endorsed by such agency.

(2) That the use of any product or equipment advertised, offered for sale, sold, or distributed by respondent constitutes compliance with the requirements of the OSHA Act;

(a) When hazardous conditions exist and the use of such product or equipment does not constitute compliance with the standards prescribed or referenced by the OSHA Act for such hazardous conditions;

(b) When the use of that product or equipment to protect against certain specific hazardous conditions is contra-indicated, unless respondent clearly and conspicuously discloses the specific conditions for which the use of the product or equipment is contra-indicated.

(3) That any product or equipment advertised, offered for sale, sold, or distributed by respondent meets the standards or requirements prescribed or referenced by the OSHA Act when, in fact, no such standards or requirements exist.

It is further ordered that respondent cease and desist from using the trademark "OSHA–SPEC" in conjunction with any product or equipment, or in conjunction with the advertising, offering for sale, selling, or distribution thereof; and any other title, corporate name, trade name, trademark, whether registered or not, or any other designation or device which in itself represents, directly or by implication, that respondent's occupational safety products or equipment are approved, endorsed, or accepted by, or connected or associated with, any agency or instrumentality of the United States Government. Provided, however, that respondent shall be allowed to disseminate, until December 31, 1977, existing stocks of its 1977 catalog as are in existence upon the date this order becomes final. Respondent shall not cause or permit the placement of any advertisement using the OSHA–SPEC mark after the date this order becomes final. The display of advertisements placed in the "Yellow Pages" prior to the date this order becomes final, which cannot be discontinued by respondent, shall not be deemed a violation of this order.

It is further ordered that respondent cease and desist from assigning or licensing the use of the trademark "OSHA–SPEC" by any person, partnership, or corporation.

It is further ordered that, within thirty (30) days after this order becomes final, respondent shall take such steps as are necessary to prevent importation into the United States of goods bearing, or sold in conjunction with, the "OSHA–SPEC" trademark, including the deposit of the mark with the Department of the Treasury, Bureau of Customs, pursuant to 19 U.S.C. Section 1526.

It is further ordered that respondent cease and desist from reproducing the text, in whole or in part, of the OSHA Act in any advertisement, catalog, or other printed matter which is, or which is designed to be, disseminated by respondent to its customers, unless respondent clearly and conspicuously reproduces such portion of the regulatory section sufficient to disclose alternative methods of compliance, if any, or references to pertinent exceptions, if any, and underlines any portion of the section that describes or permits a method or methods of compliance which differ(s) from the primary method of providing hazard protection referred to by pertinent regulatory sections. Provided, however, that this paragraph shall not prohibit respondent from reproducing the section numbers and corresponding captions used in the OSHA Act to identify subject matter.

It is further ordered that respondent shall forthwith distribute a copy of this order to each of its operating divisions and subsidiaries and to all present and future corporate officers, field, sales, and office personnel, which manufacture or sell occupational safety products and equipment, and prominently post a copy of this order in each office affected by this order.

It is further ordered that respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporation such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered that respondent shall, within sixty (60) days after service of it upon this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

DAYCO CORPORATION, FILE NO. 762 3082

The Federal Trade Commission has accepted an agreement to a proposed consent order from Dayco Corporation.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint alleges that Dayco Corporation, by using its trademark "OSHA–SPEC" in the sale of safety equipment:

Misrepresented that its safety products were approved or endorsed by the Occupational Safety and Health Administration (OSHA);

Misrepresented that all of the products sold under the OSHA–SPEC mark were acceptable for hazard protection in all situations where the OSHA Act would require the use of safety products or equipment; and

Misrepresented that the OSHA Act requires the use of certain products and equipment sold under the OSHA–SPEC mark.

In fact, OSHA neither approves nor endorses specific brands of products for use in compliance with the Williams-Steiger Occupational Safety and Health Act of 1970, 19 U.S.C. Sections 651–678, or the regulations promulgated thereunder.

The complaint also alleges that Dayco printed portions of the OSHA Act and regulations in its catalog. By printing only portions of the Act and regulations, the complaint alleges, Dayco misrepresented that the OSHA Act requires consumers to use certain products when, in fact, alternate products or alternate methods of compliance with the Act and its regulations are available to purchasers.

The proposed order requires Dayco to stop making the alleged misrepresentations, and to affirmatively disclose those instances where the use of certain types of safety products would not be permitted by OSHA. Additionally, if Dayco publishes quotations from the OSHA Act or regulations, it must include all of the pertinent portions of the section quoted.

The proposed order also requires Dayco to stop using the trademark "OSHA–SPEC," and to take steps to prevent "OSHA–SPEC" branded goods from being imported into the United States. The proposed order would also prohibit Dayco from assigning or licensing the use of the mark.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

CAROL M. THOMAS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 210, 211]

[Release Nos. 33–5848, 34–13835, 35–20130]

DISCLOSURE OF CERTAIN REPLACEMENT COST DATA

Solicitation of Comments

AGENCY: Securities and Exchange Commission.

ACTION: Request for comments from interested persons.

SUMMARY: In 1976 the Commission adopted an accounting rule (Rule 3–17 of Regulation S–X) to require certain registrants to disclose replacement cost data. The Commission notes that significant effort has been expended by registrants, public accounting firms and industry groups to provide meaningful disclosures of such data. Comments are requested on experience with implementation problems which should be considered by the staff in providing additional implementation guidance with a goal of achieving more meaningful and consistent disclosures.

DATE: Comments should be submitted on or before October 14, 1977.

ADDRESS: Comments should refer to File S7–713 and should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol St., Washington, D.C. 20549. All comments will be available for public inspection.

FOR FURTHER INFORMATION CONTACT:

Gary A. Zell or Richard C. Adkerson, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202–376–8019.

SUPPLEMENTARY INFORMATION:

BACKGROUND

In Securities Act Release No. 5608 issued August 21, 1975 [40 FR 40550], the Commission proposed for comment amendments to Regulation S–X [17 CFR Part 210] requiring footnote disclosure of certain replacement cost data. On March 23, 1976, in Accounting Series Release (ASR) No. 190 [41 FR 13599] the Commission adopted the proposals in somewhat revised form as § 210.3–17 of Regulation S–X.

In requiring the disclosure the Commission indicated it was aware that the required data could not be calculated with precision. However, the Commission felt such disclosures were important and useful and not otherwise obtainable and that the imprecision of the data, if properly explained, would not obviate the usefulness of the disclosure. The Commission indicated that it could not anticipate every possible circumstance in applying the rule and viewed the various approaches in implementing the rule as experimental.

Initial implementation guidelines to assist registrants in estimating and disclosing the required replacement cost data were published in Staff Accounting Bulletin (SAB) No. 7 [41 FR 13600][1] which was published concurrently with ASR No. 190. The Commission established an Advisory Committee on Replacement Cost Implementation, which met on four occasions during 1976 to consider implementation issues submitted by registrants and others. Based primarily on advice received from the Advisory Committee, the staff issued additional implementation guidelines and interpretations relating to the replacement cost disclosure rule in SAB Nos. 9 [41 FR 26083], 10 [41 FR 35163], 11 [41 FR 39006], 12 [41 FR 50815], and 13 [42 FR 2058].

The Commission has encouraged industry groups and associations to consider specialized problems in the application of replacement cost concepts to their areas of interest. In certain circumstances approaches developed by industry groups have appeared to be the most effective and least costly means of developing replacement cost data. The Commission encourages those industry groups who were involved in these efforts last year to continue their work and other industry groups to initiate similar efforts. As indicated in ASR No. 190, the Commission's staff is willing to lend such assistance as it can to such efforts.

The Commission notes that significant efforts were expended by many registrants, public accounting firms, and industry groups in developing approaches to provide meaningful disclosure of replacement cost data. The Commission encourages those involved in such efforts to inform the Commission of their experiences by furnishing comments in response to this release.

The primary purpose of this release is to solicit comments on implementation problems encountered during the initial development of the replacement cost data. As a result of the comments submitted and the review of the initial filings containing the replacement cost data, the Commission's staff may issue additional implementation guidelines in future Staff Accounting Bulletins.

The Commission does not expect to make any changes in 1977 to the replacement cost rule, except for application in the extractive industries. A separate release will be issued in the near future pertaining to extractive industries. Several trade associations in the extractive industries have been considering the application of the replacement cost concept to mineral resource assets. The Commission did not receive the material to be supplied by the trade association in sufficient time to include issues relating to mineral resource assets in this release. When the Commission completes

[1] The statements in Staff Accounting Bulletins are not rules or interpretations of the Commission nor are they published as bearing the Commission's official approval; they represent interpretations and practices followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the federal securities laws.

V42 N159 AUG 17 77 UM

its review of the data to be supplied by the trade associations, its views together with those of the trade associations will be published for public comment.

Although additional interpretations relating to the replacement cost rule may be published by the Commission's staff, the Commission plans to maintain its position of flexibility in order to encourage meaningful experimentation with the various approaches to providing replacement cost information. If additional interpretative guidelines on replacement cost are published in 1977 by the Commission's staff, they will reflect the Commission's policy of permitting flexibility. Accordingly, registrant's should plan to continue to seek methods to effectively communicate meaningful replacement cost data based on their experiences and their knowledge of the experiences of others in developing the data during the past year.

Registrants are encouraged to emphasize specific implementation matters when responding to this release. The Commission plans to engage in a general evaluation of experiences with the replacement cost rule during 1978 and an opportunity will be provided at that time for comments to be submitted on the advisability of the Commission's making substantive revisions to the replacement cost rule. The Commission plans to make no such revisions at the present time because it does not believe that there has been sufficient time to adequately evaluate the usefulness of the data disclosed.

The Commission encourages comments on all implementation matters considered significant by those involved in developing or using the data. A number of areas of specific concern to the Commission are listed below and those with experiences with these matters are particularly requested to provide comments on them.

1. Many have expressed concern about the effect of the assumed replacement of productive capacity on other operating costs. Many registrants commented generally on the likelihood of cost savings and a relatively small number of registrants estimated amounts for potential cost savings.

2. Section 210.3–17(d) requires that depreciation, depletion, and amortization based on average current replacement cost of productive capacity be estimated by using generally the same economic lives and salvage values used for historical cost purposes. Many have expressed the view that using the historical cost assumptions may not be appropriate, particularly when fully depreciated assets exist. While the Commission does not plan to amend Section 210.3–17(d) in 1977, it is interested in obtaining comments on when the historical cost assumptions for computing depreciation, depletion and amortization should be changed (as permitted by the rule) for determining the replacement cost data.

3. Section 210.3–17(e) requires description of the methods used in determining the amounts of replacement cost data disclosed. Estimating the data requires use of significant assumptions as to how replacement would take place (such as maintaining existing facilities or constructing complete new facilities, using particular types of equipment or processes, and other similar types of major alternative assumptions which would significantly affect the data). Some persons have informally commented that disclosure of the major replacement assumptions has not been uniform thus detracting from usefulness of the data disclosed.

4. Applying the replacement cost concept to certain types of business activities is particularly troublesome. Examples addressed previously include real estate operations, contracts for products manufactured to customer specification, and fee timberland operations in the forest resources industry. The Commission wishes to learn of implementation activities in these and other types of business activities where the application of the replacement cost concept caused unusual implementation or interpretation difficulties.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

DEVELOPMENT OF GUIDELINES FOR DISCLOSURE BY ELECTRIC AND GAS UTILITY COMPANIES

Extension of Comment Period

AGENCY: Securities and Exchange Commission.

ACTION: Extension of time for comment.

SUMMARY: The Securities and Exchange Commission announced today that it has extended, from August 1 to September 15, 1977, the date by which comments must be submitted on the development of disclosure guidelines for the electric and gas utility industry. The advance notice of proposed rulemaking with regard to this industry was issued in Release Nos. 33–5827, 34–13552 and 35–20032 (May 19, 1977) (42 FR 27260 (May 27, 1977)). The Commission has received requests that such comment period be extended and believes that an extension to September 15, 1977 will be beneficial because it will result in the receipt of more useful comments.

DATES: Comments must be received on or before September 15, 1977.

ADDRESS: All communications on this matter should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549. Comments should refer to File No. S7–696 and will be available for public inspection at the Commission's Public Reference Room, 1100 L Street NW., Washington, D.C. 20549.

FOR FURTHER INFORMATION CONTACT:

Linda Griggs, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549. (202–755–1750).

SUPPLEMENTARY INFORMATION: In Securities Act Release No. 5827, Securities Exchange Act Release No 13552, and Public Utility Holding Company Act Release No. 20032 (May 19, 1977), the Commission announced that it was considering the formulation of guidelines for the disclosure to be included in registration statements and reports filed by electric and gas utility companies under the federal securities regulations. Interested persons were invited to participate in the development of the guidelines by submitting comments and suggestions. Commentators were asked to consider guidelines with respect to disclosure of various matters which were listed in the release, among others.

In order to receive the benefit of the comments of persons interested in the electric and gas utility industry and in view of the requests received by the Commission for additional time in which to comment, the Commission has extended the comment period until September 15, 1977.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

SECURITIES CONFIRMATIONS

Extension of Comment Period

AGENCY: Securities and Exchange Commission.

ACTION: Extension of comment period.

SUMMARY: The time for comment on proposed amendments to the confirmation rule has been extended. The comment period currently expires on August 10, 1977.

DATES: Comments must be received on or before September 9, 1977.

ADDRESSES: Interested persons should submit three copies of their written views and comments to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549 and should refer to File No. S7–654. All submissions will be made available for public inspection in the Commission's Public Reference Section, Room 6101, 1100 L Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Jeffrey L. Steele, Esq., Office of the Chief Counsel, Division of Market Regulation, Securities and Exchange Commission, Washington, D.C. 20549. (202–755–8746).

SUPPLEMENTARY INFORMATION: On June 23, 1977, the Commission published Securities Exchange Act Release No. 13661[1] announcing proposed amendments to Securities Exchange Act Rule 10b–10 (17 CFR 240.10b–10). Rule 10b–10 prescribes confirmation delivery and disclosure requirements applicable to brokers and dealers effecting transactions in securities for or with customers.[2]

The Commission has received a number of requests to extend the comment period. In view of the complexity and impact of certain of the proposed amendments, the Commission has determined to extend the comment period until September 9, 1977.

By the Commission.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 54]

PROCEDURES GOVERNING DETERMINATION THAT AN INDIAN GROUP IS A FEDERALLY RECOGNIZED INDIAN TRIBE

Extension of Time for Written Comments

AUGUST 10, 1977.

AGENCY: Bureau of Indian Affairs.

ACTION: Extension of comment period.

SUMMARY: The Bureau of Indian Affairs is extending the comment period for the proposed procedures governing the determination that an Indian group is a federally recognized Indian tribe (42 FR 30647, June 16, 1977). This extension is granted because of numerous requests from interested parties desiring more time to review this proposal.

DATES: Comments must be received by September 18, 1977.

ADDRESS: Written comments should be directed to Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets NW., Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Mr. Leslie Gay, Jr., Division of Tribal Government Services, Branch of Tribal Relations. Telephone: (202–343–4045).

SUPPLEMENTARY INFORMATION: This proposed rule making is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

The deadline for comments on the proposed regulations that will govern the Department's determination that an Indian group is a federally recognized Indian tribe is hereby extended to September 18, 1977. The proposed regulations were published at 42 FR 30647 on June 16, 1977.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

Parole Commission

[28 CFR Part 2]

PAROLE, RELEASE, SUPERVISION, AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Clarification of Practices

AGENCY: United States Parole Commission.

ACTION: Proposed Rule.

SUMMARY: This proposal is designed to clarify the Commission's practices with regard to (1) the prisoner's right to review the documents which the Commission will consider at a parole hearing, and (2) the prisoner's access to copies of documents contained in the Commission's regional office file. The purpose of the proposal is to amend the Commission's practices in the light of changing disclosure problems and policies. The principal change is the adoption of a single set of disclosure exemptions for all areas of document disclosure for which the Commission is responsible.

DATES: Comments must be received on or before September 21, 1977.

ADDRESS: Send comments to the United States Parole Commission, Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537. Attention: Rulemaking Committee.

FOR FURTHER INFORMATION CONTACT:

Michael Stover, Office of General Counsel, Telephone 202–724–3092.

SUPPLEMENTARY INFORMATION: Pursuant to the authority of § 4203(a)(1), 90 Stat. 220, notice is hereby given that the United States Parole Commission intends to consider the adoption of a revised set of document disclosure rules. The proposed rules would govern (1) access by a prisoner to the documents which the Parole Commission will consider at a parole hearing (pursuant to 18 U.S.C. § 4208), and (2) access by a prisoner or parolee (or a former prisoner) to the documents contained in the Commission's regional office file (under the Commission's Alternate Means of Access pursuant to the Privacy Act of 1974, 5 U.S.C. § 552a). The proposed rules do not cover access by any person to documents other than those contained in his or her own files, or access to Commission documents by persons other than prisoners, parolees, or former prisoners (pursuant to the Freedom of Information Act, 5 U.S.C. § 552).

The principal feature of this proposal may be found at proposed section 2.56(c). This paragraph would incorporate the three exemptions set forth under the Parole Commission and Reorganization Act, 18 U.S.C. § 4208(c), into the Commission's "alternate means of access" under the Privacy Act of 1974, 5 U.S.C. § 552a. This change would ensure a uniform, substantive standard for disclosure under both of the two statutory procedures presently available to prisoners seeking access to file material. This means that while the procedures for access to documents necessarily remain different, the actual degree to which information is withheld would be consistent. The desirability of a uniform standard for disclosure should be evident from the fact that many of the same documents, or documents concerning the same items of information, are contained both in the file which the prisoner is entitled to review at his institution prior to a parole hearing (under 18 U.S.C. § 4208), as well as in the Commission's regional office file (which is subject to disclosure under the Privacy Act "alternate means of access"). Moreover, the three exemptions at 18 U.S.C. § 4208(c) are identical to those available to the courts under Rule 32(c)(3)(A), Federal Rules of Criminal Procedure (governing disclosure of the presentence investigation report). Since much of the basic information which the Parole Commission considers is derived from, or repeated by, the presentence investigation report, this fact also points to the need for the present proposed revision.

In addition, recent policy decisions within the Department of Justice (which impose upon all government agencies and components of the Department of Justice a standard that a "sufficient prospect of actual harm" must be present before the withholding of documents will be permitted under the Privacy Act of 1974), have resulted in an actual disclosure practice under the Privacy Act consistent with that which is expected to result under the three exemptions which the Commission now proposes to adopt. (It should be noted that the Attorney General must approve this proposal insofar as it effects a change in the Commission's "alternate means of access" under the Privacy Act of 1974, before the Commission can adopt it as a final rule.)

Other proposed changes would clarify the Commission's procedural practice with regard to pre-hearing disclosure, as well as access to documents in the regional office files. In a number of instances, the most desirable of several alternatives to resolving a particular problem has been selected for inclusion in these proposed rules as standardized practice.

Finally the overall clarification and simplification of the Commission's disclosure rules (to the extent possible under existing laws) should make training and administration in this area much easier for the Commission's staff and facilitate better understanding on the prisoner's part of his statutory disclosure rights.

The text of the proposed rules is as follows:

V 42 159 AUG 17 77 UM

Sections 2.55 and 2.56 are revised as follows:

§ 2.55 Disclosure of files prior to parole hearings.

(a) *Notice; scope of disclosure.* Upon notification of a scheduled hearing pursuant to §§ 2.13 or 2.14 (and at least thirty days prior to the hearing), each prisoner shall receive notice of his right to request disclosure of the reports and other documents to be considered by the Commission in making its determination. Such disclosure shall be limited to official reports and other documents conveying to the Commission relevant information concerning the prisoner's offense behavior, prior record, history and characteristics, institutional performance and parole release plan. For review hearings, disclosable documents will be documents informing the Commission of factors which have changed, or which may have changed, since the date of the last hearing.

(b) *Procedure.* (1) Upon request by the prisoner, review of disclosable documents in the institution file will be permitted by the Bureau of Prisons within seven days of the request, pursuant to its regulations.

(2) The prisoner shall be permitted disclosure of any documents within the scope of paragraph (a) of this section which are contained in the Commission's regional office file. Such documents shall be sent to the institution for disclosure upon receipt of a request by the prisoner.

(3) Official reports falling within the scope of Paragraph (a) shall be transmitted to the institution for inclusion in the prisoner's file upon receipt by the Commission.

(c) *Exemptions to disclosure.* A document may be withheld from disclosure to the extent it contains:

(1) Diagnostic opinions, which if known to the prisoner, could lead to a serious disruption of his institutional program;

(2) Material which would reveal a source of information obtained upon a promise of confidentiality; or

(3) Any other information, which if disclosed, might result in harm, physical or otherwise, to any person, (including the legitimate privacy interest of such person under the Privacy Act of 1974). [78 U.S.C. § 4208(c)].

(d) *Summarization of material withheld.* (1) If any document, or portion thereof, is deemed by the originating agency to fall within an exemption to disclosure, and such agency desires the Commission to withhold the document or portion thereof, the agency shall identify the material to be withheld and the basis for withholding under Paragraph (b) of this section, and shall furnish for disclosure to the prisoner a summary of the material withheld, bearing in mind the need for confidentiality or impact on the prisoner, or both. Summarization under this paragraph permits the Commission to consider the withheld information in its entirety.

(2) Preparation of official reports for disclosure and any necessary summarizing must be completed prior to the submission of reports to the institution in which the prisoner is confined. Reports which have not been prepared for disclosure will be returned to the responsible agency or office for such preparation.

(3) Documents which have not been cleared for disclosure or summarized may not be considered by the Commission in its determination, absent a signed waiver of disclosure from the prisoner.

(e) *Waivers of disclosure.* If any document has not been authorized for disclosure by the originating agency in time for the hearing, the examiner panel shall offer the prisoner the opportunity to waive prehearing disclosure of such document without prejudice to the prisoner's right to review the document (or a summary thereof) upon receipt of a response from the originating agency. If the prisoner will not sign a waiver, the hearing may be continued to the end of the docket, or to the next docket, if the panel concludes that it does not have adequate information to make a decision. In the case of a presentence report which cannot be disclosed, a continuance shall be mandatory absent a waiver of disclosure.

(f) *Late-received documents.* In the event an official report or other document is received following the parole hearing but during the pendency of the parole proceeding, and the Commission intends to consider such document, the prisoner shall be placed on the next docket for a re-hearing, and the document shall be promptly forwarded for inclusion in the prisoner's institutional file. The prisoner shall be notified of such hearing and of his right to request disclosure of the document pursuant to the provisions of this section. However, a late-received document will not be considered by the Commission unless it contains new and significant information.

(g) *Obtaining copies.* Copies of documents contained in institution files may be obtained pursuant to Bureau of Prisons regulations. Copies of documents contained in Regional Office files may be obtained pursuant to § 2.56.

§ 2.56 Disclosure of Regional Office files.

(a) *Procedure.* Copies of documents pertaining to a prisoner or parolee which are contained in the Regional office files of the Commission may be obtained by that prisoner or parolee upon written request to the appropriate regional office. Such requests shall be answered within forty business days of their receipt, absent an emergency. Representatives may obtain copies of documents only upon proof of signed authorization from the prisoner or parolee concerned.

(b) *Scope of disclosure under this section.* Disclosure under this section shall extend to Commission documents concerning the prisoner or parolee making the request. However, documents constituting the work product of the Commission's legal staff, which discuss the Commission's participation in any Court action, shall not be disclosable other than by discovery pursuant to the Federal Rules of Civil or Criminal Procedure. Documents which are contained in the regional file and which are prepared by agencies other than the Commission, shall be referred to the appropriate agency for a response pursuant to its regulations. Any request for copies of court documents (including the presentence investigation report) must be directed to the appropriate court.

(c) *Exemptions:* Disclosure of Commission documents within the scope of this section shall be subject to the exemptions set forth in §2.55(c).

(d) *Hearing record.* Upon request by the prisoner or parolee concerned, the Commission shall make available a copy of any verbatim record which it has retained of a hearing, pursuant to 18 U.S.C. §4208(f).

(e) *Specification of documents withheld.* Documents or portions thereof withheld pursuant to paragraph (c) of this section shall be identified together with the applicable exemption for withholding each document or portion thereof. The summarization requirements of §2.55(d) shall not apply to any document or portion thereof withheld pursuant to this section.

(f) *Costs.* In any case in which reproduction charges exceed three dollars (e.g. reproduction of over thirty pages or of one cassette and twenty-four pages), prisoners will be required to reimburse the United States the amount in excess of three dollars prior to the satisfaction of any disclosure request, unless a statement from the case manager is submitted affirming that no funds are available in the prisoner's commissary account.

CURTIS C. CRAWFORD,
Acting Chairman,
United States Parole Commission.

[28 CFR Part 2]

PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Definitions

AGENCY: United States Parole Commission.

ACTION: Proposed rule.

SUMMARY: This proposal would enlarge the definition of "absconding" in an existing rule which denies sentence credit for the time a Youth Corrections Act or Narcotic Addict Rehabilitation Act parolee is in absconder status. The proposal is designed to meet the problem of a parolee who evades supervision while remaining within his district, by removing from the existing rule a requirement that the parolee abscond "from his or her district of supervision".

DATES: Comments must be received on or before September 21, 1977.

ADDRESS: Send comments to United States Parole Commission, Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537; Attention: Rulemaking Committee.

FOR FURTHER INFORMATION, CONTACT:

Frederick Martin, Telephone 202/724-3092.

SUPPLEMENTARY INFORMATION: Pursuant to the authority of 18 U.S.C. § 4203(a)(1), 90 Stat. 220, notice is hereby given that the United States Parole Commission intends to consider the adoption of a certain proposed regulation discussed and set forth below.

All interested persons who wish to comment on this proposal should send their written statements and suggestions to the United States Parole Commission, Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537, Attention: Rulemaking Committee. All comment must be received by September 21, 1977.

In the FEDERAL REGISTER for Thursday, December 2, 1976 [41 FR 52889] a notice of proposed rulemaking was published regarding whether offenders sentenced under the Youth Corrections Act and Narcotic Addict Rehabilitation Act should receive credit towards service of their term when, among other situations, the offender absconds from supervision. 28 CFR 2.10(c)(3). After receiving public comment on this proposal [42 FR 12043], the Commissioners at their March 1977 meeting approved the proposed regulation in other respects but found that the language in § 2.10(c) in their opinion was unnecessarily restrictive and did not comport with their understanding of absconding from supervision. Specifically, it was noted that a parolee need not leave "his or her district of parole supervision" in order to be declared an absconder. Rather an offender who loses all contact with the supervising probation officer, even though he or she remains within the limits of the district, is an absconder and should not be considered to be serving the sentence on parole. Supervisory contact, not geographical location, is determinative. Therefore, it was determined that section 2.10(c)(3) be amended and republished for comment.

The text of this proposed rule is as follows:

§ 2.10(c) Service of the sentence of a committed youth offender or a person committed under the Narcotic Addict Rehabilitation Act commences to run from the date of conviction and is interrupted only when such prisoner or parolee • • •

(3) has absconded from parole supervision; • • •

Dated: August 10, 1977.

CURTIS C. CRAWFORD,
Acting Chairman,
United States Parole Commission.

LIBRARY OF CONGRESS

Copyright Office

[37 CFR Part 201]

[Docket RM 77-5]

WARNING OF COPYRIGHT FOR USE BY LIBRARIES AND ARCHIVES

Proposed Rulemaking

AGENCY: Library of Congress, Copyright Office.

ACTION: Proposed rule.

SUMMARY: This notice of proposed rulemaking is issued to advise the public that the Copyright Office of the Library of Congress is considering adoption of a new regulation designed to implement a section of the Act for General Revision of the Copyright Law, pertaining to the use and display by libraries and archives of certain warnings of copyright in connection with their photoduplication and related activities. The new regulation would establish requirements governing the content and manner of use of these warnings. Interested members of the public are invited to participate in the making of the new regulation by submiting relevant written views, arguments or other comments.

DATES: Initial comments should be received on or before September 2, 1977. Reply comments on or before September 16, 1977.

ADDRESSES: Interested persons should submit five copies of their written comments, if by mail, to: Office of the General Counsel, Copyright Office, Library of Congress, Caller No. 2999, Arlington, Virginia 22202, or, if by hand, to: Office of the General Counsel, Copyright Office, Library of Congress, Room 519, Crystal Mall, Bldg. No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT:

Jon Baumgarten, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559. 703-557-8731.

SUPPLEMENTARY INFORMATION: Sections 108(d) and 108(e) of the first section of Pub. L. 553 (90 Stat. 2541) set forth conditions under which specified libraries and archives, or their employees acting within the scope of their employment, may make and distribute single copies and phonorecords of certain copyrighter works, or parts of works, without the consent of the copyright owner. Among other conditions specified in the Act, the library or archive must "display prominently, at the place where orders [for copies or phonorecords] are accepted, and include on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation." We propose that these requirements be established by the addition of a new § 201.14 to the regulations of the Copyright Office.

On March 30, 1977, by Advance Notice of Proposed Rulemaking (61 FR 16838), we invited public comment, views, and information to assist the Office in considering alternative forms of warning. Proposed § 201.14 adopts elements of several of the comments received. Several comments raised matters not directly touched upon in the proposed regulation. These and other matters are discussed immediately below.

(1) *Machine Warnings.* A number of comments assumed that the proposed regulation would deal with the "notice" to be used in connection with unsupervised reproducing equipment (e.g., coin-operated machines) under section 108(f)(1) of the Act. However, that section specifically refers to a "notice that the making of a copy may be subject to the copyright law" and does not require our further regulatory determination of the contents of the notice. Accordingly, the proposed regulation deals only with the warnings of copyright prescribed by sections 108 (d) and (e).

(2) *Notice of Copyright.* For similar reasons, the proposed regulation does not deal with the "notice of copyright" prescribed in section 108(a)(3) of the Act.

(3) *Purpose.* In preparing the proposed regulation we have considered that the primary purpose of the warnings is to advise the library's or archives' patrons of restrictions on the use of any copy provided, rather than to advise libraries and archives, or their staffs, of their own obligations under the Act. Accordingly, although we gave serious consideration to the use of a longer form of warning for order forms which would incorporate various conditions of sections 108 (d), (e) and (g) of the Act, we finally decided to propose the shorter warning set forth in proposed § 201.14. We specifically invite comments on this decision.

(4) *Interlibrary Loan Forms.* Several comments related to whether the warning of copyright required to be placed on order forms applies to so-called "Interlibrary Loan" (ILL) request forms used to supply photocopies of journal articles and the like. In connection with our conclusion as to the purpose of the warnings, we do not believe that the warning should be mandatory if an ILL form is used exclusively by and among employees of libraries and archives. However, if an ILL form is in whole or in part filled out by the patron, or if a copy of the ILL form is given to the patron along with the material requested, the use of the prescribed warning would appear to be required under the Act.

(5) *Explanatory and Interpretative Material.* Several comments referred to the desirability of providing additional explanatory or interpretative material, in pamphlet form or the like, for the use of library staff, patrons, or both. It is reasonable to assume that use of the proposed warnings will generate questions by library patrons directed to library

V 42 N 159 AUG 17 77 UM

staff. Although the Copyright Office will be distributing informational material about the new Copyright Act, the material will generally be declarative, rather than interpretative, of the new law. Accordingly, we urge libraries, archives, and their associations, together with legal counsel, to prepare more specific material for the guidance of staff and patrons.

(6) *Language.* One comment suggested that the warnings be given in more than one language. The proposed regulation requires that the warnings be "comprehensible" and we assume that libraries and archives will take appropriate steps to render the warnings in such manner as to reflect the linguistic backgrounds of their usual patrons.

(7) *Music.* Several comments related to the reproduction of music. As sections 108 (d) and (e) do not apply to music, we have not dealt specifically with this type of work. At the same time, there does not appear to be any inconsistency between the language of the proposed regulation and the limitations on unauthorized reproduction of music.

Copies of all comments received will be available for inspection and copying between the hours of 8 a.m. and 4 p.m., Monday through Friday, in the Public Information Office of the Copyright Office, Room No. 101, Crystal Mall, Bldg. No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia.

Proposed regulation. We propose to amend Part 201 of 37 CFR Chapter II by adding new § 201.14 to read as follows:

§ 201.14 Warnings of copyright for use by certain libraries and archives.

(a) *Definitions.* (1) A "Display Warning of Copyright" is a notice under paragraphs (d)(2) and (e)(2) of section 108 of Title 17 of the United States Code as amended by Pub. L. 94–553. As required by those sections the "Display Warning of Copyright" is to be displayed at the place where orders for copies or phonorecords are accepted by certain libraries and archives.

(2) An "Order Warning of Copyright" is a notice under paragraphs (d)(2) and (e)(2) of section 108 of Title 17 of the United States Code as amended by Pub. L. 94–553. As required by those sections the "Order Warning of Copyright" is to be included on printed forms supplied by certain libraries and archives and used by their patrons for ordering copies or phonorecords.

(b) *Contents.* A Display Warning of Copyright and an Order Warning of Copyright shall consist of a verbatim reproduction of the following notice, printed in such size and form and displayed in such manner as to comply with paragraph (c) of this section:

NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

• The copyright law of the United States governs the making of photocopies or other reproductions of copyrighted material.

• Photocopies or other reproductions can be furnished only under certain conditions, if they will be used solely for private study, scholarship, or research. Use of the reproduction for other purposes may make the user liable for copyright infringement.

• This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of copyright law.

(c) *Form and Manner of Use.* (1) A Display Warning of Copyright shall be printed on cardboard stock in type at least 18 points in size, and shall be displayed prominently, in such manner and location as to be clearly visible, legible and comprehensible to a casual observer within the immediate vicinity of the place where orders are accepted.

(2) An Order Warning of Copyright shall be printed within a box located prominently on the order form itself, either on the front side of the form or immediately adjacent to the space calling for the name or signature of the person using the form. The notice shall be printed in type size no smaller than that used predominately throughout the form, and in no case shall the type size be smaller than 8 points. The notice shall be printed in such manner as to be clearly legible, comprehensible, and readily apparent to a casual reader of the form.

(17 U.S.C. 207, and under the following sections of Title 17 of the U.S. Code as amended by Pub. L. 94–553: 108; 702.)

Dated: August 9, 1977.

BARBARA RINGER,
Register of Copyrights.

Approved:

DANIEL J. BOORSTIN,
Librarian of Congress.

[Docket RM 77-8]

FILING OF COPIES OF CERTAIN CONTRACTS BY CABLE SYSTEMS

Proposed Rulemaking

AGENCY: Library of Congress, Copyright Office.

ACTION: Proposed rule.

SUMMARY: This notice of proposed rulemaking is issued to advise the public that the Copyright Office of the Library of Congress is considering the adoption of a new regulation designed to implement a section of the Act for General Revision of the Copyright Law, pertaining to the filing of copies of certain contracts entered into by cable television systems located outside of the forty-eight contiguous States. The new regulation would establish the formal requirements governing the nature of the document to be filed for recordation. We invite interested persons to participate in the making of the new regulation by submitting relevant written views, arguments or other comments.

DATES: Initial comments should be received on or before September 2, 1977. Reply comments on or before September 16, 1977.

ADDRESS: Five copies of all written comments should be submitted, if by mail, to: Office of the General Counsel, Copyright Office, Library of Congress, Caller Number 2999, Arlington, Virginia 22202, or, if by hand, to: Office of the General Counsel, Copyright Office, Rm. 519, Crystal Mall, Bldg. No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT:

Jon Baumgarten, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559. (703—557–8731.

SUPPLEMENTARY INFORMATION: Section 111 of the first section of Pub. L. 94–553 (90 Stat. 2541) establishes a compulsory licensing system under which cable system may make secondary transmissions of copyrighted works. As a general rule, secondary transmissions must occur simultaneously with the primary transmission in order to be eligible for the compulsory license. In most cases the videotaping or other off-air recording of a broadcast program and later transmission from the recording is not permitted under the compulsory license.

However, section 111 provides for an exception to this general requirement for simultaneous retransmission. Because of the limited availability of over-the-air signals in certain areas outside of the forty-eight contiguous States, cable systems located in these areas are still eligible for the compulsory license even if their secondary transmissions are "nonsimultaneous"—that is, even if they use videotapes or similar forms of recordings to retransmit programming. The statute identifies the areas where these "nonsimultaneous secondary transmissions" are permitted under the compulsory license: those areas located in whole or in part outside the boundary of the forty-eight contiguous States, but not including Puerto Rico and, with certain exceptions, Hawaii. To simplify discussion, we shall refer in this notice to a cable system located in such an area as a "special" cable system.

Section 111(c) of the Act specifies various conditions under which nonsimultaneous secondary transmissions by special cable systems are permitted. Paragraph (2) of section 111(c) deals with exchanges of videotapes of programs between special cable systems. It provides that a videotape [1] embodying a program nonsimultaneously transmitted by a special system may, under certain circumstances,[2] be transferred to another special system, but only "pursuant to a written nonprofit contract providing for the equitable sharing of the costs of such videotape and its transfer." Among other conditions it also requires that "a copy of such contract [be] filed, within thirty days after such contract is entered into, with the Copyright Office (which Office shall make such contract available for public inspection) • • •."

We propose that the filing and recordation of these documents be covered by the addition of a new § 201.12 to the regulations of the Copyright Office, to become effective on January 1, 1978. Proposed § 201.12 would establish the formal requirements governing the nature of the document to be filed for recordation. Since all documents recorded in the Copyright Office will be open to public inspection there is no need to specify their availability in the proposed regulation. The recording fee specified in the proposed regulation is authorized by § 708(a)(11) of the new Act and is consistent with that provided by § 708(a)(4).

Copies of all comments will be available for inspection and copying between the hours of 8 a.m. and 4 p.m., Monday through Friday, in the Public Information Office of the Copyright Office, Room No. 101, Crystal Mall, Building No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia.

Proposed Regulation. We propose to amend Part 201 of 37 CFR Chapter II by adding a new § 201.12 to read as follows:

§ 201.12 Recordation of certain contracts by cable systems located outside of the forty-eight contiguous states.

(a) Written, nonprofit contracts providing for the equitable sharing of costs of videotapes and their transfer, as identified in section 111(c)(2) of Title 17 of the United States Code as amended by Pub. L. 94–553, will be filed in the Copyright Office of recordation upon payment of the fee prescribed by this section. The document submitted for recordation shall meet the following requirements:

(1) It shall be an original instrument of contract; or it shall be a legible photocopy or other full-size facsimile reproduction of an original, accompanied by a certification signed by at least one of the parties to the contract, or an authorized representative of that party, that the reproduction is a true copy;

(2) It shall bear the signatures of all persons identified as parties to the contract, or of their authorized agents or representatives;

(3) It shall be complete on its face, and shall include any schedules, appendixes, or other attachments referred to in the instrument as being part of it; and

(4) It shall be clearly identified, in its body or a covering transmittal letter, as being submitted for recordation under 17 U.S.C. 111(e).

(b) For a document consisting of six pages or less the recordation fee is $10; an additional charge of 50 cents is made for each page over six. If titles of works are specified in the contract, an additional charge of 50 cents is made for each title over one.

(c) The date of recordation is the date when all of the elements required for recordation, including the prescribed fee, have been received in the Copyright Office. A document is filed in the Copyright Office and a filing in the Copyright Office takes place on the date of recordation. After recordation the document is returned to the sender with a certificate of record.

(*7 U.S.C. 207, and under the following sections of Title 17 of the U.S.C. as amended by Pub. L. 94–553: §§ 111; 702; 708(11).)

Dated: August 9, 1977.

---

[1] For this purpose the statute defines a "videotape" to include any material object embodying the reproduction of a television program broadcast by a station licensed by the F.C.C.

[2] If a special cable system has used a videotape for a nonsimultaneous retransmission in compliance with section 111, including section 111(c), the videotape may be transferred to certain other special cable systems; under certain conditions the tape "may be transferred by one cable system in Alaska to another system in Alaska, by one cable system in Hawaii permitted to make such nonsimultaneous transmissions to another such cable system in Hawaii, or by one cable system in Guam, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands, to another cable system in any of those three territories • • •."

VETERANS ADMINISTRATION

[38 CFR Part 17]

MEDICAL BENEFITS

Authority to Furnish Emergency Hospitalization

AGENCY: Veterans Administration.

ACTION: Proposed Regulation.

SUMMARY: This proposed amendment provides that in the case of an emergency that existed at the time of admission to a non-Veterans Administration hospital an authorization may be deemed a prior authorization if an application is dispatched to the Veterans Administration for veterans in a noncontiguous State, territory or possession of the United States (not including Puerto Rico) within 72 hours after communication facilities become available for dispatch of such application. This amendment provides authority to extend the time limitation for filing of an application. This extension of time is proposed because appropriate communication facilities are not always available outside the 48 contiguous States, territories or possessions of the United States (not including Puerto Rico).

DATES: Comments must be received on or before September 16, 1977. It is proposed to make this amendment effective the date of final approval.

ADDRESSES: Send written comments to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Ave., NW., Washington, D.C. 20420. Comments will be available for inspection at the address shown above during normal business hours until September 26, 1977.

FOR FURTHER INFORMATION CONTACT:

Joseph L. Erwin, Chief, Policies and Procedures, Medical Administration Service, Department of Medicine and Surgery, Veterans Administration, Washington, D.C. 20420 (202–389–3785).

SUPPLEMENTARY INFORMATION: At the present time, an authorization for hospital care at Veterans Administration expense may be deemed a prior authorization if the application for such care is dispatched within 72 hours of the hour and date of admission to the hospital. Appropriate communication facilities (telephone, telegraph, mail or other types of communication) are not always immediately available at points in a noncontiguous State, territory or possession of the United States (not including Puerto Rico). It is proposed that, in the case of an emergency that existed at the time of admission, an authorization may be deemed a prior authorization if the application is dispatched to the Veterans Administration within 72 hours after such communications first become available to the applicant and/or his or her representative.

ADDITIONAL COMMENT INFORMATION

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420. All written comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays), until September 26, 1977. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

NOTE.—The Veterans Administration has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 as amended by Executive Order 11949 and OMB Circular A–107.

Approved: August 10, 1977.

By direction of the Administrator,

RUFUS H. WILSON,
Deputy Administrator.

Section 17.50d is revised to read as follows:

V 42 N 159 AUG 17 77 UM

§ 17.50d Necessity for prior authorization.

(a) The admission of a veteran to a non-Veterans Administration hospital at Veterans Administration expense must be authorized in advance. In the case of an emergency which existed at the time of admission, an authorization may be deemed a prior authorization if an application, whether formal or informal, by telephone, telegraph or other communication, made by the veteran or by others in his or her behalf is dispatched to the Veterans Administration (1) For veterans in the 48 contiguous States and Puerto Rico, within 72 hours after the hour of admission, including in the computation of time Saturday, Sunday and holidays, or (2) For veterans in a noncontiguous State, territory or possession of the United States (not including Puerto Rico) if facilities for dispatch of application as described in this section are not available within the 72-hour period, provided the application was filed within 72 hours after facilities became available.

(b) When an application for admission by a veteran in one of the 48 contiguous States in the United States or in Puerto Rico has been made more than 72 hours after admission, or more than 72 hours after facilities are available in a noncontiguous State, territory or possession of the United States, authorization for continued care at Veterans Administration expense shall be effective as of the postmark or dispatch date of the application, or the date of any telephone call constituting an informal application.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[43 CFR Part 424]

CONCONULLY LAKE AND CONCONULLY RESERVOIR, OKANOGAN COUNTY, WASHINGTON

Regulations Pertaining to Water Quality Standards and Effluent Limitation Respecting Discharge of Pollutants

AGENCY: Bureau of Reclamation, Interior.

ACTION: Proposed rule.

SUMMARY: This document proposes rules requiring the Okanogan Irrigation District, Okanogan County, Washington, to require that recipients of district cabinsite and recreation resort leases located on Conconully Lake and Conconully Reservoir comply with applicable federal, state, and local laws, rules and regulations pertaining to water quality and discharge of pollutants into the reservoir. Action is being taken in compliance with the Reclamation Act of June 17, 1902 as amended and supplemented, and the provisions of Articles 34 and 25 of the Repayment Contract Ilr-1534, dated September 20, 1948, between the United States and the Okanogan Irrigation District.

DATE: It is the policy of the Department of the Interior to afford the public an opportunity to participate in the rule-making process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed regulations to the Bureau of Reclamation. Comments must be received on or before September 16, 1977.

ADDRESS: Comments should be submitted to the Commissioner, Bureau of Reclamation, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240, Attention: Code 420.

FOR FURTHER INFORMATION CONTACT:

Mr. L. David Williamson, Chief, Recreation and Lands Branch, Division of Water and Land, Bureau of Reclamation, 202-341-5204.

SUPPLEMENTAL INFORMATION: The Bureau of Reclamation has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Orders 11821 and 11949 and OMB Circular A-107.

The primary authors of this document are Mr. Mike Misner and Mrs. Jean Kujawa.

It has been determined that this proposed regulation is not a major Federal action significantly affecting the quality of the human environment and that no environmental impact statement pursuant to Section 102(2)(c) of the National Environmental Policy Act, 42 U.S.C. Section 4332(c) is required.

PART 424—REGULATIONS PERTAINING TO WATER QUALITY STANDARDS AND EFFLUENT LIMITATIONS RESPECTING THE DISCHARGE OF POLLUTANTS INTO CONCONULLY LAKE AND CONCONULLY RESERVOIR, OKANOGAN COUNTY, WASHINGTON

§ 424.1 Regulations.

Pursuant to the provisions of Article 34 and 25 of repayment contract Ilr-1534, dated September 20, 1948, between the United States and the Okanogan Irrigation District, it is ordered as follows:

The Okanogan Irrigation District shall require that all recipients of cabinsite and recreation resort leases on federal lands situated on Conconully Lake (formerly Salmon Lake) and Conconully Reservoir, Okanogan County, Washington, comply with all applicable federal, state and local laws, rules and regulations pertaining to water quality standards, and effluent limitations respecting the discharge of pollutants into said reservoirs.

Dated: August 8, 1977.

GUY R. MARTIN,
Assistant Secretary of the Interior.

[FR Doc.77-23744 Filed 8-16-77;8:45 am]

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 260]

INSPECTION AND CERTIFICATION OF FISHERY PRODUCTS

Lot Inspection—Contract Basis

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: The proposed rule establishes rates for the conduct of lot inspections under the voluntary seafood inspection program on a written contract basis.

DATE: Comments must be received on or before September 15, 1977.

ADDRESS: Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Thomas J. Billy, National Program Manager, Seafood Quality and Inspection Division, National Marine Fisheries Service, Washington, D.C. 20235. (202)—634-7458).

SUPPLEMENTARY INFORMATION: Several parties who use lot inspection services on a frequent, continuing basis have expressed concern about the high hourly rate charged for the service compared to the hourly rate charged for product inspection performed in official establishments under written contract. The current charge per hour for regular time lot inspection is $24.85, while for product inspection conducted in official establishments the rate is $16.55. The primary reason for the lower cost of the latter type inspection service is that it permits a more efficient use of the inspector's time. That is, contractual agreements guarantee a minimum number of hours of inspectors' usage within a specified time period. Thus, the scheduling of available inspection manpower can be more efficiently planned. Lot inspections are customarily performed on a request or on-call basis, and the planning and scheduling of manpower is, therefore, minimal. The hourly rate for fees charged for all inspection services must be sufficient to recover the costs associated with providing them. Fees for providing lot inspection services are necessarily higher because they must make provisions for costs which continue during nonrevenue generating time. A review of the situation indicates that improved efficiency and cost effectiveness of manpower used for performing lot inspection will result in those instances where a known, continuing minimum number of inspection hours permits a basic scheduling of the inspection workload. This method is currently used for the program's Type II—Miscellaneous Inspection and Consultative Service, which is currently available at the hourly rate of $20.70 for regular time. By making provisions for the conduct of lot inspection service on a written contract, guaranteed minimum usage basis, the inspection program can make more efficient use of inspectors' time, which, in turn, will reduce the cost of the service to those parties who use it on a continuing basis.

Accordingly, 50 CFR Part 260 is proposed to be amended by revising § 260.70 (b)(3) to read as follows:

§ 260.70 Schedule of fees.

* * * * * *

(b) * * *

(3) Type III—Miscellaneous Inspection and Consultative Services. When any inspection or related service, such as, but not limited to, initial and final establishment surveys, appeal inspection, sanitation evaluation, SIFE inspections, sampling, product evaluation, label and product specifications review, and lot inspection—contract basis, rendered is such that charges based on the foregoing section are clearly inapplicable, charges will be based on the rates set forth below:

	Per hour
Regular time	$20.70
Overtime	26.20
Sunday and legal holidays (2 h minimum)	33.30
Minimum fee	15.60

For miscellaneous inspection and consultative services performed between the hours of 7 a.m. and 5 p.m., Monday through Friday: $20.70 per hour. For miscellaneous inspections and consultative services performed at times Monday through Friday other than 7 a.m. to 5 p.m. and on Saturdays (2 hr. minimum): $26.20 per hour.

For miscellaneous inspection and consultative services performed on Sunday and national legal holidays (2 hr. minimum): $33.30 per hour. The minimum service fee to be charged and collected for miscellaneous inspection and consultative services requiring less than 1 hour shall be $15.60.

RICHARD A. FRANK,
Administrator.

Dated: August 10, 1977.

CIVIL AERONAUTICS BOARD

[Order 77-8-38; Docket 30994]

TACA INTERNATIONAL AIRLINES, S.A.

Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 11th day of August, 1977.

TACA International Airlines, S.A. (TACA) is the holder of a foreign air carrier permit[1] authorizing: (a) foreign air transportation of persons, property, and mail between the terminal point San Salvador, El Salvador; the intermediate points Guatemala City, Guatemala, San Pedro Sula, Honduras, Belize City, British Honduras (Belize), and Merida, Mexico;[2] and the terminal point New Orleans, Louisiana; and between the terminal point San Salvadors; the intermediate points San Pedro Sula, Honduras, and Belize City, British Honduras (Belize); and the terminal point Miami, Florida; and (b) the performance of charter trips pursuant to Part 212 of the Board's Economic Regulations.

By application filed on June 15, 1977,[3] TACA requests that its foreign air carrier permit, as issued by Order 76-10-44, be amended so as to eliminate the expiration date of "one year from the effective date of this permit," while retaining the expiration date of "whenever a United States carrier inaugurates scheduled service between New Orleans and Merida." TACA also requests that its applications be handled by show-cause procedures.

At the present time no U.S. air carrier serves the New Orleans-Merida market. Apart from TACA's current operations, the only direct service in that market is provided by a Guatemalan carrier operating daily round-trip flights. In Order 76-10-44 the Board found that, in the absence of air service between New Orleans and Merida by any U.S. carrier, it was in the public interest to authorize TACA to serve Merida as an additional intermediate point on the carrier's authorized flights between the terminal point San Salvador, El Salvador, and the terminal point New Orleans, Louisiana. By Order 76-9-80 the Board instituted the *Houston/New Orleans-Yucatan Route Proceeding* to examine the need for service by a U.S. air carrier between points in the United States, including New Orleans, and points in the Yucatan Peninsula, including Merida. Accordingly, TACA's authority to provide New Orleans-Merida service was a temporary authorization conditioned to expire on October 7, 1977, or whenever a U.S. carrier inaugurated scheduled New Orleans-Merida service as a result of that proceeding, which ever occurred first.

It appears that the remaining procedural steps in the *Houston-New Orleans-Yucatan Route Proceeding* will not be completed, and a U.S. carrier will not be in a position to inaugurate scheduled New Orleans-Merida service, by October 7, 1977. TACA, however, will be obliged to cease New Orleans-Merida service on that date unless the carrier's foreign air carrier permit is amended to permit continued operations until a U.S. air carrier actually inaugurates scheduled service between the two cities.

In view of the foregoing and all the facts of record, the Board tentatively finds:

1. That in the absence of air service between New Orleans and Merida, Mexico by any U.S. carrier, it is in the public interest to amend the foreign air carrier permit held by TACA International Airlines, S.A. pursuant to Order 76-10-44 so as to authorize that carrier to continue serving Merida as an additional point on its authorized flights between the terminal point San Salvador, El Salvador and the terminal point New Orleans, Louisiana, until a U.S. air carrier inaugurates scheduled service in the New Orleans-Merida market;

2. That the authority to serve Merida should be temporary, and that service to Merida under the temporary authority granted here shall *not* be considered to be activity of a continuing nature as that term is used in section 558(c) of the Administrative Procedure Act, and will not be automatically extended by the timely filing of a renewal application;

3. That TACA is fit, willing, and able to perform the air transportation proposed in its application, and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board;[4]

4. That the permit granted to TACA International Airlines, S.A. should be subject to the terms, conditions, and limitations contained in the specimen form of foreign air carrier permit attached to this order, and to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board;

5. That TACA's application presents no questions of fact or law that will require an evidentiary hearing for their resolution; and

6. That the amendment of TACA International Airlines, S.A.'s foreign air carrier permit is not a "major federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969, and will not be inconsistent with the policy objectives of the Energy Policy and Conservation Act of 1975 (EPACA).[5]

Accordingly, *it is ordered*, That:

1. All interested persons be directed to show cause why the Board should not make final the tentative findings and conclusions set forth here, and why an amended foreign air carrier permit in the form of the specimen permit attached to this order should not, subject to the approval of the President pursuant to section 801 of the Act, be issued to TACA International Airlines, S.A.;

2. Any interested person having objection to the issuance of an order making final the tentative findings and conclusions here and issuing said permit shall, within 21 days after the adoption of this order, file with the Board and serve upon the persons named in paragraph 5, a statement of objections specifying the part or parts of the tentative findings and conclusions objected to, together with a summary of testimony, statistical data and such evidence expected to be relied upon in support of the statement of objections. If an evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to be established through such hearing which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board; *Provided*, That the Board may proceed to enter an order in accordance with the tentative findings and conclusions here if it determined that there are no factual issues

[1] Issued pursuant to Order 76-10-44, approved October 7, 1976.

[2] TACA's permit states that the authority to serve Merida, Mexico as an intermediate point is a temporary authorization, which expires "one year from the effective date of this permit [October 7, 1976] or whenever a United States carrier inaugurates scheduled services between New Orleans and Merida, whichever first occurs." (Order 76-10-44)

[3] A copy of the application has been transmitted to the President of the United States in accordance with the requirements of section 801 of the Act.

[4] In granting TACA the authority originally to provide service in the New Orleans-Merida market, the Board found that the carrier met the fitness standards of the Act, and that the services proposed were in the public interest. Order 76-10-44, approved October 7, 1976.

[5] Since no new services are to be performed, there will be no material increase in the utilization of fuel.

present that warrant the holding of an evidentiary hearing;[6]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth here; and

5. This order shall be served upon TACA International Airlines, S.A., Pan American World Airways, Inc., Eastern Air Lines, Inc., United Air Lines, Inc., Texas International Airlines, Inc., National Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., and the Ambassador of El Salvador in Washington, D.C.

This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

PERMIT TO FOREIGN AIR CARRIER
(AS AMENDED)

TACA International Airlines, S.A. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in foreign air transportation with respect to persons, property, and mail as follows:

1. Between the terminal point San Salvador, El Salvador, the intermediate points Guatemala City, Guatemala, San Pedro Sula, Honduras, Belize City, British Honduras (Belize), and Merida, Mexico, and the terminal point New Orleans, Louisiana; and

2. Between the terminal point San Salvador, El Salvador, the intermediate points San Pedro Sula, Honduras, and Belize City, British Honduras (Belize), and the terminal point Miami, Florida.

The holder shall be authorized to engage in charter trips in foreign air transportation, subject to the terms, conditions, and limitations prescribed by Part 212 of the Board's Economic Regulations.

This permit shall be subject to the condition that the holder shall serve the terminal points Miami, Florida, and New Orleans, Louisiana, only on flights that serve San Salvador, El Salvador.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of El Salvador for Salvadoran international air service.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and El Salvador shall be parties.

This permit shall be subject to the condition that in the event any practice develops which the Board regards as inimical to sound economic conditions the holder and the Board will consult about it and will use their best efforts to agree on modifications satisfactory to both.

By accepting this permit the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations under this permit.

The holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided and (2) shall not provide foreign air transportation of persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

The exercise of the privileges granted here shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall be effective on _____, and shall terminate on May 29, 1978, except that it shall be subject to termination at any time if the authority to conduct flight operations to and from El Salvador granted by the Government of El Salvador to any air carrier designated by the United States is canceled or restricted: *Provided, however*, That if in the period during which this permit shall be effective the operation of the foreign air transportation here authorized becomes the subject of any treaty, convention, or agreement to which the United States and El Salvador are or shall become parties, then this permit is continued in effect during the period provided in such treaty, convention, or agreement; *Provided further*, that, with respect to Merida, Mexico, the authority granted here shall expire whenever a United States carrier inaugurates scheduled service between New Orleans and Merida.[1]

In witness whereof, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed, on the _____.

Secretary.

[SEAL]

Issuance of this permit to the holder approved by the President of the United States on _____ in Order _____.

[FR Doc.77-23806 Filed 8-16-77;8:45 am]

[6] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

[1] The amendment authorizing service to Merida is a temporary authorization and does not refer to an activity of a continuing nature within the meaning of section 558(c) of the Administrative Procedure Act, 5 U.S.C. 558(c).

[Order 77-8-33; Docket 27573; Agreement C.A.B. 26824 R-1 through R-3]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Specific Commodity Rates; Order

Issued under delegated authority August 10, 1977.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names three specific commodity rates under existing commodity descriptions as set forth below, reflecting reductions from general cargo rates; and was adopted pursuant to unprotested notice to the carriers and promulgated in IATA letters between June 24 and July 30, 1977.

Agreement CAB	Specific commodity item No.	Description and rate[1]
29824		
R-1	0300	Fish and seafood—excluding fish, live, inedible 90¢ per kg, minimum weight 500 kg, Dublin to New York, 98¢ per kg, minimum weight 500 kg, Shannon to New York.
R-2	1407	Floral and nursery stock and seeds, excluding cut flowers, 157¢ per kg, minimum weight 100 kg, London to New York/Montreal.
R-3	9983	Removal of household goods and personal effects—(A) household goods, used, not for resale; (B) personal effects when in mixed shipments with the commodities in (A) above, 180¢ per kg, minimum weight 500 kg, Beirut to New York/Montreal.

[1] Subject to applicable currency conversion factors as shown in tariffs.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions ordered.

Accordingly, *it is ordered*, That:

Agreement C.A.B. 26824, R-1 through R-3, is approved, provided that (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific

V 42 N 159 AUG 17 77 UM

commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc 77-23804 Filed 8-16-77;8:45 am]

[Order 77-8-40; Docket 31267]

PAN AMERICAN WORLD AIRWAYS, ET AL.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 11th day of August, 1977.

Arthur Frommer Charters, Inc. and Pan American World Airways have filed a prospectus with the Board for the operation of 15 O.T.C. flights to Jerusalem from New York, Boston, Philadelphia or Washington, D.C., commencing on Tuesday, September 27, 1977. Likewise, Meier International Study League and Capitol International Airways, Inc.[1] have filed a prospectus for the operation of 13 I.T.C. flights to Jerusalem from Atlanta, Savannah, Little Rock, Detroit, Philadelphia, Dallas or New Orleans, commencing on Monday, October 3, 1977. Tower Travel and World Airways, Inc. have also filed a prospectus for the operation of 19 split charter flights between New York and Jersusalem commencing on December 25, 1977. All flights under the three programs are scheduled to land at Atarot Airport.

Capitol and World, both of which are supplemental carriers, hold area authority in the Middle East passenger market. Therefore, Capitol and World do not need, and have not sought, further Board authorization for the proposed charter flights. Similarly, Pan American, while holding no on-route authority, has off-route authority to operate its proposed charter flights. Off-route charters are only subject to Board review for compliance with the frequency and regularity restrictions of section 207.7a of the Board's Economic Regulations, a situation not present here. Thus, neither Capitol, World nor Pan American need apply to the Board for authority to operate these charters, and such authority is not in question.

On June 9, 1977, however, the Department of State advised the Board that it opposes the institution of air service between the United States & Atarot Airport.[2] The Department's position is as follows:

The airport which has been regularly servicing international passengers going to and from Jerusalem is Ben Gurion Airport, located roughly equidistant between Jerusalem and Tel Aviv. Atarot Airport, built originally by Jordan before the 1967 Arab-Israeli war, when the area came under Israeli military occupation, has not been used for regular international flights by the airlines of any country in the Western world since 1967 (the one flight to Atarot from West Germany which occurred was the result of misunderstanding). The United States and these other countries regard Atarot as located in the West Bank territory under Israeli military occupation. A further complication is the fact that Atarot is in an area that Israel has unilaterally declared to be part of the Jerusalem municipality and has annexed.

Under these circumstances, and in the absence of a negotiated peace settlement in the Middle East, the United States Government because of foreign policy interests opposes the institution of air connections between the United States and Atarot Airport.

The Department of State has no objection to charter flights between the U.S. and the areas under Israel's juriediction prior to June 5, 1967 provided, of course, that past Israeli charter policy is modified and that such operations are op n to U.S. airlines.

Upon consideration of the comments of the Department of State, we have decided to issue an order to show cause why the certificate of public convenience and necessity of Pan American for Route 132, the certificate of public convenience and necessity of Capitol and the certificate of public convenience and necessity of World should not be amended to preclude operations into and out of Atarot Airport. Accordingly, we tentatively find and conclude that the public convenience and necessity require the amendment of the certificates for the reasons discussed below.[3]

The Board looks to United States foreign policy considerations when resolving questions of international aviation. The Department of State, the agency charged with carrying out the foreign policy of this country, takes the position that the operation of air service between the United States and Atarot Airport would be contrary to our foreign policy interests. We conclude, therefore, that such operations are not in the public interest and that under section 401(g) of the Act the public convenience and necessity require the amendment of the certificates of Pan American, Capitol and World to preclude them from operating into and out of Atarot Airport. Further, show cause procedures are proper in this situation because there are no disputed facts and only policy considerations are involved.

The action taken here is in no way meant to discriminate against Pan American, Capitol and World. All other carriers are put on notice that similar action will be taken in regard to the authority of carriers that indicate plans to operate into or out of Atarot Airport. The action taken by this order is based on foreign policy considerations which are equally applicable to all air carriers.

Interested persons will be given fifteen days following service of this order to show cause why the tentative findings and conclusions set forth should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained. Answers to such objections should be filed within five days of service of the objections.

Accordingly, it is ordered That: 1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending the certificate of public convenience and necessity of Pan American World Airways for Route 132, the certificate of public convenience and necessity of Capitol International Airways and the certificate of public convenience and necessity of World Airways so as to preclude the operation of air service into or out of Atarot Airport;

2. Any interested persons having objections to the issuance of an order making final any of the proposed finding, conclusions, or certificate amendments set forth here shall, within 15 days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data and other evidence expected to be relied upon to support the stated objections. Answers to such objections shall be filed within 5 days thereof;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth in this order; and

5. A copy of this order shall be served on Arthur Frommer Charters, Inc.; Meier International Study League; Tower Travel; all certificated air carriers and foreign air carriers; and the Department of State.

[1] Capitol was substituted for Trans International Airlines as the direct air carrier for this charter program.

[2] The letter of the Department of State was sent in response to the application of El Al Israel Airlines for approval of round-trip charter flights between several East Coast cities and Atarot Airport.

[3] We also tentatively find that Pan American, Capitol and World are fit, willing and able properly to perform the air transportation authorized by the certificates proposed to be issued and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY (AS AMENDED) FOR ROUTE 132

PART I

Pan American World Airways, Inc., is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in foreign air transportation with respect to persons, property, and mail, as follows:

1. Between the coterminal points Los Angeles and San Francisco, Calif., Seattle, Wash., Portland, Oreg., Chicago, Ill., Detroit, Mich., Washington, D.C.-Baltimore, Md., Philadelphia, Pa., New York, N.Y., Boston, Mass., and Bangor, Me.; the intermediate points The Azores; Lisbon, Portugal; Barcelona, Spain; Nice, France; and the terminal point Rome, Italy; and between the intermediate point Lisbon, Portgual, and the terminal point London, England: *Provided*, That Bermuda may be included as an intermediate point if and when required by weather conditions;

2. Between the coterminal points in Los Angeles and San Francisco, Calif., Seattle, Wash., Portland, Oreg., Chicago, Ill., Detroit, Mich., Washington, D.C.-Baltimore, Md., Philadelphia, Pa., New York, N.Y., Boston, Mass., and Bangor, Me.; the intermediate points Shannon and Dublin, Ireland; and the terminal point London, England;

3. Between the terminal point San Juan, P.R.; the intermediate points The Azores; Lisbon, Portugal; Madrid, Spain; and the terminal point Rome, Italy;

except that if a flight which shall have been commenced via the intermediate points listed under paragraph 1 above or via the intermediate points listed under paragraph 2, as the case may be, cannot be completed via the scheduled intermediate points because of weather conditions, such flight may proceed via one or more of the intermediate points listed under the other paragraph even though such weather conditions are known previous to commencement of such flight; and that during such times as New York, N.Y., is not usable as a terminal because of weather or climatic conditions, the holder shall use Baltimore, Md., or any of the other authorized terminal points within the United States as listed in paragraphs 1 and 2 above, as a terminal in lieu of New York, N.Y.

The service authorized in this Part I is subject to the following terms, conditions, and limitations:

(1) The holder shall render service to and from each of the points named in this Part I, except as temporary suspensions of service may be authorized by the Board, and may begin or terminate, or begin and terminate, trips at points short of terminal points.

(2) The holder may (a) continue to serve regularly any point named in this Part I through the airport last regularly used by the holder to serve such point prior to the effective date of this certificate, and (b) continue to maintain regularly scheduled nonstop service between any two points not consecutively named in this Part I if nonstop service was regularly scheduled by the holder between such points on the effective date of this certificate. Upon compliance with such procedure relating thereto as may be prescribed by the Board, the holder may, in addition to the service hereinabove expressly prescribed, regularly serve a point named in this Part I through any airport convenient thereto, and may render scheduled nonstop service between any two points not consecutively named in this Part I, between which such service is authorized in this Part I.

(3) In providing service over any part of segment 3 in this Part I, the holder shall not render single-plane service between Madrid and any point in the continental United States other than Miami, Fla.

(4) The holder's authority to serve the Azores; Lisbon, Portugal; Barcelona, Spain; Nice, France; and Rome, Italy, on segment 1 shall be suspended through March 2, 1978.

(5) The suspension of the holder's authority pursuant to condition (4) shall not be deemed a license for an activity of a continuing nature within the meaning of subsection 558(c) of the Administrative Procedure Act and shall expire on March 2, 1978.

PART II

Pan American World Airways, Inc., is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in foreign air transportation with respect to persons, property, and mail, as follows:

1. Between the coterminal points Los Angeles and San Francisco, Calif., Seattle, Wash., Portland, Oreg., Chicago, Ill., Detroit, Mich., Washington, D.C.-Baltimore, Md., Philadelphia, Pa. New York, N.Y., Boston, Mass., and Bangor, Me.; intermediate points within the following areas: Iceland; Ireland, including the intermediate point Dublin; United Kingdom, including Northern Ireland; The intermediate point Paris, France; Belgium; Netherlands; Denmark; Norway; Sweden; Finland; Estonia; Latvia; Lithuania; Germany; Poland; The intermediate point Leningrad, U.S.S.R.; Czechoslovakia; Austria; Hungary; The intermediate point Rome, Italy; Yugoslavia; Rumania; Bulgaria; Turkey; Lebanon; Syria; Iraq; Iran; Afghanistan; Pakistan; India; Sri Lanka; Thailand; Hong Kong; and the terminal point Moscow, U.S.S.R.

The approved service plan designating the specific points to be served by the holder within each area described above in this Part II shall be determined in accordance with such procedure as may from time to time be prescribed by the Board.

The service authorized in this Part II is subject to the following terms, conditions, and limitations:

(1) Areas in Europe defined in terms of countries in this Part II shall be deemed to refer to areas within the boundaries of such countries as they existed on January 1, 1937. All areas, other than in Europe, defined in terms of countries in this Part II shall be deemed to refer to areas within the boundaries of such countries as they exist on the effective date of this certificate.

(2) The holder shall render service to and from each of the points in the approved service plan as fixed from time to time and to and from each of the points named specifically herein, except as temporary suspensions of service may be authorized by the Board; and shall not render service to any point not included in the approved service plan as fixed from time to time or not included among the points named specifically herein. The holder may begin or terminate, or begin and terminate, trips at points short of terminal points.

(3) The holder may (a) continue to serve regularly any point designated in its approved service plan through the airport last regularly used by the holder to serve such point prior to the effective date of this certificate; and (b) continue to maintain regularly scheduled nonstop service between any two points not consecutively designated in its approved service plan if nonstop service was regularly scheduled by the holder between such points prior to the effective date of this certificate. Upon compliance with such procedure as may be prescribed by the Board; the holder may in addition to the service hereinabove expressly prescribed, regularly serve a point authorized to be served pursuant to the approved service plan as fixed from time to time through any airport convenient thereto, and may render scheduled nonstop service omitting one or more of the intermediate points authorized to be served pursuant to the approved service plan as fixed from time to time.

(4) The exercise of the authority granted herein shall be subject to there being first obtained from the appropriate foreign government such operating rights as may be necessary.

(5) The holder's authority to serve Paris, France, and Austria shall be suspended through March 2, 1978.

(6) The holder's authority to serve points within that portion of India which lies south of the 20th parallel; Sri Lanka; Thailand; and Hong Kong; and the suspension of the holder's authority at Paris, France and Austria, shall not be deemed a license for an activity of a continuing nature within the meaning of subsection 558(c) of the Administrative Procedure Act and shall expire on March 2, 1978.

(7) The holder shall not operate any air service into or out of Atarot Airport.

PART III

Whenever refueling stops are made at points in Canada on services authorized in this certificate, through passengers on such services may be given stopover privileges at such points.

The holder may grant stopover privileges at New York, N.Y., to passengers traveling between Los Angeles, Calif., San Francisco, Calif., Portland, Oreg., or Seattle, Wash., on the one hand, and the various foreign points listed on route segments set forth in Parts I and II, on the other hand.

Notwithstanding any other provisions of this certificate, the holder shall at all times conduct its operations in accordance with all treaties and agreements between the United States and other countries, and the exercise of the privileges granted by this certificate shall be subject to compliance with such treaties and agreements and to any orders of the Board issued pursuant to, or for the purpose of requiring compliance with, such treaties and agreements. The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

Notwithstanding any other provision of this certificate, the authority to serve Bangor, Maine, on segments 1 and 2 in Part I and segment 1 in Part II is limited to the carriage of property on a permissive basis, and shall terminate on January 21, 1980.

This certificate shall be effective on ------ ------.

The authorization to serve Barcelona, Spain; Nice, France; and Rome, Italy, on segment 1 in Part I of this certificate and to serve segment 3 in Part I, and the authorizations in Part II of this certificate (except with respect to Chicago, Ill.; Detroit, Mich.; Washington, D.C.-Baltimore,

V42 I159 AUG 17 77 UM

Md.; Philadelphia, Pa.; New York, N.Y.; Boston, Mass.; Bangor, Me.; Los Angeles and San Francisco, Calif.; Seattle, Wash.; and Portland, Oreg.) shall expire on April 12, 1973.[1]

In witness whereof, the Civil Aeronautics Board has caused this certificate to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the ----------.

[SEAL] ------ -------,
Secretary.

Issuance of this certificate to the holder approved by the President of the United States on ----------, in ----------.

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY FOR SUPPLEMENTAL AIR TRANSPORTATION (AS AMENDED)

CAPITOL INTERNATIONAL AIRWAYS, INC.

is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in supplemental air transportation (including inclusive tour charter authority) with respect to persons and their personal baggage, as follows:

Between any point in any State in the United States, the District of Columbia, Puerto Rico, or the Virgin Islands, on the one hand, and points in Greenland, Iceland, the Azores, Europe, Africa, and Asia, as far east as (and including) India, on the other hand.

The service herein authorized is subject to the terms, conditions, and limitations prescribed by the Board's regulations for supplemental air transportation.

The holder shall not (a) advertise its services or hold itself out to the public as an air carrier authorized to engage in air transportation unless it includes the words "supplemental air carrier" in such advertising; or (b) conduct business in any name other than that set forth in this certificate, except as expressly authorized by the Board.

Notwithstanding any other provisions of this certificate, the holder shall at all times conduct its operations in accordance with all treaties and agreements between the United States and other countries, and the exercise of the privileges granted by this certificate shall be subject to compliance with such treaties and agreements and to any orders of the Board issued pursuant to, or for the purpose of requiring compliance with, such treaties and agreements.

The holder shall not operate any air service into or out of Atarot Airport.

The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This certificate shall be effective on ---------- and shall terminate April 14, 1982: *Provided, however,* That prior to the date on which this certificate would otherwise become effective the Board, either on its own initiative or upon the timely filing of a petition or petitions seeking reconsideration of the Board's order of ---------- insofar as such order authorizes the issuance of this certificate, may by order or orders extend such effective date from time to time.

In witness whereof, the Civil Aeronautics Board has caused this certificate to the executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the

[SEAL] ------ -------,
Secretary.

[1] The holder's temporary authority is in issue in Docket 25908.

Issuance of this certificate to the holder approved by the President of the United States on ----------, in ----------.

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY FOR SUPPLEMENTAL AIR TRANSPORTATION

(as amended)

WORLD AIRWAYS, INC.

is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in supplemental air transportation (including inclusive tour charter authority) with respect to persons and their personal baggage, as follows:

Between any point in any State in the United States, the District of Columbia, Puerto Rico, or the Virgin Islands, on the one hand, and points in Greenland, Iceland, the Azores, Europe, Africa, and Asia, as far east as (and including) India, on the other hand.

The service herein authorized is subject to the terms, conditions, and limitations prescribed by the Board's regulations for supplemental air transportation.

The holder shall not (a) advertise its services or hold itself out to the public as an air carrier authorized to engage in air transportation unless it includes the words "supplemental air carrier" in such advertising; or (b) conduct business in any name other than that set forth in this certificate, except as expressly authorized by the Board.

Notwithstanding any other provisions of this certificate, the holder shall at all times conduct its operations in accordance with all treaties and agreements between the United States and other countries, and the exercise of the privileges granted by this certificate shall be subject to compliance with such treaties and agreements and to any orders of the Board issued pursuant to, or for the purpose of requiring compliance with, such treaties and agreements.

The holder shall not operate any air service into or out of Atarot Airport.

The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This certificate shall be effective on ---------- and shall terminate April 14, 1982: *Provided, however,* That prior to the date on which this certificate would otherwise become effective the Board, either on its own initiative or upon the timely filing of a petition or petitions seeking reconsideration of the Board's order of ---------- insofar as such order authorizes the issuance of this certificate, may by order or orders extend such effective date from time to time.

In witness whereof, the Civil Aeronautics Board has caused this certificate to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto,

FEDERAL POWER COMMISSION

[Docket No. ER77-526]

ALABAMA POWER CO., ET AL.

Notice of Filing

AUGUST 9, 1977.

Take notice that on July 25, 1977, the above-noted Companies (The Companies) tendered for filing an Amendatory Agreement between the Tennessee Valley Authority (TVA) and The Companies.

The Companies indicate that this Amendatory Agreement was made as of February 10, 1977, and contains Enclosure A which revises the estimated date of completion of the West Point 500 kV Interconnection Point between TVA and Alabama Power Co. from June 1, 1979 to June 1, 1980. The Companies also indicate that the Amendatory Agreement contains Enclosure B which updates the estimated costs of the Widows Creed-Murphy Hill and Murphy Hill-Arkadelphia 500 kV lines.

The Companies state that Enclosures A & B do not effect any of the rates between the parties other than reimbursement for advanced expenditures by TVA.

The Companies request an effective date of September 1, 1977.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-491]

ARKANSAS POWER & LIGHT CO.

Notice of Amendment to Agreement

AUGUST 9, 1977.

Take notice that on July 1, 1977, Arkansas Power & Light Co. (Company) tendered for filing proposed changes in one of the Company's rate schedules, Arkansas Power & Light Co. Rate Schedule FPC No. 67.

According to Company this schedule is a contract between Company and the Arkansas Electric Cooperative Corp. (AECC). Company indicates that the changes to FPC No. 67 include: the relocation and increase in capacity limitations at one point of delivery; the relocation of one point of delivery; the abandonment of three points of delivery. Some of the changes are not proposed to take effect until June 1 or July 1, 1978 and, for this reason Company requests waiver of the Commission's notice requirements. Company states that due to difficulty in making accurate estimates of the billing effect of these changes, no billing data was filed. Company states that there will be no changes in rates or provisions in the schedule other than those noted above.

A copy of the filing has been mailed to AECC, according to Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-535]

ARKANSAS POWER & LIGHT CO.

Notice of Filing of Proposed Changes in Rates and Service

AUGUST 9, 1977.

Take notice that on July 29, 1977, Arkansas Power & Light Co. (AP&L) tendered for filing a new Agreement for Electric Service between AP&L and Arkansas Electric Cooperative Corp. (AECC). AP&L indicates that revised rates and charges would increase revenues from service to AECC by $691,225 based on the twelve month period ending August 31, 1977.

AP&L states that the increase is necessary because of an unreasonable low rate of return on sales and service to AECC.

According to AP&L a copy of the filing has been served upon AECC, the Arkansas Public Service Commission, Louisiana Public Service Commission, and the Tennessee Public Service Commission.

AP&L requests an effective date of September 1, 1977.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-538]

CENTRAL TELEPHONE AND UTILITIES CORP.

Notice of Proposed Tariff Change

AUGUST 9, 1977.

Take notice that Central Telephone & Utilities Corp. (CTU) on August 1, 1977, tendered for filing a proposed change in its Federal Power Commission Electric Service Tariff No. 35 with the Central Kansas Electric Cooperative, Inc. of Great Bend, Kans.

CTU indicates that the filing is Service Schedule B, Emergency Service, which provides for conditions and rates applicable to Emergency Service between CTU and Central Kansas Electric Cooperative, Inc.

According to CTU a copy of the filing has been served upon Central Kansas Electric Cooperative, Inc., Great Bend, Kans., and the Utilities Division, Kansas Corporation Commission, Topeka, Kans.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). Such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23669 Filed 8-16-77;8:45 am]

[Docket No. ER77-540]

CENTRAL TELEPHONE AND UTILITIES CORP.

Notice of Contract

AUGUST 9, 1977.

Take notice that on August 1, 1975, the Central Telephone & Utilities Corp. (CTU) tendered for filing an Interconnection Contract, dated March 3, 1976, between CTU, Western Power Division, and the City of Osborne, Kans. CTU indicates that included with this filing are Agreements between CTU and the City of Osborne covering Service Schedules A1, Firm Power Service, and Service Schedule B, Emergency Service, which are attachments to the Interconnection Contract dated March 3, 1976.

According to CTU copies of the filing were served upon the City of Osborne, Kans., and the Utilities Division, Kansas Corporation Commission, Topeka, Kans.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. (18 CFR 1.8, 1.10). Such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23687 Filed 8-16-77;8:45 am]

[Docket No. C177-637]

CLAJON GAS CO.

Limited-Term Certificate Application

AUGUST 9, 1977.

Take notice that on July 11, 1977, Clajon Gas Co (Applicant), 1006 C & K Petroleum Building, Midland, Texas 79710, filed in Docket No. C177-637 an application pursuant to Section 7(c) of the Natural Gas Act for a limited-term certifficate of public convenience and necessity, with pregranted abandonment, for the sale of gas produced from certain leases in the West Beckville Field Area, Panola County, Texas, to United Gas Pipe Line Company (United Gas), pursuant to a Gas Purchase Contract dated June 24, 1977. Applicant proposes a rate of $1.95 plus reimbursement of any increase in taxes.

Applicant is seller under that certain Gas Purchase Contract with United Gas dated June 24, 1977, which covers the sale of gas produced from certain leases in the West Beckville Field Area, Panola County, Texas.

Sales of gas from some of the leases under contract to Applicant in this area are currently being made by Applicant (and the producers from whom Applicant will purchase for resale under the Gas Purchase Contract of June 24, 1977) to United Gas under a Gas Purchase Contract dated February 17, 1977 (this being the contract under which the producers are selling) and a Gas Purchase Contract dated May 26, 1977 (this being the Applicant's contract) both pursuant to the Emergency Natural Gas Act of 1977. Applicant requests a limited-term certificate because the commitment Applicant has with the producers from which it is purchasing the gas expires on July 31, 1978.

Applicant is informed that no construction of facilities will be necessary for United Gas to take deliveries of gas from Applicant.

The term of the certificate requested herein will expire on July 31, 1978. The commitments that Applicant holds from the producers from when it is purchasing gas extends only to July 31, 1978. Ap-

V 42 159 AUG 17 77 UM

plicant is advised that United Gas has an existing gas supply emergency on its system and the proposed gas sale sought herein is needed to assist United Gas in meeting its commitments to its customers.

The price provided in the contract is in excess of the applicable National Rate because of competitive factors in the area. Said price is a discount from the current intrastate price of $2.05 per MMBtu existing in said area.

Applicant seeks a limited-term certificate with a pregranted right of abandonment because the producers from whom it proposes to purchase gas are unwilling to enter into a long-term contract.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said applications should on or before August 17, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene to a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23685 Filed 8-16-77;8:45 am]

[Docket No. CP77-532]

COLUMBIA GAS TRANSMISSION CORP.

Application

AUGUST 10, 1977.

Take notice that on July 28, 1977, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP77-532, an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 550 Mcf of natural gas per day for Libbey-Owens-Ford Company (LOF) for an eight-year period pursuant to a gas transportation agreement between Applicant and LOF, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport said gas for LOF from an existing delivery point with Panhandle Eastern Pipe Line Company (PEPL) on Applicant's Line D-590 at Maumee, Lucas County, Ohio, to Columbia Gas of Ohio, Inc. (Columbia of Ohio), a wholesale customer of Columbia, at existing points of delivery near Toledo, Ohio.

Applicant states that LOF has been advised by Columbia of Ohio that its 1977-78 winter curtailments are estimated to be 20 percent on Priority 3 requirements and 10 percent on Priority 2 requirements from and after November 1, 1977 based on a "normal winter". It is further stated that the gas to be transported is for delivery to two LOF plants, one located in eastern Toledo and one in Rossford. Service to these two plants is provided by Columbia of Ohio at one point of delivery and is transported from that point to the two plants via 3½ miles of LOF owned pipeline, it is said. The principal function of LOF's Toledo plants is the production and fabrication of float glass, it is said.

Applicant states that during February 1977 the only gas supplied by Columbia of Ohio, the only source of gas for the LOF Toledo plants, was plant protection gas. During that period, LOF relied on oil, propane and a small supply of "self-help gas" produced by LOF from Ohio wells to keep the Toledo plants operational. Applicant asserts, however, that the continued use of propane for a long period of time would increase the cost of glass to such an extent that glass produced at LOF's Toledo plants would not be able to compete in U.S. and world markets.

It is indicated that LOF has acquired its own natural gas reserves in place in Townships 28 and 29 North, Range 14 West, Woods County, Oklahoma and that three shut-in wells with estimated recoverable reserves of 7.8335 Bcf are located in this field. The cost of the gas produced from these wells is estimated to be $1.62 per Mcf in the first year of operation and is estimated to average $1.73 per Mcf over the following seven years, it is said.

Applicant asserts that it has agreed to transport the gas subject to the limits of its pipeline capacity and to its service obligations to its CD, WS, SGES, G and SGS customers. Applicant further asserts that the said gas is subject to diversion to Applicant on a temporary basis in emergency periods when, in Applicant's sole judgment, such gas is required for the protection of Priority 1 requirements on its system and that gas so diverted would be paid back as soon as practicable after the emergency period.

It is indicated that Applicant's transportation charge for this service would be $22.21 cents per Mcf effective November 1, 1976 and that Applicant would retain for company-use and unaccounted-for gas a percentage of the total volumes received for the account of LOF which percentage is currently 3.1 percent. No additional facilities would be required, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 2, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) as the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB
Secretary.

[FR Doc. 77-23692 Filed 8-16-77; 8:45 am]

[Docket No. RP72-89]

COLUMBIA GAS TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

AUGUST 9, 1977.

Take notice that, on August 3, 1977, Columbia Gas Transmission Corporation (Columbia) tendered for filing certain proposed changes in the General Terms and Conditions of its FPC Gas Tariff, Original Volume No. 1, as follows:

Sixth Revised Sheet No. 62;
Sixth Revised Sheet No. 62A;
Sixth Revised Sheet No. 62B;
Fourth Revised Sheet No. 62C;
First Revised Sheet No. 62D;
Original Sheet No. 62E.

According to Columbia, the changes, which are proposed to become effective on September 2, 1977, would modify and clarify Columbia's daily curtailment procedures and would simplify and expedite the process by which any penalties collected by Columbia are distributed to its customers.

Copies of the filing were served upon Columbia's jurisdictional customers and all interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such

petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to a proceeding must file a petition to intervene. Any person who has heretofore filed a notice or petition to intervene in this proceeding need not file again. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23683 Filed 8-16-77;8:45 am]

[Docket No. ER77-534]

CONSUMERS POWER CO.

Proposed Tariff Change

AUGUST 10, 1977.

Take notice that Consumers Power Company (Consumers Power) on July 29, 1977 tendered for filing proposed changes in its FPC Electric Service Tariff, Original Volume No. 1. Consumers Power states that the following wholesale customers in the State of Michigan would be affected by the changes: City of Eaton Rapids, City of Charlevoix, Village of Union City, Edison Sault Electric Company, City of Harbor Springs, City of Marshall, City of Petoskey, Village of Chelsea, City of Portland, City of St. Louis, City of Coldwater, Wolverine Electric Cooperative Inc., City of Bay City, Southeastern Michigan Rural Electric Cooperative, Inc. and Alpena Power Company.

Consumers Power further states that the proposed changes would increase annual revenues from jurisdictional sales and service by approximately $1,865,000, or 9.56%, based on the 12-month test period ending December 31, 1977. Consumers Power indicates that the filing also provides for the first time a schedule of on-peak and off-peak hours for wholesale electric service to Consumers Power's customers, with reduced energy charges during off-peak periods.

Consumers Power further indicates that, following a period of negotiation with its wholesale customers, all customers assented to the rate increase and other changes to the terms and conditions of service contained in this filing, and join Consumers Power in requesting Commission approval of this filing. Consumers Power requests an effective date of November 10, 1977, and therefore requests waiver of the Commission's notice requirements.

Consumers Power states that the increase in rates is necessary because of continuing increases experienced in all elements of cost since the end of 1975, which was the test year for the last rate filing by Consumers Power, and because of the need to provide earnings adequate to attract capital to finance Consumers Power's ongoing construction programs.

According to Consumers Power copies of the filing were served upon Consumers Power's jurisdictional customers and on the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before August 23, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23694 Filed 8-16-77;8:45 am]

[Docket No. CP77-523]

DELHI GAS PIPELINE CORP.

Notice of Application

AUGUST 8, 1977.

Take notice that on July 25, 1977, Delhi Gas Pipeline Corporation (Applicant), Fidelity Union Tower Building, Dallas, Texas 75201, filed in Docket No. CP77-523 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of up to 60,000 Mcf of natural gas per day to Columbia Gas Transmission Corporation (Columbia) for a term commencing October 1, 1977 and ending November 1, 1979, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is indicated that this limited-term purchase is necessary because of the severe gas supply shortage existing on Columbia's system which has prevented Columbia from meeting a substantial part of its existing system's firm requirements, and that in view of its projected curtailment during the period of this purchase the additional volumes purchased from Applicant would assist Columbia in its efforts to provide as reliable and adequate service as possible to high priority users including adequate injections of volumes into Columbia's extensive storage fields.

Applicant states that the natural gas it proposes to sell to Columbia is gas available under certain of Applicant's producer gas purchase agreements, which agreements are currently not dedicated to any of Applicant's intrastate customers. It is indicated that Applicant would dedicate such gas to one or more of its intrastate customers by November 1, 1979; therefore, the supply of gas is available for sale to Columbia only for the limited period for which certification is sought. Applicant further states that the sale of gas to Columbia is subject to Applicant's right to suspend temporarily or decrease deliveries if such gas is needed to fulfill the gas requirements of Applicant's present intrastate customers.

It is stated that in the operation of Applicant's various intrastate pipeline systems it dedicates to the performance of its obligations under its sales agreements with its intrastate customers the gas available under certain of Applicant's producer gas purchase agreements, and that prior to such dedication, the gas purchased under such producer gas purchase agreements is available for sale by Applicant as "spot gas" for varying periods of time.

Applicant indicates that it would charge Columbia for such gas $2.21 per one million Btu's until November 1, 1978, and that this price is based on an average replacement cost of gas of $2.01 per one million Btu's ($1.975 in the West Texas Area and $2.045 in the Gulf Coast Area of Texas), plus 20 cents per one million Btu's necessary to cover Applicant's cost of gathering, treating and compressing the gas and a return on Applicant's investment. Applicant further indicates that effective November 1, 1978 said price of $2.01 per one million Btu's would increase to $2.05 per one million Btu's which is derived by averaging a replacement cost of $2.00 per one million Btu's in the West Texas Area and $2.10 per one million Btu's in the Gulf Coast Area of Texas.

Applicant indicates that the gas sold to Columbia would be sold pursuant to a short-term contract dated July 19, 1977 between Applicant and Columbia. It is stated that the point of delivery for such sale would be into the pipeline facilities of Northern Natural Gas Company (Northern) at the existing interconnection of Applicant's facilities and Northern's facilities located in Pecos County, Texas. No additional facilities would be required on the part of Applicant or Northern for the delivery and receipt of gas at such point, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) as the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without

further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23671 Filed 8-16-77;8:45 am]

[Docket No. CP77-529]

DELHI GAS PIPELINE CORP.

Notice of Petition for Declaratory Order

AUGUST 9, 1977.

Take notice that on July 25, 1977, Delhi Gas Pipeline Corporation (Delhi), Fidelity Union Tower Building, Dallas, Texas 75201, filed in Docket No. CP77-529 a petition for a declaratory order to remove the uncertainty of whether or not Delhi must first secure regulatory approval, specifically, a certificate of convenience and necessity under Section 7(c) of the Natural Gas Act for the transportation of up to 25,000 Mcf of natural gas per day by Delhi to United Gas Pipeline Company (United), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Applicant states that it has entered into a Gas Exchange Agreement with United dated January 22, 1977, providing for the delivery of said gas by Delhi to United on United's facilities located at the outlet of Champlin Carthage Gasolina Plant in Panola County, Texas, and at other mutually agreeable points on United's pipeline system. Such gas would be redelivered to Delhi on Delhi's Blessing-Victoria System located in Victoria County, Texas.

By Order dated March 12, 1968, in Docket No. CP68-139 (39 FPC 264), the Commission granted Delhi an exemption from the provisions of the Natural Gas Act and the orders, rules and regulations of the Commission thereunder pursuant to Section 1(c) of the Act with respect to Delhi's Blessing-Victoria System.

It is indicated that such Gas Exchange Agreement further provides that United has the right to retain up to 90% of all such gas delivered by Delhi during the winter heating season of each year and to balance with Delhi by the redelivery of such gas during the summer heating season of each year. It is stated that no transportation fee will be charged by United to Delhi and no purchase or sale of the gas is involved.

It is stated that since the redelivery of the gas by United is upstream of the point on United's facilities at which it receives gas from Delhi, this exchange arrangement will result in a saving in transmission costs to United with respect to that volume of gas redelivered to Delhi. It is further stated that this exchange arrangement will make available to United additional volumes of gas during the winter heating season when United's demand is the greatest and that the benefit to Delhi is the availability of gas nearer its principal markets without the additional transportation cost.

Accordingly, Delhi requests that the Commission issue a declaratory order which affirms:

(1) The continuing exempt status of Delhi's Blessing-Victoria System pursuant to the Commission's Order dated March 12, 1968, in Docket No. CP68-139;

(2) That the non-jurisdictional status of the facilities of Delhi and the operation of such facilities necessary to deliver the gas to United in Panola County, Texas, and at other mutually agreeable points be not affected during the term of the Gas Exchange Agreement;

(3) That the non-jurisdictional status of Delhi's existing and proposed sales of gas from its system as well as Delhi's existing and proposed purchases of gas be not affected during the term of the Gas Exchange Agreement; and

(4) That the non-jurisdictional status of the facilities and operations of independent producers and other suppliers from whom Delhi purchases gas and the sales by such independent producers and other suppliers be not affected during the term of the Gas Exchange Agreement.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 2, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23662 Filed 8-16-77;8:45 am]

DUKE POWER CO.

[Docket No. ER77-527]

Notice of Proposed Supplement to Electric Power Contract

AUGUST 9, 1977.

Take notice that Duke Power Company (Duke) tendered for filing on July 28, 1977, supplements to its Electric Power Contract with the City of Monroe. Duke indicates that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 238.

Duke indicates that its contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for the termination of Delivery Point No. 2, effective July 10, 1977 and an increase in capacity from 30,000 KW to 55,000 KW at Delivery Point No. 3, effective July 20, 1977. Duke further indicates that the supplement also include an estimate of sales and revenue for the twelve months immediately preceding and for the twelve months immediately succeeding the effective date for each delivery point.

Duke requests waiver of the Commission's notice requirements to allow for the aforementioned effective dates of July 10, 1977 and July 20, 1977.

Duke states that a copy of this filing was mailed to the City of Monroe and the North Carolina Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-444]

DUKE POWER CO.

Notice of Supplement to Electric Power Contract

AUGUST 9, 1977.

Take notice that Duke Power Company (Duke) tendered for filing by letter dated July 7, 1977, supplements to the Company's Electric Power Contract with Rutherford Electric Membership Corporation, Inc. Duke indicates that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 139.

Duke states that its contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for increases in capacity and reallocation of SEPA capacity and energy to preference customers. Duke further states that the supplement also includes an estimate of sales and revenue for the twelve months immediately preceding and for the twelve months immediately succeeding the effective date.

Duke states that a copy of this filing was mailed to Rutherford Electric Membership Corporation, Inc. and the North Carolina Utilities Commission.

Duke requests waiver of the Commission's notice requirements to allow for an effective date of June 20, 1977.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI77-107]

EL RAN INC.

Notice of Petition for Special Relief

AUGUST 10, 1977.

Take notice that on June 16, 1977, El Ran Inc. (Petitioner), 1603 Broadway, Lubbock, Texas 79401, filed in Docket No. RI77-107 a petition for special relief pursuant to Section 2.76 of the Commission's Rules of Practice and Procedure and Order No. 551, issued June 29, 1976.

Petitioner holds a small producer certificate issued in Docket No. CS75-391 and seeks an increased rate to 49.50 cents per Mcf from a presently effective rate of 30.25 cents per Mcf to obtain further production from the Boydston and Cassity Wells, Boonesville Bend Field, Wise County, Texas. Petitioner will expend $18,700 to rework and deepen such wells.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 25, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23672 Filed 8-16-77;8:45 am]

[Docket No. E-9522]

GEORGIA POWER CO.

Notice of Compliance Filing

AUGUST 9, 1977.

Take notice that Georgia Power Company (GP), on May 19, 1977, tendered for filing the following revised tariff sheets in GP's FPC Electric Tariff, Original Volume No. 3, in compliance with the Commission's Order of February 25, 1977:

First Revised Sheet No. 8;
First Revised Sheet No. 10;
First Revised Sheet No. 11;
First Revised Sheet No. 12;
First Revised Sheet No. 13;
Original Sheet No. 13-A.

GP indicates that as set forth in the Settlement Agreement, accepted by the Commission in its February 25, 1977 Order, the revised tariff sheets amend Sections 1.01, 1.03, 2.02 and 2.03 of the standard format of the Integrated Transmission System Agreement ("ITSA") included in the Transmission Service Tariff ("TS-1").

Any person desiring to comment on this filing may file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before August 19, 1977. Comments will be taken into consideration by the Commission in determining the outcome of the proceedings.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23657 Filed 8-16-77;8:45 am]

[Docket No. ER77-532]

GULF POWER CO.

Notice of Proposed Tariff Change

AUGUST 9, 1977.

Take notice that Gulf Power Company (Gulf Power) on July 29, 1977, tendered for filing proposed changes in its FPC Electric Tariff, First Revised Volume No. 1. Gulf Power states that the proposed changes would increased revenues from jurisdictional sales and service by $1,860,427 annually, based on the 12 month period ending September 30, 1978. Gulf Power further states that the changes would also institute an "Environmental Protection Cost Adjustment" clause, "zero" the fuel adjustment clause at 21.5 mills fuel costs, and effect other changes in certain of the tariff terms and conditions. Gulf Power requests the proposed tariff changes be made effective on October 1, 1977, and requests waiver of the Commission's notice requirements.

Gulf Power indicates that the foregoing tariff changes are being filed so that it can earn a fair and reasonable return on its investment in facilities used to provide jurisdictional services.

According to Gulf Power copies of the filing were served upon Gulf Power Company's jurisdictional customers, the Florida Public Service Commission and Alabama Electric Cooperative, Inc.

Any person desiring to be heard or to protect said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on filed with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77 23658 Filed 8-16-77;8:45 am]

[Doc. No. ER77-536]

HARTFORD ELECTRIC LIGHT CO.

Proposed Purchase Agreement

AUGUST 9, 1977.

Take notice that on July 29, 1977, Hartford Electric Light Company (HELCO) tendered for filing a proposed rate schedule pertaining to a Purchase Agreement with Respect to Middletown Unit No. 4, between HELCO and Reading Municipal Light Department (RMLD), dated as of January 10, 1977.

HELCO states that the Purchase Agreement provides for a sale to RMLD of a specified percentage of capacity and energy from HELCO's Middletown Unit No. 4 generating unit during the period November 1, 1979 through October 31, 1980.

HELCO requests that the Commission waive its notice requirements and accept the Purchase Agreement for filing more than ninety days prior to its proposed effective date (November 1, 1979) to assure RMLD of the capacity included in the tendered rate schedule.

HELCO also states that the capacity charge provided for in the rate schedule was developed on a cost-of-service basis.

HELCO states that a copy of the rate schedule has been mailed or delivered to RMLD, Reading, Massachusetts.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, DC 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Proceure (18 CFR 1.8, 1.10). All such petitions or protests should be

filed on or before August 23, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23686 Filed 8-16-77;8:45 am]

HARTFORD ELECTRIC LIGHT CO.

[Docket No. ER77-537]

Proposed Purchase Agreement

AUGUST 10, 1977.

Take notice that on July 29, 1977 Hartford Electric Light Company (HELCO) tendered for filing a proposed Purchase Agreement with Respect to Middletown Station (Middletown Agreement), dated January 10, 1977, between HELCO and Reading Municipal Light Department (RMLD).

HELCO states that the Middletown Agreement provides for a sale to RMLD of a specified percentage of capacity and energy from four oil-fired steam generating units (Middletown Unit Nos. 1, 2, 3 and 4) during the period from November 1, 1978 to October 31, 1979, together with related transmission service.

HELCO requests that the Commission waive its notice requirements and accept the Middletown Agreement for filing more than ninety days prior to its proposed effective date (November 1, 1978) to assure RMLD of the capacity included in the tendered rate schedule.

HELCO states that the capacity charge rate for the proposed service is a rate determined on a cost-of-service basis. HELCO further states that the monthly transmission charge is equal to one-twelfth of the annual average unit cost of transmission service on the Northeast Utilities (NU) system determined in accordance with Section 13.9 of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts of winter capability which RMLD is entitled to receive. HELCO also states that the energy charge is based on RMLD's portion of the applicable fuel expenses and no special cost-of-service studies were made to derive this charge.

HELCO states that the services to be provided under the Middletown Agreement are similar to services provided by HELCO relating to an agreement between HELCO and Westfield Gas and Electric Department (Rate Schedule FPC No. 110 and Supplement 1).

HELCO states that copies of this rate schedule have been mailed or delivered to RMLD, Reading, Massachusetts.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 23, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RI77-112]

THOMAS C. HOFFPAUIR

Notice of Petition for Special Relief

AUGUST 10, 1977.

Take notice that on June 22, 1977, Thomas C. Hoffpauir (Petitioner), Route 1, Box 12, Lake Arthur, Louisiana 70549, filed in Docket No. RI77-112 a petition for special relief pursuant to Order No. 481, Docket No. R-458 (Section 2.76 of the Commission's Rules of Practice and Procedure).

Petitioner holds a small producer certificate issued in Docket No. CS74-355 and by this filing seeks an increased rate to 74.37 cents per Mcf from a presently effective rate of 26.15 cents per Mcf to obtain further production from the PL-2 SUK Unit (Walter W. Bruner, *et al.* Well No. 2) located in the Southwest Lake Arthur Field, Cameron Parish, Louisiana. Petitioner will expend $60,840 to rework the well and install a two stage compressor unit.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 25, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

[Docket No. ER77-431]

IOWA PUBLIC SERVICE CO.

Notice of Proposed Interchange Agreement and Operating Agreement

AUGUST 9, 1977.

Take notice that Iowa Public Service Company (Applicant) on July 1, 1977, tendered for filing an Interchange and Operating Agreement between Applicant and Corn Belt Power Cooperative dated October 28, 1976, updating the Interchange Agreement of November 20, 1961, with seven subsequent supplements thereto, which provided for installation of facilities and interchange of power and energy between the two systems Applicant states that in addition to the aforementioned, the new agreement will provide for a coordinated operation of two systems.

Any person desiring to be heard or to protest said application should file a Petition to Intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ES77-50]

IOWA SOUTHERN UTILITIES CO.

Notice of Application

AUGUST 9, 1977.

Take notice that on August 1, 1977, Iowa Southern Utilities Company (Applicant) filed an application for an order pursuant to Section 204 of the Federal Power Act for authorization to issue and sell 200,000 additional shares of its Common Stock, par value $10 per share.

Applicant is incorporated under the laws of the State of Delaware and qualified to do business as a foreign corporation in the State of Iowa, with its principal place of business being located in Centerville, Iowa.

Applicant proposes to issue and sell to its common stockholders up to but not exceeding 200,000 additional shares of its Common Stock, par value $10 per share, in accordance with the terms and conditions of its Automatic Dividend Reinvestment and Stock Purchase Plan, a copy of which is filed as an exhibit to its application. The sales will be made through automatic dividend reinvestment and optional cash payments, and request is made for exemption from the competitive bidding requirements of Section 34.1a(b) and (c) of the Regulations under the Federal Power Act. Applicant states that the net proceeds realized from the sale of the 200,000 additional shares of its Common Stock dedicated to the Automatic Dividend Reinvestment and Stock Purchase Plan is estimated at approximately $5,142,500.

Any person desiring to be heard or to make any protests with reference to said

application should on or before August 26, 1977, file with the Federal Power Commission, Washington, D.C. 20246, petitions or protests in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). The application is on file and available for public inspection.

KENTUCKY WEST VIRGINIA GAS CO.

Proposed Change in Rates

AUGUST 10, 1977.

Take notice that Kentucky West Virginia Gas Company (Kentucky West) on July 25, 1977, tendered for filing with the Commission Fourth Revised Sheet No. 27 to its FPC Gas Tariff First Revised Volume No. 1 to become effective September 1, 1977. Kentucky West states that the change in rates results from the application of the Purchase Gas Cost Adjustment provision in Section 9, General Terms and Conditions of FPC Gas Tariff, Original Volume No. 1, approved by the Commission in Docket No. RP73-97 and the Purchase Gas Cost Adjustment provision in Section 18, General Terms and Conditions of FPC Gas Tariff, First Revised Volume No. 1, approved by the Commission in Docket No. RP76-93.

Kentucky West states that a copy of its filing has ben served upon the purchasers and interested state commissions and upon each party on the service list of Docket No RP76-93.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23682 Filed 8-16-77;8:45 am]

[Docket No. CI77-636]

LIGHTNING PRODUCTIONS, INC., ET AL.

Limited-Term Certificate Application

AUGUST 9, 1977.

Take notice that on July 11, 1977, Lightning Productions, Inc., 2010 Republic Bank Building, Dallas, Texas 75201, and James S. Robertson, Jr., 2928 LTV Tower, Dallas, Texas 75201, (Applicants), filed in Docket No. CI77-636 an applicant pursuant to Section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity, with preganted abandonment, for the sale to Texas Eastern Transmission Corporation of the gas produced from certain wells and units attributable to the Applicants' interest for a period of one year from date of first deliveries of gas thereunder, as provided in the contract hereinafter described. Such wells are situated in the Canadian Bayou Field, DeSoto Parish, Louisiana. The units and wells depicted on Exhibit "A" of the application are known as the E. E. Fogelson No. 1 C. A. Brown unit and well and the E. E. Fogelson—L. A. Smith unit and well. Such units consist of the North Half (N/2) of each of Sections 1 and 2, T12N, R15W, DeSoto Parish, Louisiana. Lightning Productions, Inc., is the operator of such wells and units. Applicants own the entire oil and gas leasehold estate covering such units, subject to an outstanding overriding royalty which is convertible into an undivided ¼ interest therein upon the occurrence of a certain event (Payout of the costs of such wells and two dry holes which have been drilled by Applicants offsetting the subject properties).

Applicant proposes a rate of $1.47904 per Mcf at 15,025 psia, subject to Btu adjustment from 1.000 Btu's per cubic foot, with 1.02 cents per Mcf quarterly escalations beginning July 1, 1977. Applicant claims that except for the necessity to evaluate its wells gas reserves, and developmental possibilities, the gas supply would not be available to the interstate market for the limited period sought here.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said applications should on or before August 17, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23684 Filed 8-16-77;8:45 am]

[Docket No. ER77-533]

LOUISIANA POWER & LIGHT CO.

Notice of Proposed Tariff Change

AUGUST 9, 1977.

Take notice that Louisiana Power & Light Company (LP&L) on July 29, 1977 tendered for filing proposed changes in its rates for wholesale electric service rendered under the following rate schedules:

	FPC Rates Schedule No.
Rural electric cooperatives:	
Dixie Electric Membership Corp	34
Pointe Coupee Electric Membership Corp	35
Washington-St. Tammany Electric Cooperative, Inc	37
Cajun Electric Power Cooperative Inc	42
Municipal electric systems:	
Town of Jonesville	22
Town of Winnfield	26
Town of Vidalia	53
Town of Minden	52

LP&L states that pursuant to Commission Order No. 555, LP&L has requested rates based on the inclusion of all of its construction work in progress in its rate base. LP&L further states that during the twelve months ending September 1, 1977, the rates proposed by LP&L would provide it with an increase in revenues of $6,275,000 from service to the rural cooperatives and $1,059,000 from service to the municipalities. LP&L indicates that if construction work in progress other than that associated with its pollution control and fuel conversion facilities was not included in its rate base, its proposed rates would provide it with increased revenues of $3,105,000 from service to the cooperatives and $537,000 from service to the municipalities during this period. LP&L has proposed to make the rates which it has requested effective September 1, 1977.

LP&L states that substantial immediate rate relief is required of its severe financial plight, which has resulted in its inability to issue substantial quantities of additional securities necessary to finance its construction program at reasonable cost. LPL further states that under its existing rates, it would receive an overall rate of return of 4.80 percent from service to the rural cooperatives and 4.58 percent from service to the municipalities during the year ending December 31, 1977, and that the proposed rates are designed to provide it with an overall rate of return of 9.96 percent from service to each class of customers.

According to LP&L copies of the relevant rate schedules and billing comparisons were served upon each affected customer, and the Louisiana Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8

and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be considered on or before August 23, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23664 Filed 8-16-77;8:45 a.m.]

[Docket No. CP77-526]

MICHIGAN WISCONSIN PIPE LINE CO., ET AL.

Notice of Joint Pipeline Application

AUGUST 8, 1977.

Take notice that on July 26, 1977, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin), One Woodward Avenue, Detroit, Michigan 48226, Transcontinental Gas Pipe Line Corporation (Transco, P.O. Box 1396, Houston, Tex. 77001, and United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001 (Applicants) filed in Docket No. CP77-526 a joint application pursuant to Section 7(c) of the Natural Gas Act, as amended, for a certificate of public convenience and necessity authorizing the construction, ownership and operation of pipeline and related facilities necessary to connect gas supplies located in High Island Blocks A-339 and A-340, Offshore Texas, to the certificated pipeline system of High Island Offshore System (HIOS), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By Commission orders issued June 4, 1976 and July 30, 1976 in Docket Nos. CP75-16, CP75-81 and CP75-104, HIOS was authorized, inter alia, to construct and operate 41 miles of 30-inch pipeline between High Island Block A-264 and High Island Block A-573 and to render transportation service for Applicants and others. The instant application states that Michigan Wisconsin, Transco and United have acquired the preferential rights to purchase 35 percent, 7.75 percent and 49.25 percent and 52.25 percent, respectively, of the gas underlying High Island Block A-340. Applicants state that the purpose of the instant application is to obtain authorization to construct, own and operate approximately 0.4 miles of 12-inch pipeline and related facilities to connect the producers' production platform in High Island Block A-340 with HIOS 30-inch lateral mainline in High Island Block A-340. Applicant's estimate that the total cost of the proposed facilities will be $2,098,835, of which Michigan Wisconsin will contribute $763,976, Transco $238,008 and United $1,096,851. Applicants state that they will finance their respective shares of said costs from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application, on or before August 29, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23652 Filed 8-16-77;8:45 am]

[Docket No. RP71-16 PGA77-5]

MIDWESTERN GAS TRANSMISSION CO.

Notice of Proposed Northern System PGA Rate Adjustment

AUGUST 10, 1977.

Take notice that on August 1, 1977, Midwestern Gas Transmission Company (Midwestern) tendered for filing Third Revised Sheet No. 5A in Third Revised Volume No. 1 of its FPC Gas Tariff, to be effective on September 21, 1977.

Midwestern states that the sole purpose of the revised tariff sheet is to reflect a PGA rate adjustment for its Northern System. Midwestern further states that such adjustment is based upon an increase, effective September 21, 1977, to $2.16 (U.S.) per MMBtu in the price which Midwestern is required by action of the Canadian Government to pay for gas to its Northern System supplier, TransCanada PipeLines Limited.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provide, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23679 Filed 8-16-77;8:45 a.m.]

[Docket No. RP72-149, PGA77-9]

MISSISSIPPI RIVER TRANSMISSION CORP.

Proposed Change in Rates

AUGUST 10, 1977.

Take notice that Mississippi River Transmission Corporation ("Mississippi") on July 29, 1977, submitted for filing Fifty-Eighth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1, to become effective September 1, 1977.

The instant filing is being made pursuant to the provisions of Mississippi's purchased gas cost adjustment clause to track a rate change filing made by Natural Gas Pipeline Company of America ("Natural"), under date of July 18, 1977, pursuant to the PGA provisions of its tariff and its Petition for Order Amending Opinion No. 763 relative to the tracking of purchases and transportation of methane gas at Docket No. CP75-147, to become effective September 1, 1977.

Mississippi also submitted for filing in the alternative, six (6) copies of Alternate Fifty-Eighth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1, to be effective September 1, 1977. Mississippi states Alternate Fifty-Eighth Revised Sheet No. 3A was submitted to track the rates included in Natural's Alternate traiff sheets. Such sheets reflected Natural's settlement base rates at Docket No. RP76-106, as well as changes in the balance of advance payments outstanding and changes related to the recovery of charges to Natural by Stangray Pipeline Company for transportation, both pursuant to tracking provisions in the settlement agreement in RP76-106 filed April 28, 1977. The settlement agreement was approved July 20, 1977, subsequent to Natural's July 18, 1977 PGA and tracking adjustment filing.

Mississippi submitted schedules containing computations supporting the rate changes, as proposed and in the alternative, to be effective September 1, 1977. Mississippi states that copies of its filing were served on Mississippi's jurisdictional customers and the State Commissions of Arkansas, Illinois and Missouri.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23688 Filed 8-16-77;8:45 am]

[Docket No. CI77-598]

MOBIL OIL CORP.

Notice of Limited-Term Certificate Application

AUGUST 10, 1977.

Take notice that on June 27, 1977, Mobil Oil Corporation (Applicant) Three Greenway Plaza East—Suite 800, Houston, Texas 70046, filed in Docket No. CI77-598 an application pursuant to Section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity, with pregranted abandonment, for the sale of gas produced from the Piceance Creek Field, Rio Blanco County, Colorado to Northwest Pipeline Corporation (Northwest) on a best efforts basis within the contemplation of Section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

The gas to be sold will be delivered at the point of interconnection of the facilities of Mobil and Northwest. This application is submitted on the express conditions that the certificate authorize the proposed sale to Northwest (1) at the initial price of 149.67 cents per Mcf at 14.730 psia, which is the Opinion No. 770-A price for post July 1, 1977 deliversies; (2) and on the condition that the Commission waive its accounting and reporting requirements by Applicant for the term of the certificate with respect to this sale.

Mobil, pursuant to a contract with the United States Energy Research and Development Administration, is performing experimental stimulation techniques in the completion of said well to evaluate the effectiveness of massive hydraulic fracturing technology for stimulating gas production from reservoirs heretofore found to be noncommercial. During this test period, estimated to be completed December 31, 1978, Mobil anticipates intermittent production. To assure Mobil of a pipeline outlet for gas to permit such testing and prevent waste by flaring, and to provide additional supplies of gas for Northwest's system, Mobil claims that said application for a Limited-Term Certificate is in the public interest.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said applications should on or before August 17, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene to a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23680 Filed 8-16-77;8:45 am]

[Docket No. ER77-528]

NORTHERN STATES POWER CO. (MINNESOTA)

Notice of Proposed Rate Increase

AUGUST 8, 1977.

Take notice that Northern States Power Company, Minneapolis, Minnesota, (NSP) on July 28, 1977, tendered for filing new and revised Schedule A or Exhibit D to NSP's contracts with the following 15 wheeling customers:

	FPC Rate Schedule No.
City of Ada	304
City of Fairfax	300
City of Hillsboro	314
City of Marshall	165
City of Melrose	317
City of Olivia	322
City of Redwood Falls	283
City of Saint James	312
City of Sauk Centre	305
City of Sleepy Eye	308
Renville-Sibley Cooperative Power Association	331
City of East Grand Forks	382
City of Sioux Falls	277
University of North Dakota	347
State of South Dakota	362

The rate schedule is proposed to be effective for service provided on and after October 21, 1977.

NSP states that the proposed rate schedules will increase revenues from the sale of wheeling services by $44,362, based on sales for the calendar year 1976 test year. The proposed increase is needed, NSP states, so that the revenues will more nearly recover NSP's costs in rendering the service.

The proposed rate schedules change the rate from a kilowatt-hour basis to a kilowatt basis. NSP states that this change is proposed so that the rate will more accurately reflect the cost of service.

As provided in Section 35.2 of the regulations under the Federal Power Act, a copy of the proposed rate schedule and comparative billing data have been mailed to each of NSP's customers affected by the proposed change, to the Minnesota Public Service Commission, the North Dakota Public Service Commission, and to the South Dakota Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23677 Filed 8-16-77;8:45 am]

[Docket No. ER77-542]

NORTHERN STATES POWER CO. (MINNESOTA)

Supplement No. 1

AUGUST 10, 1977.

Take notice that Northern States Power Company (Minnesota), hereinafter referred to as NSPC-Minnesota, on August 3, 1977, tendered for filing Supplement No. 1, dated July 20, 1977, to the Interconnection and Interchange Agreement with Northern States Power Company (Wisconsin), hereinafter referred to as NSPC-Wisconsin, and Wisconsin Public Service Corporation.

NSPC-Minnesota indicates that Supplement No. 1 eliminates Section 4.10, Reserved Power, and amends Service Schedules A, B, D, and E, and adds Service Schedule F to the terms of the Agreement.

NSPC-Minnesota states that the proposed rates under the modified service schedules are the result of negotiations between the parties and agree closely with the rates for identical or similar service in the midwest region.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to inter-

V42 I159 AUG 17 77 UM

vene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23690 Filed 8-16-77;8:45 am]

[Docket No. ER77-530]

OHIO EDISON CO.

Notice of Proposed Tariff Change

AUGUST 9, 1977.

Take notice that Ohio Edison Company (Ohio Edison) on July 29, 1977, tendered for filing proposed changes in the following FPC Electric Service Rate Schedule Numbers:

Amherst	122
Beach City	123
Brewster	124
Columbiana	125
Cuyahoga Falls	126
Galion	127
Grafton	128
Hubbard	129
Hudson	130
Lodi	131
Lucas	132
Milan	133
Monroeville	134
Newton Falls	122
Niles	135
Oberlin	136
Prospect	137
Seville	138
South Vienna	139
Wadsworth	140
Wellington	141

Ohio Edison states that the proposed changes would increase revenues from jurisdictional sales and service by $7,927,000 based on the twelve-month period ending June 30, 1978.

Ohio Edison proposes an effective date of September 1, 1977.

Ohio further states that the reason for the proposed increase is that rates for service to its municipal wholesale customers are no longer just and reasonable, being inadequate to provide a basis for attracting capital on reasonable terms and to permit issuance of senior securities as a means of obtaining capital.

According to Ohio Edison copies of the filing were served on the Company's jurisdictional customers affected by the proposed changes.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23676 Filed 8-16-77;8:45 am]

[Project No. 2729]

POWER AUTHORITY OF THE STATE OF NEW YORK

Amended Application for License for Unconstructed Project

AUGUST 10, 1977.

Take notice that an amended application has been filed before the Federal Power Commission for a major license under the Federal Power Act (16 U.S.C. 791a–825r) on May 26, 1977, by the Power Authority of the State of New York (Correspondence to: Lewis R. Bennett, Assistant General Manager-General Counsel, Power Authority of the State of New York, 10 Columbus Circle, New York, New York 10019 and to John C. Mason, Esq., Morgan, Lewis and Bockius, 1800 M Street, N.W., Washington, D.C. 20036) for the proposed Prattsville Pumped Storage Project, FPC No. 2729. Previous filings by Applicant in this Docket were made on March 30, 1973; July 24, 1973; October 31, 1975; and April 28, 1976. Public notice of these filings has been given. The proposed project would be located on Schoharie Creek, a tributary of the Mohawk River, in the Towns of Gilboa and Conesville (Schoharie County), Prattsville (Greene County), and Roxbury (Delaware County), New York.

The proposed 1000-megawatt Prattsville pumped storage project would utilize as its lower reservoir the existing Schoharie Reservoir which is owned and operated by the City of New York as part of its water supply system. New York City diverts water from Schoharie Reservoir through Shandaken Tunnel into the Esopus Creek where the water flows through the Towns of Shandaken and Olive in Ulster County into the Ashokan Reservoir. The upper reservoir of the pumped storage project would be located on Dog Hill to the east of Schoharie Reservoir.

The proposed project would consist of: (1) a 500 acre upper reservoir enclosed on three sides by a 150-foot high and 19,000-foot long rolled earth fill embankment and on the fourth side by a natural ridge, with storage capacity of 30,600 acre-feet, of which 26,000 acre-feet would be live storage for power generation and water supply between elevations 1,950 and 2,017 feet; (2) an ungated submerged circular weir which would operate as a water inlet and outlet, located in the southwest portion of the upper reservoir; (3) a concrete-lined vertical 875 foot-long pressure shaft, a 3,400 foot-long horizontal tunnel and manifold, all 32.5 feet in diameter, and four 15-foot diameter pressure tunnels averaging 700 feet in length to provide passageways for the water between the pumping-generating units and the upper reservoir; (4) the existing Schoharie reservoir created by an 180-foot high and 1,984-foot long center concrete spillway containing four 43-foot wide by 46-foot high tainter gates, having a storage capacity of 70,000 acre-feet, 60,000 acre-feet of which will be active water supply and power supply storage between elevations 1,065 and 1,135 feet; (5) an underground pumping-generating plant located on the east side of the lower reservoir which would contain four generator-motor units each capable of generating 250,000 kilowatts when operated as generators and with 372,000 hp of pumping power when operated as motors; (6) step-up transformers located in the plant and connected through a system of disconnects and gas insulated high voltage busses through a vertical shaft to the switchyard; (7) a switchyard located on the east side of Schoharie Reservoir immediately east of the tailrace structure; and (8) three 345-kv transmission circuits which would share a new common right-of-way extending about 5.6 miles in a northerly direction from the switchyard in the Town of Prattsville, Greene County through the Towns of Conesville and Gilboa in Schoharie County to the existing Gilboa-Leeds 345-kv right-of-way.

Approximately 72 acres of the land acquired for the project will be developed for recreation facilities. These facilities include a community recreation area in the hamlet of Prattsville; construction overlooks at the powerhouse site and Gilboa Dam; a parking area for fishing access, snowmobiling and hiking trails at the upper reservoir; a scenic overlook at Manor Kill Falls; and educational study and picnic area north of Gilboa Dam; and trails for hiking and snowmobiling.

The project will provide fast-response peaking capacity to meet system emergencies and to serve load during periods of peak demand in the City and State of New York.

The alternate sites being considered by Applicant for a similar pumped storage project are: (1) Gardiner, located on the Shawangunk Creek in the Towns of Rochester, Gardiner, and Shawangunk in Ulster County; (2) Livingstonville, located on Catskill Creek in the Town of Broome in Schoharie County; (3) Port Jervis North, located on the Neversink River in the Towns of Deerpark in Orange County and Forestburg in Sullivan County; and (4) Breakabeen, located on Schoharie Creek near the Towns of Blenheim, Fulton, and Gilboa, in Schoharie County. A further alternate site being evaluated by the FPC Staff is Canadaigua, located within the Towns of Canandaigua, Gorham, and South Bristol in Ontario County, and Middlesex and Italy in Yates County. The lower reservoir would be the existing Canadaigua Lake and the upper reservoir would

be located on South Hill, near the southeast end of Canandaigua Lake.

Unless previously granted intervention in this matter, any person desiring to be heard or to make any protest with reference to this matter should on or before October 18, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person or organization wishing to become a party to a proceeding or to participate as a party in any evidentiary hearing therein must file a petition to intervene in accordance with the Commission's Rules. This application is on file with the Commission and available for public inspection at the Commission's offices in Washington, D.C., and at Applicant's offices in New York City and in Gilboa, Prattsville, and Catskill, New York.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-541]

PUBLIC SERVICE CO. OF OKLAHOMA

Notice of Interconnection Change

AUGUST 9, 1977.

Take notice that on August 3, 1977, Public Service Company of Oklahoma (PSO) tendered for filing proposed changes in Rate Schedule FPC No. 143. PSO indicates that the proposed change provides a new point of interconnection to be provided under the Interconnection Agreement between PSO and Oklahoma Gas and Electric Company (OG&E) dated April 30, 1956, on file with the Commission and designated as Rate Schedule FPC No. 143. Benefits to be derived from the 345kV interconnection are mutual between the two companies, according to PSO.

PSO respectively requests that the Commission waive its notice requirements regarding the filing of contracts no more than 90 days before the contract is proposed to go into effect, and to allow this filing to become effective at the earliest possible date.

PSO indicates that copies of this filing are being served upon the Oklahoma Corporation Commission and OG&E.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-530]

SOUTHERN NATURAL GAS CO.

Notice of Application

AUGUST 9, 1977.

Take notice that on July 27, 1977, Southern Natural Gas Company (Applicant), Post Office Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP77-530 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction during the 12-month period commencing October 21, 1977, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the system of other pipeline companies which may be authorized to transport gas from the account of or exchange with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $12,000,000 with no single offshore project to exceed a cost of $2,500,000, and no single onshore project to exceed a cost of $1,500,000. It is stated that these costs would be financed with cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 31, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) as the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-3 (PGA77-3)]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Purchased Gas Cost Adjustments to Rates and Charges

AUGUST 10, 1977.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) on August 1, 1977, tendered for filing certain revised tariff sheets to its FPC Gas Tariff, Second Revised Volume No. 1 to become effective September 1, 1977. Pursuant to the Purchased Gas Adjustment Clause (PGA Clause) contained in its Tariff, Transco proposes to increase its rates effective September 1, 1977 to reflect the net effect of a current purchased gas cost increase and a deferred adjustment increase.

Second Substitute Third Revised Sheet No. 12 and Substitute Second Revised Sheet No. 15 included in Appendix A of the filing reflect a net rate increase of 5.1¢ per dekatherm (dt) which is the result of a 0.9¢ per dt current gas cost increase and a net increase in the Deferred Adjustment of 4.2¢ per dt. Transco states that this latter increase arises from (1) an increase of 3.1¢ per dt due to the elimination of a negative deferred adjustment of the same amount which became effective March 1, 1977 pursuant to Transco's PGA Tracking Rate filing of January 28, 1977 and (2) an increase of 1.1¢ per dt to recover the balance in the Unrecovered Purchase Gas Cost Account (FPC Account No. 191) as of June 30, 1977 for gas purchase costs exclusive of amounts attributable to Commission Opinion No. 770-A.

The Company states that copies of the filing have been mailed to each of its jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426,

VOL 42 NO 159 AUG 17 77 UM

in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspections.

KENNETH F. PLUMB,
Secretary.

[FR Doc 77 23678 Filed 8 16 77,8:45 am]

[Docket No. CP77-527]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

AUGUST 8, 1977.

Take notice that on July 26, 1977, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP77-527 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas under a transportation agreement with Florida Gas Transmission Company (Florida) whereby Applicant will receive for that company an aggregate quantity of up to 20,000 dekatherms (dt) equivalent of gas per day, and deliver a thermally equivalent quantity at any mutually agreeable existing authorized interconnection between the two systems in the gas supply area, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks authorization to transport on a best efforts basis for Florida, natural gas which Florida will purchase in Jefferson Davis and Marion Counties, Mississippi and deliver to Transco's main line system at any or all of four mutually agreeable locations, as follows: Section 5, Township 6 North, Range 16 West, Jefferson Davis County; Section 7, Township North, Range 18 West, Jefferson Davis County; Section 30, Township 5 North, Range 19 West, Marion County; and Section 35, Township 5 North, Range 12 East, Marion County.

Applicant states that Florida is presently curtailing deliveries of gas to its customers and that the volumes of gas reflected in its application will help to maintain as adequate and reliable service as possible to Florida's system.

Applicant states that it will install the necessary taps and/or valves on its pipeline, and Florida will install, operate and maintain the necessary measuring facilities used to determine the quantity and Btu content of the gas delivered. All such facilities will be constructed pursuant to a budget-type authorization of the respective parties.

For this transportation service, Applicant states that Florida will pay Applicant initially a charge of 3.5 cent per dt delivered.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 31, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) as the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77 538]

TRANSCONTINENTAL GAS PIPE LINE CORP. ET AL.

Notice of Pipeline Application

AUGUST 9, 1977.

Take notice that on August 1, 1977, Transcontinental Gas Pipe Line Corporation, 2700 South Post Oak Road, Houston, Texas 77056; Consolidated Gas Supply Corporation, 445 West Main Street, Clarksburg, West Virginia 26301; Michigan Wisconsin Pipe Line Company, One Woodward Avenue, Detroit, Michigan 48226; Natural Gas Pipeline Company of America, 122 South Michigan Avenue, Chicago, Illinois 60603; and Trunkline Gas Company, 3000 Bissonnet, Houston, Texas 77005 (Applicants), filed in Docket No. CP77-538 a joint application pursuant to Section 7(c) of the Natural Gas Act, as amended, and the Rules and Regulations of the Federal Power Commission, for a certificate of public convenience and necessity authorizing the construction and operation of natural gas pipeline facilities in the High Island Area, East Addition, South Extension, Offshore Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they have the right to purchase natural gas from reserves located in Blocks A-350, A-369 and A-370 of the above-mentioned High Island Area and in Block WC-633 of the West Cameron Area, South Addition, Offshore Louisiana. Applicants state that the purpose of the instant application is to obtain authorization to construct and operate (i) approximately 6.01 miles of 24-inch gathering line and other appurtenant facilities extending from a point in Block A-350 to a manifold platform to be jointly owned by High Island Offshore System and Stingray Pipeline Company in Block A-330, (ii) approximately 2.31 miles of 24-inch gathering line and other appurtenant facilities extending from a production platform in Block A-370 to a point in Block A-350 where such line joins with the southern terminus of the line described in (i) above, together with a meter and regulator station on the Block A-370 platform, and (iii) approximately 0.07 miles of 20-inch gathering line and other appurtenant facilities extending from a production platform in Block A-350 to a sub-sea tap which ties in such line with the 24-inch line at the point where the lines described in (i) and (ii) join, together with a meter and regulator station on the Block A-350 platform. Applicants estimate that the total cost of the proposed facilities will be $16,680,000. Applicants state that their respective shares of said costs will be financed initially through revolving credit arrangements, short-term loans, funds on hand and, in some cases, from funds obtained from parent companies. Permanent financing will be undertaken as part of Applicants' respective overall long-term financing programs at later dates.

Michigan Wisconsin Pipe Line Company will operate the proposed facilities for all Applicants.

Any person desiring to be heard or to make any protest with reference to said application, on or before September 6, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject

to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-107]

TRANSWESTERN PIPELINE CO.

Notice of Petition To Amend

AUGUST 9, 1977.

Take notice that on July 26, 1977, Transwestern Pipeline Co. (Petitioner), P.O. Box 2521, Houston, Tex. 77001, filed in Docket No. CP77-107 a petition pursuant to Section 7(c) of the Natural Gas Act to amend further the Commission's order issued April 2, 1976, in said docket by authorizing the transportation of natural gas for Pacific Interstate Transmission Co. (Pacific Interstate) for an additional well, as more fully set forth in the application which is on file with the Commission and open to public inspection.

Petitioner asserts that by order issued April 2, 1976 in Docket Nos. CI76-186, CP76-104 and CP76-107, the Commission authorized, inter alia, Petitioner to transport natural gas in interstate commerce for the account of Pacific Interstate pursuant to a Transportation Agreement between Petitioner and Pacific Interstate dated September 29, 1975. The gas which Petitioner is transporting is being purchased by Pacific Interstate from Pacific Lighting Gas Development Co. (PLGD) and is being sold by Pacific Interstate to its sole customer, Pacific Lighting Service Co. (Service Company), it is said.

The authorized transportation service is pursuant to the Transportation Agreement between Petitioner and Pacific Interstate dated September 29, 1975, as amended May 12, 1976, and again on November 29, 1976, to provide for the transportation of these gas supplies, it is stated. Petitioner and Pacific Interstate have entered into a further amendment, dated June 24, 1977, providing for the proposed additional transportation, it is indicated. Petitioner is still obligated to transport on a best efforts basis no more than 25,000 Dth equivalent of gas per day during each contract year, it is indicated.

Petitioner states that Pacific Interstate has contracted with PLGD to purchase gas from one additional well (the No. 2 Wink Airport Well in Section 11, Block 21, University Land, Winkler County, Tex.) and has agreed to sell this gas to Service Company. Petitioner further states that it is contracting to purchase a portion of the gas produced from the well described from Transwestern Gas Supply Co. which is involved in the drilling operation. This well would be connected to Petitioner's system under the currently effective budget-type authorization issued to Petitioner in Docket No. CP77-13, it is asserted.

Petitioner seeks authorization to transport the additional natural gas through its existing main line system and would deliver it to Service Company at an existing interconnection between the two companies' systems at the Arizona-California border near Needles, Calif. Petitioner states that no new facilities would be required.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 2, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23661 Filed 8-16-77;8:45 am]

[Docket No. CP77-544]

TRUNKLINE GAS CO.

Pipeline Application

AUGUST 10, 1977.

Take notice that on August 3, 1977, Trunkline Gas Co. (Applicant), P.O. Box 1642, Houston, Tex. 77001, filed in Docket No. CP77-544 an application pursuant to Section 7(c) of the National Gas Act and the regulations thereunder for Certificates of Public Convenience and Necessity authorizing construction of new facilities to be used for its own account and on behalf of Gulf Oil Corp. (Gulf), and for a temporary certificate therefor, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes the construction of a new sixteen-inch line to be built between Block 23, Vermilion Area, Offshore Louisiana, and a point on Applicant's existing line immediately onshore in Vermilion Parish, La. Applicant will own and operate the proposed facilities and use 50 percent of the new capacity to transport gas for its own account. Gulf will have the use of the other 50 percent of such capacity and, in return, will make a contribution in aid of construction of one-half of the cost of such facilities.

Any person desiring to be heard or to make any protest with reference to said application, on or before September 2, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-23691 Filed 8-16-77;8:45 am]

[Docket No. CP77-533]

TRUNKLINE GAS CO. AND PANHANDLE EASTERN PIPE LINE CO.

Pipeline Application

AUGUST 10, 1977.

Take notice that on July 29, 1977, Trunkline Gas Co. and Panhandle Eastern Pipe Line Co. (Applicants), Post Office Box 1642, Houston, Tex. 77001, filed in Docket No. CP77-533, a joint application pursuant to Section 7 of the Natural Gas Act and the regulations thereunder for a Certificate of Public Convenience and Necessity and for a Temporary Certificate authorizing the transportation of natural gas on behalf of Northern Natural Gas Co. (Northern) all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Trunkline proposes to receive initial quantities of 50,000 Mcf per day for the

account of Northern utilizing the capacity of its existing systems and arrangements with Stingray Pipeline Co. and Natural Gas Pipeline Co. of America. Trunkline will redeliver the volumes transported less compressor fuel and certain quantities to be sold to Panhandle, to Northern at Trunkline's Longville, Louisiana compressor station. Such gas will be transported pursuant to a transportation contract dated May 24, 1977, between Applicants and Northern wherein Trunkline will receive the gas at Exxon Corp.'s production platform in West Cameron Block 616, Offshore Louisiana, and redeliver at the suction header of Trunkline's Longville, Louisiana compressor station, for further transportation and delivery to Northern at Mullinville, Kans. As partial consideration for this transportation service, Northern has agreed to sell to Panhandle up to 20 percent of the volumes delivered at the point of receipt. For the transportation service between the point of receipt and Trunkline's Longville, La. compressor station, Northern will pay a monthly charge of One Hundred Fifty-Four Thousand Two Hundred Fifty-Six Dollars ($154,256) based on transportation of 40,000 Mcf per day. An upward or downward adjustment of 12.67 cents per Mcf will be applied to any deficiency or excess taken.

Applicants also seek authorization to effectuate a transportation agreement between Applicants which provides for the transportation by Trunkline of the gas purchased by Panhandle from Northern. In consideration for said transportation, Panhandle will pay to Trunkline a monthly transportation charge of Ninety-Five Thousand Nine Hundred Sixty-Four Dollars ($95,964).

Any person desiring to be heard or to make any protest with reference to said application, on or before September 6, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-84]

UNITED GAS PIPE LINE CO.

Notice of Certification of Settlement Agreement

AUGUST 9, 1977.

Take notice that on July 22, 1977, the Presiding Judge certified a proposed settlement agreement to the Commission in the captioned docket. This agreement proposes to settle all issues in the captioned docket plus certain outstanding issues in Docket Nos. RP71-41, RP72-75, RP74-20, RP74-83, RP75-30, and RP75-109.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Initial comments will be filed with the Commission on or before August 25, 1977, and reply comments will be filed on or before September 9, 1977. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

[Docket No. ID-1692]

JOHN W. VAUGHAN

Notice of Amendment to Application Under Section 305(b)

AUGUST 9. 1977.

Take notice that on July 22, 1977, John W. Vaughan filed an amendment to the supplemental application in this docket, pursuant to Section 305(b) of the Federal Power Act.

This amendment discusses certain relationships between the American Electric Power System and various financial institutions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP-72-41; PGA77-2b]

WESTERN TRANSMISSION CORP.

Proposed Changes

AUGUST 10, 1977.

Take notice that Western Transmission Corporation (Western), on July 29, 1977, tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, the following sheet:

Fifth Revised Sheet No. 3-A, superseding Fourth Revised Sheet No. 3-A.

The proposed changes reincorporate a schedule of the estimated surcharges (which include a 9 percent carrying charge) pursuant to Section 18.4 of the General Terms and Conditions of Western's FPC Gas Tariff, Original Volume No. 1 and FPC Opinion No. 770, et seq. inadvertently omitted in Fourth Revised Sheet No. 3-A, superseding Third Revised Sheet No. 3-A.

Western's filing is proposed to become effective on June 1, 1977.

Copies of this filing have been served upon Colorado Interstate Gas Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before *August 22, 1977*. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-539]

WESTERN MASSACHUSETTS ELECTRIC CO.

Notice of Proposed Purchase Agreement

AUGUST 9, 1977.

Take notice that on June 29, 1977, Western Massachusetts Electric Company (WMECO) tendered for filing a proposed Purchase Agreement with Respect to Various Gas Turbine Units, (the Unit Contract) dated January 10, 1977, between WMECO and Reading Municipal Light Department (RMLD).

WMECO states that the Unit Contract provides for a sale to RMLD of a specified percentage of capacity and energy from six gas turbine generating units during the period from November 1, 1978 to October 31, 1980, together with related transmission service.

WMECO requests that the Commission waive its notice requirements and accept the Unit Contract for filing more than ninety days prior to its proposed effective date (November 1, 1978) so that RMLD will be assured of the capacity included in the tendered rate schedule.

WMECO states that the capacity charge for the proposed service was developed on a cost-of-service basis. WMECO further states that the monthly transmission charge is equal to one-twelfth of the annual average unit cost of transmission service on the Northeast Utilities (NU) system, determined in accordance with Section 13.9 (Determination of Amount of Pool Transmission Facilities (PTF) Costs) of the NEPOOL agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts of winter capability which RMLD is entitled to receive, reduced to give due recognition of the payments made by RMLD for transmission service on intervening systems, and the variable and additional maintenance charges were arrived at from historical costs.

WMECO states that copies of this rate schedule have been mailed or delivered to RMLD, Reading, Massachusetts.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

CENSUS ADVISORY COMMITTEES ON THE BLACK POPULATION FOR THE 1980 CENSUS, THE SPANISH ORIGIN POPULATION FDR THE 1980 CENSUS, ASIAN AND PACIFIC AMERICANS POPULATION FOR THE 1980 CENSUS

Public Meetings

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C., Appendix 1, (Supp. V, 1975)), notice is hereby given of a combined meeting and subsequent separate meetings of the Census Advisory Committee on the Black Population for the 1980 Census, Census Advisory Committee on the Spanish Origin Population for the 1980 Census, and the Census Advisory Committee on Asian and Pacific Americans Population for the 1980 Census. The combined meeting will convene at 9 a.m. on Thursday, September 8, 1977, at the Olde Colony Motor Lodge, North Washington and First Streets, Alexandria, Virginia.

The Census Advisory Committee on the Black Population for the 1980 Census is composed of 21 members appointed by the Secretary of Commerce. It was established in October 1974 to advise the Director, Bureau of the Census, on such 1980 census planning elements as improving the accuracy of the population count, recommending subject content and tabulations of special use to the black population, and expanding the dissemination of census results among present and potential users of census data in the black population.

The Census Advisory Committee on Spanish Origin Population for the 1980 Census is composed of 21 members appointed by the Secretary of Commerce. It was established in February 1975 to advise the Director, Bureau of the Census, on such 1980 census planning elements as improving the accuracy of the population count, developing definitions for classification of the Spanish-origin population, recommending subject content and tabulations of especial use to the Spanish-origin population and expanding the dissemination of census results among present and potential users of census data in the Spanish-origin population.

The Census Advisory Committee on the Asian and Pacific Americans Population for the 1980 Census is composed of 21 members appointed by the Secretary of Commerce. It was established in June 1976 to advise the Director, Bureau of the Census, during the planning of the 1980 Census of Population and Housing on such elements as improving the accuracy of the population count, developing definitions and terminology for improved identification and classification of the Asian and Pacific Americans population, suggesting areas of research, recommending subject content and tabulations of particular use to the Asian and Pacific Americans population, and expanding the dissemination of census results among present and potential users of census data in the Asian and Pacific Americans community.

The agenda for the combined meeting, which will end at 4:30 p.m. is: (1) Status of the 1980 Census Dress Rehearsal, (2) reports on the Oakland, California, pretest, (3) race and ethnic origin questions on the census forms, (4) testing and selection aids, and (5) field training for the 1980 census.

Separate meetings of the three advisory committees will be held as follows:

The Census Advisory Committee on the Black Population for the 1980 Census will convene at 8:45 a.m. on Friday, September 9, 1977, in room 2412, Federal Building 3, Suitland, Maryland. The meeting will end at 11:15 a.m.

The Census Advisory Committee on the Spanish Origin Population for the 1980 Census will begin at 11:45 a.m. on Friday, September 9, 1977, in room 2113, Federal Building 3, Suitland, Maryland. The meeting will end at 2:15 p.m.

The Census Advisory Committee on the Asian and Pacific Americans Population for the 1980 Census will convene at 2:30 p.m. on Friday, September 9, 1977, in room 2412, Federal Building 3, Suitland, Maryland. The meeting will adjourn at 5 p.m.

The agenda for the three separate meetings is: (1) Selected field procedures and subject content of the 1980 census, (2) affirmative action report, and (3) committee recommendations and plans for future meetings.

The meetings will be open to the public and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days prior to the meetings.

Persons planning to attend and wishing further information concerning these meetings should contact the Committee Control Officer, Mr. Clifton S. Jordan, Deputy Chief, Demographic Census Staff, Bureau of the Census, room 3779, Federal Building 3, Suitland Maryland. (Mailing address: Washington, D.C. 20233). Telephone: (301) 763-5169.

Dated: August 12, 1977.

MANUEL D. PLOTKIN,
Director, Bureau of the Census.

Domestic and International Business Administration

HOWARD UNIVERSITY, ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00201. Applicant: Howard University, 2400 Sixth St., NW., Washington, D.C. 20059. Article: Electron

Microscope, Model Elmiskop 102. Manufacturer: Siemens AG, West Germany. Intended use of article: This article is intended to be used as part of a multi-use cell and molecular biology laboratory in which studies will be conducted involving the ultracytochemical localization of viral-induced antigens on the surface of cell membranes and in the cell nucleus; the use of autoradiography to localize sites of synthesis of proteins and nucleic acids and of hormone (iodinated) on membranes receptors of ovarian, testicular and luteal tissues; in hybridization studies to localize DNA & RNA binding sites on chromosomes of normal and transformed human and non-human cells; and in cardiac dynamics to examine nerve-muscle contacts. Both very thin sections, coated and negatively stained macromoleucules at varying tilt angles, autoradiograms and replicas of freeze-etch material will be examined with the article. In addition, the article will be used in the training of faculty scientists and predoctoral and post doctoral trainees. Application received by Commissioner of Customs: April 21, 1977. Advice submitted by the Department of Health, Education, and Welfare on: July 11, 1977. Article ordered: March 18, 1977.

Docket Number: 77-00224. Applicant: East Tennessee University, College of Medicine, Johnson City, Tennessee 37601. Article: Electron Microscope, Model H-500-L with Waterchiller and recirculator, Model HX75. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used in a wide variety of research projects which will include:

(a) Studies of the ultrastructural characteristics of normal and diseased cells and tissues (including those requiring the detection of viral inclusions with cells);

(b) Experimental studies involving the localization of antigens and antibody forming cells by the horseradish peroxidase procedure and the unlabeled antibody enzyme method of Sternberger;

(c) Detection of various enzymes at the ultrastructural level, including phosphatases, esterases, and NAD-pyrophosphorylase, and to localize biogenic amines (adrenaline, noradrenaline, depamine, and serotonin) by the procedure of Tranzer and Richards; and

(d) Experimental studies of nonhistone proteins and nucleoprotein organization in chromatin and chromosomes following various manipulations, including critical-point drying, acid and/or salt extractions, denaturation, etc. Application received by Commissioner of Customs: May 4, 1977. Advice submitted by the Department of Health, Education, and Welfare on: July 11, 1977. Article ordered: February 7, 1977.

Docket Number: 77-00191. Applicant: State University of New York, Upstate Medical Center, 766 Irving Avenue Syracuse, N.Y. 13210. Article: Electron Microscope, Model Elmiskop 102 and accessories. Manufacturer: Siemens A.G., West Germany. Intended use of article: The article is intended to be used in a large number of research programs including the following:

1. Studies of the secondary structure of RNA from a variety of bacteriophages and tumor viruses;

2. Studies of the arrangement of subunits of malic enzyme and fatty acid synthetase; and

3. Examination of chicken embryo fibroblasts infected with a variety of RNA tumor viruses in order to trace replication of the virus and transformation of cells.

The objectives of the investigations are to trace the roles of nucleic acid structure in regulation of replication and translation and the role of enzyme structure in enzymatic activity. The article will also be used in the course Microbiology 619M—Electron Microscope Techniques in which students are taught operation of the transmission electron microscope, specimen prepartion procedures, photographic procedures.

Application received by Commissioner of Customs: April 4, 1977. Advice submitted by the Department of Health, Education, and Welfare on: June 24, 1977. Article ordered: March 8, 1977.

Comments: No comments have been received in regard to any of the foregoing applications.

DECISION: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, was being manufactured in the United States at the time the articles were ordered. Reasons: Each foreign article has a specified resolving capability of 3 Angstroms. The Department of Health, Education, and Welfare (HEW) advises in the respectively cited memoranda that the resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. HEW advises that it knows of no domestic instrument which could provide the pertinent feature at the time the articles were ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

RICHARD M. SEPPA,
Director,
Special Import Programs Division.

HOWARD UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00443. Applicant: Howard University, Dept. of Anatomy, 520 W Street NW., Washington, D.C. 20059. Article: Electron Microscope, Model EM 201C. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for research programs concerned with morphology of cell systems at the tissues and macromolecular levels which include the following:

(1) Investigation of the ultrastructural morphology of lymphatic capillaries during the normal and the inflammatory states with special attention to the lymphatic anchoring filaments that serve to attach these vessels to the adjoining connective tissues areas.

(2) Studies on the precise nature in which these filaments are bound to the lymphatic endothelial plasma membrane.

(3) Studies of histochemical identification of substances associated with the cell surfaces of lymphatic endothelial cells at the ultrastructural level in an attempt to characterize the chemical nature of the substance involved in the binding of lymphatic anchoring filaments to the cell surface.

(4) Studies on the organization of the descending pathways and their target cells in the spinal cord of the Tegu lizzard.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (May 29, 1975). Reasons: The foreign article provides image distortion of 1.5 percent (%) lens stabilities for the objective lens of 1 part per million (ppm) and 3 ppm for other lenses, magnification reproducibility of 1 percent and voltage stabilities of 2 ppm. At the time of order the most closely comparable domestic instrument available was the Model EMU-4C supplied by the Adam David Company. The model EMU-4C provided image distortion of 2 percent or less, lens stabilities for objective lens of 2.5 ppm and 10 ppm for other lenses, magnification reproducibility of ±2 percent and voltage stabilities of 5 ppm.

The Department of Health, Education, and Welfare (HEW) and the National Bureau of Standards (NBS) advises in their respective memoranda dated October 20, 1976 and May 26, 1977 that the characteristics of the foreign article described above are pertinent to the applicant's research studies. Specifically, HEW advises that the applicant requires (1) low distortion at low magnification and 1 percent magnification reproducibility for making montages of the intercellular junctions of the lympathic endothelial cells from serial and semi-serial sections and (2) the low image distortion as well as the stabilities of lenses, magnification and voltages of the article for long exposures with thick sections and thin semi-serial sections to map accurately the topographical realtionship between the cell bodies and axons in the descending pathways of the spinal cord of the Tegu lizzard. HEW further advises that the Model EMU-4C does not provide equivalent low distortion at low magnification for the montage work or guaranteed stabilities for thick section and long exposure work.

We, therefore, find that the Model EMU-4C was not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the foreign article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

Public Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that a meeting of the Management-Labor Textile Advisory Committee will be held on September 15, 1977 at 1:30 p.m. in Room 5611, Department of Commerce, 14th and Constitution Avenue NW., Washington, D.C. 20230.

The Committee was established by the Secretary of Commerce on October 18, 1961 to advise U.S. Government officials on problems and conditions in the textile and apparel industry and furnish information on world trade in textiles and apparel.

The agenda for the meeting will be as follows:

1. Review of import trends.
2. Implementation of textile agreements.
3. Report on conditions in the domestic market.
4. Other business.

A limited number of seats will be available to the public on a first-come basis. The public may file written statements with the Committee before or after each meeting. Oral statements may be presented at the end of the meeting to the extent time is available.

Copies of the minutes of the meeting will be made available on written request addressed to the DIBA Freedom of Information Officer, Freedom of Information Control Desk, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-5078.

Dated: August 12, 1977.

ARTHUR GAREL,
Director, Office of Textiles.

NATIONAL INSTITUTES OF HEALTH

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00151. Applicant: National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014. Article: Electron Microscope, Model EM 400 with high magnification stage and accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for investigations of the structure and function of eukaryotic chromatin. Currently available biochemical techniques combined with the techniques of electron microscopy provide a powerful tool for the examination of the problems of gene organization and expression.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used was being manufactured in the United States at the time the article was ordered (September 29, 1976). Reasons: The foreign article provides a guaranteed resolution of 3 Angstroms as well as a magnification range up to 800,000X. The National Bureau of Standards (NBS) advises in its memorandum dated July 11, 1977 that (1) the features described above are pertinent to the applicant's intended purposes and (2) it knows of no domestic instrument which provided the pertinent features at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

TEXAS TECH UNIVERSITY SCHOOL OF MEDICINE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00219. Applicant: Texas Tech University School of Medicine, P.O. Box 4050, Lubbock, Tex. 79409. Article: Electron Microscope, Model HS-9 and accessories. Manufacturer: Hitachi, Japan. Intended use of article: The article is intended to be used for the study of human biopsy material and animal tissue related to the following scientific research projects:

(a) Rheumatic disease research—muscle biopsy material from patients with rheumatic diseases is being studied.

(b) Dermatologic research—Skin biopsies from patients with psoriasis will be compared to uninvolved areas before and after treatment with ultra-violet light and photoreactive drugs.

(c) Gastrointestinal research—Elegant studies of the transport process membranes are planned using electron opaque tracers and biochemical analysis of transport rates.

(d) Nephrology—electron microscopic evaluation of renal biopsy.

(e) Ophthalmology—study the effect of oral progestens on the development of the eye.

In addition, the article will be used by trainees (fellows) in the Departments of Medicine, Ophthalmology and Pathology.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in

the United States at the time the foreign article was ordered (April 14, 1977).

Reasons: The foreign article is a relatively-simple, easy to operate, medium resolution electron microscope designed for confident use in teaching beginning students with a minimum of detailed programming. The article provides 6A point-to-point resolution, an accelerating voltage of of 75 kilovolts, and low distortion magnification from 500X through 100,000X plus 200X for scanning which permits an overlap of light and electron microscopy.

The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated July 11, 1977 that relative simplicity and full magnification range without a pole-piece change are pertinent to the applicant's intended purposes. HEW also advises that it knows of no domestic instrument which provided all the pertinent features at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

RICHARD M. SEPPA,
Director, Special Import Programs Division.

UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00175. Applicant: Uniformed Services University of the Health Sciences, 6917 Arlington Road, Bethesda, Md. 20014. Article: Electron Microscope, Model EM 400 with high magnification goniometer and accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article will be used in the fine structure of (1) the neuromuscular junction; (2) alterations in the blood-brain barrier in selected diseases of the nervous system; (3) neurotransmitter receptor sites on nerve membranes *in vivo* and in tissue culture preparations; (4) lesions in formed elements of the blood caused by freeze-preservation; (5) pathologic changes in liver and kidney cells in response to drugs, toxins, pollutants, radiation or a combination of agents; (6) brain pathology in response to head injury; (7) identification of immunologically active cells from mixed populations of blood or bone marrow cells; (8) interactions of hormones and toxins with receptors on the plasma membrane; and (9) cellular effects of cytotoxic drugs. Of particular importance will be the study of the three dimensional structure of specimens by means of a eucentric goniometer stage and the use of strioscopy operatures. The development of pathological lesions induced experimentally or in clinical specimens will be analyzed over time with appropriate controls and chemical modifications in order to understand the pathophysiological processes. In addition, the article will be used in the courses Medical Physiology and Pathology which are designed to provide medical students with a firm groundwork in these disciplines and Ultrastructural Research which will be designed to provide students with experience and expertise in a wide variety of ultrastructural research techniques.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used was being manufactured in the United States at the time the article was ordered (December 7, 1976).

Reasons: The foreign article is equipped with a high magnification goniometer stage with ± 30 tilt with a guaranteed resolution of 5 Angstroms (point-to-point). The Department of Health, Education, and Welfare (HEW) in its memorandum dated June 24, 1977 advised that the characteristics of the article described above are pertinent to the applicant's intended purposes. HEW further advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

Director, Special Import Programs Division.

[FR Doc 77-23737 Filed 8-16-77;8:45 am]

UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00204. Applicant: University of Texas Health Science Center at Dallas, 5323 Harry Hines Blvd., Dallas, Tex. 75235. Article: Electron Microscope, Model JEM-100S and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for the study of a wide variety of tissues from humans and experimental animals. Experiments to be conducted include the following:

(1) Studying liver biopsy material from patients with non A, B hepatitis to determine the identity of new virus not yet characterized.

(2) Studying the liver disease which occurs with high frequency in patients who have undergone renal transplantation.

(3) Investigation of channels formed by groups of microtubules within the axon.

The objectives of these investigations are to understand at a structural level the physiological phenomena which occur in these tissues and where applicable to determine the etiologic agent causing the cellular dysfunction. In addition, the article will be used in the following educational courses:

(a) General Pathology for sophomore medical students—to provide a background of the existing knowledge of disease processes in human body and to provide a basis for understanding future progress which will be made in diagnosis and treatment of these diseases.

(b) Residency training in pathology—to produce trained specialists of the highest quality for clinical practice and academic medicine.

(c) Graduate study in comparative pathology and microbiology—to provide an introduction to the use of sophisticated scientific instruments in the study of experimental diseases.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the application was received by the U.S. Customs Service (April 21, 1977).

Reasons: The foreign article provides distortion free micrographs over a magnification range of 100 to 200,000X without a pole-piece change. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated July 11, 1977 that distortion free micrographs in the magnification range described above are pertinent to the applicant's purposes. HEW also advises that it knows of no domestic instrument which provided the pertinent features at the time the application was received by the U.S. Customs Service.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the application was received by the U.S. Customs Service.

UNIVERSITY OF WASHINGTON

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00188. Applicant: University of Washington, Center for Bioengineering RF-52, Seattle, Wash. 98195. Article: Electron Microscope, Model JEM-100C/SEG and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for studies of the distribution and concentration of important elements (e.g., Na) in a wide variety of biological systems (e.g., cardiac muscle). Energy dispersive X-ray microanalysis will be used to determine elemental concentrations in small volumes.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the U.S. Customs Service received this application (April 1, 1977).

Reasons: The foreign article is equipped with a scanning transmission electron microscope attachment which provides a guaranteed resolving power of 15 Angstroms. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated June 24, 1977 that the feature of the article described above is pertinent to the applicant's intended use. HEW also advises that it knows of no domestic instrument which provides the pertinent feature of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the U.S. Customs Service received this application.

WASHINGTON UNIVERSITY SCHOOL OF MEDICINE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00179. Applicant: Washington University School of Medicine, 660 South Euclid Avenue, St. Louis, Mo. 63110. Article: Electron Microscope, Model JEM-100CX and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for continuation of the investigation of the mechanism of action of insulin in adipocytes from its initial binding to the hormone receptor on the plasma membrane through and including its alteration of lipolysis, protein synthesis, calcium binding and distribution, plasma membrane ATPase activity and membrane phosphorylation. The distribution of insulin receptors on a variety of normal and diseased state cells will be examined using the biologically and immunologically active ferritin-insulin conjugate.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used was being manufactured in the United States at the time the article was ordered (April 7, 1977).

Reasons: The foreign article has a specified resolving capability 3 Angstroms. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated June 24, 1977 that the resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. HEW also advises that it knows of no domestic instrument which provides the pertinent feature of the article which was being manufactured in the United States at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

[File No. 539]

YOSHIHIRO NAYA AND NICHIMEN INTERNATIONAL, S.A.

Order Denying Export Privileges

In the Matter of Yohihiro Naya, and Nichimen International, S.A., P.O. Box 6-494, Eldorado, Panama, Republic of Panama, Respondents.

In a charging letter of February 2, 1977, the Compliance Division, Office of Export Administration, alleged Nichimen International, S.A., and Yoshihiro Naya, its President, violated the U.S. Export Administration Regulations, 15 CFR 368 et. seq. It alleged that respondents reexported or caused to be reexported from the Republic of Panama to Cuba, U.S. origin teletype machines with the approximate value of $13,573 without authorization of the U.S. Government all in violation of 15 CFR 374.1.

Respondents failed to answer the charging letter or to appear at a hearing which was held in this matter. After due consideration of the evidence submitted by the Government, the Hearing Commissioner found that respondents knowingly reexported or caused to be reexported certain teletype equipment when they delivered such equipment to the Cuban airline in Panama. The evidence is conclusive that the machinery was delivered to the Cuban airline for delivery to and that the equipment now is in Cuba. The Commissioner recommended respondents be denied all U.S. export privileges for a period ending May 31, 1980.

In accordance with the evidence outlined by the Hearing Commissioner and his recommendations, I find that respondents knowingly violated the Export Administration Regulations as alleged in the charging letter of February 2, 1977. I find that an order denying export privileges to the respondents for a period ending May 31, 1980, is reasonably necessary to protect the public interest and to achieve effective enforcement of the Export Administration Regulations. Therefore, pursuant to the authority delegated to me, 15 CFR 388, it is

ORDERED

I. All outstanding export licenses in which respondents appear or participate, in any manner or capacity, are hereby

revoked and shall be returned forthwith to the Bureau of East-West Trade for cancellaton.

II. The respondents are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported or to be exported from the United States, in whole or in part. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data, in whole or in part, exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents but also to their agents, employees, representatives, and partners and to any other person, firm, corporation, or business organization with which the respondents now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. No person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of East-West Trade, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents or any related party, or whereby the respondents or any related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for said respondents or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

V. This order shall remain in effect until May 31, 1980, except insofar as this order may be amended or modified hereafter in accordance with the Export Control Regulations.

VI. In accordance with the provisions of section 388.15 of the Export Control Regulations, the respondents may move at any time to vacate or modify this Denial Order by filing with the Hearing Commissioner, Bureau of East-West Trade, U.S. Department of Commerce, Washington, D.C. 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which if requested shall be held before the Hearing Commissioner at the earliest convenient date.

This order shall become effective immediately.

Dated: August 8, 1977.

RAUER H. MEYER,
Director, Office of Export Administration.

Economic Development Administration

CREST SHOE CO.

Petition for Determination of Eligibility to Apply for Trade Adjustment Assistance

A petition by Crest Shoe Company, 3 Middle Street, Lewiston, Maine 04240, a producer of children's shoes, was accepted for filing on August 11, 1977, pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93-618) and Section 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315). Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's worker's, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business August 29, 1977.

CHARLES L. SMITH,
Acting Chief, Trade Act Certification Division, Office of Planning and Program Support.

OVERTON PARK ZOO AND AQUARIUM

Issuance of Permit To Take Marine Mammals

On May 6, 1977, notice was published in the FEDERAL REGISTER (42 F.R. 23187), that an application had been filed with the National Marine Fisheries Service by Overton Park Zoo and Aquarium, Memphis, Tenn. 38112, for a permit to take six (6) California sea lions (*Zalophus californianus*) for the purpose of public display.

Notice is hereby given that on August 8, 1977, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit for the above taking to Overton Park Zoo and Aquarium subject to certain conditions set forth therein. The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.;
Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Fla. 33702; and
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, Calif. 90731.

Dated: August 8, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

SQUID FISHERIES OF THE NORTHWESTERN ATLANTIC

Revision to Preliminary Fishery Management Plan

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Revision to Preliminary Fishery Management Plan.

SUMMARY: A preliminary fishery management plan Squid Fisheries of the Northwestern Atlantic published on February 16, 1977, proposed conservation and management measures for foreign squid fisheries pursuant to the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265). The plan was revised on August 1, 1977 to increase the amount of squid allocated to foreign squid fisheries. This action further revises the plan by allocating an additional amount of squid to foreign fisheries.

DATE: Effective date: August 12, 1977.

ADDRESS: Comments should be addressed to: Director, National Marine Fisheries Service, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

William G. Gordon, Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Gloucester, Massachusetts 01930, 617-281-3600.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On February 16, 1977, a preliminary fishery management plan entitled Squid Fisheries of the Northwestern Atlantic (42 FR 9596) was issued by the Secretary of Commerce to provide proposed conservation and management measures for foreign squid fisheries in the Northwest Atlantic pursuant to sec. 201(g) of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265). The plan provided, among other things, for a preliminary determination of optimum yield and a determination of foreign surplus. Based upon a reevaluation of domestic production potential and in consideration of U.S. catches of squid during the period March-June 1977, it was determined that the foreign surplus could be increased by 12,500 tons.[1] The plan was accordingly revised for the purpose of making an additional amount of 12,500 tons of squib available for foreign fisheries and published in the FEDERAL REGISTER on August 2, 1977 (42 FR 39129).

PURPOSE

A further analysis of data on U.S. squid catches indicates that the revised estimated 1977 domestic production level of 24,000 tons will not be fully utilized during 1977. Therefore, the foreign surplus is revised and increased by the following amounts:

Illex—5,000 tons, and *Loligo*—9,000 tons.

The estimated domestic production level is decreased by equivalent amounts.

IMPACT

It has been determined by NOAA that this action will have no significant adverse impact upon the environment because the increased foreign allocation is within the optimum yield of 79,000 tons. No adverse impact upon the domestic industry is anticipated.

NEED FOR EFFECTIVE DATE

The Secretary believes that formal notice of proposed rulemaking is impractical, unnecessary, and contrary to the public interest because the proposed revision to the plan must be effected before termination of this year's squid fisheries season and will have negligible effect upon U.S. fishing interests.

The Associate Administrator for Marine Resources of the National Oceanic and Atmospheric Administration, is delegated authority to approve this document in Department of Commerce Organization Order 25-5A, Section 3-01dd, Amendment 4 (dated September 30, 1976) and NOAA Directives Manual 05-57 (dated December 1, 1976).

Dated: August 12, 1977.

JOSEPH W. SLAVIN,
Acting Associate Director, National Marine Fisheries Service.

1. In Section IVc, the first paragraph is amended by deleting the number "24,000" and inserting the number "10,000," and by deleting the number "55,000" and inserting the number "69,000."

2. Table 26 is amended as follows:

TABLE 26.—*Squid optimum yield and allocations*

[In tons]

	Maximum sustainable yield	Optimum yield	U.S. catch	Foreign surplus
Illex	40,000	35,000	5,000	30,000
Loligo	41,000	41,000	32,000	9,000
Total	81,000	76,000	37,000	39,000

3. In Section IVc, the second paragraph is amended by deleting the number "24,000" and inserting the number "10,000."

[1] Tons refers to metric tons (2,205 pounds).

TWENTIETH CENTURY-FOX MARINELAND, INC.

Issuance of Permit To Take Marine Mammals

On May 3, 1977, notice was published in the FEDERAL REGISTER (42 FR 22393) that an application has been filed with the National Marine Fisheries Service by Twentieth Century-Fox Marineland, Inc., 6600 Palos Verdes Drive South, Rancho Palos Verdes, Calif. 90274, for a permit to take two (2) Pacific whitesided dolphins (*Lagenorhynchus obliquidens*) and two (2) Pacific bottlenosed dolphins (*Tursiops gilli*) for the purpose of public display.

Notice is hereby given that on August 9, 1977, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a permit for the taking of dolphins to Twentieth Century-Fox Marineland, Inc., subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.;
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, Calif. 90731; and Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Fla. 33792.

Dated: August 9, 1977.

JOSEPH W. SLAVIN,
Acting Associate Director, National Marine Fisheries Service.

Office of the Secretary

[Dept. Organization Order 20-14 Amdt. 1]

OFFICE OF AUTOMATIC DATA PROCESSING MANAGEMENT

Statement of Organization and Function

This order effective August 1, 1977 amends the material appearing at 41 FR 50320 of November 15, 1976.

Department Organization Order 20-14 of November 1, 1976 is hereby amended as shown below. The purpose of this amendment is to abolish the ADP Operations Division, and redistribute its functions between the newly formed ADP Analysis and Programming Division and the Computer Center.

In Section 5. Organization, delete the existing paragraph .03, and add new paragraphs .03 and .04 to read as follows:

".03 The ADP Analysis and Programming Division shall provide detailed design and programming of specific ADP applications."

".04 The Computer Center shall operate a central computer facility for the Office of the Secretary and for designated operating units, or selected ADP applications of operating units."

Effective date: August 1, 1977.

ELSA A. PORTER,
Assistant Secretary for Administration.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON, WOOL AND MAN-MADE FIBER APPAREL FROM HONG KONG

Announcing Visa Requirement

AUGUST 12, 1977.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Announcing a visa requirement for cotton, wool and manmade fiber apparel exported to the United States from Hong Kong, effective on January 1, 1978.

SUMMARY: On August 8, 1977 the Governments of the United States and Hong

Kong exchanged notes establishing a new agreement concerning exports of cotton, wool and man-made fiber textile products during a five-year period beginning on January 1, 1978 and extending through December 31, 1982. Pursuant to the terms of the bilateral agreement, a visa mechanism is being established for cotton, wool and man-made fiber apparel. It will be effective on January 1, 1978 for shipments exported on and after that date. Shipments exported prior to January 1, 1978 that have been visaed in accordance with previously established procedures will not be denied entry until June 1, 1978.

EFFECTIVE DATE: January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Arthur Garel, Director, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-5078).

SUPPLEMENTARY INFORMATION: The visa will be a signed copy of a Hong Kong export license with a stamp on the front side reading, "Approved for export to the USA," and will be signed by an authorized official of the Government of Hong Kong. It is imperative that the category indicated on the visa coincide with the classification of the U.S. Customs Service and that the quantity shown on the visa also coincide with the quantity of the shipment; otherwise, the goods will be denied entry. The only exception will be instances in which the quantity shown on the visa exceeds the actual quantity of the shipment. Interested parties should take steps to verify category classifications with the U.S. Customs Service.

This is a unique visa system, inasmuch as there is no provision for waiving any of its requirements. Full details will be published in the FEDERAL REGISTER upon receipt of the authorized visa stamp.

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.77-23741 Filed 8-16-77;8:45 am]

DEPARTMENT OF DEFENSE

Department of the Air Force

PRIVACY ACT OF 1974

Notice of System of Record Amendment

In Privacy Act Issuances, 1976 Comp., Vol. I, pages 378 to 650, the Department of the Air Force set forth the systems of records within the agency prescribed by the Privacy Act of 1974. A proposal to exempt system F04501 0KPNQSA Cadet Records from specified provisions of the Privacy Act by amending 32 CFR 806b, Subpart H was published in FR Doc. 77-18784, July 1, 1977 (42 FR 33776) and corrected in the FEDERAL REGISTER of July 19, 1977 (42 FR 37019). Interested persons were invited to participate in this proposed rule change on or before August 2, 1977; however, no public comments were received. The amendment to the system of record notice reflecting its exempt status is therefore being made in conjunction with the publication of the notice of final rule adoption. (See FR Doc. 77-23131, Department of the Air Force, in the Rules and Regulations section of this issue.)

F04501 0KPNQSA

System name: Cadet Records (p. 514).
Change:
Systems exempted from certain provisions of the act: Delete entire entry and substitute: "Parts of this system may be exempt under 5 U.S.C. 552a(k). For additional information, contact the Systems Manager."

F04501 0KPNQSA

System name:

Cadet records.

System location:

AFROTC/SDA, Maxwell AFB, AL 36112 and AFROTC detachments. Official mailing addresses of the detachments are in the Department of Defense directory in the appendix to the Air Force's system notice.

Categories of individuals covered by the system:

AFROTC cadets applying for enrolled or previously enrolled (within the past three years) in the professional Officers course or the general military course, if the latter participation was in a scholarship status.

Categories of records in the system:

Applications for enrollment in the Air Force reserve Officer corps (AFROTC) courses, applications for the AFROTC scholarship program, substantiation documents of qualification for the courses or programs, acceptances of applications, awards of scholarships, documents attesting to medical, academic, moral and civic qualifications, documents recording progress in flying instruction, academic curriculum and leadership training, counseling summaries, records of disenrollment from other Officer candidate training; records of separation or discharge from Officer candidate training; records of separation or discharge of prior servicemen; financial record data, certification of degree requirements; documents tendering and accepting commissions, documents verifying national agency checks or background investigations, documents required or proffered during investigations for disenrollment, legal opinions, letters of recommendations, corroboration by civil authorities, awards, citations; and allied papers.

Authority for maintenance of the system:

Title to U.S.C., chapter 103; Military Selective Service Act of 1967, section 6 (50 U.S.C. App. 456); 10 USC 8012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information collected is for the purpose of recruiting and qualifying a candidate for acceptance as an AFROTC cadet, continuing the cadet in the program and awarding an Air Force commission. Each detachment, located at its host institution, is the routine user for the members in its particular program. AFROTC, Maxwell AFB, AL, is a user by exception, that is, data is requested from the routine user if there is an aberration in the qualification of an individual for acceptance, continuation or graduation from the ROTC program. AFROTC exercises waiver authority that enables deserving individuals to remain in the program on a conditional basis if they perform below standards. AFROTC also requests data for disenrollments, changes in categories and graduation dates. Additionally, AFROTC requests data from the routine user for congressional inquiries, special projects, awards, honors and inter-service ROTC transfers. Air University (AU), as a Major Command, supervises execution of laws, plans and policies relating to AFROTC, as such, AU requires information in exercising its Command and Control function, i.e., Major Command inspection, waiver authority, and data reporting to superior agencies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

The life-cycle of the records begins with the application and testing of the candidate. Documents establishing qualification and satisfaction of criteria along with contracts and allied documents establish the cadet record. Progress documents, counseling sheets and performance records are maintained until graduation and commissioning. Finally, the records are destroyed one year after commissioning. An exception to the one year retention is the record of a disenrolee, one who does not complete the program nor receive a commission. Under these circumstances, the cadet record is maintained for three years. Further disposal of records is by burning, pulping or tearing into pieces.

Retrievability:

Records are retrieved by name, social security number and detachment number as paper records in file folders.

Safeguards:

Safeguards are storage in file cabinets that are accessible to the detachment staff and the individual concerned. AFROTC employs a locked rotary diebold power file and file cabinets accessible to the staff.

Retention and disposal:

Records are destroyed by standard means one year after a cadet is commissioned. Disenrolled cadets: records are retained for three years and then destroyed by tearing into pieces, macerating, or burning.

System manager(s) and address:

Director of senior program, Air Force Reserve Officer Training corps Maxwell AFB, AL 36112; and detachment Commander of the appropriate AFROTC detachment.

Notification procedure:

Requests from individuals should be addressed to the detachment Commanders of their particular AFROTC detachment indicating their name and social security number. However, if their request for information involves an investigation for disenrollment, the addressee is AFROTC/SDA, Maxwell AFB, AL 36112, both addresses may be visited by the requester.

Record access procedures:

Requests from individuals should be addressed to the detachment Commanders of their particular AFROTC detachment indicating their name and social security number. However, if their request for information involves an investigation for disenrollment, the addressee is AFROTC/SDA, Maxwell AFB, AL 36112, both addresses may be visited by the requester.

Contesting record procedures:

The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the Systems Manager.

Record source categories:

Sources of records in the system are educational institutions, secondary and higher learning; government agencies; civilian authorities; financial institutions; previous employers; individual recommendations, interviewing Officers; and civilian medical authorities.

Systems exempted from certain provisions of the act:

Parts of this system may be exempt under 5 U.S.C. 552a(k). For additional information, contact the Systems Manager.

MAURICE W. ROCHE,
Director Correspondence and Directives OASD (Comptroller).

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

RESEARCH FOR BRAILLE COMMUNICATION

Intent To Grant Exclusive Patent License

Notice is hereby given of an intent to grant to Research for Braille Communication, an Illinois nonprofit corporation, an exclusive license to manufacture, use, and sell in the United States the invention described in U.S. Patent No. 3,624,772, entitled "Reading and Writing Machine," issued November 30, 1971, to the United States of America as represented by the U.S. Atomic Energy Commission, now the U.S. Energy Research and Development Administration. A copy of the subject patent can be obtained from the U.S. Patent and Trademark Office, Washington, D.C. 20231. The proposed license will have a duration of five years and will contain other terms and conditions to be negotiated by the parties in accordance with Energy Research and Development Administration patent licensing regulations, Title 10 CFR Part 781. ERDA will grant the license unless within sixty days of this Notice the Assistant General Counsel for Patents, Energy Research and Development Administration, Washington, D.C. 20545, receives in writing any of the following together with supporting documents:

(1) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or

(2) An application for a nonexclusive license to manufacture, use, or sell the invention in the United States in accordance with Title 10 CFR 781, in which applicant states that he has already brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The Assistant General Counsel for Patents will review all written responses to this Notice and will provide opportunity for a hearing before granting the exclusive license.

Dated at this 8th day of August, 1977.

For the U.S. Energy Research and Development Administration.

HUDSON B. RAGAN,
Acting General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 778-7, OPP-180134]

CALIFORNIA DEPARTMENT OF FOOD AND AGRICULTURE

Issuance of Specific Exemption To Use Malathion on Pomegranates To Eradicate the Comstock Mealybug

The Environmental Protection Agency (EPA) has granted a specific exemption to the California Department of Food and Agriculture (hereafter referred to as the "Applicant") to use malathion on pomegranates (*Punica* spp.) to control the Comstock Mealybug (*Pseudococcus comstocki*, Kuwana) in Tulare and Kern Counties, California. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington D.C. 20460.

According to the Applicant, this is the only infestation of the Comstock mealybug west of the Mississippi River. The present infestations are located in Kern and Tulare Counties in central California. Within this area, infestations are located in portions of ten communities, ninety-four isolated property sites, and approximately 243 acres of commercial plantings. The first infestations of Comstock mealybug, a serious pest of crops in Japan and Russia, were found in Tulare County in 1967. After early biological control efforts failed to give effective results, the mealybug populations increased rapidly and spread to other parts of Tulare and Kern Counties. Since the pest is known to attack over 300 commercial crops and ornamental plants, an eradication effort began in late 1971.

Although very few acres of commercially grown fruits have been infested by this pest, growers have shown great concern about the potential losses that would result from such an infestation, the Applicant stated. Infestations of commercial acreage are expected to affect the salability of fruit in the market and result in financial losses through quarantine restrictions. During the State eradication efforts, the following commercial and residential plantings have been treated with malathion: almonds, apples, apricots, cherries, citrus, nectarines, peaches, pears, pecans, plums, pomegranates, prunes, and walnut trees and grapevines. Tolerances for malathion have been established on all of these crops except pomegranates.

In 1976, a specific exemption was issued by EPA for this use of malathion on 1,324 acres of pomegranates on residential and commercial property in Kern and Tulare Counties. Although a petition for a tolerance for use of the pesticide in or on pomegranates has not been submitted, the Applicant did collect residue data during the 1976 growing season. The University of California established the efficacy of malathion against this pest in spray trials conducted in 1974, according to the Applicant.

The eradication program combines quarantine regulations to restrict the movement of the pest; chemical treatment to eliminate infestations; biological control as suppressive holding action; and pheromone trapping for detection of the insect and evaluation of chemical treatments. The eradication effort is a cooperative program involving the Kern and Tulare County Departments of Agriculture, the University of California, and the U.S. Department of Agriculture.

Consumers, homeowners, nurserymen, and growers of susceptible fruit and nut crops involving over one million acres of farmland as well as processors and shippers of these commodities will benefit from the eradication of this pest. If the eradication program progresses according to schedule, eradication should be complete by 1985; pheromone trapping and visual inspection will continue at least until 1987. The Applicant estimated that if the pest spreads to all susceptible crops in California, losses to agriculture production could exceed $15 million annually, exclusive of chemical control costs; if the pest becomes established, chemical control costs to the nursery industry alone could amount to $20 million per year, while out-of-state quarantine costs to the citrus industry alone could be over $30 million per year. Losses to residential and park landscape plantings and natural vegetation would be extensive.

EPA has determined that the use of malathion on various tree fruits at the proposed dosage rate has an established tolerance of 8.0 parts per million (ppm) on the harvested tree fruits. If a seven day preharvest interval were observed for pomegranates, the residues on pomegranates would not exceed 8.0 ppm; further, the residues would be primarily on the skin of the pomegranates, which is not normally consumed. In addition, EPA has determined that pomegranates comprise less than one percent of the human diet.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of Comstock mealybug has occurred; (b) there is no pesticide presently registered and available for use to control this pest in California; (c) there are no alternative means of control, taking into acount the efficacy and hazard; (d) significant economic problems may result if the pest is not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until April 15, 1978, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. Malathion spray applications to pomegranates are limited to those infested by the Comstock mealybug;

2. Malathion will be applied by hydraulic spray rigs at a rate of one pound of active ingredient per one hundred gallons of water. Volck Supreme Oil may be added to the spray formulation as necessary;

3. When the malathion spray is applied to bearing pomegranates, a seven day preharvest interval will be observed;

4. All applicable directions and precautions appearing on the registered product will be observed;

5. The Applicant is responsible for collecting pomegranate samples and conducting residue analyses pursuant to establishing a tolerance for malathion on pomegranates;

6. The present eradication program is an ongoing project which is expected to continue for several years, and this is the second year that an exemption has been requested for this use of malathion. EPA recommends that a petition for such a tolerance be submitted in the near future;

7. The following data should be obtained during the course of this exemption: (a) a complete description of the analytical method used to obtain the residue data. This should include recovery data for fortified samples and representative raw analytical data including sample calculations; (b) additional residue data which contains complete sample histories. This type of information would include the application rate (pounds active ingredient/gallons of spray solution and gallons of spray/acre); and (c) treatment and sampling dates, weather conditions (including irrigation information) and sample storage conditions (including storage interval); and

8. EPA has determined that residues of malathion resulting from this use will not exceed 8.0 ppm, which is adequate to protect the public health. The Food and Drug Administration of the U.S. Department of Health, Education, and Welfare has been advised of this action.

(Sec. 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).)

Dated: August 11, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 778-4; OPP-180139]

ILLINOIS DEPARTMENT OF AGRICULTURE

Issuance of Specific Exemption To Use Terramycin To Control Bacterial Spot on Peaches

The Environmental Protection Agency (EPA) has granted a specific exemption to the Illinois Department of Agriculture (hereafter referred to as the "Applicant") to use no more than 2,500 pounds of Terramycin to control bacterial spot on 150 acres of peaches in Illinois. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M Street SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, bacterial spot is caused by the bacterium *Xanthomonas pruni;* bacterial spot affects leaves, twigs, and fruit, reducing both fruit quality and yield. Early and frequent defoliation caused by bacterial spot weakens the tree, predisposing it to winter injury. Vigorous treees are less susceptible to the disease than devitalized, neglected trees. The Applicant stated that in hot and humid years, up to 50% of the fruit may have to be discarded; this estimate does not consider the debilitating influences of the disease on infected trees. It is estimated

that 75% of the total crop in Illinois is susceptible to bacterial spot.

The Applicant stated that in the past, a dodine-cyprex mixture has been used in an attempt to control bacterial spot in Illinois, but this mixture has been ineffective. Other fungicides have not been used because of information that they were ineffective elsewhere.

The Applicant proposed to use the product Myco Shield Agricultural Terramycin, manufactured by Pfizer Chemical Division, at the rate of 27.2 ounces of Terramycin/acre (11.33 ounces of Terramycin/100 gallons of water) per application by ground spray. There will be a maximum of 8 applications. Application will be made by growers, some of whom are State-certified applicators.

The Applicant stated that the peach crop in Illinois is valued at about 7.56 million dollars, with approximately 75 percent of the crop being susceptible to bacterial spot. Moreover, during a year with weather conditions conducive to the development of bacterial spot, crop loss may be up to 50 percent. Therefore, if the use of Terramycin is allowed to prevent bacterial spot, an economic loss valued at about 2.83 million dollars may be prevented.

EPA has determined that, under heavy inoculum pressure, Terramycin (the calcium complex of oxytetracycline) would be needed to prevent large scale losses of peaches infected with bacterial spot. Tolerances for oxytetracycline hydrochloride were previously established at 0.35 ppm on pears; currently, a tolerance of 0.1 ppm in or on pears for the calcium complex of oxytetracycline has been proposed. Tolerances for peaches are pending. The use of this pesticide for this exemption is not expected to have any adverse effects to either man or the environment. Therefore, a residue level not exceeding 0.1 ppm has been determined by EPA to be adequate to protect the public health.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of bacterial spot on peaches has or is about to occur; (b) there is no pesticide presently registered and available for use to control the bacterial spot in Illinois; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the bacterial spot is not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until July 31, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. Myco Shield Agricultural Terramycin (containing the calcium complex of oxytetracycline), manufactured by Pfizer Chemical Division, is authorized;

2. Application rate shall be 27.2 ounces of Terramycin formulation/acre (11.33 ounces of Terramycin formulation/100 gallons of water) per application by ground spray;

3. A maximum of 8 applications of Terramycin may be made;

4. A maximum of 2,500 pounds of Terramycin may be applied;

5. The duration of the application period shall be from the beginning of June 6, 1977, until July 31, 1977;

6. A maximum of 150 acres in Illinois may be treated;

7. Application of Terramycin shall be by growers;

8. Workers shall not enter orchards after Terramycin application until foliage is dry;

9. There shall be a 21-day preharvest interval;

10. The Applicant shall notify Niagara (a subsidiary of FMC), sole distributor of this material, that records of the sale of this material shall be kept and made available. These records shall include the name and address of the purchaser, and the quantity of material purchased;

11. An Extension Specialist in Fruit Pathology at the University of Illinois shall coordinate the program; he and personnel under his supervision, and county agricultural agents shall make all recommendations of Terramycin application, based on disease symptoms, past history of the disease, and local weather conditions. A newsletter or agricultural bulletin shall be promulgated to growers and other interested parties, informing them about program criteria;

12. A residue level of oxytetracycline not exceeding 0.1 ppm has been deemed adequate to protect the public health. The Food and Drug Administration, U.S. Department of Health, Education, and Welfare, has been advised of this action;

13. All label precautions shall be followed;

14. A final report shall be submitted to EPA by December 31, 1977, summarizing the results of this program; and

15. The Applicant shall inform EPA immediately of any adverse effects resulting from this program and shall be responsible for the performance of all provisions of this exemption.

(Sec. 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).)

Dated: August 11, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

Issuance of Specific Exemption To Use Azinphos Methyl To Control Carrot Weevil on Root Parsley

The Environmental Protection Agency (EPA) has granted a specific exemption to the New Jersey Department of Environmental Protection (hereafter referred to as the "Applicant") to use azinphos methyl to control carrot weevil on approximately 25 acres of root parsley in southern New Jersey. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M Street, S.W., Room E-315, Washington, D.C. 20460.

According to the Applicant, the carrot weevil (*Listronotus oregonensis*) attacks carrots, celery, parsnips, moss-curled parsley, and root parsley. This pest has become extremely serious in Cumberland County, New Jersey; the Applicant stated that severe losses due to feeding damage by the carrot weevil may occur unless an effective pesticide is made available to the growers. DDT had provided economic control of this pest, but this use of DDT was cancelled in the early 1970's.

Currently, no insecticide is registered for control of carrot weevil on this crop, which is valued at from $50,000 to $100,000. A true dollar loss is difficult to define, since this is a specialty crop and the acreage involved is relatively small. However, it appears that carrot weevil infestation has become increasingly severe in the past few years; the root parsley growers are faced with a serious problem.

The Applicant proposed to use the product Guthion 2S, containing the active ingredient azinphos methyl, at a dosage rate of 0.5 pound a.i. per acre. Three applications of Guthion, at 7–10 day intervals, will be made to each crop; applications will be made by qualified private applicators employing ground equipment.

Azinphos methyl (Guthion) was found to be effective against carrot weevil on carrots. The Applicant submitted data to EPA which demonstrated the effectiveness of azinphos methyl in controlling the pest on root parsley; the data further indicated that residue levels of azinphos methyl in or on root parsley are not likely to exceed 7.0 parts per million (ppm). Since this crop is not used in animal feed items, there is no expectation of secondary residues in meat, milk, poultry, or eggs from this use. Because of the limited acreage and the fact that ground application rather than aerial application will be employed, there appeared to be little risk to non-target organisms.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of carrot weevil on root parsley has or is about to occur; (b) there is no pesticide presently registered and available for use to control the carrot weevil on this

crop in New Jersey; (c) there are no alternative means of control; taking into account the efficacy and hazard; (d) significant economic problems may result if the carrot weevils are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until August 31, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The 2S formulation of Guthion containing the active ingredient azinphos methyl is authorized. The dosage rate is to be 0.5 pound a.i. azinphos methyl per acre;

2. Up to three applications by ground equipment made at 7–10 day intervals are authorized;

3. Applications may be made by qualified private applicators after the New Jersey Cooperative Extension Service determines that carrot weevil is present in a given growing field of root parsley;

4. A residue level of azinphos methyl not exceeding 7.0 ppm has been deemed adequate to protect the public health. The Food and Drug Adminstration of the U.S. Department of Health, Education, and Welfare, has been advised of this action;

5. The EPA shall be immediately informed of any adverse effects resulting from the use of azinphos methyl in conjunction with this exemption; and

6. All label precautions must be followed.

(Sec. 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).)

Dated: August 11, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 778-6;OPP-180136]

NEW MEXICO DEPARTMENT OF AGRICULTURE

Issuance of Specific Exemption To Use DDT To Suppress Fleas Vectoring Plague on Wild Rodents and Solicitation of Views

The Environmental Protection Agency (EPA) has granted a specific exemption to the New Mexico Department of Agriculture (hereafter referred to as the "Applicant") to use DDT dust in a program to suppress flea populations in areas in New Mexico where fleas vectoring plague on wild rodents may endanger the public health. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St., S.W., Room E–315, Washington, D.C. 20426. The situation described in this exemption has been a continuing problem in New Mexico since 1949, and has occurred in other States as well. In view of the significance of the problem of plague and the potential exposure of man to plague vectors, EPA is requesting comments/views from interested parties on this control program and any similar programs. Comments may be submitted to the Federal Register Section. Technical Services Division (WH–569), Office of Pesticide Programs, Room E–401, at the Headquarters address shown above. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments must be received within 30 days of date of publication of this notice, and should bear the identifying notation OPP–180136. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

According to the Applicant, New Mexico is an endemic area for compestral (sylvatic) plague. The bubonic plague pathogen is transmitted among rodents and occasionally, to humans by some twenty (20) species of fleas. The wild rodents serve as reservoirs for the plague organisms with fleas as the vector. Fleas are capable of maintaining the plague organisms in suitable rodent burrows for several months, even in the absence of rodent hosts. The disease is most prevalent from May through October and can be found in all areas of New Mexico. According to the Applicant, testing of serum samples from wild carnivorous animals for antibody to *Yersinia pestis* was positive for thirty percent of the animals in twenty-two counties in the State last year. Testing this year has been positive for approximately twenty percent of the animals tested.

In 1975, sixteen cases of bubonic plague occurred in humans in New Mexico, two of which progressed to the infectious pneumonic form of plague. In one instance, nearly one-hundred persons were given treatment with antibiotics following contact with one of the pneumonic individuals. In 1976, New Mexico had nine human cases of plague with two cases resulting in death of the victims. According to the Applicant, the first human case for 1977 has already been reported.

Treatment should commence well in advance of the occurrence of human cases(early spring), and upon the occurrence of a human infection, the rodent flea populations in close proximity to the human case should be vigorously suppressed to reduce the likelihood of additional human infections.

Carbaryl is a registered alternative; carbaryl is registered for flea control on wild rodents. However, according to the Applicant, flea populations remain suppressed for less than one week after treatment and then build rapidly back to pre-treatment levels. Because of the large number of rodent burrows which must be treated, it is our determination that there is not sufficient manpower available to the Applicant for the use of carbaryl in an efficacious manner.

The Applicant proposed to use no more than 500 pounds of a five or ten percent DDT product in a one time application to rodent burrows at a rate of two ounces per burrow. All personnel involved in the actual application of the pesticide have been examined and licensed by the Applicant as Public Management Consultants in the category of public health pest control or as Public Operators working under the direct supervision of a licensed consultant.

According to the Chief, Plague Branch, Center for Disease Control (CDC), located at Fort Collins, Colorado, New Mexico again, as in 1975, comprised the major epicenter of bubonic plague in the United States. The plague surveillance program being conducted in New Mexico this year indicates potential hazards to the public health from exposure to fleas vectoring sylvatic plague. The Chief, Plague Branch, stated that the issuance of this exemption was advisable in order to enable the Applicant to be prepared for an epizootic outbreak of the plague bacillus.

After reviewing the application and other available information, EPA has determined (a) a pest outbreak of fleas vectoring plague is likely to occur; (b) there are no alternative means of control available, taking into account the efficacy and hazard; (c) significant health problems may result if the fleas vectoring plague are not controlled; and (d) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 30, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. A five or ten percent active DDT formulation may be used;

2. The total amount of DDT used may not exceed fifty pounds of active DDT, or 500 pounds of product, whichever is greater;

3. The DDT will be applied directly to rodent burrows by handpowered dusters at a rate of not more than two ounces of product per burrow;

4. Treatment will be initiated when the Applicant, the Plague Branch of CDC, and Region 6, EPA, agree that without flea control the public health will be endangered and that adequate control cannot be achieved with carbaryl;

5. In addition to the plague surveillance program conducted by the State, the Applicant should seek advice from CDC, Plague Branch, concerning areas to be treated and time of application;

6. The Plague Branch, CDC, Fort Collins, Colorado, will be advised of flea population suppression activities;

7. Areas treated with DDT should be surveyed to ensure that no endangered species that could be adversely affected are present;

8. Liaison will be established with the New Mexico Department of Game and Fish prior to applying DDT in any area; and

9. All applicators must be licensed by the Applicant as Public Pest Management Consultants in the category of public health pest control or as public operators working under the direct supervision of a licensed consultant.

(Sec. 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).)

Dated August 11, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL ELECTION COMMISSION

[Notice 1977-44, AOR 1977-38 and AOR 1977-39]

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. § 437f(c) and the procedures reflected in Part 112 of the Commission's regulations, published on August 25, 1976 (41 FR 35954), Advisory Opinion Requests 1977-38 and 1977-39 have been made public at the Commission. Copies of AOR 1977-38 and 1977-39 were made available on August 11, 1977. These copies of the advisory opinion requests were made available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, N.W., Washton, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests and statutory references should be to the United States Code citations rather than to the Public Law citations.

A descriptive listing of each of the requests recently made public as well as the identification of the requesting party follows hereafter:

AOR 1977-38: May a current candidate for the United States Senate also maintain a separate political organization with a separate bank account for the sole purpose of extinguishing prior campaign debts incurred in seeking a State office in 1974 and not be subject to the Federal Election Campaign Act of 1971, as amended, if potential contributors to the 1978 Senate campaign are also asked to help retire the State campaign debt?

Requested by John Drayton Hastie, Jr., Counsel, on behalf of Charles D. Ravenel, candidate for United States Senate, Charleston, S.C.

AOR 1977-39: May a Member of the House of Representatives who incurred legal fees to defend himself against criminal charges relating to his official conduct pay those fees from his campaign fund as campaign expenses?

Requested by William L. Clay, House of Representatives, Washington, D.C.

Dated: August 11, 1977.

THOMAS E. HARRIS,
Chairman for the Federal Election Commission.

FEDERAL MARITIME COMMISSION

[No. 77-41]

HOUSTON GULF CRANE, INC., ET AL. v. PORT OF HOUSTON, AUTHORITY OF HARRIS COUNTY, TEXAS

Notice of Filing of Complaint

AUGUST 12, 1977.

Notice is hereby given that a complaint filed by Houston Gulf Crane, Inc., and its individual stockholders against Port of Houston Authority of Harris County, Texas was served August 11, 1977. The complaint alleges violations by respondent of sections 16, 17, and 18 of the Shipping Act, 1916 in connection with certain provisions of respondent's Tariff No. 8 regarding use of outside cranes on respondent's property.

Hearing in this matter, if any is held, shall commence on or before February 11, 1978. The hearing shall include oral testimony and cross examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statement, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-23792 Filed 8-16-77;8:45 am]

[Docket No. 77-43; Amdt. No. 10286]

ITALY-U.S.A. NORTH ATLANTIC POOL AGREEMENT

Order of Investigation and Hearing

Before the Commission is FMC Agreement No. 10286, Italy-U.S.A. North Atlantic Pool Agreement, filed for approval pursuant to Section 15 of the Shipping Act, 1916, 46 U.S.C. § 814. Agreement No. 10286 is a cargo and revenue pooling agreement covering all cargo, regardless of its point of origin or destination, carried Westbound either directly or indirectly, by any member line or affiliate thereof, from Italian ports to United States North Atlantic ports (north of Cape Hatteras). Membership in the pool is open to any line which is, or becomes, a member of the underlying conference serving in this trade. FMC Agreement No. 2846, West Coast of Italy, Sicilian and Adriatic Ports/North Atlantic Range Conference (WINAC). The membership of WINAC, as well as the signatories to the pool is as follows: American Export Lines (re-admitted to Conference July 4, 1977); American President Lines (re-admitted to Conference July 5, 1977); Black Sea Shipping Company (notice of withdrawal from WINAC cancelled); Costa Line; Italia, S.p.A.; Jugolinija; Sea-Land Service, Inc. (re-admitted to Conference Juy 5, 1977); Turkish Cargo Lines, and Zim Israel Navigation Co., Ltd.

Notice of filing of FMC Agreement No. 10286 appeared in the FEDERAL REGISTER March 8, 1977, 42 FR 13047 (1977), and in response thereto protests were filed by the Department of Justice (Justice), the National Association of Alcoholic Beverage Importers, Inc. (NAABI) and the Wines and Spirits Wholesalers of America, Inc. (WSWA). To date, proponents have refused to provide the Commission with any statement justifying approval of Agreement No. 10286.

Justice characterizes the pool as an anticompetitive agreement for which proponents have failed to make any demonstration of justification pursuant to *Svenska*,[1] and thus requests disapproval of the Agreement, or in the alternative, an evidentiary hearing. NAABI adopts the position of Justice, and WSWA voices its protest on similar grounds.

Pooling agreements represent the "ultimate in anticompetitive combinations"[2] and are prima facie contrary to the public interest.[3] The Commission is required to disapprove, after notice and hearing, an agreement which is contrary to the public interest unless it has other evidence before it demonstrating a need for the agreement, which need outweighs the anticompetitive effect of the agreement.[4] In view of the anticompetitive

[4] Section 15 of the Shipping Act, 1916, provides in pertinent part:

The Commission shall by order, after notice and hearing, disapprove * * * any agreement * * * that it finds to be unjustly discriminatory or unfair as between carriers, shippers, exporters, importers * * * or to operate to the detriment of the commerce of the United States, or *to be contrary to the public interest*, or to be in violation of this Act, and shall approve all other agreements. * * * [Emphasis supplied.]

Svenska, supra; Canadian-American Working Agreement, et al., 16 S.R.A. 733 (1976).

nature of the Agreement, the lack of any justification in support thereof, and the protests and request for hearing, Agreement No. 10286 shall be the subject of an investigation and hearing to determine its approvability under the standards of Section 15, Shipping Act, 1916.

Now, therefore, *it is ordered*, That the Commission enter upon an investigation and hearing pursuant to Sections 15 and 22 of the Shipping Act, 1916, to determine whether Agreement No. 10286 is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers or ports, or between exporters from the United States and their foreign competitors, or to operate to the detriment of the commerce of the United States, or to be contrary to the public interest, or to be in violation of the Shipping Act, 1916, and whether Agreement No. 10286 should be approved, disapproved, or modified pursuant to Section 15 of the Shipping Act, 1916;

It is further ordered, That in the event any modification of Agreement No. 10286 is filed with the Commission, such modification shall be made subject to this investigation for approval, disapproval, or modification under the standards of Section 15 of the Shipping Act, 1916;

It is further ordered, That the signatories listed in Appendix A hereto are hereby made proponents in this proceeding;

It is further ordered, That the parties listed in Appendix B hereto are hereby made the protestants in this proceeding;

It is further ordered, That this proceeding be referred for public hearing before an Administrative Law Judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined and announced by the Presiding Administrative Law Judge, but in no event shall that hearing commence later than February 12, 1978.

The hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record;

It is further ordered, That notice of this Order be published in the FEDERAL REGISTER, and a copy thereof be served upon proponents and protestants listed in the Appendices hereto;

It is further ordered, That any persons (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene therein should notify the Secretary of the Commission immediately, and petition for leave to intervene in accordance with Rule 72 of the Commission's Rules of Practice and Procedure (46 CFR 502.72), with a notice to the Commission's Bureau of Hearing Counsel and all parties to this proceeding;

It is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding be mailed directly to all parties of record.

By the Commission.

JOSEPH C. POLKING,
Acting Secretary.

LYKES BROS. STEAMSHIP CO., INC. AND SUN LINE GREECE SPECIAL SHIPPING CO., INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126 ;or may inspect the agreement at the Feild Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed for Approval by:

Mr. R. J. Finnan, Lykes Bros. Steamship Co., Inc., 300 Poydras Street, New Orleans, Louisiana 70130.

Agreement No. 10073 between Lykes Bros. Steamship Co., Inc. and Sun Line Greece Special Shipping Company, Inc. provides for the appointment by Sun Line of Lykes as its Husbanding and General Passenger Agent in the ports of Galveston and Houston, Texas, to perform services enumerated in the Agreement under covenants, conditions and terms set forth in the Agreement. Among other things, the Agreement provides for the solicitation and booking of passengers including fare collection, advertising and promoting of services as instructed by Sun Line.

By Order of the Federal Maritime Commission.

Dated: August 11, 1977.

JOSEPH C. POLKING,
Acting Secretary.

[No. 77-42]

P & M CRANE SERVICE, INC. v. PORT OF HOUSTON AUTHORITY OF HARRIS COUNTY, TEXAS

Notice of Filing of Complaint

AUGUST 12, 1977.

Notice is hereby given that a complaint filed by P & M Crane Service, Inc. against Port of Houston Authority of Harris County, Texas was served August 11, 1977. The complaint alleges violations by respondent of sections 16, 17, and 18 of the Shipping Act, 1916 in connection with certain provisions of respondent's Tariff No. 8 regarding use of outside cranes on respondent's property.

Hearing in this matter, if any is held, shall commence on or before February 11, 1978. The hearing shall inclure oral testimony and cross examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statement, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

JOSEPH C. POLKING,
Acting Secretary.

FEDERAL RESERVE SYSTEM

CENTRAL BANCORPORATION, INC.

Order Approving Acquisition of Bank

The Central Bancorporation, Inc., Cincinnati, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to First National Bank of Mercer County, Celina, Ohio ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those of the Department of Justice, in light of the factors set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

Applicant, the eighth largest banking organization in Ohio, controls nine banking subsidiaries with aggregate deposits of approximately $1.1 billion, representing 3.5 percent of total commercial bank deposits in Ohio.[1] Acquisition of Bank ($64.6 million in deposits) would increase Applicant's share of Statewide commercial bank deposits by only 0.2 percent and would have no appreciable effect upon the concentration of banking resources in Ohio.

Bank is the largest of six banking organizations located in the Mercer County banking market,[2] the relevant banking market, and controls approximately 34.0 percent of the total deposits in commercial banks in the market. Applicant's closest subsidiary bank, The Home Banking Company, St. Marys, Ohio ("Home Bank"), is located in the separate Wapakoneta banking market that adjoins Mercer County to the east. The closest office of Bank is located approximately 11 miles from Home Bank, although in a different market. Since the banks are located in separate banking markets, no meaningful amount of existing competition would be eliminated. It appears that acquisition of Bank would not have any significant adverse effects upon potential competition since it is unlikely that Applicant would enter the Mercer County banking market de novo,[3] and after consummation a number of alternative points of entry would remain available. Accordingly, on the basis of the above and other facts of record, it is concluded that consummation of the proposed transaction would not have any significant adverse competitive effects. The Board has considered the comments by the Department of Justice that consummation of the proposal would have adverse competitive effects. However, in light of the Board's finding that Bank and Home Bank operate in separate and distinct banking markets and that, based upon other facts of record, de novo entry by Applicant appears unlikely and other points of entry will remain available following consummation, the Board is of the view that approval of the application is warranted.

Considerations relating to the financial and managerial resources and future prospects of Bank, Applicant, and its subsidiaries are regarded as satisfactory. Therefore, banking factors are consistent with approval. Affiliation with Applicant will allow Bank to increase the services offered to its customers, including the offering of trust services and expanded agricultural lending. Considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. Accordingly, it has been determined that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[4] effective August 9, 1977.

ROBERT E. MATTHEWS,
Assistant Secretary of the Board.

[FR Doc.77-23765 Filed 8-16-77;8:45 am]

FIRST BANKERS CORPORATION OF FLORIDA, POMPANO BEACH, FLORIDA

Order Approving Acquisition of Bank

First Bankers Corporation of Florida, Pomopano Beach, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to ac-

[1] Unless otherwise indicated, all banking data are as of September 30, 1976, and reflect bank holding company formations and acquisitions approved as of June 30, 1977.

[2] The Mercer County banking market is approximated by Mercer County and Mississinawa, Allen, Wabash, York, and Patterson townships in northern Darke County.

[3] The Wapakoneta banking market is comprised of Auglaize County except for German and Jackson townships in the southwestern portion of the county.

[4] As of July 1, 1975, the Mercer County deposits per banking office and population per banking office were $11.1 million and 2,686, respectively, considerably below statewide figures of $14.3 million and 4,846.

[5] Voting for this action: Governors Wallich, Coldwell, Jackson, Partee, and Lilly. Absent and not voting: Chairman Burns and Governor Gardner.

quire 80 percent or more of the voting shares of First National Bank of Cape Canaveral, Cape Canaveral, Fla. ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and this Federal Reserve Bank has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the State's seventeenth largest holding company, controls five banks with aggregate deposits of $286.8 million representing 1.07 percent of deposits in all commercial banks in the state. (All banking data are as of December 31, 1976 and reflect mergers and acquisitions as of June 14, 1977.) Acquisition of Bank, having deposits of $22.4 million, would not significantly increase Applicant's share of commercial bank deposits, and Applicant's status would change from seventeenth largest holding company in the state to sixteenth. No undue concentration of banking resources in Florida would result.

The relevant market area is the Central Brevard Banking Market.[1] Florida's first, second, and third largest bank holding companies are represented in the market, with the largest bank controlling 28 percent of deposits. Bank, with $22.4 million in deposits, controls 11.5 percent of market deposits, and is the fourth largest of eight banks in a market where Applicant is not represented. Acquisition of Bank will not diminish competition among banks in the market.

Applicant's nearest banking subsidiary is located in Volusia County, 41 miles north of Bank. No competition currently exists between Applicant's subsidiaries and Bank, and it is unlikely that significant future competition would result because of the distances involved and Florida's branching laws. The relevant market is not considered attractive for *de novo* entry due to a recent decline in population and the opening of three branch banks in the area.

The financial and managerial resources and prospects of Applicant, its subsidiaries, and Bank are considered to be generally satisfactory. Acquisition of Bank by Applicant will increase Bank's lending capacity. Applicant hopes to decrease Bank's operating expenses by placing the servicing of automated accounts with an affiliate. Bank's employees will be included in Applicant's retirement plan. Applicant also plans to assist Bank in constructing a new and larger main banking facility. Considerations relating to the convenience and needs of the community to be served lend weight to approval of the application. It is this Federal Reserve Bank's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Federal Reserve Bank of Atlanta acting under delegated authority for the Board of Governors of the Federal Reserve System, effective August 9, 1977.

MONROE KIMBREL,
President.

[FR Doc.77-23697 Filed 8-16-77;8:45 am]

[1] The Central Brevard Banking Market is approximated by the towns of Cocoa, Cocoa Beach, Merritt Island, and Cape Canaveral.

MARINE CORPORATION

Acquisition of Bank

The Marine Corporation, Milwaukee, Wisconsin, has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(3)) to acquire 80 percent or more of the voting shares of American Kettle Moraine Bank, Delafield, Wisconsin. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than September 8, 1977.

Board of Governors of the Federal Reserve System, August 11, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-23698 Filed 8-16-77;8:45 am]

MARINE NATIONAL EXCHANGE BANK OF MILWAUKEE

Request for Determining and Notice Providing Opportunity for Hearing

Notice is hereby given that a request has been made to the Board of Governors of the Federal Reserve System, pursuant to the provisions of section 2(g)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. § 1841(g)(3)) ("the Act"), by Marine National Exchange Bank of Milwaukee, Milwaukee, Wisconsin ("Marine Bank"), for a determination that Marine Bank is not nor will be in fact capable of controlling Joseph B. Gutenkunst, Robert L. Habush, Richard L. Kite, George L. N. Meyer, Jr., Bernard J. Sampson, Harold Sampson, Zachary Takerlan, Joseph, A. Domanik, Mark F. Dudley, Robert F. Hammen, Jr. and Michael Rosen. Pursuant to an agreement dated July 9, 1977, Marine Bank proposes to sell for cash certain shares of American Hampton Bank, Milwaukee, Wisconsin, to each of the individuals named, each of whom are indebted to Marine Bank in connection with transactions other than the proposed sale of shares of American Hampton Bank.

Section 2(g)(3) of the Act provides that shares transferred after January 1, 1966, by any bank holding company (or any company which but for such transfer would be a bank holding company) directly or indirectly to any transferee that is indebted to the transferor or has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor, shall be deemed to be indirectly owned or controlled by the transferor, unless the Board, after opportuninty for hearing, determines that the transferor is not, in fact, capable of controlling the transferee.

Notice is hereby given, that, pursuant to section 2(g)(3) of the Act, an opportunity is provided for filing a request for oral hearing. Any such request or written comments on the application should be submitted in writing (in duplicate) to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received no later than August 29, 1977. If a request for oral hearing is filed, each request should contain a statement of the nature of the requesting person's interest in the matter, his reasons for wishing to appear at an oral hearing, and a summary of the matters concerning which such person wishes to give testimony. The Board subsequently will designate a time and place for any hearing it orders, and will give notice of such hearing to the transferor, the transferee, and all persons that have requested an oral hearing. In the absence of a request for an oral hearing, the Board will consider the requested determination on the basis of documentary evidence filed in connection with the application.

Board of Governors of the Federal Reserve System, August 9, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Extension of Time to File Comments

On July 18, 1977, the Regulatory Reports Review Staff, GAO, received and accepted a request for clearance of a proposed report intended for use in collecting information from the public. (See 44 U.S.C. 3512 (c) and (d).) GAO published a notice in the FEDERAL REGISTER on July 22, 1977, at 42 FR 37598, announcing that a form had been received and accepted. The purpose of publishing this notice is to extend the period of time for interested parties to comment on the FEA form because of a misunderstanding about what schedules the respondents are required to submit.

FEDERAL ENERGY ADMINISTRATION

The FEA has requested clearance of a new single-time "Survey of Manufacturers' Alternative Energy Capabilities 1977, Form MA-400." However, it has come to our attention that Tables (A) through (F) which were submitted to GAO for clearance with Form MA-400 are not required to be filed by respondents. These tables are examples of the output to be derived from the information submitted on the MA-400. Written comments are invited from all interested persons, organizations, public interest groups, and affected businesses. We have already received several comments requesting additional time to respond, therefore, the deadline for filing comments on the FEA Form MA-400 is hereby extended to Wednesday, August 31, 1977. Comments (in triplicate) must be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5033, 441 G Street, NW, Washington, DC 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.77-23616 Filed 8-16-77;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Assistant Secretary for Education

COMMENTS ON COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

Pursuant to Section 406(g)(2)(B), General Education Provisions Act, notice is hereby given as follows:

The National Center for Education Statistics and the U.S. Office of Education have proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the "Control of Paperwork" amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organizations shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collection of information and data acquisition activity.

These data acquisition activities are subject to review by the HEW Education Data Acquisition Council and the Office of Management and Budget.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activities are invited. Comments should refer to the specific sponsoring agency and form number and must be received on or before September 16, 1977 and should be addressed to Administrator, National Center for Education Statistics, ATTN: Manager, Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue, SW., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

Dated: August 11, 1977.

IRIS GARFIELD,
Acting Administrator, National Center for Education Statistics.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY

Survey of Recent (1976-77) College Graduates.

2. AGENCY BUREAU OFFICE

National Center for Education Statistics.

3. AGENCY FORM NUMBER

NCES form 2385.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY

Section 406(b)(5) (The Center shall) "Conduct a continuing survey of institutions of higher education to determine the demand for, and the availability of qualified teachers * * *" (Pub. L. 93-380 as amended by Pub. L. 94-482; 20 USC 1221e-1).

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE

Voluntary.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED

Condition of education: Legislators, counselors, educators, students will use the data to assess the job market for college graduates by field; e.g., unemployment, underemployment, teacher supply and demand, etc.

7. DATA ACQUISITION PLAN

a. Method of collection: Mail.
b. Time of collection: Fall 1977.
c. Frequency: Biennial.

8. RESPONDENTS

a. Type: College and Universities.
b. Number: Sample: 300.
c. Estimated average man-hours per respondent: 2 hours (range of 1-10 hours).

9. INFORMATION TO BE COLLECTED

Colleges and universities (1) A list of July 1, 1976-June 30, 1977 Bachelor's and Master's degree recipients with major field of study (2) Addresses for a sample (an average of 35 per school) of these graduates (Graduates will then be sent a brief questionnaire inquiring about their employment and education status).

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY

A Study of Selection Institutions and Borrowers in the Federally Insured Student Loan Program.

2. AGENCY/BUREAU/OFFICE

U.S. Office of Education, Office of Planning, Budgeting, and Evaluation.

3. AGENCY FORM NUMBER

OE 531.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY

"The Commissioner shall not deny, because of any provision of this section, a certificate of insurance under section 429 to any eligible lender which is an eligible institution if such lender has previously executed an agreement with the Commissioner pursuant to section 433 of this part, unless the Commissioner determines, based on studies and surveys satisfactory to him, that access to a loan by all eligible students who make an active and diligent effort to obtain a loan under this part will be otherwise available." (Sec. 423(c), Higher Education Act of 1965, as amended, 20 USC 1087) "Nothing in this section or in this part shall be construed to excuse the holder of a federally insured loan from exercising reasonable care and diligence in the making and collection of loans under the provisions of this part. If the Commissioner, after reasonable notice and opportunity for hearing to an eligible lender, finds that it has substantially failed to exercise such care and diligence * * * he shall disqualify that lender for further Federal insurance * * * until he is satisfied that its failure has ceased * * *" (Sec. 430(d), Higher Education Act of 1965, as amended, 20 USC 1087).

"An eligible institution shall be deemed to have originated a loan for purposes of this section if it has delegated to it by an eligible lender of substantial portion of the functions normally performed by a lender prior to the making of a loan, such as interviewing the applicant for a loan, explaining the applicant's responsibilities under the loan, obtaining completion of necessary forms, obtaining necessary documentation, or verifying that the student is eligible for the loan." (Sec. 433(b), Higher Education Act of 1965, as amended, 20 USC 1087).

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE

Voluntary.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED

Analysis of data from the Default Regression Model will be used to indicate "performance measures" for proprietary institutional lenders and more specifically, the relationships between administrative practices, borrower attitudes and demographics, and levels of default rates at these institutions. These relationships will be used to test whether higher and

V42159 AUG 17 77 UM

lower default rates at direct lender proprietary institutions are primarily the result of poor loan administration, negative borrower attitudes, and specific demographic characteristics. Data from institutions of higher education which are direct lenders will be utilized to explore whether quite different factors explain high or low default rates at these institutions. About improved program capability for contacting defaulters and about the feasibility of a future study of out-of-school borrowers, including defaulters.

7. DATA ACQUISITION PLAN

a. Method of collection: Site visits/personal interviews, mail questionnaires, telephone interviews.
b. Time of collection: Fall, 1977.
c. Frequency: Once.

8. RESPONDENTS

a. Type: Proprietary Institutions (Direct Lenders).
b. Number: 66 (Universe).
c. Estimated average man-hours per respondent: 5.0.
a. Type: Institutions of Higher Education (Direct Lenders).
b. Number: 90 (Universe).
c. Estimated average man-hours per respondent: 5.0 (Site Visits).
a. Type: In-School Borrowers.
b. Number: 2527 (Sample).
c. Estimated average man-hours per respondent: 0.25.

9. INFORMATION TO BE COLLECTED

Proprietary Schools Active as Direct Lenders Under FISLP

a. The reasons for the school seeking a direct lending status, and the extent to which loans are available from local banks.
b. The nature of the policies and procedures followed in reviewing loan applications, informing borrowers, disbursing loan monies and administering loans to students during the in-school, grace, deferment and out-of-school periods.
c. The nature of the policies and procedures followed in pursuing collections, and submitting a claim on a defaulted loan.
d. The general operation of the loan administration function, including the size and turnover of school staff, the use of mechanized systems, and the use of centralized versus decentralized management control.
e. The performance of the loan portfolio over time and the reasons why changes in this performance have occurred.
f. The extent and rationale for the sale and/or warehousing of loans to Sallie Mae or commercial lenders, the use of repurchase agreements in these transactions, and the policies and procedures followed.

Students, In-School Borrowers At Proprietary Schools

a. The factors involved in the enrollment.
b. Program awareness at the time of enrollment.
c. The factors involved in obtaining the loan.
d. Understanding of the terms and obligations of the loan.
e. The role of the loan in financing the borrowers' education.
f. Borrowers' satisfaction with the program.

Students, Out-Of-School Borrowers From Proprietary Schools

a. The factors involved in the enrollment decision.
b. The role of the loan in financing the borrowers' education.
c. Borrowers' satisfaction with the program.
d. Reasons for withdrawal (if appropriate).
e. Understanding of the terms and obligations of the loan.
f. Placement assistance provided and employment status.
g. Factors involved in repaying the loan.

Institutions of Higher Education Active As Direct Lenders Under FISLP (and selected for on-site visits)

a. The reasons for the school seeking a direct lender status, and the extent to which loans are available from local banks.
b. The nature of the policies and procedures followed in reviewing loan applicants, informing borrowers, disbursing loan monies and administering loans to students during the in-school, grace, deferment and out-of-school periods.
c. The nature of the policies and procedures followed in pursuing collections and in submitting a claim on a defaulted loan.
d. The general operation of the loan administration function, including the size and turnover of school staff, the use of mechanized systems and the use of centralized versus decentralized management control.
e. The performance of the loan portfolio over time and the reasons why changes in this performance have occurred.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITIONS ACTIVITY

1. TITLE OF PROPOSED ACTIVITY

A Description and Assessment of Projects Funded by the Community Education Program.

2. AGENCY/BUREAU/OFFICE

U.S. Office of Education, Office of Planning, Budgeting, and Evaluation.

3. AGENCY FORM NUMBER

OE 567.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY

Section 405(g)(6) of the Community Schools Act states: "The (Community Education Advisory) Council shall create a system for the evaluation of the programs. The Council shall present to Congress a complete and thorough evaluation of the programs and operation of this section for each fiscal year ending after June 30, 1975." (Pub. L. 93-380, 20 U.S.C. 1864).

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE

Voluntary.

6. HOW INFORMATION COLLECTED WILL BE USED

Data and information collected in this study will be analyzed to: Describe the organization and operation of Community Education projects implemented by local educational agencies, State educational agencies, and institutions of higher education; and evaluate the impact of the Community Education projects at the local and State levels. This analysis will be used by the National Advisory Council on Community Education to assist the Office of Education and Congress in defining the future direction and role of Federal involvement in Community Education.

7. DATA ACQUISITION PLAN

a. Method of collection: Mail and personal interviews.
b. Time of collection: Fall 1977.
c. Frequency: Single time.

8. RESPONDENTS

a. Type: Local Education Agencies.
b. Number: Sample—297.
c. Average man-hours per respondent: 2 hours.
a. Type School Administrators and Supervisors (School Principals and School Project Coordinators).
b. Number: Sample—134.
c. Average man-hours per respondent: 30 minutes.
a. Type: Other (Local Cooperating Institutions).
b. Number: Sample—228.
c. Average man-hours per respondent: 45 minutes.
a. Type: Individuals (chairpersons of project advisory councils and project participants).
b. Number: Sample—440.
c. Average man-hours per respondent: 20 minutes.
a. Type: Teachers, Elementary and Secondary.
b. Number: Sample—88.
c. Average man-hours per respondent: 15 minutes.
a. Type: State Education Agencies.
b. Number: Sample—33.
c. Average man-hours per respondent: 2 hours.
a. Type: State Institutions (associated with grant recipients).
b. Number: Sample—25.
c. Average man-hours per respondent: 30 minutes.
a. Type: College and Universities.
b. Number: Sample—28.
c. Average man-hours per respondent: 2 hours.

9. INFORMATION TO BE COLLECTED

LEA's, SEA's and Colleges and Universities (IHE's)

a. Institutional Characteristics—enrollment, area served, staff training and preparation, facilities and resources, and organization and management structure.
b. Planning and Evaluation Practices—data used, participants, included, techniques employed, alternatives considered, plans and reports completed.
c. Operations and Impacts—classes offered; participants serviced; cooperative linkages made; individual, institutional and community benefits derived.
d. Costs—federal, local, and other expenditures by program and budget categories.

School Administrators and Supervisors, Local Cooperating Institutions, State Institutions, Individuals, and Teachers

a. Description of project needs assessment and planning process—procedures and techniques used, role of advisory committees, persons and institutions included, agreements made.
b. Assessment of Implementation Process—appropriateness of services provided including mode of delivery, and accomplishment of service coordination and consolidation.
c. Assessment of program impacts—utility of services to participants, economies or efficiencies of services, alterations of decision-making processes, public support for the program and providing institution, provisions for continued local or institutional support after termination of federal funding.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY

Application for Advanced Institutional Development Program, Title III, Higher Education Act of 1965.

2. AGENCY/BUREAU/OFFICE

U.S. Office of Education, Bureau of Higher and Continuing Education, Division of Institutional Development.

3. AGENCY FORM NUMBER

OE 1049-1.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY

"Sec. 302(b). Any institution desiring special assistance under the provisions of this title shall submit an application for eligibility to the Commissioner at such time, in such form, and containing such information, as may be necessary to enable the Commissioner to evaluate the need of the applicant for such assistance and to determine its eligibility to be a developing institution for the purposes of this title." (Pub. L. 92-318, 20 U.S.C. 1052, as amended by Pub. L. 93-380.)

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE

Required to obtain benefits.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED

The Division will use the information in its grant award process, in order to determine (1) the eligibility and merits of an institution as an "advanced developing institution" for participation in the Title II program, HEA of 1965, as amended; (2) the requested projects that should be funded; and (3) the total amount of any grant that may be awarded, in keeping with the objectives and priorities of the Advanced Institutional Development Program.

7. DATA ACQUISITION PLAN

(a) Method of collection: Mail.
(b) Time of collection: Winter.
(c) Frequency: Annually.

8. RESPONDENTS

(a) Type: Colleges and Universities.
(b) Number: 100–150.
(c) Estimated average man-hours per respondent: 80.

9. INFORMATION TO BE COLLECTED

Part I: Standard Form 424, followed by OE Form 1049–1 in the following parts: Part II: Institutional Statistics, covering data over a five-year period on (1) income and expenditures; (2) student characteristics, enrollment, graduates continuing higher education, students receiving BEOG; (3) faculty and staff. Part III: Institutional Mission, dealing with constituency, community concerns, career opportunities for graduates, student characteristics and need for educational opportunities, present institutional mission in historical perspective, and means of assessing attainment. Part VI:Curriculum Data, including a description of the process of curriculum change, recent modifications and future projections. Part V: Institutional Planning, locus of responsibility and process of planning. Part VI: Program Narrative, stating goals, implementation strategies, action steps and gains to be realized in institutional development for each project proposed. Part VII: Replacement of Funds, showing source of continuing funding necessary for any activity extending beyond the expiration of AIDP funding. Part VIII: Budget Pages for each program component showing estimated costs of personnel, travel, equipment, supplies, contractual services and other items allocated to institutional and Federal contributions; Institutional Eligibility and Assurances, related to compliance with regulations and guidelines required for participation in Federal assistance to proposed projects.

Office of Education

ACTVITIES OF ADVISORY COMMITTEES

Public Availability of Reports of the Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. 1 (Supp. II 1972) and OMB Circular A–63 of March 27, 1974, those advisory committees of the Department of Health, Education, and Welfare which held closed or partially closed meetings in 1976 have prepared a report, contained within the Council's 1977 Annual Report, on the activities of these meetings. Copies of the report have been filed and are available for public inspection at the following locations:

Library of Congres, Exchange and Gift Division, Federal Advisory Committee Desk, Washington, D.C. 20540.

National Advisory Council on Indian Education, Room 326, Pennsylvania Bldg., 425 13th Street NW., Washington, D.C. 20004

Committee Management Staff, U.S. Office of Education, Room 2135, FOB 6, 400 Maryland Avenue SW., Washington, D.C. 20202.

The name of the subject committee is listed below:

National Advisory Council on Indian Education

STUART A. TONEMAH,
Executive Director, National Advisory Council on Indian Education.

[FR Doc. 77-23614 Filed 8-16-77;8:45 am]

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

Meeting

AGENCY: The National Advisory Council on Indian Education.

ACTION: Notice.

SUMMARY: The notice sets forth the schedule and proposed agenda of the forthcoming Full Council Meeting of the National Advisory Council on Indian Education. It also describes the functions of the Council. Notice of these meetings is required under the Federal Advisory Committee Act (5 U.S.C. Appendix 1, 10 (a)(2)). This document is intended to notify the general public of their opportunity to attend.

DATES: Full Council Meeting: September 17–18, 1977, 8:00 a.m. to 5:00 p.m., and September 19, 1977, 8:00 a.m. to 3:00 p.m.

ADDRESS: Hotel Adolphus, 1321 Commerce Street, Dallas, Tex.

FOR FURTHER INFORMATION CONTACT:

Stuart A. Tonemah, Executive Director, Office of the National Advisory Council on Indian Education, Suite 326, 425 13th Street NW., Washington, D.C. 20004, 202–376–8882.

V 42 159 AUG 17 77 UM

The National Advisory Council on Indian Education is established under Section 442 of the Indian Education Act, Title IV of Pub. L. 92-318, (20 U.S.C. 1221g).

The Council is directed to:

(1) Submit to the Commissioner of Education a list of nominees for the position of Deputy Commissioner of the Office of Indian Education/OE;

(2) Advise the Commissioner of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate from which they can benefit, including Title III of the Act of September 30, 1950 (Pub. L. 81-874) and Section 810, Title VIII of the Elementary and Secondary Education Act of 1965 (as added by Title IV of Pub. L. 92-318 and amended by Pub. L. 93-380), and with respect to adequate funding thereof;

(3) Review applications for assistance under Title III of the Act of September 30, 1950 (Pub. L. 81-874), Section 810 of Title VIII of the Elementary and Secondary Education Act of 1965 as amended and Section 314 of the Adult Education Act (as added by Title IV of Pub. L. 92-318), and make recommendations to the Commissioner with respect to their approval;

(4) Evaluate programs and projects carried out under any program of the Department of Health, Education, and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluations;

(5) Provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations to assist them in improving the education of Indian children;

(6) Assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants made under Section 303(b) of the Act of September 30, 1950 (Pub. L. 81-874) as added by Title IV, Part A, of Pub. L. 92-318; and

(7) Submit to the Congress not later than March 31 of each year a report on its activities, which shall include any recommendations it may deem necessary for the improvement of Federal education programs in which Indian children and adults participate or from which they can benefit, which report shall include a statement of the Council's recommendations to the Commissioner with respect to the funding of any such programs.

The meeting on September 17-19, 1977, will be open to the public. This meeting will be held at the Hotel Adolphus, Dallas, Tex.

The proposed agenda includes:

(1) Executive Director's Report.

(2) Action on previous meeting minutes.

(3) Committee reports and discussions.

(4) Review and approval of the NACIE fiscal year 1978 Budget.

(5) Special Reports.

(6) Approval of fiscal year 1978 meeting dates and sites.

(7) Plans for future NACIE activities.

(8) Regular Council Business.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on Indian Education, located at 425 13th Street NW., Suite 326, Washington, D.C. 20004.

Signed at Washington, D.C. on August 9, 1977.

STUART A. TONEMAH,
Executive Director, National Advisory Council on Indian Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-530]

ADMINISTERING TEMPORARY HOUSING PROGRAMS IN CERTAIN MAJOR DISASTER AREAS

Certain Determinations and a Redelegation of Authority

AGENCY: Federal Disaster Assistance Administration, HUD.

ACTION: Notice.

SUMMARY: This is a notice of certain determinations and a redelegation of authority to the Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housnig and Urban Development, relating to the administering of temporary housing programs under the provisions of Section 404(a), Pub. L. 93-288, in the major disaster in Pennsylvania (FDAA-537-DR).

Dated: July 27, 1977.

FOR FURTHER INFORMATION CONTACT:

Hugh Richardson, Individual Assistance Office, Federal Disaster Assistance Administration, Washington, D.C. 20410, 202-634-7860.

NOTICE: Pursuant to the authority vested in me to exercise certain of the powers and authorities of the President with respect to Federal disaster assistance pursuant to Section 1 of the Executive Order entitled, "Delegating Disaster Relief Functions Pursuant to the Disaster Relief Act of 1974" (EO 11795, 39 FR 25939, dated July 11, 1974), and the Delegation from the Secretary of Housing and Urban Development (39 FR 28227, dated August 5, 1974), I made the following determinations and redelegation of authority to the Assistant Secretary for Housing—Federal Housing Commissioner in administering the temporary housing programs under the provisions of Section 404(a), Pub. L. 93-288, in the major disaster in Pennsylvania, FDAA-537-DR:

1. On July 22, a redelegation of "the authority under Section 302 of the Act, specifically to direct the Corps of Engineers to perform work and services necessary to the accomplishment of the temporary housing assistance (mobile home group site development and the minimal repair program) authorized by the following Notice to Proceed: Disaster No. FDAA-537-DR, Pennsylvania, July 21, 1977. You may redelegate this authority to employees of the Department of Housing and Urban Development."

2. On July 25, a determination that "it is in the public interest to lease commercial mobile home sites at Federal expense, and to upgrade or install utilities on such sites at Federal expense; and install essential utilities on or develop group sites complete with essential utilities at Federal expense. Therefore, you are authorized to take the above actions, where required, in connection with the provision of government-owned mobile homes. However, it is understood that first priority will be given to utilizing private and commercial sites. Where feasible, group sites should be placed on publicly-owned lands prior to leasing or renting private lands."

3. Also on July 25, an "authorization to purchase mobile homes for the purpose of housing eligible disaster victims under Section 404 of the Disaster Relief Act of 1974, as necessary to accomplish the temporary housing mission in FDAA-537-DR Pennsylvania."

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

INTERAGENCY DROUGHT EMERGENCY COORDINATING COMMITTEE

Designation of Additional Emergency Drought Impact Areas

AGENCY: Federal Disaster Assistance Administration.

ACTION: Notice.

SUMMARY: This is a Notice of additional designation of Emergency Drought Impact Areas by the Interagency Drought Emergency Coordinating Committee of 1977.

DATED: July 27, 1977.

FOR FURTHER INFORMATION CONTACT:

Jack W. McGraw, Director, Preparedness Office, Federal Disaster Assistance Administration, Department of Housing and Urban Development, Washington, D.C. 20410, 202-634-7845.

Acting in concert with July 21, 1977, amendment to the March 2, 1977, notice of Emergency declared by the President for the State of Michigan, the Interagency Drought Emergency Coordinating Committee has designated the following additional counties as Emergency Drought Impact Areas:

Crawford	Roscommon

The designation of an Emergency Drought Impact Area does not confer entitlement to drought assistance. Individuals and communities must meet the separate eligibility requirements established by each agency before assistance may be provided.

Under the authority granted to the Administrator as Secretary to the Committee by the Memorandum of Agreement (42 FR 21855, April 29, 1977). I have provided this designation for the public record.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[FR Doc.77-23719 Filed 8-16-77;8:45 am]

[Docket No. NFD-524]

INTERAGENCY DROUGHT EMERGENCY COORDINATING COMMITTEE

Designation of Additional Emergency Drought Impact Areas

AGENCY: Federal Disaster Assistance Administration.

ACTION: Notice.

SUMMARY: This is a Notice of additional designation of Emergency Drought Impact Areas by the Interagency Drought Emergency Coordinating Committee of 1977.

DATED: August 3, 1977.

FOR FURTHER INFORMATION CONTACT:

Jack W. McGraw, Director, Preparedness Office, Federal Disaster Assistance Administration, Department of Housing and Urban Development, Washington, D.C. 20410, 202-634-7845.

Acting upon the request of the respective Governors, the Interagency Drought Emergency Coordinating Committee designated the following as Emergency Drought Impact Areas:

Georgia—14 Additional Counties

Bartow	Gilmer
Catoosa	Gordon
Dade	Haralson
Dawson	Lumpkin
Fanin	Paulding
Floyd	Pickens
Forsyth	Polk

ILLINOIS—THREE ADDITIONAL COUNTIES

Edwards	White
Wayne	

VIRGINIA—22 ADDITIONAL COUNTIES

Accomack	Middlesex
Charles City	New Kent
Essex	Northampton
Gloucester	Northumberland
Greensville	Prince George
Isle of Wight	Richmond
James City	Southampton
King and Queen	Surry
King William	Sussex
Lancaster	Westmoreland
Matthews	York

AND FOUR ADDITIONAL INDEPENDENT CITIES

Emporia	Hopewell
Franklin	Williamsburg

The designation of an Emergency Drought Impact Area does not confer entitlement to drought assistance. Individuals and communities must meet the separate eligibility requirements established by each agency before assistance may be provided.

Under the authority granted to the Administrator as Secretary to the Committee by the Memorandum of Agreement (42 F.R. 21855, April 29, 1977). I have provided this designation for the public record.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[Docket No. N-77-789]

ASTRO MANUFACTURING CO. ET AL.

Order and hearings; Correction

This notice is issued to correct the Notice of Hearing issued on July 18, 1977.

Pursuant to 42 U.S.C. 5414(e) and 24 CFR 3282.152(c), Notice is hereby given that:

1. Respondents above being subject to the provisions of the National Mobile Home Construction and Safety Standard Act of 1974 (Pub. L. 93-383, 42 U.S.C. 5401, et seq.) received a Notice of Preliminary Determination and Opportunity for Hearing issued June 10, 1977, which was sent to the Respondents pursuant to 42 U.S.C. 5414, 24 CFR 3282.151, 24 CFR 3282.407(b)(1), and 24 CFR 3282.408(b) informing the Respondents of information obtained from the Mobile Home Standards Division and from other sources from which the Secretary determined that a noncompliance as defined in 24 CFR 3282.7 may exist in certain mobile homes manufactured by Respondents.

2. Respondents filed Answers in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answers, Respondents requested a hearing on the allegations contained in the Notice of Preliminary Determination and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 42 U.S.C. 5414(e), 24 CFR 3282.-151 and 24 CFR 3282.152(g), It is Hereby Ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Preliminary Determination and Opportunity for Hearing will be held before Judge James W. Mast in room 7143, Department of HUD, 451 Seventh Street, SW., Washington, D.C. on August 22, 1977 at 10 a.m., and all inquiries concerning these proceedings should be directed to him.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, room 10278, Washington, D.C. 20410 on or before August 15, 1977. Copies of all documents filed should be served at the same time on all parties of record.

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 3282.152(c)(1).

Dated: July 25, 1977.

By the Secretary.

JAMES W. MAST,
Chief Administrative Law Judge.

DYSART RANCHETTES

Hearing

Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1720.165(b) Notice is hereby given that:

1. Dysart Ranchettes, Dysart Development Company, Inc. and Vern Wolfley, President, authorized agents and officers, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1710 et seq.) received a Notice of Proceedings and Opportunity for Hearing issued June 16, 1977, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Dysart Ranchettes, located in Maricopa County, Arizona, contain untrue statements of material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received July 19, 1977, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7143, Department of HUD, 451 Seventh Street, S.W. Washington, D.C. on September 8, 1977 at 2 p.m.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, Room 10278, Washington, D.C. 20410 on or before August 19, 1977. Copies of all documents filed should be served at the same time on all parties of record.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an ORDER Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: July 27, 1977.

JAMES W. MAST,
Chief, Administrative Law Judge.

[FR Doc.77-23709 Filed 8-16-77;8:45 am]

OAK CREST ESTATES

Hearing

Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1720.165(b) Notice is hereby given that:

1. Oak Crest Estates, Joe B. McMaster, President and Georgetown Builders, Inc., its officers and agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing dated June 16, 1977, which was sent to the developer pursuant to 15 U.S.C. 1706(b), 24 CFR 1710.45(a)(1) and 1720.120 based on information obtained by the Office of Interstate Land Sales Registration showing that the Statement of Record and Property Report for Oak Crest Estates, located in Williamson County, Texas, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received July 12, 1977, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7143, Department of HUD, 451 Seventh Street, S.W., Washington, D.C. on September 8, 1977 at 10 a.m.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, Room 10278, Washington, D.C. 20410 on or before August 8, 1977. Copies of all documents filed should be served at the same time on all parties of record.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: July 20, 1977.

JAMES W. MAST,
Chief, Administrative Law Judge.

PINEHURST

Hearing

Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1720.165(b) Notice is hereby given that:

1. Pinehurst, Pinehurst, Incorporated and Jack A. Furman, Vice President, authorized agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing dated June 3, 1977, which was sent to the developer pursuant to 15 U.S.C. 1706(b), 24 CFR 1710.45(a)(1) and 1720.120 based on information obtained by the Office of Interstate Land

Sales Registration showing that the Statement of Record and Property Report for Pinehurst, located in Moore County, North Carolina, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received June 23, 1977, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ORDERED that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7143, Department of HUD, 451 Seventh Street, SW., Washington, D.C. on August 30, 1977 at 10 a.m.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, Room 10278, Washington, D.C., 20410 on or before August 24, 1977. Copies of all documents filed should be served at the same time on all parties of record.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 4, 1977.

By the Secretary.

WOODBRIDGE

Hearing

Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1720.165(b) Notice is hereby given that:

1. Woodbridge, Hamrick Development, Inc. and James C. Hamrick, President, authorized agents, officers, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing dated July 8, 1977, which was sent to the developer pursuant to 15 U.S.C. 1706(b), 24 CFR 1710.45(a)(1) and 1720.120 based on information obtained by the Office of Interstate Land Sales Registration showing that the Statement of Record and Property Report for Woodbridge, located in Cleveland County, N.C., contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received July 26 and 28, 1977, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in room 7143, Department of HUD, 451 Seventh Street, SW., Washington, D.C. on September 13, 1977 at 10 a.m.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, room 10278, Washington, D.C., 20410 on or before August 30, 1977. Copies of all documents filed should be served at the same time on all parties of record.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an Order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: August 4, 1977.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CHIEF, BRANCH OF ADJUDICATION, DIVISION OF TECHNICAL SERVICES, COLORADO STATE OFFICE

Redelegation of Authority

1. Pursuant to authority contained in Sec. 1.1(a), Bureau Order No. 701 of July 23, 1964, as amended, I hereby redelegate to the Chief, Branch of Adjudication, in the Division of Technical Services, authority to take action on the following matters:

Sections 1.2 (b) and (c), 1.3(a), 1.5 (b) and (c), 1.6 (a) through (l), and 1.9 (a) through (f), (h) through (s), (u), (x), and (y) of Part I of the Bureau Order No. 701, supra.

2. The Chief, Branch of Adjudication, may redelegate any o fthe above authority to his subordinate Team Leaders. Any redelegation of the above authority must be approved by the State Director and published in the FEDERAL REGISTER.

3. The Chief, Branch of Adjudication, may, by written order, designate any qualified employee of the Branch to perform the functions of his position in his absence. Such order will be approved by the Chief, Division of Technical Services.

4. This redelegation of authority supercedes the redelegation to the Chief, Branch of Adjudication, published in the FEDERAL REGISTER March 21, 1977.

5. Effective date. This redelegation will become effective August 1, 1977.

DALE R. ANDRUS,
State Director.

Approved: August 9, 1977.

GEORGE L. TURCOTT,
Acting Director.

[M 15779]

MONTANA

Opportunity for Public Hearing and Republication of Notice of Proposed Withdrawal

AUGUST 9, 1977.

The Department of Transportation, Federal Aviation Administration, filed application, Serial No. M 15779, on June 1, 1970, for a withdrawal in relation to the following described lands:

PRINCIPAL MERIDIAN, MONTANA

T. 13 S., R. 5 E.,
Sec. 10, Lots 1, 2, 3, and 4, SE¼SE¼NW¼, E½NE¼SW¼, SW¼NE¼SW¼, E½SW¼SW¼, and SE¼SW¼;
Sec. 15, Lot 1, N½ Lot 2 (20 acres), SW¼ Lot 2 (10 acres), NW¼ Lot 3 (10 acres), and W½;
Sec. 16, E½SE¼NE¼, E½SE¼, and E½SW¼SE¼;
Sec. 21, E½, E½W½, and E½SW¼SW¼;
Sec. 22, SW¼ Lot 2 (10 acres), W½NE¼NW¼, W½NW¼, S½SE¼NW¼, and NW¼NW¼SW¼;
Sec. 28, NW¼NE¼NE¼, NW¼NE¼, N½SW¼NE¼, SW¼SW¼NE¼, NW¼, N½SW¼, SW¼SW¼, N½SE¼SW¼, SW¼SE¼SW¼, and NW¼NW¼SE¼;
Sec. 29, E½SE¼NE¼, E½SE¼, and E½SW¼SE¼;
Sec. 32, E½, E½SE¼NW¼, E½SW¼, SE¼NW¼SW¼, E½SW¼SW¼, and SW¼SW¼SW¼; and
Sec. 33, NW¼NE¼NW¼, NW¼NW¼, N½SW¼NW¼, SW¼SW¼NW¼, and NW¼NW¼SW¼.

T. 14 S., R. 5 E.,
Sec. 5, NE¼NE¼, W½NE¼, W½SE¼NE¼, and NW¼; and
Sec. 6, NE¼NE¼NE¼, S½NE¼NE¼, SE¼SW¼NE¼, and SE¼NE¼.

The areas described aggregate approximately 2,870 acres in Gallatin County.

The applicant desires that the land be reserved for the West Yellowstone Airport.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on June 17, 1970, Volume No. 35, Page No. 9935, Document No. 70-7521.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107, on or before September 19, 1977. Notice of the public hearing will be published in the FEDERAL REGISTER, giving the time and place of such hearing. The hearing will be scheduled and conducted in accordance with BLM Manual Sec. 2351.16 B. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before September 19, 1977.

The above-described lands are temporarily segregated from the operation of the public land laws, including the mining laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with section 204(g) of the Federal Land Policy and Management Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Department of the Interior, P.O. Box 30157, Billings, Montana 59107.

EDGAR D. STARK,
Acting Chief, Branch of Lands and Minerals Operation.

NEW MEXICO

Opportunity for Public Hearing and Republication of Notice of Proposed Withdrawal

AUGUST 9, 1977.

The Corps of Engineers, Department of the Army, filed application NM 21791 on May 9, 1974 for a withdrawal in relation to the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

A strip of land situate in the N½ of Section 8, Township 3 South, Range 7 West, of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 3942.41 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the north boundary of Section 8, Township 3 South, Range 7 West, N.M.P.M., that bears N. 89°52'41.5" E., a distance of 1469.56 feet from the section corner common to sections 5, 6, 7 and 8, Township 3 South, Range 7 West, N.M.P.M.;

Thence S. 65°07'24.1" E., a distance of 1636.56 feet to a point;

Thence S. 65°07'22.5" E., a distance of 1778.86 feet to a point;

Thence S. 65°07'24.6" E., a distance of 526.73 feet to a point on the north right-of-way line of old U.S. Highway No. 60, that bears S. 09°39'41.2" W., a distance of 1690.52 feet from the section corner common to section 4, 5, 8 and 9, Township 3 South, Range 7 West, N.M.P.M., Socorro County, New Mexico, containing an area of 53.42 acres, more or less.

A strip of land situate in the SE¼NE¼ of section 8 and the S½NW¼ and the S½ of section 9, Township 3 South, Range 7 West, of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 5968.09 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline and constructed on the ground:

Beginning at a point on the south right-of-way of old U.S. Highway No. 60, that bears S. 01°54'16.3" W., a distance of 1771.77 feet from the section corner common to sections 4, 5, 8 and 9, Township 3 South, Range 7 West, N.M.P.M.;

Thence S. 65°07'24.4" E., a distance of 73.48 feet to a point;

Thence S. 65°07'24.6" E., a distance of 2949.46 feet to a point;

Thence S. 65°07'26.9" E., a distance of 2945.16 feet to a point on the east boundary of section 9, Township 3 South, Range 7 West, N.M.P.M., Socorro County, New Mexico, containing an area of 82.21 acres, more or less.

A strip of land situate in the S½ of Section 10, S½ of section 13, section 14, N½ of section 15 and N½ of section 24, Township 3 South, Range 7 West and the NW diagonal ½ of section 19, Township 3 South, Range 6 West of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 20,490.96 feet long, and 600 feet wide, parallel to, 300 feet to the right of, and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the west boundary of section 10, Township 3 South, Range 7 West, N.M.P.M., that bears N. 0°10'09" W., a distance of 1003.91 feet from the section corner common to sections 9, 10, 15 and 16, Township 3 South, Range 7 West, N.M.P.M., Socorro County, New Mexico;

Thence S. 65°07'27" E., a distance of 1311.85 feet to a point;

Thence S. 65°07'28.7" E., a distance of 2007.53 feet to a point;

Thence S. 65°07'30.5" E., a distance of 1610.99 feet to a point;

Thence S. 65°07'31.7" E., a distance of 923.87 feet to a point;

Thence S. 65°07'31.5" E., a distance of 256.58 to a point;

Thence S. 65°07'31.8" E., a distance of 5123.47 feet to a point;

Thence S. 65°07'32.6" E., a distance of 4377.84 feet to a point;

Thence S. 65°07'35.2" E., a distance of 3276.69 feet to a point;

Thence S. 65°07'35.2" E., a distance of 1602.14 feet to a point that bears S. 41°58'46.1" W., a distance of 3369.43 feet from the section corner common to sections 17, 18, 19 and 20, Township 3 South, Range 6 West, N.M.P.M. Socorro County, New Mexico, containing an area of 282.25 acres, more or less.

A strip of land situate in the southeast diagonal ½ of section 19 and the S½ of section 20, Township 3 South, Range 6 West of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 6427.55 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point that bears S. 41°58'46.1" W., a distance of 3369.43 feet from the section corner common to sections 17, 18, 19 and 20, Township 3 South, Range 6 West, N.M.P.M., Socorro County, New Mexico;

Thence S. 65°07'37.9" E., a distance of 3012.21 feet to a point;

Thence S. 65°07'38.9" E., a distance of 3415.34 feet to a point on the south boundary of said section 20, that bears S. 88°56'01" W., a distance of 1645.60 feet from the section corner common to sections 20, 21, 28 and 29, Township 3 South, Range 6 West, N.M.P.M., Socorro County, New Mexico, containing an area of 88.53 acres, more or less.

Less and except New Mexico State Highway No. 52 as located across the SE¼ of section 20, Township 3 South, Range 6 West, N.M.P.M., Socorro County, New Mexico.

A strip of land situate in the W½NE¼ and the NW¼ of section 11, Township 3 South, Range 8 West of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 3488.72 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the north boundary of section 11, common to the south boundary of section 2, Township 3 South, Range 8 West, N.M.P.M., Socorro County, New Mexico, that bears N. 89°40'42.9" W., a distance of 2428.32 feet from the section corner common to sections 1, 2, 11 and 12, Township 3 South, Range 8 West, N.M.P.M., Socorro County, New Mexico;

Thence S. 55°52'40.7" W., a distance of 3488.72 feet to a point on the west boundary of said section 11, Township 3 South, Range 8 West, N.M.P.M., that bears S. 0°08'15.2" E., a distance of 1973.26 feet from the section corner common to sections 2, 3, 10 and 11, Township 3 South, Range 8 West, N.M.P.M., Socorro County, New Mexico, containing an area of 48.05 acres, more or less.

A strip of land situate in the SE¼SE¼SE¼ of section 9 and the S½NE¼ and the S½ of section 10, Township 3 South, Range 8 West of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 5939.48 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the east boundary of section 10, common to the west boundary of section 11, Township 3 South, Range 8 West, N.M.P.M., that bears S. 0°08'15.2" E., a distance of 1973.26 feet from the section corner common to sections 2, 3, 10 and 11, Township 3 South, Range 8, West, N.M.P.M., Socorro County, New Mexico;

Thence S. 55°52'41.8" W., a distance of 5939.48 feet to a point on the south boundary of said section 10, Township 3 South, Range 8 West, N.M.P.M., that bears S. 89°26'57.8" E., a distance of 371.44 feet from the section corner common to sections 9, 10, 15 and 16, Township 3 South, Range 8 West, N.M.P.M., Socorro County, New Mexico, containing an area of 81.81 acres, more or less.

Also a triangular tract or parcel of land situate in the NW¼NW¼ of section 15, Township 3 South, Range 8 West of the New Mexico Principal Meridian, Socorro County, New Mexico, being more particularly described by metes and bounds as follows:

Beginning at a point on the section corner common to sections 9, 10, 15 and 16, Township 3 South, Range 8 West, N.M.P.M., Socorro County, New Mexico;

Thence S. 89°26'57.8" E., along the north boundary of section 15, Township 3 South, Range 8 West, N.M.P.M, a distance of 898.80 feet to a point;

Thence S. 55°52'43.8" W., a distance of 1056.28 feet to a point on the west boundary of said section 15;

Thence N. 02°18'57" W., along the west boundary of said section 15, a distance of 601.65 feet to the original point of beginning, containing an area of 6.20 acres, more or less.

A strip of land situate in the E½ and SW¼ of section 19, Township 3 South, Range 8 West of the New Mexico Principal Meridian, Socorro County, New Mexico.

Said strip of land being 5560.56 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the east boundary of section 19, Township 3 South, Range 8 West, N.M.P.M., that bears N. 0°22'09" W., a distance of 3151.04 feet from the section corner common to sections 19, 20, 29 and 30, Township 3 South, Range 8 West, N.M.P.M.;

Thence S. 55°52'48" W., a distance of 3852.90 feet to a point;

Thence S. 55°52'49.9" W., a distance of 1707.66 feet to a point on the south boundary of section 19, Township 3 South, Range 8 West, N.M.P.M., which point bears S. 89°36'16.5" E., a distance of 741.97 feet from the section corner common to sections 19 and 30, Township 3 South, Range 8 West, and sections 24 and 25, Township 3 South, Range 9 West, N.M.P.M., Catron County, New Mexico, containing an area of 76.59 acres, more or less.

A strip of land situate in section 25, Township 3 South, Range 9 West of the New Mexico Principal Meridian, Catron County, New Mexico.

Said strip of land being 6374.96 feet long and 600 feet wide, parallel to, 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the east boundary of section 25, Township 3 South, Range 9 West, N.M.P.M., Catron County, New Mexico, that bears S. 0°23'58" E., a distance of 505.45 feet from the section corner common to section corner common to sections 19 and 30, Township 3 South, Range 8 West, Socorro County, and sections 24 and 25, Township 3 South, Range 9 West, N.M.P.M., Catron County, New Mexico.

Thence S. 55°52'60" W., a distance of 778.38 feet to a point;

Thence S. 59°52'51.5" W., a distance of 5596.58 feet to a point on the west boundary of said section 25, that bears N. 01°12'03" W., a distance of 1275.11 feet from the section corner common to sections 25, 26, 35 and 36, Township 3 South, Range 9 West, N.M.P.M., Catron County, New Mexico, containing an area of 87.81 acres, more or less.

A strip of land situate in the SE¼ of section 26, Township 3 South, Range 9 West of the New Mexico Principal Meridian, Catron County, New Mexico, containing an area of 2300.42 feet long and 600 feet wide, parallel to 300 feet to the right of and 300 feet to the left of, measured at right angles to the following described centerline as located and constructed on the ground:

Beginning at a point on the east boundary of section 26, Township 3 South, Range 9 West, N.M.P.M., that bears N. 01°12'03" W., a distance of 1275.11 feet from the section corner common to sections 25, 26, 35, 36, Township 3 South, Range 9 West, N.M.P.M., Catron County, New Mexico;

Thence S. 55°52'51.5" W., a distance of 78.15 feet to a point;

Thence S. 55°52'51.4" W., a distance of 2221.91 feet to a point on the south boundary of said section 26, that bears S. 89°32'23" W., a distance of 1931.24 feet from the section corner common to sections 25, 26, 35 and 36, Township 3 South, Range 9 West, N.M.P.M., Catron County, New Mexico, containing an area of 32.69 acres, more or less.

The areas described aggregate 839.56 acres, more or less, of land in Socorro and Catron Counties, New Mexico.

The applicant desires the lands for the construction, operation and maintenance of the Very Large Array Radio Telescope Project of the National Science Foundation.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on August 15, 1974, Volume 39, Number 159, pages 29393–29394; FR Doc. 74–18788.

Pursuant to Sec. 204(h) of the Federal Land Policy and Management Act of 1976, (90 Stat. 2754), notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 1449, Santa Fe, New Mexico 87501, on or before September 19, 1977. If a public hearing is scheduled, a notice will be published in the FEDERAL REGISTER giving the time and place of such hearing. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before September 19, 1977.

The above-described lands are temporarily segregated from the operation of the public land laws including the general mining and the mineral leasing laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with Section 204(g) of the Federal Land Policy and Management Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned, Bureau of Land Management, Depart-

OREGON

Motorized Vehicles on Public Lands, Restriction of Use

Notice is hereby given that use of motorized vehicles on certain Public Lands in the Honeycombs area is restricted in accordance with the provisions of 43 CFR Parts 6010.4. These restrictions do not apply to emergency, law enforcement, and Federal or other government vehicles while being used for official or emergency purposes.

The areas affected by this designation and restriction notice are located approximately thirty-two miles southwest of Homedale, Idaho. The legal description of the closed lands is:

WILLAMETTE MERIDIAN

Total acres: 11,932.5.

The use of these Public Lands by vehicles in the past have destroyed or severely damaged botanical, geological, zoological, wilderness and scenic values in the area. After consultation with various interest groups and individuals, a motorized vehicle restriction was determined to be necessary to protect the aforementioned values from further disturbance and destruction. The need for the vehicle restrictions were discussed at formal public meetings for the proposed Honeycombs Primitive Area and informally with various picture rock miners working near the area.

The restriction is effective immediately until February 5, 1979 or until the final regulations governing off-road vehicle use on Public Lands are published, thereby providing guidance for updated public input concerning permanent motorized vehicle restriction in the Honeycombs.

Maps showing the areas described above are available at the Bureau of Land Management, Vale District Office, 365 A Street West (P.O. Box 700), Vale, Oregon 97918.

Dated: August 5, 1977.

FEARL M. PARKER,
District Manager.

OUTER CONTINENTAL SHELF

Approval of Official Protraction Diagrams

1. Notice is hereby given that, effective with this publication, the following OCS Official Protraction Diagrams, approved on the dates indicated, are available for information only, in the Outer Continental Shelf Office, Bureau of Land Management, Anchorage, Alaska. In accordance with Title 43, Code of Federal Regulations, these protraction diagrams are the basic record for the description of mineral and oil and gas lease offers in the geographic area they represent.

OUTER CONTINENTAL SHELF PROTRACTION DIAGRAMS

Description	Approval date
NN 3-1 [illegible]	Feb. 18, 1977
NN 2-1, Okmok Canyon	Do.
NN 4-4, Shumagin Bank	Do.
NP 2-6	Mar. 7, 1977

2. Copies of these diagrams are for sale at two dollars ($2.00) per sheet by the Manager, Outer Continental Shelf Office, Bureau of Land Management, P.O. Box 1159, Anchorage, Alaska 99510. The street address is 800 A Street, Anchorage, Alaska. Checks or Money Orders should be made payable to the Bureau of Land Management.

EDWARD J. HOFFMANN,
Manager, Alaska Outer Continental Shelf Office.

[Wyoming 50316]

WYOMING

Notice of Application

AUGUST 9, 1977.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Cities Service Gas Company of Oklahoma City, Oklahoma filed an application for a right-of-way to construct a 4 inch pipeline for the purpose of transporting natural gas across the following described public lands.

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 21 N., R. 94 W.,
Sec. 4, $SW\frac{1}{4}NE\frac{1}{4}$, $SE\frac{1}{4}NW\frac{1}{4}$, $N\frac{1}{2}SE\frac{1}{4}$.

The pipeline will transport natural gas from a point in section 4, T. 21 N., R. 94 W. to present facilities in Section 3, T. 21 N., R. 94 W., in Sweetwater County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Rawlins District Office, 1300 Third Street, P.O. Box 670, Rawlins, Wyo. 82301.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Regional Director, Region 1, U.S. Fish and Wildlife Service, P.O. Box 3737, Portland, Oreg. 97208.

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE

FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION

OMB NO. 42-R-670

1. APPLICATION FOR (Indicate one): ☐ IMPORT OR EXPORT LICENSE ☒ PERMIT

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED:
Live trap, mark and release endangered salt marsh harvest mice (Reithrodontomys raviventris) for scientific purposes.

3. APPLICANT. (Name, complete address and phone number of individual, business, agency, or institution for which permit is requested)
Regional Director
U. S. Fish & Wildlife Service
Post Office Box 3737
Portland, OR 97208
503-234-3361 Ext. 4050
FTS: 429-4050

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
☐ MR. ☐ MRS. ☐ MISS ☐ MS.
HEIGHT / WEIGHT
DATE OF BIRTH / COLOR HAIR / COLOR EYES
PHONE NUMBER WHERE EMPLOYED / SOCIAL SECURITY NUMBER
OCCUPATION
ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT

5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION
U.S. Dept. of the Interior
Fish & Wildlife Service
NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC.
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
San Francisco Bay and San Pablo Bay area, California

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☐ YES ☒ NO
(If yes, list license or permit numbers)
PRT-8-7-C Expired 12/31/76

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☒ YES ☐ NO
(If yes, list jurisdictions and type of document(s))
State of California Cooperative Agreement 6/23/76

9. CERTIFIED CHECK OR MONEY ORDER (If applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF: $

10. DESIRED EFFECTIVE DATE: ASAP

11. DURATION NEEDED: 2 Years

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 CFR 13.12(a)) MUST BE ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.
Section 17.22

CERTIFICATION

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

ATTACHMENT 2

12. PART 17, TITLE 50, CODE OF FEDERAL REGULATIONS

Section 17.22

(1) The activities sought to be authorized are live trapping and marking with ear tags of salt marsh harvest mice, *Reithrodontomys raviventris raviventris*, and *R. r. halicoetes*.

(2) The salt marsh harvest mice are to be trapped from and released to the wild.

(3) The mice are trapped using Sherman aluminum live traps, 3" x 3" x 9". Traps are placed above the level of high tide to reduce the chance of drowning captured mice. Traps are baited with rolled oats and peanut butter and supplied with cotton for nesting material. Traps are set before dusk and checked the next morning. Captured mice are marked with consecutively numbered fingerling tags crimped on the left ear. Body, tail and hind foot length are measured and each mouse is released at its capture site.

(4) Not applicable.

(5) Not applicable.

(6) Not applicable.

(7) One cooperator who has trapped on the San Francisco Bay National Wildlife Refuge is Dr. Howard Shellhammer of San Jose State University. An outline of his study is attached (Attachment 3).

(8) A summary of completed and ongoing studies of the salt marsh harvest mouse was submitted to the Wildlife Permit Office in January 1977. We are currently in Phase II of a study to determine the status and distribution of salt marsh harvest mice around San Francisco Bay and San Pablo Bay (outline attached—Attachment 4). Census of mice will be by live trapping, marking and releasing. No animals will be collected or removed from their original location, and extreme care will be exercised to assure that no significant impact on individual animals or on the species occurs.

The results of this study are essential for the determination of critical habitat and the proper management of lands included in the San Francisco Bay and San Pablo Bay National Wildlife Refuges which provide habitat for this species.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-1229-07; please refer to this number when submitting comments. All relevant comments received on or before September 16, 1977 will be considered.

Dated: August 12, 1977.

DONALD G. DONAHOO,

ENDANGERED SPECIES PERMIT

Application

Notice is hereby given that the following application for a permit is deemed

to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Willard A. Minnick, Wildlife Research and Breeding Center, 5119 Ridgelane Drive, Ft. Wayne, Ind. 46804.

OMB NO. 42-R1572

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE
FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION

1. APPLICATION FOR (Indicate only one)
☐ IMPORT OR EXPORT LICENSE ☒ PERMIT

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED.
Captive Propogation : see attached brochure
Also scientific & educational purposes: see attached brochure

3. APPLICANT. (Name, complete address and phone number of individual, business, agency, or institution for which permit is requested)
Willard A. Minnick
Wildlife Research & Breeding Center
5119 Ridgelane Drive
Ft. Wayne, Ind. 46804
(219) 432-5081

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
☒ MR. ☐ MRS. ☐ MISS ☐ MS.
HEIGHT: 5' 10" WEIGHT: 200 lbs
DATE OF BIRTH: 9/9/43 COLOR HAIR: Brown COLOR EYES: Brown
PHONE NUMBER WHERE EMPLOYED: (219) 432-5081 SOCIAL SECURITY NUMBER: 311-44-5775
OCCUPATION: Director Wildlife Research Center
ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT: See box # 3

5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION: Scientific, educational, propogational research : see attached brochure
NAME, TITLE, AND PHONE NUMBER OF PRINCIPAL OFFICER, DIRECTOR, ETC.: See box # 3 & #4
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED: Unincorporated association Indiana

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED: See Box #3

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☐ YES ☒ NO
(If yes, list license or permit numbers)

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☒ YES ☐ NO
(If yes, list jurisdictions and type of document(s)): Export permits Pakistan, India, Costa Rica

9. CERTIFIED CHECK OR MONEY ORDER (if applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF: $

10. DESIRED EFFECTIVE DATE: June 1, 1977

11. DURATION NEEDED:

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED IS IN 50 CFR [illegible] ATTACHED, IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.

(6-74)

MARCH 24, 1977.

ATTACHMENT TO FORM 3-200

POINTS LISTED 17.22

1 Indian Pythons *Python m. molurus* 5 young females Importing for captive propagation

2. Captive born specimens: Adults in captivity 1973

3 Animals are captive born

4. Parents taken in Pakistan and have bred in captivity while in possession of Arif Majid, Karachi

5 See circled address at left margin.

6. (i) Wooden & glass cages 8' x 8' x 6' of standard type accepted by all zoos, museums and private collectors

(ii) 20 years experience breeding reptiles, Pictures included in previous letter in file No —. See attached Brochure: Pythons hatching out as I write this letter.

(iii) I agree to participate in a cooperative program of breeding and maintain or contribute to a studbook.

(v) Animals will be shipped in standard containers accepted by airlines for international travel. All legal and humane requirements will be observed.

(v) During the past 5 years we have maintained Python m. bivatatius, Python m. pimbeura & Python m. molurus. 1972: received babies of each of the above (one pair of each.) See attachment *II*. All these within brackets are the result of captive breeding with no mortalities. 2 deaths of pythons since 1972 due to natural causes as confirmed by Purdue diagnostic lab. Copy of report available if required. Only other deaths are 10 to 20% mortality on eggs.

7. See attachment.

8. (i) Importation of specimens, interstate transport of captive born to qualified zoos, institutions, and individuals.

(i) Captive propagation. Anmals will be offered to zoos through A.A.Z.P.A.

(iii) Endangered species are in danger of extinction. I have submitted proof in the form of pictures and statements that I am capable of propagating pythons of the genus Python molurus in captivity. The small molurus which I have were born here. I have a large male and would prefer several females to produce immediately. Upon the hatching of molurus eggs I will make available to any legal organization holding permits from you, pairs of this endangered species. I will also make available to the governments of Pakistan and India these snakes subject to your offices approval and subject to protected areas in these countries where these reptiles have a chance for survival. See brochure for more detailed reasons and objectives.

(iv) See above. Summary of 17.22. I am a capable individual who heads a widely known organization (non-profit). I wish to import captive born Python molurus for captive propagation. I have submitted proof that these animals have a 99% chance of surviving, breeding and maintain the species. I will act with more care and concern and will maintain the animals under standards higher than most recognized institutions. (17.23—See attachments—Summary 17.23.)

Paid for Python m. molurus in 1973. Was told by Baysinger they could not be imported. This was cleared up by a letter from Bavin (May 1974). Shipper had died, no refund available. Found another shipper and ordered (sent payment $375.00) summer 1975. Your office again prohibited importation. Given go-ahead for importation June 1976. Simms (in your office) said no at last minute. Python m. molurus then placed on endangered species list. No refund available, animals in captivity long before Endangered.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-821-C07; please refer to this number when submitting comments. All relevant comments received on or before September 16, 1977 will be considered.

Dated: August 12, 1977.

DONALD G. DONAHOO,
Chief, Permit Branch, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service.

EXHIBIT "A"

The following information is submitted in accordance with Section 17.22(a) of Title 50, Chapter I, Subchapter B, Part 17 of the Code of Federal Regulations:

(1) The Applicant seeks a permit to purchase and import two sub-adult, domestic Bactrian camels (*Camelus bactrianus bactrianus*)—one male and one female.

(2) The male Bactrian camel was born in the Spring of 1974 and the female Bactrian camel was born in the Spring of 1975 at African Lion Safari, Rockton, Ontario, Canada L0R1X0.

(3) The Applicant proposes to purchase both Bactrian camels from African Lion Safari where they were born. No wild caught animals will be involved in the proposed transaction since the subject camels are captive bred and captive born from an established group of domestic Bactrian camels.

(4) See item (2) above.

(5) The Applicant's principal activity is the presentation of Ringling Bros. and Barnum & Bailey Circus. Its main office is at 1015 18th Street, N.W., Washington, D.C. It has two traveling units which present circus productions at various places throughout the United States and Canada. The Applicant maintains a winter quarters facility in Venice, Florida where each of the traveling units returns each year during the offseason and for rehearsals. It is anticipated that the camels described in this application will be maintained, exhibited and bred on one of the Applicant's traveling units.

(6) (i) The subject camels will always have adequate but varying degrees of space utilization depending on location. While at the Applicant's winter quarters facility, they will be kept in the present outside camel enclosure which is approximately 100 feet wide by 175 feet long. There are permanent inside and outside water troughs. There is also an adjoining pasture of several acres which has been utilized for parturition and raising young to weaning.

(ii) Since the 1870's, the Applicant and its predecessors have kept and maintained several members of the Family Camelidae and have successfully bred Bactrian and Dromedary camels as well as llamas. The Applicant presently maintains a breeding herd of Dromedary camels.

The professional animal staff employed by the Applicant will care for the camels that are the subject of the present application. This includes a staff veterinarian, paraveterinarian and a number of animal trainers and handlers with cumulative experience in handling and maintaining camels in excess of 200 years. In addition, the Applicant employs a Veterinary Consultant who has been responsible for obtaining, managing and raising domestic Bactrian camels at a major zoological park in the United States. The group of Bactrian camels for which the Veterinary Consultant has responsibility is presently one of only two viable breeding groups in the United States. A female calf was born in this group in February 1977 and another birth is expected soon.

(iii) The Applicant is willing to participate in cooperative breeding programs and to maintain or contribute data to an appropriate studbook.

(iv) The two camels that are the subject of the present application will be transported from African Lion Safari to the Applicant in a livestock trailer in a compartment which is at least seven feet wide by ten feet long by nine feet high. The floor will have an adequate amount of straw or hay for bedding. The trailer has sufficient ventilation for the animals and protection in the event of severe weather conditions in transit. The Applicant, its predecessors and its current staff have had extensive experience in transporting animals of this type.

(v) During the past five years, the Applicant has experienced one mortality in its camel population. In January 1974, a 10-year-old female Dromedary camel died of hypovolemic shock secondary to hemorrhage resulting from an extensive uterine prolapse incurred during parturition.

(7) A copy of the agreement pursuant to which the purchase and import of the two Bactrian camels would be accomplished is attached hereto.

(8) The exhibition of animals is an integral part of the presentation of the Applicant's Circus and has been throughout its 107-year history. In fact, in its early days, the Applicant probably had the largest display of animals in the United States. Today, the Applicant and its subsidiaries maintain an animal inventory of some 350 mammal specimens of over 24 species. The Applicant has had an excellent breeding record with the rare species it exhibits and maintains and is sincerely concerned and deeply involved in the conservation of endangered and threatened species.

The Applicant desires to become self-sufficient, to the extent possible, with respect to the animals it exhibits, especially those that are endangered or threatened. The Applicant, therefore, desires to obtain breeding stock of those species with respect to which its inventory is currently insufficient.

It is furtherence of this objective of propagation that the Applicant desires to obtain the two Bactrian camels that are the subject of this application. These camels will be given adequate opportunity to engage in social and other behavior necessary for reproduction; and under the supervision and care of its experienced professional staff, the Applicant believes that they will in fact reproduce. Our record in breeding animals supports this belief. The Applicant will keep and maintain the offspring for further breeding and exhibition; and any camels that are surplus to the Applicant's needs will be made available to respected, accredited organizations which have experienced staffs and which share the Applicant's goals. The placement of any surplus animals will be made

V42 1159 AUG 17 77 UM

with the intent of establishing a captive self-sustaining population of this species.

The Applicant's Circus plays a unique role in the education of millions of persons as to the need to preserve and protect the survival of endangered species such as these Bactrian camels. The Circus appears annually in approximately 85 cities and towns throughout the United States and Canada, many of which do not have zoos or other animal parks. Last year it played to over 6 million people. Because of the diversity of the Circus program, it also attracts many persons who might not otherwise visit zoos and animal parks in or near their communities. Thus, for millions of children and adults alike, their experience of seeing and enjoying these camels and other species of wildlife at the Circus is the only means by which they may gain an appreciation for such wildlife. Development of public awareness and appreciation for wildlife is a vital step in the process of protecting endangered species. Thus, in addition to enhancing propagation, the Applicant believes that its ownership and exhibition of these Bactrian camels will enhance the survival of this species.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in room 512, 1717 H Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-956-07; please refer to this number when submitting comments. All relevant comments received on or before September 16, 1977 will be considered.

Dated: August 12, 1977.

[FR Doc.77-23749 Filed 8-16-77;8:45 am]

Supplemental information to permit application is required under Chapter 1 - United States Fish, Wildlife Service, Part 17 - Endangered and Threatened Wildlife and Plants, Subpart C - Endangered Wildlife, Section 17.22 - Permits for scientific purposes, or for the enhancement or propagation or survivial.

Section 17.22

(a) Application enclosed

(1) Interstate sale and purchase of captive reared available species of pheasants for propagation.

(2) Species covered to be hatched and reared in captivity from captive breeding stock.

(3) Species covered to be purchased from pheasant breeders.

(4) Within the boundaries of the United States.

(5) Acreage located on Yaquina Bay, Oregon. Star Route East, Box 112, Newport, Oregon 97365

(6) Live wildlife to be covered by permit.

(i) Photos enclosed.

(ii) Twelve years experience in breeding captive pheasant, quail and partridge, other than those on endangered species list. Bachelor of Science Degree from Oregon State University in Fish and Wildlife Management.

(iii) Breeding data requested will be provided. Participation in a cooperative breeding program would depend on specific details.

(iv) Commercial containers designed for pheasants will be used in transporting specimens.

(v) No mortalities of species covered by the requested permit have occurred.

(7) No contracts or agreements are in effect.

(8) Justification of the permit includes:

(i) Interstate purchase and sale of endangered species of pheasants for controlled breeding of the species.

(ii) In efficiently designed enclosures for the species involved and personally attended by the applicant.

(iii) To propagate the species for continued survival.

(iv) If termination of the activity occurs, the permit would allow the interstate sale and shipment of the covered species to other breeders involved in promoting their survival.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in room 512, 1717 H Street, NW., Washington, D.C.

GPO 930-042

Common name - White-eared Pheasant
Scientific name - Crossoptilon crossoptilon
Born and raised in Devlin, Ontario, Canada
Ancestors from Tibet. Mr. Schuiteman received his pair from Jersey, Channel Island, Trust.

The entire species is an endangered species throughout the world. Am applying for a permit to get 2 White-eared pheasant. One female - One male ages of 1 year old. These pheasants were born and raised in Devlin, Ontario, Canada by Jack Schuiteman.

I want to breed and raise them for my own interest in wildlife.

Have been a farmer, born and raised on a farm, all my life. Have raised many different types of tame and wild chickens, ducks, turkeys geese. More so in the last three years, when I started the game farm as a hobby, am building it up to have for any retirement.

Am very willing to participate in cooperative breeding programs or contribute data to a stud book.

Jack Schuiteman has shipped birds many times before and is taking care of this. It will be done as requirements are set.

The reason for wanting a permit for the pheasants is simply the desire to raise different types of pheasants in this area.

Plan to have the pheasants live in as natural a habitat as possible to live as much like they would if in the wild.

Three acres in open to public to stop and look at the birds and animals. It gives the people - and children - more interest in wildlife. Which will pay off in the future in our care of wildlife.

The birds will be transfered to another game farm upon my death.

The building for the pheasants is a wood frame steel insulated heated building with a cement floor - 14 feet by 20 feet. The run is 14 feet by 16 feet mesh floor and sides.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in room 512, 1717 H Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-1069-25; please refer to this number when submitting comments. All relevant comments received on or before September 16, 1977 will be considered.

Dated: August 12, 1977.

DONALD G. DONAHOO,
Chief, Permit Branch, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service.

[FR Doc.77-23750 Filed 8-16-77;8:45 am]

ATTACHMENTS

(1) Pheasants: Brown Eared (Crossoptilon Mantchuricum)
Eduard's (Lophura Edwarsi)
Bartailed (Symaticus Humiae)
Mikado (Symaticus Mikado)
Palawan Peacock (Polyplectron Emphanum)
Swinhoe's (Lophura Swinhoii)

I seek a CSSP Permit to allow me to buy and sell the above listed pheasants in interstate commerce.

(2) My birds are kept in pens 24' long 8'6" wide and 6'4" high. Boards with preservative impregnation are buried 1' in the ground on all 4 sides, with an additional 1' of heavy gauge hog wire below that. The fronts and sides are boards up to 2'. The last 4' of each pen is an open fronted shelter. The remainder of the pens are covered with 1" mesh galvinized wire on 4" x 4" upright and 2" x 4" cross member frames. The pens number 21 in rows of 7. Rare and endangered species are kept in center pens with more common species kept in the outside pens. The entire pen area is surrounded with a 4' wide 6'4" high alley with alleys between rows of pens. This offers added safety and reduces disturbances to the birds. See attached sheet for diagram.

(3) I have 7 years experience raising various pheasants and other birds. My son has 3 years experience in assisting me caring for the birds.

(4) I am most willing to participate in a cooperative breeding program and will maintain a stud book. I will promptly contribute data whenever requested.

(5) Birds will be shipped in containers 14" high 15" wide and 21" long. The containers are constructed of wood slats reinforced with wire and have padded tops. Adequate food and water provided and they will have room to turn around and move around a bit while in transit. The containers are painted a bright color with the words "LIVE BIRDS" in large black letters on all sides and the top.

ATTACHMENTS CONT'D

(6) I have had no mortalities in the past 5 years.

(7) In view of the facts presented in preceding paragraphs I feel I am competent and qualified to receive a CSSP Permit.

(i) I seek the CSSP Permit to allow me to buy and to sell the birds listed in paragraph (1) in interstate commerce.

(ii) At such unforseen time as I must terminate the activities sought I will dispose of my birds by selling them or giving them to qualified aviculturist interested in the bird's welfare and their continued propagation.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in room 512, 1717 H Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-1219-25; please refer to this number when submitting comments. All relevant comments received on or before September 16, 1977 will be considered.

Dated: August 12, 1977.

DONALD G. DONAHOO,

CUMBERLAND ISLAND NATIONAL SEASHORE, GEORGIA

Availability of Draft Environmental Statement on Proposed General Management Plan and Wilderness Study

Pursuant to Section 102(2) (C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Draft Environmental Statement on the proposed General Management Plan and Wilderness Study for Cumberland Island National Seashore.

The statement discusses proposals for the management, development and operation of Cumberland Island National Seashore.

Written comments on the Environmental Statement are invited and will be accepted for a period of 45 days following publication of this notice. Comments should be addressed to the Regional Director, Southeast Region, or the Superintendent, Cumberland Island National Seashore, at the addresses given below.

Copies are available from or for inspection at the following locations:

Southeast Regional Office, National Park Service, 1895 Phoenix Boluevard, Atlanta, Georgia 30349.
Superintendent, Fort Frederica National Monument, Route 4, Box 286-C, St. Simons, Georgia 31522.
Superintendent, Cumberland Island National Seashore, P.O. Box 806, St. Marys, Georgia 31558.

The U.S. Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Dated: August 11, 1977.

LARRY E. MEIEROTTO,
Secretary of the Interior.

CUMBERLAND ISLAND NATIONAL SEASHORE, GEORGIA, WILDERNESS STUDY

Public Meetings, Public Hearings and Proposed General Management Plan

As part of the National Park Service's program for public participation in planning, public meetings to consider the material in the draft general management plan will be held at the following locations and times:

September 24, 1977, at 2 p.m., Camden County High School, St. Marys, Ga.

September 26, 1977, at 8 p.m., Fourth Floor, Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Ga.

Notice is hereby given in accordance with section 9 of the Act of October 23, 1972 (86 Stat. 1068 (16 U.S.C. 4591 et seq.)), and in accordance with Departmental procedures as identified in 43 CFR 19.5 that public hearings will be held at the following locations and times for the purpose of receiving comments and suggestions as to the appropriateness of a proposal for the establishment of wilderness comprising about 8,851.38 acres within the Cumberland Island National Seashore, Ga.:

September 24, 1977, at 7 p.m., Camden County High School, St. Marys, Ga.

September 27, 1977, at 8 p.m., Fourth Floor, Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Ga.

A preliminary wilderness study report, accompanied by a related draft general management plan and draft environmental impact statement, are available for inspection at the locations noted below. A limited number of these documents may be obtained by directing requests to the Superintendent, Cumberland Island National Seashore, P.O. Box 806, St. Marys, Georgia 31558.

A description of the preliminary boundaries and a map of the areas proposed for establishment as wilderness are available for review at the locations noted below and in Room 1210 of the Department of the Interior Building at 18th and C Streets, NW., Washington, D.C.

Interested individuals, representatives of organizations and public officials are invited to express their views in person at the aforementioned public hearings, provided they notify the Hearing Officer, in care of the Superintendent, Cumberland Island National Seashore, P.O. Box 806, St. Marys, Georgia 31558, by September 22, 1977, of their desire to appear. Those not wishing to appear in person may submit written statements on the wilderness proposal to the Hearing Officer at that address for inclusion in the official record which will be held open for written statements until October 27, 1977.

Time limitations may make it necessary to limit the length of oral presentations and to restrict to one person the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement.

Written statements presented in person at the hearings will be considered for inclusion in the transcribed hearing record. However, all materials so presented at the hearing shall be subject to determinations that they are appropriate for inclusion in the transcribed hearing record. To the extent that time is available after presentation of oral statements by those who have given the required advance notice, the Hearing Officer will give others present an opportunity to be heard.

After an explanation of the proposal by a representative of the National Park Service, the Hearing Officer, insofar as possible, will adhere to the following order in calling for the presentation of oral statements:

(1) Governor of the State or his representative;
(2) Members of Congress;
(3) Members of the State Legislature;
(4) Official representative of the counties in which the proposed wilderness is located;
(5) Officials of other Federal Agencies or public bodies;
(6) Organizations in alphabetical order
(7) Individuals in alphabetical order;
(8) Others not giving advance notice, to the extent there is remaining time.

Locations where the preliminary wilderness study report, the draft general management plan, the related draft environmental impact statement (and the attendant description of the preliminary wilderness boundaries and a map of the areas proposed for establishment as wilderness) are available for review:

Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Ga. 30349.
Superintendent, Fort Frederica National Monument, Route 4, Box 286-C, St. Simons, Ga. 31522.
Superintendent, Cumberland Island National Seashore, P.O. Box 806, St. Marys, Ga. 31558.

The U.S. Department of the Interior has determined that these documents do not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11959, and OMB Circular A-107.

Dated: August 9, 1977.

WILLIAM J. WHALEN,
Director, National Park Service.

MASTER PLAN, OLYMPIC NATIONAL PARK, WASHINGTON

Availability of Supplement to Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a supplement to the final environmental statement for the master plan, Olympic National Park, Washington.

The supplement presents additional information on two proposals in the master plan, addition of Point of the Arches area to the park and deletion of lands at La Push from the park. Addition of the shore of Ozette Lake to the park, which was included in Pub. L. 94-578, is considered.

Copies of the statement are available from, or for inspection at, the following locations:

Pacific Northwest Region, National Park Service, Fourth and Pike Building, Seattle, Wash. 98101.
Superintendent, Olympic National Park, 600 East Park Avenue, Port Angeles, Wash. 98362.
National Park Service Information Office, Multnomah Building, 319 Southwest Pine, Portland, Oreg. 97204.

Dated: August 11, 1977.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

GAS GUZZLER TAX PROPOSAL

Investigation

Investigation instituted. In response to a request dated August 2, 1977, by the Committee on Finance of the United States Senate, the United States International Trade Commission, pursuant to section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)), has instituted an investigation to analyze the impact of the Gas Guzzler Tax (subpart A, part 11, title II, of H.R. 6831, as reported by the House Committee on Ways and Means). The Commission's analysis will compare the impact of this proposal with that of the President's Fuel Efficiency Incentive Tax Proposal, which was the subject of a separate Commission investigation (332-86) and report to the Committee on Finance, transmitted on July 15, 1977.

Interested persons are urged to submit written statements relative to the investigation on or before August 19, 1977. No public hearing will be held in connection with this investigation. The Commission's report will be submitted to the Committee on Finance no later than September 2, 1977.

All statements and correspondence relating to this investigation should be addressed to the Secretary, U.S. International Trade Commission, Washington, D.C. 20436.

By order of the Commission.

Issued: August 12, 1977.

KENNETH R. MASON,
Secretary.

DEPARTMENT OF JUSTICE

Office of Attorney General

FONTANA STEEL MILL, KAISER STEEL CORP.

Proposed Consent Decree Amending Consent Decree Entered April 26, 1976 (Clean Air Act)

In accordance with Departmental Policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that on August 1, 1977, a proposed amended consent decree in *United States* v. *Kaiser Steel Corporation*, No. CV 76-0675 MML, was lodged with the United States District Court for the Central District of California. The proposed amended decree would require the Company to meet a detailed timetable to bring its various operations into compliance with the applicable air pollution control regulations, with liquidated damages if certain deadlines are missed; to spend sums of money above what was required by the original decree; and to pay to the United States $1 million.

The Department of Justice will receive for a period of thirty (30) days from the date of this notice written comments relating to the proposed amended consent decree. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States* v. *Kaiser Steel Corporation*, D.J. Ref. 90-5-2-1-24.

The proposed amended consent decree may be examined at the office of the United States Attorney, room 1123, United States Court House, 312 North Spring Street, Los Angeles, Calif. 90012, at the Region IX office of the Environmental Protection Agency, Enforcement Division, San Francisco, Calif. 94111, and at the Pollution Control Section, Land and Natural Resources Division, Department of Justice, room 2625, Ninth Street and Pennsylvania Avenue NW., Washington, D.C. 20530. A copy of the proposed amended consent decree may be obtained in person or by mail from the Pollution Control Section, Land and Natural Resources Division, Department of Justice. In requesting a copy, please enclose a check in the amount of $1.90 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

JAMES W. MOORMAN,
Acting Assistant Attorney General Land and Natural Resources Division.

[FR Doc.77-23636 Filed 8-16-77;8:45 am]

PROPOSED CONSENT JUDGMENT IN ACTION TO ENJOIN DISCHARGES OF POLLUTANTS

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19020, notice is hereby given that on or about August 5, 1977, a proposed consent order in *United States of America* v. *City of Springfield*, No. S-CIV-76-0141 (S.D. Ill., S. Div.) was lodged with the United States District Court in Springfield, Ill. The proposed consent order requires the City to operate its Dallman Generating Station, Unit #3, a fossil fuel-fired steam generating unit, in compliance with the Standards of Performance for New Stationary Sources, 40 CFR Part 60. The proposed consent order requires the City to install flue gas desulfurization equipment of sufficient design capability to meet said standards and thereby to achieve compliance with said standards not later than October 1, 1980, unless the City earlier chooses to comply with said standards by burning low sulfur coal, or by other means.

The Department of Justice will receive written comments relating to the proposed consent order for thirty days from the date of publication of this notice. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530 and should refer to *United States of America* v. *City of Springfield*, D.J. Ref. 90-5-2-1-46.

The proposed consent order may be examined at the office of the United States Attorney, P.O. Box 375, Springfield, Ill. 62705; at the office of the Clerk of the District Court Southern District of Illinois, Southern Division, Springfield, Ill.; at the office of the Environmental Protection Agency, Region V, Enforcement Division, 230 South Dearborn Street, Chicago, Ill., and at the office of the Pollution Control Section, Land and Natural Resources Division, room 2625, Department of Justice Building, Ninth Street and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the proposed consent order may be obtained in person or by mail from the Pollution Control Section. In requesting a copy by mail, please enclose a check in the amount of $.60 (ten cents per page reproduction charge) payable to the Treasurer of the United States.

JAMES W. MOORMAN,
Acting Assistant Attorney General, Land and Natural Resources Division.

Law Enforcement Assistance Administration

NATIONAL ADVISORY COMMITTEE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION

Meeting

Notice is hereby given that the National Advisory Committee for Juvenile Justice and Delinquency Prevention (the Committee) will meet Wednesday, August 31, 1977, Thursday and Friday, September 1 and 2, 1977, at the Monteleone Hotel, 214 Royale Street, New Orleans, Louisiana.

On Wednesday, August 31, the full Committee is scheduled to convene at 9 a.m. The session will include a report by the Assistant Administrator of the Office of Juvenile Justice and Delinquency Prevention (the Office), on (1) extension of the Juvenile Justice and Delinquency Prevention Act of 1974; (2) the report of the Department of Justice Study Group; and (3) program plans for the Office.

Following an executive session luncheon at 12 noon, the Committee will reconvene at 1 p.m. The afternoon session will include status reports on Office activities, and a review of the second Comprehensive Plan for Federal Juvenile Delinquency Programs.

On Thursday, September 1, at 9 a.m., the Committee will break into working groups to formulate recommendations regarding the analysis and evaluation of Federal juvenile delinquency programs. Following a 12 noon luncheon recess, the working groups will reconvene at 1 p.m. At 3 p.m. the full Committee will reconvene to hear the reports of the working groups.

On Friday, September 2, the meeting will reconvene at 9 a.m. The session will include presentations from State juvenile justice and delinquency prevention advisory groups and public commentary. The 10th meeting of the National Advisory Committee for Juvenile Justice and Delinquency Prevention is scheduled to adjourn at 12 noon.

All meetings wil be open to the public. For further information, contact Mr. Frederick P. Nader, Deputy Assistant Administrator, Office of Juvenile Justice and Delinquency Prevention, Law Enforcement Assistance Administration, 633 Indiana Avenue NW., Washington, D.C. 20531.

JAY A. BROZOST,
Attorney Advisor, Office of General Counsel.

PRIVACY ACT OF 1974

[Order No. 745-77]

Deletion of Systems of Records

Notices previously published in the FEDERAL REGISTER pursuant to the Privacy Act relating to the systems of records maintained by the Watergate Special Prosecution Force are being re-

V 42 159 AUG 17 UM

scinded to coincide with the termination of the Watergate Special Prosecution Force. Inactive records of JUSTICE/WSPF-001, Watergate Special Prosecution Force Investigative and Prosecutory Files, 42 FR 12805 (March 4, 1977) and all records of JUSTICE/WSPF-002, Watergate Special Prosecution Force Automated Investigation Files, 42 FR 12806 (March 4, 1977) are to be transferred to the Archivist of the United States. Active records from JUSTICE/WSPF-001 will be maintained in appropriate systems of records by law enforcement components within the Department of Justice and subject to exemptions of Subpart E of Part 16 of Chapter I of Title 28 of the Code of Federal Regulations. Section 16.78 of Title 28 of the Code of Federal Regulations, which exempted these two systems from provisions of the Privacy Act, is also being revoked by a separate order on rule-making being published in today's FEDERAL REGISTER.[1]

Records of JUSTICE/WSPF-003, Watergate Special Prosecution Force Travel File, are being destroyed because they are duplicative of records maintained in the Central Departmental Accounting System.

Requests under the Freedom of Information Act for records which have been transferred to the Archivist should be addressed to:

Assistant Archivist for the National Archives, National Archives and Records Service, Eighth Street and Pennsylvania Avenue, NW., Washington, D.C. 20408.

Dated: August 5, 1977.

GRIFFIN B. BELL,
Attorney General.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on August 11, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529).

SECURITIES AND EXCHANGE COMMISSION

[File No. 81-271]

AIR POLLUTION INDUSTRIES, INC.

Application and Opportunity for Hearing

AUGUST 10, 1977.

Notice is hereby given that Air Pollution Industries, Inc. ("Applicant") has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act") for exemption from Sections 13 and 15(d) of the 1934 Act, commencing with the annual report on Form 10-K otherwise required for the period ended April 30, 1977.

Section 13 provides that each issuer of a security which is registered pursuant to Section 12 of the 1934 Act shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate for the proper protection of investors and to insure fair dealing in the security, certain annual, current, and quarterly reports.

Section 15(d) provides that each issuer who has filed a registration statement which has become effective pursuant to the Securities Act of 1933, as amended, shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, such supplementary and periodic information, documents, and reports as may be required pursuant to Section 13 of the 1934 Act in respect of a security registered pursuant to Section 12 of the 1934 Act.

Section 12(h) empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the periodic reporting provisions of the 1934 Act if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Application states in part:

1. Prior to April 14, 1977 the Applicant had two classes of securities outstanding: Common Stock and 7 percent Convertible Subordinated Debentures due October 15, 1981.

2. As a result of a merger with Neptune AirPol, Inc., a subsidiary of Neptune International, Inc., the holders of Applicant's Common Stock had the right to receive cash for each share outstanding and Neptune AirPol assumed the obligation to pay the principal amount of the debentures at maturity.

3. As a result of the merger there are no holders of Common Stock and 65 holders of debentures.

4. On May 16, 1977, Applicant filed a certification pursuant to 15d-6 of the 1934 Act indicating that it had less than 300 shareholders of record.

In absence of an exemption, Applicant would be required to file a report on Form 10-K for the period from April 30, 1976 through April 30, 1977 as required by the provisions of Sections 13(a) and 15(d) of the 1934 Act.

Applicant argues that no useful purpose would be served in filing said report.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street NW., Washington, D.C. 20549.

Notice is further given that any interested person not later than September 6, 1977 may submit to the Commission in writing his views of any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert.

Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.77-23701 Filed 8-16-77;8:45 am]

CINCINNATI STOCK EXCHANGE

Application for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 11, 1977.

In the matter of applications of the Cincinnati Stock Exchange for unlisted trading privileges in a certain security. The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the securities of the companies as set forth below, which securities are listed and registered on one or more other national securities exchanges:

Atlantic City Electric Co., common stock—$3 par value; File No. 7-4969.

Central Maine Power Co., common stock—$5 par value; File No. 7-4970.

Duquesne Light Co., common stock—$1 par value; File No. 7-4971.

Northeast Utilities Service Co., common stock—$5 par value; File No. 7-4972.

Potomac Electric Power Co., common stock—$10 par value; File No. 7-4973.

Public Service Co., of New Hampshire, common stock—$5 par value; File No. 7-4974.

Upon receipt of a request, on or before August 27, 1977 from any interested person, the Commission will determine whether the application with respect to the company named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[Release No. 34-13855; File No. SP DTC 77-6]

DEPOSITORY TRUST CO.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 21, 1977, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change provides for an addition to Fee Schedule for Major Services, filed as Form 19b-4A, File No. SR-NYSE-75-19:

Legal deposits: $25 per deposit. *DTC will consider a volume discount where the securities have a substantial dollar value (approximately $100 million) and other factors are present.*

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change are as follows:

The purpose of the proposed change in the Fee Schedule for Major Services is to encourage further immobilization of securities certificates and to remove a disincentive to Participants, indirect depository users and those considering depository use for the first time when thousands of legal deposits are needed to be made in a short period on a bulk basis in order to establish positions in the depository.

The proposed change in the Fee Schedule for Major Services relates to DTC's carrying out the purposes of Section 17A of the Securities Exchange Act of 1934 by equitably allocating fees among DTC Participants.

Participants have from time to time expressed interest in a volume discount in DTC's legal deposit fee. Comments on the proposer rule change have not been solicited or received.

DTC believes that no burden will be placed on competition by the proposed rule change.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the public reference room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization.

All submissions should be submitted on or before September 7, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

AUGUST 11, 1977.

[FR Doc.77-23704 Filed 8-16-77;8:45 am]

[File Nos. SR-MSE-77-16, 77-20]

MIDWEST STOCK EXCHANGE, INC.

Order Extending Time Period Within Which the Commission is Required to Act on Proposed Rule Changes

AUGUST 10, 1977.

The Midwest Stock Exchange, Inc. ("MSE") 120 S. La Salle Street, Chicago, Illinois 60603, has filed, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78(s)(b)(1), and Rule 19b-4 thereunder, 17 CFR 240.19b-4 the following rule proposals:

(1) SR–MSE–77–16.[1] The proposed amendment to Article XXIV, Rule 8, of the MSE rules provides that any member of the Committee on Floor Procedure or the President of the Exchange can summarily suspend the registration of a specialist, co-specialist, or relief-specialist when it appears that such person is violating any of the rules of the Exchange or the federal securities laws or is conducting business in an unethical or unbusiness-like manner, pending an opportunity for a hearing on the apparent violation in accordance with Article XXI of the Rules of the Exchange.[2]

Article XXIV, Rule 8 also provides that the Committee on Specialist Assignment and Evaluation may suspend or terminate any such registration based upon a finding, after an opportunity for a hearing in accordance with Article XVII, that the particular specialist, co-specialist or relief specialist has not satisfactorily performed his responsibilities as defined in the Federal securities laws or the rules and policies of the Exchange.[3]

(2) SR–MSE–77–20.[4] The proposed amendment to Article XXI, Rule 15 of the MSE rules provides that whenever it appears to any member of the Committee on Floor Procedures or the President of the Exchange that an odd lot dealer is violating any of the rules of the Exchange or the Federal securities laws, or is conducting business as an odd lot dealer in an unethical or unbusiness-like manner, the member of the Committee or the President shall, without the necessity of previous notice, suspend the registration of such odd lot dealer pending an opportunity for a hearing on the apparent violation in accordance with Article XII of the Rules of the Exchange.

Rule 15 would also provide that the Committee on Specialist Assignment and Evaluation may suspend or terminate any such registration based upon a finding, after an opportunity for a hearing in accordance with Article XVII, that an odd lot dealer has not satisfactorily performed his responsibilities as defined in the Federal securities laws and the rules and policies of the Exchange.

The MSE proposals permit both summary, as well as non-summary, suspension of "special" registrants. Because of the similarity of the proposals, it appears appropriate to consider them together.

The primary question raised by these proposals is whether they are consistent with Section 6(d)(3) of the Act, which authorizes a national securities exchange to take summary action against a member or a person associated with a member or against any person with respect to access to services offered by the Exchange only under limited circumstances and prescribes procedures applicable to such Exchange action. Section 6(d)(3) also provides that persons aggrieved by a summary action be promptly afforded an opportunity for a hearing as required by paragraphs (1) or (2) of Section 6(d). The Commission is empowered by order to stay any summary exchange action on its own motion or upon application by any aggrieved person either summarily or after notice and opportunity for hearing (which may consist of the submission of affidavits or presentation of oral arguments).

The preliminary questions presented by the MSE proposals are:

(1) Does the proposed summary suspension of the registration of special registrants as such fall within the purview of Section 6(d)(3) by virtue of the fact that it is a "suspension of a member or person associated with a member", as contemplated by the Act or a "limitation or prohibition of any person with respect to access to services offered by the Exchange"? If this type of summary action does fall within the contemplation of Section 6(d)(3), then, irrespective of whether this is a suspension or a denial of access, summary action may be taken only if the firm or individual has been expelled or suspended from being associated with a member of a self-regulatory organization, or is in such financial or operating difficulty that the Exchange determines and notifies the Commission that the member cannot be permitted to continue to do business as a member with safety to investors, creditors, or other members of the Exchange.

If such summary action is determined not to be a summary suspension of a member or a person associated with a member, or the limitation or prohibition of any person with respect to access to services offered by the Exchange, then a determination must be made as to whether this type of summary action is otherwise permissible under the Act. If so, it does not appear that the Commission would have review power under Section 19, and that any review of such summary action and of the subsequent hearing pursuant to that action would be in the courts.

As a result of its preliminary review of the MSE proposals, the Commission believes that the proposals raise a number of substantial questions which require further consideration before any determination is made to approve the rule proposals or to institute proceedings, pursuant to Section 19(b)(2) of the Act, to determine whether they should be disapproved.

Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act, hereby extends to September 6, 1977 the time period within which the Commission must take action on the above-referenced proposed rule changes. The Commission is also extending the time period for comments on the proposed rule changes, and invites written submissions from all interested persons. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capital Street, Washington, D.C. 20549 by August 30, 1977.

Copies of all submissions, including the proposed rule changes, will be available for public inspection at the Commission's Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of the proposed rule change will also be available at the principal office of the MSE.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.77-23703 Filed 8-16-77;8:45 am]

[1] Notice of filing of the proposed rule change was given by publication of a Commission release (Securities Exchange Act Release No. 13576 (May 27, 1977)) and by a statement of the terms of substance in the FEDERAL REGISTER (42 FR 29133 (June 7, 1977)). Interested persons were invited to submit any written data, views and arguments concerning the proposed rule change by June 28, 1977. The MSE has granted an extension of time required for the Commission to consider the proposed rule change until August 9, 1977.

[2] Article XII provides investigative and hearing procedures with respect to any default, misconduct or other offense alleged to have been committed by any member, member organization or any other person or organization subject to the jurisdiction of the Exchange.

[3] The hearing procedures provided by Article XVII of the MSE rules are the subject of SR–MSE–76–23, which is currently pending.

[4] Notice of filing of the proposed rule change was given, in accordance with the requirements of Section 19(b)(1), by publication of a Commission release (Securities Exchange Act Release No. 13728 (July 8, 1977)) and by a statement of the terms of substance in the FEDERAL REGISTER (42 FR 36575 (July 15, 1977)). Interested persons were invited to submit any written data, views and arguments on the proposed rule change by August 5, 1977.

[Release 34-13847; File No. SR-NASD-77-9]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975) notice is hereby given that on June 13, 1977 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

NASR's STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

TEXT OF PROPOSED RULE CHANGE

The following is the full text of the proposed amendments to the Code of Arbitration Procedure of the National Association of Securities Dealers, Inc. New language is italicized, deleted language is bracketed:

Section 1—Matters Eligible for Submission

This Code of Arbitration Procedure is prescribed and adopted pursuant to Article IV, Section 2(b) of the By-Laws of the National Association of Securities Dealers, Inc. (the Association) for the arbitration of clearing controversies and any other *securities related* dispute arising out of or in connection

with the [securities] business of any member of this Association:

(1) between or among members;

(2) between or among members and public customers, *and/or between or among* others;

(3) between or among members, the clearing corporaion, clearing banks or associated banks as these terms are defined under the Operating Rules of the NCC Division of the National Securities Clearing Corporation.

Section 2(a)—Required Submissions

Any dispute, claim or controversy subject to arbitration under this Code arising on or after the effective date of the relevant section or subsection hereof shall be submitted to arbitration pursuant to this Code at the instance of:

(1) a member against another member;

(2) a public customer against a member[;]*and/or a person associated with a member;*

(3) a member against a public customer if the submission to arbitration of the dispute, claim or controversy is permitted by a duly executed and enforceable agreement to arbitrate; [1]

(4) a member, the NCC Division of the National Securities Clearing Corporation, a clearing bank, or associated bank against the other(s);

(5) a member against a person associated with a member or a person associated with a member against a member[.];

(6) a person associated with a member against a person associated with a member;

(7) any written agreement which expressly designates the Association as the arbitration forum and/or administrator of any controversy.

Section 15—Designation of Number of Arbitrators

(a) Public Controversies

(1) Except as otherwise provided [herein] *in this Code,* in all arbitration matters involving public customers, *and where the matter in controversy does not exceed the amount of $20,000,* an arbitration panel shall consist of [five] *three* arbitrators, at least [three] *two* of whom shall not be from the securities industry.

(2) *In all arbitration matters involving public customers where the amount in controversy exceeds $20,000, an arbitration panel shall consist of five arbitrators, at least three of whom shall not be from the securities industry.*

(b) Member and/or Member-Related Controversies

In all arbitration matters [involving only] *between or among* members *and/or* [members and] persons associated with members, a panel shall consist of no less than three nor more than five arbitrators all of whom shall be from the securities industry.

(c) Composition of Panels

The individuals who shall serve on a particular arbitration panel shall be determined by the Director of Arbitration. The Director of Arbitration shall name the chairman of [all] *each* panel[s].

Section 19—Initiation of Proceedings

Pleadings

An arbitration proceeding under this Code shall be instituted as follows:

(a) Statement of Claim

[(a)] The initiating party shall file with the Director of Arbitration three copies of the Submission Agreement duly executed by him together with three copies of his Statement of Claim upon the controversy in dispute and, if possible, the amount claimed and the remedies sought. The Director of Arbitration shall thereupon serve two copies of the Statement of Claim and the Submission Agreement upon the responding party by *personal service,* registered or certified mail *or by any other means which shall appraise a party of the institution of an arbitration proceeding.*

(b) Answer—Defenses and or Counter-Claims

[(b)] Two (2) copies of the duly executed Submission Agreement and two (2) copies of the Answer shall be filed with the Office of the Director of Arbitration within [ten (10)] fifteen business days from the date of receipt of the Statement of Claim. The Director of Arbitration shall thereupon serve one copy of the Answer upon the initiating party by *personal service,* certified or registered mail *or by any other means which shall appraise a party of the institution of an arbitration proceeding.* The Answer shall contain and clearly designate all available defenses to the initiating party's claim and may in addition set forth any related counterclaim denominated as such which the responding party may have against the initiating party upon any dispute, claim or controversy arising as prescribed under this Code.

Section 20—Designation of Time and Place of Hearings

Unless the law directs otherwise, the time and place of the initial hearings shall be determined by the Director of Arbitration and for each ensuing hearing thereafter by the arbitration panel presiding. Notice of the initial hearing shall be [delivered] *given* at least [eight] *five* business days prior to the date fixed for hearing by *personal service* or registered or certified mail, *or by any other means permitted by law* to each of the parties and for each hearing thereafter as the arbitration panel shall determine; unless the parties shall by their mutual consent waive the notice provisions provided under this Section.

PURPOSE OF PROPOSED RULE CHANGE

The proposed amendments to the Code of Arbitration Procedure will accomplish the following:

Section 1—Matters Eligible for Submission

This proposed amendment will permit the submission of controversies including commodities transactions, hybrid insurance cases which may involve elements of both securities and insurance products and customer dealings, e.g. mutual funds and term insurance policy writers. It will not permit the submission of controversies related solely to insurance. The amendment will also allow disputes to be submitted by other entities including SECO, Municipal Securities Rulemaking Board, SIPC and others. The present fragmentation of claims will be reduced, if not eliminated, thus allowing parties and arbitrators to more realistically deal with and include all elements of the party's dealings in a single submission and before a single forum.

Section 2(a)—Required Submissions

The proposed amendment to Subsection 2(a)2 of the Code will permit public customers to directly name and proceed against persons associated with members as party respondents. The inclusion of this category of individuals as parties will also operate to obviate the fragmentation of customer's claims. Proposed Section 2(a)6 will permit associated persons to directly name and proceed against other associated persons. The addition of this category of disputes will make arbitration available and insure equal access by such individuals to a forum which can professionally consider and promptly and economically resolve such controversies. Proposed Section 2(a)7 will permit non-member entities such as banks, SECO, the MSRB and the CBOE to utilize the Association's arbitration services by designating the Association as the administrator of their arbitration proceedings.

Section 15—Designation of Number of Arbitrators

Section 15 is proposed to be amended to provide for the reduction of the size of arbitration panels from five to three arbitrators in public cases where the sum in controversy does not exceed $20,000. In cases where the settlement dispute exceeds $20,000 a panel will continue to consist of five arbitrators as is currently the rule in respect to all submissions involving the public sector.

Section 19—Pleadings

The Code presently requires that both pleadings and notices of hearings be served by registered or certified mail. The proposed amendments to Sections 19 and 20 of the Code expand such process to permit personal service as well as service by any other means which will reasonably apprise the party of the pendency of a proceeding. Section 19 is proposed to be amended to give a responding party 15 business days after service of the claim to file a responsive pleading for answer instead of the 10 days now allowed.

Section 20—Designation of Time and Place of Hearings

Section 20 is proposed to be amended to require that a party be given five business days notice of the initial scheduled hearing date instead of the eight business days presently required.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

Section 15A(b)(6) provides that the rules of a registered securities association be "designed to prevent fraudulent and manipulative practices, to promote just and equitable principles of trade . . . and, in general, to protect investors and the public interest. . . ." The Association has adopted an extensive Code of Arbitration Procedure pursuant to the Act and Article IV, Section 2(b) of the Association's By-Laws which permits its Board of Governors to prescribe rules providing for arbitration of controversies between members and between members and customers or others.

COMMENTS RECEIVED FROM THE MEMBERS, PARTICIPANTS, OR OTHERS ON THE PROPOSED RULE CHANGE

Because Article IV, Section 2(b) of the Association's By-Laws authorizes its Board of Governors alone to prescribe a Code of Arbitration Procedure, comments of the membership on the proposed amendments to the Code of Arbitration were not solicited nor received.

[1] This subparagraph is not intended to conflict with the decision of the United States Supreme Court in *Wilko* v. *Swan,* 346 U.S. 427 (1953), which specifies that a customer of a broker/dealer does not waive the protections of the securities acts by an agreement to arbitrate future controversies. Thus, the Association will, in applicable cases, require a member to seek an order under the United States Arbitration Act to determine whether a particular dispute is properly arbitrable in view of *Wilko* v. *Swan.*

V42 1959 AUG 17 77 UM

BURDEN ON COMPETITION

The proposed rule changes impose no burdens on competition not necessary in the furtherance of the purposes of the Act.

On or before September 21, 1977, or within such longer period (i) as the Commission may designate up to ninety (90) days of such date if he finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) by order approve such proposed rule change, or

(b) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C., 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before September 16, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

U.S. ADVISORY COMMISSION ON INTERNATIONAL EDUCATIONAL AND CULTURAL AFFAIRS

Notice of Meeting

The United States Advisory Commission on International Educational and Cultural Affairs will meet in open session on Monday, September 26, in Room 1207 of the State Department. The meeting will run from 9:30 a.m. until 12:30 p.m., and from 2 p.m. until 4:30 p.m.

There will be two items on the agenda, in addition to any old or new business which any Commission member wishes to raise.

1. A report on the Belgrade conference on the Helsinki agreement.

2. An assessment of educational and cultural exchanges between the United States and other countries carried out by AID, HEW and other U.S. agencies.

Members of the general public may attend and participate in the discussion subject to the instructions of the Chairman. They will be accommodated up to the seating capacity of the room.

For purposes of fulfilling building security requirements, anyone wishing to attend the meeting must advise the Staff Director of the Commission by close of business Thursday, September 22, 1977, of his intention to attend. He may be reached by telephone at (202) 632-2764.

Dated: August 8, 1977.

W. E. WELD, Jr.,
Staff Director.

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1977 Rev., Supp. No. 1]

SURETY COMPANIES ACCEPTABLE ON FEDERAL BONDS

Issuance of Certificate of Authority

A certificate of authority as an acceptable surety on Federal bonds is hereby issued by the Secretary of the Treasury to the following company under Sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $245,000 has been established for the company.

NAME OF COMPANY, BUSINESS ADDRESS, AND STATE IN WHICH INCORPORATED

Insurance Company of the West, Post Office Box 81063, San Diego, California 92138.

Certificates of authority expire on June 30 each year, unless sooner revoked, and new certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: August 10, 1977.

GERALD MURPHY,
Acting Commissioner, Bureau of Government Financial Operations.

Office of the Secretary

NEW BOYCOTT GUIDELINES

Issuance and Invitation for Public Comments

AUGUST 12, 1977.

The Secretary of the Treasury today issued new guidelines, consisting of questions and answers, relating to provisions of the Tax Reform Act of 1976 which deny certain tax benefits for participation in or cooperation with international boycotts.

The new guidelines supersede earlier sets of guidelines, also questions and answers, issued November 4, 1976 (Treasury News Release WS-1156) and December 30, 1976 (WS-1239) and published in the FEDERAL REGISTER on November 11, 1976 and January 5, 1977. The new guidelines issued today generally are effective for operations occurring after, requests received after, and agreements made after November 3, 1976.

However, if a particular answer in the new guidelines, when compared with an answer in the guidelines outstanding on August 11, 1977, results in an increase in the reporting burden or tax liability of a person, the new answer will be effective only for operations, requests, and agreements after August 22, 1977. In addition, in the case of operations that constitute participation in or cooperation with an international boycott under the new guidelines, but do not do so under the previous guidelines outstanding on August 11, 1977, and that are carried out in accordance with the terms of a binding contract entered into before August 23, 1977, such operations will not constitute participation in or cooperation with an international boycott until after December 31, 1977.

Written comments may be submitted (preferably six copies) to the Assistant Secretary for Tax Policy, U.S. Treasury Department, Washington, D.C. 20220. All comments will be available for public inspection and copying. Thus, a person submitting written comments should not include any material that is confidential or inappropriate for disclosure to the public.

A public hearing will be held upon written request to the Assistant Secretary for Tax Policy by any person who has submitted a written comment. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

Written comments and requests for a public hearing must be delivered or mailed by September 30, 1977.

This announcement and the new guidelines will appear in the FEDERAL REGISTER of August 17, 1977.

Contact: George G. Ross: (202) 566-2356.

BOYCOTT PROVISIONS (SECTION 999) OF THE INTERNAL REVENUE CODE

TABLE OF CONTENTS

A. Boycott Reports.
B. Definition of "Operations."
C. Definition of "Reason to Know" of Official Requirement of Boycott Participation.
D. Definition of "Clearly Separate and Identifiable Operations."
E. Effective Date Provisions.
F. International Boycott Factor.
G. Determinations.
H. Definition of an Agreement to Participate in or Cooperate with a Boycott (section 999(b)(3)).
I. Refraining from Doing Business with or in a Boycotted Country (section 999(b)(3)(A)(i)).
J. Refraining from Doing Business with any United States Person Engaged in Trade in a Boycotted Country (section 999(b)(3)(A)(ii)).
K. Refraining from Doing Business with any Company Whose Ownership or Management is Made Up, in Whole or in Part of Individuals of a Particular Nationality, Race or Religion (section 899(b)(3)(A)(iii)).
L. Refraining from Employing Individuals of a Particular Nationality, Race or Religion (section 999(b)(3)(A)(iv)).
M. As a Condition of the Sale of a Product, Refraining from Shipping or Insuring that Product on a Carrier Owned, Leased, or Operated by a Person who does not Participate in or Cooperate with an International Boycott (section 999(b)(3)(B)).
N. Reduction of Foreign Tax Credit.
O. Subpart F Income.

In the questions and answers:

(a) Company A and Company B are companies organized under the laws of one of the states of the United States;

(b) Company C and Company D, unless otherwise stated in the question, are companies organized under the laws of any country, including the United States;

(c) Country X is a boycotting country, which, inter alia, boycotts Country Y;

(d) Country Y is a country boycotted by Country X;

(e) Country Z is any country and may be the United States, a boycotting country or a boycotted country;

(f) All references to "Sections" are to Sections of the Internal Revenue Code of 1954, as amended;

(g) In parts H-M in instances where the action described in the question by itself does not, according to the answer, provide sufficient evidence to support an inference that an agreement under section 999(b)(3) exists, an overall course of conduct which includes such action in addition to other actions could support such an inference; and

(h) In many questions in parts H-M, a person deals with either Country X or the government, a company or a national of Country X. The result reached in the answer to each of those questions would be the same irrespective of whether the person is an individual, a company or any other type of person, and whether the person dealt with is Country X or the government, a company or a national of Country X.

A. Boycott Reports.

A-1. Q: Who must report as required by section 999(a)?

A: Generally, a United States person (within the meaning of section 7701(a)(30)) is required to report under section 999(a) if it—

1. has operations; or

2. is a member of a controlled group, a member of which has operations; or

3. is a United States shareholder within the meaning of section 951(b) of a foreign corporation that has operations, but only if the United States shareholder owns within the meaning of section 958(a) stock of that foreign corporation; or

4. is a partner in a partnership that has operations; or

5. is treated under section 671 as the owner of a trust that has operations

in or related to a boycotting country (or with the government, a company, or a national of a boycotting country). A person (within the meaning of section 7701(a)(1)) that is not a United States person is required to report under section 999(a) if it satisfies any one of the five conditions specified above and it claims either the benefit of the foreign tax credit under section 901 or owns stock of a DISC.

If a person controls a corporation within the meaning of section 304(c) and that person is required to report under section 999(a), then under section 999(e) that person must report whether the corporation participated in or cooperated with the boycott. If the corporation is required to report under section 999(a), then under section 999(e) the corporation must report whether the person participated in or cooperated with the boycott.

A boycotting country is—

(i) any country that is on the list maintained by the Secretary under section 999(a)(3), or

(ii) any country not on the list maintained by the Secretary under section 999(a)(3), in which the person required to file the report (or a member of the controlled group that includes that person) has operations, and which that person knows or has reason to know requires any person to participate in or cooperate with an international boycott that is not excepted by section 999(b)(4)(A), (B), or (C). Thus, even if the boycott participation required of the person reporting the operation is excepted by section 999(b)(4)(A), (B), or (C), if that person knows or has reason to know that boycott participation not excepted by section 999(b)(4)(A), (B), or (C) is required of any other person, the country is a boycotting country.

If the person required to file the report (or a member of the controlled group that includes that person) has operations related to a country, but not operations in that country, that country is not a boycotting country unless it is on the list maintained by the Secretary under section 999(a)(3). (For the definition of operations in or related to a country, see the questions and answers under part B.)

A-2. Q: Do the reporting requirements of section 999(a) that refer to "United States shareholders" of foreign corporations require U.S. minority shareholders to report the operations of such foreign corporations?

A: Yes. Under section 951(b) the term "United States shareholder" includes any United States person who owns (within the meaning of section 958(a)), or is considered as owning (by the application of the rules of ownership of section 958(b)), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such foreign corporation. The reporting requirement applies even if the United States shareholder is a minority shareholder and even if the foreign corporation is not a controlled foreign corporation within the meaning of section 957(a). However, as stated in Answer A-1, the reporting requirement applies only to minority share holders that actually own some stock within the meaning of section 958(a).

A-3. Q: If one member of a controlled group of corporations (within the meaning of section 993(a)(3)) files a report under section 999(a) with respect to the reportable operations of all members of that group, is this sufficient to discharge the reporting obligation of all members of the group?

A: Yes, provided that the common parent (as defined in the regulations under section 1504) files a consolidated return and the report on behalf of all members of the controlled group. In the absence of a consolidated return, each member of the controlled group must individually file the section 999(a) report. If a consolidated return is filed on behalf of some members of the controlled group, only one report need be filed with respect to those members. However, each other member must individually file the report.

A-4. Q: If one United States shareholder of a foreign corporation files a report under section 999(a) in respect of the reportable operations of the foreign corporation, is this sufficient to discharge the reporting obligations of all United States shareholders of the foreign corporation in respect of that corporation's operations?

A: No. Each United States shareholder of a foreign corporation must file the section 999(a) report in respect of the activities of that corporation. However, if two or more United States shareholders of a foreign corporation are included in the same consolidated return, only one report need be filed with respect to all United States shareholders included in the return.

A-5. Q: How will the reporting requirements under section 999(a), "International Boycott Reports by Taxpayers", be satisfied?

A: A taxpayer required to file an international boycott report under section 999(a) will fulfill this requirement by filing a new IRS Form 5713, "International Boycott Report", and all applicable supporting schedules and forms contained in the taxpayer's income tax returns which indicate the amounts and computations of benefits denied under sections 908(a), 952(a)(3) and 995(b)(1)(F) of the Internal Revenue Code.

A-6. Q: What degree of confidentiality will the international boycott reports submitted by taxpayers receive?

A: The reports by taxpayers will be submitted as part of the income tax return and, therefore, will be accorded the same degree of confidential treatment under section 6103 as any other information contained in an income tax return.

A-7. Q: Where and how should the "International Boycott Report" be filed?

A: The "International Boycott Report", Form 5713, should be filed in duplicate by all reporting taxpayers. One copy of Form 5713 should be sent to the Internal Revenue Service, 11601 Roosevelt Blvd., Philadelphia, Pennsylvania, 19155, and the other copy of Form 5713 should be attached to the taxpayer's income tax return that is filed with the taxpayer's customary Internal Revenue Service Center.

A-8. Q: Do individuals as well as corporations use Form 5713, "International Boycott Report"?

A: Yes. All taxpayers required to file a report under section 999(a) will use IRS Form 5713. However, some parts of the form apply to corporations only; individual taxpayers can ignore these parts and complete only the questions relevant to individuals. While all taxpayers reporting under section 999(a) are required to file Form 5713, the filing of Form 5713 does not necessarily fulfill all of the reporting requirements under section 999(a). (See Answer A-5.)

A-9. Q: Section 999(b)(4) permits a person to agree to comply with certain laws without being treated as having agreed to participate in or cooperate with an international boycott. In the course of its operations in or related to a boycotting country, a person agrees to comply with a prohibition on importation and exportation that is described in section 999(b)(4)(B) and section 999(b)(4)(C). Is that person required to report the operations on Form 5713, the "International Boycott Report"?

A: Yes, although agreements described in section 999(b)(4)(B) and (C) do not constitute participation in or cooperation with an international boycott, the operations in or related to a boycotting country must be reported on Form 5713.

A-10. Q: Section 999(b)(4)(A) permits a person to meet requirements imposed by a foreign country with respect to an international boycott if United States law or regulations, or an Executive Order, sanctions participation in or cooperation with that international boycott. If a person's operations fall within this exception, is the person required to report such operations?

A: No. The reporting requirements with respect to operations under such international boycott agreements are waived.

A-11. Q: Company C sells goods or services to a person other than a boycotting country, or the government, a company, or a national of a boycotting country (or does other business with that person) outside a boycotting country. Company C knows or has reason to know that that person in turn will either use the goods or services in a boycotting country or sell the goods or services for use in a boycotting country. Is Company C required to report its sale of goods or services to that person?

V 42 N 159 AUG 17 77 UM

A: Although the sale of the goods or services by Company C constitutes an operation related to a boycotting country of Company C (see Answer B–1), the requirement that Company C report the sale is waived, provided that in connection with the operation Company C does not receive a request to participate in or cooperate with an international boycott (within the meaning of section 999(b)(3)). Company C does not participate in or cooperate with an international boycott, and Company C did not establish its relationship with that person to facilitate participation in or cooperation with an international boycott.

A–12. Q: Company A is a U.S. shareholder (within the meaning of section 951(b)) of Company C, a foreign corporation. Company A has a taxable year ending January 31, and Company C has a taxable year ending June 30. Both companies have operations in Country X, which is on the list maintained pursuant to section 999(a)(3). Who should file Form 5713 and for what period?

A: As indicated in Answer A–1, Company C need not file Form 5713 unless it claims the benefit of the foreign tax credit under section 901 or owns stock of a DISC. Company A must file Form 5713 for its taxable year ending January 31, and must report operations of Company C during Company C's taxable year ending within the period covered by Company A's report.

A–13. Q: In the case of an International Boycott Report, Form 5713, filed by a member of a controlled group, what period of time should be reflected in the report, and when should the report to be filed?

A: Each person described in Answer A–1 ("reporting person") is required to report all reportable operations, requests and participation or cooperation of each member of the controlled group for each member's taxable year that ends with or within the taxable year of the controlled group's common parent that ends with or within the taxable year of the reporting person.

In addition, each reporting person is required to report all reportable operations, requests and participation or cooperation of each foreign corporation that has a United States shareholder that is a member of the controlled group. Such operations, requests and participation or cooperation of a foreign corporation are reported for the foreign corporation's taxable year that ends with or within the taxable year of the United States shareholder that ends with or within the taxable year of the common parent that ends with or within the taxable year of the reporting person.

In the event that no common parent exists, the members of the controlled group are to elect the taxable year of one of the members to serve as the common taxable year of the group. Procedures for making the taxable year election are specified in the instructions to the "International Boycott Report," Form 5713. The taxable year election is a binding election and is made only once. Approval of the Secretary of the Treasury or his delegate is required for any changes in the group taxable year.

Each reporting person will use its normal taxable year for making adjustments required under sections 908(a), 952(a)(3) and 995(b)(1)(F), and for all purposes other than reporting and computing the international boycott factor. For example, if the reporting person uses the international boycott factor, the international boycott factor will be applied to the reporting person's normal taxable year for determining the reporting person's adjustments under sections 908(a), 952(a)(3) and 995(b)(1)(F).

More details concerning the time period covered in the international boycott report are contained in the instructions to Form 5713. Details concerning the time period covered in the international boycott factor are contained in the instructions to Form 5713 and in Temp. Regs. § 7.999–1 and Proposed Regs. § 1.999–1.

As stated in Answer A–7, the reporting person's "International Boycott Report," Form 5713, is filed at the time the reporting person files its income tax return.

A–14. Q: Company C is either a U.S. corporation or a foreign corporation and is required to report under section 999(a). Company C is also a subsidiary or a sister of a foreign corporation that is not required to report under section 999(a). Is Company C required to report the operations, requests and participation or cooperation of the foreign parent or sister corporation?

A: Generally, under section 999(a) and Answer A–1, a person required to report must report the operations, requests and participation or cooperation of all members of the controlled group of which it is a member. However, if the foreign parent or sister corporation is not otherwise required to report, the requirement that Company C report the operations, requests and participation or cooperation of the foreign parent or sister corporation will be waived if Company C—

1. Is not entitled to any benefits of deferral, DISC, or the foreign tax credit, or

2. Applies the international boycott factor, and forfeits all the benefits of deferral, DISC and the foreign tax credit to which it is entitled (i.e. applies an international boycott factor of one under sections 908(a), 952(a)(3), and 995(b)(1)(F)), or

3. Identifies specifically attributable taxes and income, and forfeits all the benefits of deferral, DISC, and the foreign tax credit in respect of which it is unable to demonstrate that the foreign taxes paid and the income earned are attributable to specific operations in which there was no participation in or cooperation with an international boycott.

Although the requirement that Company C report the operations, requests and participation or cooperation of its foreign parent or sister corporations may be waived, Company C must report all operations, requests and participation or cooperation—

(i) Of itself, and

(ii) Of all domestic members of each controlled group of which Company C is a member, and

(iii) If Company C is a United States company, of all foreign corporations of which Company C is a United States shareholder within the meaning of section 951(b), but only if Company C owns within the meaning of section 958(a) stock of the foreign corporation, or

(iv) If Company C is a foreign company, of all foreign corporations more than 50 percent of the stock of which is owned, directly or indirectly, by Company C.

If Company C is required to report on behalf of a foreign corporation (including itself if Company C is a foreign corporation), it must report all operations, requests and participation or cooperation of the foreign corporation, even if conducted by or received by the foreign corporation in connection with operations that are not effectively connected with a United States trade or business.

A–15. Q: Company C receives from Country X an unsolicited invitation to tender for a contract for the construction of an industrial plant in Country X. The tender documents contain a provision stating that Country X will not enter into the contract unless the successful tenderer makes an agreement described in section 999(b)(3). Company C does not respond to the unsolicited invitation. Is Company C required to report the invitation under section 999(a)(2) as a request to participate in or cooperate with an international boycott?

A: No. The section 999(a)(2) reporting requirement will be waived provided that Company C neither solicited the invitation to tender nor responded to the invitation.

A–16: Q: Before May 13, 1977, Company C received requests to comply with international boycotts. Company C preserved the requests that were evidenced in writing and preserved the notations it made concerning the details of oral requests. When Form 5713 was issued on May 13, 1977, it required more details concerning the requests made of Company C than were preserved, and many of those details can no longer be ascertained. Will Company C's report under section 999(a)(2) be deemed deficient?

A: On October 4, 1976, Company C was put on notice that it would be required to document boycott requests received after November 3, 1976. Form 5713 does not require any details that would not have been preserved by a prudent person having such notice. In addition, under Answer A–15, the reporting requirements of section 999(a)(2) have been waived for certain unsolicited boycott requests. If Company C does not supply the required information with respect to the remaining requests that were either solicited or responded to, its report will be deficient.

A–17. Q: A United States partnership consisting of 100 United States partners has operations in a boycotting country. Is each partner required to file Form 5713?

A: Generally, if a partnership has operations in a boycotting country, each partner is required to file Form 5713. However, if the partnership files Form 5713 with its information return and has no operations for the taxable year that constitute participation in or coperation with an international boycott, then the requirement that each partner file Form 5713 will be waived for each partner that has no operations in or related to a boycotting country, or with the government, a company, or a national of a boycotting country other than operations that are reported on the Form 5713 filed by the partnership.

A–18. Q: Company A owns 10 percent or more of the outstanding stock of Company C, a foreign corporation that has operations in Country X, but Company A does not have effective control over Company C. Company C participates in or cooperates with an international boycott. Company A requests information from Company C in order to meet its reporting obligations under section 999(a). Company C refuses to provide (or is prohibited by local law, regulation, or practice from providing) that information. Will Company A be subject to the section 999(f) penalties for willful failure to report the activities of Company C?

A: Company A must report on the basis of that information that is reasonably available to it. For example, in most cases Company A will be aware that Company C has operations in Country X, even though Company A is not aware of the operational details. Company A must report on Form 5713 that Company C has operations in Country X. Company A should also describe in a statement attached to Form 5713 the good faith efforts that it has made to obtain all the information required under section 999(a). Although each case must be resolved on the basis of the particular facts and circumstances, Company A will not be subject to the section 999(f) penalties for willful failure to provide information if it can demonstrate that it made good faith efforts to obtain the information but was denied the information by Company C.

A–19. Q: The facts are the same as in A–18 above except that Company A owns less than 50 percent of the stock of Company C, and Company C is not a controlled foreign corporation. What are the tax sanctions to which Company A will be subject?

A: Since Company C is neither a controlled foreign corporation nor a DISC, the sanctions of section 952(a)(3) and 995(b)(1)(F) are not relevant. However, Company A will be subject to the sanctions of section 908(a). Thus, if Company A applies an international boycott factor, that factor is applied to Company A's foreign tax credit in accordance with Answers F–5, N–1 and N–2. If Company A identifies specifically attributable taxes and income under section 999(c)(2), Company A will lose its section 902 indirect foreign tax credit for the taxes paid by Company C that Company A cannot demonstrate are attributable to specific operations in which there was no boycott participation or cooperation. (To determine whether Company A will lose its section 901 direct foreign tax credit for income tax withheld by Country X on dividends paid by Company C to Company A, see Answer N–3.)

A–20. Q: Individual G is a national of Country X, which is on the list maintained by the Secretary. G engages in an operation with Company C. For example, if Company C were a bank, the operation might involve a deposit by G, or, if Company C were an automobile dealer, the operation might involve the purchase of a car, or, if Company C were a stockbroker, the operation might involve the purchase or sale of a security, or if Company C were a hotel, the operation might involve the letting of a room. Irrespective of the specific nature of the operation, the agreement under which the operation is consummated is the same agreement that Company C requires of all other customers. Company C is aware of G's nationality, but participation in or cooperation with an international boycott is neither contemplated nor required as a condition of G's willingness to enter into the operation with Company C. Under section 999(a), what are the reporting obligations of Company C with respect to these operations?

A: In many business operations, there will be incidental contacts between the nationals or business enterprises of boycotting countries and persons from other countries. Company C's obligation to report these incidental contacts under section 999(a) will be waived provided that the contacts satisfy the following criteria:

1. All aspects of the operation contemplated by the parties are carried on outside a boycotting country; and

2. The operation does not contemplate any agreement which would constitute participation in or cooperation with an international boycott; and

3. No request for such an agreement is actually made or received by any party to the operation; and

4. There is no such agreement in connection with the operation; and

5. a. The operation does not involve the importation of property, funds or services from or produced in a boycotting country and Country C does not know or have reason to know that the property, funds or services will be used, consumed or disposed of in a boycotting country, or

b. The value of the property, funds or services furnished or obtained in the operation does not exceed $5,000.

The answer to the question would be the same if Company C were an individual or if G were a corporation.

A–21. Q: Individual G, a U.S. citizen, owns 15 percent of the stock of Company A. Company A has operations in Country X. Is Individual G required to report the operations of Company A?

A: An individual generally is not required to report the operations of a domestic corporation of which the individual is a shareholder. However, if Individual G controls (within the meaning of section 304(c)) Company A and if Individual G is required to report under section 999(a), then under section 999(e) Individual G must report whether Company A participated in or cooperated with an international boycott.

A–22. Q: Companies A, B, and C are all U.S. corporations reporting on a calendar year basis. Companies A, B, and C each had operations in Country X during the calendar year. From January 1 to June 1, Company A owned more than 50 percent of the stock of Company B. On June 1, Company C acquired more than 50 percent of the stock of Company B. What operations must be reflected in the Forms 5713 filed by Companies A, B, and C for the calendar year?

A: The Form 5713 filed by Company A must reflect the operations of Company A for the entire calendar year and the operations of Company B for the period January 1–May 31. The Form 5713 filed by Company C must reflect the operations of Company C for the entire calendar year and the operations of Company B for the period June 1–December 31. The Form 5713 filed by Company B must reflect the operations of Company B for the entire calendar year, the operations of Company A for the period January 1–May 31 and the operations of Company C for the period June 1–December 31. If the sale of stock had occurred during the first 30 days of the calendar year, the requirement that Company A report the operations of Company B and that Company B report the operations of Company A for the period of 30 days or less would be waived unless under Reg. § 1.1502–76(b)(5) Company B is included in the consolidated return filed by Company A for that period. The requirement that Company B report the operations of Company C, and that Company C report the operations of Company B, for that period of 30 days or less, would also be waived unless under Reg. § 1.1502–76(b)(5) Company B is included in the consolidated return filed by Company C for that period. Similarly, if the sale of stock had occurred during the last 30 days of the calendar year, the requirement that Company A report the operations of Company B and that Company B report the operations of Company A for the period of 30 days or less would be waived unless under Reg. § 1.1502–76(b)(5) Company B is included in the consolidated return filed by Company A for that period, and the requirement that Company B report the operations of Company C and that Company C report the operations of Company B for the period of 30 days or less would be waived unless under Reg. § 1.1502–76(b)(5) Company B is included in the consolidated return filed by Company C for that period.

A–23. Q: In 1977, Company A owns more than 50 percent of the stock of Company C, a foreign corporation that has operations in Country X that constitute participation in or cooperation with an international boycott. Companies A and C both report on a calendar year basis. Company C pays no dividend in 1977, but pays a dividend in 1978, a year in which neither Company A nor Company C has operations in any boycotting country. Company A claims a foreign tax credit under section 902 in 1978 in respect of the taxes paid by Company C. For which year, 1977 or 1978, must Company A report of the taxes paid by Company C. For which year are Company C's operations reflected in Company A's international boycott factor; and for which year is the sanction of section 908(a) applicable?

A: Company C's operations are reported by Company A and are reflected in Company A's international boycott factor for 1977. The operations of Company C during 1977 will not be reflected in Company A's Form 5713 or international boycott factor for 1978. However, if in 1978 Company A chooses to determine its loss of tax benefits using the specifically attributable taxes and income method described in section 999(c)(2), in 1978 Company A will lose that portion of the section 902 foreign tax credit specifically attributable to Company C's 1977 boycott operations. In this case, even though in 1978 Company A and Company C have no operations that are required to be reported by Company A on Form 5713, Company A must nevertheless file Form 5713 in 1978 (which will show no operations) and complete Schedules B and C to Form 5713, on which Company A will show the loss of the section 902 foreign tax credit attributable to Company C's boycott operations for 1977.

B. *Definition of "Operations".*

B–1. Q: Under what circumstances does a person have operations in, or related to, a boycotting country (or with the government, a company, or a national of that country)?

A: A person has operations in, or related to, a boycotting country (or with the government, a company, or a national of that country) if the operation in which it engages:

1. is carried on in whole or part in a boycotting country ("in a country");

2. is carried on outside a boycotting country either for or with the government, a company, or a national of a boycotting country ("with the government, a company, or a national of a country"); or

3. is carried on outside a boycotting country for the government, a company, or a national of a non-boycotting country if the person having the operation knows or has reason to know that the specific goods, services or funds produced by the operation are intended for use in a boycotting country or for the government, a company, a country or a national of a boycotting country ("related to a country").

The term "operation" encompasses all forms of business or commercial activities whether or not productive of income, including, but not limited to, selling; purchasing; leasing; licensing; banking, financing and similar activities; extracting; processing; manufacturing; producing; constructing; transporting; performing activities ancillary to the foregoing (e.g., contract negotiating, advertising, site selecting, etc.); and performing services, whether or not ancillary to the foregoing.

Operations described in principles 2 and 3 are illustrated in the following two examples:

(a) Company C engages in a joint venture manufacturing operation in a non-boycotting country with Company D, a company incorporated under the laws of Country X. Company C has operations "with" a company of a boycotting country.

(b) D, a national of a non-boycotting country has a contract to construct a dam in Country X. D subcontracts to Company C for the manufacture of a generator for the dam. The contract between D and Company C and the generator specifications indicate that the generator is for use in Country X. The contract specifies delivery of the generator to D f.o.b. New York. Company C has operations "related to" a boycotting country.

B–2. Q: Individual G is a U.S. citizen living in Country X. G is retired. G receives social security payments and a pension, but has no business activities. Does G have "operations" in, or related to, Country X?

A: No. G is not engaged in any business or commercial activities.

B–3. Q: Individual H is a U.S. citizen living in Country X and working there as an employee. H earns a salary and has passive investment income, but has no business in-

VOL 42 NO 159 AUG 17 77 UM

come. Does H have "operations" in or related to Country X?

A: No. The performance of personal services as an employee does not constitute an "operation."

C. Definition of "Reason To Know" Requirement of Boycott Participation.

C–1. Q: Under what circumstances, in the absence of a Treasury listing of a country under section 999(a)(3), will it be deemed under section 999(a)(1)(B) that a person knows or has reason to know that participation in or cooperation with an international boycott is required as a condition of doing business within such country or with the government, a company, or a national of such country?

A: A person will be deemed to know or have reason to know that a country requires participation in or cooperation with an international boycott as a condition of doing business within a country or with the government, a company, or a national of a country, if that person receives what could be interpreted as an official request of that country to participate in or cooperate with an international boycott or if that person knows that others have received such requests. Whether a request could be interpreted as an official request of a country depends on an analysis of the facts and circumstances surrounding the request. However, the request need not be made directly by a government official or representative in order to be interpreted as an official request. Thus, for example, assume that Company C has a contract with the government of a boycotting country to build a dam in that country and is required under the contract to require its subcontractors to agree to participate in or cooperate with the boycott. Assume further that Company C requires Subcontractor D to make such an agreement as a condition of receiving the subcontract to build a generator for the dam. Subcontractor D will be deemed to have reason to know that participation in or cooperation with an international boycott is a condition of doing business within the boycotting country or with the government, a company, or a national of such country.

D. Definition of "Clearly Separate and Identifiable Operations".

D–1. Q: If a person or a member of a controlled group (within the meaning of section 993(a)(3)) enters into an agreement that constitutes participation in or cooperation with an international boycott (within the meaning of section 999(b)(3)), what operations of that person or group will be considered to be operations in connection with which such participation or cooperation occurred?

A: All operations of that person or any member of that group in

(a) the country in connection with which the agreement is made; and

(b) any other country that requires participation in or cooperation with the boycott with respect to which the agreement is made

will be presumed to be operations in connection with which there was participation in or cooperation with an international boycott. (See, however, Answer D–4 for an exception to the presumption in the case of agreements that are unintentional and unauthorized and that relate to a minor aspect of an operation.)

This presumption may be rebutted, however, if the person (or, if applicable, the U.S. shareholder of a foreign corporation) or member of the group clearly demonstrates that a particular operation is a clearly separate and identifiable operation from the operation in connection with which the agreement was made, and that no agreement constituting participation in or cooperation with an international boycott was made in connection with such separate and identifiable operation.

The presumption of participation in or cooperation with the boycott will not apply with respect to operations outside the countries described in (a) and (b) above, but such operations will be considered to be operations in connection with which there was participation in or cooperation with an international boycott if so warranted by the facts.

D–2. Q: Who has the burden of proof of clearly demonstrating that a particular operation is a "clearly separate and identifiable operation" and that there was no participation in or cooperation with an international boycott in connection with that operation?

A: If a person or a member of a controlled group has participated in or cooperated with an international boycott in connection with one or more of its operations, that person (or, if applicable, the U.S. shareholder of a foreign corporation) or that group bears the burden of proof of clearly demonstrating that any other operation is clearly separate and identifiable from the operation in connection with which such participation or cooperation occurred and that no such participation or cooperation occured in connection with the separate and identifiable operation.

D–3. Q: How can a taxpayer determine what constitutes a "clearly separate and identifiable operation"?

A: The determination whether an operation constitutes a clearly separate and identifiable operation must be based on an examination of all the facts and circumstances. The following factors are among those that may be considered in determining whether an operation is clearly separate and identifiable from an operation in connection with which participation in or cooperation with an international boycott occurred:

1. Were the two operations conducted by different corporations, partnerships, or other business entities?

2. Were the operations, whether conducted by separate entities or not, supervised by different management personnel?

3. Did the operations involve distinctly different products or services?

4. Were the operations undertaken pursuant to separate and distinct contracts?

5. If business operations in the countries conducting the international boycott in question were not continuous over time, was each transaction separately negotiated and performed?

The factors listed above are not intended to represent all the factors that will be considered in determining whether an operation is a clearly separate and identifiable operation. Additional factors will be considered if so warranted by the facts. No relative weight is assigned to any specific factor; instead, the weight to be given to any factor will depend on the facts and circumstances of each individual case. In addition, a positive answer to all the listed factors will not necessarily result in a determination that an operation is a clearly separate and identifiable operation if other facts and circumstances suggest that the operation is not clearly separate and identifiable.

D–4. Q: Company C has operations in or related to Country X. In connection with a minor aspect of that operation, an employee of Company C enters into an unintentional and unauthorized boycott agreement. For example, a clerk of Company C signs an invoice for office supplies. On the reverse side of the invoice, a boycott clause is printed in fine print or in a foreign language. Will that agreement give rise to the presumption that all the operations of Company C in or related to a boycotting country are operations in connection with which there is participation in or cooperation with an international boycott?

A: No. An agreement to participate in or cooperate with an international boycott made in connection with a minor aspect of an operation will not taint the operations of Company C in or related to a boycotting country if the agreement was unintentional. Company C has not authorized the employee to agree to participate in or cooperate with the international boycott and Company C does not comply with the terms of the unauthorized boycott clause.

E. Effective Date Provisions.

E–1. Q: What are the effective dates of the reporting requirements and sanctions of the international boycott provisions?

A: Generally, the reporting requirements and the sanctions of the international boycott provisions apply to agreements to participate in or cooperate with an international boycott made after November 3, 1976, and to agreements made on or before November 3, 1976, that continue in effect thereafter. However, there are two exceptions to this general rule. First, the reporting requirements of section 999(a) apply to operations referred to in section 999(a)(1) or (2) after November 3, 1976, whether or not there has been an agreement to participate in or cooperate with an international boycott, and whether or not operations are carried out in accordance with the terms of a binding contract entered into before September 2, 1976. Operations on or before November 3, 1976, are reportable if there has been participation in or cooperation with the boycott during the taxable year after November 3, 1976 (see Answer E–2). Second, in the case of operations carried out in accordance with the terms of a binding contract entered into before September 2, 1976, the sanctions of the international boycott provisions apply only to agreements to participate in or cooperate with an international boycott made on or after September 2, 1976, and to agreements made before that date that continue in effect after December 31, 1977. More details concerning reporting requirements and the application of sanctions for years affected by the effective date of the international boycott provisions are contained in the instructions to Form 5713, in Temp. Regs. § 7.999–1 and in Proposed Regs. § 1.999–1.

E–2. Q: If a person who reports tax liability on a calendar year basis makes an agreement on November 20, 1976, to participate in or cooperate with an international boycott, which of that person's operations conducted during the taxable year are reportable, which operations are included in the international boycott factor calculations, and how are the sanctions applied?

A: All operations of the person during the entire 1976 taxable year (including pre-November 20, 1976, operations) in or related to a boycotting country or with the government, a company, or a national of such country must be reported under section 999(a) and will be considered in calculating the international boycott factor (or the amount of taxes or income specifically attributable to operations in which there was participation in or cooperation with an international boycott) for the taxable year. However, under section 999(c)(1), operations for which the presumption of participation in or cooperation with the boycott has been rebutted need not be reflected in the numerator of the international boycott factor (or under section 999(c)(2), the tax benefits specifically attributable to specific operations for which that presumption has been rebutted will not be denied). See also Temp. Regs. § 7.999–1 and Proposed Regs. § 1.999–1.

The sanctions are applied to the year 1976 on a pro rata basis. If a person uses the international boycott factor for 1976, the factor is applied under sections 908(a), 952(a)(3), and 995(b)(1)(F) after it has been multiplied by the fraction 58/366, representing the numbr of days after the November 3, 1976 effective date remaining during the calendar year. If a person identifies specifically attributable taxes and income, the tax benefits denied under sections 908(a), 952(a)(3), and 995(b)(1)(F) are computed by first ascertaining the tax benefits of the foreign tax credit, deferral, and DISC, respectively, for the taxable year attributable to operations for which the presumption of boycott participation has not been rebutted, and then multiplying those amounts by 58/366.

E–3. Q: If a person having a July 1–June 30 taxable year carries out operations in accordance with the terms of a binding contract entered into before September 2, 1976, and, in furtherance of that contract, makes an agreement on February 15, 1978, to participate in or cooperate with an international boycott, which of the person's operations conducted during the taxable year July 1, 1977–June 30, 1978 are reportable, which operations are included in the international boycott factor calculations, and how are the sanctions applied?

A: All operations of the person during the entire July 1, 1977–June 30, 1978 taxable year (including pre-February 15, 1978 operations) in or related to a boycotting country or with the government, a company, or a national of such country, must be reported under section 999(a) and will be considered in calculating the international boycott factor (or the amount of taxes or income specifically attributable to operations in which there was participation in or cooperation with an international boycott) for the taxable year. However, under section 999(c)(1) operations for which the presumption of participation in or cooperation with the boycott has been rebutted need not be reflected in the numerator of the international boycott factor, and, under section 999(c)(2), the tax benefits specifically attributable to specific operations for which that presumption has been rebutted will not be denied.

The sanctions are applied to the July 1, 1977–June 30, 1978 taxable year on a pro rata basis. If a person uses the international boycott factor for the taxable year, the factor is applied under sections 908(a), 952(a)(3), and 995(b)(1)(F) after it has been multiplied by the fraction 181/365, representing the number of days after the December 31, 1977 effective date remaining during the taxpayer's taxable year. (See also Temp. Regs. § 7.999–1 and Proposed Regs. § 1.999–1.) If a person identifies specifically attributable taxes and income, the benefits to be denied under sections 908(a), 952(a)(3), and 995(b)(1)(F) are computed by first ascertaining the tax benefits of the foreign tax credit, deferral, and DISC, respectively, for the taxable year attributable to operations for which the presumption of boycott participation has not been rebutted and then multiplying those amounts by 181/365.

E–4. Q: What is a binding contract for purposes of the binding contract rule?

A: A binding contract with respect to a person, a member of a controlled group that includes that person, or a foreign corporation of which that person is a United States shareholder is a contract that was, on September 1, 1976, and is at all times thereafter, binding on that person, foreign corporation or member, and under which all material terms are fixed or are ascertainable with reference to an objectively determinable standard.

E–5. Q: If, under a binding contract existing before September 2, 1976, a person made an agreement described in section 999(b)(3), will operations under the contract be subject to the international boycott provisions in years after 1977?

A: Yes, unless the person establishes that, before December 31, 1977, the agreement to participate in or cooperate with the boycott was renounced, the renunciation was communicated to the government or person with which the agreement was made, and the agreement was not reaffirmed after 1977.

E–6. Q: If, under a contract made in 1979, a person who reports tax liability on a calendar year basis makes an agreement described in section 999(b)(3), but does not comply with the agreement after 1980, will operations under the contract be subject to the international boycott provisions in years after 1980?

A: Yes, unless the person establishes that, before December 30, 1980, the agreement to participate in or cooperate with the boycott was renounced, the renunciation was communicated to the government or person with which the agreement was made, and the agreement was not reaffirmed after 1980.

E–7. Q: If, under a contract made after January 1, 1977, a person makes an agreement described in section 999(b)(3), and later renounces the agreement and communicates such renunciation to the government or person with which the agreement was made, which operations of such person during the taxable year of the renunciation are reportable, which operations are included in the international boycott factor calculations, and how are the sanctions to be applied?

A: All operations of the person during the entire taxable year within which the agreement was renounced (including post-renunciation operations) in or related to a boycotting country or with the government, a company, or a national of such country must be reported under section 999(a) and will be considered in calculating the international boycott factor (or the amount of taxes or income specifically attributable to operations in which there was participation in or cooperation with an international boycott) for the taxable year. However, under section 999(c)(1), operations for which the presumption of participation in or cooperation with the boycott has been rebutted need not be reflected in the numerator of the international boycott factor, and the tax benefits specifically attributable to specific operations for which such presumption has been rebutted will not be denied. There is no proration between the pre-renunciation and post-renunciation portions of the taxable year of either the boycott factor or the specifically attributable taxes and income.

E–8. Q: Before September 2, 1976, Company A entered into a binding contract that did not contain an agreement to boycott or by itself support an inference of the existence of an agreement to boycott. However, Company A's course of conduct in carrying out operations in accordance with the terms of the contract evidences that there is an implied agreement that constitutes participation in or cooperation with an international boycott. Will the sanctions of sections 908(a), 952(a)(3), and 995(b)(1)(F) be applied to such participation or cooperation that takes place prior to January 1, 1978 (see section 1066(a) of the Tax Reform Act of 1976)?

A: If the course of conduct from which the existence of the implied agreement was inferred took place before September 2, 1976, then the sanctions of sections 908(a), 952(a)(3), and 995(b)(1)(F) will not be applied to such participation in or cooperation with an international boycott that takes place prior to January 1, 1978. However, if the inference of the existence of the implied agreement would depend on conduct on or after September 2, 1976, then those sanctions will be applied to participation in or cooperation with the international boycott after November 3, 1976 (see section 1066(a)(1) of the Tax Reform Act of 1976).

E–9. Q: Company C entered into a binding contract prior to September 2, 1976 to manufacture and deliver equipment to a customer located in Country X. The contract requires Company C to use no components that are manufactured by blacklisted United States companies. The contract also requires that the vessel on which the equipment is shipped not be blacklisted. On January 15, 1977, Company C is able to have the contract amended to eliminate the requirement regarding components, but is unable to secure any change regarding vessels. Will the amendment regarding components remove the binding contract protection otherwise afforded until December 31, 1977 that Company C has regarding vessels?

A: No. Since Company C could have waited to abrogate or renegotiate its contract until the end of 1977 and since it is in accord with the legislative purpose for Company C to accelerate elimination of the provision regarding components, it will remain protected until December 31, 1977 from the consequences of its continuing to refrain from shipping the goods on blacklisted vessels.

E–10. Q: If before December 31, 1977 a person carries out several different operations in boycotting countries and the only operation of that person that constitutes participation in or cooperation with an international boycott is carried out in accordance with the terms of a binding contract entered into before September 2, 1976, will the existence of that one boycotting operation trigger the section 999(b)(1) presumption that the other operations of that person in boycotting countries are also operations in connection with which boycott participation or cooperation occurred?

A: No. Operations carried out before December 31, 1977, in accordance with the terms of a binding contract entered into before September 2, 1976, will not trigger the section 999(b)(1) presumption.

E–11. Q: Are operations of a person that constitute participation in or cooperation with an international boycott factor reflected in the numerator of a person's international boycott factor before December 31, 1977 if those operations are carried out in accordance with the terms of a binding contract entered into before September 2, 1976?

A: No. Boycotting operations carried out before December 31, 1977 in accordance with the terms of a binding contract entered into before September 2, 1976 are not reflected in the numerator of the international boycott factor. They are reflected in the denominator, however. See Temp. Regs. § 7.999–1 and Proposed Regs. § 1.999–1.

E–12. Q: On June 30, 1976, Company A, a domestic corporation that reports its operations on a calendar basis, disposed of all of its stock in Company C, a foreign corporation. Will Company A be required to report any operations, requests or participation or cooperation of Company C for calendar year 1976? Will the operations of Company C be included in Company A's international boycott factor for 1976?

A: No. Since Company A did not own any stock of Company C after the effective date of the boycott provisions, Company A is not required to report any operations, requests or participation or cooperation of Company C in 1976 and will exclude Company C's op-

erations from its international boycott factor computations.

E–13. Q: Are operations, requests or participation in or cooperation with an international boycott of a person for that person's taxable year that ends before November 4, 1976 required to be reported, either by that person or by any other person?

A: No, operations, requests and participation in or cooperation with an international boycott of a person for that person's taxable year that ends before November 4, 1976 need not be reported by any person. However, as stated in Answers E–1 and E–2, operations, requests and participation in or cooperation with an international boycott occurring or received before November 4, 1976 during a taxable year that ends on or after that date are reportable if there has been participation in or cooperation with an international boycott during that taxable year but on or after that date.

F. *International Boycott Factor.*

F–1. Q: How is the international boycott factor computed?

A: Section 999(c)(1) provides that the international boycott factor is determined under regulations prescribed by the Secretary. The international boycott factor is a fraction, the numerator of which reflects the boycotting operations of a person (or group) in or related to countries associated in carrying out the international boycott and the denominator of which reflects the person's (or group's) worldwide foreign operations. Temporary and proposed regulations setting forth the method of determining the international boycott factor were issued in February, 1977. See Temp. Regs. § 7.999–1 and Proposed Regs. § 1.999–1.

F–2. Q: In the case of a controlled group (within the meaning of section 993(a)(3)) is a single international boycott factor computed for the entire group?

A: Yes. All members of a controlled group share a single, common international boycott factor which reflects the operations of all members of the controlled group.

F–3. Q: Once an international boycott factor has been computed for a controlled group (within the meaning of section 993(a)(3)), how is the factor applied to individual members of the group?

A: The international boycott factor of a controlled group is applied separately under sections 908(a), 952(a)(3), and 995(b)(1)(F) to each individual member of the controlled group.

F–4. Q: If a person applies the international boycott factor to some operations during the taxable year, must the factor be applied to all operations of that person for the taxable year?

A: Yes. If a person applies the international boycott factor to one operation during the taxable year, the factor must be applied to all operations during the taxable year under each of sections 908(a), 952(a)(3), and 995(b)(1)(F). If a person identifies specifically attributable taxes and income under section 999(c)(2), that method must be applied to all operations during the taxable year and must be applied under each of sections 908(a), 952(a)(3), and 995(b)(1)(F).

F–5. Q: In the case of a controlled group (within the meaning of section 993(a)(3)), may one member use the international boycott factor under section 999(c)(1) and another member identify specifically attributable taxes and income under section 999(c)(2)?

A: Yes. Each member may independently choose either to apply the international boycott factor under section 999(c)(1) or to identify specifically attributable taxes and income under section 999(c)(2). The method chosen by each member for determining the loss of tax benefits must be applied consistently to determine all loss of tax benefits of that member. For example, if one member of a controlled group, Company A, chooses to use the international boycott factor, then it must apply the international boycott factor to determine its loss of the section 902 indirect foreign tax credit in respect of a dividend paid to it by another member of the controlled group, Company C, even if Company C determines its loss of tax benefits by identifying specifically attributable taxes and income. Company A would also determine the amount deemed distributed to it under sections 995(b)(1)(F) and 952(a)(3) by applying its international boycott factor to the otherwise deferrable earnings of its DISCS or controlled foreign corporations. In addition, if an affiliated group of corporations files a consolidated return, then the affiliated group must determine its loss of tax benefits either by applying the international boycott factor to the consolidated return, or by having each member determine its loss of tax benefits by identifying specifically attributable taxes and income.

F–6. Q: If a person chooses to determine its loss of tax benefits by applying the specifically attributable taxes and income method set forth in section 999(c)(2), may it demonstrate the amount of foreign taxes paid and income earned attributable to the specific operations by applying an overall effective rate of foreign taxes and an overall profit margin to each operation?

A: No. A person must clearly demonstrate foreign taxes paid and income earned attributable to specific operations by performing an in-depth analysis of the profit and loss data of each separate and identifiable operation. The principles of Regs. § 1.861–8 are applicable in determining income and taxes attributable to specific operations.

F–7. Q: A United States partnership has operations in a boycotting country. Is the international boycott factor computed at the partnership level?

A: No. The international boycott factor is computed separately by each partner based on information submitted by the partnership and on other activities of that partner. Of course, if the partner can meet the conditions of section 999(c)(2) of the Code, he need not use the international boycott factor.

F–8. Q: A person desires to determine its loss of tax benefits by applying the specifically attributable taxes and income method set forth in section 999(c)(2). That person is able to clearly demonstrate that a specified portion of its operations in or related to a boycotting country constitute clearly separate and identifiable operations in connection with which there was no participation in or cooperation with an international boycott. That person is also able to clearly demonstrate the taxes and income attributable to those operations. With respect to the remainder of its operations in or related to a boycotting country, that person is either unable to clearly demonstrate clearly separate and identifiable operations in connection with which there was no participation in or cooperation with an international boycott or to identify taxes and income specifically attributable to operations in connection with which there was such participation or cooperation. Under these facts, will that person be required to determine its loss of tax benefits by applying the international boycott factor?

A: No. That person may compute its loss of tax benefits by applying the specifically attributable taxes and income method if it forfeits the benefits of deferral, DISC and the foreign tax credit attributable to:

1. the portion of its operations for which it can determine taxes and income specifically attributable to separate and identifiable operations in connection with which there was participation in or cooperation with an international boycott, and

2. the remaining portion of its operations for which it cannot demonstrate that the taxes and income are specifically attributable to separate and identifiable operations in connection with which there was no participation in or cooperation with an international boycott.

F–9. Q: If a person chooses to compute its loss of tax benefits in one year by applying the international boycott factor, may that person compute its loss of tax benefits in another year using the specifically attributable taxes and income method?

A: Yes. The election to use the international boycott factor or the specifically attributable taxes and income method is an annual election. The election is made by completing the appropriate Schedule A or B to Form 5713.

F–10. Q: In 1978 a person computes its loss of tax benefits using the international boycott factor. On audit, it is determined that adjustments are to be made to the international boycott factor. May that person then recompute its loss of tax benefits for 1978 using the specifically attributable taxes and income method?

A: Yes. A person may change its method of computing loss of tax benefits under the international boycott provisions at any time for any open taxable year.

G. *Determinations.*

G–1. Q: What degree of confidentiality will determinations, and requests for determinations, under section 999(d) receive?

A: A determination under section 999(d) will be treated as a "written determination" within the meaning of section 6110(b)(1). Therefore the determination and any background file document related thereto will be subject to public inspection in accordance with the rules set forth in section 6110, and subject to the deletions set forth in section 6110(c).

G–2. Q: What procedures are applicable to requests for, and the issuance of, determinations under section 999(d)?

A: The procedures applicable to requests for, and the issuance of, determinations under section 999(d) are set forth in Revenue Procedure 77–9, 1977–10 IRB 12.

H. *Definition of an Agreement to Participate in or Cooperate with a Boycott (section 999(b)(3)).*

H–1. Q: Company C, a trading company, signs a contract with Country X to export goods to Country X. The contract contains a clause requiring Company C not to obtain any of the goods from any person blacklisted by Country X. Does Company C's entering into the contract constitute an agreement according to section 999(b)(3)?

A: Generally, entering into a written or oral agreement that includes a provision requiring a person to refrain from doing business with a person blacklisted by Country X (or by a group of countries associated with Country X in carrying out an international boycott directed against Country Y) constitutes participation in or cooperation with an international boycott within the meaning of section 999(b)(3). Blacklists are normally maintained to provide a convenient list of persons that engage in business with Country Y or engage in other activities that are inconsistent with the boycott. Thus, reference in an agreement to "a blacklist" can normally be assumed to be to such a list.

However, entering into the agreement does not constitute participation in or cooperation with an international boycott if it is established that the blacklist is maintained for reasons other than furtherance of the boycott or if it is established that no person on the blacklist is either (1) blacklisted because it is the government, a company or a national of Country Y or because its ownership, management or directors is made up

of individuals of a particular nationality, race or religion or (2) a U.S. person blacklisted because it is engaged in trade with Country Y or with the government, a company or a national of Country Y.

H–2. Q: During the course of negotiations concerning a contract for the export of goods to Country X, Company C, a trading company, and Country X agree orally that Company C will not purchase any of the goods from any company included on a blacklist shown to Company C's representatives. They also agree that this agreement will not be reflected in the written contract for the export of the goods or in any other writing. Does the oral understanding between Company C and Country X constitute an agreement according to section 999(b)(3)?

A: Generally, yes. See Answer H–1.

H–3. Q: Company C signs a contract with Country X to construct an industrial plant in Country X. The contract states that the laws, regulations, requirements or administrative practices of Country X will apply to Company C's performance of the contract in Country X. The laws, regulations, requirements or administrative practices of Country X prohibit the importation into Country X of goods manufactured by any company engaged in trade in Country Y or with the government, companies or nationals of Country Y. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: No, The existence of an agreement will not be inferred solely from the inclusion in a contract of a provision stating that the laws, regulations, requirements or administrative practices will apply to the performance of the contract in that country. However, a course of conduct of complying with such laws, regulations, requirements or administrative practices may evidence such an agreement.

H–4. Q: The facts are the same as those in Question H–3, except that the contract states that Company C will comply with the laws, regulations, requirements or administrative practices of Country X in its performance of the contract in Country X. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: Yes. Entering into a contract that requires compliance with the laws, regulations, requirements or administrative practices of Country X constitutes an agreement according to section 999(b)(3), if some of those laws prohibit the importation into Country X of goods manufactured by any company engaged in trade in Country Y or with the government, companies or nationals of Country Y.

H–5. Q: Company C, a trading company, signs a contract with Country X to export goods to Country X. The contract contains no clause concerning a boycott, nor does it require Company C to comply with the laws, regulations, requirements or administrative practices of Country X, which, among other things, prohibit the importation into Country X of goods manufactured by persons engaged in trade in Country Y. Company C does not purchase any goods with which to fulfill its obligations under the contract from any U.S. company engaged in trade in Country Y or with the government, companies or nationals of Country Y. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: Where there is no express agreement, the existence of an agreement will not be inferred solely from the fact that Company C has not, consistent with the laws, regulations, requirements or administrative practices of Country X, purchased goods with which to fulfill its obligations under the contract from any U.S. company engaged in trade in Country Y or with the government, companies or nationals of Country Y. However, the fact that Company C has not purchased goods manufactured by persons engaged in trade in Country Y suggests that Company C has entered into such an agreement. Thus, Company C's course of conduct pursuant to its contract with Country X is evidence that, together with other evidence, could be sufficient to establish an implied agreement unless Company A could show to the contrary. An example of other sufficient evidence is proof that Company C had in the past purchased goods from persons engaged in trade in Country Y but such purchases were reduced in volume or brought to a halt following the execution of the contract. An example of proof to the contrary is proof that the reduction in purchases from persons engaged in trade in Country Y was attributable to valid business reasons apart from the boycott.

H–6. Q: Questions and Answers H–1, H–2, H–4, and H–5 all involve contracts for the export of goods by Company C to Country X and either an explicit agreement, or an inferred agreement, by Company C to refrain from doing business with companies that are blacklisted by Country X. The issue of whether an agreement exists for purposes of section 999(b)(3) would be resolved in the same way as in each of the answers above were the contract for (a) the supply of services to Country X or (b) a construction project in Country X.

A: No, The existence of an agreement will not be inferred solely from the inclusion in a contract of a provision stating that the laws, regulations, requirements or administrative practices will apply to the performance of the contract in that country. However, a course of conduct of complying with such laws, regulations, requirements or administrative practices may evidence such an agreement.

H–7. Q: (a) Company C incorporates a subsidiary in Country X. In the documents submitted by Company A relating to the incorporation of the subsidiary there is a general acknowledgement that the subsidiary is subject to the laws, regulations, requirements and administrative practices of Country X.

(b) Company C establishes a branch in Country X. In the documents relating to its registration of the branch there is a general acknowledgement that the laws, regulations, requirements and administrative practices of Country X apply to the branch.

Included in the laws, regulations, requirements or administrative practices of Country X is a requirement that companies incorporated in Country X and branches registered in Country X refrain from doing business with any person engaged in trade in Country Y. Does either the acknowledgement of the subsidiary or the undertaking of the branch constitute an agreement by Company C for purposes of section 999(b)(3)?

A: The mere acknowledgement in incorporation or registration documents of the general applicability of the laws of a boycotting country will not support the inference of the existence of an agreement under section 999(b)(3). However, a course of conduct of complying with such laws, regulations, requirements or administrative practices may evidence such an agreement. In addition, if the incorporation or registration documents state that the subsidiary or branch will comply with the laws, rules, regulations, requirements or administrative practices, there is an agreement according to section 999(b)(3).

H–8. Q: Company C, a trading company, signs a contract with Country X to export goods to Country X. The contract contains no clause concerning a boycott, nor does it require the contract to be carried out in accordance with the laws, regulations, requirements or administrative practices of Country X, which prohibit the importation into Country X of goods manufactured by persons engaged in trade with Country Y. Payment is made by means of a letter of credit that requires, as a condition of payment, that Company C provide Bank D with a certificate that the goods were not manufactured by a person blacklisted by Country X. Company C provides the required certificate to Bank D. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: Generally, yes. See Answer H–1. The terms of the letter of credit are part of the agreement entered into by Company C.

H–9. Q: Company C signs a contract with Country X to carry out a construction project in Country X. The contract says nothing about the nationality, race or religion of the individuals who are to be employed to carry out the contract within Country X. However, Company C is aware that the laws, regulations, requirements or administrative practices of Country X may prohibit the issuance of visas by Country X to individuals of religion R to work on projects in that country. Company C excludes from consideration for employment individuals of that religion to work on the project in Country X. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: In the absence of an express agreement, the existence of an agreement normally will not be inferred solely from the fact that a person's action is apparently consistent with the boycott requirements of Country X, although such action may evidence the existence of an agreement. However, since Company C's action in excluding from employment consideration individuals of religion R violates other statutes and since it is highly unlikely that that there are valid business reasons for such action, an agreement under section 999(b)(3) will be inferred unless Company C can establish that such action was not related to the boycott requirements. It would be unusual if Company C were able to establish that such action were not related to the boycott requirements.

H–10. Q: Company C signs a contract for a construction project with Country X. The contract says nothing about the nationality, race or religion of the individuals who are to be employed to carry out the contract within Country X. However, Company C is aware that the laws, regulations, requirements or administrative practices of country X may prohibit the issuance of visas to individuals of religion R. Company C, in recruiting people for the project, informs all applicants that if they cannot obtain a visa to enter Country X, their employment will be terminated. It employs several individuals of religion R who are unsuccessful in obtaining visas and whose employment is subsequently terminated. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: No. Company C has not refrained from employing individuals of religion R for the project. The existence of an agreement to refrain from employing individuals of Religion R will not be inferred from Company C's action.

H–11. Q: The facts are the same as those in Question H–10, except that Company C makes its employment contracts with all individuals for work on the project subject to the condition that they obtain visas from Country X that will permit them to work in Country X. Few, if any, individuals of religion R to whom Company C offers employment in Country X are successful in obtaining visas. Does such action by Company C constitute an agreement according to section 999(b)(3)?

A: No. Company C has offered employment to all individuals who are able to obtain visas. If an individual is unable to obtain a visa, it is due to the requirements of

Country X. The existence of an agreement by Company C will not be inferred from Company C's action.

H–12. Q: The facts are the same as those in Question H–10, except that no individuals of Religion R are willing to except employment on the terms offered by Company C. Does such action by Company C constitute an agreement according to section 999(b)(3)?

A: No, for the reasons given in Answer H–10.

H–13. Q: Company C signs a contract with Country X to carry out a construction project in Country X. The contract says nothing about who may or may not be a subcontractor to do certain work in Country X other than that Country X has the right to prior approval of any subcontractors. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: The contract provision given the project owner a right of prior approval does not itself constitute an agreement according to section 999(b)(3). However, the provision may be evidence which, together with other evidence, could be sufficient to establish the existence of an implied agreement, unless Company C could show to the contrary. There may be valid business reasons for the provision apart from the boycott. On the other hand, the provision may be merely a subterfuge for Company C's cooperation in the exclusion of subcontractors that are engaged in trade in Country Y.

H–14. Q: Company C signs a contract with Country X to carry out a construction project in Country X. The contract specifies a number of permissible subcontractors. All the subcontractors, in the view of Company C, are capable of carrying out the work, but none of them appears on a list of companies that are blacklisted by Country X. Company C has previously done business with each of the specified companies, but it has also done business with certain of the blacklisted companies with which it has had satisfactory relations. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: By entering into a contract that on its face indicates a pattern of exclusion of certain companies, including companies with which Company C has no particular reason not to do business, it would appear that Company C has agreed to refrain from doing business with the boycotted companies, unless Company C is able to show that the boycotted companies were not included on the list for reasons not related to the boycott. See Answer H–1.

H–15. Q: Company C signs a contract with Country X to carry out a construction project in Country X. The contract provides that Country X is to engage all the subcontractors that are to be engaged from outside Country X but that are to perform all or part of their services in Country X. Company C, however, is given the right to disapprove any company that Country X proposes to engage for a subcontract. While the contract is being carried out, none of the companies that Country X proposes to prequalify or invite to bid are included on a list of companies blacklisted by Country X. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: Under the language of the contract, Company C has not agreed to refrain from doing business with companies that are on the blacklist. The contract moreover does not give Company C the right to select subcontractors other than those nominated by Country X. Therefore, Company C's action does not constitute an agreement according to section 999(b)(3). Nevertheless, an agreement may be inferred if Company C cooperates in the exclusion of blacklisted subcontractors. See Answer H–13.

H–16. Q: Company C signs a contract for a construction project with Country X. The contract states that any disputes arising under the contract will be resolved in accordance with Country X's laws. The laws of Country X contain boycott provisions. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: No. The provision that disputes will be resolved in accordance with Country X's laws does not constitute Company C's agreement to comply with Country X's boycott laws with respect to the carrying out of the contract.

H–17. Q: Company C receives an inquiry from Country X about certain goods that Company C manufacturers. The inquiry also requests Company C to furnish information about the following matters: whether it does business with Country Y and whether it does business with any United States person engaged in trade in Country Y. Company C furnishes the requested information to Country X. Later Company C signs a contract with Country X to export goods to Country X. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: By furnishing such information Company C has not agreed to take any action, as a condition of doing business with Country X, that is described in section 999(b)(3). Nevertheless, the furnishing of such information is suspect and, when combined with a course of conduct that is consistent with an agreement to participate in or cooperate with an international boycott, will support an inference that such an agreement exists.

H–18. Q: Company C, a trading company, signs a contract with Country X to export goods to Country X. The contract contains a clause requiring Company C not to obtain any of the goods from any company blacklisted by Country X. Company C, however, purchases some of the goods from one of the listed companies. Does Company C's entering into this contract constitute an agreement according to section 999(b)(3)?

A: Generally, entering into a written contract that includes a provision requiring Company C to refrain from doing business with a person blacklisted by Country X constitutes participation in or cooperation with an international boycott within the meaning of section 999(b)(3), even if Company C, fully or partially, does not abide by the boycott provisions. See Answer H–1.

H–19. Q: Company C signs a contract with Country X to export goods to Country X. Included in the contract is a provision that Company C will refrain from doing business with Country Y. Company C has done considerable business with Country Y in the past, but soon after it concludes that contract with Country X its distributor in Country Y, learning of the contract with Country X, refuses to continue to handle Company C's products and Company C tries but is unable to conclude any other satisfactory distribution arrangement in Country Y. Does Company C's entering into this contract constitute an agreement according to section 999(b)(3)?

A: Yes. Entering into an agreement to refrain from doing business with a boycotted country constitutes participation in or cooperation with an international boycott within the meaning of section 999(b)(3)(A)(i), even if Company C does not abide by, or intend to abide by, the terms of the agreement.

H–20. Q: Company C has been unable to do business with Country X because Company C has been on a blacklist of companies maintained by an organization of countries to which Country X belongs. Company A agrees, as a condition of being removed from the list, to refrain from doing business with Country Y. Does Company C's agreement constitute an agreement according to section 999(b)(3)?

A: Yes. Even though Company C has not yet entered into a contract to do business with any boycotting country, it has agreed, as a condition for being in a position to do business with one or more of the countries maintaining the blacklist, to refrain from doing business with Country Y. This action constitutes an agreement according to section 999(b)(3)(A)(i).

H–21. Q: The facts are the same as those in Question H–20, except that Company C does several different types of business with Country Y. It is requested to, and agrees to, refrain from doing only one of those types of business with Country Y, and in fact continues to do the other types of business with Country Y. Does Company C's agreement constitute an agreement according to section 999(b)(3)?

A: Yes. An agreement to refrain from some, but not all, business with a boycotted country constitutes an agreement according to section 999(b)(3)(A)(i). Answer H–20 is also relevant to this context.

H–22. Q: Company C is doing business in Country X. It contracts with Company D, which is not related to Company C, for Company D to build an office building for Company C's use in Country X. In the course of constructing the building, Company D participates in or cooperates with an international boycott imposed by Country X. Does Company C's actions constitute an agreement according to section 999(b)(3)?

A: Unless Company C directs or requires Company D to take action that constitutes participation in or cooperation with the boycott by Company D, or unless Company C's relationship with Company D is established to facilitate participation in or cooperation with the boycott, Company D's action will not be attributable to Company C under section 999(b)(3), and Company C will not be deemed to be participating in or cooperating with an international boycott.

H–23. Q: Company C signs a contract with Country X for the export of goods to Country X. The contract does not contain any provisions as to which ships should be used for shipping the goods to Country X or which insurance companies should be used. The laws, regulations, requirements, or administrative practices of Country X do not permit the importation of goods carried on a ship owned by, or insured by, companies that trade in Country Y. Company C is aware of this requirement and ships the goods on the ships of a company, and insures the goods with a company, that does not trade in Country Y. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: As indicated by Answer H–5, the existence of an agreement will not be inferred solely from the fact that Company C ships its goods on ships of, or insures the goods with, a company that does not trade in Country Y. However, those facts, together with additional facts, may be sufficient to establish that such an agreement exists.

H–24. Q: Company C is competing for an industrial plant construction contract for which Country X is inviting international tenders. The tender documents contain a provision to the effect that Country X will not enter into the contract unless the successful tenderer certifies that in carrying out the contract it will refrain from doing business with companies blacklisted by Country X. Company C does not win the tendering, but in its tender it has indicated that it will sign a contract, in the form indicated in the tender documents, and has given Country X a tender bond to that effect. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: Since its offer was not accepted, Company C has not entered into any agreement to refrain from doing business with the blacklisted companies that would constitute participation in or cooperation with an international boycott. Nevertheless, Company C's stated willingness to cooperate with Country X's boycott will be contributing factor in establishing a course of conduct from which to infer the existence of an agreement in other transactions between Company C and Country X.

H–25. Q: Company C successfully prequalifies to tender for a contract for the construction of an industrial plant that will be owned by Country X. At the time it attempts to prequalify, Company C is required to state that it understands that the successful tenderer for the contract will have to agree not to do business in connection with the project with any company blacklisted by Country X or with the government, companies or nationals of Country Y. After it prequalifies, Company C decides not to tender for the contract. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: Since Company C did not tender, it did not enter into an agreement to refrain from doing business with the blacklisted companies. Thus, there was no agreement that would constitute participation in or cooperation with an international boycott. Nevertheless, Company C's stated willingness to cooperate with Country X's boycott will be a contributing factor in establishing a course of conduct from which to infer the existence of an agreement in other transactions between Company C and Country X.

H–26. Q: Company C competes for an industrial plant construction contract for which Country X is inviting international tenders. The tender documents contain a provision to the effect that Country X will not enter into a contract unless the successful tenderer certifies that in carrying out the contract it will refrain from doing business with any company blacklisted by Country X. Company C wins the tender and successfully convinces Country X that the boycott clause should be deleted from the final contract. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: No. Company C's success in deleting the boycott clause from the final contract refutes the provision of the tender documents that would have required Company C to agree to participate in or cooperate with an international boycott according to section 999(b)(3). However, if the deletion of the boycott clause is not accomplished in good faith or is a subterfuge to mask an unstated understanding to participate in or cooperate with an international boycott, the existence of an agreement will be inferred.

H–27. Q: Company A charters a vessel to Company C to be used by Company C in carrying its goods to Country X. Company C, at the request of Company A, agrees in the charter agreement not to take any action with respect to, or issue any orders to, the vessel that would result in limiting the vessel's ability to call at ports in Country X or subject the vessel to arrest or confiscation in Country X. Does the action of Company C constitute participation in or cooperation with an international boycott according to section 999(b)(3)?

A: No. In the agreement, Company C has not agreed to refrain from taking any of the actions enumerated in section 999(b)(3) as a condition of doing business directly or indirectly within a boycotting country or with the government, a company, or a national of a boycotting country.

H–28. Q: Company A charters a vessel to Company C to be used by Company C in carrying its goods to or from specifically named ports, or a range of ports within a specified geographical area. Company A and Company C agree on a charter agreement which would, in effect, preclude that vessel from calling at a number of countries, including Country Y. Does the action of Company C constitute participation in or cooperation with an international boycott under section 999(b)(3)?

A: No. In the agreement, Company C has not agreed to refrain from taking any of the actions enumerated in section 999(b)(3) as a condition of doing business directly or indirectly within a boycotting country or with the government, a company or a national of a boycotting country.

H–29. Q: Company A signs a contract with Country X for the export of goods to Country X. The contract provides that Company A will not trade in Country Y, and that payment will be made by means of a letter of credit confirmed by Bank C in the United States. The letter of credit requires Company A to provide to Bank C a certificate that it has not engaged in trade with Country Y before it can be paid by Bank C. Bank C confirms the letter of credit and later makes payment to Company A after determining that all documents, including the boycott certificate, are in order. Does Bank C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)?

A: Yes. Bank C's action constitutes an agreement by it to refrain from doing business with a United States person (Company A) engaged in trade with Country Y. Therefore Bank C's action constitutes participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii). (Company A's action constitutes participation in or cooperation with an international boycott by Company A according to section 999(b)(3)(A)(i).)

H–30. Q: Company C signs a contract with Country X for the supply of goods. The contract provides that Company C will not trade with Country Y, and that payment will be made by means of a letter of credit confirmed by Bank D in the United States provided that Bank D certifies to Country X that it will not confirm letters of credit relating to the export of goods to Country Y. Bank D confirms the letter of credit, after issuing the requested certificate. Does Bank D's action constitute participation in or cooperation with an international boycott under section 999(b)(3)?

A: Yes. Bank D has agreed to refrain from doing business with or in Country Y, or with the government, companies or nationals of Country Y, and with U.S. persons engaged in trade in Country Y or with the government, companies or nationals of Country Y. This action constitutes participation in or cooperation with an international boycott according to section 999(b)(3)(A)(i) and (ii).

H–31. Q: Company C signs a contract with Country X for the export of goods to Country X. The contract, consistent with the laws of Country X, provides that the goods may not be produced in whole or in part in Country Y or contain any parts, raw materials or labor originating in Country Y. The contract also provides that payment will be made by means of a letter of credit confirmed by Bank D. The letter of credit requires Company C to provide to Bank D a certificate that the goods were not produced in whole or in part in Country Y and contain no parts, raw materials or labor originating in Country Y before it can be paid by Bank D. Bank D confirms the letter of credit and later makes payment to Company C after determining that all documents, including the certificate, are in order. Does Bank D's action constitute a participation in or cooperation with an international boycott under section 999(b)(3)?

A: No. Bank D's action constitutes an agreement to comply with a prohibition on the importation of goods produced in whole or in part in a country that is the object of an international boycott. Therefore Bank D's action, according to section 999(b)(4)(B), does not constitute participation in or cooperation with an international boycott. (Similarly, Company C's action does not constitute participation in or cooperation with an international boycott. See Answer I–1.)

H–32. Q: Company C, a trading company, signs a contract with Country X to export goods to Country X. The contract contains no clause concerning a boycott, nor does it require the contract to be carried out in accordance with the laws, regulations, requirements or administrative practices of Country X, which prohibit the importation into Country X of goods manufactured by persons engaged in trade with Country Y and which require import licenses. In order to obtain an import license, Company C provides a certificate indicating that the goods were not manufactured by a person engaged in trade in Country Y or with the government, companies or nationals of Country Y. Does Company C's action constitute an agreement according to section 999(b)(3)?

A: No. The signing (at the time of import) of a certification as to content, which is required to obtain an import license, does not by itself constitute an agreement. However, a course of conduct of providing such certificates may, along with other factors, be evidence of the existence of an agreement according to section 999(b)(3)(A)(ii).

I. *Refraining from Doing Business with or in a Boycotted Country (section 999(b)(3)(A)(i)).*

I–1. Q: Company C signs a contract with Country X for the export of certain goods to Country X. In that contract, consistent with the laws of Country X, there is a provision that none of the goods to be provided thereunder shall be produced in whole or in part in Country Y or contain any parts, raw materials or labor from Country Y. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A: No. Company C in entering into such a contract is complying with the prohibition by Country X on the importation of goods produced in whole or in part in any country which is the object of an international boycott. Such action, according to section 999(b)(4)(B), does not constitute participation in or cooperation with an international boycott.

I–2. Q: Company C owns a number of ships. It understands that if one of its ships visits Country Y, that ship will thereafter be unable to visit Country X. Company C has some ships which visit Country Y but not Country X and other ships which visit Country X but not Country Y. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A: No. Company C has not agreed to refrain from doing business with Country Y. Therefore Company C's action does not constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(i).

I–3. Q: Company C signs a contract with Country X, licensing a company in Country X to use certain of its patents and trademarks in Country X. The contract provides that Company C will not enter into an agreement with any national of Country Y with respect to the use in Country Y of patents and trademarks. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(1)?

A: Yes. Company C has agreed to refrain from doing business with any national of Country Y and such action constitutes participation in or cooperation with an international boycott according to section 999(b)(3)(A)(1).

I–4. Q: The facts are the same as in Question I–3, except that Company C has a number of other licensing agreements with Country Y and enters into still more such agreements after it signs the contract with Country X. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(1)?

A: Yes, for the same reasons as stated in Answer I–3 above. Answer H–18 is relevant in this context.

I–5. Q: Company C signs a contract with Country X to export some products from Country X. The contract, consistent with the laws of Country X, requires Company C to certify that the goods will not be sent to Country Y. Company A so certifies. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(1)?

A: No. Company C's compliance with Country X's prohibition on the exportation of products of Country X to Country Y does not constitute participation in or cooperation with an international boycott, according to section 999(b)(4)(C).

I–6. Q: Company C signs a contract with Country X for the export of goods to Country X. In the contract there is a provision that no capital of Country Y origin will be used in the production or manufacturing of the goods. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(1)?

A: Yes. Under the terms of the agreement Company C has agreed to refrain from doing business with the government, a company or a national of Country Y.

I–7. Q: Company C enters into a contract with Country X for the manufacture and sale of goods and the provision of customer support services. The contract provides that Company C may assign its rights and obligations under the contract. The contract further provides that the rights and obligations cannot be assigned to a company incorporated under the laws of Country Y without the express approval of Country X. There is no similar requirement with respect to companies incorporated under the laws of other countries. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(1)?

A: The contract provision requiring Company C to obtain the approval of Country X prior to an assignment of the rights and obligations to a company incorporated under the laws of Country Y does not itself constitute an agreement under section 999(b)(3)(A)(1). However, the provision is strong evidence that, and is sufficient to create a presumption that, Company C has an implied agreement to refrain from doing business with a company of Country Y. Company C may overcome this presumption by establishing the existence of valid business reasons for this provision apart from the boycott or by establishing that Country X approves, as a matter of course, assignments of rights and obligations under the contract to companies in Country Y.

J. Refraining from Doing Business with any United States Person Engaged in Trade in a Boycotted Country (section 999(b)(3)(A)(ii)).

J–1. Q: Company C signs a contract with Country X for the turn-key construction of an industrial plant. The contract provides that Company C will not use as subcontractors a number of named U.S. firms whose past performance on contracts in Country X has been unsatisfactory, according to Country X, for reasons unrelated to the boycott. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A: No. The exclusion of subcontractors based on their performance is not covered by section 999(b)(3).

J–2. Q: Company C enters into a contract with Country X to export certain goods to Country X. The contract provides that Company C shall not use any goods manufactured by Company A in performing the contract since Company A is blacklisted by Country X even though Company A does not engage in any kind of trade in a country which is the object of the boycott or with the government, companies, or nationals of that country. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A: Generally, entering into a written or oral agreement that includes a provision requiring a person to refrain from doing business with a person blacklisted by Country X (or by a group of countries associated with Country X in carrying out an international boycott directed against Country Y) constitutes participation in or cooperation with an international boycott within the meaning of section 999(b)(3). If Company C can establish that Company A is not engaged in trade in Country Y or with the government, companies or nationals of Country Y, Company C's agreement to refrain from doing business with Company A does not come within the scope of section 999(b)(3)(A)(ii). However, Company C's action may constitute an agreement under section 999(b)(3)(A)(iii) unless Company C can establish that Company A is not blacklisted because of the nationality, race or religion of its owners, management or directors. Answer H–1 is relevant in this context.

J–3. Q: Company C competes for an industrial plant construction contract for which Company P of Country W is inviting international tenders. The contract is to be financed by Country X, which maintains a blacklist of companies. Country X requires contracts which it finances to state that the contractor is required to refrain from making any purchases for the project from any of the blacklisted companies. Country W does not boycott those companies. Company C wins the tender and signs the contract with Company P with the blacklist provision. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii)?

A: Generally, yes. See Answer H–1. Although the boycott is not implemented by Country W, but by Country X, and the project is being carried out in Country W, Company C may have agreed not to do business with blacklisted U.S. companies as a condition of doing business indirectly with Country X.

J–4. Q: Company C signs a contract with Country X to export certain goods to Country X. The contract provides that Company C will not do business with any company blacklisted by Country X. Company C establishes that although a number of the blacklisted companies are foreign subsidiaries of U.S. companies, no U.S. companies are on the list. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A: No. According to section 999(b)(3)(A)(ii), refraining from doing business with any United States person engaged in trade in a boycotted country constitutes participation in or cooperation with an international boycott. For purposes of this particular section "United States person" does not include foreign subsidiaries of a United States person. However, Company C's action may constitute an agreement under section 999(b)(3)(A)(i) or (iii). Answer H–1 is relevant in this context.

J–5. Q: Bank C advises Country X on its investments in the United States. Country X instructs Bank C not to recommend for investment any shares of certain companies that are blacklisted by Country X. Bank C follows these instructions. Does Bank C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii)?

A: No. The recommendation of shares of certain companies by Bank C does not constitute "doing business" with those companies. Therefore Bank C's action does not constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii). Nor does Bank C's action constitute an agreement under section 999(b)(3)(A)(i) or (iii).

J–6A. Q: Bank C manages Country X's investment portfolio in the United States. Bank C has been given certain powers to act for Country X, pursuant to instructions that, among other things, require Bank C not to invest Country X's funds in stocks and bonds issued by certain blacklisted United States companies. Bank C is authorized by Country X to purchase and sell stocks and bonds only through recognized exchanges. Does Bank C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii)?

A: No. Since purchasing stocks or bonds issued by a company, through recognized exchanges, does not constitute "doing business" with that company, an agreement to refrain from purchasing stocks or bonds issued by a company does not constitute an agreement to refrain from doing business with that company. Accordingly, Bank C's action does not constitute participation in or cooperation with an international boycott, according to section 999(b)(3)(A)(ii). Nor does Bank C's action constitute an agreement under section 999(b)(3)(A)(i) or (iii).

J–6B. Q: The facts are the same as in Question J–6A, except that Bank C is also authorized to purchase original issues of stocks and bonds directly from the issuing company. Does Bank C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii)?

A: Generally, yes. An agreement not to purchase original issues of stocks or bonds from a company blacklisted by Country X may constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii). In addition, the agreement may constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(i) and (iii). Answer H–1 is relevant in this context.

J–7. Q: Company C signs a contract with Country X to construct an industrial plant in Country X. The laws, regulations, requirements or administrative practices of Country X prohibit the entry into Country X of goods produced by blacklisted companies. The contract states that the laws and regulations of Country X will apply to Company C's performance of the contract in Country X. In carrying out the project, Company C invites bids to furnish all goods and equipment on a delivered-in-Country X basis. No company on the blacklist maintained by Country X bids. Does Company C's action, as described in this question, constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A: No. By the terms of the agreement Company C has not agreed to refrain from doing business with any of the blacklisted companies. The fact that blacklisted companies are unable to meet the conditions that Company C establishes is not due to any agreement by Company C with Country X, but is due to Country X's laws, regulations, requirements or administrative practices.

J–8. Q: The facts are the same as those in Question J–7, except that Company C's purchase contracts require vendors to reimburse Company C for the purchase price and transportation costs, plus interest, of any goods that Company C cannot import into Country X because of Country X's import restrictions. In this case, does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A: No, for the reasons given in Answer J–7.

J–9. Q: Company C signs a contract with Country X to produce goods in Country X for export. The contract requires Company C to certify that, consistent with the laws of Country X, the goods will not be sent to Country Y and that Company C will require any purchaser of the products to certify that the goods will not be sent to Country Y if they are substantially unaltered at the time of the resale by the purchaser. Company C thereafter sells these goods to Company A, requiring the certification. Does Company C's action constitute participating in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A: No. Company C's agreement to refrain, and to require Company A in the resale to refrain, from sending Country X's unaltered products to Country Y, according to section 999(b)(4)(C), does not constitute participation in or cooperation with an international boycott.

J–10. Q: Company C, a trading company, signs a contract with Country X for the export goods to Country X. The contract requires that the goods be produced by Company A and that a certain component in the goods be produced by Company B. The laws, regulations, requirements or administrative practices of Country X prohibit the importation into Country X of goods manufactured by any company blacklisted by Country X. Company A and Company B are not blacklisted by Country X. Does Company C's action constitute an agreement, according to section 999(b)(3)(A)(ii)?

A: No. The existence of an agreement to refrain from doing business with a person blacklisted by Country X will not be inferred solely from the inclusion of a requirement in a contract that the goods or components be produced by a specific company that does not in fact appear on the blacklist. Accordingly, Company C's action does not constitute an agreement under section 999(b)(3)(A)(i), (ii) or (iii).

K. Refraining from Doing Business with any Company Whose Ownership or Management is Made up, in Whole or in Part, of Individuals of a Particular Nationality, Race or Religion (section 999(b)(3)(A)(iii)).

K–1. Q: Company C signs a contract with Country X for the export of certain goods to Country X. In the contract it is provided that the goods shall not bear any mark symbolizing Country Y or religion R. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A: No. Section 999(b)(3)(A)(iii) prohibits agreements to refrain from doing business on the basis of the nationality, race or religion of the owners or management of the organization and to refrain from selecting (or to remove) directors o. a particular nationality, race or religion. It does not prohibit agreements not to import goods bearing certain marks into a country. No part of section 999(b)(3) concerns refusals to purchase goods bearing marks symbolizing a certain country or religion.

K–2. Q: As a condition of doing business in Country X, Company C's subsidiary in Country X agrees that the board of directors of the subsidiary must consist of a specified number of nationals of Country X. Does such action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(iii)?

A: No. Such action will not be deemed to constitute an agreement to participate in or cooperate with an international boycott according to section 999(b)(3)(A)(iii).

K–3. Q: Company C is the leader of a syndicate of U.S. and foreign banks that is underwriting a public bond issue of Country X. Company D is a member of that syndicate. During the loan negotiations, Country X indicates that Company E, which is not a U.S. company, should be excluded from the syndicate because of the religion of some of its directors. Company C and Company D did not contemplate that Company E would be a member of the syndicate in any event and they agree to comply with the request of Country X. Does the action of Company C and Company D constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A: Yes. The action of Company C and Company D is an agreement to refrain from doing business with a company whose management are individuals of a particular religion. According to section 999(b)(3)(A)(iii) this constitutes participation in or cooperation with an international boycott.

K–4. Q: The facts are the same as in Question K–3, except that Country X indicates that Company E may be included only if it removes several of its directors who are of nationality Y. Does the action of Company C and Company D constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A: Yes. The action of Company C and Company D is an agreement to obtain the removal of corporate directors of a particular nationality as a condition of including Company E. This constitutes an agreement under section 999(b)(3)(A)(iii).

L. Refraining from Employing Individuals of a Particular Nationality, Race or Religion (section 999(b)(3)(A)(iv)).

L–1. Q: Company C signs a construction contract with Country X that provides that Company C is not to employ individuals of religion R to work on the project in Country X. Does such action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A: Yes. Company C has clearly agreed to refrain from employing individuals of religion R. Section 999(b)(3)(A)(iv) defines an agreement, made as a condition of doing business with the government of a country, to refrain from employing individuals of a particular religion, as participation in or cooperation with an international boycott.

L–2. Q: Company C signs a contract with Country X for a construction project in Country X. The contract specifies that only individuals who are nationals of the United States or Country X will be allowed to work on the project. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A: No. There is no evidence of an attempt to specifically exclude persons of a particular nationality. Persons of a number of different nationalities, including those from both friendly and unfriendly countries, have been evenhandedly excluded.

L–3. Q: As a condition of doing business in Country X, Company C agrees to employ a specified percentage of nationals of Country X or to employ increasing numbers of nationals of Country X. Does such action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(iv)?

A: No. Such action does not constitute an agreement to participate in or cooperate with an international boycott under section 999(b)(3)(A)(iv).

L–4. Q: Company C, incorporated under the laws of Country Z, signs a contract with Country X for the engineering and construction of an industrial plant in Country X. The contract excludes from working in Country X nationals of Country Z who are also nationals of Country Y or who were formerly nationals of Country Y. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(iv)?

A: Yes. Any agreement to differentiate among citizens of Country Z on the basis of dual nationality or national origin for employment on a project constitutes participation in or cooperation with an international boycott, according to section 999(b)(3)(A)(iv).

L–5. Q: Company C signs a contract with Country X for the engineering and construction of an industrial plant in Country X. The contract provides that Company C is not to employ in its home office any individuals who are nationals of Country Y to work on the design of the plant. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(iv)?

A: Yes. Company C has agreed to refrain from employing individuals who are nationals of Country Y, and such agreement constitutes participation in or cooperation with an international boycott according to section 999(b)(3)(A)(iv).

M. As a Condition of the Sale of a Product, Refraining from Shipping or Insuring That Product on a Carrier Owned, Leased, or Operated by a Person Who Does Not Participate In or Cooperate with an International Boycott (section 999(b)(3)(B)).

M–1. Q: Company C enters into a c.i.f. contract for the export of goods to Country X. The contract states that the goods are not to be shipped on a ship blacklisted by Country X. The blacklist contains the names of vessels that have called at ports in Country Y, vessels that are owned, leased or operated by the government, a company or a national of Country Y, and vessels that are owned, leased or operated by persons who engage in activities that are inconsistent with the boycott. Does Company C's action constitute an agreement described in section 999(b)(3)?

V 42 159 AUG 17 77 UM

A: Yes. Company C has entered into an agreement described in section 999(b)(3)(A)(i), (ii) and (iii) and section 999(b)(3)(B).

M–2. Q: Company C enters into a f.a.s. Port of New York contract with Country X for the sale of goods to Country X. While no overseas shipping or insurance provisions are contained in the contract, Company C has reason to believe that arrangements will be made by Country X to see that the goods are not shipped on a carrier owned, leased, or operated by a person who does not participate in or cooperate with Country X's boycott of Country Y. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B)?

A: No. Company C has not agreed as a condition of sale to refrain from shipping on a carrier owned, leased or operated by a person who does not participate in or cooperate with an international boycott. It has not agreed to any shipping or insurance arrangements. Its action thus does not constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B).

M–3. Q: Company C, having its place of business in Country Z, is requested by Country X to enter into a c.i.f. contract for the export of goods to Country X. However, to avoid participating in or cooperating with a international boycott, Company C successfully convinces Country X that the contract should specify shipment f.a.s. port of Country Z. The remainder of the circumstances are as described in Question M–2 above. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B)?

A: No, for the reasons given in Answer M–2.

M–4 Q: Company C, a freight forwarding company having its place of business in Country Z, has a contract with Country X to make, as an agent of Country X, shipping and insurance arrangements for goods which Country X purchases in Country Z on a f.a.s. port of Country Z basis. The contract provides that no shipments will be made on a carrier owned, leased, or operated by a person who does not participate in or cooperate with an international boycott. Company C then makes shipping and insurance arrangements on that basis. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B)?

A: Company C's agreement not to make shipping arrangements on a carrier of a person who does not participate in Country X's boycott of Country Y is not made as a condition of the sale of a product that is to be shipped to Country X. Therefore, Company C's action does not constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B). However, Company C's agreement would constitute participation in or cooperation with an international boycott pursuant to section 999(b)(3)(A)(i), (ii) or (iii).

M–5. Q: Company C enters into a contract with Country X for the export of goods to Country X. As a precaution to protect against war risk or confiscation, the contract requires Company C not to ship the goods on a Country Y flag vessel or on a ship which during the voyage calls at Country Y enroute to Country X. Does Company C's action constitute participation in or cooperation with an international boycott?

A: No. The requirement in the contract is not a restrictive boycott practice. Rather, the requirement arises from the need to protect goods from damage or loss.

M–6. Q: Company C enters into a contract with Country X for the export of goods to Country X. The contract requires Company C to ship the goods only on a ship registered in Country X. Does Company C's action constitute participation in or cooperation with an international boycott, according to section 999(b)(3)(B)?

A: No. An agreement to ship the goods only on a ship registered in Country X does not constitute an agreement to refrain from shipping or insuring those goods on a carrier owned leased, or operated by a person who does not participate in or cooperate with an international boycott. Therefore, Company C's action does not constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B).

M–7. Q: Company A signs a contract with Country X for the export of goods to Country X. The contract provides that the goods may not be shipped on a vessel that has been blacklisted by Country X because it has called at Country Y in the past. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B)?

A: Yes. The reason for those vessels being blacklisted was that at some time in the past the owner, lessor or operator of the vessel did not comply with the requirement of Country X that the vessel not call at Country Y. Therefore, Company C's signing the contract constitutes participation in or cooperation with an international boycott, according to section 999(b)(3)(B).

M–8. Q: Company C signs a contract with Country X for the export of goods to Country X. The contract contains no requirement that the seller refrain from shipping the goods on a vessel that has been blacklisted by Country X. Company C does not ship the goods on a blacklisted vessel. Does Company C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B)?

A: No, an agreement to participate in or cooperate with an international boycott, according to section 999(b)(3)(B), will not be inferred from Company C's action.

M–9. Q: Company C signs a c.i.f. contract with Country X for the export of goods to Country X to be paid for by means of a letter of credit. The letter of credit for this transaction requires, as a condition of payment, Company C to certify as to the identity of the vessel and the identity of the insurer. Company C provides such a certificate to the paying bank. Does Company C's action constitute participation in or cooperation with an international boycott?

A: The existence of an agreement to participate in or cooperate with an international boycott will not be inferred solely on the basis of Company C's certification. However, repetitive certification by Company C identifying vessels and insurers that are not blacklisted by Country X may suggest that Company C chooses its shippers and insurers on the basis of Country X's blacklist (in anticipation of Country X's certification request). Such a course of conduct may be a sufficient basis from which to infer the existence of an agreement.

N. *Reduction of Foreign Tax Credit.*

N–1. Q: How is the reduction of the foreign tax credit for participation in or cooperation with an international boycott computed under section 908(a)?

A: The method of computation of the reduction of the foreign tax credit under section 908(a) differs depending on whether the person applying section 908(a) applies the international boycott factor under section 999(c)(1) or identifies specifically attributable taxes and income under section 999(c)(2).

If the person chooses to identify specifically attributable taxes and income, the person reduces the amount of foreign taxes paid (before the determination of the section 904 limitation) by the sum of the foreign taxes paid that the person has not clearly demonstrated are attributable to specific operations in which there has been no participation in or cooperation with an international boycott.

If the person applies the international boycott factor, the reduction of the foreign tax credit under section 908(a) is computed by first determining the foreign tax credit that would be allowed under section 901 for the taxable year if section 908(a) had not been enacted. The amount of credit allowed under 901 would, of course, reflect the credits allowable under sections 902 and 960, and would also reflect the limitations of both sections 904 and 907. The credit allowed under section 901 would then be reduced by the product of the section 901 credit (before the application of the section 908(a) reduction) multiplied by the international boycott factor.

N–2. Q: After the reduction of credit has been determined in accordance with the process described in Answer N–1, the taxes denied creditability may be deductible under section 908(b). If the taxes are deducted, is a new section 904 limitation, a new section 901 amount and a new section 908(a) reduction of credit computed based on the income reduced by the taxes deducted?

A: No. The process described in Answer N–1 is applied only once and the reduction of credit is determined as a result of that single application. If the taxes denied creditability are reduced, no further adjustment is made under sections 904, 901 or 908(a) as a result of the deduction.

N–3. Q: Company A owns 20 percent of the stock of Company C, a corporation organized under the laws of Country Z, a foreign country. Company C participates in an international boycott in connection with all its operations. Company C pays a dividend to Company A and Country Z withholds income tax on the dividend paid to Company A. Company A computes its loss of tax benefits by identifying specifically attributable taxes and income under section 999(c)(2). Will Company A be denied its section 901 direct foreign tax credit in respect of the income tax withheld by Country Z on the dividend paid by Company C?

A: If Company A can clearly demonstrate that its investment in Company C is a clearly separate and identifiable operation in connection with which Company A did not participate in or cooperate with an international boycott, Company A will not be denied its section 901 direct foreign tax credit in respect of the withholding tax on the dividend paid by Company C. On the other hand, even if Company C does not participate in an international boycott, if Company A agreed to participate in or cooperate with an international boycott in connection with its investment in Company C, Company A will lose its foreign tax credit in respect of the withholding tax on the dividend. Thus, whether Company C participates in an international boycott is not relevant to the determination of Company A's loss of foreign tax credit under the facts of this question. (To determine the denial of the section 902 indirect foreign tax credit for foreign income taxes paid by Company C, see Answer A–19.)

N–4. Q: As a result of participation in or cooperation with an international boycott and the application of section 908(a), Company A loses a portion of its foreign tax credit under both sections 901 and 902. Are the foreign taxes denied creditability under both sections 901 and 902 deductible under section 908(b)?

A: The section 901 taxes denied creditability by reason of section 908(a) are deductible, but the section 902 taxes are not. Section 908(b) merely renders sections 275(a)(4) and 78 inapplicable to taxes denied creditability under section 908(a). Since section 902 taxes are not otherwise deductible under the Code, and since no section 78 gross-up is required in respect of section 902 taxes denied creditability, no deduction is allowed for those section 902 taxes.

N–5. Q: Company A has foreign tax credits under both sections 901 and 902. Company A applies the international boycott factor to determine its loss of foreign tax credits under section 908(a). What portion of the taxes denied creditability will be deductible under section 908(b)?

A: Since the section 901 taxes denied creditability under section 908(a) are deductible but the section 902 taxes are not, Company A may deduct that portion of the total taxes denied creditability under section 908(a) that the total section 901 taxes (before application of section 908(a)) bear to the total section 901 and 902 taxes (before application of section 908(a)).

O. *Subpart F Income*

O–1. Q: In determining the amount of subpart F income included in gross income by reason of section 952(a)(3), may any deductions be taken into account?

A: Yes. In computing subpart F income included in gross income under section 952(a)(3), a reasonable allowance may be made for deductions properly allocable to that income.

Dated: August 12, 1977.

W. MICHAEL BLUMENTHAL,
Secretary.

ROLLER CHAIN, OTHER THAN BICYCLE, FROM JAPAN

Antidumping; Tentative Determination to Modify or Revoke Dumping Finding

AGENCY: United States Treasury Department.

ACTION: Tentative Modification of Finding of Dumping.

SUMMARY: This notice is to advise the public that it appears that Honda Motor Co., Ltd., and Enuma Chain Manufacturing Co., Ltd., of Japan are not selling roller chain, other than bicycle, from Japan at less than fair value. Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries. In addition, Honda Motor Co., Ltd., and Enuma Chain Manufacturing Co., Ltd., have given assurances that future sales will not be at less than fair value. If this action is made final, entries of this merchandise from Honda Motor Co., Ltd., and from Enuma Chain Manufacturing Co., Ltd., on or after the effective date of this notice, will no longer be liable for special duties under the Antidumping Act, 1921. Interested persons are invited to make comments.

EFFECTIVE DATE: August 17, 1977.

FOR FURTHER INFORMATION CONTACT:

David Chapman, Operations Officer, Duty Assessment Division, U.S. Customs Service, 1301 Constitution Avenue, N.W., Washington, D.C. 20229, 202–566–5492.

SUPPLEMENTARY INFORMATION: A finding of dumping with respect to roller chain, other than bicycle, from Japan was published as Treasury Decision 73–100 in the FEDERAL REGISTER of April 12, 1973 (38 FR 9226).

After due investigation, it has been determined that roller chain, other than bicycle, sold by Honda Motor Co., Ltd., of Saitama, Japan, and that produced and sold by Enuma Chain Manufacturing Co., Ltd., of Isikawa, Japan, are not being, nor are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

Statement of Reasons On Which This Tentative Determination Is Based. The investigation indicated that sales of roller chain, other than bicycle, by Honda Motor Co., Ltd., and by Enuma Chain Manufacturing Co., Ltd., have not been made at not less than fair value for a period of more than two years since the finding of dumping, and assurances have been given that future sales of such merchandise to the United States will not be made at less than fair value.

Accordingly, notice is hereby given that the Department of the Treasury intends to modify the finding of dumping with respect to roller chain, other than bicycle, from Japan to exclude such merchandise sold by Honda Motor Co., Ltd., of Saitama, Japan and that produced and sold by Enuma Chain Manufacturing Co., Ltd., of Isikawa, Japan.

In accordance with § 153.40, Customs Regulations (19 CFR 153.40), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, NW., Washington, D.C. 20229, in time to be received by his office no later than August 29, 1977. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than September 16, 1977.

This notice is published pursuant to § 153.44(c) of the Customs Regulations (19 CFR 153.44(c)).

HENRY C. STOCKELL, Jr.,
Acting General Counsel of the Treasury.

AUGUST 11, 1977.

INTERSTATE COMMERCE COMMISSION

[Notice No. 451]

ASSIGNMENT OF HEARINGS

AUGUST 12, 1977.

Cases assigned for hearing, postponement cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 720 (Sub-No. 30), Bird Trucking Co Inc., application dismissed.

MC-C-9394, Tom E. Tucker, an Individual—Investigation and Revocation of Certificates, now assigned September 13, 1977, at Boise, Idaho is canceled and reassigned for September 13, 1977 (2 days), at the U.S. Courthouse, room 485, West 920 Riverside, Spokane, Wash.

MC 142496 (Sub-No. 1), Atlantic Charter Bus Service, Inc., now being assigned for continued hearing on October 12, 1977 (3 days), at Norfolk, Va., in a hearing room to be later designated.

MC 135684 (Sub-No. 37), Bases Transportation Co., Inc. now being assigned November 18, 1977 (1 day), at New York, N.Y. in a hearing room to be later designated.

MC 128273 (Sub-No. 260), Midwestern Distribution, Inc. now being assigned November 17, 1977 (1 day), at New York, N.Y., in a hearing room to be later designated.

MC 19227 (Sub-No. 227), Leonard Bros Trucking Co., Inc.

MC 32882 (Sub-No. 77), Mitchell Bros. Truck Lines.

MC 60014 (Sub-No. 43), Aero Trucking, Inc., MC 73165 (Sub-No. 394), Eagle Motor Lines, Inc., MC 74321 (Sub-No. 124), B. F. Walker, Inc.

MC 83539 (Sub-No. 449), C & H Transportation Co., Inc.

MC 106644 (Sub-No. 225), Superior Trucking Co., Inc.

MC 109397 (Sub-No. 330), Tri-State Motor Transit Co.

MC 111545 (Sub-No. 232), Home Transportation Co., Inc.

MC 112304 (Sub-No. 108), Ace Doran Hauling & Rigging Co.

MC 113855 (Sub-No. 366), International Transport, Inc.

MC 114211 (Sub-No. 298), Warren Transport, Inc., MC 117574 (Sub-No. 277), Dailey Express, Inc., MC 124211 (Sub-No. 286), Hilt Truck Line, Inc.

MC 124692 (Sub-No. 173), Sammons Trucking, MC 123048 (Sub-No. 355), Diamond Transportation System, Inc., MC 125433 (Sub-No. 89), F-B Truck Line Co., MC 128762 (Sub-No. 16), P. L. Lawton, Inc., and MC 142059 (Sub-No. 2), now being assigned November 7, 1977 (1 week), at San Francisco, Calif. and continued to November 14, 1977 (1 week), at Atlanta, Ga., in hearing rooms to be later designated.

[No. 38574]

SEVERE WINTER WEATHER

Petition of Railroads Seeking Authorization To Waive Demurrage Charges

At a Session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 3rd day of August, 1977.

Last winter, severe weather and fuel shortages affected certain areas of the country. Because of these adverse conditions, shippers and consignees were allegedly unable to load or unload railroad cars, industries were closed down, and railroad service in certain areas was curtailed. The National Industrial Traffic League (NITL), in late January 1977, initiated discussions with the Operating-Transportation Division, Operations of Maintenance Department, Association of American Railroads, with the objective of preventing the imposition of a portion of demurrage charges on railroad cars detained because of these unusual circumstances. As a result of these discussions, the 17 petitioner railroads (see Appendix A), all of which are parties to Freight Tariff 4–J, *Car Demurrage Rules and Charges, et al.*, J. F. Doyle, Agent, I.C.C. H–59, in their petition filed April 28, 1977, submitted the following proposal to the Commission for approval:

1. Only those shippers and receivers directly affected by the weather disability or fuel shortage can claim demurrage relief and for this emergency only;

2. Each shipper or receiver must pay his demurrage as rendered and then file for reclaim;

3. Each shipper or receiver must file individual claims at each location supported by justification, i.e., dates and reasons;

4. The claims will be processed informally, but will require ICC approval on each individual claim the exact procedure to be determined;

5. The relief requested due to this emergency will be limited to demurrage subject to the 4-series traiff rules;

6. Adjustments for demurrage subject to other than the 4-series tariff will be handled separately, i.e., unit trains, volume shipments, coal, etc.;

7. With respect to the 4-series tariff, after the expiration of free time and the four $10 debit days, the penalty rate of $20 will be reduced to $10 per day and the penalty rate of $30 will be reduced to $15 per day thereafter; and

8. Fuel shortage relief will be applicable as follows: allowance will be given for any cars on hand at time such interference began, but would not apply to inbound cars forwarded four days after the beginning of such interference.

During the involved period, demurrage charges, after the expiration of free-time, would have otherwise accrued at the rate of $10 per day for the first 4 days, $20 per day for each of the next 2 days, and $30 per day thereafter. According to petitioners, the $20 and $30 charges in the tariff have been considered in the nature of penalty charges.[1] These charges, it is argued, should not be imposed upon shippers and receivers in the areas affected by the extreme and unusual weather conditions or fuel shortages, if these conditions prevented the loading or unloading of cars. In addition, to facilitate the instant relief from these penalty charges, it is requested that the claims under the proposal be filed with the carrier within 90 days after the date of service of the Commission's order approving the proposal.

NITL in its reply filed May 9, 1977, supports the proposal, however, it contends that it should be modified to specify the emergency period when the reclaim will apply and that it should be extended to include claims for additional demurrage charges on trainload, unit trains and multiple car movements. NITL also requests that the order entered by the Commission indicate that other railroads will be granted leave to participate in the proposal upon notifying the Commission in writing.

Republic Steel Corporation, in its reply filed May 18, 1977, supports the concept of the proposal yet, it objects to certain of its procedures and the limited nature of the relief proposed. It suggests that (1) the Commission's order specify that the procedures and standards specified in the proposal are not exclusive; (2) a time period defining the period of the emergency conditions should be given; (3) the entire demurrage charge should be reclaimed; and (4) prepayment of the demurrage charges should not be required as a prerequisite to filing a claim.[2] Eastern Associated Coal Corp., in its reply filed July 5, 1977, requests that the emergency period should include December 1976 through March 1977, and submits graphs of temperature readings at Fairmont, Virginia for December through February.

The record in this proceeding and the general knowledge of the extreme and unusual weather conditions and shortages of energy support the approval of the petitioners' proposal to waive portions of the arbitrary demurrage charge. If other carriers, which are party to the specified tariff, desire to participate in the proposal, they will be permitted to do so upon notifying the Commission in writing of their intent. The extension of the proposal to demurrage charges not named in the involved tariff or in an

[1] It is noted that in Ex Parte No. 289, *Remittance of Demurrage Charges of Common Carriers of Property By Rail*, 353 I.C.C. 567 (1977), a $10 demurrage charge was generally sufficient to cover per diem, administrative and other expenses incurred by the delivering road.

[2] Under the Commission's credit regulations the applicable charge must be paid promptly within a specified period and there is no justification for waiving that requirement.

amount greater than that specified has not been substantiated. However, the approval of the instant proposal does not prejudice the filing of such proposals by the carriers or the filing of additional claims for greater relief by the shippers.[3] Furthermore, shippers or receivers will have the option of applying for the claim under the involved proposal, filing a claim under the proposal and in the event no binding settlement is made subsequently seeking relief from alleged unjust and unreasonable demurrage charges under the Commission's regular procedures, or by initially seeking relief from the Commission under its regular procedures.[4] Therefore, it is not unreasonable to require claims under the proposal to be filed with the carrier within a specific period of time. The time period in which claims should be filed is fixed at 90 days after date of publication in the FEDERAL REGISTER, of notice of this permissive order.

Certain modifications in the proposal are necessary, however, to insure that false claims will not be filed by shippers or receivers and that there will be no potentially discriminatory treatment by the carriers. Shipper or receivers will therefore be required to verify the justification statement and to indicate briefly therein, what efforts were taken to minimize the delay in the release of the cars subject to the claim. The period of severe weather and fuel shortages will also be limited to the period of December 28, 1976 through March 15, 1977, to eliminate the filing of claims for demurrage charges not caused by the emergency conditions.[5] Copies of claims granted or denied under the proposal are to be filed by the carrier with the Commission, and on the rejected claims, an explanatory note as to the reason for the denial should be given.[6] Certain other clarifying modifications in the proposal have also been made to avoid ambiguity, as set forth in Appendix B.

Approval of each of the filed claims will not be given by the Commission as suggested by petitioners since it would not be practical to verify each claim. However, the filing requirements ordered herein and the modifications in the proposal will minimize the possibilities of discriminatory or arbitrary treatment. Shippers and receivers are also encouraged to report to the Commission any discriminatory application of the proposal by the carriers.

It is ordered, That the carriers listed in Appendix A be, and they are hereby, authorized to adjust demurrage charges which accrued on cars held during the period specified to $10 or $15 a day, as set forth in Appendix B; that other carriers participating in the involved tariff, 4–J, I.C.C. H–59, upon notifying the Commission in writing of their intent to do so, may also participate in the modified proposal.

And it is further ordered, That the above-referred to carriers shall promptly file with the Commission copies of the claims upon which adjustments were made under authority of this order and those which were denied, with a brief explanation as to the reason for the denial.

By the Commission, Division 2, Commissioners Hardin, Murphy, and Clapp.

H. G. HOMME, JR.,
Acting Secretary.

Norfolk and Western Railway Company.
Richmond, Fredericksburg and Potomac Railroad Company.
Southern Railway System.
Union Railroad Company

APPENDIX B—APPROVED PROPOSALS

1. Only those shippers and receivers directly affected by the weather disability or fuel shortage during the period of December 28, 1976 through March 15, 1977, can claim demurrage relief; (See Note)

2. Each shipper or receiver must pay his demurrage as rendered and then file for reclaim;

3. Each shipper or receiver must file individual verified claims at each location supported by justification, i.e., dates of detention, reasons therefore, and whether efforts were made to minimize the delay;

4. The relief requested due to this emergency will be limited to demurrage applicable, in accordance with Freight Tariff 4–J, J. F. Doyle, Agent, I.C.C. H–59;

5. Adjustments for demurrage subject to other than the above-specified tariff will be handled separately, i.e., unit trains, volume shipments, coal, etc.;

6. With respect to the above-specified tariff, after the expiration of free time and the four $10 debit days, the demurrage charge of $20 will be reduced to $10 per day and the demurrage charge of $30 will be reduced to $15 per day thereafter;

7. Fuel shortage relief will be applicable as follows: allowance will be given for any cars on hand at the time such interference began or on inbound cars on which forwarding directions were given within 3 days after the beginning of such interference;

8. Claims under this proposal must be filed with the carrier on or before November 15, 1977.

NOTE.—Shippers and receivers can elect to file a claim under this proposal or a formal docket with the Interstate Commerce Commission. The filing of a claim under this proposal also does not prevent the shipper from seeking additional relief from the Commission. In addition, special-docket applications can be filed by the carrier.

[Amdt. No. 4]

MOVER'S & WAREHOUSEMEN'S ASSOCIATION OF AMERICA, INC.—AGREEMENT

Section 5a Application No. 4

AUGUST 9, 1977.

The Commission is in receipt of a supplemental application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed July 12, 1977 by: Carroll F. Genovese, Mover's & Warehousemen's Association of America, Inc., Suite 522, Munsey Bldg., Washington, D.C. 20006 (Executive Director).

Herbert Burstein, Esqu., Zelby, Burstein, Berstein & Hartmen, One World Trade Center, Suite 2373, New York, NY 10048 (Attorney for Applicants).

The amendment involves: Modify By-law Article VIII, Section 1, to provide 10 days advance notice of filing of a change under independent action.

The complete application may be inspected at the office of the Commission, in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 30 days from the date of publication of this notice to the FEDERAL REGISTER. As provided by the General Rules of Practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

H. G. HOMME, JR.,
Acting Secretary.

[FR Doc.77-23798 Filed 8-16-77;8:45 am]

[3] The waiver or reparation of the penalty portion of demurrage charges has been approved when neither the carrier nor shipper is at fault. *Ford Motor Co. v. Chesapeake & O. R. Co*, 311 I.C.C. 559 (1960); *Kelmbach-Burkett Co., Inc. v. Illinois Central R. Co.*, 289 I.C.C. 532 (1953); and *Myers, Myers & Goen v. Chicago, R. I. & P. Ry. Co.* 259 I.C.C. 51 (1944). The shipper, however, is required to make efforts if possible, to minimize the detention of the cars. Waiver of all of the applicable demurrage charges (including the compensatory portion), is generally not approved.

[4] Shippers and receivers are encouraged to file claims initially with the carrier. The procedures adopted and standards applied for settlement under the claim procedures will be strictly voluntary and will not bind individual shippers who either do not qualify for settlement thereunder or do not invoke the claim procedures under the proposal.

[5] The period will encompass the full period of extreme weather and energy shortages which occurred last winter, as noted in our order served April 18, 1977, in *Request for Certain Railroads for Authority to Waive Demurrage Charges*.

[6] The carrier is only required to indicate briefly its reasons for denying the claim, for example, insufficient information, demurrage accrued outside the emergency period, etc.

[7] The Family Lines include the Atlanta and West Point Railroad Company, Clinchfield Railroad Company, Durham and Southern Railway Company, Gainesville Midland Railroad Company, Georgia Railroad, Louisville Railroad, Seaboard Coast Line Railroad, and The Western Railway of Alabama.

[Rule 19, Ex Parte No. 241; Exemption No. 139]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD CO. AND ST. LOUIS-SAN FRANCISCO RAILWAY CO.

Exemption Under Provisions of the Mandatory Car Service Rules

It appearing, That the railroads named herein own numerous 40-ft. narrow-door, plain boxcars; that under present conditions, there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the railroads listed herein, resulting in unnecessary loss of utilization of such cars.

It is ordered, That, pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, I.C.C.-R.E.R. No. 404, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM", with inside length 44-ft. 6-in. or less, equipped with doors less than 9-ft. wide; and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b).

Chicago, Milwaukee, St. Paul and Pacific Railroad Company. Reporting Marks: MILW.

St. Louis-San Francisco Railway Company. Reporting Marks: SLSF.

[Amdt. No. 2 to I.C.C. order No. 32 under revised service order No. 1252]

REROUTING OF TRAFFIC

To all railroads:

Upon further consideration of I.C.C. Order No. 32 (The Straits Car Ferry Service Corporation) and good cause appearing therefor:

It is ordered, That: I.C.C. Order No. 32 be, and it is hereby, amended by substituting the following paragraph (c) for paragraph (c) thereof:

(c) *Traffic which may be rerouted.* (1) This order shall apply to traffic routed via the ferry from Mackinaw City to St. Ignace (northward or westward traffic) for movement on ferry trips, after July 14, 1977, to and including September 8, 1977.

(2) This order shall apply to traffic routed via the ferry from St. Ignace, Michigan, to Mackinaw City, Michigan, (southward or eastward traffic) for movement on ferry trips after July 21, 1977, to and including September 15, 1977: and

It is further ordered, That: I.C.C. Order No. 32 be, and it is hereby, amended by substituting the following paragraph (i) for paragraph (i) thereof:

(i) *Expiration date.* This order shall expire at 11:59 p.m., September 8, 1977, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., August 8, 1977, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the care service and care hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 4, 1977.

2

AUGUST 12, 1977.

Upon the affirmative votes of Chairman Curtis and Commissioners Smith and Sheldon, taken on August 11, 1977, the administrative meeting following the Commission's regular public meeting on August 11, 1977, was closed.

Chairman Curtis and Commissioners Smith and Sheldon also voted that agency business required that such meeting be called with less than the week's notice required by the Government in the Sunshine Act, 5 U.S.C. 552b.

The meeting falls within the exemptions to the open meeting requirements inasmuch as the purpose of the meeting was to discuss pending civil litigation; the initiation, conduct or disposition of pending agency actions subject to the procedures of 5 U.S.C. 554 or otherwise involving a determination on-the-record after opportunity for a hearing.

The exemptions to the open meeting requirements include 5 U.S.C. 552b(c)(9)(B), and (10): 18 CFR § 1.3a(d)(ix)(B), and (x).

The following persons attended the meeting: Chairman Curtis; Commissioners Smith and Sheldon; Kenneth F. Plumb, Secretary; Emmett Gavin and Curt Moffatt, Assistants to the Chairman; Kim Clark, Assistant to Commissioner Smith; Charles Bullock, Assistant to Commissioner Sheldon; Robert W. Perdue, Acting General Counsel; Phillip R. Telleen, Office of the General Counsel; Kenneth E. Richardson, Chief, Office of Special Assistants; Kenneth A. Williams, Acting Chief, Bureau of Natural Gas; Lundy R. Wright, Bureau of Natural Gas; Leon Slavin, Bureau of Natural Gas.

KENNETH F. PLUMB,
Secretary.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Monday, August 22, 1977.

PLACE: 20th Street and Constitution Avenue NW., Washington. D.C. 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Proposed modifications of certain personnel practices. This matter was originally scheduled for a meeting on August 15, 1977.

2. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board: 202-452-3204.

Dated: August 12, 1977.

GRIFFITH H. GARWOOD,
Deputy Secretary of the Board.

[S-118-77 Filed 8-15-77;9:55 am]

9

COMMISSION ON CIVIL RIGHTS.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 42 CFR 40072, August 8, 1977.

CHANGES IN THE MEETING:

(1) Agenda item V, "Discussion of SAC Chairperson Conference and SAC Reorganization" of the meeting of 9 a.m. to 12 p.m., Monday, August 15, 1977, is amended to read "Discussion of SAC Chairperson Conference."

(2) The open meeting of 2:30-4:30 p.m., Monday, August 15, 1977, is changed to a closed meeting.

MATTERS TO BE CONSIDERED:

Reorganization of State advisory committees into regional advisory committees and advisory committee membership.

(3) The agenda item "Approval of Proposed FY 79 Budget", scheduled for the open meeting of 2:30-4:30 p.m. is carried over to an open meeting session of 2:30-4:30 p.m. on Tuesday, August 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Barbara Brooks, Public Affairs Unit, 202-254-6697.

FEDERAL ENERGY ADMINISTRATION

■

ALASKA NORTH SLOPE CRUDE OIL PRICING AND ENTITLEMENTS TREATMENT

Mandatory Petroleum Price and Allocation Regulations

federal

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PARTS 211 AND 212—MANDATORY PETROLEUM PRICE AND ALLOCATION REGULATIONS

Alaska North Slope Crude Oil Pricing and Entitlements Treatment

AGENCY: Federal Energy Administration.

ACTION. Final rule.

SUMMARY: This action amends the price and allocation regulations of the Federal Energy Administration (FEA) to afford imported crude oil treatment to Alaska North Slope (ANS) crude oil for purposes of the entitlements program, as proposed in FEA's notice of proposed rulemaking. This final rule makes no change in FEA's pricing regulations (except to conform to the entitlements amendments), thereby reflecting FEA's decision that the upper tier price ceiling, as determined under existing price regulations, will, as proposed, apply to first sales of ANS crude oil. This notice also confirms FEA's decision, previously announced, not to seek exclusion of ANS wellhead prices from the statutory composite price computation at this time.

EFFECTIVE DATE: June 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Deanna Williams (FEA Reading Room), 12th and Pennsylvania Avenue NW., Room 2107, Washington, D.C. 20461, 202–566–9161.

Richard S. Greene (Office of General Counsel), 12th and Pennsylvania Avenue NW., Room 5140A, Washington, D.C. 20461, 202–566–9567.

Douglas G. Robinson (Alaskan Oil Project Coordinator), 12th and Pennsylvania Avenue NW., Room 3344, Washington, D.C. 20461, 202–566–9698.

SUPPLEMENTARY INFORMATION:

A. Background

Detailed background information describing the FEA price and entitlement regulations and the unique circumstances relating to production and transportation of ANS crude oil was provided in FEA's Notice of Inquiry in this matter (42 FR 13116, March 9, 1977) and in the Notice of Proposed Rulemaking (42 FR 22889, May 5, 1977). It is not necessary, therefore, to repeat that information here. Basically, this rulemaking proceeding has been undertaken to determine what changes, if any, to FEA's price and entitlements regulations should be made to accommodate the substantial new domestic crude oil production which began flowing on the Alaska North Slope on June 20, 1977. Shipments of this oil to refineries on the West Coast of the United States have recently begun, and are anticipated to increase steadily until they reach a level of 1.2 million barrels per day in early 1978.

In response to FEA's Notice of Proposed Rulemaking, FEA received 16 written comments, including 8 late comments. In addition, a total of 14 oral presentations were made at the public hearings in this matter held in Washington, D.C., on May 25, in San Francisco on May 26, and in Anchorage on May 27, 1977. FEA considered all of these comments and presentations, as well as other information available to it, in arriving at the regulatory amendments adopted today.

B. Issues

1. *Pricing: Application of upper tier price ceiling to ANS first sales.* In its notice of proposed rulemaking, FEA explained that ANS crude oil, like any other domestic production from a property which commenced production after 1972, is permitted to be priced at the upper tier ceiling level under existing FEA price regulations applicable to first sales of domestic crude oil. FEA also pointed out that upper tier price treatment for ANS first sales appeared to be consistent with congressional intent under the Emergency Petroleum Allocation Act of 1973, as amended (EPAA). Thus, while recognizing that the actual wellhead price of ANS production will be significantly below the upper tier ceiling level, due to high pipeline and other transportation costs to bring ANS crude oil to domestic refineries, FEA proposed to reject suggestions that ANS production be made subject either to the lower tier price ceiling or exempted from price controls altogether.

Although some producers continue to advocate price exemption, most of the comments received supported FEA's analysis in this respect. Therefore, for the reasons outlined in the notice of proposed rulemaking, today's amendments contain no provisions which would alter the applicability of the upper tier ceiling price to ANS first sales under FEA's existing pricing system.

FEA also pointed out that the upper tier ceiling price applicable to a particular grade of crude oil in a particular field, where there was no posted price for transactions in that grade of crude oil in that field on the upper tier base date of September 30, 1975,[1] is based, under 10 CFR 212.74(b), on "the related price for that grade of domestic crude oil which is most similar in kind and quality in the nearest field for which prices were posted" on September 30, 1975, plus or minus the dollar amount set by FEA from time to time to reflect adjustments to the upper tier ceiling price.

Again, although the ANS first sale price will be constrained at least initially by market forces at levels significantly below the average upper tier price level, due to the high transportation factor, it is necessary to fix the specific upper tier ceiling price applicable to ANS production under § 212.74(b) so that there will be no doubt concerning the applicable lawful price ceiling in the event that market forces permit ANS first sale prices to rise to the ceiling level at some future date. FEA therefore requested comment on crude oil quality characteristics and field locations to determine the "imputed" highest posted price on September 30, 1975, based on the related price for the most similar grade of crude oil in the nearest field on September 30, 1975.

Based on the requirements of § 212.74(b) and the methodology outlined in the notice of proposed rulemaking, FEA has determined that the nearest field with crude oil quality characteristics most similar to ANS crude oil for which prices were posted on September 30, 1975, is the Cut Bank field in Glacier County, Montana. The reported gravity of such oil is 28.3° API and its sulfur content is 1.10%, compared to 27° API and .97% for Alaska North Slope oil. While there is a slight variation in quality between these two oils, they are sufficiently similar that they are virtually interchangeable in many refineries. (More detailed information concerning the selection of the Cut Bank field as the "nearest field most similar in kind and quality" under § 212.74(b) is set forth in the appendix to this notice.) The highest posted price on September 30, 1975, for transactions in the Cut Bank field for the crude oil concerned in September, 1975, appears to have been $12.52 per barrel. (This is the price which ANS producers should use in complying with the certification requirements of 10 CFR 212.131(a)(2)(ii)(B).) Under Price Adjustment Schedule No. 7, in effect until August 31, 1977, $1.70 per barrel is subtracted from the applicable highest posted price on September 30, 1975, to determine the upper tier ceiling price. Consequently, the current upper tier ceiling price applicable to ANS first sales (wellhead ceiling price) appears to be $10.82 per barrel under FEA regulations.[2]

Some producers suggested that it would be more appropriate to apply an upper tier ceiling price to ANS first sales based on the national average upper tier ceiling price. In FEA's view, this approach would be a feasible alternative to § 212.74(b) if the average upper tier ceiling price were computed using only upper tier ceiling prices applicable to crude oils with sulfur content and other quality characteristics similar to those of ANS crude oil, or if adjustments were made in the average to reflect the variation in quality between ANS crude oil and the average of all domestic upper tier oil. FEA does not, however, have sufficiently precise data to compute an accurate weighted average upper tier ceiling price for particular grades of crude oil or for determining the average quality of upper tier oil. Thus, it was impossible for FEA to adopt this suggestion without adopting a new information gathering system applicable to all domestic crude oil producers.

Moreover, based on the limited data that is available on average domestic crude oil weight and sulfur content (believed generally to be 35° API and .68% sulfur) an average upper tier price adjusted for quality differentials would yield a wellhead ceiling price range for ANS crude oil which roughly approximates the Cut Bank field base posted price. The appendix to this notice contains additional information concerning computation of the estimated average upper tier price adjusted to reflect quality differentials.

(2) *Entitlements: Treatment of ANS production as imported crude oil.* For the reasons set forth in detail in the notice of proposed rulemaking, FEA proposed that no entitlements obligation would apply to ANS production, i.e., that it be treated as imported or uncontrolled domestic crude oil for purposes of the entitlements program, which operates generally to equalize crude oil acquisition costs (including transportation) among refiners. FEA estimated that the amendment to extend such entitlements treatment to ANS production at the refinery level would still leave the ANS wellhead price roughly $5.00 per barrel below the estimated average upper tier price then projected for October, 1977, and below even the national weighted average or composite price of domestic crude oil. This estimate was based on the assumption made at that time that the Trans-Alaska Pipeline tariffs would be about $5.10 per barrel.

Operation of the initial pipeline tariffs filed by the pipeline owners (these ranged from $6.04 to $6.44 per barrel) was suspended by order of the Interstate Commerce Commission dated June 28, 1977, and the Commission's suspension order authorizing the filing of interim tariff rates not exceeding amounts ranging from $4.68 to $5.10 per barrel. Thus, FEA's original estimate of $5.10 per barrel coincides with the upper end of the range of tariffs now officially authorized on an interim basis. The relatively small increase in average wellhead prices which may result in consequence of tariffs between $4.68 and $5.10 per barrel, compared with the $5.10 per barrel used by FEA for purposes of analysis, does not alter the basis for any of the proposals put forth by FEA in this rulemaking proceeding. Even with an actual tariff rate about 27 cents per barrel below FEA's $5.10 estimate (the weighted average interim tariff rate as calculated by the ICC is $4.835 per barrel), the ANS wellhead price will still be below the statutory composite price and well below the average upper tier price nation-wide.

The reasons for the entitlements amendment adopted today may be summarized as follows:

(a) *Equity within overall statutory framework.* As noted, even with no entitlements obligation imposed with respect to the refining of ANS crude oil, wellhead prices for ANS crude oil will still be well below those for upper tier crude oil produced in the rest of the United States, even though ANS crude oil is in general more costly to find and produce. Because this relative difference in wellhead price levels results from the cost of transporting ANS crude oil to domestic refiners being higher than the cost of transporting other domestic crude oil, nothing can be done to eliminate this aspect of ANS crude oil pricing without a major restructuring of the regulatory program. But the wellhead price disparity would be even greater if an entitlements obligation were imposed with respect to the refining of ANS crude oil (i.e., if it were required to be treated as upper tier crude oil for purposes of the entitlements program). Thus, import tier entitlements treatment, while it leaves ANS producers at a wellhead price disadvantage compared to producers of upper tier crude oil in the rest of the U.S., is more in accord with the statutory mandate for equitable pricing of crude oil in various regions of the country than would be upper tier entitlements treatment.

(b) *Incentives for additional production.* FEA has not concluded that the entitlements treatment for ANS crude oil adopted herein is necessary to provide incentives to complete development of the main Prudhoe Bay Pool. Nor is it entirely clear that such treatment is necessary to provide an incentive to ANS producers to proceed with the development of the Lisburne and Kuparuk Pools, the other two proven reserves on the North Slope. But by providing ANS crude oil with wellhead prices that are as high as possible (consistent with the upper tier ceiling price, the remoteness of the area and the cost of the imported oil it is replacing), the maximum monetary and psychological incentives are provided for these and other producers to explore aggressively elsewhere in the Arctic and in other frontier regions.

FEA does not find it inconsistent with the policy and purpose of the entitlements program to amend that program to provide separate treatment at the refinery level for two categories of crude oil subject to the same upper tier ceiling price rule—i.e., crude oil produced on the Alaska North Slope and crude oil produced elsewhere in the United States. The entitlements program was not designed or intended to impact on wellhead prices. The purpose of the entitlements program is merely to equalize refiners' crude oil acquisition costs. It does so by issuance to refiners of entitlements with respect to all crude oil, without regard to the source of such crude oil, in proportion to the amount of price controlled crude oil being refined on a nation-wide basis. Crude oil acquisition costs are then equalized by requiring a refiner to have an entitlement for each barrel of price controlled crude oil it refines (a full entitlement for each barrel of lower tier crude oil and a fractional entitlement for each barrel of upper tier crude oil), and a refiner that is required to purchase entitlements in order to refine all of its price controlled crude oil is, in effect, having the price benefits of its access to a greater than average share of price controlled crude oil allocated to another refiner that has access to less than the national average of price controlled crude oil.

The amendment adopted today simply recognizes that at the current level of world market prices, no entitlement obligation is appropriate with respect to the refining of ANS crude oil because a refiner that incurs the transportation cost for such crude oil plus a wellhead price that is subject to the upper tier ceiling price rule does not thereby have access to a price benefit, as compared with imported crude oil or with uncontrolled domestic crude oil.

Most comments received supported FEA's proposed amendment to the entitlements program. Comment which opposed this action—chiefly from California producers—primarily reflected concern that, by failing to differentiate in the entitlements treatment given to ANS oil landed on the West Coast and the Gulf Coast, the proposal would increase the likelihood that ANS producers will engage in price discounting in West Coast markets to avoid paying the extra costs of transshipment of crude oil to mid-continent markets. Some California producers indicated that such price competition may reduce producer margins to the extent that some California production would no longer be economically feasible.

FEA requested specific comment in its notice of proposed rulemaking on the effect of ANS production on California price and production levels. Comment received in this respect reflected considerable differences of opinion both as to what the effects of ANS production will be in California and what FEA policy should be with respect to pricing, entitlements, Elk Hills production levels, and various alternative proposals to dispose of the projected short-term West Coast crude oil surplus. These conflicting views reflect to a significant degree the variables and uncertainties surrounding ANS production which FEA acknowledged in its notice of inquiry in this matter (42 FR 13116, March 9, 1977) and which continue to be present in large measure. In view of the continuing uncertainty concerning the potential effects of ANS crude oil on California price and production levels (or whether there will be any significant effect at all), FEA believes the more appropriate course of action at this time is not to change the rules to address a problem that may not exist, but instead to monitor the situation closely and to quickly implement appropriate regulatory adjustments if necessary.

For the reasons set forth above and in the notice of proposed rulemaking, the proposed amendments to the entitlements program are adopted in the form

[1] There were no such postings in the ANS "field" in September, 1975, since there were no ANS crude oil sales at that time.

[2] The foregoing posted price determination constitutes an administrative determination by FEA based on available data and information as indicated in the appendix to this notice. This determination may be appealed in accordance with 10 CFR Part 205, Subpart H, and for purposes of such appeal it will be deemed an order or interpretation issued by FEA.

V42 I159 AUG 17 77 UM

proposed, effective June 1, 1977, except as noted in Section C, below.

3. *Composite Price: Non-exclusion of ANS first sales from composite price calculations.* An ancillary issue in this rulemaking proceeding has been whether to seek congressional approval, pursuant to section 8(g) of the EPAA, of exclusion of ANS production from the statutory composite price computation. Such an action would require a prior finding by FEA that inclusion of ANS production under the composite price computation would lessen needed incentives for sustaining or enhancing crude oil production in the remainder of the U.S. (Inclusion of ANS production at price levels at or above the adjusted statutory composite price would require an offsetting reduction in prices applicable to other domestic production, in order to comply with statutory pricing limitations).

In its notice of proposed rulemaking, FEA took the following position on this issue:

> FEA has decided not to take any action at this time on whether to exclude ANS wellhead prices from the composite price calculation, although it in general is of the view that certainty should be introduced into future crude oil pricing levels to the extent that this is possible. Under the energy policy proposed by the President on April 20, 1977, such certainty would be introduced by allowing ceiling prices for various categories of domestic crude oil to rise at specified rates notwithstanding the composite average. Until that program is developed and implemented, it is not likely, as pointed out in the April 15 report, that ANS wellhead prices will exceed the composite price and therefore introduce disruption in production incentives for other domestic production.

FEA continues to believe that it would be inappropriate to seek exclusion of ANS production from the composite price computation at the present juncture in view of projected ANS wellhead prices at levels below the composite price level (at least for the short-term). However, section 8(g) does not preclude submission of an ANS exclusion amendment for congressional review at a later date if necessary.

Accordingly, ANS "first sale" (i.e., wellhead) prices will be included in the composite price computation under existing regulations.

C. Amendments

The regulatory amendments appended to the notice of proposed rulemaking are adopted as proposed, with the following revisions and additions.

The definition of "Alaska North Slope crude oil" proposed for inclusion in § 211.62, has been revised to adopt the preferable mode of reference to that crude oil used in section 8(g) of the EPAA—viz., "crude oil transported through the trans-Alaska pipeline."

Since no change in the upper tier status of first sales of ANS crude oil under the pre-existing regulatory framework was proposed in the notice of proposed rulemaking; FEA stated that no amendments to the pricing regulations (Part 212) appeared to be necessary. However, in the event that the actual composite price exceeds the adjusted statutory price at some time in the future (after current corrective actions are completed), FEA would need to have accurate data on the volume of ANS first sales, apart from the volume of other upper tier sales, in order to determine with the degree of accuracy necessary what corrective action should be taken to achieve compliance with the composite price restriction. This is because such corrective action (i.e., a temporary deferral of further increases in price ceilings or a rollback of price ceilings) would probably not impact upon ANS crude oil since ANS first sales are expected to be at price levels significantly below the applicable upper tier price ceiling under most assumptions. While corrective action might be specifically designed to apply to ANS first sale price levels as well as ceiling prices applicable to other production categories, the appropriateness of such action cannot be judged at this time and might depend on precise knowledge of ANS volume levels.

For this reason and in order to provide accurate production data for various other purposes relating to ANS price and allocation controls, FEA will require that purchasers separately report on Form FEA–P124–M–1 the volumes and prices of ANS crude oil purchased. FEA expects to issue in the near future a revised Form 124 which will include instructions to purchasers in this respect.

In view of the foregoing, it appears desirable to amend the crude oil category certification requirements imposed on producers under § 212.131 to assure that all purchasers will be supplied with source data for ANS production in addition to the price category data already required, in order to complete the Form FEA–P124–M–1. Accordingly, today's amendments include a revision of § 212.131 to require producers to certify separately with respect to the volume of upper tier crude oil exclusive of any crude oil transported through the trans-Alaska pipeline, and the volume, if any, of crude oil transported through the trans-Alaska pipeline.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159, as amended, Pub. L. 93–511, Pub. L. 94–99, Pub. L. 94–133, Pub. L. 94–163, and Pub. L. 94–385; Federal Energy Administration Act of 1974, Pub. L. 93–275, as amended, Pub. L. 94–385; Energy Policy and Conservation Act, Pub. L. 94–163, as amended, Pub. L. 94–385; E.O. 11790, 39 FR 23185.)

Issued in Washington, D.C., August 11, 1977.

Eric J. Fygi,
Acting General Counsel,
Federal Energy Administration.

In consideration of the foregoing, Parts 211 and 212 of Chapter II of Title 10 of the Code of Federal Regulations are amended as set forth below, effective June 1, 1977.

1. Section 211.62 is amended by adding a new definition of "Alaska North Slope (ANS) crude oil" in appropriate alphabetical order to read as follows:

§ 211.62 Definitions.

* * * * *

"Alaska North Slope (ANS) crude oil" means crude oil transported through the trans-Alaska pipeline. For purposes of this subpart, such crude oil shall not be considered as upper tier crude oil, as that term is hereinafter defined.

* * * * *

2. Section 211.66 is amended by revising paragraph (h) (5) to read as follows:

§ 211.66 Reporting requirements.

* * * * *

(h) *Monthly report.* * * *

(5) The weighted average costs for that refiner (including transportation costs to the refinery) of old oil, upper tier crude oil, ANS crude oil, stripper well crude oil (as defined in Part 212 of this chapter), other domestic crude oils the first sale of which is exempt from the provisions of Part 212 of this chapter, and imported crude oil included in that refiner's crude oil receipts. For refiners required to file transfer pricing report forms under § 212.84 of this chapter, the weighted average cost of imported crude oil reported under this subparagraph shall be derived from the landed costs set forth in such reports.

* * * * *

3. Section 211.67 is amended by revising paragraphs (b) (2), (g) (2), (l) (4) and (l) to read as follows:

§ 211.67 Allocation of domestic crude oil.

* * * * *

(b) *Required purchase of entitlements by refiners.* * * *

(2) To calculate the number of barrels of deemed old oil included in a refiner's adjusted crude oil receipts for purposes of the definition of national domestic crude oil supply ratio in § 211.62 of this subpart, paragraph (b) (1) of this section and paragraph (c) of this section, each barrel of old oil shall be equal to one barrel of deemed old oil and each of upper tier crude oil shall constitute that fraction of a barrel of deemed old oil the numerator of which is equal to the reported weighted average cost per barrel to refiners of ANS crude oil, imported crude oil, stripper well crude oil (as defined in Part 212 of this chapter) and other domestic crude oils the first sale of which is exempt from the provisions of Part 212 of this chapter for that month, less the sum of 21 cents and such weighted average cost per barrel to refiners of upper tier crude oil, and the denominator of which is the entitlement price for that month.

* * * * *

(g) *Exchanges of crude oil.* * * *

(2) Subject to the provisions of paragraph (g) (3) below, volumes of domestic crude oil deemed to be retained by a refiner under the provisions of paragraph (g) (1) above shall be (i) included in that refiner's crude oil receipts at the time the crude oil acquired pursuant to the related exchange or purchase and sale transaction constitutes a crude oil receipt under § 211.62 of this subpart to that refiner, or (ii) certified as old oil, upper tier crude oil, ANS crude oil, stripper well crude oil (as defined in part 212 of this chapter), or any other domestic crude oil the first sale of which is exempt from the provisions of Part 212 of this chapter, as the case may be, under the provisions of § 212.131 of Part 212 when the crude oil acquired pursuant to the related exchange or purchase and sale transaction is sold to another firm.

* * * * *

(l) *Issuance and transfer of entitlements.* * * *

(4) The price at which entitlements shall be sold and purchased shall be fixed by the FEA for each month and shall be the exact differential between the weighted average cost per barrel to refiners of old oil and such weighted average cost of imported crude oil, ANS crude oil, stripper well crude oil (as defined in Part 212 of this chapter) and other domestic crude oils the first sale of which is exempt from the provisions of Part 212 of this chapter, less 21 cents, such costs to be equivalent to the delivered costs to the refinery.

* * * * *

(1) *Certification by non-refiners.* Within twenty-eight (28) days following each month, commencing with the month of September 1976, each firm other than a refiner that has delivered crude oil to a refiner for processing for the account of such firm pursuant to a processing agreement in that month shall certify to that refiner the respective volumes of and that firm's costs for old oil, upper tier crude oil, ANS crude oil, stripper well crude oil (as defined in Part 212 of this chapter), other domestic crude oils the first sale of which is exempt from Part 212 of this chapter, and imported crude oil contained in the crude oil so delivered to that refiner.

* * * * *

4. Section 212.131 is amended by revising paragraphs (a) (1) (2), (a) (3) (i), and (b) (1) to read as follows:

§ 212.131 Certification of domestic crude oil sales.

(a) (1) *Stripper well properties.*

* * * * *

(2) *Non-stripper well properties.* (i) With respect to each sale of crude oil from a property which has not qualified as a stripper well property, the producer shall certify in writing to the purchaser the number of barrels, if any, of—

(A) Lower-tier ("old") crude oil;

(B) Upper-tier ("new") crude oil, excluding any crude oil transported through the trans-Alaska pipeline; and

(C) Crude oil transported through the trans-Alaska pipeline.

With respect to any property which has not qualified as a stripper well property, and from which crude oil is only sold to one purchaser, the requirements of this paragraph (a) (2) (i) may be complied with by a one-time certification to the purchaser of the property's monthly base production control level determined pursuant to § 212.72, whether based upon production and sale of crude oil in 1972 or upon production and sale of old crude oil in 1975, and, if applicable, either the property's adjusted base production control level determined pursuant to § 212.76 or the information necessary to compute such adjusted base production control level pursuant to § 212.76.

* * * * *

(3) *Unitized properties.* (i) With respect to each sale of crude oil from a unitized property for which the producer has determined a unit base production control level, the producer shall certify in writing to the purchaser the number of barrels of—

(A) Lower-tier ("old") crude oil;

(B) Upper-tier ("new") crude oil, if any, including either "actual new crude oil" or "imputed new crude oil" determined pursuant to § 212.75(b), but excluding any crude oil transported through the trans-Alaska pipeline;

(C) Crude oil transported through the trans-Alaska pipeline, if any; and

(D) Imputed stripper well crude oil, if any, determined pursuant to § 212.75(b).

With respect to any unitized property for which the producer has determined a unit base production control level, and from which crude oil is only sold to one purchaser, the requirements of this paragraph (a) (3) (i) may be complied with by a one-time written certification to the purchaser of—

(1) The monthly unit base production control level, determined pursuant to § 212.75(b);

(2) The number of barrels of "imputed new crude oil," if any, determined pursuant to § 212.75(b), excluding any crude oil transported through the trans-Alaska pipeline;

(3) The number of barrels of crude oil transported the trans-Alaska pipeline, if any; and

(4) The number of barrels of imputed stripper well crude oil, if any, determined pursuant to § 212.75(b).

* * * * *

(b) (1) Each seller of domestic crude oil, other than a producer of domestic crude oil covered by paragraph (a) of this section, shall, with respect to each sale of domestic crude oil other than an allocation sale pursuant to § 211.65 of Part 211, or a sale in which no volumes of domestic crude oil are deemed to have been transferred pursuant to § 211.67(g) of Part 211, certify in writing to the purchaser the respective volumes of and respective per barrel prices for the—

(i) Lower-tier ("old") crude oil;

(ii) Upper tier ("new") crude oil, exclusive of any crude oil transported through the trans-Alaska pipeline;

(iii) Crude oil transported through the trans-Alaska pipeline;

(iv) Stripper well crude oil; and

(v) Other domestic crude oils the first sale of which is exempt from the provisions of this part—included in the volume of domestic crude oil so sold. The certification shall also contain a statement that the price charged for the domestic crude oil is no greater than the maximum price permitted pursuant to this part.

* * * * *

Appendix

DETERMINATION OF SEPTEMBER 30, 1975, POSTED PRICE FOR ANS CRUDE OIL UNDER 10 CFR 212.74(b)

For most refiners, the most significant determinants of "kind and quality" in crude oil are the gravity and sulfur content. The gravity of crude oil produced from fields in the U.S. ranges from about 11° to about 53° API. Low density crude oils have high API ratings. High API crudes yield greater amounts of gasoline and hence are more valuable than low API crude oils. The sulfur content of domestic crude oil varies from about .02 to about 6.0 percent. Sulfur affects the value of crude oil because of its many undesirable characteristics. Among these are its corrosiveness and its detrimental impact on air quality if retained in refinery products. Removal of sulfur is an expensive process. Therefore, high-sulfur crude oil is less valuable than low-sulfur crude oil.

The gravity and sulfur content of ANS crude oil are 27 degrees API and 0.97 percent (by weight) respectively. For the purposes of this analysis, fields with an API rating of 27° plus or minus 5° (i.e., 22 to 32° API) *and* a sulfur content of 0.97 percent plus or minus 0.5 percent (i.e., .47 to 1.47 percent sulfur) were deemed to be generally similar to ANS crude oil. Qualifying fields were selected from the United States Bureau of Mines (BOM) Report of Investigation No. 6819, (1966) on 616 samples from 546 important fields in 20 states, the most recent comprehensive report available. Additionally, FEA reviewed information on some fields through comments submitted in response to the notice of proposed rulemaking, and through subsequent investigations based on those submissions.

This process yielded a total of fifty-five fields west of 96° west longitude (western half of the U.S.) with crude oil generally similar in quality to ANS crude oil. These fields are listed at the end of this appendix. By narrowing the "similarity" range to an API rating of 27° plus or minus 2.5° (i.e., 24.5 to 29.5° API) and a sulfur content of 0.97 percent plus or minus 0.25 percent (i.e., .72 to 1.22 percent sulfur), FEA derived a list of 17 fields which it considers most similar in kind and quality to ANS crude oil. Of these fields, three are in Montana, the geographically closest oil-producing state to the ANS production zone, and the rest in such more distant states as Wyoming, Utah, California, and Texas. The qualifying Montana field which is nearest geographically to the ANS discovery well (near the center of the Prudhoe Bay Pool), is the Two Medicine Cut Bank Sand Unit ("Cut Bank") in Glacier County, Montana, 1,935 miles away, with a gravity of 28.3° and a sulfur content of 1.10 percent based on BOM samplings.

Thus, in accordance with 10 CFR 212.74(b), and the methodology explained in the notice of proposed rulemaking, Cut Bank is the nearest field which produces crude oil most similar in kind and quality to ANS crude oil.

As far as FEA is aware, only three purchasers posted prices for crude oil in the Cut Bank area for September, 1975: Phillips Petroleum Co., Union Oil Co., and Permian Corp.

The Phillips price bulletin for September, 1975 lists only the Cut Bank and Pondera Fields in Montana. The posted price for crude oil of 27–27.9° API was $12.36 per barrel for both of these fields.

The Union price bulletin applies in Montana to "Cut Bank, Darling, Reagan and Adjacent Fields." The Union bulletin lists a price of $12.39 per barrel for crude oil of 27.0–27.9° API for the Montana fields concerned.

The price bulletin issued by Permian for September, 1975, lists a price not to exceed $12.78 per barrel "for 40.0° API gravity and above, with gravity adjustments," applicable to "Northwestern Montana." The Permian Corp. has advised FEA that "Northwestern Montana" as thus referenced comprises a geographical area which includes the Cut Bank field, among others, and that the applicable gravity adjustment has been 2¢ per degree API since early 1975. Under Ruling 1977–1 (42 FR 3628, January 19, 1977) the Permian bulletin therefore appears to constitute a posting of $12.52 per barrel for 27° API crude oil in the Cut Bank and other fields in Northwestern Montana. According to information available to FEA, crude oil at various API degree levels other than 28.3° is sold from the Cut Bank field, including 27° API crude oil. FEA concludes that the Permian posting noted above appears to constitute the highest posted price on September 30, 1975, applicable to the Cut Bank field.

The Kevin-Sunburst field in Toole County, Montana is about 18 miles closer to the ANS discovery well than the Cut Bank field. Because its API rating in the table at the end of this appendix is 32°, it does not fall within the list of 17 fields found to be most similar in kind and quality to ANS crude oil. However, the fields in Northwestern Montana to which the Permian posting applies includes the Kevin-Sunburst field, which is only about 20 miles from the Cut Bank field. Because of this, and the fact that the sulfur differentials in Northwestern Montana are not great enough to affect the price in that area, the "highest posted price" as determined above would be the same with respect to 27° API crude oil no matter whether produced from Cut Bank or Kevin-Sunburst.

The northernmost active California field, Brentwood, is 2,450 miles from the ANS discovery well, over 500 miles farther away than Cut Bank. Furthermore, this field would not qualify as similar in quality, even within the wider range described above. One of the northernmost California fields of a quality generally similar to that of ANS is Ventura, with an API of 31.3° and sulfur content of .94 percent. Ventura, however is 2,721 miles from the North Slope, about 800 miles farther than Cut Bank.

In Wyoming, both Elk Basin and Dewey Dome are hundreds of miles farther away from the ANS than Cut Bank. They are also not as close in quality to the ANS crude as Cut Bank. Elk Basin has a gravity of 26.8 degrees API and a sulfur content of 1.50 percent, while Dewey Dome's gravity is 25.4° API and its sulfur content is 0.88 percent.

Several of those submitting comments suggested that FEA set aside the regulatory procedure in favor of adoption of the national average upper tier ceiling price as the ANS ceiling price. In its evaluation of this alternative FEA acknowledged that the value of crude oil to the refiner is largely dependent upon the gravity and sulfur content of the particular oil. Hence, it was determined that in order to set the upper tier price level of ANS crude based on a national average, adjustment would have to be made for the particular gravity and sulfur content of that oil. A weighted national average upper tier ceiling price is available, but the data necessary for the computation of a weighted national average for gravity and sulfur content are not. The closest gravity and sulfur approximations available were unweighted figures computed by FEA on the basis of the Bureau of Mines publication (which applied to only twenty states) cited above. Based on those approximations, it can be concluded that the average upper tire quality exceeds the average quality of ANS crude oil.

The average upper tier price of all domestic controlled crude oil in February 1977 was $11.39 per barrel. Therefore to obtain the average upper tier posted price on September 30, 1975 an additional $1.25 should be added, $11.39+$1.25=$12.64 to reflect corrections and roll-backs under the Emergency Petroleum Allocation Act, as amended. The estimated average gravity for domestic crude oil was determined to be 34.86 degrees API. ANS crude is 27 degrees API or 7.86 degrees API below the national average. The gravity penalty averages from 2 to 3 cents per degree API. Hence, the adjusted value for ANS crude oil would be from ($12.64—0.03×7.86)=$12.40 to ($12.64—0.02×7.86)=$12.48. In addition, a sulfur penalty is assessed on crude oils and reflected in the postings. The penalty has been determined to be from $0.15 to $0.35 for each percentage point sulfur content. The U.S. average sulfur content in crude oil was estimated to be 0.685 percent (data is lacking to make this estimate with sufficient precision for regulatory purposes). Therefore, the additional sulfur penalty would require ANS crude to be priced from [$12.40—$0.35 (0.97 percent—0.685 percent)]=$12.30 to [$12.48—$0.15 (0.97 percent—0.685 percent)]=$12.44.

In conclusion, the "nearest field most similar in kind and quality" approach yields a precise upper tier base posted price for ANS crude oil under § 212.74(b) of $12.52 per barrel. The "national average" approach yields an estimated range of base posted prices for ANS crude oil from $12.30 to $12.44 per barrel.

Fields west of 96° west longitude producing crude oil generally similar in quality to ANS crude oil (22° to 32° API, 0.47 to 1.47 pct sulfur)

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 212]

DOMESTIC CRUDE OIL PRODUCTION

Additional Price Incentives for Tertiary Enhanced Recovery Techniques

AGENCY: Federal Energy Administration.

ACTION: Notice of decision.

SUMMARY: On January 6, 1977, the Federal Energy Administration (FEA) issued a Notice of Proposed Rulemaking and Public Hearing, concerning proposed amendments to Subpart D of the Mandatory Petroleum Price Regulations to provide additional price incentives for the increased production of domestic crude oil through the application of tertiary enhanced recovery techniques. 42 FR 2646 (January 12, 1977).

The proposed incentives were intended to implement the provisions of section 122 of the Energy Conservation and Production Act ("ECPA"), Pub. L. 94-385 (August 14, 1976).

The purpose of this Notice is to set forth the basic decisions which the FEA has made with respect to the tertiary recovery incentive program, which will be implemented in final regulations to be issued in the near future.

DATES: Although the FEA may be requesting comments, limited to technical matters, in connection with the issuance of detailed regulations implementing the program, comments are not requested with respect to this Notice. The effective date of the regulations to implement the program will be announced when those regulations are issued. Accordingly, there are no applicable dates with respect to this Notice.

ADDRESSES: For the same reasons, there are no applicable addresses.

FOR FURTHER INFORMATION CONTACT:

F. Scott Bush (Policy and Program Evaluation), 12th & Pennsylvania Avenue, NW., Room 4109, Washington, D.C. 20461, 202-566-9193.

Edwin Mampe (Regulatory Programs), 2000 M Street, NW., Room 2304, Washington, D.C. 20461, 202-254-7200.

Cliff G. Russell (Office of General Counsel), 12th & Pennsylvania Avenue, NW., Room 5138, Washington, D.C. 20461, 202-566-9567.

SUPPLEMENTARY INFORMATION:

COMMENTS

Public hearings were held in Dallas, Texas, on February 28, 1977, and in Washington, D.C., on March 3 and 4, 1977, at which a total of 25 interested persons made oral statements. In addition, the FEA received a total of 35 written comments in response to its proposal.

2. Recertification Requirements.

E. POST-CERTIFICATION EVENTS

III. REGULATIONS IMPLEMENTING THE INCENTIVE

I. SUMMARY OF THE PROGRAM

A. PRINCIPAL FEATURES OF THE PROGRAM

Very generally, the program for implementing additional price incentives for the increased production of domestic crude oil through the application of tertiary enhanced recovery techniques will provide that incremental crude oil produced as a result of a qualified (and certified) tertiary enhanced recovery project may be sold at market level prices. More specifically, the program will have the following essential features:

1. Incentive Price.

The price permitted for qualifying incremental tertiary production will be the market clearing price. That is, the price of such crude oil will not be limited by a price ceiling, and in this sense will be "exempt" from price controls.

Based on current projections, there appears to be sufficient flexibility under the composite price requirements of the Energy Policy and Conservation Act ("ECPA," Pub. L. 94-163) to provide reasonable assurance that the prices for tertiary crude oil and other categories of crude oil will not be subject to future freezes or roll-backs. Accordingly, FEA does not propose to submit for Congressional approval an "energy action" pursuant to the procedures of section 551 of the EPCA in order to provide for any increase in the statutory composite price.

2. Qualifying Projects:

a. In General.

The crude oil entitled to the incentive price will be the incremental crude oil which is produced as the result of a "qualified tertiary enhanced recovery project." A "tertiary enhanced recovery project" is one which is within the definitions to be set forth in the regulations, and will include miscible fluid displacement, steam drive injection, cyclic steam injection, microemulsion (or micellar/emulsion) flooding, in situ combustion, polymer augmented waterflooding, alkaline (or "caustic") waterflooding, carbon dioxide augmented waterflooding, and immiscible carbon dioxide displacement. The definitions of these techniques will be substantially as set forth in the January Notice of Proposed Rulemaking (see 42 FR 2646, at 2662-63), with some minor modifications to include certain variations of the above basic techniques.

The above types of projects will be entitled to the incentive only if they are determined to qualify for the incentive on economic grounds, i.e., only if they are shown by the producer to be uneconomic in the absence of the incentive. The producer will be required to make this economic showing in *all* cases, regardless of which of the above techniques is to be utilized, and will be required to receive FEA certification that the project does qualify for the incentive on economic grounds prior to pricing any production at the incentive price level. Thus, there will not be two categories of techniques as orlginally proposed, one of which automatically qualifies for the incentive without a prior economic showing and one of which qualifies only upon such a showing. All projects must be qualified on the basis of a particularized showing of economic need for the incentive, regardless of the technique applied.

b. Existing Projects.

In general, only "new" projects (i.e., those commenced after the date of issuance of the final regulations), and expansions of existing projects, will be entitled to the incentive. However, an existing project may qualify for the incentive if the producer demonstrates that: (i) the project would be abandoned in the absence of the incentive because of a material change of circumstances since the initiation of the project; and (ii) viewed prospectively under the circumstances existing at the time FEA certification is sought, the project qualifies for the incentive on economic grounds. In determining whether an existing project qualifies on economic grounds, the FEA would generally disregard "sunk" investment and would focus principally on the marginal or variable costs of continuing. However, if such a project does qualify for the incentive under these criteria, it would prospectively receive the incentive on the same basis as a new project.

3. Quantity of Crude Oil Entitled to the Incentive Price ("Incremental" Crude Oil).

In order for crude oil produced from a qualified tertiary enhanced recovery project to receive the incentive price, it must also be incremental to that which would have been produced from the property or project area in the absence of the tertiary project. Only such incremental production—which is not necessarily equal to total production occurring after project implementation—will be entitled to the incentive price.

The basis for determining incremental production, and the projected amount of such production, will be established and certified prospectively by FEA, with the assistance of existing state and federal regulatory authorities having jurisdiction over the property in question. A non-incremental production baseline will be established for the property or project area in question which will consist of projected maximum feasible production from existing recovery efforts on the property or project area. Incremental production for any period after implementation of a project will be all production from the property or project area during that period which is in excess of the previously established and certified non-incremental volumes for that period. Providing for a non-incremental baseline consisting only of projected production from recovery efforts existing on the property on or prior to the date that certification is granted is in contrast to the proposal contained in the January Notice. Under the proposal, projected non-incremental production would have included imputed production from any non-tertiary techniques which might theoretically have been applied to the property but which had not in fact been so applied.

Incremental production will not be deemed to occur prior to the date, established in the certification, that the initial production response to the tertiary technique is projected to occur.

4. Certification and Recertification Procedures

To receive the incentive price, a producer must first apply for and receive certifications establishing: (1) that the project qualifies for the incentive on economic grounds; and (2) the basis for determining the amount of incremental crude oil which will be produced from the project.

Application for certification will be made to the FEA, which will generally be responsible for the processing of such applications and the final determinations made. However, it is the FEA's intention to utilize the expertise of existing state and federal regulatory agencies to the fullest extent feasible, particularly as regards the basis for determining the amount of incremental crude oil to be produced. Therefore, upon receipt and acceptance of an application, the FEA will contact the relevant agency and arrange with it a schedule for developing the necessary information and making the necessary determinations. It is the FEA's intention to permit this information to be developed in the context of existing state and federal agency procedures, to the extent feasible.

In connection with its issuance of detailed regulations, the FEA will publish guidelines, for the benefit of the producer and the relevant state and federal agencies, setting forth the nature of the information required to make the necessary determinations. In section II. D.1., below, is set forth a general statement of the type of information the FEA believes will be required.

The burden will be upon the producer to establish that the project qualifies for the incentive on economic grounds, and to establish the amount of incremental crude oil to be produced. Among other items, the producer must satisfactorily establish the territorial and economic scope and timing of the project, and must (particularly where the project does not coincide with property boundaries) undertake to measure production by means acceptable to the FEA in order to establish the actual amount of incremental production from the project area.

In recognition that there may be long lead-times between certification and the first production response from a project, and in recognition that any estimating errors or omissions occurring in the certification process can result in significant aberrations (particularly in future years) the FEA may require recertification of incremental and non-incremental production volumes if post-certification production history is substantially at variance with volumes projected in the certification process. A substantial variance would be deemed to exist if, in any 18-month period, actual incremental or non-incremental production for that period varies from the certified volumes by more than 20 percent or by more than an average of 50 barrels per day, whichever is greater. Although incremental production in any period would be all actual production in excess of the certified non-incremental volumes, in order to permit the FEA to re-evaluate original estimates a projected amount of incremental production would also be established at the time of initial certification.

The provision for recertification does not necessarily mean that incremental volumes will be adjusted. It means only that a substantial variance in production will be cause for an inquiry into the bases upon which the original estimates were made, in order to determine whether there were any material errors or omissions in making such estimates or whether there exists any other cause for revising the original certification. It should be emphasized that there would be no revision or revocation of the original certification merely because there is a substantial production variance; revision or revocation would occur only if the reasons for such variance are the existence of material errors or omissions in the original certification of which the producer knew or should have known. This provision for recertification is in addition to other grounds for revision or revocation of certifications discussed in the proposed rulemaking, such as a producer's failure to implement the project at the time and in the manner represented in the application for certification. In addition, this recertification procedure would not preclude a producer's seeking modification of the original certification at any time based upon changed circumstances since the time of the initial certification.

B. EXPERIMENTAL NATURE OF THE PROGRAM

In response to its January Notice, the FEA received a wide variety of responses on the large number of difficult issues presented by any effort to provide a specific incentive for tertiary enhanced recovery techniques. These comments ranged from the optimistic assessment that the proposed program was (with minor changes) adequate, to the pessimistic statements that the proposed program was essentially unworkable.

As indicated in section II., below, the FEA has modified parts of its proposed program in response to comments received, and in other respects it has adhered to its initial proposal. Also, in adopting this program the FEA has attempted to address certain related technical issues.

However, it is apparent that there is no single perfect means to resolve these difficult issues, and that there remain substantial unanswered questions as to how well the program outlined above will work in practice. Whether this program will elicit substantial producer response, and how it can best be administered, are questions which the FEA has determined should now be answered by actual experience in attempting to implement the program described.

Therefore, although the above-described program represents the FEA's best efforts to accommodate and balance the many competing considerations involved, the FEA will continue to review the operation of this program in light of the actual experience it acquires in administering it. For example, the FEA may find that it can develop reasonably refined criteria for establishing when a project may qualify for the incentive without the need for economic review, based upon the data it acquires in the course of reviewing a number of applications. There are many other examples, but in general it is the FEA's intention to undertake a thorough review of the pro- the FEA may issue further proposed rules to make any necessary revisions or improvements in the program.

The FEA also recognizes, however, that producers invest substantial time and money in determining whether to undertake projects of this nature, and that applications for certification pursuant to the present program will require such a substantial investment. Therefore, in order to provide the maximum feasible stability for producer planning, the FEA has determined that if an application for certification is received and accepted for processing under the present program at any time prior to the issuance of further proposed amendments to the program, the producer will not be affected adversely by any change in the basic scope of the incentive proposed by any such amendments. If application of

V 42 159 AUG 17 77 UM V

the new proposed rules would adversely affect the producer's position, it is the FEA's intention that the producer's application will to that extent be reviewed under the rules existing at the time the application is accepted. In addition, a certification given prior to the issuance of any proposed amendments will not be changed, by reason of the amendments, where the changes would adversely affect the producer. Revision or revocation of any such certification would be accomplished, if at all, only pursuant to the rules under which the particular certification was granted. For purposes of applying this policy, the FEA will provide formal notice to the producer at the time a particular application has been accepted. Of course, in order to be acceptable, the application must contain the required information and supporting data, and must not require substantial additional information in order to enable the FEA to commence the review process.

It is possible that, at least initially, the FEA will require monthly post-certification reports from producers receiving certifications. The purpose of such reports would be not only to monitor progress on specific projects that have received certifications, but also to keep the FEA advised with respect to the operation of its program generally.

II. Further Discussion of the Program

A. Incentive Price

The FEA has determined that qualifying tertiary production should receive a market-clearing price. It has determined at this time not to adopt the alternative, discussed in the January Notice, of limiting the incentive to an "upper tier" price, for several reasons.

First, the vast majority of comments received in the rulemaking, noting especially the high risks of tertiary recovery efforts, asserted that a market-clearing price was required in order to stimulate meaningful responses to the incentive. These assertions are supported in general by the Lewin Study on "The Potential and Economics of Enhanced Oil Recovery" (the "Lewin Study"), referred to in the January Notice and up-dated as of November 1976, which indicates that more enhanced production will result from market level oil prices than from upper tier prices. The Lewin Study also indicates that there are several reservoirs for which tertiary recovery efforts are marginally economic at current world oil prices; thus, tertiary recovery in these reservoirs would presumably be uneconomic at current upper tier prices.

The FEA recognizes that a number of those asserting the need for market-clearing prices also asserted the need to provide such prices for all production from a tertiary project, and not just for incremental production. The data presently available to FEA do not provide an adequate basis for quantifying precisely the difference, in terms of potential production response, between incremental and "full" pricing at either level. To some extent, the experience acquired by the FEA in administering the program described herein may provide a basis for assessing these differences. However, at this time the FEA believes that the Lewin Study and the comments received are generally indicative of the probability that more production will result by providing for a market level price than by limiting the incentive to the upper tier price.

In addition, the comments received by the FEA generally confirmed the observations, contained in the January Notice and in the Lewin Study, that pricing uncertainty is a major deterrent to investment in high-cost and high-risk projects of this nature. As noted in the January Notice, the lower tier price has been "frozen" for several months, and the upper tier price has been "rolled back" and "frozen" for the last several months, in order to comply with the composite price requirements of the EPCA. Many producers expressed the opinion that only a market price, relatively immune from these administrative actions, would justify the investment required in these projects.

Of course, as the FEA pointed out in the January Notice, under current legislation the incentive price received for tertiary production must be included in the EPCA composite price calculations, and to this extent is not "exempt" from potential control, because under the scheme the FEA must balance the effects of pricing actions for one category of production on the prices for other categories of production. Thus, many commenters conditioned their support of incentives for tertiary recovery projects upon the removal of the incentive price from the composite price limitations. However, based on current projections, there appears to be ample flexibility within the composite price limitations of EPCA to implement this program without any impact on other domestic crude oil prices. Should this not prove to be the case, an "energy action" could be submitted to the Congress pursuant to section 551 of EPCA which, if not disapproved by Congress, could provide any additional pricing flexibility necessary to continue incentives for qualified tertiary production.

Most commenters indicated that, although there may be some tertiary production response to the proposed price incentives before the May, 1979 terminatiodnal date of the composite price limitations of the EPCA crude oil price control program, the response is likely to be very small within that time period. However, most commenters favored providing current price incentives, because, as indicated in the January Notice, it would tend to promote earlier implementation of projects and would avoid loss of opportunities within that time period.

In addition, on April 29, 1977 (after issuance of the January Notice and hearings on the proposal) the President's National Energy Plan ("NEP") was issued. The NEP calls for an extension of crude oil price controls well beyond the expiration of the current mandatory control period of the EPCA, and it also provides for escalation of the prices of lower- and upper-tier crude oil from existing fields only to the extent necessary to keep pace with domestic inflation. Although the NEP has not yet been fully implemented, its existence clearly establishes that producers should assume generally the continuation of domestic crude oil price controls. Provision of a world market price incentive for qualified tertiary production is therefore likely to promote increased investment in tertiary enhanced recovery projects, and a consequent increase in domestic crude oil production, in a substantially greater degree than if controls were expected generally to be terminated in 1979. It should also be noted that the NEP also calls for the provision of specific incentives above the prices permitted for lower- and upper-tier crude oil, including the provision of world market prices for incremental tertiary crude oil. This is essentially the incentive described herein.

Finally, although the data available to the FEA are not sufficiently exact to permit precise quantification, the FEA believes that a substantial number of properties which may be candidates for tertiary recovery projects are currently producing "new," or upper-tier, crude oil. Providing only the upper tier price for incremental tertiary production would obviously provide no additional incentives to undertake tertiary projects in such cases, whereas providing for a market clearing price is more likely to stimulate projects which may be marginal at upper-tier prices.

For all of the foregoing reasons, the FEA has determined to permit market clearing prices to be charged for qualified tertiary production. Of course, in keeping with the experimental nature of this particular program, the FEA will be reviewing the appropriateness of this level of pricing in the course of implementing the program. However, as noted previously, a producer whose application is accepted prior to the issuance of any proposed changes in the program will not be adversely affected by any such changes.

B. Criteria for Qualification of Projects

1. In General.

In order to qualify for the tertiary incentive price, crude oil must be produced as a result of the application of certain defined techniques which are recognized to be "tertiary enhanced recovery techniques," and the project employing such technique or techniques must be shown to be uneconomic in the absence of the incentive.

The techniques which are eligible in principle for the incentive will be defined substantially as provided in the January Notice, with the major exception that all techniques will be subject to case-by-case economic review. Thus, there will be no distinction between techniques, wherein certain techniques would qualify automatically for the incentive and others would qualify only if shown to be uneconomic without the incentive. In short,

the FEA has determined not to adopt the "two-category" approach to qualifying techniques which it proposed in the January Notice. All defined techniques will be in one category, and all proposed projects will be subject to FEA review and certification on economic grounds, regardless of the particular technique employed. In connection with this decision, the originally proposed "quantitative thresholds," specifying the extent to which the relevant materials or processes must be applied in order for a "category one" technique to qualify automatically for the incentive, will be deleted. Such thresholds are now irrelevant, since each project will be reviewed to determine whether it qualifies for the incentive under the particular circumstances applicable to that project.

A large number of commenters challenged the existence of two categories with differing qualification criteria as being inherently arbitrary. Several also took issue with the qualitative and quantitative parameters proposed for determining whether a particular technique should qualify "automatically" for the incentive. While several commenters urged automatic qualification for all of the listed techniques, others simply pointed out that generalizations about which techniques would be uneconomic under what conditions are hazardous. Based upon its assessment of the comments and data available to it, the FEA has concluded that it is not appropriate at this time to establish categorical criteria and distinctions as to which techniques would be uneconomic, and under what conditions. However, the FEA does not believe that it would be appropriate to permit all of these techniques to qualify automatically, since there are clearly some projects which would be (and are now) economic without the incentive. It is the FEA's intention to provide the incentive only where it is in fact necessary to make the undertaking (or continuation) of a project economic, i.e., where the project would not be economic without the incentive, and thus to avoid windfalls to producers for production that could reasonably be expected to occur without the incentive. As pointed out in the January Notice, the EPCA describes most of these techniques as being of a kind entitled in principle to the incentive, but it mandates provision of the incentive only "to the extent that such techniques would be uneconomical without additional price incentives." Therefore, the FEA has determined to require that all projects receiving the incentive be shown by the producer and certified by the FEA to be uneconomic in the absence of the incentive.

It is possible that, in the course of administering this program, the FEA may be able to develop reasonably refined and precise criteria for determining when a project should qualify without detailed economic review. If it can and does develop these criteria, appropriate amendments may then be forthcoming.

The FEA has considered the administrative issues raised by such an economic review process, and it has at this time concluded that the objectives discussed above, together with the need to acquire specific experience with the economics of tertiary recovery projects, warrant the administrative costs involved. In this connection, it should be noted that the determination of the amounts of incremental crude oil entitled to the incentive price will require a review and certification process for each project in any case, so that the issue is not between requiring economic review and conducting no review at all. Furthermore, as some commenters pointed out, a producer will in any event have made detailed economic estimates and feasibility studies prior to seeking FEA certification of the amount of incremental crude oil. These studies will in turn necessarily be based upon technical production assumptions. Therefore, the additional administrative costs of conducting an economic review in connection with the technical review of the projected incremental production should not be great.

The economic analysis in which the FEA will be engaging, in determining whether to certify a project on economic grounds, will essentially be to determine whether the producer could reasonably be expected to undertake the project in the absence of the incentive. In general, this will depend upon whether the producer is likely to realize a sufficient return on his investment in the tertiary project without the incentive. In making this determination, the FEA will consider the investment required, the projected revenues from the incremental production at the applicable ceiling prices (or under any prior pricing relief provided the producer), and (in determining what rate of return would be adequate) the risks presented. (In considering the investment required, the FEA will look primarily to the amount of risk capital of the producer actually being committed to the project. To the extent that the project is being underwritten by research or demonstration grants, that amount would generally not be considered.) If the FEA determines that the project would be economic without the incentive, certification will be denied. However, if the FEA determines that the project would not be economic without the incentive, then the full incentive for all incremental production will be provided. For the reasons (essentially administrative in nature) discussed in the January Notice, the FEA will not limit the incentive to prices or volumes deemed necessary to provide an adequate rate of return; that is, it will not engage in ratemaking. Under the incremental approach, the producer will bear the risk of failure or production shortfalls; but the producer will be encouraged to undertake these risks, where otherwise justifiable, by having relative assurance that prices for incremental tertiary production will not thereafter be subject to prior administrative approval or revision.

As previously indicated, the qualitative definitions of the techniques which are considered "tertiary enhanced recovery techniques" potentially eligible for the incentive will be essentially as proposed in the January Notice. However, there will be some minor revisions in order to avoid the exclusion of certain variations of these basic techniques, which were inadvertently not included in the proposal. For example, the FEA has learned that nitrogen and flue gas could potentially be used as a miscible fluid in miscible fluid techniques. As another example, it has learned that drive injection might potentially be accomplished through means other than the use of existing wells for injection. Although these variations of the basic listed techniques could actually be more economic, in general, than the techniques meeting the literal wording of the proposed definitions, FEA has concluded that there is no reason to exclude these variations from consideration.

More generally, the regulations will provide that variations of the specifically listed techniques will be considered. It is not the FEA's intention to limit eligible techniques to those meeting every detail of the definitions, but rather to recognize that these are general definitions and that particular variations of these techniques are eligible in principle. Thus, new variations (which may represent technological improvements or refinements) will not be excluded.

The FEA has determined not to adopt the requirement, proposed in the January Notice, that producers establish the likelihood of recovery of a specified minimum of incremental crude oil (e.g., 5% of the original crude oil in place) in order to be eligible for the incentive. The purpose of this proposed requirement was to serve as a screening device to avoid drains on administrative resources where the project concerned might only marginally contribute to increased production. However, because the incentive price will be limited to incremental crude oil, the FEA has concluded that economics alone are likely to preclude producer applications for certification in cases in which there is not a prospect of substantial incremental recovery.

2. Existing Projects.

As proposed in the January Notice, projects existing on the effective date of the final regulations will not generally be entitled to receive the incentive, because their existence is presumptive evidence that the incentive was not and is not required in order to commence or continue the project. In general, only those projects commenced after the effective date of the regulations, and after receipt of the required certifications, or expansions of pre-existing projects after the effective date of the regulations and after receipt of the required certifications, will be eligible for the incentive. However, an existing project may receive the incentive if it is shown that the project would otherwise be abandoned because changed circumstances have rendered continuation of the project uneconomic. The FEA will certify such projects if the producer demonstrates that there has been a material change of circumstances since the initiation of

V 42 159 AUG 17 77 UM

the project and that, viewing the project prospectively under the circumstances existing at the time certification is sought, continuation of the project would be uneconomic without the incentive. In determining whether the project is uneconomic, the FEA will generally disregard unreasonable (or "sunk") investment, and will focus principally upon the costs of continuing. Also, the FEA will take into account the prior tertiary production history of the project in assessing the risks presented and the related rate of return necessary for the project to be economic.

If the required showing is made, however, the producer will be entitled to receive the full incentive, as is the case for new projects. That is, the entire amount of incremental tertiary production will be entitled to receive the market level price. Such incremental crude oil may include some current production in the case of existing projects, since there may already have been some tertiary production response to the project.

A possible alternative, which the FEA considered but is not adopting at the present time, would be to consider existing projects to be outside the scope of the program and to require that they obtain relief, if at all, through the exceptions process. Under the exceptions process, the FEA generally permits a producer to increase the price of crude oil to the extent determined to be necessary to permit a particular project to continue. Thus, requiring an existing project to obtain relief through this process would mean that the prices permitted would be only so much as, in FEA's judgment, were necessary to provide a reasonable rate of return. In contrast, existin projects under this program will receive the full incentive if they would be uneconomic without the incentive.

In reaching this conclusion, the FEA took into account the views of several commenters that different treatment of new and existing projects would unfairly discriminate against producers that had previously undertaken precisely the kind of effort for which the Congress intended the incentive. Moreover, providing the incentive for existing projects for which the required special showing is made will contribute to the ultimate objective of the incentive, viz., increased domestic crude oil production, since without the incentive the project would be abandoned as uneconomic. However, the FEA does not agree that it is inappropriate to consider the differing circumstances in which new and existing projects find themselves in determining whether they qualify for the incentive. Failure to take account of the special considerations applicable to existing projects might otherwise result in windfalls to producers for current production.

The FEA fully recognizes that, in some cases, provision of the full incentive to projects which would be uneconomic without the incentive might be more than sufficient to justify the project. This is as true, potentially, for new projects as for existing projects. However, the FEA has determined that the incentive should be "all or nothing," for two reasons. First, to attempt to "fine-tune" the incentive to FEA's judgment of what would constitute a reasonable rate of return would lead inevitably to ratemaking, with all of the administrative pitfalls inherent in that process and noted in the January Notice. As previously stated, the FEA believes that producers should assume the production risks, but that they should be encouraged to do so by the provision of prices not subject to undue administrative review and revision. Second, the FEA believes that it is within the spirit of the ECPA provisions for these incentives to err, if at all, on the side of liberality in this regard, without attempting at every stage to interpose administrative judgments as to what permissible prices should be.

However, the FEA will be reviewing this matter, as well as the other aspects of its current incentive program, in connection with its subsequent overall review of the program.

The requirement that an existing project be shown not only to be uneconomic, but also to have been affected by changed circumstances, is retained as proposed in the January Notice. However, the requirement that such changed circumstances have been unforeseeable has been deleted. The purpose of the "changed circumstances" requirement is to assure that the incentive is not given to projects which, even if not "economic" in terms of production revenues, represent corporate expenditures justified on grounds other than production revenues (such as research expenditures). In such cases, providing the incentive would represent a form of windfall since it would not be a necessary inducement for the project. On the other hand, if a producer can show, by reference to convincing objective evidence, that the original purposes of the project have been exhausted and that continuation of the project must now be justified on other grounds (viz., production revenues), then the FEA believes that the project should be eligible for the incentive, provided of course that the other required showings are made. Since this eventuality is "foreseeable," it appears that a requirement of unforeseeable changes in circumstances would be too stringent. Moreover, a requirement of unforeseeability might also preclude projects which have experienced a substantial production shortfall, since the risk of this occurring is certainly foreseeable. Accordingly, the requirement of unforeseeability of changes in circumstances has been removed.

C. CRUDE OIL ELIGIBLE FOR THE INCENTIVE "PRICE-INCREMENTAL" CRUDE OIL

The FEA has determined to permit the incentive price only for the incremental crude oil produced as a result of a qualified tertiary enhanced recovery project. Incremental crude oil entitled to the incentive price is that which is in excess of the amount of crude oil that would have been produced from the property or project area in question in the absence of the project. To determine the amount of incremental crude oil a "non-incremental" production baseline will be established, based upon projected maximum feasible production from the non-tertiary recovery methods which are or have been applied to the property or project area as of the date certification is granted. Incremental crude oil entitled to the incentive price will be all that produced above the certified non-incremental baseline amounts for the relevant period, beginning after implementation of the project.

Permitting the incentive price for incremental crude oil is in conformity with the proposal set forth by the FEA in the January Notice. In that Notice, the FEA recognized that there was concern as to whether the "incremental" approach provided an adequate incentive, and it identified several alternatives which it wished to consider. Many of the comments received expressed the opinion that the "incremental" approach was not adequate, and espoused the adoption of one or a combination of the alternatives discussed. These commenters generally adopted the arguments against the purely "incremental" approach which were recognized in the January Notice, viz., that such an approach imposes the entire risk of failure on the producer and may not permit the adequate formation or recovery of capital necessary for tertiary recovery projects.

The FEA appreciates the force of these contentions, and does not dismiss them lightly. However, in the difficult task of balancing competing objectives it is the FEA's present judgment that the program described herein will both provide a meaningful incentive for the undertaking of tertiary enhanced recovery projects and will also assure that the incentive does not promote inefficient or distorted economic behavior.

Limiting the incentive to incremental crude oil should prevent the application of tertiary recovery techniques in cases in which the prospect of incremental production alone (even if priced at market prices) would not justify the project, but where the producer might be induced to "go through the motions" of implementing a teritiary project if he could thus increase the prices of current production. In other words, by requiring each project to be self-supporting (with the incentive), the incentive will not induce distorted economic decisions. In addition, the incremental approach will tend to correlate increased production and production revenues with the level of effort and expense incurred by the producer in implementing the enhanced recovery effort, and will thus avoid any inducement to undertake nominal efforts at tertiary recovery in order to receive higher prices for non-tertiary production. Finally, under the incremental approach any higher prices for domestic crude oil will be directly correlated with increased domestic crude oil production, which it is the purpose of the incentive to promote. Under this approach, increased domestic crude oil prices will not be out of proportion to increased crude

oil production, as they might be if current production were to receive the incentive price. For all of these reasons, the FEA has rejected the alternative of permitting all production from a tertiary project to receive the incentive price.

The FEA has considered, but has for purposes of the present program rejected, the alternative of "releasing" a portion of current crude oil production based upon the level of capital committed to a tertiary project. This decision is based in part upon the reasons discussed above for not permitting increases in the prices of current crude oil production, in part for the administrtaive reasons noted in the January Notice, and in part because the FEA presently believes that the producer should in general bear the risks involved in these projects in return for the prospect of receiving the incentive price. Producers are in the best position to know whether and which of their properties are good prospects for substantial tertiary recovery, and the FEA believes that in general the public should not underwrite projects, through higher current crude oil prices, when the producer considers the prospect of obtaining incremental crude oil from such projects too risky even at market prices for such production, Otherwise, it is likely that domestic crude oil prices would escalate out of proportion to the benefits of increased production.

Moreover, underwriting a specific project through higher current crude oil prices may result in inefficient uses of capital. If, without such an underwriting, the producer would decide that a better use of capital were for other purposes, such as exploration for as yet undiscovered crude oil, providing a full or partial "guarantee" of capital recovery from a tertiary project would distort that decision. In proving incentives for tertiary projects, the FEA cannot ignore the potentially distorting effects on other decisions affecting fundamental national energy objectives.

The FEA also considered but rejected an alternative espoused by several commenters, viz., that "incremental" crude oil be deemed to have been produced in any period in the same percentage to total actual production in that period as the projected ultimately recoverable "tertiary reserves" bears to total ultimately recoverable reserves. The main difficulty with this approach is that, as indicated in several comments, it is difficult to estimate the amount of reserves recoverable from an untried technique within a reasonable range of accuracy. Therefore, this approach would be based upon a large amount of speculation, and may grossly overstate or understate the amount of incremental crude oil ultimately recovered. In this respect, this alternative too would not necessarily correlate increased prices with increased production.

Notwithstanding the foregoing observations, the FEA is not minmizing the concerns of those commenters expressing the opinion that the incremental approach provides an inadequate incentive. In the ensuing period during which the FEA is implementing the program described herein, it will carefully review producer responses to this program in an effort to determine whether this program is adequate. However, the FEA presently believes that this program will elicit producer response, as indicated in other comments received by the FEA. In this connection, the FEA notes that the NEP, and the prospect for continued crude oil controls which it presents, may well cause producers to undertake projects which they might not otherwise undertake if controls were anticipated to be removed within a few years. Under the NEP, producers should now be aware that, whenever incremental tertiary production occurs, it will be permitted to receive a price in excess of that allowed for most other domestic crude oil.

As indicated previously, the "non-incremental" baseline against which incremental production is to be measured would consist of projected maximum feasible production from non-tertiary techniques being applied to the property or project area on the date certification is granted. The FEA has determined not to adopt the proposed requirement that the non-incremental baseline include "imputed" production from other technically feasible non-tertiary techniques which might have been applied to the property or project area, but which have not been applied to the property or project area. A major reason for this is that, as noted previously, it is difficult to predict with reasonable accuracy the amount of production response from a technique for which there is no production history on the property. In addition, the imputation of production from techniques which are technically but not economically feasible would overstate realistically obtainable non-incremental production and understate incremental production; and the effort to separate economic theoretical techniques from uneconomic theoretical techniques would be likely to involve unacceptable administrative difficulties. Finally, the FEA believes that economics alone will probably prevent producers from seeking the incentives for quantities of crude oil which could be recovered economically through non-tertiary techniques, since producers are likely to exhaust economic techniques prior to considering the application of uneconomic tertiary techniques.

Of course, the non-incremental baseline will be projected based upon maximum feasible production from existing techniques. This will avoid projecting non-incremental production based upon production histories in which production has been artificially depressed for any reason.

It should be noted that non-incremental and incremental production will be established for a project area, where the project does not cover an entire property. This is because the production history and characteristics of different portions of the same property may be different, and in such cases it is appropriate to account for these differences so that the tertiary project itself is neither penalized nor benefitted by factors not affecting or affected by the project. Thus, if the non-tertiary decline curve for the tertiary project area is different than for the property as a whole, only the specific decline curve for that portion will be used. Similarly, the measurement of actual post-certification production must be accomplished separately for the project area and the remainder of the property. The purpose of this requirement is to assure that events occurring on the portion of the property unaffected by the project, such as "infill" drilling increasing production or reduced production occurring for any reason, are not credited or charged to tertiary production.

The FEA recognizes that the establishment of separate decline curves for separate portions of a property, and the separate measurement of production from these portions, will entail additional effort and expense. However, it has determined that it is necessary separately to account for production where the project does not cover an entire property, for the above reasons. Therefore, in seeking the certification the burden shall be upon the producer satisfactorily to establish the scope of the project area, and also to undertake the separate measurement of production from the affected and unaffected portions of the property. The FEA believes it is reasonable to impose such a requirement as a condition of certification, in order to assure that the incentive is operating as intended.

The "project area" will generally be defined on an "affected well" basis. That is, the producer will be required to show the wells from which production will be affected, positively or negatively, by reason of the application of the tertiary project. It is the subsequent production from these wells that will be utilized in determining the amount of incremental crude oil produced.

D. CERTIFICATION AND RECERTIFICATION OF PROJECTS

1. Certification procedures generally—As proposed in the January Notice, in order for a project to qualify for the incentive it must first be certified by the FEA. The essential objectives of the certification are two-fold: (1) to establish that the project qualifies on economic grounds to receive the incentive; and (2) to establish the amount of incremental crude oil which will be produced from the project. (As noted previously, the FEA has departed from its initial proposal to the extent that it now requires all projects to receive the above certifications, including the economic certification, regardless of the technique being employed.)

As proposed in the January Notice, the FEA will be relying upon the relevant existing State and Federal regulatory agencies in making the determinations concerning the amount of incremental crude oil to be produced. Insofar as concerns the willingness and ability of these agencies to undertake the necessary analyses, the responses received by the FEA were generally affirmative. The FEA ap-

preciates the cooperative spirit demonstrated by these authorities, and it intends to work closely with them in implementing this program.

However, the FEA has determined that, for the present at least, it will not formalize the relationship between it and the other agencies to the extent proposed in the January Notice. Comments received by the FEA indicate that the agencies are to some extent differently situated in terms of the review procedures currently applied and the kinds and amounts of information it is feasible to provide. Moreover, it is difficult to foresee precisely what information will be needed, and how best to develop that information, except in the context of specific producer applications and a specific agency's procedures.

For the above reasons, the FEA has determined that, for the present at least, all applications for certification will be submitted directly to the FEA. The FEA will thereupon contact the relevant agency to arrange with that agency a mutually agreeable schedule for making the necessary determinations. The producer will be advised of these arrangements. It is contemplated that the FEA will work closely with these agencies, and that FEA involvement will not necessarily be limited to post hoc review of the information developed by the agencies. In general, the FEA believes that actual experience in processing these applications will be beneficial not only to the FEA but also to the agencies assisting it. It may be that such experience will demonstrate how and where the relative processing functions can be formally assigned between the FEA and other existing agencies; but until that time the FEA believes that it would be unrealistic to attempt to provide for a formal delegation of specific functions and a formal review process.

Requiring that applications be submitted directly to the FEA should reduce the time involved in the certification procedure. For example, with respect to those matters which the relevant existing agency is not equipped to handle, the FEA can concurrently be performing its review (or making other arrangements for such review) of the producer's application. Thus, the FEA may be able to perform its economic review while the other agency assumes primary responsibility for the incremental crude oil determination. Of course, the FEA must retain ultimate responsibility for the final decision, and the authority to make that final decision. However, to the extent that the FEA is able to work closely with the relevant agency throughout the processing of an application, the need for a time-consuming formal review after the other agency has made or proposed its determinations should be minimized. It is a fundamenal objective of the FEA to avoid unduly lengthy certification proceedings.

In all cases, the burden will be upon the producer to establish entitlement to certification. FEA, as the certifying authority, will (together with the relevant State or Federal agency) exercise its independent judgment in making its determinations. However, the determinations will necessarily be based primarily upon the information submitted by the producer in connection with the application, together with such other information as the FEA or its assisting agency may require from the producer or may otherwise acquire from any source. The application must contain all of the information, together with supporting data and documentation, as is reasonably necessary to enable the FEA or other relevant agency to make the necessary determinations. As stated in section I.A.4., above, the FEA will establish guidelines for producers concerning the information required to be submitted. Although the following list is not necessarily exhaustive of all of the information required, it sets forth generally the type of information which the FEA believes will be required in order to make the necessary certifications:

INFORMATION REQUIRED FOR TERTIARY ENHANCED OIL RECOVERY INCENTIVE PRICING

(A) Property Information—(i) Property area (Acres); Location (bounds);
(ii) Characteristics of Wells: Producers; Injectors; Disposal Wells; Temporary abandonment;
(iii) Production history: All categories, 1972–Date, semi-annually;
(iv) BPCL;
(v) Average depth of wells, and
(vi) Average reservoir thickness: gross and net.
(B) Project Information—(i) Project area (Acres); Location (bounds);
(ii) Characteristics of Wells: Producers; Injectors; Disposal Wells; Temporary abandonments; New wells required;
(iii) Production history: All categories, 1972-Date, semi-annually;
(iv) Non-tertiary Production Baseline Projections: Projection base (including reservoir characteristics), Projection computation formula;
(v) Projection of all tiers other than tertiary recovery production;
(vi) Tertiary recovery method proposed: Description of operational procedures, Cost breakdown, Incremental oil production projections;
(vii) Investment plan: Financial arrangement, Timing of investment, Major items of expenditures; and
(viii) Operation plan: Work performance schedule, Major equipment installations, Injection and production procedures, In-field separation procedures.

The FEA recognizes that the certification procedures established will entail definite expenditures of time and money. It so stated in the January Notice, and it received several comments objecting to the proposed procedures. To some extent, as indicated above, the FEA believes that avoiding a formalized two-step system of review will reduce these expenditures. However, it has concluded that a certification procedure cannot be avoided altogether, because such a procedure is necessary to assure that the incentive is not misapplied. It will also contribute to relative producer certainty that the FEA will not subsequently deny the incentive after the producer has expended substantial sums in furtherance of the project. Although a certification, once given, remains subject to revision or revocation on the grounds discussed in section E., below, such certification would not be subject to revision or revocation simply because the FEA might subsequently disagree with the producer's original conclusions regarding the amount of incremental crude oil to be produced or whether the project would be economic without the incentive. Under the certification procedure, any disagreements will be made known to the producer prior to the expenditure of substantial sums in implementing the project.

2. Recertification requirements—The FEA has determined to impose an affirmative obligation upon producers to seek recertification of their projects in the event that post-certification incremental or non-incremental production varies substantially from that established in the certification. For these purposes, post-certification production will be deemed to vary substantially from certified volumes if they vary by more than 20 percent or 50 barrels per day, whichever is greater, over an 18-month period. For these purposes, also, the amount of incremental as well as non-incremental production for any period will be established in the certification. Thus, although incremental crude oil entitled to the incentive price for a given period will be all that over the non-incremental baseline for that period, if such amount exceeds the amount of incremental production established in the certification for that period by more than the above thresholds the producer will be required to establish the reasons for such variance and will be required to obtain recertification. (It should be noted that the FEA will necessarily be required to utilize incremental production estimates, based upon producer estimates except to the extent modified during certification by the FEA, in order to determine whether the project would be economic without the incentive. Therefore, it is appropriate to utilize these estimates to determine recertification (thresholds.)

It must be emphasized that the requirement to obtain recertification does not mean that the FEA will necessarily revise the original certification. It means merely that a variance in amounts above the established thresholds will be the occasion for FEA review of the original application and the data base for that application, and will require the producer to explain the reasons for the variance. The requirement for recertification is a response to several comments to the effect that is difficult to project production in periods far removed from the present time, and it is intended to provide the FEA with an opportunity to review those projections and the data on which they are based when actual production varies substantially from those projections. Also, in the case of new projects, the lead-times between certification and the initial tertiary production response may be as much as three years. The non-tertiary production history during that period may be greatly above or below that projected in the certification, so that revision of the non-incremental baseline may be appropriate prior to the initial tertiary production response.

It should also be emphasized that any revocation of certifications, or their revision in a manner adverse to the producer, would be predicated only upon the grounds discussed in section E., below, viz., that the producer is determined not to have sought or implemented the certification in good faith or as represented in the original application, or that the certification was based upon a material error or omission of which the producer knew or should have known. Thus, recertification of the project and the original volumes would be granted unless the FEA determines that the facts presented justify revision or revocation of the original certification. Under this approach, a producer would not be penalized for the success of his project, unless the reasons for such success are such that the producer knew or should have known, at the time of the original certification, that the production response was likely to be different than originally estimated by the producer. However, notwithstanding any recertification, all certifications or recertifications would remain subject to revision or revocation if the FEA should subsequently discover that such action is warranted on the above grounds.

The FEA understands that the establishment of any specific quantitative criteria for determining when recertification must be sought is to some degree subject to argument, because production projections are in their nature subject to large marking of error. It also understands that the specific 20% and 50 barrel criteria discussed above may prove to be unnecessarily low in practice, and it will therefore be reviewing the appropriateness of these criteria in connection with its overall review of the program. However, the FEA considers that some such criteria are necessary and appropriate, for the reasons discussed previously, and the specific criteria set forth herein represent the FEA's best present judgment concerning the amount of variance which would warrant review of the original certification.

E. POST-CERTIFICATION EVENTS

As indicated in the preceding section, a certification or recertification is subject to review, and modification or revocation, on certain grounds, i.e., the failure of the producer to have obtained certification or implemented the project in good faith, the failure of the producer to implement the tertiary project at the times and in the manner represented in his application for certification, or the granting of certification or recertification on the basis of a material error or omission of which the producer knew or should have known. The reasons for these provisions are essentially as stated in the January Notice. In brief, they are intended to assure that unwarranted incentive prices are not given to producers because of matters known to or within the control of the producer, and not known to or within the control of the FEA. Inasmuch as the producer is in the best position to known the facts regarding a particular project and to control the implementation of his project, the FEA believes that it is appropriate to impose the burden upon producers to make full disclosure of all relevant matters and to implement their projects as represented in their applications for certification, at the risk of losing their certification, retroactively or partially retroactively (where appropriate) as well as prospectively, if they do not do so.

The FEA recognizes the argument raised in several comments, that these provisions will not contribute to the kind of certainty required by producers if they are to implement tertiary recovery projects. However, it has been determined that these provisions are necessary to prevent potential abuses of the incentive. Moreover, the FEA does not believe that any fears about "second-guessing" are warranted. In the first place, any retroactive revocation or revision of a certification would be based upon the judgment (after investigation, where appropriate) that one of the foregoing grounds for such action exists. Second, in making this determination, the FEA will necessarily apply a standard of reasonableness. It is not possible to reduce the required judgments to a formula, but in general the FEA would put itself in the place of a reasonable producer seeking and applying the incentive in good faith.

In the January Notice, the FEA indicated that it was concerned that the requirement to implement the project at the times and in the manner set forth in the application for certification might induce inefficient behavior on the part of producers, where unforeseen circumstances made adherence to the original plan not sensible. The FEA's concern was that producers might continue to adhere to the original plan, for no other reason than that failure to do so might render them subject to the risk of revocation of their certification. It indicated that producers could seek recertification (modification of the original certification) in such cases, although it also recognized the administrative costs of doing so. The FEA has concluded that it is appropriate to impose the requirement upon producers to adhere to the plan upon which certification was based, or to seek recertification in the event that they determine they cannot adhere to their original plan, since the original certification will necessarily have been based upon the assumption that the producer would adhere to the plan. Although it is likely that many deviations from the original plan will not be of sufficient magnitude to affect the fundamental bases upon which the original certification was granted, it is not possible for the FEA to prescribe in advance what changes will be material to the certification and what will not. Therefore, it has determined that the primary obligation should be upon the producer to advise the FEA of any changes in the original plan, and to permit the FEA to determine whether and to what extent to revise the original certification.

The FEA is also aware that projects are not always implemented in toto at the one time, but that they may be phased in over a period of time. It recognizes that, in such cases particularly, it is difficult to predict the exact times of implementation or to predict the exact levels of expenditure at any given time; accordingly, the probabilities of change are considerable. However, for the reasons given above, the FEA presently believes that it will be necessary to require the producer to obtain recertification in the event of any changes. Of course, nothing prevents the producer from submitting ranges of times and ranges of expenditures within which the project will be implemented, and thus providing some degree of flexibility. In such cases, however, the FEA will generally adopt the most conservative end of that range in determining whether to certify the project.

III. REGULATIONS IMPLEMENTING THE INCENTIVE

As is apparent from the foregoing discussion, the implementation of an incentive program for the application of tertiary enhanced recovery techniques presents difficult technical issues as well as difficult issues of policy.

The FEA is presently formulating specific regulations intended to implement the decisions set forth herein, together with certain related matters such as entitlements treatment for tertiary crude oil, and it will be issuing such regulations in the near future. In view of the potential for unforeseen technical implications, these regulations, although intended to be final, may be given a delayed effective date, in order to permit comment on any perceived technical difficulties or omissions in such regulations. In setting forth the matters contained herein, it is the FEA's intention to advise the public of the nature of the program which will be implemented, so that producers desiring to apply for certification and to receive the incentive may be planning accordingly.

Issued in Washington, D.C., August 11, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

Decision (Partial) on Proposed Amendments to Marketing Agreement and to Order

V 42 159 AUG 17 77 UM

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1002

[Docket No. AO-71-A71]

MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

Decision (Partial) on Proposed Amendments to Marketing Agreement and to Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This final decision proposes certain changes in the New York-New Jersey Federal milk marketing order (Order 2), based on industry proposals considered at a public hearing in February 1976. A referendum will be conducted to determine whether producers favor issuance of the proposed amended order.

The principal changes would adjust the prices for milk throughout the production area to more nearly reflect the costs incurred by handlers in assembling milk from farms and transporting it to plants for processing. Another change would institute a late-payment charge on overdue payments by handlers to the market administrator to encourage prompt payments for milk. Also, a number of minor changes would be made in the classification of milk according to its use to reflect current marketing practices.

Notice of Hearing—Issued January 9, 1976; published January 14, 1976 (41 FR 2092).

Extension of Time for Filing Briefs—Issued April 15, 1976; published April 21, 1976 (41 FR 16660).

Recommended Decision (Partial)—Issued April 5, 1977; published April 11, 1977 (42 FR 18950).

Extension of Time for Filing Exceptions to the Recommended Decision (Partial)—Issued May 6, 1977; published May 11, 1977 (42 FR 23841).

PRELIMINARY STATEMENT

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the New York-New Jersey marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at New York, New York, on February 17–20, 1976, and at Syracuse, New York, on February 23–26, 1976, pursuant to notice thereof.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Administrator, on April 5, 1977, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision (partial) containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended partial decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. The following changes are made under the heading "1. *Modification of transportation allowances.*":

a. Paragraph 6 is changed.

b. Under the subheading "a. *Summary of hearing proposals.*", paragraphs 23 and 25 are changed and a new paragraph is added after paragraph 25.

c. Under the subheading "b. *The need for order changes.*", two new paragraphs are added after paragraph 19.

d. Under the subheading "c. *Order modifications.*"—"*Pool transportation credit and truck service charge.*", paragraph 11 is changed, six new paragraphs are added after paragraph 9, and two new paragraphs are added after paragraph 12.

e. Under the subheading "c. *Order modifications.*"—"*Transportation differentials and Class I price differential.*", paragraphs 2, 8 and 15 are changed, seven new paragraphs are added after paragraph 10, paragraph 16 is deleted, and 30 new paragraphs are added at the end of the discussion.

f. Under the subheading "c. *Order modifications.*"—"*Direct delivery differential.*", paragraphs 1, 2, 6, 7 and 8 are changed and seven new paragraphs are added at the end of the discussion.

g. Under the subheading "c. *Order modifications.*"—"*Upstate fluid differential.*", three new paragraphs are added at the end of the discussion.

2. The following changes are made under the heading "2. *Changes in certain classification provisions.*":

a. Under the subheading "a. *Classification of milk moved between Order 2 pool plants and plants regulated under an order administered solely by the State of New York.*", a new paragraph is added at the end of the discussion.

b. Under the subheading "c. *Classification of milk dumped, disposed of for animal feed, or lost under extraordinary circumstances.*", a new paragraph is added at the end of the discussion.

3. Under the heading "4. *Charges on overdue accounts.*", paragraph 16 is revised, paragraph 17 is deleted, and two new paragraphs are added after paragraph 17 and five new paragraphs are added after paragraph 20.

The material issues on the record of the hearing relate to:

1. Whether changes should be made in the following provisions for purposes of permitting a more equitable competitive situation, on both an intramarket and intermarket basis, for Order 2 handlers:
   a. Class I price differential.
   b. Transportation differentials.
   c. Pool transportation credit to handlers for bulk tank milk.
   d. Tank truck service charge.
   e. Direct delivery differential.
2. Whether the classification provisions should be changed with respect to the following:
   a. Milk moved between Order 2 pool plants and plants regulated under an order administered solely by the State of New York.
   b. Bulk milk received at an Order 2 pool plant from a plant regulated under another Federal order.
   c. Milk dumped, disposed of for animal feed, or lost under extraordinary circumstances.
3. Whether the procedure for classifying shrinkage should be changed.
4. Whether the order should provide for charges on overdue accounts.

This decision deals with all issues except issue No. 3. The latter issue is reserved for a later decision.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Modification of transportation allowances.* For the purpose of permitting a more equitable competitive situation for regulated handlers, on both an intermarket and intramarket basis, and to provide a more stable market for producers, the New York-New Jersey order (Order 2) should be amended in the following manner:

The present Class I differential of $2.40 that is applicable at the 201–210 mile zone should be reduced to $2.25.

The transportation differential rate of 1.2 cents per hundredweight for each 10 miles that is now used to adjust the Class I and uniform prices for location should be increased to 1.5 cents for each 10-mile zone more distant than the 201–210 mile zone, and to 1.8 cents for each 10-mile zone less distant than the 201–210 mile zone. With the new base zone differential, this would result in a Class I differential at New York City of $2.61.

The current 10-cent per hundredweight pool transportation credit to handlers on receipts of bulk tank milk allocated to Class II uses should be replaced with a 15-cent pool credit on all farm bulk tank milk received by handlers.

Handlers should be permitted to negotiate with producers or their cooperatives a tank truck service charge of up to 15 cents per hundredweight (now limited to 10 cents) with respect to any farm-to-first plant hauling costs not recovered through the 15-cent pool transportation credit on farm bulk tank milk.

The present 5-cent direct delivery differential should be increased to 15 cents per hundredweight. The differential should continue to be applicable to all milk received from bulk tank producers located within the 1–70 mile zone or from producers who deliver their milk in cans to plants within such zone.

No provision should be made in the order for a "metropolitan transfer credit" or an "upstate fluid differential," as was proposed by several cooperatives, or for pricing milk at the plant where first received, as several handlers urged.

a. *Summary of hearing proposals.* The basic purpose of the hearing was to consider proposals that were designed to improve the competitive situation for Order 2 handlers located in or near the major metropolitan area of the market (New York City and nearby heavily populated areas) who are engaged in the distribution of Class I milk. Witnesses contended that in recent years the cost of hauling milk from farms to plants has increased substantially. They indicated that this has resulted in a significant deterioration in the ability of metropolitan area handlers to compete effectively with handlers in neighboring markets, particularly the Middle Atlantic Federal order market, and with various handlers in the Order 2 market.

With respect to the intermarket competition, witnesses claimed that the adverse situation is attributable largely to the unique procedure for pricing producer milk under Order 2 relative to other orders. It was pointed out that under Order 2 bulk tank milk from producers is priced essentially at the location of the farms where received by handlers. Witnesses alleged that this has caused the burden of the higher hauling costs to fall largely on handlers, including cooperatives operating in a handler capacity, who move the milk from the farms to the major consumption center of the market. The witnesses stressed that in contrast handlers in other markets have not borne the brunt of the increase in hauling costs. They pointed out that under other orders producer milk is priced at the first plant at which it is received. The witnesses claimed that in those cases where the producers deliver their milk directly to the city distributing plants, the higher hauling costs have been absorbed largely by the individual producers rather than by the handlers receiving their milk.

Witnesses contended that the disparity in the cost of milk to handlers under Order 2 and other orders has resulted in a substantial loss of Class I sales by Order 2 handlers to the other markets. They claimed that corrective action is essential to the long-run interests of producers in the New York-New Jersey market.

With respect to the alleged intramarket competitive problems, it was claimed that the impact of the increased hauling costs on Class I distributors in the major metropolitan area has varied, depending on each distributor's source of milk. Witnesses contended that the metropolitan area handlers who rely on supply plant milk are experiencing much higher procurement costs than those receiving milk at their distributing plants directly from farms. This, they claimed, is because of the costs associated with reloading milk at supply plants and moving it long distances to the metropolitan area, plus using a transportation differential rate under the order that does not reflect actual hauling costs.

Cooperative associations and proprietary handlers offered a number of proposals which they believed would minimize the competitive problems of which they complained. Six major proposals dealing with this issue were made by two principal producer organizations in the market. The basic thrust of the proposals was to shift the assembly and hauling costs for milk from handlers to producers. Various modifications of these proposals were proposed by several proprietary handlers to accommodate their individual operations. A number of other producer groups in the market, including a third major producer organization, opposed any changes in the order relative to this issue.

Two of the six major proposals relate to the recovery of costs associated with picking up farm bulk tank milk and moving it to the first plant of receipt. One proposal would provide handlers with a 15-cent per hundredweight pool credit on all such milk. A 10-cent pool credit currently applies just on Class II bulk tank milk. The other proposal would increase the maximum negotiable tank truck service charge, which is now 10 cents per hundredweight, to 25 cents. Together, these two proposals would make it possible for handlers to recover up to 40 cents per hundredweight of the farm-to-first plant hauling cost for bulk tank milk—15 cents through the pool credit and the remainder through negotiations with the producer or his cooperative.

Proponents supported a pool credit for handlers of farm bulk tank milk as an appropriate mechanism for recovering from producers a portion of the farm-to-plant hauling costs. They maintained that a 15-cent credit would reflect the minimum cost incurred by handlers in picking up bulk tank milk at the farm. They took the view that a pool credit could be easily administered, that it would avoid confusion among producers since it would affect all bulk tank producers uniformly, and that it would contribute to market stability.

Spokesmen for the proposals indicated that for most handlers the 15-cent pool credit would not sufficiently reimburse handlers for the farm-to-plant hauling costs incurred and that additional amounts should be recoverable through a negotiated charge to producers. It was contended that setting the maximum negotiable charge at 25 cents per hundredweight would permit handlers to recover most, if not all, of such costs. Witnesses stated that limiting negotiated deductions for hauling to 25 cents per hundredweight is necessary to ensure that handlers do not negotiate deductions in excess of actual hauling costs. Also, it was claimed that a limit, compared to unlimited deductions, would provide an incentive for handlers to assemble milk in the most efficient manner.

Two other major proposals relate to the recovery of costs for long-haul shipments of bulk milk. One proposal would increase the present 1.2-cent transportation differential rate to 1.5 cents per hundredweight for each 10-mile zone. The other would provide a 25-cent per hundredweight pool credit to handlers on Class I milk originating beyond the 1–140 mile zone and transferred in bulk, directly from farms or from plants, to plants located within the 1–65 mile zone. In combination, these proposals are intended to permit handlers to recover the average cost of shipping bulk milk from country locations to distributing plants in the major metropolitan area for Class I use.

In support of these proposals, witnesses claimed that the long-distance hauling rates now being charged in the market reflect a "variable" hauling cost of 1.8 cents per hundredweight per 10 miles, and "fixed" hauling costs totaling 19 cents per hundredweight.[1] Although supporting the 1.8-cent variable rate, proponents indicated that their proposal was couched in terms of a 1.5-cent variable rate since this is the rate commonly reflected in other orders. For a 200-mile shipment, such as from the base zone to the New York City area, witnesses indicated that a 1.5-cent transportation differential rate would cover 30 cents of the average 55-cent actual hauling cost for this distance.

Proponents contended that the total cost of long-distance shipments, and not just the variable cost, should be reflected in the order's pricing provisions if the metropolitan area handlers are to be competitive with handlers in other markets. Accordingly, it was proposed that handlers be given a 25-cent "metropolitan transfer credit" for the purpose of covering that portion of the 55-cent hauling cost for a 200-mile shipment not reflected in the adjustment of prices for location, i.e., 25 cents. The 25-cent credit would cover the remaining 6 cents of the actual 36-cent variable cost for 200 miles not covered by the 1.5-cent transportation differential rate, plus the 19-cent fixed cost. Proponents noted that if the zone differentials were to be established at 1.8 cents per 10 miles a metropolitan transfer credit reflecting only the 19-cent fixed cost would be appropriate.

At the hearing, proponents modified their initial proposal to provide for a "feathering" of the metropolitan transfer credit. They suggested that a credit of 10 cents per hundredweight be given for milk transferred to metropolitan area plants from the 91–100 mile zone, 15 cents for the 101–120 mile zone, 20 cents for the 121–140 mile zone, and 25 cents for milk shipped from more distant areas.

Another of the major proposals would increase the present 5-cent direct delivery differential to 10 cents per hundredweight and would extend the zone of application to include all pool milk received from farms within the 1–110 mile zone. Witnesses indicated that this proposed change is intended to more nearly equate the cost of nearby milk moved directly from farms to plants in the major metropolitan area for Class I use with the cost of Class I milk obtained by handlers from country plants. It was claimed that the handler receiving direct-ship milk avoids reloading costs that attach to supply plant milk. It was suggested that in view of current reloading costs the direct delivery differential perhaps should be as much as 13 cents per hundredweight. A witness also indi-

[1] "Fixed" hauling costs are the costs associated with the ownership of the trucking equipment and any related maintenance facilities. Such costs include depreciation, licenses, interest, taxes and insurance. "Variable" hauling costs are the costs associated with the over-the-road operation of the trucking equipment, such as gas, tires and repairs. The estimates of fixed and variable costs that were placed in the record were determined from a regression analysis of various hauling rates applicable in the New York-New Jersey market.

cated that a larger direct delivery differential payable to the nearby producers would partially offset the incentive that such producers now have for shifting to neighboring markets where higher blend prices are being paid.

The sixth major proposal would require distributing plants located outside the 1–65 mile zone to pay to the pool an "upstate fluid differential" of 10 cents per hundredweight on all Class I milk received from farms located outside the 1–110 mile zone. It was indicated that such distributing plants normally receive milk directly from producers and thus do not experience the reloading costs incurred by many of the distributors in the major metropolitan area of the market who rely on supply plant milk. The upstate fluid differential, it was claimed, would tend to equalize the procurement costs of those handlers in the outlying areas of the market with the cost incurred by competing handlers in the major metropolitan area.

At the hearing and in their briefs, proprietary handlers took varying positions with respect to the six major proposals of the producer groups. As would be expected, handlers generally supported those proposals—such as the 15-cent pool credit on bulk tank milk and the 25-cent negotiable tank truck service charge—that would lower their procurement costs and thus enhance their competitive position in the retail market. Some preference was expressed, however, for either holding the negotiable charge at the present maximum level of 10 cents or eliminating the charge and increasing the pool transportation credit to something more than the 15 cents proposed by cooperatives. It was claimed that negotiable charges are an unsatisfactory arrangement since not all handlers in the market negotiate such charges, thus causing disparate procurement costs among handlers, and because producers resist such charges.

Handlers also expressed support for a higher transportation differential rate under the order, although they were not in agreement on the specific rate. Some handlers urged the 1.8-cent rate proposed by cooperatives, while others favored a 1.5-cent rate on the basis that any higher rate would be out of line with location adjustment rates generally applicable under other Federal orders.

Several handlers opposed the adoption of an "upstate fluid differential" on the basis that the affected distributing plants were having no difficulties in attracting adequate milk supplies and that the differential thus would unjustifiably increase the cost of Class I milk at such plants. Opposition was expressed also against the use of a direct delivery differential. It was claimed that the differential adds to the misalignment of milk costs between Order 2 handlers and handlers in the Middle Atlantic Order 4 market.

There was considerable disagreement among handlers regarding the cooperatives' proposed "metropolitan transfer credit." This stemmed largely from the varying impact that such a credit would have on different handlers because of their location or method of operation. The various handler positions included having no such credit, having it apply to transfers of both packaged and bulk milk, "feathering" the credit, precluding the movement of any milk subject to the credit back into the outlying areas of the market, and reducing the Class I price to reflect transportation costs rather than applying a credit.

Several handlers took the position that the problems of intermarket competition arising from unequal procurement costs could best be resolved by replacing the Order 2 farm point pricing arrangement with the plant pricing concept used under the other orders. In this regard, one group of handlers proposed that milk from a producer be priced at the pool plant located nearest the producer's farm. A corollary proposal would permit handlers to negotiate with producers or their cooperatives a tank truck service charge of up to 30 cents per hundredweight.

Another handler, who operates a distributing plant in northern New Jersey, urged that milk from producers be priced at the first plant where it is received, as under the Middle Atlantic order. According to the handler's spokesman, such action, along with an increase in the transportation differential rate to 1.8 cents per 10 miles, would effectively deal with three major problems that he identified. The first was the misalignment of costs for Class I milk between Orders 2 and 4. He contended that the handler he was representing has had to lower prices to remain competitive with Order 4 handlers who distribute milk in the North Jersey area. Such reductions, he claimed, have spread to other areas of the Order 2 market and thus have resulted in chaotic conditions, reduced margins, elimination of profits, reduced volume, and higher unit costs for Order 2 plants. These conditions occurred, in his view, because the differing pricing provisions of the two orders have resulted in unequal changes in the cost of milk to handlers during the time of rapid inflation of milk transportation and handling costs.

A second problem that would be alleviated under plant pricing, according to the witness, is that inflation also has caused a misalignment of Class I prices within the Order 2 market. In this connection, he held that intramarket alignment should be achieved by fixing the basic Class I price at the major consumption area of the market and then reducing the price at outlying areas of the market to reflect the costs of hauling milk to the consumption center from country plants.

Third, the spokesman contended that inflation will continue, with milk transportation and handling costs thus increasing further in the future. Such future economic conditions, he claimed, would not be recognized under the cooperatives' proposals, and the adoption of the proposals thus would not prevent future price alignment problems.

Strong opposition to any changes in the order's transportation allowances was indicated at the hearing by a spokesman for a number of cooperatives, including one of the principal cooperatives in the market. The spokesman expressed the cooperatives' view that changing the order to impose additional transportation costs on producers, either directly through negotiable deductions or indirectly through pool credits for handlers, would undermine the principle of farm point pricing in this market and would lower returns to producers. The spokesman stressed the cooperatives' basic position that the costs of moving bulk milk from farms to plants are marketing costs that should be borne by the market and not by producers.

These cooperatives opposed any order changes that would provide for pricing milk at plant locations rather than at the farm. It was contended that such a change would subject producers and handlers alike to the abuses and administrative difficulties that prevailed prior to the adoption of farm point pricing. The cooperatives also opposed increasing the transportation differential rate from the present level of 1.2 cents per 10 miles on the basis that the data submitted by proponents to support the proposed increase were based on hauling charges higher than those that generally prevail in the market. The proposed metropolitan transfer credit also was opposed on the basis that it would impose an arbitrary cost on the pool and thus on producers. The cooperatives' spokesman also expressed the view that there are potential inequities in the application of the proposals with regard to the appropriate zone or zones to which the credit would apply. Moreover, the cooperatives held that order provisions covering only the variable costs of transportation, as provided in most orders, tend to provide a degree of restraint on unneeded movements of milk from supply plants and should be continued.

The spokesman for the opposing cooperatives contended that the proposed package of changes may not, in fact, improve the alignment of Class I prices between the Order 2 market and surrounding markets. He indicated that any savings in the cost of Class I milk that handlers might gain from the proposals would be used by labor unions as a basis for bargaining for higher benefits. Thus, he claimed, the handlers would not be able to pass the full Class I cost savings on to the marketplace, with the result that their ability to regain or expand Class I sales, which was the alleged purpose of the proposals, would be lost or greatly diminished. It was indicated that the risk of producers receiving lower returns without accomplishing the intent of the proposals is not one that the opposing cooperatives are willing to take.

In view of the position taken at the hearing by this group of cooperatives, it is appropriate that the decision reflect at this point the more recent posture of these cooperatives as indicated in their exceptions to the recommended decision. The cooperatives stated that with the possible exception of the increased direct

delivery differential they concurred with the Department's recommended modifications of the order's transportation allowances. They noted, however, that they continue to hold the position that the costs of assembling and transporting farm buly tank milk are "marketing costs which should be borne by the market and not by producers." The cooperatives indicated in their exceptions that changes in Order 2 are now necessary only because of the failure of neighboring markets to adopt farm point pricing and thereby preclude the passing of hauling costs back to the producers.

Thirty-six individual dairy farm operators testified during the course of the hearing. Only two indicated support for any of the proposals that would result in dairy farmers paying a higher portion of the milk transportation costs. The others strongly opposed such proposals. They claimed that dairy farmers cannot afford to pay more for milk hauling, and that handlers should bear the costs of transportation since the milk is under their control once it is picked up at the farm.

Spokesmen for two handlers also expressed opposition to any actions that would reduce returns to producers. Their concern was that such actions would jeopardize their producer milk supplies because dairy farmers would seek higher returns by shifting their milk to outlets in other markets.

It should be noted that two proposals included in the hearing notice were abandoned by the proponent, and no other support was offered at the hearing for such proposals. One would allow handlers to recover the full farm-to-first plant hauling cost on bulk tank milk if authorized by the producer. The other proposal would increase the transportation differential rate from 1.2 cents to 1.7 cents per each 10-mile zone.

b. *The need for order changes.* It is clear that the present provisions of the New York-New Jersey order are not compatible with current marketing conditions. Major increases in the costs of assembling and transporting milk during the last several years have occurred without corresponding changes in the various transportation allowances under the order. As a result, various handlers under Order 2 are experiencing a deteriorating competitive situation in the Class I (fluid milk) market. Corrective action is essential if the order is to fulfill its purpose of providing stable and orderly marketing conditions for producers and for the handlers through whom they market their milk.

A brief description of the New York-New Jersey market will help place the issue at hand in a better perspective. By any measure, the Order 2 market may be considered as large. In 1975, approximately 20,000 dairy farmers supplied about 786 million pounds of milk monthly for a marketing area population of more than 20 million persons.[2] Although the marketing area includes 39 counties and portions of 12 other counties in New York and New Jersey, nearly 80 percent of the population is concentrated in a relatively small area comprised of New York City and adjacent areas in New York and New Jersey. This heavily populated area extends outward roughly 60 to 70 miles from New York City, and constitutes the major milk consumption center in the Order 2 market.

Besides the major New York City metropolitan area, there are several other relatively large consumption centers at various locations in the New York portion of the marketing area. These include Elmira (metropolitan area population in 1975, 100,100), Binghamton (population 266,700), the Albany-Schenectady-Troy area (population 799,000), Syracuse (population 647,800), and the Utica-Rome area (population 334,900), all of which are located in the outlying production areas of the market. Milk processors that operate in these outlying areas compete with handlers in the major metropolitan area for milk supplies.

Processing plants, where milk is pasteurized and bottled, also are concentrated in the major metropolitan area. In March 1975, there were 28 processing plants located in the 1–10 mile zone. Within the 1–70 mile zone, 44 plants processed and distributed fluid milk, which was over half of the fluid milk processing plants on the Order 2 market. These 44 plants received from farms or other plants 81 percent of the producer milk utilized in the market for fluid purposes that month.

As would be expected, country supply plants are located primarily in the more distant areas of the milkshed. Only 7 such plants were located within 140 miles of New York City in March 1975, whereas 47 were located beyond 140 miles. Of these, 37 were located in the 141–240 mile zone, which gives an indication of the distance that milk must be moved in supplying the fluid milk requirements of the processors in the New York City area.

Dairy farmers who supply milk for the Order 2 market are widely dispersed over a large area. In March 1975, milk associated with this market was produced in the States of New York, New Jersey, Pennsylvania, and Maryland. Some producers' farms are located more than 400 miles from New York City.

Most of the Order 2 milk supply (more than 93 percent in 1975) originates in areas beyond the market's 1–100 mile zone. Practically all of the distant milk that is used in Class I at the metropolitan area distributing plants is first assembled at country plants and then hauled to the distributing plants in large over-the-road trucks. Metropolitan area plants also receive some milk directly from farms, most of which are located in the nearby production areas. In March 1975, 19 percent of the milk received for fluid use at these distributing plants moved directly from farms to such plants. The remainder was obtained through country plants.

Two basic concerns exist. One is the disparity in milk costs between those metropolitan area handlers using supply plant milk and those using direct-ship milk for meeting their Class I needs. The other concern is the disparity in Class I milk costs between metropolitan area handlers under Order 2 and handlers regulated under the Middle Atlantic order. In both cases, the increased assembly and transportation costs have seriously distorted the competitive relationships among the handlers involved. This may be shown through a brief description of the pricing arrangements for Class I milk that are applicable to such handlers.

Under Order 2, milk received from bulk tank producers is priced essentially at the location of the farm, with such pricing commonly referred to as "farm point pricing." Under this arrangement, all milk that originates in the same township is priced at the zone price applicable to that township. For pricing purposes, the township's location is based on the point in the township that is nearest the market's major consumption center. Such pricing applies to about 97 percent of the producer milk on the market. The remainder of the milk is shipped in cans and is priced at the location of the plant at which the milk is first received. Unless indicated otherwise, the discussion on transportation allowances will be in terms of farm bulk tank milk.

The Class I prices at the various farm locations vary basically according to the nearness of the farms to New York City. For example, the Class I price at farms in the 101–110 mile zone is 12 cents per hundredweight less than the Class I price at New York City. For farms in the 201–210 mile zone, the Class I price is 24 cents less. Prices are adjusted for location by the order's transportation differentials, which currently apply at a rate of 1.2 cents for each 10-mile zone. This rate is intended to reflect the "variable" cost of hauling milk over long distances.

The metropolitan area handler normally pays most of the costs associated with the collection of the milk at the farms and its movement to his processing plant. This is so whether he moves the milk himself or whether another handler, such as a cooperative, performs this service, since the latter customarily attempts to pass on all related costs to the processing handler. The current order does permit hauling deductions from producer payments of up to 10 cents per hundredweight on all farm bulk tank milk, if authorized by the producer or his cooperative association. In December 1975, authorized deductions were being made for about 75 percent of the bulk tank producers, in most cases probably at the maximum rate.[3] Thus, the basic

V 42 159 AUG 17 77 UM

cost of Class I milk to metropolitan area handlers is the Class I price applicable at the farm (township) location plus the cost of moving the milk, either directly or through a supply plant, to the processing plant, less any hauling deduction. Although additional handling charges for other services usually apply in the case of milk received from cooperatives, such charges are disregarded for purposes of this discussion.

An additional cost applies in the case of those handlers who receive milk from farms located within the 1–70 mile zone. The order provides that handlers shall pay producers a so-called direct delivery differential of 5 cents per hundredweight on all such milk, whether in bulk or in cans.

It is readily apparent that under this pricing arrangement any increases in assembly and transportation costs will have a direct impact on the procurement costs of metropolitan area handlers. Because milk is priced at the farm location, and because the transportation allowances under the order are fixed, any additional assembly and transfer costs must be borne by the processing handler. Actually, even prior to the recent cost increases, the present order provisions did not permit metropolitan area handlers to recover through various price allowances the full cost of getting milk from the farm to their processing plants for Class I use. Although the farm-to-first plant hauling costs were higher, negotiable hauling deductions have been limited to 10 cents.[4] In addition, when the present Class I transportation differentials were adopted, the total cost of hauling milk over a 200-mile distance was about 34 cents per hundredweight.[5] Only 24 cents, which was considered to be the "variable" cost for this distance, was reflected in the transportation differentials. Also, reloading costs at supply plants have not been reflected in the price structure of the order except as they might be offset from a competitive standpoint by the direct delivery differential. Thus, the problem of recovering procurement costs has existed for some time. The recent increases in hauling costs, however, have greatly aggravated this problem for handlers.

The average farm-to-first plant hauling cost for bulk tank milk is now 30 cents per hundredweight. The maximum recovery of such costs for milk used in Class I is 10 cents, which must be negotiated with the producer or his cooperative. Until recently, relatively few deductions were being authorized. The supply plant transfer costs are now averaging 12 cents per hundredweight. These costs are borne by the metropolitan area handler who receives such milk. The only offsetting factor is the 5-cent direct delivery differential applicable to nearby direct-ship milk. The average cost of hauling milk between plants is 55 cents per hundredweight for a 200-mile distance. The order establishes a difference in Class I prices for this distance of only 24 cents. (These various costs will be described in greater detail at a later point in the decision.)

Metropolitan area handlers must either absorb these various costs not recoverable from producers through the order or pass them on to consumers. To the extent that competitive conditions permit, handlers can be expected to resort to the latter procedure. This point, however, leads to the crux of the entire issue.

Because of differences in their procurement arrangements, not all Order 2 handlers in the major metropolitan area experience the same raw milk costs. Such costs are substantially less for those handlers using nearby direct-ship milk than for those using supply plant milk. The handlers using direct-ship milk thus are in a favored position in competing for sales outlets.

On the basis of cost data presented at the hearing, a comparison of the average cost of Class I milk to metropolitan area handlers from various sources may be made. For this purpose, the costs are expressed in terms of the Class I differential plus other costs, rather than in terms of the Class I price (i.e., the basic formula price for the second preceding month plus the Class I differential) plus other costs. The exclusion of the basic formula price does not affect the validity of the cost comparisons (for either intramarket or intermarket purposes) since this cost factor is the same for all handlers.

Table 1 sets forth an example of the different procurement costs incurred by certain handlers. The average differential cost to a New York City handler for Class I bulk tank milk obtained directly from farms in the 51–60 mile zone is $2.98 per hundredweight. This consists of the present Class I differential of $2.58 that is applicable at the township pricing points in that zone, a 35-cent farm-to-plant hauling cost, and the 5-cent direct delivery differential that the handler must pay to the producers. By comparison, the average differential cost for Class I milk obtained by a city handler from a supply plant located in the 201–210 mile zone is $3.37 per hundredweight. The cost make-up in this case includes a base zone Class I differential of $2.40, a farm-to-first plant hauling cost of 30 cents, a supply plant transfer cost of 12 cents, and a long-distance hauling cost of 55 cents. In either situation, the cost of such milk can be reduced by 10 cents per hundredweight if the maximum hauling deduction is authorized by producers.

TABLE 1.—*Examples of Procurement Costs Incurred by New York City Handlers for Class I Bulk Tank Milk Obtained from Selected Sources (excluding basic formula price)*

[In dollars per hundredweight]

	Direct-ship from 51–60 mile zone	Supply plant in 201–210 mile zone
Class I differential at zone	2.58	2.40
Farm-to-first plant hauling cost	.35	.30
Supply plant transfer cost		.12
Over-the-road hauling cost		.55
Direct delivery differential	.05	
Total cost	2.98	3.37
Authorized hauling deduction	−.10	−.10
Net cost	2.88	3.27

Handlers obtaining milk from locations in the market different from those shown in Table 1 are experiencing slightly different procurement costs. However, the examples portrayed in Table 1 are representative of the general cost situation being faced by city handlers.

A handler contended in his exceptions to the recommended decision that the hauling costs portrayed in Table 1 were not representative of his costs that were described on the record. He claimed that the Acting Administrator thus failed to recommend a price structure for the market that properly reflected his procurement costs.

It is not possible, of course, to gear the order's pricing provisions to each handler's operating situation. Since each handler normally would experience somewhat different procurment costs, it is necessary that the order provisions be based on costs that are reasonably representative of the market in general. The cost data portrayed in Table 1 are representative of the costs being incurred by Order 2 handlers.

Although this difference between the cost of direct-ship milk and supply plant milk supposedly would induce handlers to rely more on direct-ship milk, this generally has not been the case. This may be attributed to the fact that metropolitan area distributors must obtain substantial quantities of milk from distant production areas since nearby milk supplies are inadequate. It is not feasible in most cases to move milk directly from farms in the distant areas to metropolitan area plants without any reloading. Generally, the trucks that must be used for picking up bulk tank milk at the farms are too small for economical long-distance hauling. Also, haulers who assemble milk from farms are limited in the distance they can move the milk since their trucks must be available each day for picking up milk at farms. Since Order 2 handlers currently must pay most of the cost of assembling and transporting milk, it must be presumed that

[4] Official notice is taken of the Assistant Secretary's decision on proposed amendments to the New York-New Jersey order and certain other orders that was issued on October 5, 1970 (35 FR 15927).

[5] Official notice is taken of the Assistant Secretary's decision on proposed amendments to the New York-New Jersey order that was issued on June 9, 1959 (24 FR 4836).

the handlers have been using the most economical procurement arrangements.

A comparable competitive problem exists for Order 2 handlers relative to Order 4 handlers in the Middle Atlantic market. A number of Order 4 handlers in the Philadelphia and southern New Jersey area distribute Class I milk in the northern New Jersey portion of the Order 2 market in competition with Order 2 metropolitan area handlers. The Order 4 Class I differential, which applies at the plant where the milk is first received, is $2.78 at Philadelphia. Handlers in the Philadelphia and South Jersey area also must pay producers a direct delivery differential of 6 cents. Thus, the differential cost of Class I milk under Order 4 for these handlers is $2.84 per hundredweight.

From the data in Table 1, it may be seen that the Order 2 metropolitan area handler using supply plant milk is in a relatively poor competitive posture in terms of his raw milk costs. Assuming that the 10-cent negotiable hauling deduction is being made, his milk cost is averaging 43 cents per hundredweight greater than the cost of milk for the Order 4 handlers. The Order 2 handler using direct-ship milk is in a much better position relative to Order 4 handlers, with the Order 2 cost averaging only 4 cents per hundredweight more. However, it should be noted that in terms of the class prices applicable at the two cities, which are about 100 miles apart, the Class I price at New York City is 14 cents lower than the Class I price at Philadelphia. Thus, the 4-cent cost difference, although appearing to be reasonably satisfactory, does not properly reflect the full cost difference that has been intended under the present pricing provisions.

Because of their lower raw milk costs, Order 4 handlers are in a position to establish lower resale prices for fluid milk than their competitors in the Order 2 market, particularly those metropolitan area handlers using supply plant milk. Thus, as in the intramarket competitive situation described earlier, Order 2 handlers using supply plant milk are, in this situation also, seriously disadvantaged in competing for fluid milk sales. As noted earlier, about 80 percent of the Class I milk used by Order 2 metropolitan area handlers is received from supply plants.

Although the record provides no specific data regarding hauling costs in the Order 4 market, it may be presumed that the increased costs experienced by haulers of milk in the Order 2 market have been experienced in the Middle Atlantic market as well. The inflationary trend in the economy that is associated with such increases has been a national phenomenon. However, handlers in the two markets have been affected in significantly different ways by these cost increases. This is because of the differences in the pricing arrangements and procurement methods in the two markets.

In the Order 4 market, producer milk is priced at the location of the plant where the milk is first received. Since most of the milk is moved to city processing plants directly from farms, most producers receive the city price for their milk. Under this pricing arrangement, however, the cost of getting the milk to the city is borne by the producers. Any increases in hauling costs likewise are absorbed by producers. Handlers' procurement costs are not affected by the hauling costs.

In the Order 2 market, the current pricing arrangement and the extensive reliance on supply plants have caused the burden of increased hauling costs to fall largely on handlers. The higher hauling costs have been reflected not in lower returns at the farm level, as in the case of the Order 4 market, but in higher costs for milk at the distribution center. As a result, Order 2 handlers in the metropolitan area are not able to compete on a comparable cost basis with handlers in the nearby Middle Atlantic market for Class I sales.

As already noted, there is substantial competition between Order 2 and Order 4 handlers for Class I sales in the North Jersey portion of the Order 2 market. This is a relatively heavily populated area located between New York City and Philadelphia. Total consumption of fluid milk products in this area in 1975 was estimated to be nearly 1.4 billion pounds, which was equivalent to 29 percent of the Order 2 Class I milk that year.

Data presented at the hearing indicate that handlers under other orders have substantially increased their Class I dispositions in North Jersey over the past several years. In 1969, such sales amounted to 194 million pounds. A preliminary estimate of such sales in 1975 was 349 million pounds, an increase of 79 percent. In 1975, such dispositions of fluid milk products by other order handlers comprised 25 percent of the estimated fluid milk consumption in North Jersey. This was up from 13 percent in 1969. It should be noted that total consumption in this area declined by 7.5 percent during this 1969–1975 period. Although the record does not indicate how many other orders were involved in these intermarket sales, data for 1973, 1974 and 1975 indicate that most of the other order sales were by Order 4 handlers. Because North Jersey adjoins the Middle Atlantic marketing area, it is reasonable to presume that most of the other order sales in this area in earlier years also were by such handlers.

This major shift of Class I sales in North Jersey from Order 2 handlers to Order 4 handlers cannot be attributed entirely to the rather significant advantage that Order 4 handlers have on their raw milk costs. Nevertheless, it is reasonable to conclude that this was a major contributing factor in the changing sales pattern for this area.

Although the increased hauling costs have been absorbed by handlers rather than producers, Order 2 producers nevertheless are having their returns reduced as a result of the shift in Class I sales in North Jersey to Order 4 handlers. This is because the lost sales mean less milk being used in Class I, which in turn results in lower blend prices.

The discussion on the need for order changes has been limited thus far to the impact of increased hauling costs on the cost of Class I milk. Because of the order's pricing system, the competitive position of those handlers processing Class II milk also is affected by the higher transportation costs. Although much less attention was focused on this issue at the hearing, handlers of Class II milk are always very much concerned that their cost of raw milk be comparable with that of competing processors. This is particularly important for processors of butter, nonfat dry milk and hard cheese. Such products are sold in a national market and the prices of these products are fairly uniform across the country. Thus, processors have little opportunity to pass on to the buyers of these products any procurement costs not generally experienced by all Class II processors.

Since most of the Class II milk is processed at country plants, the basic concern of handlers is the cost of moving Class II milk from the farms to these plants. Such cost is now averaging 30 cents per hundredweight. The order permits a maximum recovery from producers of 20 cents. As indicated, handlers may negotiate hauling deductions of up to 10 cents per hundredweight on all bulk tank milk. In addition, handlers receive a 10-cent transportation credit from the pool on all receipts of bulk tank milk used in Class II. Based on average costs, Class II processors thus must absorb at least 10 cents of the farm-to-plant hauling costs.

In conclusion, the record amply demonstrates that the pricing provisions of the order are not in harmony with the current market situation. Such provisions do not reflect the differences in value that milk currently has to handlers at various locations and under various handling arrangements. The value that the order attaches to milk affects, of course, the degree to which Order 2 handlers are able to compete effectively with each other and with handlers regulated under other orders. Thus, revision of the Order 2 pricing provisions is essential if orderly and stable marketing conditions for handlers and producers in the New York-New Jersey market are to exist.

A cooperative association urged in its brief that a decision on the proposals under consideration be delayed to permit further study of the existing marketing problems. The cooperative's position was that the only guaranteed result of the proposals would be a reduction in the prices that producers receive for their milk. This would be adverse to producers, it was claimed, in view of spiraling milk production costs.

A similar delay was requested in its brief by a County Board of Agriculture, which expressed opposition to the proposals "until such time that further study and better proposals (may) be made so that the farmers' blend price is not lowered to subsidize the cost of milk handling" by cooperatives. It was also

V42 I159 AUG 17 77 UM

claimed that the hearing was called without farmers having adequate time to determine the effect of the proposals.

A decision in this proceeding should not be delayed pending further study of the issues and the development of other proposals. The record indicates that there are significant marketing problems that require amendments to the order. The record provides an adequate basis for the proposed amendments adopted herein and any further delay in their implementation would not carry out the purposes of the Act.

c. *Order modifications.* As outlined earlier, hearing witnesses supported two basic approaches to resolving the competitive problems of Order 2 handlers. One is the continuation of farm point pricing plus a number of changes in the order's transportation allowances. The other approach is the replacement of farm point pricing with plant pricing and a revision of the transportation differentials.

Farm point pricing has been used as the basis for pricing milk in the New York-New Jersey market since 1961. In the absence of a compelling need for the use of plant pricing, it appears reasonable to recognize the broad support by producers for farm point pricing. As noted, support for plant pricing was limited to several proprietary handlers. Therefore, it is concluded that milk received from producers should continue to be priced under the order at the township location of their farms.

The continued use of farm point pricing must be accompanied, however, with major changes in the order's pricing provisions if the present disparity in procurement costs for various metropolitan area handlers is to be minimized. In the Order 2 market, the recent increases in assembly and transportation costs have not been passed back to producers as in the Middle Atlantic market where milk is priced at the plant of first receipt. Thus, relative to the milk received by Order 4 handlers, the milk of Order 2 producers is over-priced in terms of its value to Order 2 handlers in the market's major metropolitan area. Also, within the Order 2 market, procurement costs for supply plant milk have increased much more than for milk received directly from farms. Such increases have been borne by the metropolitan area handlers.

Thus, relative to the direct-ship milk, supply plant milk is over-priced in terms of its value to Order 2 metropolitan area handlers. Accordingly, in recognition of both situations, the price of milk throughout the Order 2 milkshed should be reduced to reflect the decline in the value of such milk to handlers in the metropolitan area. The order changes considered necessary to implement this concept are discussed under the following subheadings.

Pool transportation credit and tank truck service charge. The current 10-cent per hundredweight pool transportation credit to handlers of Class II bulk tank milk should be replaced with a 15-cent pool credit on all farm bulk tank milk received by handlers. In addition, handlers should be permitted to negotiate with producers or their cooperatives a tank truck charge of up to 15 cents per hundredweight, rather than 10 cents as at present, with respect to any farm-to-first plant hauling costs not recovered through the pool transportation credit.

Under farm point pricing, handlers must have an opportunity to recover the farm-to-first plant hauling costs for bulk tank milk if they are to be competitive with handlers in other markets on their sales of Class I and Class II products. Presently, the recovery of such costs is limited to the 10-cent negotiable hauling deduction, plus or minus whatever difference there is between the class prices applicable at the farm (township) pricing point and the plant. In the case of Class II milk, handlers recover an additional 10 cents per hundredweight through a pool credit. Although these provisions were intended to provide handlers with sufficient flexibility in pricing to recover farm-to-first plant assembly and hauling costs, the record indicates that under current conditions handlers are not able to do so.

One of the proponent cooperatives presented data showing the average costs incurred by the cooperative in hauling bulk milk from members' farms to different types of plants during the 12-month period of November 1974 through October 1975. Since the major portion of this milk was hauled by contract haulers, the data reflect actual hauling charges paid by the cooperative to haulers. About 2.5 billion pounds of milk were hauled, which represented 27 percent of the total producer milk on the market during that period.

For the 12-month period, the cooperative's average cost for picking up farm bulk tank milk and delivering it to 7 country reload stations was 26 cents per hundredweight. The average cost for deliveries to the cooperative's 5 manufacturing plants was 29 cents. The average hauling cost for milk moved directly from farms to 18 distributing plants of other handlers was 33 cents, while the cost for similar deliveries to 20 manufacturing plants of other handlers averaged 28 cents. The 12-month weighted average cost of hauling milk to all such plants was 29 cents. For the last four months of this 12-month period, the average monthly costs ranged from 29 to 31 cents per hundredweight.

Several proprietary handlers also presented data on farm-to-plant hauling costs. Such costs ranged from 22 cents to 70 cents per hundredweight, with most falling between 25 cents and 32 cents. These data reflect similar ranges of hauling costs for both handlers and the proponent cooperative.

It is readily apparent that under the present order provisions handlers are not able to recover all of their farm-to-first plant hauling costs. Although such costs vary among handlers, it is reasonable to conclude that such costs average, as proponents contend, about 30 cents per hundredweight. As indicated, the recovery of hauling costs is limited under the order essentially to 10 cents on Class I milk and 20 cents on Class II milk. Relatively limited amounts may be recovered through the transportation differentials if the milk is moved from farms in one price zone to plants in a higher price zone.

The order provisions should reflect the costs that handlers incur in assembling milk from farms and transporting it to the plant of first receipt. Accordingly, the cooperatives' proposed 15-cent pool credit on all receipts of farm bulk tank milk should be adopted. As noted, a pool credit is now applicable to bulk tank milk used in Class II. The application of this procedure to all bulk tank milk would merely extend a method for recovering hauling costs that appears to be operating satisfactorily in this market. This revised procedure will tend to place handlers in a more comparable competitive position relative to both their intramarket and intermarket sales.

The record does not indicate that a pool credit of 15 cents per hundredweight will result in handlers being over-compensated for hauling costs that they incur. Minimum farm-to-first plant hauling costs were described as being at least this amount. The hauling cost data referred to earlier indicate that charges to the cooperative by contract haulers in October 1975, a month for which detailed data were presented, were not less than 17 cents per hundredweight. There may be an occasion, of course, where a handler, in order to hold his milk supply, may not wish to pass his hauling costs back to his producers. Although the pool credit would still apply, there would be nothing to preclude a handler from making off-setting over-order payments to his producers.

As envisioned by the proponent producer groups, the transportation credit on bulk tank milk would be applied in such a way that it would result in a lower blend price not only for bulk tank shippers but for can shippers as well. Although the present pool credit on Class II bulk tank milk is applied in this manner, this procedure should not be used under the pricing changes adopted herein. Can shippers, whose milk is priced at the plant to which it is delivered, normally pay the farm-to-plant hauling costs themselves. When their blend price is reduced because of the pool transportation credit, they in effect are also paying a portion of the farm-to-plant hauling costs on bulk tank milk as well. Since only about 3 percent of the Order 2 producer milk is now shipped in cans, about 14.5 cents of the 15-cent transportation credit would, under the cooperatives' proposal, be passed back to bulk tank shippers through the lower blend price. Nevertheless, the can shippers would experience the same 14.5-cent blend price reduction. Although the record reflects a view that can shippers should subsidize the cost of getting bulk tank milk from farms to plants, the record does not provide a reasonable basis for this position.

In responding to the recommended decision, several handlers filed exceptions relative to the use of a pool credit.

One handler requested that instead of using the pool credit there be a 15-cent reduction in the Class I and Class II prices. With respect to the Class I price, such reduction would be in addition to the 15-cent reduction recommended in the initial decision. The handler claimed that this would simplify the accounting procedures for handlers and the market administrator and yet accomplish the same thing as the pool credit.

The request is denied. The 15-cent pool credit is intended to apply only to the handling of farm bulk tank milk. The requested reduction in class prices would also affect milk delivered to plants in cans. Handlers do not pay the farm-to-plant hauling costs on can milk and thus have no reason to recover any hauling costs on such milk through a reduction in the class prices.

Other handlers contended in their exceptions that although they do not incur farm-to-first plant hauling costs on can milk they do experience additional costs in receiving such milk at their plants that are not incurred on bulk tank milk. They argued that handlers receiving can milk should have an opportunity to offset such higher costs through a 15-cent pool credit comparable to the pool credit adopted herein for bulk tank milk. It was their position that without such relief handlers will not be inclined to continue receiving can milk and can shippers will no longer have a market for their milk.

A 15-cent pool credit on can milk should not be adopted. This matter was not explored at the hearing and the record provides no basis for determining whether the exceptors' contentions have merit or whether the amount of the suggested credit is commensurate with the additional receiving costs.

An additional point in the exceptions was that most of the can milk in the Order 2 market is received at plants located in those pricing zones where plus transportation differentials apply. It was claimed that with the adopted increase in such differentials handlers would be required to pay a higher Class I price than now for can milk without any compensating benefit.

Under the order changes adopted herein, the Class I price at all locations would be less, not more, than under the present pricing provisions. For those zones where plus transportation differentials apply, the price reductions would range from 3 to 14.4 cents per hundredweight. This is because the base zone Class I price to which the plus transportation differentials are added would be 15 cents lower than presently.

Most handlers will incur farm-to-first plant hauling costs in excess of the 15 cents that they would recover through the transportation credit on bulk tank milk. As indicated, the average cost is 30 cents per hundredweight. Handlers need to have the opportunity to recover at least some of these additional costs if the milk is to be competitive in the marketplace. Thus, they should be permitted to negotiate with a producer or his cooperative a tank truck service charge of up to 15 cents per hundredweight with respect to any farm-to-plant hauling costs not recovered through the 15-cent pool credit.

Numerous factors affect the cost of farm-to-plant hauling. These include the distance involved, terrain, types and condition of roads, weight limits on roads and bridges, volume of milk picked up at each farm, and size of tank truck used (often a function of the other factors). Thus, it is in the interest of both handlers and producers that the order provide some flexibility in pricing arrangements so that the varying conditions that affect the cost of collecting and hauling milk from farms to plants may be reflected in the prices paid to producers. Because of the relatively higher assembly costs involved, small producers, or those in somewhat isolated locations, for example, may find it necessary to authorize hauling deductions in order to be assured of continued tank truck service. Others may find handlers willing to absorb some of the farm-to-plant hauling in order to maintain conveniently located sources of supply. Such flexibility is provided in the present order provisions and should be continued.

The negotiable hauling deduction should be limited to 15 cents per hundredweight rather than 25 cents as proposed by cooperatives. In some cases, of course, farm-to-plant hauling costs will exceed the 30 cents that handlers would be permitted to recover through the pool credit and negotiable hauling deduction. However, the imposed limit recognizes that handlers can recover part of the hauling cost through the difference in zone prices when milk is procured from locations more distant from the city than their plant. Also, the limit will tend to encourage handlers to move milk as efficiently as possible.

Several handlers urged in their exceptions that the limit on the negotiable deduction be set at 25 cents. They contended that hauling costs are continuing to increase and that the recommended hauling allowances, which were based on hauling costs experienced in 1974 and 1975, are already out of date. The handlers claimed that since such allowances could not be increased without another hearing it is desirable that the higher 25-cent limit proposed at the hearing be adopted at this time.

Any limit in excess of the 15-cent limit adopted herein should be based on the cost experience developed at another hearing. Only in this way can there be any reasonable assessment of how much hauling costs have, in fact, changed since the time period for which cost data in this record were developed. Based on the record of this proceeding, the 15-cent limit is appropriate.

A brief from certain handlers requested the elimination of the order provision that allows a cooperative to authorize hauling deductions on behalf of its members. The handlers contended that the intent of the hearing proposals is to provide more comparable procurement costs among competing handlers, which would be achieved in part by permitting handlers to negotiate with producers to recover a portion of the hauling cost. The handlers indicated that this goal would not necessarily be achieved if cooperatives can act on behalf of their members and thus, as an organization, preclude the recovery of hauling costs by handlers that producers acting individually might be willing to authorize.

This request, although related to the issues under consideration, goes somewhat beyond the scope of the evidence presented on the basic issues. Any order change of this nature should be based on testimony directly related to this point. Accordingly, the request is denied.

Transportation differentials and Class I price differential. The transportation differential rate of 1.2 cents per hundredweight for each 10 miles that is now used to adjust the Class I and uniform prices for location should be increased to 1.5 cents for each 10-mile zone more distant than the 201–210 mile zone and to 1.8 cents for each 10-mile zone less distant than the 201–210 mile zone. Also, the present Class I differential of $2.40 that is applicable at the 201–210 mile zone should be reduced to $2.25.

The combination of the pool transportation credit and tank truck service charge adopted herein in itself will not place metropolitan area handlers in a comparable position with Order 4 handlers relative to their cost of Class I milk. As indicated, most of the milk in the Middle Atlantic market moves directly from farms to the city distributing plants, with producers paying the hauling costs. In the Order 2 market, about 80 percent of the milk received by the metropolitan area handlers for fluid use moves through supply plants. The costs of transferring this milk at supply plants and hauling it to the metropolitan area are borne by the distributors. Thus, comparable procurement costs for Order 2 and Order 4 handlers are possible only if the differences between the Class I prices at supply plants and at the distributing plants reflect the full cost of obtaining supply plant milk. Presently, such price differences under the order fall considerably short of this.

The proponent cooperative that presented data on farm-to-plant hauling costs also submitted data regarding its cost experience for 7 country reload stations which it operated. During the 12-month period of November 1974 through October 1975, over 597 million pounds of farm bulk tank milk were received at these stations and reloaded onto over-the-road tankers for shipment to other plants. No milk was received in cans, nor was there any milk processing at such facilities. The average operating costs at the individual plants ranged from 8.5 cents (84.6 million pounds of receipts) to 21 cents (60.3 million pounds) for this period. For all plants, the weighted average cost was 12 cents per hundredweight. Thus, on this basis, it is presumed that metropolitan area handlers must pay an average of 12 cents per hundredweight on supply plant milk to cover the cost of operating the transfer facilities.

The same cooperative also presented data regarding long-distance hauling rates that were applicable to interplant movements of milk. The hauling rates were those being charged by a major commercial hauler for transporting milk from 14 country plants to distributing plants in Queens, Nassau, Suffolk and Westchester Counties in New York State. The country plant locations varied from the 151–160 mile zone to the 391–400 mile zone. The rates were applicable to minimum loads of 49,000 pounds of milk. The cooperative's witness indicated that from time to time the cooperative had used the hauler's services for moving milk to the metropolitan area from these various country locations. Also, the witness indicated that the cooperative applied the same rates to milk which it moved in its own trucks.

An analysis of the hauling data indicates that "fixed" costs associated with long-distance shipments are 19 cents per hundredweight. The rates reflect a "variable" cost of 1.8 cents per hundredweight per 10 miles, or 36 cents for 200 miles. Thus, the total transportation cost for 200-mile shipments from the 201–210 mile zone to distributing plants in the major metropolitan area, for example, would be 55 cents per hundredweight (19 cents plus 36 cents).

A spokesman for several cooperative associations maintained at the hearing and in their brief that no change should be made in the transportation differential rate on the basis of data presented in this proceeding. The witness claimed that the hauling rates submitted as evidence were not representative of actual rates paid by most handlers in this market. However, the witness did not provide any detailed hauling cost data to substantiate his position. Several handler witnesses testified that the hauling cost data appeared to be reasonable. Since these were the only comprehensive hauling cost data presented at the hearing, they must be viewed as the best evidence available in considering whether a change in the transportation differentials is needed.

In view of the variable cost reflected in the hauling rates being charged for long-distance milk shipments, the present 1.2-cent transportation differential rate should be increased. For those zones less distant from the city than the 201–210 mile base zone, the rate should be increased to 1.8 cents, which is the full variable cost. For the more distant zones, the rate should be limited to 1.5 cents, which is the rate commonly used under other Federal orders.

Historically, the Upper Midwest has been the major source of alternative milk supplies for many of the markets throughout the United States. To reflect the variable cost of moving such milk to distant markets, the Class I prices for the various markets gradually increase the more distant the markets are from the Upper Midwest. Also, within each market the Class I prices is customarily adjusted to reflect the variable cost of hauling milk from distant points in the milkshed to the market center. The gradation of prices, both on an intermarket basis and an intramarket basis, reflects to a large degree a transportation rate of 1.5 cents per hundredweight per 10 miles. The widespread use of this rate has been prompted by the general need from an orderly marketing standpoint to maintain a coordinated Class I price structure throughout the country. The adoption of the 1.5-cent rate for at least the outer portion of the milkshed will tend to provide further coordination of Class I prices under milk orders.

With respect to the inner zones of the Order 2 market, however, a 1.8-cent transportation rate should be established in recognition of the pricing problems that are peculiar to this market and which are of particular concern in this proceeding. As indicated, the basic thrust of the proposals under consideration is the establishment of a Class I price structure under the order that will permit milk distributors in the major metropolitan area of the market to be competitive with distributors in the nearby Middle Atlantic market. Much of the milk obtained by these Order 2 handlers originates in those production areas between New York City and the 201–210 mile zone, the base price zone for the market. For this milk to be competitive with Order 4 milk, the cost of transporting such milk to the market outlets must be adequately reflected in the Order 2 price structure. As noted, the variable cost for hauling milk in this market is 1.8 cents per 10 miles. Reflection of this full amount in the order's transportation differentials for the inner pricing zones is needed in conjunction with other changes in the order's pricing provisions to overcome the severe competitive problems being experienced by certain Order 2 handlers.

Because of the geographic location of the area in which the 1.8-cent transportation differential rate would apply, the use of this rate, versus the 1.5-cent rate, should not result in problems of price alignment between markets, as might be the case if this rate were adopted for other markets. Only two markets are adjacent to the inner zones of the Order 2 market—Middle Atlantic and New England. As indicated, the 1.8-cent rate is being adopted to provide a better alignment of Class I prices between the Middle Atlantic and New York-New Jersey markets. In the New England market, the applicable location adjustments for the inner zones of that market are in effect providing handlers a transportation rate on supply plant milk of 2 cents per 10 miles. Since there are no other markets further east of the Order 2 market, this eliminates any concern for price coordination in that direction.

The producer organizations that proposed the major order changes contended in their exceptions to the recommended decision that the transportation differential rate should be 1.8 cents for all zones. It was their position that since the variable hauling cost in this market was 1.8 cents at all locations there should be no departure from this cost experience to accommodate the intermarket price coordination among orders in general.

The cooperatives' exceptions raise no new points not already considered in determining the appropriate transportation differentials for the market. No departure from the recommended decision should be made with respect to the differentials to be included in the revised order.

In other exceptions to the recommended decision, a handler argued that the transportation differential rate should be 1.5 cents for all pricing zones. The handler claimed that the use of the 1.8-cent rate for those zones between the 201–210 mile zone and New York City would not permit him to be competitive with handlers in the Middle Atlantic market. In support of his position, the handler pointed out that he operates supply plants located in the 151–160 mile zone and the 191–200 mile zone and receives milk at each plant from can and bulk tank producers who in most cases are located closer to the city than the plant to which the milk is delivered. It was contended by the handler that even with the 1.5-cent rate he would not be competitive with Order 4 handlers and that the higher 1.8-cent rate thus should not be adopted.

The handler also argued that increasing the plus transportation differentials was not a help to handlers as claimed in the recommended decision but instead would result in increased costs for handlers since they would have to pay a greater plus differential over the base zone Class I price. In this regard, other handlers complained in their exceptions of a 50 percent increase in the plus transportation differential rate without any offsetting benefit for handlers.

As indicated earlier, the increase in hauling costs has resulted in milk throughout the Order 2 milkshed being over-priced in terms of its value to Order 2 handlers in the metropolitan area. Accordingly, order changes are adopted herein that would reduce the Class I price throughout the milkshed relative to the metropolitan area Class I price. Under these changes, which include a 15-cent reduction in the Class I differential and an increase in the transportation differential rate, the Class I price at all locations would be less than under the present pricing provisions.

Handlers should bear in mind that the purpose of increasing the transportation differentials is to permit them to recover more of their hauling costs through lower prices to producers. The transportation differentials, whether they be plus or minus differentials, are, in essence, hauling allowances for handlers and are of direct benefit to them. Although the plus differentials adopted herein are greater than they are now, they would be added to a 15-cent lower Class I price. The net result would be lower Class I prices at all locations within the plus differential zones.

Although it is understandable why the supply plant operator objects to the 1.8-cent transportation differential rate, his arguments are without merit. The handler, in essence is seeking financial relief from what presumably is a costly procurement practice, i.e., receiving bulk

tank milk at his supply plants from farms located closer to the city than the plants. Under farm point pricing, there is normally an economic incentive for handlers to obtain bulk tank milk from farms located more distant from the city than their plants. Under this handler's operation, however, he, in short, presumably ends up paying more for the milk than it is worth in terms of its location value at the supply plant since he must pay the Class I price applicable at the farm locations rather than the lower Class I price applicable at his supply plants to which the milk is delivered. This difference in location values, and thus cost to the handler, would be less with a 1.5-cent transportation differential than a 1.8-cent differential.

Increasing the transportation differential rate to 1.8 cents will not in itself permit metropolitan area handlers to recover all of the procurement costs associated with supply plant milk. As indicated, there are the fixed costs for long-distance shipments, which are now 19 cents per hundredweight. Also, there is the cost of transferring milk at supply plants, which is now averaging 12 cents per hundredweight. Historically, these additional costs have not been reflected in the order's price structure. Nevertheless, they have a direct bearing on the metropolitan area handler's ability to be competitive in terms of his Class I procurement costs with handlers in the Middle Atlantic market, as well as Order 2 handlers receiving direct-ship milk, who are not experiencing such costs. It is necessary, then, that recognition be given to these costs. This should be done by lowering the Class I price differential at the 201–210 mile zone from $2.40 to $2.25.

The Class I price structure and transportation allowances under Order 2 should be such that the average cost of Class I milk to metropolitan area handlers does not exceed the approximate cost of Class I milk sold in the Order 2 North Jersey area by handlers under the Middle Atlantic order. As noted earlier, distributors in the Philadelphia-South Jersey area must pay a Class I differential of $2.78 plus a 6-cent direct delivery differential on milk received directly from producers' farms, or a total of $2.84. In addition, there is the cost of moving packaged products from Order 4 plants into the North Jersey area, although this is limited in some cases since there is relatively little distance between a number of Order 2 distributing plants in North Jersey and several Order 4 plants in South Jersey and southeastern Pennsylvania. In fact, one Order 4 distributing plant is located at Flemington, New Jersey, which is in the Order 2 marketing area and only a few miles from several Order 2 plants.[6] While it might be reasonable to use the Order 4 differential cost of $2.84 for intermarket price comparisons, it is concluded that this amount should be increased to $2.92 to reflect some additional costs that Order 4 handlers would experience in moving packaged milk into the North Jersey area.

Unless the base zone Class I differential is lowered, the cost of supply plant milk to Order 2 handlers in the major metropolitan area will continue to exceed the cost of Order 4 milk. If the base zone differential were maintained at $2.40, the transportation differential rate of 1.8 cents per 10 miles would result in a Class I differential at the 1–10 mile zone of $2.76. To this must be added the fixed hauling cost of 19 cents and the supply plant transfer cost of 12 cents, which totals $3.07. This is 15 cents higher than the approximate Order 4 differential cost of $2.92 against which Order 2 handlers are generally competing.

It might be argued by producers who obviously will be concerned about the impact of such a price reduction on their returns that the estimated Order 4 cost of $2.92 is too low and that a lesser reduction in the Order 2 Class I differential is needed to overcome the competitive problem at issue. On the other hand, handlers could argue that the present 14-cent difference in Class I prices at New York City and Philadelphia (in favor of Order 2 handlers) should be reflected in the new price structure. To have supply plant milk obtained from the 201–210 mile base zone cost no more to handlers than the present $2.64 Class I differential at New York City, the base zone differential would have to be reduced to $1.97. A price reduction of this magnitude would have, of course, a severe impact on the returns to Order 2 producers. It is concluded that although the 15-cent reduction adopted herein will not maintain the present intermarket price relationship reflected in the present Order 2 and Order 4 Class I pricing provisions, it will permit Order 2 handlers to be competitive with Order 4 handlers in the North Jersey area. At the same time, the 15-cent reduction can be considered as having only a moderate impact on producers relative to the seriousness of the loss of Class I sales that is the central theme of this proceeding.

Rather than using a Class I price reduction as a means for the recovery of transportation costs by handlers the proponent producer groups urged that a "metropolitan transfer credit" be adopted. Under their proposal, handlers would receive a 25-cent per hundredweight pool credit on receipts of Class I milk originating beyond the 1–140 mile zone and transferred in bulk, either directly from farms or from plants, to plants located within the 1–65 mile zone. The credit would be limited to 19 cents if the transportation differential rate were set at 1.8 cents per 10 miles rather than at 1.5 cents, the rate on which the proposed 25-cent credit was based.

The intent of the metropolitan transfer credit was to enable handlers to recover the "fixed" hauling costs on long-distance shipments plus any "variable" hauling costs not reflected in the transportation differential rate. The credit was designed to apply only to Class I milk that was actually moved in bulk to metropolitan area plants. No pool credit would apply to Class I milk processed at plants in the distant areas of the milkshed. Proponents contended that through such a credit arrangement provision could be made for the recovery of hauling costs for those handlers competing with Middle Atlantic handlers without disturbing the market's Class I price structure, particularly as it applies to distributing plants in the metropolitan area and in the northern areas of New York.

As already indicated, the increased transportation costs have made the value of milk in the more distant production areas of the milkshed less now than previously relative to its value at the major consumption center of the market. Under the metropolitan transfer credit provision, the returns to all producers throughout the more distant areas of the milkshed would be reduced uniformly, regardless of whether or not their milk was moved to metropolitan area plants, and thus subject to the pool credit. This is because the credits received by handlers on their long-distance shipments would be borne equally by all producers through the marketwide pooling mechanism. To the extent that the credit provision would result in reduced returns to all distant producers in the market, such an arrangement would be consistent with the need for pricing provisions that reflect the additional decline in value of distant milk supplies.

Serious question must be raised, however, with respect to other aspects of the proposed metropolitan transfer credit. Although all distant producers would have their returns reduced under this arrangement, the lower value of milk of all such producers would not be reflected uniformly in the prices that handlers would have to pay for Class I milk received from such producers. Milk from bulk tank producers located in the 151–160 mile zone, for example, could be transferred from their farms to a distributing plant in the metropolitan area and to one in the local production area for Class I use. Under the cooperatives' proposal, a 19-cent pool credit would apply to the milk moved to the metropolitan area plant. This, in essence, would represent a 19-cent reduction in the Class I price applicable to such milk. There would be no similar reduction for the milk moving from the same price zone to the nearby distributing plant. Thus, although milk might be obtained by the two plant operators from the same price zone, one would be paying, in essence, a 19-cent higher Class I price for the milk than the other.

Because of the nature of this market, the value of all producer milk in the distant areas of the milkshed should be related to the value of such milk to metropolitan area handlers. As pointed out earlier in this decision, nearly 80 percent of the 20 million persons in the Order 2 marketing area are concentrated in New York City and nearby adjacent areas in

[6] Official notice is taken of the list of pool handlers regulated under the Middle Atlantic order in December 1975, which was released to the industry on January 13, 1976, by the Market Administrator of that order.

V42 N159 AUG 17 77 UM

New York and New Jersey. This relatively small area constitutes by far the major consumption center in the Order 2 market. Also, about 80 percent of the Class I milk received at metropolitan area plants comes from supply plants located throughout the more distant areas of the milkshed. There is an obvious need, then, to relate the value of the distant milk to its worth to metropolitan area handlers.

There are also a number of secondary consumption centers in the Order 2 market. These are located mainly throughout the New York portion of the milkshed. Proponents of the metropolitan transfer credit argued that since distributors in these secondary markets usually obtain their milk supplies from nearby farms on a direct-ship basis they do not need to have their cost of Class I milk reduced in the same manner as for handlers involved in long-distance shipments. In fact, under the cooperatives' proposed "upstate fluid differential," which will be discussed later, handlers in these secondary markets would be required to pay 10 cents per hundredweight more than now for Class I milk.

The maintenance of the current Class I prices to the upstate distributors cannot be justified in view of the reduced value that most of the milk produced in the distant areas of the milkshed for shipment, or potential shipment, to the metropolitan area now has. Milk from these same milkshed areas that moves to Class I distributors in the secondary markets simply has no greater value at the farm location by virtue of moving to such outlets than milk moved to the metropolitan area for Class I use.

Moreover, the Act requires that the Class I prices under an order shall be uniform to all handlers, except for certain adjustments, such as for location and butterfat content. It is recognized that under the cooperatives' proposal all Class I milk received from bulk tank producers located in the same price zone, irrespective of its final destination, technically would be priced to the receiving handlers at the same Class I price. Nevertheless, the question must be raised as to whether the metropolitan transfer credit would, in fact, seriously undermine the concept of price uniformity mandated by the Congress. This becomes particularly critical in the case of handlers who choose to package Class I milk for sale in the metropolitan area at distributing plants located in the distant areas of the milkshed. Reducing the cost of Class I milk that is moved to the metropolitan area in bulk form without similarly reducing the cost of Class I milk received at distant plants and then moved to the metropolitan area in packaged form would place the upstate distributors at a clear competitive disadvantage because of the nonuniformity in pricing. This was recognized by handlers who proposed at the hearing that any metropolitan transfer credit on bulk milk apply also to packaged milk.

For these several reasons, the metropolitan transfer credit does not represent an appropriate pricing mechanism under the order.

Numerous exceptions were filed regarding the recommended 15-cent reduction in the Class I price differential. Proponents of the metropolitan transfer credit argued that their proposed credit would accomplish in a more precise manner than the Class I price reduction the adjustment in milk prices that is needed to provide competitive equity between Order 2 and Order 4 handlers. The cooperatives contended that the 15-cent Class I price reduction falls short of the needed adjustment on long-distance shipments from beyond the 1-90 mile zone and provides an unneeded windfall to metropolitan area handlers receiving direct-ship milk and to upstate distributors. Somewhat similar exceptions were filed by two Order 2 handlers who were particularly concerned that upstate distributors would have an undue cost advantage on packaged milk moved to the metropolitan area for distribution.

The points raised by exceptors were among the many facets of the overall problem that were considered in developing the initial recommendations. A further review of these points within the context of the specific exceptions provides no basis for concluding that the metropolitan transfer credit should be adopted in lieu of the 15-cent Class I price reduction.

A group of cooperatives in the Middle Atlantic market argued in their exceptions to the recommended decision that the record does not support a reduction in the Class I differential. Exceptors claimed that the record did not show that the cost of producing milk had declined in the Order 2 market but rather that it showed that such costs had increased and that returns to producers were not keeping pace with the rising costs. The cooperatives contended that a Class I price decrease would be contradictory to the higher production costs.

The resolution of the complex pricing issues involved in this proceeding cannot be contingent upon the maintenance of the current level of returns to Order 2 producers. Any action to make Order 2 milk more competitive with Order 4 milk necessarily requires some reduction in returns. The proponent cooperatives fully realized that their proposals would have this effect. In fact, proponents stated in their exceptions that "In view of the traditional opposition of procedures to decreases in the blend price, for whatever reason. Dairylea and NEDCO exhibited a high degree of statesmanship in risking known unpopularity with producers (members as well as non-members) in proposing adjustments that knowingly will reduce the blend price for the sake of correcting competitive misalignment in Class I cost between Order 2 and Order 4." Although some producers testified at the hearing that the maintenance of the present level of returns should be an overriding consideration, such testimony was presented on behalf of a relatively small segment of the market's producers. It is noted that while the Order 4 cooperatives objected to a reduction in the Class I price they did not oppose other provisions adopted herein that would reduce returns to Order 2 producers. No weight can be given to the cooperatives' exceptions on this point.

The Order 4 cooperatives also stated in their exceptions that if a 15-cent reduction in the Order 2 Class I price were to result in Order 2 handlers recapturing some of the Class I sales lost to Order 4 handlers, there would be a net loss in returns under the two orders. They contended that while the shift in sales would have an upward effect on the Order 2 blend price the net impact of the Class I price reduction on the blend price would be a slight decrease. At the same time, they argued, Order 4 producers would experience a significant drop in returns as a result of the loss in Class I sales to the Order 2 market. The cooperatives claimed that reducing returns to all producers while production costs are increasing would not be in the public interest. Also, the cooperatives argued that in view of the impact that the changes in Order 2 could have on Order 4 producers, the Department should have held a joint hearing involving both Orders 2 and 4 so that Order 4 producers could have been heard on this issue.

It is difficult to predict what impact the pricing provision adopted herein will have on the ability of Order 2 handlers to successfully compete for Class I outlets. Nevertheless, the main thrust of this decision, as has been amply noted, is to minimize the substantial competitive disadvantage that such handlers have relative to Order 4 handlers. The impact on producer blend prices, in either market, cannot be an overriding consideration in the effort to provide competitive equity.

The adoption of changes for Order 2 need not be contingent upon the holding of a joint hearing for Order 4 as well. In any amendment proceeding for a market, the effect of proposed order changes on neighboring markets must be taken into consideration by the Secretary to minimize any disruptive impact on such markets. However, this does not require that there be joint hearings. In any proceeding, interested parties from other markets may testify as to why proposed order changes should not be adopted without concurrent changes in the order applicable in thir own market. Although the Secretary would not be able to amend the other order on the basis of the single order proceeding, witnesses could attempt to convince the Secretary that no order changes should be made until the matter is considered at a joint hearing.

In this proceeding, a witness for the Middle Atlantic cooperatives testified relative to the proposals that were offered to deal with the Order 2-Order 4 competitive problem that was the main issue of the hearing. The witness did not contend that the hearing should have been a joint hearing with Order 4 or that Order 2 should not be changed unless corollary changes are made in Order 4. It cannot be concluded from the testimony of this witness or others that a joint Order 2-Order 4 hearing should be held before amending Order 2.

An additional point that the Order 4 cooperatives raised in their exceptions was that the Class I price should not be reduced at a time when the cost of hauling alternative milk supplies from the Minnesota-Wisconsin area is increasing. The cooperatives did not demonstrate, however, that the Class I price under the adopted order changes would not be reasonably coordinated with prices in the Midwest. Their concern in this regard is not persuasive.

Exceptions to the recommended 15-cent Class I price reduction were filed also by a number of interested parties in the New England market. Included were cooperatives, handlers, State Farm Bureaus, State Commissioners of Agriculture, and a United States Congressman. The New England parties took a unified position that the Order 2 Class I price should not be reduced. They contended that the order changes set forth in the recommended decision would significantly alter the present intermarket relationship of the Class I prices and blend prices of the New York-New Jersey and New England orders. Exceptors pointed out that the New England Class I and blend prices are already higher than such prices for the Order 2 market and that the recommended order changes would substantially widen such price differences. The parties claimed that this would have a disruptive impact on the marketing of milk in the New England Order 1 market by handlers and cooperatives in that market.

Basically, exceptors contended that New England handlers distributing milk in Connecticut and western Massachusetts would be competitively disadvantaged relative to Order 2 distributors located in eastern New York State, particularly in the Albany area. They indicated that the New England handlers would either lose Class I sales or seek lower-priced milk supplies from the Order 2 market so as to retain their competitive position. In either case, they claimed, there would be a loss of Class I outlets by New England producers and thus a lowering of their blend price. Also, exceptors argued that because the order changes would increase the difference in blend prices Order 2 producers would attempt to shift to the New England market, which would further lower the New England blend price.

The New England parties indicated that they fully recognized that there was a need to resolve the Order 2-Order 4 price relationship that was the central issue of the hearing. They argued, however, that the recommended Class I price reduction for Order 2, if implemented, would create new competitive problems as between the Order 2 and Order 1 markets. Exceptors claimed that the present price alignment between these two markets is acceptable and should be maintained.

In their exceptions, the New England cooperatives and handlers stated that either the proposed metropolitan transfer credit be adopted in lieu of the recommended Class I price reduction or that there be no final decision until the matter is reviewed further at another hearing session. They claimed that New England parties did not participate in the Order 2 hearing since there was no indication that a Class I price reduction was under consideration in this proceeding. For this reason, they asked that the hearing be reopened and expanded to include the New England and Middle Atlantic markets as well so that a further review of the price relationship of these three markets could be developed on the record. Handlers also indicated that should other requested actions not be taken the Department at least should call a hearing for the New England market to consider the intermarket price alignment issue. Also, cooperatives urged that at the very least the effective date of any Order 2 amendments be delayed until the effective date of any order changes that result from a December 1976–January 1977 hearing for the New England market.

As already indicated, it is essential that the reduced value of milk in the distant areas of the milkshed be reflected in the Order 2 price structure for the market. For the reasons previously noted, this should not be done through the adoption of the proposed metropolitan transfer credit. Instead, it is concluded that a 15-cent reduction in the Class I price differential, in combination with the other changes adopted herein, represents the best means of resolving the marketing problems portrayed on the record.

It is recognized that the pricing changes would increase the difference in the cost of Class I milk under the New York-New Jersey and New England orders. As pointed out in exceptions, the cost of Class I milk to Order 2 distributors in the Albany, New York, area could be reduced by at least 30 cents per hundredweight. It should be noted, however, that if the Class I price differential were not changed, as exceptors urged, the cost reduction could still be about 15 cents or so, which the New England parties apparently believe would be acceptable from a competitive standpoint.

For whatever reasons (the record is silent in this regard), there apparently is very little distribution of milk by Order 2 handlers in New England. Similarly, bulk shipments of Class I milk to New England handlers appear to be minimal. In view of this, it is questionable whether the adopted changes for Order 2 would encourage any substantial movement of Order 2 milk into the New England market as exceptors contended. Certainly, at the present time there is not the intermarket competition between Order 1 and Order 2 handlers that perhaps would make the concern of the New England parties more plausible. Cooperatives and handlers obviously have an interest in protecting their Class I market, and their concerns in this regard are understandable. However, the potential disruption that these parties attribute to the order changes initially recommended, and which are adopted herein, does not appear evident at this time.

There is no basis for reopening the hearing in this proceeding, or for holding a point hearing involving the New York-New Jersey, New England and Middle Atlantic orders, to explore further the intermarket alignment of prices. The New England parties undoubtedly were aware that major changes were being considered for Order 2 that could lower the cost of Class I milk to Order 2 handlers as well as lower the returns to producers. In the case of Class I milk costs, the proposals specifically set forth in the hearing notice could have resulted in nearly the same reduction in Class I milk costs to Order 2 handlers as the order changes set forth in the recommended decision. As described earlier, one of the proposals offered by Order 2 cooperatives would have increased the present 10-cent negotiable tank truck service charge to 25 cents per hundredweight. This was limited in the recommended decision to 15 cents. Nevertheless, the hearing proposals reflected the possible opportunity for at least some Order 2 handlers to have an additional 10-cent reduction in their Class I milk costs. This is within 5 cents of the total cost reduction that would be possible under the order changes adopted herein.

Also, New England parties should not have been unaware of a significant reduction in returns to Order 2 producers as a result of the proposals listed in the hearing notice. The potential impact of the proposals on producers was discussed at the hearing. The order changes adopted herein, although somewhat different from those proposed at the hearing, would result in about the same reduction in producer returns as the cooperatives' proposals.

It is thus difficult to be pursuaded that New England parties had reason to be unaware of the potential impact of the Order 2 hearing on their market.

With respect to the request for a hearing for the New England order, interested parties may file a hearing petition for any order at any time. Once received by the Department, the petition would be acted upon in the manner merited by the marketing situation at issue.

The New England cooperatives provided no valid basis for acceding to the request in their exceptions that implementation of the adopted Order 2 amendments be delayed until the effectuation of the amendments to Order 1 that might result from an earlier hearing for that order. There was no reasonable demonstration that a coordination of the two proceedings is essential to orderly marketing.

A Middle Atlantic handler claimed in his exceptions that the 15-cent Class I price reduction should not be adopted since it was not specifically listed as a proposal in the hearing notice. Although

V42N159 AUG 17 77 UM

this change was not considered at the hearing in these specific terms, it represents an alternative means of dealing with the concerns of the industry that were fully explored at the hearing. The Secretary cannot be restricted to adopting solely those changes that may have been proposed in specific terms at a hearing. If this were so, he could be in a position of having a record that demonstrates a need for order amendments to remedy certain marketing problems but not having before him specific industry proposals that would result in the corrective action needed. Within the scope of the hearing proposals and evidence received, he must have the latitude to propose those order changes that will best meet the marketing problems before him. In this proceeding, the 15-cent reduction in the Class I differential is found to be a necessary order change in meeting the marketing problems presented on the record.

Direct delivery differential. A direct delivery differential of 15 cents per hundredweight should be paid on all milk received from bulk tank producers located within the 1–70 mile zone or from producers who deliver their milk in cans to plants within such zone.

Under the Class I price structure adopted herein, the Class I differential at the 1–10 mile zone would be $2.61. Handlers in the 1–10 mile zone who receive bulk tank milk directly from farms should be able under the provisions adopted herein to obtain such milk at not more than this differential cost. If the cost of hauling such milk from the 51–60 mile zone, for example, were 35 cents, as the record suggests, the handler would recover 15 cents of this cost through the pool transportation credit. Another 9 cents would be recovered through the transportation differential. The remaining 11 cents of the 35-cent cost could be recovered by negotiating a hauling deduction with the producer or his cooperative. Similar cost portrayals could be set forth for other near-in zones from which direct-ship bulk tank milk is received by city handlers. However, it is reasonable to presume under these assumptions that the cost of such milk at plants in the 1–10 mile zone would approximate the $2.61 differential cost.

Under the adopted pricing arrangement, the differential cost of supply plant milk at city plants would average $2.92 per hundredweight. This would mean a 31-cent difference between the $2.92 cost of supply plant milk and the $2.61 cost of direct-ship milk at the city. The 31-cent difference represents the 19-cent fixed hauling cost on long-distance shipments and the 12-cent supply plant transfer cost. This difference suggests that direct-ship milk would be worth up to 31 cents per hundredweight more to city handlers than the adopted city Class I differential of $2.61. Accordingly, the present 5-cent direct delivery differential would not adequately reflect the additional value that direct-ship milk from nearby areas would have to city handlers under the new price structure relative to alternative milk supplies from distant supply plants.

The economic value of milk that metropolitan area handlers receive directly from producers is determined in part by the cost of alternative supplies. Only relatively limited quantities of milk are available to metropolitan area handlers on a direct-ship basis. Most of the Class I milk needed by such handlers must be obtained from distant supply plants. The procurement costs for such milk, however, are substantially higher than for nearby direct-ship milk, which enhances the value of the direct-ship milk. By making their milk available to the metropolitan area handlers, the nearby direct-ship producers are providing these handlers with an economic service of benefit to the handlers, since the handlers otherwise would have to incur the additional procurement costs associated with alternative milk supplies from supply plants. The direct-ship producers should be compensated for this service.

Although the direct-ship milk may have greater value to metropolitan area handlers, the increase in the present direct delivery differential should be limited to 15 cents per hundredweight for two basic reasons. First, the direct delivery differential would apply, as now, to all direct-ship milk used in Class II as well as to that used in Class I. Through the transportation differentials for Class II milk, the order already fixes the Class II price at plants in the 1–10 mile zone 8 cents higher than at the 201–210 mile zone. With the 15-cent direct delivery differential, the cost of Class II milk at New York City would be 23 cents per hundredweight over the base zone Class II price. Actually, relatively little milk is used in Class II at the city distributing plants. Nevertheless, in increasing the direct delivery differential, its impact on a handler's Class II milk cost should be recognized.

A second consideration is the general tendency for handlers not to negotiate any hauling deductions with producers located in those production areas near the major metropolitan area. There has been a gradual shift of producers in these areas from the Order 2 market to the nearby New England and Middle Atlantic Federal order markets. To hold their local supplies, Order 2 handlers have been reluctant to seek authorized hauling deductions from the near-in bulk tank producers. Because the blend prices in these neighboring markets can be expected to remain attractive to such producers, it is questionable whether handlers will negotiate any hauling deductions on direct-ship milk. This, of course, would offset some of the cost advantage that direct-ship milk might otherwise have relative to supply plant milk.

The direct delivery differential zone should continue to be the 1–70 mile zone, rather than in the 1–110 mile zone as was proposed. In March 1975, the only month for which such data are available in the record, all of the Class I producer milk originating on farms in the 1–70 mile zone was direct-shipped to plants located in this zone. With respect to the more distant zones, at least some of the Class I milk originating in these zones and moved to metropolitan area plants was reloaded. For the 71–80 mile zone, the amount was very limited—only 1 percent of the total Class I milk originating in that zone. With respect to the 81–90, 91–100, and 101–110 mile zones, however, the amounts of Class I milk reloaded for shipment to plants in the 1–70 mile zone ranged from 27 to 29 percent of the total Class I milk originating in each of these zones.

Under the current handling arrangements, an extension of the direct delivery differential zone would mean that the differential would be applicable not only to direct-ship milk, as intended, but also to milk that is reloaded before being delivered to metropolitan area plants. A handler could not afford to pay both the supply plant transfer cost and the direct delivery differential on the same milk. As long as the direct delivery differential is applied on the basis of where a bulk tank producer's farm is located rather than on the basis of such producer's milk actually being delivered directly from the farm to the plant, it is not feasible to extend the application of the differential as was proposed.

Several exceptions were filed relative to the recommended direct delivery differential. The Order 2 cooperatives that proposed increasing the present 5-cent differential to 10 cents claimed that the 15-cent differential recommended by the Acting Administrator, in conjunction with his recommended 15-cent reduction in the Class I price, would not result in the price structure for the market that is needed to resolve the Order 2–Order 4 competitive problems. They urged the adoption of their proposals as presented at the hearing. Also, two handlers in the market urged that the differential be limited to 7 cents. Another Order 2 handler claimed that a differential of 15 cents would provide too much difference in returns between producers just inside the 1–70 mile zone and producers just outside this zone. Concern was expressed, too, that handlers paying the direct delivery differential would be competitively disadvantaged relative to distributors in upsate New York. Apparently to accommodate his own situation, the handler asked that no direct delivery differential apply in the New York counties of Orange, Ulster, Putnam and Dutchess.

For the reasons already discussed, an increase in the direct delivery differential to 15 cents per hundredweight, with no change in the zones of application, should be adopted. The use of a lower rate, whether it be 10 cents or 7 cents, would mean a greater difference in the cost of supply plant milk and direct-ship milk at city plants. The adopted 15-cent differential would place the cost of Class I milk from the two sources in a better relationship. It is recognized that this would result in a greater difference than now in the returns to bulk tank producers located just inside and outside the outer limit of the 1–70 mile zone. However, relatively few producers are located in the 61–70 or 71–80 mile zones. In March 1975, there were only 37 producers in the 61–70 mile zone. Only 23 producers were in the 71–80 mile zone. Thus, any unrest among neighboring producers because of this difference in returns would be minimal.

The record provides no basis for excluding Orange, Ulster, Putnam, and Dutchess Counties in New York from the direct delivery differential zone. There was no showing that such a change, which was not proposed Partial Final Decision—New York-New Jersey at the hearing, is needed in response to some particular problem that involves just these four counties.

In his exceptions, a Middle Atlantic handler objected to the recommended 15-cent direct delivery differential on the basis that it was not proposed or discussed at the hearing. Although the 15-cent rate was not specifically proposed, a proposal to increase the present rate an additional 5 cents was listed in the hearing notice and fully discussed at the hearing. As discussed earlier, the Secretary must have the latitude to modify proposed order changes in response to the problems portrayed on the record.

A number of cooperatives in the Middle Atlantic market expressed concern in their exceptions that a 15-cent direct delivery differential, when applied on a geographical basis, would result in milk produced in the intermediate zones of the market and direct-shipped to metropolitan area plants being priced too low relative to milk produced within the 1–70 mile zone. The cooperatives claimed that there are substantial quantities of bulk tank milk produced between the 1–70 mile zone and the 201–210 mile zone that could be moved directly from farms to distributing plants in the metropolitan area for Class I use. With no direct delivery differential applying to such milk, they contended, metropolitan area handlers would have an incentive to obtain the more distant milk on a direct-ship basis rather than the milk in the 1–70 mile zone to which a direct delivery differential would apply. For this reason, the cooperatives urged that in addition to all milk produced within the 1–70 mile zone the direct delivery differential apply also to Partial Final Decision—New York-New Jersey all other milk delivered directly from farms to plants within the 1–70 mile zone.

An Order 2 handler also expressed the same concern in his exceptions. He claimed that the higher direct delivery differential would discourage handlers from purchasing milk from producers inside the 1–70 mile zone and that such producers would then have no market and would go out of business.

Actual operating experience under the adopted order changes must be obtained before it can be determined if such concerns are justified. Although there may be some incentive for metropolitan area handlers to seek direct-ship bulk tank milk from the intermediate zones, it is not likely that this would be at the expense of the near-in supplies. Under the adopted order changes, such near-in milk, even with the 15-cent direct delivery differential, would still be cheaper for such handlers than Class I milk obtained from distant supply plants. Also, a handler could recover only 30 cents of the farm-to-plant hauling cost for direct-ship bulk tank milk. While the record has somewhat limited information regarding the hauling costs for long-distance movements of direct-ship milk, it is evident, nevertheless, that such costs would exceed 30 cents per hundredweight by increasingly greater amounts the more distant the source of milk. In this circumstance, it would appear that any cost advantage on direct-ship milk supplies from the intermediate zones would diminish the further a handler went for milk. For these reasons, the exceptions are not persuasive.

Upstate fluid differential. A proposed "upstate fluid differential" of 10 cents per hundredweight to be applicable to Class I milk received at distributing plants located outside the 1–65 mile zone from farms beyond the 1–110 mile zone should not be adopted.

This proposal was intended to provide a certain cost relationship between distributing plants in upstate New York and distributing plants in the major metropolitan area for milk received at these plants for Class I use. It was pointed out that most upstate distributing plants receive milk directly from farms, thereby avoiding reloading costs that are incurred by the metropolitan area handlers who receive milk from supply plants. Proponents contended that the additional 10-cent charge to the upstate handlers would tend to equalize procurement costs among competing handlers. The extra 10 cents charged such upstate handlers would be pooled, which would result in a slightly higher uniform price to all producers in the market.

Although the thrust of the order changes adopted herein is to more nearly equate the procurement costs of competing handlers, the proposed 10-cent charge would go beyond what is necessary to meet the competitive problems portrayed on this record. Moreover, the proposal gives no consideration to the present adequacy of milk supplies at distributing plants in upstate New York. Although the Class I price would be lowered throughout the milkshed under the proposals adopted herein, there is no indication that any offsetting increase in the Class I price at such plants is necessary to attract adequate milk supplies to these plants for fluid use.

The cooperatives that proposed the upstate fluid differential argued in their exceptions to the recommended decision that the 10-cent differential is needed to provide a closer alignment of Class I milk costs between upstate New York distributors and distributors in the metropolitan area. The same position was taken in their exceptions by two Order 2 handlers.

As indicated, such a differential must be viewed in terms of the need for a higher price to attract milk supplies to the upstate plants. The record in no way suggests that such plants would be unable to obtain the milk supplies needed for their Class I operations under the pricing adopted herein.

Perhaps more basic to the issue is the fact that the proposed differential would fail to maintain uniform Class I prices among handlers, as required by the Act. An upstate distributing plant receiving bulk tank milk from producers in a nearby zone would have to pay 10 cents per hundredweight more for Class I milk than a supply plant obtaining Class I milk from the same zone. For this reason, also, the proposed upstate fluid differential should not be adopted.

2. *Changes in certain classification provisions.* Cooperatives and proprietary handlers proposed several changes in the provisions that set forth the manner in which milk shall be classified. The specific changes are discussed under the following subheadings.

a. *Classification of milk moved between Order 2 pool plants and plants regulated under an order administered solely by the State of New York.* A proposal to classify transfers of milk between an Order 2 pool plant and a plant regulated under a New York State order in the same manner as transfers between an Order 2 plant and a plant under another Federal order should not be adopted.

A handler organization proposed that milk moved between a plant regulated under the New York-New Jersey order and a plant regulated under a New York State order (other than the State counterpart of Federal Order 2) be accorded the same regulatory treatment now provided under Order 2 for milk moving between federally-regulated markets. Thus, the classification of milk transferred by an Order 2 handler to a plant regulated under a State order would be determined by the classification established for such milk under the State regulations. Packaged milk that is classified in Class I as defined under the State regulations could be transferred to an Order 2 plant without the receiving handler incurring any obligation under Order 2 on such milk. Receipts of bulk milk at the Order 2 plant would be classified pro rata to the plant's utilization unless a Class II classification were requested by both plant operators.

The witness for the proponent handlers indicated that the proposal was prompted by the experience of an Order 2 handler who also operates a plant in Rochester, New York, that is regulated under a separate State order. According to the witness, the Rochester plant has both a fluid milk operation and a manufacturing operation. Bulk milk pooled under Order 2 is moved to the Rochester plant for manufacturing. At the same time, the handler moves a very limited quantity of packaged fluid milk products from the Rochester plant to an Order 2 pool plant for the latter plant's employees.

The witness indicated that the State regulations require that fluid milk sales in the marketing area defined by the

State order be assigned first to milk of qualified dairy farmers who supply the fluid needs of that market. He stated that under the terms of Order 2, however, bulk milk transfers to the Rochester plant, although intended for manufacturing, are assigned to both Class I and Class II. This, he pointed out, results in the handler being charged twice for a portion of his fluid milk sales, i.e., once under the State order and again under the Federal order. The witness further stated that the packaged milk moved from the Rochester plant to the Order 2 plant is Class I under the State order but is prorated to Class I and Class II under the provisions of Order 2. He contended that the Federal order thus imposes a penalty on milk moved between plants regulated under a separate New York State order and plants regulated under Federal Order 2.

Although there was no opposition testimony concerning the proposal, its adoption was opposed in a brief submitted by two cooperatives. They expressed the view that the proposed change could result in a surplus classification for Order 2 milk that actually was shipped to a State regulated plant for fluid use. The cooperatives suggested that a more appropriate solution would be the amendment of the State order if some relief is considered necessary.

According the same regulatory treatment for milk movements between the Order 2 market and a State order market as is provided for milk movements between federally-regulated markets would imply that the State order is comparable with Order 2 in its regulatory effectiveness. This is not the case. Not only are the provisions of the State orders significantly different from those of Order 2 but the State orders cannot be effective in pricing milk received from out-of-state sources, since the State of New York has no pricing authority relative to such milk. Regulation of plants under the New York statutes therefore provides no assurance that the classification and pricing of milk received at such plants are compatible with the provisions of the New York-New Jersey order.

In their exceptions to the recommended decision, the proponent handlers objected to the Acting Administrator's recommendation that their proposals be denied. Their supporting arguments were essentially a reiteration of their testimony at the hearing, which has been fully considered. There is no basis for reaching a different conclusion on this issue.

b. *Classification of bulk milk received from other order plants.* Bulk milk received at an Order 2 pool plant from a plant regulated under another Federal order, if not classified as Class II milk by agreement, should be classified pro rata to the marketwide utilization of producer milk or the handler's total utilization, whichever results in the greater Class II classification. The classification of such receipts should be limited however, so that the quantity of milk assigned to Class II is not greater than the receiving handler's Class II use.

Such receipts are now classified pro rata to the utilization in each class at the plant where the milk was received.

The classification procedure adopted herein for receipts of other order milk was proposed by a number of cooperatives, although they urged that certain modifications be included. Certain cooperatives proposed that when prorating the other order milk the utilization of the receiving plant, rather than the receiving handler's total utilization in his system, be used whenever this would result in more of the milk being assigned to Class II. The other cooperatives suggested that the allocation of other order bulk milk to the receiving handler's utilization be carried out at an earlier point in the allocation procedure.

In supporting the proposals, spokesmen for proponents pointed out that other order bulk milk received at a Class I distributing plant operated by a multiple-plant handler is now assigned primarily to Class I, even if the handler's other pool plants are mainly Class II operations. This procedure, they asserted, gives the other order milk a priority claim on the handler's Class I use and results in more milk from local producers being assigned to Class II. According to the spokesmen, the intent of the proposals is to encourage handlers to use pool milk for fluid use and to minimize any displacement of local milk in Class I with other order milk. Witnesses contended, however, that the proposals would not prevent or impede interorder milk movements when additional milk is needed for fluid use. They also pointed out that the proposed classification conforms with the procedure followed under virtually all other Federal orders.

Receipts of other order bulk milk not assigned to Class II use by agreement presently are assigned pro rata to the utilization in each class at the Order 2 plant where the milk is received. Thus, in the case of a handler who, for example, operates a pool distributing plant and a pool plant at which the utilization is largely Class II, receipts of other order bulk milk at the distributing plant are assigned largely to Class I. At the same time, pool milk received from local producers at the handler's other pool plant is assigned largely to Class II. Although the handler's total operation utilizes milk from both local and other order producers, the economic burden of the handler's lower-valued reserve milk supplies is borne by the local producers. Thus, an equitable sharing of Class I and Class II utilization among the handler's supply sources is not achieved.

The provisions for dealing with interorder bulk shipments should be ones which assign a proportion of the Class I and Class II utilization of the receiving handler between the local producers and the other order producers in a way that accords recognition to each group's interest in, and contribution to, such utilization. As provided under other orders, interorder bulk milk shipments should share in the utilization of Order 2 handlers basically to the same extent that Order 2 producers share in the market's Class I and Class II utilization. Accordingly, the classification of bulk milk received from other order plants by handlers receiving both local and other order supplies should be determined by assigning the marketwide utilization to such milk, unless a Class II classification is requested. This would mean that when a handler calls upon another order market to furnish a part of his total supply his local producer milk would not be assigned the lower surplus return until the milk from the shipping market has been assigned a Class II utilization equal to the marketwide utilization of Class II milk in the receiving market.

The limit placed on the quantity of other order milk assigned to Class II (i.e., the actual quantity utilized as Class II by the receiving handler) assures that the order provisions themselves will not assess the handler an additional cost related to the assignment to Class II of milk in excess of a handler's own utilization in that class. It assures also that producers in the shipping market will have their milk classified as Class II milk in no greater quantity than that actually utilized by the handler to whom the milk was transferred.

The order should not provide for marketwide proration of bulk milk received from another order plant when the receiving handler has a greater proportion of milk in Class II than the average in the receiving market. Instead, such milk should be classified pro rata to the handler's total utilization in each class. Marketwide proration of receipts of milk from other markets is designed to deal primarily with milk received by a handler who is supplementing his local supply for Class I use. In the case of a handler with a higher proportion of milk in Class II than the market average, marketwide proration would tend to encourage unduly and uneconomically the importation of milk because it would assign a disproportionate share of the milk of local producers to Class II.

Other order milk may be imported by a handler who operates just a single plant. In such cases, the milk would be assigned to the particular plant's utilization within the limits described above. In other cases, however, the milk may be received at the distributing plant of a multiple-plant handler. The Class I utilization at such plant is likely to be higher than the average Class I utilization at all of his pool plants. It is possible that the handler would have supplies at his other pool plants which would be in lower-priced uses than the milk brought in from other regulated markets. If the milk imported by a multiple-plant handler is assigned in this case only to the receiving plant's utilization, such assignment could reduce the handler's percentage of producer milk in Class I in his system to a greater extent than if the assignment were applied over the whole system.

Assigning bulk receipts from other order plants to the handler's system utilization will prevent a handler with

more than one pool plant from discriminating against either his own producers or those supplying the other Federal order market by importing milk not filling a bona fide need for Class I use. The order should provide, therefore, that receipts of interorder bulk milk be prorated to the combined utilization of milk at all of the handler's pool plants in the receiving market.

At the hearing, producer groups proposed that the utilization of the receiving plant be used in those cases where this would result in a greater Class II classification of the other order milk than if the utilization of the handler's system were used. Their spokesman indicated that this procedure would generally preclude such milk from sharing in the receiving handler's Class I utilization at other plants when the milk is received at the handler's manufacturing plant for Class II use but a Class II classification is not requested by the receiving and shipping handlers.

This procedure should not be adopted. The order provides that a Class II classification may be requested by the two handlers involved when bulk milk is shipped from one market to another for surplus disposal. This arrangement facilitates the disposal of surplus milk through outlets in another market without disrupting intermarket blend price relationships. It is expected that when milk is received at an Order 2 plant for manufacturing the handlers will request the lower classification for the milk. In the absence of such request, it must be assumed that the Order 2 handler is supplementing his local supply for his Class I operation. In this case, the classification of the other order milk should reflect the handler's reliance on both local and other order producers for milk for fluid use.

In order to implement the procedure adopted herein for classifying other order bulk milk on the basis of the combined utilization at all of the handler's pool plants, it is necessary to modify the procedure for allocating a handler's milk receipts to his utilization. The changes establish a procedure whereby the milk from other order plants will be classified on the basis of the handler's total system, but will be assigned to classes at the pool plant of actual receipt. Under this procedure, a situation may arise where the quantity of other source milk to be subtracted from a specific class (as determined from receipts and utilization in his entire system) exceeds the utilization remaining in that class at the plant of actual receipt. In this case, an accounting technique is used for increasing the utilization in such class at the plant of actual receipt and making a corresponding reduction in the same class at one or more of his other pool plants in his system. Since such exchanges of utilization will be made in corresponding amounts as between plants, this technique will not change the amount of milk to be accounted for at each plant or the classification of milk within the handler's entire system. The order should specify that such utilization shifts be made first at the other pool plant of the handler located nearest to the plant of actual receipt, and then in sequence at each successively more distant pool plant of the handler.

The present sequence for allocating receipts from various sources to a handler's utilization should not be changed. A spokesman for several cooperatives asked that the allocation procedure be reviewed to determine whether the pro rata classification of other order bulk milk should be moved forward in the allocation sequence. The cooperatives' position was that such a shift, if appropriate, would increase the availability of Class II utilization for assignment to receipts of other order milk.

If other order milk were prorated earlier in the allocation sequence, some receipts from unregulated sources necessarily would be classified later in the sequence. Thus, receipts of other order milk would be assigned to Class II utilization before such receipts from unregulated sources. This could result in a greater quantity of unregulated milk being assigned to Class I uses than otherwise, and a corresponding increase in the handler's pool obligation. Such a change would not be appropriate on the basis of this record and should not be made.

As indicated, the marketwide utilization of producer milk for the Order 2 market will be one of the bases for classifying bulk milk received from other Federal order markets. However, the actual marketwide utilization for the month in which the milk is received cannot be determined until the other order milk is classified. This cannot be done until the marketwide utilization is known. To overcome this problem, the order should provide for the use of an estimated marketwide utilization. The estimate should be announced by the market administrator and should be final for this purpose.

c. *Classification of milk dumped, disposed of for animal feed, or lost under extraordinary circumstances.* Fluid milk products that a handler dumps, disposes of for animal feed, or loses due to extraordinary circumstances beyond his control should be classified as Class II milk.

Presently, such types of disposition are considered as part of a pool plant's shrinkage of milk. Under the current provisions, shrinkage is prorated to the plant's utilization in each class, except that the Class II assignment is limited to 2 percent of the plant's actual Class II use. Thus, the classification of these several types of disposition varies according to the type of plant operation involved.

A handler organization proposed that fluid milk products dumped or discarded, or destroyed or lost under extraordinary circumstances, be specified as Class II milk. The organization's spokesman indicated that a handler may dump milk because it is unsuitable for disposition as a fluid milk product. He cited instances where entire truck loads of milk have been dumped because strong odors or high acidity rendered the milk useless for fluid purposes. He pointed out that occasionally a manufacturing outlet can be located to take such milk, but that quite often outlets are not available or they may be so distant that such disposition is not economically feasible. With respect to milk destroyed or lost under extraordinary circumstances, the witness indicated that a Class II classification should be provided to cover situations where milk is destroyed through accidental contamination or is lost in a truck accident.

Classifying dumped milk in Class II was supported by another handler. The handler's witness pointed out that handlers ordinarily experience some spoilage in fluid milk products, particularly in the case of route returns. The witness stated that handlers must either dump such milk or dispose of it as animal feed, and urged that such disposition be priced as Class II milk. He claimed that such classification is justified because the handler receives virtually no monetary return for such milk. The witness also supported, on the same basis, a Class II classification for milk destroyed or lost under extraordinary circumstances, such as vehicular accidents, fire, flood, or similar catastrophic occurrences.

A number of cooperatives in the market opposed the classification changes urged by handlers. It was their position that dumpage and losses due to extraordinary circumstances are business risks and should be absorbed by the handler. They contended that milk lost under extraordinary circumstances should not be classified as Class II milk since handlers customarily insure against such losses.

"Shrinkage" should be considered as a disappearance of milk that cannot be acounted for in a handler's operations. When a handler finds it necessary to dump fluid milk products or dispose of fluid milk products for animal feed, it is possible to establish that such disposition actually occurred. Also, to the extent determinable from records, milk that is lost or destroyed can represent a known disposition. In these cases, the milk involved can be accounted for and should not be included with shrinkage as milk for which no disposition can be established. Moreover, since the handler receives virtually no return from such disposition, the handler's obligation under the order for such milk should be limited to the lowest class price under the order, which is the Class II price. Although the loss may be insured, it is reasonable to presume that any indemnification would be commensurate with whatever value is established for the milk under the order.

It is important that the market administrator have an opportunity to verify all dispositions of milk claimed by a handler. In the case of fluid milk products disposed of for animal feed, handlers should keep records suitable for the market administrator to determine that such dispositions actually occurred. When milk is dumped, however, the market administrator cannot later determine with certainty the quantities

involved through examination of handler records. Therefore, it will be necessary for the handler to provide the market administrator advance notice and opportunity to verify milk dumpages, as prescribed by the market administrator.

Milk destroyed or lost under extraordinary circumstances completely beyond the handler's control should be Class II milk to the extent that the quantity involved can be established from handler records satisfactory to the market administrator. Such Class II milk should include milk destroyed or lost as a result of such things as vehicular accidents, fire or floods. In such circumstances, it is impossible to provide advance notice to the market administrator. However, the quantities of fluid milk products involved can generally be established in a reasonable manner. The quantities of milk lost in a truck accident, for example, can frequently be verified from shipping invoices or from farm pickup records.

It is not intended that this provision shall be applicable to milk lost through faulty pipe connections, open or leaking valves, broken hoses, contamination and similar accidents that must be considered normal business hazards. Milk lost in such manner is part of the normal shrinkage experienced in any milk operation and such losses are adequately provided for under the shrinkage provisions.

At the hearing, proponent's witness indicated his intent that milk contaminated with antibiotics be considered as destroyed or lost under extraordinary circumstances. In the event such milk could not be otherwise disposed of, the dumpage provisions adopted herein should accommodate the disposition of such milk.

In their exceptions to the recommended decision, the opposing cooperatives reiterated several arguments presented at the hearing as to why these classification changes should not be adopted. The points raised provide no basis for now reaching a different conclusion on this issue.

4. *Charges on overdue accounts.* The order should provide for the application of a late-payment charge of 1 percent per month on handler obligations to the market administrator that are overdue. Such obligations would be those due the producer settlement fund and the administrative expense fund, both of which are maintained by the market administrator. Any such unpaid obligation should be increased by 1 percent on the first day after the due date of the obligation and on the same day of each succeeding month until the obligation is paid.

The institution of a late-payment charge under the order was proposed by a cooperative association.. It proposed that any unpaid obligation of a handler that is due the market administrator be increased on a daily basis, beginning the first day the obligation is overdue, by an amount reflecting the "prime rate" charged by banks plus 5 percentage points. Thus, if the prime rate (the interest charged by commercial banks on loans to their preferred business customers) were 7 percent, the annual charge would be 12 percent (7 percent plus 5 percentage points), or approximately 0.033 percent as applied on a daily basis.

As set forth in the hearing notice, the cooperative's proposal also would have applied a charge on any overdue payments by the market administrator from the producer settlement fund to handlers. At the hearing, however, the cooperative deleted this type of charge from its proposal.

The proposal, including the charge on overdue payments by the market administrator, was supported by a number of other cooperatives in the market.

Spokesmen for the proponent and supporting cooperatives indicated that the institution of a charge on overdue obligations of handlers is necessary to encourage prompt payments to the market administrator by regulated handlers. They cited the collection problems being experienced by the market administrator and indicated that producers have an interest in timely payments by handlers. It was pointed out that late payments can result in the market administrator having insufficient money in the producer settlement fund to make the necessary equalization payments to handlers, with handlers in turn being unable to pay their producers. It was also pointed out that late payments result in money due the market administrator not being available for investment by him to maximum advantage, such as during the heavy-production months when money from handlers is withheld under the "Louisville Plan" for later payment to producers during the short-production months. In addition, the spokesmen indicated that those handlers making late payments have a competitive advantage in their business operations relative to handlers making timely payments.

In support of the proposed late-payment charge, the witness for the proponent cooperative contended that the charge should be related to current interest rates since delinquent handlers are in effect borrowing money from producers. The spokesman indicated that a charge based on the prime rate plus 5 percentage points is in line with interest rates on business loans where more than a minimal credit risk is involved. In urging that the charge be apportioned on a daily basis, the witness contended that delinquent handlers should be assessed for only the number of days that the payment is actually late, rather than be assessed on the basis of a monthly charge as under other orders.

A number of handlers, although they did not testify at the hearing on this issue, submitted briefs in which they set forth varying positions on the proposed late-payment charge. Several suggested that a "grace" period be provided, with the charge not becoming applicable until 3 to 7 days after the due date for the payment. This, they claimed, is needed to accommodate weekends, holidays, and delays in mail delivery that could result in handlers' payments not reaching the market administrator by the payment deadline. One handler contended that the charge should be based on the prime rate plus 2 percentage points. Another urged a fixed charge of 0.75 percent per month. Several handlers held that if a late-payment charge is adopted the charge should apply not only to late payments from handlers to the market administrator but to late payments or refunds from the market administrator's office to handlers as well.

It is essential to the effective operation of the order that handlers make their payments to the market administrator on time. Under the present marketwide pooling arrangement, it is necessary that handlers with Class I utilization higher than the market average pay part of their total use value of milk to the producer settlement fund. Through this means, money is made available to handlers with lower than average Class I utilization so that all handlers in the market, irrespective of the way they use the milk, can pay their producers the uniform price. The success of this arrangement depends on the solvency of the producer settlement fund.

Also, the prompt payment of amounts due the administrative expense fund is essential to the performance by the market administrator of the various administrative functions prescribed by the order. Delinquent payments to this fund could impair the ability of the market administrator to carry out his duties in a timely and efficient manner.

Payment delinquency also results in an inequity among handlers. Handlers who pay late are, in effect, borrowing money from producers. In the absence of any late-payment charge that is at least as much as the cost of borrowing from commercial sources, handlers who are delinquent in their payments have a financial advantage relative to those handlers making timely payments.

Data placed in the record by a representative of the market administrator's office indicate a late-payment experience of a serious and continuing nature on the part of handlers in the New York-New Jersey market. For the 12-month period of January through December 1975, the market administrator issued 1,119 charge billings to handlers. These covered the monthly obligations of handlers to the producer settlement and administrative expense funds, all of which were due by the 18th day of the following month (i.e., payments were to be received by the market administrator by that date). For this period, only 216 payments were received by the market administrator on time. This payment delinquency probably can be attributed in part, however, to the relatively short time between the mailing of the billings to handlers, which was completed by the market administrator's office at the latest by the 15th of the month, and the date by which the payments were due. Nevertheless, even by the 21st day of the month, which should have been sufficient time for the transmission of the billings and payments through the mail, only 630 payments, or 56 percent of the payments due, were received by the market administrator. On a monthly basis, the percentage of payments received by the

21st ranged from 48 percent to 65 percent. For the year, 203 of the 1,119 payments due were still outstanding at the end of the month in which the billings were made.

In terms of money owed, the data indicate that for the 12-month period nearly one-fourth of the money due the market administrator had not yet been received by the 21st day of the month.

On the basis of this payment experience, it is appropriate to institute a late-payment charge on handler payments to the market administrator that are overdue. In the absence of a late-payment charge, handlers have little incentive to make their payments to the market administrator on time. Enforcement action may be taken, of course, to seek strict handler compliance with the payment dates. However, this is a cumbersome administrative route, and the practicalness of such action becomes questionable in the case of handlers who are only several days late. While the charge adopted herein may not result in strict compliance by all handlers, it should provide handlers a substantial inducement to make their payments to the market administrator on time.

The late-payment charge should be established at the rate of 1 percent per month of the unpaid balance. If the charge is to have any impact on handlers in terms of encouraging prompt payments, it must be an amount that is at least as much as what a delinquent handler would be charged by commercial banks for money borrowed for short-term purposes. If this is not so, handlers who may have financial problems would be encouraged to delay their payments, knowing that the charge under the order is cheaper than borrowing money commercially at a higher loan rate. Under present conditions, a monthly charge of 1 percent should provide reasonable assurance that producer funds do not represent the cheapest source of money.

As noted earlier, it was proposed that the late-payment charge be a variable charge that parallels the movements of the "prime rate." It also was proposed that the charge be apportioned on a daily basis so that a handler would be assessed for only the number of days he was actually late in making his payment. These procedures should not be adopted. If the late-payment charge were treated strictly as interest and computed on a daily basis, the order would merely represent a banking service for handlers who desire to use producer funds as an alternative source of money at the going interest rate. This is not the intended purpose of the late-payment charge. Rather, it is to be a penalty, in effect, that will induce handlers to pay their obligations to the market administrator on time.

In their brief, certain handlers contended that the Secretary has no authority under the Act to impose a "penalty" on a handler under the terms of a milk order. However, a late-payment charge, or "penalty," may be adopted under the statutory authority set forth in section 608c(7)(D) of the Act. This subsection specifies that an order may contain various terms that are incidental to, and not inconsistent with, the terms explicitly authorized by the Act if the incidental terms are found necessary to effectuate the other provisions of the order. The late-payment charge adopted herein is considered essential to the effectuation of the payment provisions of the order.

In their exceptions to the recommended decision, several handlers urged that there be no implication that the adopted late-payment charge is a "penalty." They claimed that the charge should be labeled as "interest" so that handlers could claim the charge as a business expense under the tax laws.

The purpose of the late payment charge is to encourage prompt payment of the handler's obligation, and whether it is to be construed as interest or a penalty so as to constitute a business expense under the tax laws is a matter to be determined by the taxing authorities.

No "grace" period should be provided in applying the late-payment charge, as several handlers urged in their briefs. It was their concern that the payment dates in the order would not accommodate the normal time required for billings to reach handlers and for the handlers to process the billings and have their payments reach the market administrator. For this reason, they asked that any late-payment charge not apply until several days after the due date of the payment.

On the basis of a hearing held in September 1976 for the New York-New Jersey market, several changes were made in the payment dates prescribed by the order.[7] These changes, in part, require that payments by handlers to the market administrator be received by the market administrator no later than the 21st day of the month rather than by the 18th day. This extended period should provide a reasonable time for billings to reach handlers and for handlers to get their payments to the market administrator. Moreover, the order changes resulting from the September 1976 hearing should accommodate those occasions when the date by which payments to the market administrator are due falls on a weekend or holiday. When this happens, the due date of the payment would be the next day that the market administrator's office is open for business.

Under these new arrangements, there would appear to be no necessity for a grace period before applying the late-payment charge. It must be recognized that with a grace period handlers actually would have little incentive to have their payments arrive at the market administrator's office prior to the end of the grace period, even though the due date actually was a few days earlier.

In their exceptions to the recommended decision, certain handlers continued to urge the use of a grace period before imposing a late-payment charge. It was argued that the effectiveness of the new late-payment charge should be measured with the use of a grace period rather than determining at the outset that a grace period is not feasible. Also, it was pointed out that the use of a grace period under other orders provides ample precedent for its use under Order 2.

As indicated, the September 1976 hearing for this market resulted in several changes in the dates by which certain actions must be taken, including a delay in the time when payments must be made to the market administrator. This additional time for the submission of payments should obviate the need for a grace period. This is particularly so in view of the special accommodation already noted for those occasions when the due date falls on a weekend or a holiday. While it is true that a grace period is provided under other orders, such provisions were adopted in response to the needs of the local markets. For the Order 2 market, conditions do not warrant the use of a grace period.

Handlers also urged in their exceptions that the timeliness of payments to the market administrator be based on the date the payment was postmarked rather than on the date that it was actually received by the market administrator. In view of the need for the market administrator to make timely payments to handlers from the producer settlement fund, it is essential that all monies due the market administrator be received by a certain date. At the same time, it is desirable to give handlers a reasonable amount of time for submitting their payments and the flexibility of using whatever payment means they wish. This can be achieved best by merely specifying the date by which the market administrator must receive payments from handlers. Handlers may then use whatever means of payment and payment schedule they desire that result in timely payments.

Certain handlers also urged in their exceptions that late-payment charges be limited to $100 for each violation. They argued that this amount would provide an adequate incentive for handlers to make timely payments.

This should not be adopted. Such a limit would tend to limit the full effectiveness of the late-payment charge only to those handlers who have delinquent obligations of $10,000 or less. The $100 limit would have much less meaning (in terms of the cost of alternative sources of money) for handlers with much larger overdue amounts. The larger handlers thus would not have as much incentive to make timely payments.

Under the provisions adopted herein, overdue handler obligations that are payable to the market administrator would be increased by 1 percent on the first day after the due date. Any remaining unpaid portion of the original obligation would be further increased by 1 percent on the same date of each succeeding month until the obligation is paid. The additional late-payment charge would apply not only to the original obligation but also to any unpaid late-payment charges previously assessed.

[7] Official notice is taken of the Assistant Secretary's decision on proposed amendments to the New York-New Jersey order that was issued on January 19, 1977 (42 FR 4471).

At the time the adopted provisions become effective, there may be handlers with obligations already overdue. To the extent of any remaining unpaid balance on the 22nd day of the month in which the amendments adopted herein become effective, the newly-adopted late-payment charge should apply even though the obligation was incurred prior to the institution of the charge under the order.

The order should not provide for any late-payment charge on payments to handlers from the producer settlement fund by the market administrator. There are no circumstances in which the market administrator would not promptly disperse payments to handlers from the producer settlement fund except when the fund is insolvent because of substantial delinquencies in payments to the fund by other handlers. The order provides that in this circumstance the market administrator shall reduce uniformly his payments to handlers and shall complete his payments as soon as the necessary funds are available. The order also provides that when a handler has not received full payment from the market administrator he in turn may reduce pro rata his payments to producers by the amount of the under-payment. Thus, under any situation in which the market administrator is late in paying handlers, the handlers are excused from paying the deficit to producers until the market administrator completes his payments. Hence, there is no reasonable basis for handlers to be the beneficiaries of a late-payment charge imposed upon the market administrator.

Certain handlers urged in their brief that the market administrator be required to pay interest on money that is refunded to handlers on the basis of legal proceedings, or for other reasons. Since the merits of this particular issue were not explored at the hearing, no action should be taken on the handlers' request.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Several handlers excepted to the Department's failure to recommend certain proposed changes in the present method of classifying shrinkage. It was stated in the recommended decision that this issue (Issue No. 3) was not being dealt with at that time and would be considered in a later decision. No recommendations have yet been formulated on this issue.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a marketing agreement regulating the handling of milk, and an order amending the order regulating the handling of milk in the New York-New Jersey marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Referendum Order To Determine Producer Approval; Determination of Representative Period; and Designation of Referendum Agent

It is hereby directed that a referendum be conducted and completed on or before the 30th day from the date this decision is issued, in accordance with the procedure from the conduct of referenda (7 CFR 900.300 et seq.), to determine whether the issuance of the attached order as amended and as hereby proposed to be amended, regulating the handling of milk in the New York-New Jersey marketing area is approved or favored by producers, as defined under the terms of the order (as amended and as hereby proposed to be amended), who during the representative period were engaged in the production of milk for sale within the aforesaid marketing area.

The representative period for the conduct of such referendum is hereby determined to be March 1977.

The agent of the Secretary to conduct such referendum is hereby designated to be Norman K. Garber.

The Agricultural Marketing Service has determined that this document contains a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107 and certifies that an inflation impact statement has been prepared.

Signed at Washington, D.C., on August 12, 1977.

ROBERT H. MEYER,
Assistant Secretary for Marketing Services.

Order amending the order, regulating the handling of milk in the New York-New Jersey marketing area.

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New York-New Jersey marketing area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the New York-New Jersey marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision (partial) issued by the Acting Administrator on April 5, 1977, and published in the FEDERAL REGISTER on April 11, 1977 (42 FR 18950), shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein:

1. In § 1002.22(m), a new subparagraph (3) is added to read as follows:

§ 1002.22 Additional duties of the market administrator.

* * * * * * *

(m) * * *

(3) For the purpose of allocating receipts from other Federal order plants under § 1002.45(a)(12) and the corresponding step of § 1002.45(b), his estimate of the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in pool milk of all handlers. Such estimate shall be final for such purpose.

2. In § 1002.41(c), subparagraphs (7) and (8) are revised and new subparagraphs (9), (10), and (11) are added to read as follows:

§ 1002.41 Classes of utilization.

* * * * * * *

(c) * * *

(7) In shrinkage allocated to Class II pursuant to § 1002.42;

(8) In skim milk represented by the nonfat solids added to a fluid milk product for fortification which is in excess of the volume included within the fluid milk product definition pursuant to § 1002.15;

(9) Contained in fluid milk products that are disposed of for animal feed;

(10) Contained in fluid milk products that are dumped, if the market administrator is notified in advance and is given the opportunity to verify such disposition; and

(11) Contained in fluid milk products that are destroyed or lost by a handler in a vehicular accident, flood, fire, or in a similar occurrence beyond his control, to the extent that the quantities destroyed or lost can be verified from records satisfactory to the market administrator.

3. In § 1002.45(a), subparagraph (12) is revised to read as follows:

§ 1002.45 Allocation of skim milk and butterfat classified.

* * * * * * *

(a) * * *

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products from other order plants not previously assigned pursuant to paragraphs (2) and (10) of this paragraph:

(i) Subject to the provisions of subdivisions (ii), (iii), and (iv) of this subparagraph, such subtraction shall be pro rata to the pounds of skim milk in each class with respect to whichever of the following quantities represents the higher proportion of Class II milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1002.22(m)(3); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II milk exceeding the pounds of skim milk remaining in Class II milk at all such plants, the pounds of such excess shall be subtracted pro rata from the pounds of skim milk remaining in Class I-A milk and Class I-B milk after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should the computations pursuant to subdivisions (i) or (ii) of this subparagraph result in a quantity of skim milk to be subtracted from Class II milk that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class II milk shall be increased (to the extent of available utilization in such class at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I-A milk and Class I-B milk combined shall be decreased by a like amount, pro rata to remaining utilization in each such class. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in subdivision (ii) of this subparagraph, should the computations pursuant to subdivisions (i) or (ii) of this subparagraph result in a quantity of skim milk to be subtracted from Class I-A milk or Class I-B milk that exceeds the pounds of skim milk remaining in that class, the pounds of skim milk in such class shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II milk shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made:

* * * * * * *

§ 1002.50a [Amended]

4. In § 1002.50a(a), the number "$2.40" is changed to "$2.25."

5. In § 1002.51, paragraph (c) is revised to read as follows:

§ 1002.51 Transportation differentials.

* * * * * * *

(c) The differential rates applicable at plants shall be as set forth in the following schedule:

---

* This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

401 and over	−30.0	−8

6. Section 1002.55 is revised to read as follows:

§ 1002.55 Transportation credit on bulk unit pool milk.

For pool milk received by a handler in a pool or partial pool unit, a transportation credit at the rate of 15 cents per hundredweight shall be computed.

7. In § 1002.71, a new paragraph (b–1) is added to read as follows:

§ 1002.71 Computation of the uniform price.

* * * * *

(b–1) Subtract an amount computed by multiplying the quantity of pool milk delivered directly from farms to pool plants and partial pool plants that was not put into a tank truck prior to such delivery, by a rate per hundredweight that is equal to the rate specified in § 1002.55.

* * * * *

8. In § 1002.80(a), subparagraphs (2) and (3) are revised and a new subparagraph (4) is added to read as follows:

§ 1002.80 Time and rate of payments.

(a) * * *

(2) Proper deductions for the month that were authorized in writing by producers from whom the handler received milk;

(3) For milk received in a bulk tank unit and for which transportation was provided by the handler or at his expense, there may be deducted, as proper and as authorized in writing by the producer, or by a cooperative association authorized to act on behalf of such producer, a tank truck service (transportation) charge of up to 15 cents per hundredweight for any farm-to-first plant transportation costs for which the handler was not reimbursed through the transportation credit pursuant to § 1002.55, except that the deduction and the transportation credit combined shall not exceed the actual transportation costs incurred. Any such deduction must be made by the handler not later than the date on which the producer is required to be paid for such milk. If authorization for such deduction is canceled by the producer or by the cooperative by notifying the handler in writing, such cancellation shall be effective on the first day of the month following its receipt by the handler; and

(4) For pool milk delivered directly from a farm to a pool plant or a partial pool plant that was not put into a tank truck prior to such delivery, the handler shall pay to the producer an additional amount computed by multiplying the quantity of such milk by a rate per hundredweight that is equal to the rate specified in § 1002.55.

* * * * *

§ 1002.82b [Amended]

* * * * *

9. In § 1002.82(b), the word "five" is changed to "15."

10. In § 1002.87, paragraph (a) is revised to read as follows:

§ 1002.87 Handler's pool debit or credit.

* * * * *

(a) Add the amounts computed as follows:

(1) Multiply the quantity of pool milk received by each handler from dairy farmers by the uniform price; and

(2) Multiply the quantity of pool milk received by the handler at a pool plant or partial pool plant directly from farms that was not put into a tank truck prior to delivery by a rate per hundredweight that is equal to the rate specified in § 1002.55.

* * * * *

11. A new § 1002.88a is added to read as follows:

§ 1002.88a Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1002.85 and 1002.90 shall be increased 1 percent on the first day after the due date of such obligation and on the same day of each succeeding month until such obligation is paid.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 569]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period Aug. 19–25, 1977. This regulation is needed to provide for orderly marketing of fresh Valencia oranges for the regulation period because of the production and marketing situation confronting the orange industry.

EFFECTIVE DATE: August 19, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202–447–3545).

SUPPLEMENTARY INFORMATION: Findings. (1) Pursuant to the amended marketing agreement and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the amended marketing agreement and order, and upon other available information, it is found that the limitation of handling of Valencia oranges, as provided in this regulation will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantities of Valencia oranges that may be marketed from District 1, District 2, or District 3 during the specified week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The Committee has submitted its recommendation for the quantities of Valencia oranges that should be marketed during the specified week. The recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors covered in the order. The committee further reports the fresh market demand for Valencia oranges continues to ease. Average f.o.b. price was $4.51 per carton on 642 cars for the week ended August 11, as compared with $4.34 per carton on 642 cars the previous week. Track and rolling supplies at 353 cars were down 17 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantities of Valencia oranges which may be handled should be established as provided in this regulation.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553, because the time intervening between the date when information become available upon which this regulation is based and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient. A reasonable time is permitted for preparation for such effective time; and good cause exists for making the regulation effective as specified. The committee held an open meeting during the current week, after giving due notice, to consider supply and market conditions for Valencia oranges and the need for regulation. Interested persons were afforded an opportunity to submit information and views at this meeting. The recommendation and supporting information for regulation during the period specified were promptly submitted to the Secretary after the meeting was held, and information concerning such provisions and effective time has been provided to handlers of Valencia oranges. It is necessary, to effectuate the declared policy of the act, to make this regulation effective during the period specified. The committee meeting was held on August 16, 1977.

§ 908.869 Valencia Orange Regulation 569.

(a) Order. (1) The quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 19, 1977, through August 25, 1977, are hereby fixed as follows:

(i) District 1: 254,000 cartons;

(ii) District 2: 396,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 17, 1977.

CHARLES R. BRADER,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77–24163 Filed 8–17–77;11:33 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 40; Docket No. AO–225–A32]

PART 1040—MILK IN THE SOUTHERN MICHIGAN MARKETING AREA

Correction to Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Correction to final rule.

SUMMARY: This action rectifies a reference that was incorrectly printed in the order amending the Southern Michigan order that appeared in the July 29, 1977, FEDERAL REGISTER.

FOR FURTHER INFORMATION CONTACT:

Irving E. Sutin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202–447–4829).

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of hearing, issued November 11, 1976; published November 16, 1976 (41 FR 50453).

Emergency final decision (partial), issued February 9, 1977; published February 14, 1977 (42 FR 9027).

Final order, issued February 16, 1977; published February 23, 1977 (42 FR 10680).

Recommended Decision, issued June 6, 1977; published June 10, 1977 (42 FR 29881).

V42160 AUG 18 77 UMI

Final decision, issued July 18, 1977; published July 22, 1977 (42 FR 37562).

Final order, issued July 26, 1977; published July 29, 1977 (42 FR 38584).

In an amendment included in the order amending the Southern Michigan order, which was issued July 26, 1977 (42 FR 38584), the reference to § 1040.52 was incorrectly printed as § 1040.50, and should be corrected as follows:

§ 1040.52 [Amended]

3. In § 1040.52, paragraph (a)(1) is amended by changing "Zone II, 3 cents", "Zone III, 5 cents", "Zone IV, 7 cents", "Zone V, 9 cents", "Zone VI, 12 cents" and "Zone VII, 15 cents" to "Zone II, 5 cents", "Zone III, 7 cents", "Zone IV, 9 cents", "Zone V, 11 cents", "Zone VI, 14 cents" and "Zone VII, 17 cents", respectively.

Signed at Washington, D.C., on: August 12, 1977.

ROBERT H. MEYER,
Assistant Secretary for Marketing Services.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Regs. G, T, U and X]

PART 207—SECURITIES CREDIT BY PERSONS OTHER THAN BANKS, BROKERS OR DEALERS

PART 220—CREDIT BY BROKERS AND DEALERS

PART 221—CREDIT BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCKS

PART 224—RULES GOVERNING BORROWERS WHO OBTAIN SECURITIES CREDIT

List of OTC Margin Stocks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Adoption of List of OTC Margin Stocks.

SUMMARY: The Board has adopted a new List of OTC Margin Stocks for purposes of Federal Reserve Regulations G, T, and U. This List supersedes the previous List of OTC Margin Stocks published in the FEDERAL REGISTER on January 4, 1977 (42 FR 968).

EFFECTIVE DATE: August 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Jamie Lenoci, Financial Analyst, Division of Banking Supervision and Regulation, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-2781.

SUPPLEMENTARY INFORMATION: Pursuant to the authority of section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g) and in accordance with § 207.2(f)(2) of Regulation G, "Securities Credit by Persons other than Banks, Brokers or Dealers" (12 CFR 207), § 220.2(e)(2) of Regulation T, "Credit by Brokers and Dealers" (12 CFR 220), and § 221.3(d)(2) of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks" (12 CFR 221), and in accordance with the criteria specified in §§ 207.5 (d) and (e) of Regulation G, §§ 220.8 (h) and (i) of Regulation T, and §§ 221.4 (d) and (e) of Regulation U, there is set forth below the list of stocks traded over-the-counter, current as of August 15, 1977, that the Board of Governors has found meet the criteria specified above and thus have the degree of national investor interest, the depth and breadth of market, the availability of information respecting the stock and its issuer to warrant subjecting such stocks to the requirements of Regulations G, T, and U and Regulation X, "Rules Governing Borrowers Who Obtain Securities Credit" (12 CFR 224); the latter regulation makes Regulations G, T, and U applicable to borrowers of securities credit.

It is unlawful for any person to cause any representation to be made that inclusion of a security on this List indicates that the Board or the Securities and Exchange Commission has in any way approved such security or transaction therein. Also, any reference to the Board in connection with this List or any securities thereon in an advertisement or similar communication is unlawful.

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this List because following such requirements is unnecessary due to the objective character of the criteria for inclusion on the List, specified in 12 CFR §§ 207.5(d) and (e), 220.8(h) and (i), and 221.4(d) and (e). No additional useful information would be gained by public participation. The requirements of 5 U.S.C. § 553 with respect to deferred effective date have not been followed in connection with the issuance of this List because the Board finds that it is in the public interest to facilitate investment and credit decisions based in whole or in part upon the composition of this List as soon as possible.

By order of the Board of Governors of the Federal Reserve System acting by its Director of the Division of Banking Supervision and Regulation pursuant to delegated authority (12 CFR 265.2(c)), August 12, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

LIST OF OTC MARGIN STOCKS

as of August 15, 1977

This List of OTC Margin Stocks is comprised of stocks traded over-the-counter (OTC) that have been determined by the Board of Governors of the Federal Reserve System to be subject to margin requirements as of August 15, 1977, pursuant to Sections 207.2(f) of Federal Reserve Regulation G, "Securities Credit by Persons other than Banks, Brokers or Dealers, " 220.2(e) of Regulation T, "Credit by Brokers and Dealers," and 221.3(d) of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks."

The List is published from time to time by the Board as a guide for lenders subject to the regulations and the general public. Stocks will be added to the List, or deleted, in the interim between publications as deemed appropriate by the Board. This List supersedes the previous List of OTC Margin Stocks published as of December 30, 1976, including changes thereto.

CAUTION: It is unlawful for any person to cause any representation to be made that inclusion of a security on this List indicates that the Board or the Securities and Exchange Commission has in any way approved such security or transaction therein. Also, any references to the Board in connection with this List or any securities thereon in an advertisement or similar communication is unlawful.

Any inquiry relating to this List or to Regulations G, T, U or X should be addressed to the nearest Federal Reserve Bank.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 77-SW-31; Amdt. 39-3006]

PART 39—AIRWORTHINESS DIRECTIVES

Mooney Models M20 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds an Airworthiness Directive (AD) requiring inspection and replacement (if required) of the control wheel shaft of Mooney M20 series airplanes. This inspection is to detect cracks in the shaft near or under the control wheel. Cracks in the control wheel shaft may cause total failure of the shaft, freeing of the control wheel from the shaft, and possible loss of control of the airplane.

DATES: Effective date August 18, 1977. Inspections are required within 30 days after the effective date.

ADDRESSES: Mooney aircraft Service Bulletins may be obtained from persons or offices noted in this AD.

FOR FURTHER INFORMATION CONTACT:

Robert T. Weaver, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas, telephone number (817) 624-4911, Extension 516.

SUPPLEMENTARY INFORMATION: There has been a complete failure of a control wheel shaft on a Mooney M20C that could result in loss of control of the airplane. Cracks have also been reported in other Mooney M20C's. Since this condition is likely to exist or develop in other airplanes of the same type design, an Airworthiness Directive (AD) is being issued to require inspection of the control wheel shaft and replacement if necessary on Mooney M20 series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure herein are impracticable and good cause exists for making this amendment effective in less than 30 days.

DRAFTING INFORMATION

The principal authors of this document are Robert T. Weaver, Aerospace Engineer, Flight Standards Division, and James O. Price, General Attorney, Southwest Region, FAA.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, is amended by adding the following new airworthiness directive:

MOONEY. Applies to Models M20, M20A, M20B, M20C, M20D, M20E, M20F, and M20G airplanes, certificated in all categories with over 1,000 hours' time in service.

Compliance required within the next 30 days after the effective date of this AD, unless already accomplished within the last 250 hours' time in service and thereafter at intervals not to exceed 500 hours' time in service from the last inspection. To prevent failure of the control wheel shaft due to cracking with associated crack growth, accomplish the following:

(a) Remove the RH and LH control wheels and inspect the aft two inches of the control wheel shaft for cracks (particularly at the attachment holes for the wheel). Use visual and dye penetrant inspection methods.

(b) Replace any cracked shafts with serviceable shafts.

(c) Reinstall the RH and LH control wheels.

(d) Replacement of parts required by paragraph (b) will permit the establishment of new initial inspection times for the inspections of paragraph (a). The new initial inspection time is 1,000 hours' time in service after parts replacement.

(e) Equivalent methods of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region. (Mooney Service Bulletin M20-205 contains information concerning inspection and replacement of control wheel shafts. Copies of Service Bulletin M20-205 may be obtained upon request to the Service Manager, Mooney Aircraft Corporation, P.O. Box 72, Kerrville, Texas 78028.)

This amendment becomes effective August 18, 1977.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); Section 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Texas, on August 4, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.77-23725 Filed 8-17-77;8:45 am]

[Airworthiness Docket No. 77-SW-26; Amdt. 39-3009]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Models 205A-1 and 212 Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) requiring repetitive inspections of certain tail rotor pitch horns that are susceptible to stress corrosion cracks. Failure of the pitch change horn as a result of a crack may result in loss of control of a tail rotor blade with loss of control of the helicopter.

DATES: Effective date: August 19, 1977. Compliance required within 25 hours' time in service after the effective date and thereafter at intervals not to exceed 100 hours.

ADDRESSES: Service information may be obtained from persons or offices noted in the AD.

FOR FURTHER INFORMATION CONTACT:

James H. Major, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas, telephone number (817) 624-4911, Extension 516.

SUPPLEMENTARY INFORMATION: A proposal was published in 42 FR 33342 to issue a new AD for certain Bell Models 205A-1 and 212 helicopters requiring a repetitive inspection for possible cracks, at 100-hour intervals, in tail rotor pitch change horns, P/N 212-010-716-5 and -9.

Interested persons were afforded the opportunity to participate in the making of the amendment. No comments were received in response to the proposal. The amendment is adopted as proposed.

DRAFTING INFORMATION

The principal authors of this document are James H. Major, Aerospace Engineer, Flight Standards Division, and James O. Price, General Attorney, Southwest Region, FAA.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, effective 1977, by adding the following new Airworthiness Directive:

BELL: Applies to Model 212 helicopters, S/N 30502 through 30804, 30806 through 30810, 30812, 30814, 30815, 30817, 30818, 30820 through 30825, 30827, 30828, 30829, and to Model 205A-1 helicopters, S/N 30001 through 30247, equipped with tail rotor blades, P/N 212-010-750, certificated in all categories.

Compliance required within 25 hours' time in service after the effective date of this AD unless already accomplished and thereafter at intervals not to exceed 100 hours' time in service from the last inspection.

To detect possible cracks in each tail rotor blade pitch change horn, P/N 212-010-716-5 and -9, accomplish the following:

(a) Remove the bolt and barrel nut of the control rod and clean the external surfaces of the pitch change horns.

(b) Inspect the horns for cracks, particularly in the barrel nut and bushing area using a dye penetrant or equivalent inspection method.

(c) If a crack is found, replace the affected pitch change horn before further flight in accordance with the Model 212 Overhaul Manual, paragraphs 65-58 and 65-63, or Models 205A/205A-1 Maintenance and Overhaul Instructions, paragraphs 3-41 and 3-43, as appropriate.

(d) Install the blade's control rod bolt and barrel nut as specified in the instructions in paragraphs 65-57 Model 212 Maintenance Manual or 3-40 Models 205/205A-1 Maintenance and Overhaul Instructions, as appropriate.

(e) After installation of pitch change horns, P/N 212-010-716-11, this AD is no longer applicable.

(f) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(g) The manufacturer's instructions identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Service Manager, Bell Helicopter Textron, P.O. Box 482, Fort Worth, Texas 76101. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA Headquarters, 800 Independence Avenue, S.W., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Southwest Regional Office in Fort Worth, Texas.

(Bell Helicopter Textron Service Bulletin Nos. 212-77-7 and 205-77-5 dated March 11, 1977, pertain to this subject.)

This amendment becomes effective August 19, 1977.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Texas, on August 5, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

(The incorporation by reference in the preceding document was approved by the Director of the Federal Register on June 19, 1967.)

[FR Doc.77-23726 Filed 8-17-77;8:45 am]

[Airworthiness Docket No. 75-SW-69; Amdt. 39-3010]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Models 204B, 205A-1, 212, 214B, and 214B-1 Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) requiring adjustment of the emergency exit latch pins and requiring inspection holes for the exit latch pin engagement in Bell Models 204B, 205A-1, 212, 214B, and 214B-1 helicopters. An exit may be lost in flight if the latch pins are not properly engaged. In addition, longer spacers must be installed under the exit handle covers to facilitate removal of the covers and access to the exit handles.

DATES: Effective date: August 19, 1977. Compliance required within 100 hours after the effective date, and thereafter certain inspections are required at 300-hour intervals.

ADDRESSES: Bell Helicopter Textron Service Information and Service Bulletins may be obtained from persons or offices noted in the AD.

FOR FURTHER INFORMATION CONTACT:

James H. Major, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas, telephone number (817) 624-4911, Extension 516.

SUPPLEMENTARY INFORMATION: A proposal was published in 42 FR 33341 to issue an AD, complementing Amendment 39-2451, AD 75-26-03, requiring compliance with the various Bell Helicopter Textron service bulletins that require adjustment of the exit latch pins, inspection holes for the latch pins, identification of these holes and proper length spacers for the exit handle covers on Bell Models 204B, 205A-1, 212, 214B, and 214B-1 helicopters. Compliance would be initially required within 100 hours' time in service after the effective date of the AD and thereafter at intervals not to exceed 300 hours.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received, and the amendment is issued as proposed.

DRAFTING INFORMATION

The principal authors of this document are James H. Major, Aerospace Engineer, Flight Standards Division, and James O. Price, General Attorney, Southwest Region, FAA.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, effective 1977,

V 4216 0 AUG 18 77 UM

by adding the following new Airworthiness Directive:

BELL: Applies to Models 204B, 205A-1, 212, 214B, and 214B-1 helicopters, certificated in all categories.

Compliance required as indicated.

To assure emergency exit latch pin engagement and to provide inspection holes for each exit retractable pin, accomplish the following:

(a) Within 100 hours' time in service after the effective date of this AD, accomplish the following one-time inspection and modification unless already accomplished.

(1) Inspect each exit internal and external handle cover installation and determine that NAS 43DD3-8 spacers, .12 inches long, are installed as illustrated in Bell Helicoper Textron Service Bulletin Nos. 204-77-2, 214-77-1, 212-77-11, or 205-77-9 or any revisions thereof.

(2) Add one-inch diameter inspection holes and provide a clear view of those holes through any interior lining in the right and left side passenger door assemblies in accordance with BHT Service Bulletin Nos. 205-77-6, 212-77-9, and 214-77-4 or later revision for the appropriate model helicopters.

For the Model 204B, locate the one-inch inspection hole center near the end of the fully-engaged latch pin, cut and debur the hole in the interior skin, and cut a one-inch hole in any interior lining, if installed.

(3) Label each of these inspection holes using stencils as noted in the service bulletins listed in paragraph (a)(2) of this AD; or use FAA approved equivalent placards, labels, or stencils located adjacent to each hole on the interior skin or lining, if installed.

(b) Within 100 hours' time in service after the effective date of this AD and thereafter at intervals not to exceed 300 hours' time in service from the last inspection, accomplish the following:

(1) Inspect the latch mechanism of each passenger exit and adjust as necessary to make each pin end flush with the exit frame edge, when the mechanism is in the fully unlatched position, as prescribed in Bell Helicopter Textron (BHT) Service Bulletin Nos. 205-76-12, 212-76-9, and 214-76-4 or later revision for the appropriate model helicopter. For the Model 204B, inspect and adjust the latch mechanism as noted but use appropriate procedures specified in Service Bulletin No. 205-76-12 or later revision.

(2) Inspect for and add as necessary a painted stripe around the cylinder part of each pin using white or other suitable color.

(c) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(d) The manufacturer's instructions identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Service Manager, Bell Helicopter Textron, P.O. Box 482, Fort Worth, Texas 76101. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA Headquarters, 800 Independence Avenue, S.W., Washington, D.C., and at the Southwest Regional Office in Fort Worth, Texas.

This amendment becomes effective August 19, 1977.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); Section 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Texas, on August 5, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

(The incorporation by reference provisions in this document was approved by the Director of the Federal Register on June 19, 1967.)

[Docket No. 77-EA-16, Amdt. 39-3017]

PART 39—AIRWORTHINESS DIRECTIVES

Bendix

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule (AD) applies to the D-2000 and D-2200 series Bendix magnetos and corrects problems which have been causing magneto failure. The problem areas are rotor housing interference, overheated rotor bearings, capacitator failure and coil retaining screw loss.

EFFECTIVE DATE: August 23, 1977.

ADDRESSES: Bendix Service Bulletins may be acquired from the manufacturer at the Electrical Components Divsion, Sidney, New York 13838.

FOR FURTHER INFORMATION CONTACT:

A. T. Farrar, Propulsion Section, AEA-214, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, New York 11430; Tel. 212-995-2894.

SUPPLEMENTARY INFORMATION: Malfunction and defect reports have indicated magneto rotor housing interference which can cause rotor seizure; overheated rotor bearings, which can cause loss of both sets of points; capacitor terminal joint deterioration or capacitor internal failure which can cause loss of the related points; and hexagonal head coil screws backing out into the magneto causing loss of the magnetos. These problems can cause total or partial loss of the ignition system and thus engine stoppage. The rule will require an inspection and repair or alteration where necessary. In view of the effect on air safety, notice or public procedure hereon are impractical and good cause exists for making the rule effective in less than 30 days.

DRAFTING INFORMATION

The principal authors of this document are A. T. Farrar, Flight Standards Division, and Thomas C. Halloran, Esq., Office of the Regional Counsel.

It has been determined that the expected impact of the proposed regulation is so minimal that the proposal does not warrant an evaluation.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding a new airworthiness directive, as follows:

Applies to Bendix D-2000 and D-2200 series magnetos unless previously accomplished.

To preclude the loss of ignition, accomplish the following within the time specified below or 180 days after effective date of the A.D., whichever occurs first.

(a) *Rotor-Housing Interference.* Within the next 10 hours in service, for any of the following listed serial numbered magnetos having less than 50 hours total time in service on the effective date of this A.D., accomplish the, "Detailed Instructions," in Service Bulletin No. 590, or an approved equivalent.

(1) Red nameplate magnetos exhibiting 4 Hex. head socket cap screws as shown in Service Bulletin Figure 1, having S/N 5145 through 8200, not prefixed by the letters "A" nor "R".

(2) Blue nameplate magnetos exhibiting 4 Hex. head socket cap screws as shown in Service Bulletin Figure 1, having S/N 701001 or below, not prefixed by the letters "A" nor "R".

(b) *Rear Bearing Overheating.* Within the next 10 hours in service, for any of the following listed serial numbered magnetos having more than 100 hours in service, accomplish the "Detailed Instructions," in Part I or II and "Identification", Part I or II of Service Bulletin No. 589 or an approved equivalent.

(1) Red nameplate magnetos, S/N 2750 through 6600, not prefixed by the Letter "A".

(2) Blue nameplate magnetos, S/N 701001 and below, not prefixed by the Letter "A".

(3) If compliance by Part I is elected, compliance must be repeated every 1000 hours in service, until Part II is accomplished.

(c) *Capacitor Malfunction.* Within the next 25 hours in service for red nameplate magnetos below S/N 11744, accomplish Parts I and II of Service Bulletin No. 587 or an approved equivalent unless the stamped Letter "S" appears on the nameplate in or near the lower right corner. On 4 cylinder versions, S/N 8618 thru 9823 and on 6 cylinder versions, S/N 7544 through 9823, also accomplish Part III.

(d) *Coil Retainer Plug Migration.* Within the next 25 hours in service, for red nameplate magnetos below S/Nos. 4400, accomplish the instructions of Part I "Detailed Coil Screw Check Procedure," Item Numbers 1, 2 and 3 of Service Bulletin No. 584, or an approved equivalent.

(e) Equivalent inspections and procedures must be approved by the Chief of the Engineering & Manufacturing Branch, AEA-210, FAA, Eastern Region.

(f) As permitted by FARs 21.197 and 21.199, aircraft may be flown to a base where maintenance required by this Airworthiness Directive can be accomplished.

Effective date. This amendment is effective August 23, 1977.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of a Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Jamaica, New York, on August 9, 1977.

WILLIAM E. MORGAN,
Director, Eastern Region.

[FR Doc.77-23879 Filed 8-17-77;8:45 am]

[Docket No. 77-WE-19-AD; Amdt. 39-3015]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas DC-10-10, -10F, -30, -30F and -40 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) to require modification of certain early pitch guidance control panels on DC-10 airplanes. A failure in the electronic circuitry of the panel may result in inadvertent engagement of the autopilot actuators. Control surface movement, similar to a pitch and roll axis hardover, results. The pilot is required to overpower the autopilot forces while searching for the offending power source. The AD is intended to prevent the failure.

DATES: Effective—August 22, 1977. Initial compliance—Within 300 additional hours flight time, or thirty days from the effective date of this AD, whichever occurs earlier.

ADDRESSES: The applicable Douglas service bulletin may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846. Attention: L. A. Eisenberg, CI-750, 54-60.

The applicable Bendix service bulletin may be obtained from: The Bendix Corporation, Flight Systems Division, Teterboro, New Jersey, 07608.

A copy of the service bulletins for this amendment are contained in the Rules Docket in room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Jerry J. Presba, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California, 90009. Telephone: 213-536-6351.

SUPPLEMENTARY INFORMATION: The FAA has learned of a service incident in which the DC-10 autopilot became inadvertently engaged shortly after takeoff with both autopilot switches "OFF." Investigation by the manufacturer revealed that this condition could be caused by a 28-volt direct current short-to-ground wire in either autopilot engage switch circuit.

McDonnell Douglas Alert Service Bulletin A22-96 was issued to correct this situation by modification or replacement of the pitch guidance control panels.

Since this condition is likely to occur in any DC-10 with a -5 or earlier pitch guidance control panel, corrective action is necessary to significantly reduce the probability of inadvertent 28-volt line fault to an actuator line.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists for making this amendment effective in 30 days or less.

DRAFTING INFORMATION

The principal authors of this document are Herbert G. Peters, Aircraft Engineering Division, and Richard G. Wittry, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

MCDONNELL DOUGLAS: Applies to DC-10-10, -10F, -30, -30F, and -40 series airplanes, certificated in all categories.

Compliance required as indicated.

To reduce the probability and severity of an inadvertent engagement of the autopilot actuators, accomplish the following:

a. Within 300 additional hours flight time, or thirty days from the effective date of this AD, whichever occurs earlier, unless already accomplished, modify the -5 or earlier pitch guidance control panels, P/N's 3759027, 3759028, 3759029 or 3759050, in accordance with McDonnell Douglas Alert Service Bulletin A22-96, Revision 1, dated July 8, 1977, or later FAA approved revisions. For panel modification and testing, the Douglas Alert Service Bulletin A22-96 refers the modifier to Bendix Alert Service Bulletins A3759027-5-SB7, A3759028-5-SB-7, A3759029-5-SB7 and A3759050-5-SB5 which are embodied into one document dated June 3, 1977. Approval of the Bendix Service Bulletins is delegated to the Bendix Corporation by the FAA via the TSO system. Approval for incorporation into the DC-10 is via the Douglas Alert Service Bulletin A22-96. For this AD, revisions to the Bendix Bulletins referred to herein must be approved by revisions of Douglas Service Bulletin A22-96.

b. Production equivalents or equivalent modifications may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

c. Special flight permits may be issued in accordance with FAR's 21.197 and 21.199 to operate airplanes to a base for accomplishment of the modification required by this AD.

This amendment becomes effective August 22, 1977.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949 and OMB Circular A-107.

Issued in Los Angeles, Calif., on August 8, 1977.

ROBERT H. STANTON,
Director, FAA Western Region.

[Airspace Docket No. 77-GL-08]

PART 71—DESIGNATION OF FEDERAL AIRWAYS AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this federal action is to designate additional controlled airspace near Mineral Point, Wisconsin, to accommodate a new (NDB Rwy 22) instrument approach procedure into the Iowa County Airport.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-4500, Extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions, and other aircraft operating under visual conditions. The floor of the controlled airspace in this area will be lowered from 1,200' above ground to 700' above ground. The circumstance which created this action was a request from the Iowa County Airport to provide that facility with instrument approach capability. The development of the proposed instrument procedures necessitates the FAA to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

DISCUSSION OF COMMENTS

On page 30213 of the FEDERAL REGISTER dated June 13, 1977, the Federal Aviation

V 42 160 AUG 18 77 UM

Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Mineral Point, Wisconsin. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the Notice of Proposed Rulemaking.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective October 6, 1977, as follows:

In § 71.181 (42 FR 440), the following transition area is added:

MINERAL POINT, WISCONSIN

That airspace extending upward from 700' above the surface within a 5 statute-mile radius of the Iowa County Airport, Mineral Point, Wisconsin (latitude 42°53'12" N., longitude 90°13'52" W.) and within 3 statute miles either side of the 030° bearing from the Mineral Point RBN, extending from the 5-mile radius area to 8.5 statute miles northeast of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); § 11.81 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Ill., on August 8, 1977.

JOHN M. CYROCKI,
Director,
Great Lakes Region.

[Airspace Docket No. 77-GL-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this federal action is to designate a transition area at Aitkin, Minnesota, to provide controlled airspace for aircraft executing instrument approach procedures to Aitkin Municipal Airport which are based on a Non-Directional Radio Beacon (NDB) navigational aid being installed at the airport.

EFFECTIVE DATE: October 6, 1977 .

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-4500, Extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions, and other aircraft operating under visual conditions. The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The circumstance which created this action was a request from the Aitkin Muncipial Airport to provide that facility with instrument approach capability. The development of the proposed instrument procedures necessitates the FAA to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

DISCUSSION OF COMMENTS

On page 30641 of the FEDERAL REGISTER dated June 16, 1977, the Federal Aviation Administration published a notice of proposed rulemaking which would amend Section 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Aitkin, Minnesota. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the Notice of Proposed Rule Making.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective October 6, 1977, as follows:

In § 71.181 (42 FR 440), the following transition area is added:

AITKIN, MINNESOTA

That airspace extending upward from 700 feet above the surface within a five (statute) mile radius of the Aitkin Municipal Airport (latitude 46°32'45" N, longitude 93°40'45" W) and within 3 miles (statute) each side of the 355° (true) bearing of the Aitkin NDB, extending from the five-mile radius to 8.5 miles (statute) north of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); § 11.81 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Ill., on August 8, 1977.

JOHN M. CYROCKI,
Director,
Great Lakes Region.

[FR Doc.77-23882 Filed 8-17-77;8:45 am]

[Airspace Docket No. 77-GL-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this federal action is to realign and redesignate the existing transition area and control zone at K. I. Sawyer Air Force Base, Michigan, to provide for adjustment of the controlled airspace to accommodate aircraft executing instrument approach procedures to K. I. Sawyer Air Force Base which approach procedures have been altered by the Air Force.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-4500, Extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to realign and redesignate the control zone and transition area to insure segregation of aircraft using the various instrument approach procedures into K. I. Sawyer AFB in instrument weather conditions and other aircraft operating under visual conditions. The circumstance which created this action was an alteration by the Air Force of various instrument approach procedures at K. I. Sawyer AFB. These procedural changes will require the FAA to reorient the control zone extensions approximately one-half mile counter-clockwise and will allow for the return of approximately eight miles of 700' above the surface transition area to the south of the Air Force Base to the public for general aviation use. In addition, aeronautical maps and charts will reflect the revised area which will enable non-military aircraft to circumnavigate the area if required in order to comply with applicable visual flight rule requirements.

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

DISCUSSION OF COMMENTS

On page 30639 of the FEDERAL REGISTER dated June 16, 1977, the Federal Aviation Administration published a notice of proposed rulemaking which would amend §§ 71.181 and 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at K.I. Sawyer AFB, Michigan. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the Notice of Proposed Rulemaking.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective October 6, 1977, as follows:

In § 71.181 (42 FR 440) the following transition area is amended to read:

K.I. SAWYER AFB, MICHIGAN

That airspace extending upward from 700' above the surface within an 8.5 statute (7.1 nautical) mile radius of the K.I. Sawyer Airport.

In § 71.171 (42 FR 355), the following control zone is amended to read:

K.I. SAWYER AFB, MICHIGAN

Within a 5 statute mile radius of the K.I. Sawyer Airport (latitude 46°21' N, longitude 87°24' W); within two statute miles each side of the extended center line of runway 01/19, extending from the 5-mile radius zone to 7.5 statute miles north and south of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); § 11.81 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Ill., on August 8, 1977.

JOHN M. CYROCKI,
Director,
Great Lakes Region.

[FR Doc.77-23883 Filed 8-17-77;8:45 am]

[Airspace Docket No. 77-GL-21]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this federal action is to designate a transition area at Peebles, Ohio, to provide controlled airspace for aircraft executing instrument approach procedures to the General Electric Airport which are based on a Non-Directional Radio Beacon (NDB) navigational aid being installed at the airport.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-4500, Extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions, and other aircraft operating under visual conditions. The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The circumstance which created this action was a request from the General Electric Airport officials to provide that facility with instrument approach capability. The development of the proposed instrument procedures necessitates the FAA to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

DISCUSSION OF COMMENTS

On page 30642 of the FEDERAL REGISTER dated June 16, 1977, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Peebles, Ohio. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the Notice of Proposed Rulemaking.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective October 6, 1977, as follows:

In § 71.181 (42 FR 440), the following transition area is added:

PEEBLES, OHIO

That airspace extending upward from 700 feet above the surface within a seven nautical mile radius of the Center (latitude 38°55'18" N, longitude 83°10'37" W) of General Electric Airport, Peebles, Ohio; excluding that portion which overlies the Salamon, Ohio, transition area.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); § 11.81 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Ill., on August 8, 1977.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[FR Doc.77-23877 Filed 8-17-77;8:45 am]

[Docket No. 17126; Amdt. No. 1086]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed weekly, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cur-

V42160 AUG 18 77 UM

rent annual subscription price is $150.00; add $30.00 for each additional copy mailed to the same address.

FOR FURTHER INFORMATION CONTACT:

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Aircraft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 9) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the FEDERAL REGISTER expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The principal authors of this document are Rudolph L. Fioretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAPs identified as follows:

* * * Effective October 6, 1977.

Montague, CA—Siskiyou County, VOR-B, Amdt. 1.
Bogalusa, LA—Geo. R. Carr Memorial Air Field, VOR/DME-A, Original.
Petersburg, MI—Lada, VOR-A, Original.
Columbus, NE—Columbus Muni., VOR Rwy 14, Amdt. 9.
Columbus, NE—Columbus Muni., VOR Rwy 32, Amdt. 9.
Mt Olive, NC—Mt Olive Muni., VOR-A, Orig.
Block Island, RI—Block Island State, VOR-A, Amdt. 2.
Galveston, TX—Scholes Field, VOR Rwy 13 (TAC), Amdt. 12
Houston, TX—Lakeside, VOR-A, Amdt. 2.
Houston, TX—William P. Hobby, VOR Rwy 13, (TAC), Amdt. 9.
Houston, TX—William P. Hobby, VOR/DME Rwy 4 (TAC), Amdt. 11.
Houston, TX—William P. Hobby, VOR/DME Rwy 22 (TAC), Amdt. 16.
Houston, TX—William P. Hobby, VOR/DME Rwy 31 (TAC), Amdt. 6.
La Porte, TX—La Porte Municipal, VOR-A (TAC), Amdt. 7.
Pulaski, WI—Carter, VOR-A, Original.

* * * Effective September 22, 1977.

Hickory, NC—Hickory Muni., VOR Rwy 24, Amdt. 19.

2. By amending § 97.25 SDF-LOC-LDA SIAPs identified as follows:

* * * Effective October 6, 1977.

Columbus, NE—Columbus Muni., LOC Rwy 14, Amdt. 1.
Indiana, PA—Indiana County Jimmy Stewart Field, LOC Rwy 28, Original, cancelled.
Indiana, PA—Indiana County Jimmy Stewart Field, LOC-B, Original.
Houston, TX—William P. Hobby, LOC (BC) Rwy 22, Amdt. 16.

* * * Effective September 22, 1977.

Hickory, NC—Hickory Muni., LOC Rwy 24, Amdt. 1, cancelled.

* * * Effective August 25, 1977.

Los Angeles, CA—Los Angeles Int'l, LOC (BC) Rwy 6R, Amdt. 2, cancelled.

3. By amending § 97.27 NDB/ADF SIAPs identified as follows:

* * * Effective October 6, 1977.

Montague, CA—Siskiyou County, NDB-A, Amdt. 3.
Birmingham, MI—Grand Prix, NDB-A, Amdt. 3, cancelled.
Troy, MI—Troy Executive, NDB-A, Orig.
Mountain View, MO—Mills Memorial, NDB Rwy 27, Original.
Columbus, NE—Columbus Muni., NDB Rwy 14, Amdt. 8.

CHAPTER V—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

PART 1204—ADMINISTRATIVE AUTHORITY AND POLICY

Subpart 14—Use of NASA Airfield Facilities by Aircraft Not Operated for the Benefit of the Federal Government

AGENCY: National Aeronautics and Space Administration.

ACTION: Final Rule.

SUMMARY: This rule sets forth the procedures and requirements for the use of NASA airfield facilities by aircraft not operated for the benefit of the Federal Government. These procedures and regulations are needed to provide for the orderly and controlled use of NASA research facilities that have limited availability for aircraft owned and operated by and for private citizens or companies.

EFFECTIVE DATE: August 18, 1977.

FOR FURTHER INFORMATION CONTACT:

R. W. Sommer, Director, NASA Aircraft Office, NASA Headquarters, Washington, D.C. 20546, 202-755-2664.

SUPPLEMENTARY INFORMATION: This rule will replace and update the existing published regulations and procedures for the Wallops Station Airstrip to reflect a change in the official name to Wallops Flight Center, hours of operation, and the facilities available. This rule also includes the addition of similar regulations and procedures for the Shuttle Landing Facility at the Kennedy Space Center in Florida.

These procedures and requirements involve the use of public property and will be applied in agreements entered into by NASA. However, the notice and public procedures of 5 U.S.C. 553 were not followed since these procedures and requirements are determined to be exempt under 5 U.S.C. 553(a)(2) "as a matter relating to agency management or personnel or to public property, loans, grants, benefits, or contracts."

1. Subpart 1204.14 is revised to read as follows:

Subpart 1204.14—Use of NASA Airfield Facilities by Aircraft Not Operated for the Benefit of the Federal Government

Sec.
1204.1400 Scope.
1204.1401 Definitions.
1204.1402 Policy.
1204.1403 Available airport facilities.
1204.1404 Requests for use of NASA airfield facilities.
1204.1405 Approving authority.
1204.1406 Procedures in the event of a declared inflight emergency.
1204.1407 Procedure in the event of an unauthorized use.

AUTHORITY: 42 U.S.C. 2473(c)(1) and 49 U.S.C. 1507.

Subpart 1204.14—Use of NASA Airfield Facilities by Aircraft Not Operated for the Benefit of the Federal Government

§ 1204.1400 Scope.

This subpart establishes the responsibility and sets forth the conditions and procedures for the use of NASA airfield facilities by aircraft not operated for the benefit of the Federal Government.

§ 1204.1401 Definitions.

For the purpose of this Subpart 1204.14 the following definitions apply:

(a) *NASA airfield facility.* Those aeronautical facilities owned and operated by NASA that consist of the following:

(1) *Shuttle Landing Facility.* The aeronautical facility which is a part of the John F. Kennedy Space Center, Kennedy Space Center, Fla., and is located at 80°41' west longitude and 28°37' north latitude.

(2) *Wallops Airport.* The aeronautical facility which is part of the Wallops Flight Center, NASA, Wallops Island, Va., and is located at 75°28' west longitude and 37°56' north latitude in the general vicinity of Chincoteague, Virginia.

(b) *Aircraft not operated for the benefit of the Federal Government.* Aircraft which are not owned by the United States Government or aircraft carrying crew members or passengers who do not have official business requiring the use of a NASA airfield facility in the particular circumstances in question.

(c) *Official Business.* Business, in the interest of the U.S. Government, which personnel aboard an aircraft must transact with U.S. Government personnel or organizations at or near a NASA facility. The use of a NASA airfield facility by transient aircraft to petition for U.S. Government business or to obtain clearance, servicing, or other items pertaining to itinerant operations is not considered official business.

(d) *User.* An individual, partnership, or corporation owning, operating, or using an aircraft not operated for the benefit of the Federal Government in whose name permission to use a NASA airfield facility is to be requested and granted.

(e) *Hold Harmless Agreement.* An agreement executed by the user by which the user acknowledges his awareness of the conditions of the permission to use a NASA airfield facility, assumes any risks connected therewith, and releases the U.S. Government from all liability incurred by his use of such facility.

(f) *Use Permit.* The written permission signed by the authorized approving official to land, take off, and otherwise use a NASA airfield facility. Such use permit may be issued for single or multiple occasions. The specific terms of the use permit and the provisions of this Subpart govern the use which may be made of the airport by aircraft not operated for the benefit of the Federal Government.

(g) *Certificate of Insurance.* A certificate signed by an authorized insurance company representative (or a facsimile of an insurance policy) evidencing that insurance is then in force with respect to any aircraft not operated for the benefit of the Federal Government, the user of which is requesting permission to use a NASA airfield facility (see § 1204.1404 (b)).

§ 1204.1402 Policy.

(a) NASA is not engaged in a public or quasi-public enterprise; and, hence, any use of airfield facilities by aircraft not operated for the benefit of the Federal Government shall be within the sole discretion of the approving authorities.

(b) Except in the event of a declared in-flight emergency (see § 1204.1406) or for other compelling reasons as determined by an approving authority, aircraft not operated for the benefit of the Federal Government are not permitted to land or otherwise use NASA airfield facilities.

(c) Any use of a NASA airfield facility by aircraft not operated for the benefit of the Federal Government shall be gratuitous and no consideration (monetary or otherwise) shall be exacted or received by NASA for such use. However, each user, as a condition of receiving permission to use such airfield facility, shall agree to familiarize himself with the physical condition of the airfield; abide by the conditions placed upon such use; subject his aircraft, himself, and those accompanying him to any requirements imposed by NASA in the interest of security and safety while the aircraft or persons are on a NASA facility; use the facilities entirely at his own risk; hold the Federal Government harmless with respect to any and all liabilities which may arise as a result of his use of the facilities; and carry insurance in an amount which is deemed adequate by NASA.

(d) Permission to use a NASA airfield facility will be granted only when there are compelling reasons for such use as determined by an approving authority and then only when such use will not compete with another airport in the vicinity which imposes landing fees or other user charges.

(e) In no event (except an in-flight emergency—see § 1204.1406) will permission to use NASA airfield facilities be granted to an aircraft arriving directly from, or destined for, any location outside the continental United States.

(f) Permission to use NASA airfields may be granted only to those users having the legal capacity to contract and whose aircraft are in full compliance with applicable Federal Aviation Administration or other cognizant regulatory agency requirements.

(g) Permission to use NASA airfields, except in connection with a declared in-flight emergency, will consist only of the right to land, park an aircraft, and subsequently take off. NASA is not equipped to provide any other services such as maintenance or fuel and such services will not be provided except following an in-flight emergency.

§ 1204.1403 Available airport facilities.

The facilities available vary at each NASA installation having an airfield. The airport facilities available are:

(a) *Shuttle Landing Facility*—(1) *Runways.* Runway 15-33 is 15,000 feet long and 300 feet wide with 1,000-foot overruns. The runway is grooved for improved braking under wet conditions.

(2) *Parking Area and Hangar Space.* No hangar space is available. Very limited concrete parking ramp space may be made available for short periods.

(3) *Control Tower.* There is no permanent control tower at the Shuttle Landing Facility; however, a temporary tower is planned to be operational at selected times. The FAA has reserved frequencies 126.3 and 296.8 MHz for that purpose. When the tower is in operation, FAA regulations pertaining to the operation of aircraft at airports with an operating control tower (§ 91.87 of this title) will apply. When the tower is not in operation, the FAA regulations pertain-

V 42 160 AUG 18 77 UM V

ing to the operation of aircraft at airports without an operating control tower (§ 91.89 of this title) will apply.

(4) *Navigation aids.* There are no radio navigation aids. Runway approach lighting (similar to Cat II ALSF-2), center-line lights, edge lights and touchdown zone lights are available by prior arrangement.

(5) *Hazards.* There are towers and buildings south and southeast of the facility that could pose hazards to air navigation. All are marked with obstruction lights.

(6) *Emergency Equipment.* Fire, crash and rescue equipment is available at Kennedy Space Center 24 hours per day, but will not be available at the runway except by prior arrangement.

(b) *Wallops Airport*—(1) *Runways.* There are three hard surfaced runways in satisfactory condition. The runways and taxiways are concrete and/or asphalt. Runway 10–28 is 8,000 feet long, 200 feet wide with maximum wheel load of 57,500 pounds; Runway 04–22 is 8,750 feet long, 150 feet wide with maximum wheel load of 57,500 pounds; and Runway 17–35 is 4,820 feet long, 150 feet wide with maximum wheel load of 14,700 pounds.

(2) *Parking Areas and Hangar Space.* No hangar space is available. However, concrete parking ramp space is available as directed by Tower.

(3) *Control Tower.* The control tower is normally manned from 0730–1730 local time, Monday through Friday *only*, legal holidays excluded. When the tower is manned and in operation at airports with operating control towers, § 91.87 of this title will apply. The tower may be contacted on 394.3 MHz or 126.5 MHz. At all times when the tower is not manned, FAA rules pertaining to the operation at airports without control towers (§ 91.89 of this title) will apply.

(4) *Navigation Aids.* Runway and taxiway lights on runway and taxiway 04–22 and 10–28 only. Specific request must be made of the control tower or Salisbury Flight Service Station to have these lights turned on. Lighted red obstruction lights on all airfield obstructions.

(5) *Physical Hazards.* Numerous towers in airport vicinity up to 241 feet above ground level.

(6) *Emergency Equipment.* Crash and fire equipment normally on duty from 0730–1730 local time, Monday through Friday only, legal holidays excluded.

(c) *Other Facilities.* No facilities or services other than those described above are available except on an individual emergency basis to any user.

(d) *Status of Facilities.* Change to the status of the above facilities will be published in the appropriate current aeronautical publications.

§ 1204.1404 Requests for use of NASA airfield facilities.

(a) Request for use of a NASA airfield, whether on a one-time or recurring basis, must be in writing and addressed to the appropriate airfield manager, namely:

(1) Shuttle Landing Facility—Manager, Shuttle Landing Facility, Director of Technical Support, John F. Kennedy Space Center, Kennedy Space Center, Florida 32899.

(2) Wallops Airport—Airport Manager, Wallops Flight Center, NASA, Wallops Island, Va. 23337.

(b) Such requests will: (1) Identify the prospective user and aircraft fully, including number of passengers and cargo on board,

(2) State the purpose of the proposed use and the reason why the use of the NASA airfield is proposed rather than a commercial airport,

(3) Indicate the number and approximate date(s) and time(s) of such proposed use, and

(4) State that the prospective user is familiar with the provisions of this Subpart 1204.14 and is prepared to fully comply with its terms and the use permit which may be issued.

(c) Upon receipt of the written request for permission to use the airport, the airfield manager will request additional information, if necessary, and forward the required Hold Harmless Agreement for execution by the requestor or forward, where appropriate, a denial of the request.

(d) The signed original of the Hold Harmless Agreement shall be returned to the airfield manager, and a copy retained in the aircraft at all times. Such copy shall be exhibited upon proper demand by any NASA official.

(e) At the same time that the prospective user returns the executed original of the Hold Harmless Agreement, he shall forward to the airfield manager the required Certificate of Insurance and waiver of rights to subrogation. Such certificate shall evidence that, during any period for which a permit to use is being requested, the prospective user has in force a policy of insurance covering liability to others in amounts not less than those listed in the Hold Harmless Agreement.

(f) When the documents (in form and substance) required by paragraphs (b) through (e) of this section have been received, they will be forwarded with a proposed use permit to the approving authority for action.

(g) The airfield manager will forward the executed use permit or notification of denial thereof to the prospective user after the approving authority has acted.

§ 1204.1405 Approving authority.

The authority to approve or disapprove the use of the NASA airfield facilities subject to the terms and conditions of this Subpart 1204.14 is vested in:

(a) Shuttle Landing Facility—Director of Technical Support, Kennedy Space Center, NASA.

(b) Wallops Airport—Director, Wallops Flight Center, NASA.

§ 1204.1406 Procedures in the event of a declared in-flight emergency.

(a) Any aircraft involved in a declared in-flight emergency that endangers the safety of its passengers and aircraft may land at a NASA airfield. In such situations, the requirements of this Subpart 1204.14 for advance authorizations, etc., do not apply.

(b) NASA personnel may use any method or means to clear the aircraft or wreckage from the runway after a landing following an in-flight emergency. Care will be taken to preclude unnecessary damage in so doing. However, the runway will be cleared as soon as possible for appropriate use.

(c) The emergency user will be billed for all costs to the Government that result from the emergency landing. No landing fee will be charged, but the charges will include the labor, materials, parts, use of equipment, tools, etc., required for any service rendered under these circumstances.

(d) In addition to any report required by the Federal Aviation Administration, a complete report covering the landing and the emergency will be filed with the airfield manager by the pilot or, if he is not available, any other crew member or passenger.

(e) Before an aircraft which has made an emergency landing is permitted to take off (if the aircraft can and is to be flown out) the owner or operator thereof shall make arrangements acceptable to the approving authority to pay any charges assessed for services rendered and execute a Hold Harmless Agreement. He may also be required to furnish a certificate of insurance, as provided in § 1204.1404, covering such take off.

§ 1204.1407 Procedure in the event of an unauthorized use.

Any aircraft not operated for the benefit of the Federal Government which lands at a NASA airfield facility without obtaining prior permission from the approving authority, except in a bona fide emergency, is in violation of this Subpart 1204.14. Such aircraft will experience delays while authorization for departure is obtained pursuant to this Subpart 1204.14 and may, contrary to the other provisions of this Subpart 1204.14, be required, in the discretion of the approving authority, to pay a user fee of not less than $100. Before the aircraft is permitted to depart, the approving authority will require full compliance with this Subpart 1204.14, including the filing of a complete report explaining the reasons for the unauthorized landing. When it appears that the violation of this Subpart 1204.14 was deliberate or is a repeated violation, the matter will be referred to NASA Headquarters, which will then grant any departure authorization.

RAYMOND A. KLINE,
Acting Associate Administrator for Center Operations.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 77-203]

PART 159—LIQUIDATION OF DUTIES

Certain Handbags From Republic of China

AGENCY: United States Treasury Department.

ACTION: Modification of Final Countervailing Duty Order.

SUMMARY: This notice is to advise the public that the Treasury Department is revoking its order to impose countervailing duties on all entries for consumption or withdrawals from warehouse for consumption of handbags manufactured by Yashiro Wang Fuchi Company, Ltd., and Champion Industries, Ltd. (T.D. 77-151). It has been determined that these two firms do not receive benefits upon the manufacture, production or exportation of handbags from the Government of the Republic of China which are considered to be bounties or grants within the meaning of the U.S. Countervailing Duty Law.

EFFECTIVE DATE: August 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Donald W. Eiss, Office of Tariff Affairs, U.S. Treasury Department, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220, 202-566-8256.

SUPPLEMENTARY INFORMATION: On June 3, 1977, Treasury Decision 77-151 was published in the FEDERAL REGISTER (42 FR 28531). In its decision, the Treasury Department found that the Taiwanese handbag industry had received de minimis aggregate benefits from the Government of the Republic of China but that three Taiwanese firms had received benefits considered to be bounties or grants within the meaning of the Countervailing Duty Law. The three firms, Yashiro Wang Fuchi Company, Ltd., International Handbags Industrial Company, Ltd., and Champion Industries, Ltd., were assessed countervailing duties of 0.8 percent, 2.0 percent and 2.0 percent respectively.

Additional information has now been received with respect to Yashiro Wang Fuchi Company, Ltd. (Yashiro) and Champion Industries, Ltd. (Champion Industries).

In the original investigation, it was found that Yashiro, which represented 5.5 percent of total Taiwanese handbag exports, received benefits under a tax holiday benefit program and through preferential export loan financing. It has been discovered that the termination date for the company's eligibility to receive tax holiday benefits was erroneously reported as August 4, 1977 when in fact the firm's eligibility ended on August 4, 1976. The only benefits this firm is now receiving are through the preferential export financing program which conferred a 0.35 percent ad valorem benefit during 1976. This remaining benefit is considered de minimis.

During the original investigation, it was found that Champion Industries received benefits under the tax holiday program but the Taiwanese submitted no information with respect to the actual benefits this company had received. A countervailing duty of 2.0 percent was chosen in that it represented the highest ad valorem benefit received by any Taiwanese firm. Information has now been supplied which shows that Champion no longer receives benefits under this program.

For the reasons stated above, it is hereby determined that no bounty or grant is being, or has been, paid or bestowed directly or indirectly, upon the manufacture, production or exportation of handbags from Taiwan produced by Yashiro Wang Fuchi Company, Ltd., and Champion Industries, Ltd. within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303), and T.D. 77-151 is hereby amended so as to exclude handbags from Taiwan produced by these two firms. No countervailing dutes will be collected upon the liquidation of entries of the subject merchandise manufactured by these two firms for consumption or withdrawal from warehouse for consumption for the period June 3, 1977 through August 18, 1977.

The table in § 159.47(f) of the Customs Regulations (19 CFR 159.47(f)) is amended by deleting in the last entry for the Republic of China under the column headed "Commodity," which now reads "handbags exported by Yashiro Wang Fuchi Company, Ltd., International Handbag Industrial Company, Ltd., and/or Champion Industries, Ltd.," the words "Yashiro Wang Fuchi Company, Ltd. and/or Champion Industries, Ltd."; inserting in the column headed "Treasury Decision" the number of this Treasury Decision; and inserting the words "Bounty declared rate; Modified as to handbags manufactured by Yashiro Wang Fuchi Company, Ltd. and Champion Industries, Ltd." in the column headed "Action." (R.S. 251, sections 303, as amended 624; 46 Stat. 687, as amended, 759, 88 Stat. 2050; 19 U.S.C. 66, 1303, 1624).

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order 190 Revision 13, May 17, 1977, the provisions of Treasury Department Order No. 165, Revised, November 2, 1954, and § 159.47(d) of the Customs Regulations (19 CFR 159.47(d)), insofar as they pertain to the issuance of a countervailing duty order by the Commissioner of Customs, are hereby waived.

Dated: August 12, 1977.

HENRY C. STOCKELL, JR.,
Acting General Counsel of the Treasury.

[FR Doc.77-23908 Filed 8-17-77;8:45 am]

Title 22—Foreign Relations

CHAPTER I—DEPARTMENT OF STATE

SUBCHAPTER M—INTERNATIONAL TRAFFIC IN ARMS

[Departmental Reg. 108.743]

PART 123—LICENSES FOR UNCLASSIFIED ARMS, AMMUNITION, AND IMPLEMENTS OF WAR

PART 124—MANUFACTURING LICENSE AND TECHNICAL ASSISTANCE AGREEMENTS

Approval of Major Sales Proposals

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: This action amends the International Traffic in Arms Regulations to establish procedures that will enhance the Secretary of State's ability to control the sale and export of defense articles and services from the United States. Specifically, these amendments seek to ensure that the Department of State is given an opportunity to advise U.S. firms whether their efforts to sell significant combat equipment (in contracts of $7,000,000 or more), or to sell a manufacturing capability for such equipment, would be consistent with the national security and foreign policy of the United States. Existing regulations provide such an opportunity only when the sales effort itself involves the export of items on the United States Munitions List or related technical data. These amendments would require Department of State approval even in the absence of such exports at the time of the sales promotion effort.

EFFECTIVE DATE: This regulation shall apply to presentations and proposals made on or after September 1, 1977.

FOR FURTHER INFORMATION CONTACT:

William Robinson, Office of Munitions Control, Department of State, Washington, D.C. 20520. Phone 202-235-9755.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 3, 1977, page 28551, the Department of State proposed amendments to Parts 123 and 124 of 22 CFR. Based on written comments received from the public and oral comments conveyed to the State Department at the public meeting on July 7, 1977, the Department has adopted the proposed amendments to the International Traffic in Arms Regulations with certain changes.

The amendment to Part 123 provides that the Department of State's approval is required before a proposal or presentation is made which is designed to constitute a basis for decision to purchase significant combat equipment valued at $7,000,000 or more for use by the armed forces of a foreign country. This approval would be required in any case where the proposed sale of significant combat equipment would involve the export from the United States of an item on the United States Munitions List or technical data relating to such an item.

A proposal, or presentation designed to constitute a basis for a decision to purchase is described as the communication of information in sufficient detail that the person communicating that information knew or should have known that it would permit an intended purchaser to decide to acquire the particular significant combat equipment in question. Examples are given of types of activity that would or would not meet this test. The language of the regulation has been made more specific in this regard than the proposal of June 3.

An application for an export license to implement a sales contract which meets the criteria established for the prior approval requirement must either cite a prior specific approval of the

V42160 AUG 18 77 UMI

transaction or certify that no proposal or presentation requiring prior approval has been made. The prior approval requirement of the regulation is satisfied by any of the following: (1) a written statement approving the proposed sale or approving the making of a proposal or presentation; (2) a license for the export of technical data to the country concerned; or (3) a temporary export license to the country concerned for a demonstration to the armed forces of the country of export.

The amendment to Part 124 prescribes similar prior approval requirements with respect to proposals and presentations for technical assistance and manufacturing license agreements involving the production or assembly of significant combat equipment.

The Department of State received approximately 25 written and oral comments on the proposed resolution. The following points out how they were incorporated into the final regulation or why they were not.

A number of comments focused attention on the point at which prior approval is required. With a view toward clarifying the regulation in this regard, the Department of State changed "any proposal, recommendation or presentation designed to induce a decision to purchase," to "any proposal or presentation designed to constitute a basis for a decision to purchase."

In consonance with this change the definition in § 123.16(b) of "a proposal or presentation designed to constitute a basis for a decision to purchase" has been amended. It now encompasses "the communication of information in sufficient detail that the person communicating that information knew or should have known that it would permit an intended purchaser to decide to acquire the particular significant combat equipment in question."

Finally, in this area, considerable comment suggested that the last sentence of § 123.16(b) be broadened to include other business activity. In response the State Department has added to that sentence all reporting in a publication of general circulation.

The second area of general concern was the presumption created by § 123.16 (c) which could be overcome by a certification that the company made no proposal or presentation for which prior approval is required under the regulation. In response to the generally unfavorable replies to the creation of such a presumption, the Department of State has deleted § 123.16(c) of the proposed rule and added a new subsection (c). This subsection requires that every application for an export license which meets the criteria of paragraph (a) must be accompanied by either evidence of a prior approval of the transaction or a certification that no proposal or presentation requiring prior approval has been made. The second part of this subsection permits the Department of State to require a similar statement from a Foreign Military Sales (FMS) contractor when a letter of offer for a sale meets the three criteria specified in subsection (a).

The comments also reflected a misunderstanding of what approval satisfied the regulation. Accordingly, a new subsection (d) was added in order to explicitly enumerate the alternative means of meeting the prior approval requirement of this section. These means are State Department approval of the proposed sale, the making of a proposal or presentation, a technical data license, or a temporary export license to the country concerned for demonstration to the armed forces of the country of export.

Section 123.16(d) of the proposed regulation remains unchanged and becomes § 123.16(e).

Public reaction to § 124.06 focused on the scope of the regulation which many considered too broad. In an effort to satisfy these concerns, the State Department has deleted technical assistance and manufacturing license agreements for the maintenance of significant combat equipment from the purview of the regulation. Therefore, the final regulation only applies to technical assistance and manufacturing license agreements for the production or assembly of significant combat equipment on the United States Munitions List. The other changes in § 124.06 merely reflect those made in § 123.16.

Other responses suggested that in view of President Carter's new arms sales policy, proposed sales to NATO, Japan, Australia and New Zealand should be exempt from the new regulation. The President's arms sales policy, however, only exempted these countries from the mandatory application of the specific limitations which he described in his statement of May 19, 1977. This exemption does not imply that arms transfers to the countries concerned are free of all controls. Therefore, this suggestion was not incorporated into the final rule.

Some respondents urged the State Department to adopt a mandatory response time during which the Department must review the sales proposals submitted to it. The State Department understands the public's concern in this area and will attempt to develop internal procedures to facilitate rapid responses.

A number of responses suggested raising the threshold in § 123.16(a)(1) above the $7,000,000 in the proposed regulation. Since the $7,000,000 figure allows the regulation to apply to all major sales and is derived from the Arms Export Control Act the State Department has retained that figure.

Other comments expressed concern over the protection of proprietary information submitted to Munitions Control in compliance with the regulation. In terms of its protection, information submitted pursuant to this regulation and that submitted for a normal export license pose the same problem. Accordingly, the State Department believes that a separate provision in this paragraph governing the protection of proprietary information is not necessary. In this regard, it should be noted that the State Department is considering an amendment applicable to the entire International Traffic in Arms Regulations addressing the question of the protection of proprietary information. It is the policy of the State Department to protect the confidentiality of proprietary information furnished to it under the International Traffic in Arms Regulations.

Finally, questions have arisen concerning the effective date of the regulation. The regulation shall be effective as of September 1, 1977 and shall apply to presentations and proposals that are made on or after that date.

In consideration of the foregoing 22 CFR Subchapter M (Parts 123 and 124) is amended as follows:

1. Part 123 is amended by adding a new § 123.16 to read as follows:

§ 123.16 Approval of proposals to sell significant combat equipment.

(a) The approval of the Department of State is required as a condition precedent to any proposal or presentation designed to constitute a basis for a decision to purchase, either through commercial or Foreign Military Sales procedures, made to any foreign government or foreign national if:

(1) The subject of the proposal or presentation is significant combat equipment on the United States Munitions List to be sold under a contract for $7,000,000 or more; and

(2) The equipment is intended for use by the armed forces of a foreign country; and

(3) The sale of the equipment would involve the export from the United States of any item on the United States Munitions List or of any technical data relating to an item on the United States Munitions List.

(b) A "proposal or presentation designed to constitute a basis for a decision to purchase" means the communication of information in sufficient detail that the person communicating that information knew or should have known that it would permit an intended purchaser to decide to acquire the particular significant combat equipment in question. For example, a presentation which described the equipment's performance characteristics, price, and probable availability for delivery would require prior approval in any case where the three criteria specified in paragraph (a) of this section were met. By contrast, advertising or other reporting in a publication of general circulation, preliminary discussions to ascertain market potential or merely calling attention to the fact that a company manufactures a particular item of significant combat equipment would not require prior approval.

(c)(1) Every application for an export license to implement a sale which meets the three criteria specified in paragraph (a) of this section must be accompanied by a statement from the applicant which either:

(i) Refers to a specific approval previously granted with respect to the transaction; or

(ii) Certifies that no proposal or presentation requiring prior approval has been made.

(2) The Department of State may require a similar statement from the Foreign Military Sales contractor concerned in any case where the United States Government receives a request for a letter of offer for a sale which meets the three criteria specified in subsection (a) of this section.

(d) The requirement of this section for prior approval is met by any of the following:

(1) A written statement approving the proposed sale or approving the making of a proposal or presentation.

(2) A license for the export of technical data relating to the proposed sale to the country concerned issued under §§ 125.04 or 125.05.

(3) A temporary export license relating to the proposed sale for a demonstration to the armed forces of the country of export issued under § 123.55.

(e) In addition to other remedies and penalties prescribed by law or this subchapter, a failure to obtain the approval required by paragraph (a) of this section may be considered to be a reason for disapproval of a license application or request for a letter of offer.

2. Part 124 is amended by adding a new § 124.06 to read as follows:

§ 124.06 Approval of proposals for technical assistance and manufacturing license agreements.

(a) The approval of the Department of State is required as a condition precedent to any proposal or presentation designed to constitute a basis for a decision to purchase, either through commercial or Foreign Military Sales procedures, made to any foreign government or foreign national if:

(1) The subject of the proposal or presentation is a technical assistance or manufacturing license agreement for the production or assembly of significant combat equipment on the United States Munitions List; and

(2) The equipment is intended for use by the armed forces of a foreign country; and

(3) The technical assistance or manufacturing license agreement would involve the export from the United States of any item on the United States Munitions List or of technical data relating to an item on the United States Munitions List.

(b) A "proposal or presentation designated to constitute a basis for a decision to purchase" means the communication of information in sufficient detail that the person communicating that information knew or should have known that it would permit an intended purchaser to decide to enter into the proposed technical assistance or manufacturing license agreement. For example, a presentation which described the price and probable schedule for performance would require prior approval in any case where the three criteria specified in paragraph (a) of this section were met. By contrast, advertising or other reporting in a publication of general circulation, preliminary discussions to ascertain market potential or merely calling attention to the fact that a company manufactures a particular item of significant combat equipment would not require prior approval.

(c)(1) Every request for an approval of a technical assistance or manufacturing license agreement which meets the three criteria specified in paragraph (a) of this section must be accompanied by a statement from the applicant which either:

(i) Refers to a specific approval previously granted with respect to the transaction; or

(ii) Certifies that no proposal or presentation requiring prior approval has been made.

(2) The Department of State may require a similar statement from the Foreign Military Sales contractor concerned in any case where the United States Government receives a request for a letter of offer for a sale which meets the three criteria specified in subsection (a) of this section.

(d) The requirements of this section for prior approval is met by any of the following:

(1) A written statement approving the proposed agreement or approving the making of a proposal or presentation relating to the proposed agreement.

(2) A license for the export of technical data to the country concerned issued under §§ 125.04 or 125.05 and specifying its relation to a technical assistance or manufacturing license agreement.

(3) A temporary export license relating to the proposed agreement for a demonstration to the armed forces of the country of export issued under § 123.04 and specifying its relation to a technical assistance or manufacturing license agreement.

(e) In addition to other remedies and penalties prescribed by law or this subchapter, a failure to obtain the approval required by paragraph (a) of this section may be considered to be a reason for disapproval of a proposed technical assistance or manufacturing license agreement.

(Sec. 38, as amended, 90 Stat. 744 (22 U.S.C. 2778), E.O. 11958, 42 FR 4311.)

LUCY WILSON BENSON,
Under Secretary for Security Assistance, Science and Technology.

AUGUST 11, 1977.

[FR Doc.77-23922 Filed 8-17-77;8:45 am]

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

PART 655—TRAFFIC OPERATIONS

Right-Turn-On-Red at Signalized Intersections; Deletion of Interim Regulations

AGENCY: Federal Highway Administration, DOT.

ACTION: Deletion of interim regulation.

SUMMARY: The Federal Highway Administration (FHWA) issues this notice to indicate that the above-mentioned interim regulation has been deleted from 23 CFR Part 655 originally published at 41 FR 28477 on July 12, 1976, since similar provisions concerning right-turn-on-red (RTOR) at signaled intersections have been added to the Manual on Uniform Traffic Control Devices (MUTCD). In accordance with 23 CFR 625.3, the MUTCD is incorporated by reference into the CFR. Provisions for RTOR at signalized intersections similar to those originally included in the above-mentioned interim regulation may now be found in sections 2B–35 and 4B–5 of the MUTCD.

EFFECTIVE DATE: August 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert E. Conner, Chief, Traffic Control Systems Division, Office of Traffic Operations (202/426–0411); or Mrs. Kathleen S. Markman, Office of the Chief Counsel (202/426–0790), Federal Highway Administration, 400 7th Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m., ET, Monday–Friday.

SUPPLEMENTARY INFORMATION: This interim regulation was published for notice and comment at 41 FR 28477 on July 12, 1976, FHWA Docket No. 76–11. By virtue of this publication, FHWA issued an interim national policy adopting the generally permissive rule for RTOR. This rule permits RTOR except where prohibited by a NO TURN ON RED sign. As of March 1, 1977, 45 States have adopted this policy. Five other States currently allow drivers to turn on red when a sign permits this turn. At the present time the District of Columbia does not provide any form of RTOR. Also, New York City is excluded from the New York law which permits RTOR except where prohibited by sign.

Approximately 66 comments were received in response to the above-mentioned request for comments. Most of these comments favored the generally permissive rule of RTOR which has already been adopted by 45 States. The only major opposition to RTOR received in writing was from the State of Massachusetts and several of its cities. Their opposition was based primarily on their interpretation that signs prohibiting RTOR would be required at most of their signalized intersections where they use pedestrian signals. It should be noted that the interim regulation's guidelines referred only to those intersections where an exclusive pedestrian phase is used permitting pedestrians to cross all crosswalks simultaneously.

It is our present understanding that the States of Connecticut, Maine and Vermont and the District of Columbia are considering revised legislation to conform with the generally permissive policy adopted by the other 45 States. In Maryland legislation adopting the generally permissive policy to be effective January 1, 1978, has passed both the Senate and

V 42 160 AUG 18 77 UM

the House and is awaiting signature. It is believed that the generally permissive rule best conforms with the intent of the Energy Policy and Conservation Act of 1975 (Pub. L. 94–163) and the guidelines issued by Federal Energy Administration at 41 FR 48325 (Nov. 3, 1976).

The MUTCD provides, in part, for guidelines regarding traffic signs and signals. Consequently, the provisions concerning RTOR should be incorporated in that manual rather than in a separate place in the Code of Federal Regulations. In response to the comments received, the RTOR provisions to be cited as sections 2B–35 and 4B–5 of the MUTCD are more general than those originally presented in the above-cited interim regulation. Consequently, the States may develop their own detailed criteria to fit their particular needs.

In consideration of the foregoing, Subpart H of Part 655 of Title 23, Code of Federal Regulations, is vacated and reserved.

Issued on: August 8, 1977.

KARL S. BOWERS,
Deputy Administrator.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77–98]

PART 183—BOATS AND ASSOCIATED EQUIPMENT

Safety Standards for Electrical and Gasoline Fuel Systems

Correction

In FR Doc. 77–20258 appearing at page 36252 in the issue for Thursday, July 14, 1977, in the 6th line from the top of the first column on page 36253, the number "38" should have read "36".

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

Identification of Mail of Nonprofit Organizations

AGENCY: U.S. Postal Service.

ACTION: Final rule.

SUMMARY: The rule requires an organization authorized to mail at the special bulk third-class rates for qualified nonprofit organizations to put its own name either as a return address on the mailing piece or in a prominent location on the message. Such an organization may not use a pseudonym or bogus name of a person or organization on its mail. The purpose of the rule is to avoid the appearance of unqualified mailings, as would be the case if only the name of an individual or a commercial enterprise were to appear on the mailing piece or the message.

The rule will be new 134.58 of the Postal Service Manual.

EFFECTIVE DATE: January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

James F. Harding, 202–245–4512.

SUPPLEMENTAL INFORMATION: On February 4, 1977, the Postal Service published for comment in the FEDERAL REGISTER (42 FR 6841) a notice of proposed rulemaking which, among other things, would add in Part 134 of the Postal Service Manual a new .58 to require an organization authorized to mail at the special third-class rates to identify itself on the mailing piece and contents.

Interested persons were invited to submit written data, views or arguments concerning the proposed new requirement. Written comments were received from a total of 23 individuals and organizations. These comments were carefully considered in adopting the amendment to the regulation set forth below.

The general areas of concern of the commenters and the Postal Service analysis follow.

The proposed rule would require that the nonprofit organization put its own name on the envelope and letterhead of its mail. Some organizations commented that they do not have letterheads and some mailings are not enclosed in envelopes. This seems to be a valid comment. Accordingly we are changing the rule to require the organization to put its own name either on the "message" or as a return address on the "mailing piece".

Several commenters pointed out that their organizations were widely known by designations other than their correct names. For example, the American Federation of Labor and Congress of Industrial Organizations is almost always referred to as the AFL–CIO. The National Foundation is better known as "The March of Dimes". These too are legitimate considerations. Therefore, the language is changed to state that a well recognized alternative designation, such as the March of Dimes, or a well recognized abbreviation, such as AFL–CIO, may be used in place of the full name of the organization.

Numerous commenters objected to being required to place a return address on the mailing piece. The rationale centered around the contention that a plain envelope, with no return address, is more apt to be opened than one which is obviously a solicitation for a contribution. No studies or statistics were submitted. We have no knowledge as to whether a plain envelope might offer some psychological advantage or not, but it is the Postal Service position that the recipient must be made aware, either by the message or the mailing piece of the true nature of the sender. Therefore, the regulation is modified to require identification of the mailer either as a return address on the mailing piece or in a prominent location on the message, but if any return address is shown on the mailing piece, it must be that of the authorized permit holder. In the case of cooperative mailings, the name of one authorized permit holder would have to be indicated.

One commenter believes that a purpose of the proposed rule is to prevent commercial organizations such as travel agencies from mailing promotions at the nonprofit third-class rate, and states that the rule would have little impact on this practice since the cooperating nonprofit organization could simply permit the use of its name on the envelope and on one letter enclosed in the envelope. The commenter is mistaken in his belief of the purpose of the rule and in his assumption that a nonprofit organization can legitimately delegate or lend its permit to another person, organization or association. Cooperative mailings may not be made at the special bulk third-class rates if one or more of the cooperating organizations is not entitled itself to the special rates. See 134.57 of the Manual.

The same commenter believes that the proposed rule would, in violation of the protections of the First Amendment of the Constitution, burden messages which are not false, misleading or illegal, but are entirely truthful. This criticism appears to be without foundation. The proposed rule does not prohibit solicitations by qualified nonprofit organizations or censor the contents of mailings made at the special rates. It requires merely that those who mail at the special rates identify themselves either on the envelope or the message, in order to avoid the appearance of unqualified mailings.

Several commenters stated that if this requirement were made effective immediately, it would cause a financial hardship because of supplies of stationery items on hand. For this reason, we will adopt the rule at this time but with a delayed effective date of January 1, 1978, at which time supplies previously purchased should have been used.

Several commenters wanted to be able to use the so-called "celebrity" letter for solicitations. This is a public relations device whereby a well known person, usually from the theatre or sports world, makes a request for a charitable contribution to an organization on what appears to be his own personal letterhead, over his own (facsimile) signature, and with an envelope bearing his own name. From the promoter's standpoint this is supposed to be effective because the recipient is not aware that this is a request for a charitable contribution until the letter is read. The Postal Service has carefully considered this position and decided that this is not an acceptable practice, since this is the very thing that the regulation is designed to correct. It is necessary to avoid the appearance of mailings having been made by individuals or commercial enterprises, since neither individuals, whether celebrities or not, nor commercial enterprises are entitled to mail at the special rates. See 134.53 of the Postal Service Manual.

Four commenters unequivocally endorsed the change. As the Senior Vice President of an advertising agency said: "Let's sail under our own flag—no flags of convenience, certainly no jolly rogers."

In view of the considerations discussed above the Postal Service hereby adopts, as amended, the following revision of the Postal Service Manual:

PART 134—THIRD CLASS

In 134 of the Postal Service Manual add new .58 reading as follows:

134.58. *Identification.* In order to avoid the appearance of mailings having been made by individuals or commercial enterprises, which are not qualified to mail at the special bulk third-class rates, either the mailing piece must bear the name and return address of the authorized permit holder or the message must contain the name and return address of the authorized permit holder in a prominent location. Pseudonyms or bogus names of persons or organizations may not be used. If the mailing piece bears a name and return address, it must be that of the authorized permit holder. If the mailing piece does not bear a name and return address, the message must contain in a prominent location the name and return address of the authorized permit holder. A well recognized alternative designation or abbreviation such as "The March of Dimes" or the "AFL–CIO" may be used in place of the full name of the organization.

A Post Office Services (Domestic) transmittal letter making these changes in the pages of the Postal Service Manual will be published and will be transmitted to subscribers automatically. These changes will be published in the FEDERAL REGISTER as provided in 39 CFR 111.3.

(39 U.S.C. 401(2).)

W. ALLEN SANDERS,
Assistant General Counsel,
Legislative Division.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 779–6]

PART 204—NOISE EMISSION STANDARDS FOR CONSTRUCTION EQUIPMENT

Clarifying Amendments

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This action makes certain administrative and clarifying changes in Subpart A, General Provisions, and Subpart B, Portable Air Compressors, of 40 CFR Part 204, Noise Emission Standards for Construction Equipment.

EFFECTIVE DATE: Date of promulgation.

FOR FURTHER INFORMATION CONTACT:

Richard G. Kozlowski, Director, Noise Enforcement Division, U.S. Environmental Protection Agency (EN–387), Washington, D.C. 20460 (703–557–7470)

SUPPLEMENTARY INFORMATION: All submittals that are required pursuant to these regulations are presently to be submitted to the Director, Mobile Source Enforcement Division. These submittals will now be sent to the Director, Noise Enforcement Division (EN–387). Also, in § 204.57–5, a new paragraph (d) is added to specify where the information required to be submitted to the Administrator pursuant to this section must be sent.

In § 204.4, paragraph (b) is amended to specify that the written authorization for inspection of a manufacturer's facilities will be signed by the Director, Noise Enforcement Division or his designee.

Additionally, in § 204.51, paragraph (k) is amended to clarify that a batch sample is a collection of compressors that are drawn from a batch. In § 204.57–1, paragraph (c) is amended to clarify that the test request will specify the batch from which sampling is to begin rather than the batch selected for testing.

The Administrator finds that notice and comment procedures are unnecessary in the case of these amendments, because they are non-substantive and have no potential for controversy.

(Secs. 6 and 13, Noise Control Act Pub. Law 92–574, 86 Stat. 1237 and 1244; (42 U.S.C. 4905 and 4912)).

Dated: August 8, 1977.

NORMAN D. SHUTLER,
Acting Assistant Administrator.

40 CFR Part 204 is amended as set forth below:

Subpart A—General Provisions

§ 204.4 [Amended]

1. Section 204.4, paragraph (b) is revised by deleting the words "Mobile Source Enforcement Division" and substituting the words "Noise Enforcement Division".

§ 204.5–7 [Amended]

2. Section 204.5–7 is revised by deleting the words "Mobile Source Enforcement Division (EN–340)" and substituting the words "Noise Enforcement Division (EN–387)".

Subpart B—Portable Air Compressors

§ 204.51 [Amended]

3. In § 204.51, paragraph (k) is amended by deleting the words "of the same category or configuration from which test samples are randomly drawn" and substituting the words "that are drawn from a batch".

§ 204.55–2 [Amended]

4. In § 204.55–2, paragraph (f) is amended by deleting the words "Mobile Source Enforcement Division" and substituting the words "Noise Enforcement Division".

§ 204.55–4 [Amended]

5. In § 204.55–4, paragraph (a) is amended by deleting the words "Mobile Source Enforcement Division (EN–340)" and substituting the words "Noise Enforcement Division (EN–387)".

§ 204.57–1 [Amended]

6. In § 204.57–1, paragraph (c) is revised by deleting the words "the batch selected for testing" and substituting the words "the batch from which sampling is to begin".

7. In § 204.57–5, a new paragraph (d) is added as follows:

§ 204.57–5 Reporting of test results.

* * * * * *

(d) All information required to be forwarded to the Administrator pursuant to this section shall be addressed to Director, Noise Enforcement Division (EN–387), U.S. Environmental Protection Agency, Washington, D.C. 20460.

§ 204.58–1 [Amended]

8. In § 204.58–1, paragraph (d) is revised by deleting the words "Mobile Source Enforcement Division (EN–340)" and substituting the words "Noise Enforcement Division (EN–387)".

§ 204.58–2 [Amended]

9. In § 204.58–2, paragraph (g) is revised by deleting the words "Mobile Source Enforcement Division (EN–340)" and substituting the words "Noise Enforcement Division (EN–387)".

§ 204.58–3 [Amended]

10. In § 204.58–3, paragraph (e) is revised by deleting the words "Mobile Source Enforcement Division (EN–340)" and substituting the words "Noise Enforcement Division (EN–387)".

(Sec. 6, 13 of the Noise Control Act of 1972 (42 U.S.C. 4905, 4912).)

[FR Doc.77–23941 Filed 8–17–77;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 1—FEDERAL PROCUREMENT REGULATIONS

[FPR Amdt. 180]

PART 1–4—SPECIAL TYPES AND METHODS OF PROCUREMENT

Unsolicited Proposals

Correction

In FR Doc. 77–22304 appearing at page 39215 in the issue for Wednesday, August 3, 1977, make the following corrections:

1. In the first line of § 1–4.900, third column, page 39215, delete the comma following "This subpart".

2. The comma at the end of the 12th line of § 1–4.906(c), third column, page 39216, should be a semicolon.

3. Preceding the paragraph beginning "Each agency shall establish uniform", which is the second full paragraph, first column, page 39217, add the following section heading:

§ 1–4.909 Receipt, review, and evaluation.

4. In the 10th line of § 1–4.909(d), first column, page 39217, insert an open parenthesis before "see § 1–4.913".

5. In the 13th line of § 1–4.909(d), top line, middle column, page 39217, "othe" should read "other".

V 42 160 AUG 18 77 UM

6. In the second line of § 1–4.909(d)(2), middle column, page 39217, "socio-economic" should read "socioeconomic".

7. In the fifth line of § 1–4.911, third column, page 39217, insert "of" between "notified" and "and".

8. The headings in the quoted clause in § 1–4.913(c), first column, page 39218, should read as follows:

UNSOLICITED PROPOSAL

USE OF DATA LIMITED

9. In the first paragraph of that quoted clause, the phrase "EXTREME CARE" in the second line, and the phrase "NOT DUPLICATED, USED, OR DISCLOSED" in the fifth line should be printed in capitals.

10. In the second line of the second paragraph of that clause, delete "the" which appears between "use" and "information".

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77-042]

DETAILED HAZARDOUS MATERIALS INCIDENT REPORTS

Reports and Forms

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the regulations governing the reports and forms used for incidents involving hazardous materials. These changes delete information requirements that are reported under other provisions of the Code of Federal Regulations. This change will eliminate reports of duplicate information.

EFFECTIVE DATE: This amendment is effective on August 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, (202) 426-1477.

SUPPLEMENTARY INFORMATION: Since these amendments are deleting superfluous reporting procedures, good cause exists for omitting notice and public procedure pursuant to 5 U.S.C. 553(b)(3)(B), and they can be made effective in less than 30 days after publication in the FEDERAL REGISTER under 5 U.S.C. 553(d)(3).

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Mr. Robert Query, Project Manager, Office of Merchant Marine Safety, and Lieutenant William R. Kerivan, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE REGULATION

The incidents being reported on Form 4752 are already covered under the casualty or accident reporting requirements of 46 CFR 35.15–1 and the procedures for notice of the discharge of oil, 33 CFR Part 153. Reports of incidents involving hazardous materials are also required in title 49 (49 CFR 171.15 and 171.16). Information received on Form 4752 is therefore superfluous, and the Coast Guard is cancelling the form.

In consideration of the foregoing, Chapter 1 of Title 46 of the Code of Federal Regulations is amended as follows:

PART 2—VESSEL INSPECTIONS

§ 2.20–65 [Deleted]

§ 2.20–70 [Deleted]

1. By deleting §§ 2.20–65 and 2.20–70.

PART 35—OPERATIONS

§ 35.15–13 [Deleted]

2. By deleting § 35.15–13.

PART 151—UNMANNED BARGES CARRYING CERTAIN BULK DANGEROUS CARGOES

§ 151.45–11 [Deleted]

3. By deleting § 151.45–11.

(R.S. 4405 as amended, R.S. 4462 as amended, R.S. 4417A as amended, R.S. 4472 as amended, Sec. 6(B)(1), 80 Stat. 937; 46 U.S.C. 170, 375, 391a, 416; 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b)).

Dated: August 9, 1977.

O. W. SILER,
Admiral, U.S. Coast Guard
Commandant.

[FR Doc.77-23942 Filed 8-17-77;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 20—MIGRATORY BIRD HUNTING

Early Seasons, Bag Limits, and Possession of Certain Migratory Game Birds in the Contiguous United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes the open seasons, shooting hours, areas, bag limits, and possession of certain migratory game birds, i.e., mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and gallinules and teal in September in the contiguous United States; sea ducks in certain defined areas of the Atlantic Flyway; sandhill cranes in designated portions of North Dakota and South Dakota; and migratory game birds in Alaska, Hawaii, Puerto Rico and the Virgin Islands. The taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The rules will permit taking of the designated species within specified periods of time beginning as early as September 1, as has been the case in past years, and benefit the public by relieving existing restrictions.

EFFECTIVE DATE: Effective on August 18, 1977.

FOR FURTHER INFORMATION CONTACT:

John P. Rogers, Chief, Office of Migratory Bird Management, Department of the Interior, 18th and C Streets, NW., Washington, D.C., telephone 202–343–8827.

SUPPLEMENTARY INFORMATION: The Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), as amended, authorizes and directs the Secretary of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds to determine when, to what extent, and by what means such birds or any part, nest, or egg thereof may be taken, hunted, captured, killed, possessed, sold purchased, shipped, carried, exported, or transported.

On March 10, 1977, the Service published for public comment in the FEDERAL REGISTER (42 FR 13311) proposals to amend 50 CFR Part 20, with a comment period ending May 18, 1977. That document dealt with minor modifications in § 20.11 of Subpart B, the addition of § 20.40 in Subpart D, and with establishment of seasons, limits and shooting hours for migratory game birds under §§ 20.101 through 20.107 of Subpart K. On May 25, 1977, the Service published for public comment in the FEDERAL REGISTER (42 FR 26669) a second document in the series consisting of supplemental proposed rulemaking dealing specifically with a number of supplemental or modified proposals and clarification or correction of minor portions of the earlier document. On July 5, 1977, the Service published in the FEDERAL REGISTER (42 FR 34305) a third document in the series consisting of final rulemaking dealing specifically with final frameworks from which wildlife conservation agency officials in Puerto Rico and the Virgin Islands could select season dates for hunting certain migratory birds in Puerto Rico and the Virgin Islands during the 1977–78 season. On July 5, 1977, the Service also published for public comment in the FEDERAL REGISTER (42 FR 34342) a fourth document in the series consisting of supplemental proposed rulemaking dealing specifically with proposed frameworks for early season migratory bird hunting regulations from which, when finalized, States could select season dates and daily bag and possession limits for the 1977–78 season. On July 22, 1977, the Service published in the FEDERAL REGISTER (42 FR 37552) a fifth document in the series consisting of final rulemaking dealing specifically with final frameworks (except shooting hours) for early season migratory bird hunting regulations in all States during the 1977–78 seasons from which States selected early season dates and daily bag and possession limits for the 1977–78 season. On July 15, 1977, the Service announced in a sixth document in the FEDERAL REGISTER (42 FR 36495) the availability of a draft environmental assessment on shooting hours and allowed a 10-day public comment period. On August 9, 1977, the Service published in the FEDERAL REGISTER (42 FR 40211 a seventh document in the series consisting of final rulemaking dealing specifically with final frameworks for shooting hours for early season migratory game bird hunting regulations in all States during the 1977–78 season. This document is the eighth in a series of proposed, supplemental, and final rulemaking documents for migratory game bird hunting regulations and deals specifically with amending Subpart K of 50 CFR 20 to set open hunting seasons, certain closed areas, shooting hours, and bag and possession limits for mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and gallinules; September teal seasons; sea ducks in certain defined areas of the Atlantic Flyway; sandhill cranes in designated portions of North Dakota and South Dakota; and migratory game birds in Alaska, Hawaii, Puerto Rico and the Virgin Islands.

PUBLIC HEARING

A public hearing was held in Washington, D.C., on June 21, 1977, as announced in the FEDERAL REGISTER on May 25, 1977 (42 FR 26709), in which proposed early season regulations were discussed. The public was invited to participate in the hearing and/or submit written statements. The Service summarized the statements received at this hearing in the FEDERAL REGISTER dated July 5, 1977 (42 FR 34306), under "Comments on Proposed Rulemaking," and listed Monitor among the organizations represented in the statements. The Service has since been informed that although an officer of Monitor was present and made a statement, the statement was made on behalf of other organizations and not Monitor. The Service hereby deletes Monitor from the list of represented organizations.

ENVIRONMENTAL REVIEW

The "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75–54)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the FEDERAL REGISTER on June 13, 1975 (40 FR 24241). The final environmental assessment on shooting hours (42 FR 40211; August 9, 1977) supplements the discussion on shooting hours in FES–75–54. Likewise, an environmental assessment on September dove hunting (42 FR 37552; July 22, 1977) supplements the discussion on dove hunting in FES–75–54.

COMPLIANCE WITH SECTION 7 OF THE ENDANGERED SPECIES ACT OF 1973

Compliance with the Endangered Species Act, insofar as early season regulations frameworks are concerned, was described in detail in the FEDERAL REGISTER dated July 22, 1977 (42 FR 37552). The Service's biological opinion resulting from its consultation under section 7 is considered a public document and is available for public inspection in the Office of Endangered Species at 1612 K Street, N.W., Room 1100, Washington, D.C., and the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior Building, Room 2243, 18th and C Streets, NW., Washington D.C. 2240 or may be obtained by mail from the addresses listed.

REGULATIONS PROMULGATION

After analysis of the migratory game bird survey data obtained through investigations conducted by the Service State conservation agencies, and other sources, and consideration of all comments received on the early proposals (42 FR 13311; March 10, 1977; 42 FR 26669; May 25, 1977; and 42 FR 34342; July 5, 1977) the Service published in the FEDERAL REGISTER on July 5, 1977 (42 FR 34305) final frameworks for Puerto Rico and the Virgin Islands, and on July 22, 1977 (42 FR 37552) final early season frameworks (except shooting hours) for the contiguous United States, Alaska and Hawaii. Final shooting hours frameworks for early seasons were published in the FEDERAL REGISTER on August 9, 1977 (42 FR 40211). Copies of the final frameworks were also sent to the officials of the State conservation agencies and to conservation agency officials in Puerto Rico and the Virgin Islands who were invited to submit recommendations for hunting seasons which complied with the shooting hours, daily bag and possession limits, season lengths and areas specified in the frameworks.

The taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The amendments will permit taking of the designated species within specified time periods beginning as early as September 1, as has been the case in past years, and benefit the public by relieving existing restrictions.

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, the Service is of the view that every attempt should be made to give the public the greatest possible opportunity to comment on the regulations. Thus, when the proposed rulemakings were published on March 10, May 25, July 5, and July 15, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that at the periods' close, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the Service is of the opinion that the printing and distribution of Federal and State regulatory announcements and leaflets would be delayed to the extent that hunters would not have regulatory information available prior to the beginning of the hunting seasons. The Service has determined that "good cause" exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these regulations will, therefore, take effect immediately upon publication.

DRAFTING INFORMATION

This final rulemaking was authored by Dr. John P. Rogers, Chief, Office of Migratory Bird Management.

Accordingly, each State conservation agency having had an opportunity to participate in selecting the hunting seasons desired for its State on those species of migratory birds for which open seasons are now to be prescribed, and consideration having been given to all other relevant matters presented, it is determined that certain sections of Title 50, Chapter I, Subchapter B, Part 20, Subpart K, are amended as follows:

1. Section 20.101 is amended to read as follows:

§ 20.101 Seasons, limits and shooting hours for Puerto Rico and the Virgin Islands.

Subject to the applicable provisions of the preceding sections of this part, the open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) *Puerto Rico.*

	Doves	Pigeons
Daily bag limit	10 singly or in the aggregate of all permitted species.	5 singly or in the aggregate of all permitted species.
Possession limit	10 singly or in the aggregate of all permitted species.	5 singly or in the aggregate of all permitted species.
Season dates	Sept. 3 to Nov. 1, 1977.	
Shooting hours	Sunrise to sunset daily.	

Restrictions: Only the following species of doves and pigeons may be hunted during the open season: Zenaida dove (*Tortola cardosantera*); White-winged dove (*Tortola alibianca o cubanita*); Mourning dove (*Tortola rabilarga o rabiche*); Scaly-naped pigeon (*Paloma turca o torcaz*).

No season is prescribed for pigeons on Puerto Rico and Mona Islands in order to give the reduced population of white-crown pigeon (*Columba leucocephala*), known locally as *Paloma cabecibianca*, a chance to recover.

No season is prescribed for doves and pigeons on Culebra Island and in those areas of the Municipalities of Rio Grande and Loiza delineated as follows: (1) all lands lying east of Route 186 (from the town of El Verde in the north to the southernmost extent of Route 186) to the boundary of the

V 42 160 AUG 18 77 UM

Luquillo Experimental Forest; (2) all lands between Route 186 and Route 956 extending from an east-west line through the town of El Verde, south; (3) all lands lying west of Route 186 for one (1) kilometer from the juncture of Routes 186 and 956 south to the southernmost point on Route 186; and (4) all lands within the Caribbean National Forest boundary, whether private or public lands; nor is there a season prescribed for doves and pigeons of any species in the Municipality of Cidra, Puerto Rico, said Municipality being composed of the following Wards: Bayamon, Arenas, Monte Llano, Sud, Beatriz, Ceiba, Rio Abajo, Rincon, Tolta, Honduras, Rabanel, and Salto.

Check Commonwealth regulations for additional restrictions.

(b) *Puerto Rico.*

	Ducks	Coots	Common gallinules	Common (Wilson's) snipe
Daily bag limits	4	6	6	6
Possession limit	8	12	12	12

Season dates..... Dec. 3, 1977, through Jan. 25, 1978.
Shooting hours... Sunrise until sunset daily.

Restrictions: No open season for waterfowl on Culebra Island. The season is closed for ruddy ducks (*Oxyura jamaicensis*) and purple gallinules (*Porphyrula martinica*). The season on Bahama pintail (*Anas bahamensis*) is closed by Commonwealth law.

Check commonwealth regulations for additional restrictions.

NOTE.—Local names for game birds: Ruddy duck (*Oxyura jamaicensis*)—Pato rojo (protected); Purple gallinule (*Porphyrula martinica*)—Gallareta azul (protected).

(c) *Virgin Islands.*

Open seasons—ducks, geese, cranes and snipe

Area	
Northern	State game management units: 11 to 13 and 17 to 26 . Sept. 1 to Dec. 16.
Gulf coast	State game management units: 5 to 7, 9, 14 to 16, and Unimak Island. Sept. 1 to Dec. 16.
Southeast	State game management units 1 to 4 . Sept. 1 to Dec. 16.
Aleutians	State game management unit 10 (except Unimak Island). Oct. 8 to Jan. 22.
Kodiak	State game management unit 8 Sept. 10 to Oct. 9 and Nov. 5 to Jan. 20

Daily bag and possession limits

Area	Ducks [1]	Geese [1]	Emperor Geese [2]	Brant	Common (Wilson's) snipe	Lesser sandhill (little brown) cranes
Northern	10–30	6–12	6–12	4–8	8–16	2–4
Gulf coast	8–24	6–12	6–12	4–8	8–16	2–4
Southeast	7–21	6–12	6–12	4–8	8–16	2–4
Aleutians	7–21	[3] 6–12	6–12	4–8	8–16	2–4
Kodiak	7–21	6–12	6–12	4–8	8–16	2–4

[1] In addition to the basic daily bag and possession limits, a daily bag limit of 15 and a possession limit of 30 is permitted singly or in the aggregate of the following species: scoter, eider, oldsquaw, harlequin, and American and red breasted mergansers.
[2] The daily bag and possession limits may not include more than 4 daily and 8 in possession of white-fronted and Canada geese, singly or in the aggregate. In addition to the daily bag and possession limits on other geese, the daily bag limit is 6 and the possession limit is 12 on emperor geese.
[3] No Canada geese may be taken in the Aleutian Islands west of Unimak Pass.

3. Section 20.103 is amended to read as follows:

§ 20.103 Seasons, limits, and shooting hours for mourning and white-winged doves and wild pigeons.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) *Mourning Doves—Eastern Management Unit*

Daily bag limit	12
Possession limit	24

Shooting hours: 12 noon until sunset.

	Zenaida dove (entire Virgin Islands)	Scaly-naped pigeon (St. Thomas Island only)
Daily bag limits	10	5
Possession limits	10	5

Season dates..... Sept. 1 through Oct. 30, 1977.
Shooting hours..... ½ hour before sunrise until sunset daily.

Restrictions: No open season is prescribed for waterfowl, ground or quail doves, or pigeons (except scaly-naped pigeons on St. Thomas Island) in the Virgin Islands.

Check territorial regulations for additional restrictions.

NOTE.—Local names for game birds: Zenaida dove (*Zenaida aurita*)—mountain dove; Bridled quail dove (*Geotrygon mystacea*)—Perdiz, Barbary dove (protected); Ground dove (*Columbina passerina*)— stone dove, tobacco dove, rola, tortolita (protected); Scaly-naped pigeon (*Columba squamosa*)—red-necked pigeon, scaly pigeon.

2. Section 20.102 is amended to read as follows:

§ 20.102 Seasons, limits, and shooting hours for Alaska.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

Shooting hours: One-half hour before sunrise to sunset daily.

Check state regulations for additional restrictions, including area descriptions.

Check State regulations for additional restrictions, including area descriptions.

Seasons in:

Alabama:	
North zone [1]	Sept. 17–Nov. 2 and Dec. 23–Jan. 14.
South zone [1]	Oct. 8–Dec. 16.
Connecticut	Closed.
Delaware	Sept. 10–Oct. 1 and Nov. 21–Dec. 10 and Dec. 19–Jan. 14.
Florida	Oct. 1–Oct. 30 and Nov. 12–Nov. 27 and Dec. 17–Jan. 9.
Georgia:	
North zone [2]	Sept. 3–Oct. 8 and Dec. 12–Jan. 14.
South zone [2]	Oct. 1–Nov. 5 and Dec. 12–Jan. 14.
Illinois	Sept. 1–Nov. 9.
Indiana	Closed.
Kentucky	Sept. 1–Oct. 31 and Dec. 10–Dec. 18.
Louisiana:	
North zone [3]	Sept. 3–Sept. 18 and Oct. 15–Nov. 13 and Dec. 17–Jan. 9.
South zone [3]	Oct. 15–Nov. 27 and Dec. 17–Jan. 11.
Maine	Closed.
Maryland	Sept. 1–Oct. 15 and Nov. 16–Dec. 10.
Massachusetts	Closed.
Michigan	Closed.
Mississippi:	
North zone [4]	Sept. 3–Sept. 25 and Nov. 5–Nov. 27 and Dec. 10–Jan. 2.
South zone [4]	Sept. 24–Oct. 16 and Nov. 5–Nov. 27 and Dec. 10–Jan. 2.

[1] In Alabama, the south zone is defined as that area lying south of U.S. Highway 84 running east to the Covington County line, and including Coffee, Covington, Dale, Geneva, Henry, and Houston Counties. The north zone consists of the remainder of Alabama.
[2] In Georgia, the north zone is defined as that area lying north of U.S. Highway 280 east to Abbeville, thence along Ocmulgee and Altamaha Rivers to the Atlantic Ocean. The south zone consists of the remainder of Georgia.
[3] In Louisiana, the north zone is defined as that area lying north of Interstate Highway 10 from the Texas State line to Baton Rouge, Interstate Highway 12 from Baton Rouge to Slidell, and Interstate Highway 10 from Slidell to the Mississippi State line. The south zone consists of the remainder of Louisiana.
[4] In Mississippi, the north zone is defined as that area lying north of State Highway 12 from Arkansas line to Kosciusko, and State Highway 14 from Kosciusko to the Alabama State line. The south zone consists of the remainder of Mississippi.

Seasons in—Continued

New Hampshire	Closed.
New Jersey	Closed.
New York	Closed.
North Carolina	Sept. 3–Oct. 15 and Dec. 19–Jan. 14.
Ohio	Closed.
Pennsylvania	Sept. 1–Nov. 9.
Rhode Island	Sept. 19–Nov. 27.
South Carolina	Sept. 3–Oct. 8 and Nov. 19–Nov. 26 and Dec. 20–Jan. 14.
Tennessee	Sept. 1–Sept. 30 and Oct. 8–Oct. 16 and Dec. 16–Jan. 15.
Vermont	Closed.
Virginia	Sept. 10–Nov. 5 and Dec. 21–Jan. 2.
West Virginia	Sept. 1–Oct. 31 and Dec. 26–Jan. 3.
Wisconsin	Closed.

(b) Mourning doves—central management unit.

Daily bag limit	10
Possession limit	20

Shooting hours: One-half hour before sunrise until sunset daily except as noted otherwise.

Check state regulations for additional restrictions, including area descriptions.

Seasons in:

Arkansas	Sept. 1–Oct. 5 and Dec. 15–Jan. 8.
Colorado	Sept. 1–Oct. 30.
Iowa	Sept. 3–Sept. 25.
Kansas	Sept. 1–Oct. 30.
Minnesota	Closed.
Missouri	Sept. 1–Oct. 30.
Montana	Closed.
Nebraska (shooting hours—15 min. before sunrise until sunset)	Sept. 1–Oct. 15.
New Mexico [1]	Sept. 1–Sept. 30 and Nov. 24–Dec. 23.
North Dakota	Closed.
Oklahoma	Sept. 1–Sept. 30 and Dec. 1–Dec. 30.
South Dakota	Closed.

[1] In New Mexico, the daily bag limit is 10 and the possession limit is 20 white-winged and mourning doves, singly or in the aggregate of these species.

Seasons in—Continued

Texas: [2]	
North zone (Counties of Kinney, Val Verde, Terrell, Brewster, Presidio, Jeff Davis, Culberson, Hudspeth, and El Paso) shooting hours:	
12 noon until sunset	Sept. 3, 4, 10, 11.
½ hr before sunrise until sunset	Sept. 1–2, 5–9, Sept. 12–Oct. 30.
Remainder of north zone shooting hours: ½ hr. before sunrise until sunset	Sept. 1–Oct. 30.
South zone (Counties of Cameron, Willacy, Hidalgo, Starr, Zapata, Webb, and Maverick) shooting hours:	
12 noon until sunset	Sept. 3, 4, 10, 11.
½ hr before sunrise until sunset	Sept. 24–Nov. 2 and Dec. 31–Jan. 15.
Remainder of south zone shooting hours: ½ hr. before sunrise until sunset	Sept. 24–Nov. 6 and Dec. 31–Jan. 15.

[2] In Texas, the north zone consists of the Counties of Kinney, Uvalde, Medina, Bexar, Comal, Hays, Travis, Williamson, Milam, Robertson, Leon, Houston, Cherokee, Nacogdoches, and Shelby and all counties north and west thereof. The southern zone consists of all counties south and east of the north zone.

Seasons in—Continued

Wyoming	Sept. 1–Sept. 30.

(c) *Mourning Doves—Western Management Unit.*

Daily bag limit	10
Possession limit	20

Shooting hours: One-half hour before sunrise until sunset.

Check State regulations for additional restrictions, including area descriptions.

Seasons In:

Arizona	Sept. 1–Sept. 25 and Dec. 10–Jan. 3.
California [1]	Sept. 1–Sept. 30 and Nov. 19–Dec. 4.
Idaho	Sept. 1–Sept. 18.
Nevada [1]	Sept. 1–Oct. 20.
Oregon	Sept. 1–Sept. 30.
Utah	Sept. 1–Sept. 30.
Washington	Sept. 1–Sept. 30.

[1] In those counties of California and Nevada having an open season on white-winged doves, the daily bag limit is 10 and the possession limit is 20 mourning and white-winged doves, singly or in the aggregate of these species.

NOTICE.—Hawaii—Subject to the applicable provisions of the preceding sections of this part, mourning doves may be taken in accordance with State regulations.

(d) *White-winged Doves.*

Shooting hours: All States except Texas—One-half hour before sunrise until sunset. Texas only—12 noon until sunset.

Check State regulations for additional restrictions, including area descriptions.

Washington	Sept. 1–Sept. 30.	5	5

[1] Every hunter must have been issued and carry on his person while hunting band-tailed pigeons a properly validated special band-tailed pigeon hunting permit issued by the State conservation agency of each respective State for the open season in that State. Such a special bandtailed pigeon hunting permit will be issued upon application to the State conservation agency of the State in which hunting is to be done. Permits issued by any State will be valid in that State only. This season shall be open only in the areas described, delineated, and designated as such by the States of Arizona, Colorado, New Mexico, and Utah in their respective hunting regulations.
[2] In New Mexico the North zone is defined as that area lying north and east of a line following U.S. Highway 60 from the Arizona State line east to Interstate Highway 25 at Socorro and then south along Interstate Highway 25 to the Texas State line. The South zone is defined as that area lying south and west of the North zone.

4. Section 20.104 is amended to read as follows:

§ 20.104 Seasons, limits, and shooting hours for rails, woodcock, and common (Wilson's) snipe.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (date inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

	Rails (Sora and Virginia)	Rails (Clapper and King)	Woodcock	Common snipe (Wilson's)
Daily bag limits	[1] 25	See footnote 2	5	8
Possession limits	[1] 25	See footnote 2	10	16
Shooting Hours	½ hour before sunrise until sunset daily on all species, except as noted otherwise.

Snipe seasons have been deferred by all other States in the Pacific flyway. Consult waterfowl regulations to be published later for information concerning these seasons.

[1] The bag and possession limits for sora and Virginia rails apply singly or in the aggregate of these 2 species.
[2] In addition to the limits on sora and Virginia rails, in the States of Connecticut, Delaware, Maryland, New Jersey, and Rhode Island, there is a daily bag limit of 10 and possession limit of 20 clapper and king rails, singly or in the aggregate of these 2 species, and in the States of Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Texas, and Virginia, there is a daily bag limit of 15 and possession limit of 30 clapper and king rails, singly or in the aggregate of these 2 species.
[3] For description of zones or management units within a State, see the State's regulations.
[4] In Michigan, in the Counties of Arenac, Bay, Huron, Macomb, Monroe, St. Clair, Tuscola, and Wayne, and adjacent Great Lakes and connecting waters, the snipe season shall open concurrently with the duck season and shall run continuously in all areas through November 13.
[5] Seasons apply to central flyway portion of State only.

NOTE.—Some States may select rail, woodcock, and snipe seasons at the time they select their duck seasons in August. Consult waterfowl regulations to be published later for information concerning these seasons.

5. Section 20.105 is amended to read as follows:

§ 20.105 Seasons, limits, and shooting hours for waterfowl, coots, and gallinules.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) *Sea Ducks.* (1) An open season for taking scoter, eider, and oldsquaw ducks is prescribed according to the following table during the period between September 18, 1977, and January 20, 1978, in all coastal waters and all waters of rivers and streams seaward from the first upstream bridge in the States of Maine, New Hampshire, Massachusetts, Rhode Island, and Connecticut; in those coastal waters of the State of New York lying in Long Island and Block Island Sounds and associated bays eastward from a line running between Miamogue Point in the Town of Riverhead to Red Cedar Point in the Town of Southampton, including any ocean waters of New York lying south of Long Island; in any waters of the Atlantic Ocean and, in addition, in any tidal waters of any bay which are separated by at least one mile of open water from any shore, island, and emergent vegetation in the States of New Jersey, South Carolina, and Georgia; and in any waters of the Atlantic Ocean and/or in any tidal waters of any bay which are separated by at least 800 yards of open water from any shore, island, and emergent vegetation in the States of Delaware, Maryland, North Carolina, and Virginia: *Provided*, That any such areas have been described, delineated, and designated as special sea duck hunting areas under the hunting regulations adopted by the respective States. In all other areas of these States and in all other States in the Atlantic Flyway, sea ducks may be taken only during the regular open season for ducks.

(2) The daily bag limit is 7 and the possession limit 14, singly or in the aggregate of these species. During the regular duck season in the Atlantic Flyway, States may set in addition to the limits prescribed for such seasons a daily bag limit of 7 and possession limit of 14 scoter, eider, and oldsquaw ducks, singly or in the aggregate of these species.

(3) Shooting hours are one-half hour before sunrise until sunset daily.

Check State regulations for additional restrictions.

Seasons in:	
Connecticut	Sept. 24–Nov. 22.
Delaware	Oct. 1–Jan. 14.
Georgia	Deferred.
Maine	Sept. 26–Jan. 10.
Maryland	Deferred.
Massachusetts	Sept. 24–Jan. 7.
New Hampshire	Sept. 18–Jan. 2.
New Jersey	Deferred.
New York	Sept. 22–Jan. 6.
North Carolina	Deferred.
Rhode Island	Deferred.
South Carolina	Deferred.
Virginia	Deferred.

(4) Notwithstanding the provisions of this Part 20, the shooting of *crippled* waterfowl from a motorboat under power will be permitted in the States of Maine, Massachusetts, New Hampshire, Rhode Island, Connecticut, New York, Delaware, Virginia, and Maryland in those areas described, delineated, and designated in their respective hunting regulations as being open to sea duck hunting.

NOTE.—States with deferred seasons may select sea duck seasons at the time they select their waterfowl seasons in August. Consult waterfowl regulations to be published later for information concerning these later seasons.

(b) *Teal.* September season: An open season for teal ducks (blue-winged, green-winged and cinnamon) is prescribed according to the following table in those areas which are described, delineated, and designated in the hunting regulations of the following States:

Daily bag limit	4
Possession limit	8

Shooting hours: Sunrise until sunset daily.
Check State regulations for additional restrictions.

Seasons in the Mississippi flyway:	
Alabama	Sept. 10–Sept. 18.
Arkansas	Sept. 17–Sept. 25.
Illinois	Sept. 10–Sept. 18.
Indiana [1]	Sept. 10–Sept. 18.
Kentucky	Sept. 3–Sept. 11.
Louisiana	Sept. 17–Sept. 25.
Mississippi	Sept. 10–Sept. 18.
Missouri	Sept. 10–Sept. 18.
Ohio	Sept. 2–Sept. 10.
Tennessee	Sept. 17–Sept. 25.
Seasons in the Central flyway:	
Colorado [2]	Sept. 3–Sept. 11.

[1] In Indiana the shooting hours are from sunrise to 6 p.m., e.s.t. The Kankakee, LaSalle and portions of Jasper-Pulaski, Pigeon River, Hovey Lake and Atterbury Fish and Wildlife Areas are closed to teal hunting by State regulations.

V42160 AUG 18 77 UM

Seasons in the Central flyway—Continued	
Kansas [3]	Sept. 10–Sept. 18.
New Mexico [4]	Sept. 17–Sept. 25.
Oklahoma	Sept. 10–Sept. 18.
Texas	Sept. 10–Sept. 18.

[2] Only in Lake and Chaffee Counties, and that portion of Colorado east of U.S. Highway 85 from the Wyoming State line to Denver and Interstate Highway 25 from Denver to the New Mexico State line.

[3] The entire State is open except the Marais des Cygnes Waterfowl Management Area in Linn County and the Neosho Waterfowl Management Area in Neosho County.

[4] Central flyway portion only.

(c) *Gallinules.*

Daily bag limit	15
Possession limit	30

Shooting hours: One-half hour before sunrise to sunset.

Check State regulations for additional restrictions.

Seasons in the Atlantic flyway:	
Connecticut	Sept. 1–Nov. 9.
Delaware	Sept. 1–Nov. 9.
Florida [1]	Sept. 1–Nov. 9.
Georgia	Deferred.
Maine	Sept. 1–Nov. 9.
Maryland	Sept. 1–Nov. 9.
Massachusetts	Sept. 1–Nov. 5.
New Hampshire	Closed.
New Jersey	Sept. 1–Nov. 9.
New York	Sept. 1–Nov. 9.
North Carolina	Sept. 1–Nov. 9.
Pennsylvania	Sept. 1–Nov. 9.
Rhode Island	Sept. 19–Nov. 27.
South Carolina	Sept. 10–Nov. 18.
Vermont	Sept. 24–Nov. 27.
Virginia	Deferred.
West Virginia	Deferred.
Seasons in the Mississippi flyway:	
Alabama	Nov. 12–Jan. 20.
Arkansas	Nov. 7–Jan. 15.
Illinois	Deferred.
Indiana	Sept. 1–Nov. 9.
Iowa	Closed.
Kentucky	Nov. 12–Jan. 20.
Louisiana	Sept. 17–Nov. 25.
Michigan	Deferred.
Minnesota	Deferred.
Mississippi	Oct. 29–Jan. 6.
Missouri	Sept. 1–Nov. 9.
Ohio	Sept. 2–Nov. 10.
Tennessee	Deferred.
Wisconsin	Deferred.
Seasons in the Central flyway:	
Colorado [2]	Closed.
Kansas	Closed.
Montana [2]	Closed.
Nebraska	Closed.
New Mexico [2]	Deferred.
North Dakota	Closed.
Oklahoma	Sept. 1–Nov. 9.
South Dakota	Closed.
Texas	Sept. 1–Nov. 9.
Wyoming [2]	Closed.
Seasons in the Pacific flyway: All States and portions thereof	Deferred.

[1] The gallinule season in Florida applies to the common gallinule only. No open season on purple gallinules in Florida.

[2] Seasons apply to central flyway portion of State only.

NOTE.—States with deferred seasons may select gallinule seasons at the time they select their waterfowl seasons in August. Consult waterfowl regulations to be published later for information concerning these later seasons.

* * * * *

6. Section 20.106 is amended as follows:

§ 20.106 Seasons, limits, and shooting hours for lesser sandhill (little brown) cranes.

Subject to the applicable provisions of the preceding sections of this part, open seasons are prescribed for taking lesser sandhill (little brown) cranes with a daily bag limit of three and a possession limit of six, and with shooting hours from one-half hour before sunrise until sunset, in the following areas for the dates indicated:

* * * * *

(d) In the North Dakota counties of Kidder, Stutsman, Benson, Emmons, Pierce, McLean, Sheridan, and Burleigh, and in the South Dakota counties of Campbell, Walworth, Potter, Dewey, and Corson, the season dates are September 7 through September 11, 1977.

* * * * *

(g) Every hunter participating in the lesser sandhill (little brown) crane hunting season must obtain and carry in his possession while hunting lesser sandhill cranes a Federal lesser sandhill crane hunting permit available without cost from conservation agencies in the States where crane hunting seasons are allowed. The permit must be displayed to an authorized law enforcement official upon request.

* * * * *

7. Section 20.109 is added as follows:

§ 20.109 Extended seasons, limits, and hours for taking migratory game birds by falconry.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the hawking hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

Daily bag limits: [1]	
Waterfowl (ducks, geese, and mergansers)	2 singly or in the aggregate.
Coots, gallinules, rails, snipe, woodcock, doves and pigeons only	4 singly or in the aggregate.
Possession limits:	
Waterfowl (ducks, geese, and mergansers)	4 singly or in the aggregate.
Coots, gallinules, rails, snipe, woodcock, doves and pigeons only	8 singly or in the aggregate.

Hawking hours: One-half hour before sunrise until sunset daily.

Check State regulations for additional restrictions.

Seasons in:	
Maryland: Mourning doves only	Dec. 12–Jan. 15.
Virginia:	
Mourning doves	Nov. 26–Dec. 20 and Jan. 3–14.
Rails (Clapper, King, Sora and Virginia)	Nov. 19–Dec. 24.
Indiana:	
Ducks, coots, mergansers	Deferred.
Gallinules	Nov. 10–Dec. 16.
Rails	Nov. 10–Dec. 16.
Snipe	Nov. 28–Dec. 16.
Woodcock	Sept. 1–Sept. 23 and Nov. 28–Dec. 16.
Idaho: Mourning doves only	Sept. 19–Oct. 20.

[1] Daily bag and possession limits for falconry will vary depending upon whether the regular season for the species being sought is open at the time of hunting. Falconry is a permitted means of taking designated migratory game birds. When regular seasons are open, regular bag limits will apply to taking by falconry. When the regular season is closed for a species, but the special falconry season is open, bag limits set for the special falconry season will apply.

ECONOMIC IMPACT REVIEW

NOTE.—The Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 5, 1977.

LYNN A. GREENWALT,
Director, U.S. Fish and Wildlife Service.

[FR Doc.24093 Filed 8-17-77;8:45 am]

PART 32—HUNTING

Opening of Lostwood National Wildlife Refuge, North Dakota, to Hunting of Sharp-Tailed Grouse and Hungarian Partridge

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to hunting of sharp-tailed grouse and Hungarian partridge on a portion of Lostwood National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: September 17, 1977, through December 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles S. Peck, Project Leader, Des Lacs NWR, Kenmare, North Dakota 58746. (701-385-4046)

SUPPLEMENTARY INFORMATION:

§ 32.22 Special regulations; upland game; for individual wildlife refuges.

Public hunting of sharp-tailed grouse and Hungarian partridge on the Lostwood National Wildlife Refuge, North Dakota, is permitted only on that area designated by signs as open to hunting during the 1977 State Game and Fish Department grouse and partridge season. The open area, comprising 4,720 acres during the period prior to deer gun season and 26,101 acres during the remainder of the grouse and partridge season following deer gun season, is delineated on maps available at the refuge headquarters, Kenmare, North Dakota, and from the Area Manager, U.S. Fish and Wildlife Service, Bismarck, North Dakota 58501. Hunting shall be in accordance with all applicable State regulations and the following special conditions.

1. Vehicle travel is restricted to public highways and the refuge entrance road from State Highway No. 8 to refuge headquarters. All other refuge roads and trails are closed to vehicles.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas, generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 11, 1977.

NOTE.—The Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

ROLLAND J. KRIEGER,
Acting Project Leader, Des Lacs National Wildlife Refuge Complex.

AUGUST 11, 1977.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 927]

BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON AND CALIFORNIA

Proposed Extension of Effective Period for Minimum Grade, Quality and Size Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice proposes to continue through June 30, 1978, the currently effective grade, quality, and size regulation on Beurre D'Anjou variety winter pears shipped from Oregon (except the Medford District), Washington, and California. These requirements are necessary to assure that pears shipped will be of suitable quality and size in the interest of consumers and producers.

EFFECTIVE DATE: Written comments must be received by September 9, 1977. Proposed effective date August 8, 1977, through June 30, 1978.

ADDRESSES: Comments may be addressed to: Hearing Clerk, United States Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250. Two copies of all written comments should be submitted, and they will be made available for public inspection from the office of the Hearing Clerk during regular business hours (7 CFR 1.27 (b)).

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250; 202-447-3545.

SUPPLEMENTARY INFORMATION: Pear Regulation 16 (§ 927.316; 42 FR 39670) sets forth the currently effective grade, quality, and size requirements on the handling of Beurre D'Anjou variety of winter pears. This regulation is effective through September 30, 1977. This proposal would continue that regulation through June 30, 1978, except a requirement relative to core temperature and pressure tests on pears shipped from designated districts would be continued only until November 1, 1977. Under the regulation Beurre D'Anjou pears must grade at least U.S. No. 2 and be not smaller than 165 size. However, any handler may ship a quantity of 180 size that grade at least U.S. No. 1, provided such quantity does not exceed 2 percent of his total shipment grading U.S. No. 1, or better. In addition, pears with unhealed skin punctures not exceeding 3/16 inches may be shipped.

The proposed regulation was recommended by the Control Committee under § 927.50 of the marketing agreement and Order No. 927 (7 CFR Part 927), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne Du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal is to amend § 927.316 (42 FR 39670) to read as follows:

§ 927.316 Pear Regulation 16.

(a) During the period August 8, 1977, through June 30, 1978, no handler shall ship any Beurre D'Anjou variety of pears, except such variety grown in the Medford District, unless such pears meet the following requirements or are handled in accordance with paragraph (b) of this section: *Provided*, That, any Beurre D'Anjou pears shipped from the Medford District shall meet the requirements of subparagraph (2) of this paragraph.

(1) Beurre D'Anjou pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2 except that any handler may ship a quantity of Beurre D'Anjou pears that are not smaller than 180 size and not less than U.S. No. 1 grade which quantity shall not exceed 2 percent of the total U.S. No. 1 or better grades of such variety shipped by the handler, during the aforesaid period: *Provided*, That, pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size: *Provided, Further*, That, pears of such variety which fail to meet the U.S. No. 2 grade requirements only because of serious damage but not very serious damage caused by healed hail marks or by frost, may be shipped if the shape of the pear is such that it will cut at least one good half;

(2) Buerre D'Anjou pears shipped from the Medford, Hood River-White Salmon-Underwood, Wenatchee, and Yakima Districts through November 1, 1977, shall have an appropriate certification by the Federal-State Inspection Service, issued prior to shipment, showing that the core temperature of such pears has been lowered to 35 degrees Fahrenheit or less and any such pears for domestic shipment shall have an average pressure test of 14 pounds or less.

(b) During the aforesaid period, each handler may ship on any one conveyance up to, but not to exceed, 200 standard western pear boxes of Beurre D'Anjou variety of pears, or an equivalent quantity of pears in other containers computed by weight to the nearest 5 pounds, without regard to the inspection requirements of § 927.60(a), under the following conditions:

(1) Each handler desiring to make shipments of Beurre D'Anjou variety of pears pursuant to this paragraph shall first apply to the committee, on forms furnished by the committee, for permission to make such shipments. At the time of any such shipment the handler shall report to the committee on forms furnished by the committee, the car or truck number and the destination of the shipment.

(2) On the basis of such individual reports the committee shall require spot check inspection of such shipments.

(c) When used herein, "U.S. No. 1" and "U.S. No. 2" shall have the same meaning as when used in the United States Standards for Winter Pears (7 CFR 51.1300–51.1323); "135 size," "165 size," and "180 size," shall mean that the pears of such designated sizes will pack, in accordance with the sizing and packing specifications of a standard pack as specified in said United States Standards, 135, 165, or 180 pears, respectively, in a standard western pear box (inside dimensions 18 inches long by 11½ inches wide by 8½ inches deep); and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 15, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77-23944 Filed 8-17-77;8:45 am]

[7 CFR Part 993]

DRIED PRUNES PRODUCED IN CALIFORNIA

Proposed Undersized Regulation and Salable and Reserve Percentages for the 1977–78 Crop Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal would: (1) Establish salable and reserve percentages of 100 percent and 0 percent, respectively, for the 1977–78 crop year; and (2) establish an undersized prune regulation for prunes received by handlers from producers and dehydrators during the 1977–78 crop year. The intended effect of the proposal would be to remove the smallest and hence, the least desirable, prunes from the 1977 crop.

DATES: Written comments to this proposal must be received by September 9, 1977.

ADDRESSES: Written comments should be submitted in duplicate to the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 202–447–3545.

SUPPLEMENTARY INFORMATION: This proposal was recommended by the Prune Administrative Committee. The Committee is established under the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The Committee's recommendations are based on its estimate that California's 1977 dried prune production would approximate 156,560 tons (processed weight), and that carryin on August 1, 1977, the beginning of the 1977–78 crop year, of salable prunes from 1977 production would be about 25,000 tons.

The estimated 1977 production, coupled with the estimated carryin would result in a supply exceeding 1977–78 trade demand for prunes by about 11,560 tons. However, the Committee recommended no volume regulation for the 1977–78 crop year. Instead, it recommended establishment of an undersized regulation applicable to all prunes received by handlers from producers and dehydrators during that crop year. The objective of the undersized regulation would be to remove the smallest—i.e., the least desirable—prunes from the 1977 crop. Handlers cannot market undersized prunes for human consumption, but can dispose of them in nonhuman consumption outlets such as livestock feed. The Committee estimated that the proposed undersized regulation would reduce the apparent excess of about 11,560 tons by approximately 6,262 tons, still leaving sufficient prunes to fulfill foreign and domestic trade demand during the 1977–78 crop year, and provide an adequate carryout on July 31, 1978.

Under the proposal, French variety prunes which pass freely through a screet opening $^{23}/_{32}$ of an inch in diameter would be classified as undersized prunes. For non-French prunes, the opening would be $^{28}/_{32}$ of an inch in diameter.

§ 993.404 Undersized prune regulation for the 1977–78 crop year.

The proposals follow:

1. Salable and reserve percentages for the 1977–78 crop year.

§ 993.213 Salable and reserve percentages for prunes for the 1977–78 crop year.

The salable and reserve percentages for the 1977–78 crop year shall be 100 percent and 0 percent, respectively.

2. The proposed undersized prune regulation for the 1977–78 crop year is as follows:

§ 993.404 Undersized prune regulation for the 1977–78 crop year.

Pursuant to §§ 993.49(c) and 993.52, an undersized prune regulation for the 1977–78 crop year is hereby established. Undersized prunes are prunes which pass freely through round openings as follows: For French prunes, $^{23}/_{32}$ of an inch in diameter; for non-French prunes, $^{28}/_{32}$ of an inch in diameter.

NOTE.—It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A–107.

Dated: August 15, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 450]

ENERGY MEASURES AND ENERGY AUDITS

Proposed Revision To The Energy Measures List

AGENCY: Federal Energy Administration.

ACTION: Notice of proposed rulemaking and comment period for revision of energy measures list.

SUMMARY: After consultation with the Secretary of Housing and Urban Development, the Federal Energy Administration (FEA) proposes to revise the list of energy conservation measures and renewable-resource energy measures published as a final rule in the FEDERAL REGISTER on July 25, 1977, by changing the designation of an air source heat pump and a water source heat pump from a renewable-resource energy measure to an energy conservation measure. FEA also proposes to reduce the numerical values for the Table of Climatic Factors for an air source heat pump without, however, changing the calculation procedure.

DATE: Comments by September 16, 1977, 4:30 p.m., e.d.t.

ADDRESS: Comments to: Room 3317, Federal Energy Administration, Box OR, Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Comment Procedures: Bruce Hantke, FEA, Executive Communications, room 3317, 1200 Pennsylvania Ave., NW., Washington, D.C. 20461, 202–566–9437.

Media Relations: Jim Merna, FEA, Office of Communications and Public Affairs, room 3104, 1200 Pennsylvania Ave., NW., Washington, D.C. 20461, 202–566–9833.

Program Office For Energy Conservation Measures: Allen Jaisle, FEA, Office of Conservation, room 5317, 1200 Pennsylvania Ave., NW., Washington, D.C. 20461, 202–566–7263.

Program Office For Renewable-Resource Energy Measures: John Pulice, FEA, Office of Energy Resource Development, room 1433, 1200 Pennsylvania Ave., NW., Washington, D.C 20461, 202–566–6192.

SUPPLEMENTARY INFORMATION:

1. Explanation of Revisions.
2. Comment Procedures.
3. Coordination with Outside Parties and Environmental and Inflationary Review.

1. EXPLANATION OF REVISIONS

On July 15, 1977, the Federal Energy Administration (FEA) issued by final rule a list of energy conservation and renewable-resource energy measures (energy measures). This final rule amended Part 450, Chapter II of Title 10, Code of Federal Regulations (CFR) and was published in the FEDERAL REGISTER on July 25, 1977, 42 FR 37795. FEA developed this list, after consultation with the Secretary of Housing and Urban Development, in accordance with Section 432(d), 42 U.S.C. 6325(e)(1), of the Energy Conservation and Production Act (Act) Pub. L. 94–385, 90 Stat. 1125 et seq. Section 432 amends Part C of Title III of the Energy Policy and Conservation Act (EPCA), 42 U.S.C. 6321–6326.

FEA has reconsidered the designation of an air source heat pump and a water source heat pump as a renewable-resource energy measure, as provided in paragraphs (b) and (c) of § 450.33. Water and air source heat pumps were designated as renewable-resource energy measures because ambient air or water heated by solar energy provides a nondepletable source of energy for part of the energy consumed by a heat pump and, in proper applications, a heat pump can result in electricity savings sufficient to achieve cost recovery. Accordingly, both modifications satisfy the requirements of the Act pertaining to a renewable-resource energy measure. However,

V42160 AUG 18 77 UM

on the basis of further evaluation, FEA finds such a designation could be misleading to the public and discourage its use in appropriate applications.

FEA has determined that a necessary consideration for designating a modification as a renewable-resource energy measure is the proportion of energy derived from a nondepletable energy source relative to the total energy consumed in the renewable-resource operating mode, that is, excluding backup energy supplied from a depletable energy source.

For all the renewable-resource energy measures listed in § 450.33 with the exception of heat pumps, this proportion of nondepletable energy to total energy consumption in the renewable-resource operating mode is typically very high, above 80% to 90%. A typical heat pump with a coefficient of performance of 2.0 derives 50% of the total energy consumed from a nondepletable energy source when operating in the renewable-resource mode, not considering backup energy. This proportion can vary from 23% to 68% for coefficients of performance which range from 1.3 to 3.1 for commercially available heat pumps.

Because of their extent of dependence on depletable energy sources, FEA believes that designation of an air or water source heat pump as a renewable-resource energy measure deemphasizes the importance of encouraging development of modifications which utilize nondepletable energy in substitution for depletable energy sources. Although the Act authorizes FEA to classify a modification as a renewable-resource energy measure even if it replaces a depletable energy source only in part, FEA now considers the partial replacement provided by a heat pump to be insufficient.

To be considered as a renewable-resource energy measure, a modification should bring about a relatively large replacement of a depletable energy source. So that it will not prejudge the effectiveness of new technology, at the persent time, FEA will not establish a minimum replacement percentage for designating a renewable-resource energy measure. However, the performance of a heat pump in this regard is inadequate, and this determination can provide some guidance while permitting FEA to consider a modification employing renewable-resource energy on its own merits.

Heat pumps, however, are likely in appropriate applications to provide sufficient cost and energy savings to qualify for designation as an energy conservation measure. FEA has determined that with respect to an air or water source heat pump cost recovery is likely and, in appropriate applications, the primary purpose criteria for an energy conservation measure are satisfied. FEA also finds that proper use of a heat pump will not result in an ineligible fuel conversion, except that an oil or gas fired heat pump could not replace an electrical resistance heating system. This limitation does not extend to a renewable-resource energy measure. However, FEA believes it is unnecessary to address this issue in this proposal because, at the present time, there is no oil or gas fired heat pump commercially available. Also designation of a heat pump as an energy conservation measure does not alter the cost recovery calculation previously employed by FEA because FEA found its useful life to be limited to 15 years. However, should improvements in technology in the future increase the useful life of a heat pump to exceed 15 years, then this proposed redesignation would limit cost recovery to that achievable in 15 years, because the Act limits cost recovery to 15 years for an energy conservation measure although up to 25 years may be used for a renewable-resource measure.

As in the final rulemaking, FEA continues to require a verification energy audit for a water source heat pump. Again, FEA proposes to retain a formula calculation for specified applications of an electric air source heat pump as in the final rulemaking but all other applications still require a verification energy audit. Accordingly, FEA proposes to amend § 450.32 to include these provisions without changing their effect except in one respect.

More current information on the performance of the air source heat pump has been obtained from the Energy Research and Development Administration (ERDA) since the issuance of the final rulemaking. FEA has readjusted the seasonal coefficient of performance (SPF) downward based on this additional information. Thus, FEA proposes to revise the numerical values used in the Table of Climatic Factors in § 450.34(c) to reflect the most current estimate of the SPF.

The table below shows the SPF's by heating zone for the electric air source heat pump on which cost recovery calculations are based:

	Regulation	Proposed revision
Heating zone:		
0	2.50	2.00
1	2.42	1.64
2	2.13	1.58
3	2.09	1.40
4	1.60	1.18
5	1.51	1.05

FEA is particularly interested in receiving comments on the appropriate SPF's for air source heat pumps.

The procedure used to calculate the SPF's of air source heat pumps developed for the regulation is the method specified in the National Bureau of Standards publication entitled Unitary Heat Pump Specification for Military Housing (NBSIR 76–1029). This document uses the "bin method" of calculating heating season SPF for air source heat pumps. This procedure is also detailed in the Proceedings of the Conference on Improving Efficiency and Performance of HVAC Equipment and Systems for Commercial and Industrial Buildings, held April 12–14, 1976, at Purdue University, in an article by Charles W. Erlandson, entitled "A Method for Calculating Commercial Seasonal Performance Factors".

This method was applied by first determining the characteristics of a house representative of the existing housing stock in various cities throughout the country covering the six specified heating zones. A representative heat pump was sized for each house to satisfy the cooling requirements for each city. The performance data for the selected heat pump and weather data were used in the bin procedure to develop an SPF for each city. Heating zone SPF's were calculated by averaging the SPF's obtained for each city in the heating zone. This included consideration of variations in temperature and humidity.

The SPF's used for the proposed revision were obtained by extrapolating those provided in a report entitled Progress Report No. 5: Evaluation of New and Add-on Heat Pump Technology (April 29, 1977). This is a report of a recent investigation of heat pumps by Gordian Associates Inc. for ERDA under Contract No. E(49–18)–2121. The performance of heat pumps in the cities studies was used directly or extrapolated by FEA in consultation with ERDA to determine the performance for each heating zone.

FEA believes that SPF's determined by the ERDA study to be the latest and most definitive data on heat pumps available. While the SPF's in the regulation utilized a manual computation method for compensating for the variations in adjusting the coefficient of performance, the ERDA study uses a more complex computerized technique to adjust the coefficients of performance to a seasonal performance basis. Also, the ERDA study takes into account heat pump energy losses due to frost formation, start-stop losses and four-way valve heat transfer losses, for which the previous method did not compensate.

2. COMMENT PROCEDURES

Interested persons are invited to participate in this rulemaking by submitting data, views, or arguments with respect to the proposals set forth in this notice to Executive Communications, Room 3317, Federal Energy Administration, Box OR, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation "Energy Measures." Fifteen copies should be submitted. All comments and all other relevant information received by September 16, 1977, before 4:30 p.m., e.d.t., will be considered by FEA before final action is taken regarding the proposed revision.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

3. COORDINATION WITH OUTSIDE PARTIES, AND ENVIRONMENTAL AND INFLATIONARY REVIEW

In preparing this proposed revision, it was reviewed not only internally by FEA but also by a representative of the Secretary of the Department of Housing and Urban Development. In accordance with FEA's obligations under the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 et seq.), an evaluation of the potential environmental impacts of the energy measures list was prepared by FEA for both the proposed (42 FR 29906 et seq.) and the final rulemaking (42 FR 37795 et seq.) FEA determined that the energy measures list would not have a significant effect upon the environment as provided by NEPA, and that publication of the list would not constitute a major Federal action. The proposed revision contains no changes which would affect FEA's analysis of environmental consequences.

As required by Section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93–275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator has no comments.

The proposed rulemaking for the energy measures list was reviewed in accordance with Executive Order 11821, as amended by Executive Order 11949 and OMB Circular A–107, and was determined not to be a major proposal requiring an evaluation of its economic impact. The proposed revision contains no changes which would alter this determination.

(Part B of Title IV of the Energy Conservation and Production Act, Pub. L. 94–385, 90 Stat. 1125 et seq.; also issued under Part C, Title III of the Energy Policy and Conservation Act, Pub. L. 94–163, 89 Stat. 871 et seq. (42 U.S.C. 6321 et seq.); Federal Energy Administration Act of 1974, as amended, Pub. L. 93–275, (15 U.S.C. 761 et seq.); E.O. 11790, 39 FR 23185.)

In consideration of the foregoing, it is proposed to amend Part 450 of Chapter II of Title 10, Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., August 12, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

PART 450—ENERGY MEASURES AND ENERGY AUDITS

§ 450.33 [Amended]

1. 10 CFR 450.33 (b) and (c) are redesignated as 10 CFR 450.31 (u) and (v) respectively.

2. 10 CFR 450.33 is amended to read in appropriate alphabetical sequence.

§ 450.34 [Amended]

3. 10 CFR 450.34 (a) is amended by deleting the words "paragraphs (b) or (c)" and substituting the words "paragraph (b)" instead.

4. 10 CFR 450.34 (c) is deleted.

5. 10 CFR 450.32 is amended by adding paragraphs (u) and (v) as follows—

§ 450.32 Requirements and limitations for energy conservation measures.

* * * * *

(u) An air source heat pump must be evaluated by a verification audit in accordance with the procedures in Subpart C of this part to determine whether cost savings in a specific application are sufficient to recover the costs of purchase and installation within its attributed life, unless it is a system which is—

(1) Installed in a residential building; and

(2) (i) An electric heat pump with only heating capability which replaces electric resistance space heating; or

(ii) An electric heat pump with both heating and cooling capability which replaces electric resistance space heating and air conditioning; and

(3) Purchased, installed, and maintained at a total cost which shall not exceed the maximum allowable cost which shall be computed by—

(i) Selecting the correct climatic zone factor for the Federal Region and heating zone in which the system will be installed using the following table—

Table of climatic factors

	Heating zones					
	0	1	2	3	4	5
Federal region:						
1	—	—	—	2.3	1.2	—
2	—	—	2.7	2.1	1.1	—
3	—	—	2.8	2.2	—	—
4	4.1	3.2	3.0	—	—	—
5	—	—	2.9	2.3	1.2	0.4
6	4.5	3.5	3.3	2.6	1.4	—
7	—	—	3.0	2.3	1.2	—
8	—	—	—	2.2	1.2	.4
9	—	3.3	3.0	2.4	1.3	—
10	—	—	3.3	2.6	1.4	—

NOTE.—Dashes in table correspond to points where a heating zone and a Federal region do not coincide.

(ii) Multiplying this factor by the previous year's heating cost for the user of the system to be installed.

(v) A water source heat pump must be evaluated by a verification audit in accordance with the procedures in Subpart C of this part to determine whether cost savings in a specific application are sufficient to recover costs of purchase and installation within its attributed life.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 77–WE–20–AD]

McDONNELL DOUGLAS MODEL DC–9 SERIES AIRPLANES

Proposed Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to add an Airworthiness Directive (AD) that would modify the tail cone emergency exit release handle locating and operating markings on all McDonnell Douglas DC–9 airplanes. There has been one incident in which the inability to locate and operate the tail cone release handle has caused a delay in evacuating the airplane during an emergency.

DATES: Comments must be received on or before September 23, 1977. Proposed compliance date: Ninety days from the effective date of this AD.

ADDRESSES: Send comments on the proposal to:

Department of Transportation, Federal Aviation Administration, Office of Regional Counsel, AWE–7, Attention: Rules Docket, P. O. Box 92007, Worldway Postal Center, Los Angeles, California, 90009.

FOR FURTHER INFORMATION CONTACT:

Kyle I. Olsen, Executive Secretary, Airworthiness Directives Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009. Telephone: (213) 536–6351.

SUPPLEMENTARY INFORMATION: A key element in the DC–9 tail cone emergency exit system is the tail cone release handle. This handle must be pulled to release the tail cone and automatically deploy and inflate the emergency evacuation slide. Under night conditions with the emergency lights operating in the tail cone area, this release handle is difficult to locate and the required operating placard is difficult to read.

The National Transportation Safety Board issued Safety Recommendation A–77–29, dated May 23, 1977, as a result of the Texas International Airlines DC–9–14 accident at Denver, Colorado, on November 16, 1976, stating the flight attendant was unable to locate the tail cone release handle because it was poorly illuminated. The NTSB recommended a light source be located near the release handle or the handle be self-illuminating.

The tail cone emergency exit is required on all model DC–9 airplanes as stated in the Federal Aviation Administration Type Certificate Data Sheet No. A6WE. The FAA requires the identity, location, and means of opening the tail cone emergency exit be conspicuously marked. An alternate proposal to that which the NTSB recommended was made by the manufacturer consisting of additional placards in the tail cone area directing attention towards the release handle, adding additional placards at the release handle, and adding more obvious operating instructions on the handle itself. From this evaluation, the FAA has concluded that the modifications proposed by the manufacturer will meet the intent of the NTSB recommendation by insuring that the tail cone release handle can be located and operated by

crewmembers and passengers with the present emergency lights operating in the tail cone.

Since this condition is likely to exist in other products of the same type design, the proposed airworthiness directive would require the DC-9 tail cone emergency exit release handle locating and operating markings be changed in accordance with McDonnell Douglas Service Bulletin SB 53-134. Additional methods of marking the location and operation of the DC-9 tail cone release handle will be considered for installation if approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Information on the economic impact that might result because of the adoption of the proposed rule is requested. Communication should identify the docket number and be submitted in duplicate to the address previously stated. All communications received on or before September 23, 1977 will be considered before taking action upon the proposed rule. The proposal may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

DRAFTING INFORMATION

The principal authors of this document are Robert M. Stacho, Aircraft Engineering Division, and Richard G. Wittry, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new Airworthiness Directive:

MCDONNELL DOUGLAS: Applies to all model DC-9 airplanes certificated in all categories.

Compliance within 90 days from the effective date of this AD, unless already accomplished.

To identify the location and operation of the tail cone emergency exit release handle, accomplish the following:

Modify the tail cone emergency exit release handle locating and operating markings in accordance with McDonnell Douglas Service Bulletin 52-134, dated July 12, 1977, or later FAA approved revision, or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 313(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif., on August 5, 1977.

FRANK HAPPY,
Acting Director,
FAA Western Region.

[FR Doc.77-23884 Filed 8-17-77;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 77-WA-14]

Proposed Alteration of Federal Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to realign a segment of V-222 between Junction, Tex., and Industry, Tex., via the Stonewall, Tex., VORTAC and the INT of Stonewall 112°T(103°M) and Industry 269°T(260°M) radials, rather than as proposed in the FEDERAL REGISTER dated August 4, 1977 (42 FR 39401). This proposed action would cause V-222 to bypass the San Antonio, Tex., VORTAC and terminal area. This bypass route northeast of San Antonio would improve traffic handling capabilities by reducing the congestion near San Antonio.[1]

DATES: Comments must be received on or before September 5, 1977.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Southwest Region, Attention: Chief, Air Traffic Division, Docket No. 77-WA-14, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket, (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: (202) 426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before September 5, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

A segment of V-222 airway is presently designated from Junction, Tex., via an INT named Stonewall, Tex., thence via San Antonio, and an INT named LIPPY to Industry, Tex. In Airspace Docket No. 77-SW-27, NPRM, published in the FEDERAL REGISTER, August 4, 1977, the FAA proposed to redesignate V-222 from Junction to San Antonio over its present route via a VORTAC to be established at Stonewall. The action proposed herein would realign the segment of V-222 from Stonewall to Industry via the INT of Stonewall 112°T (103°M) and Industry 269°T (260°M) radials which would avoid San Antonio and thus help to expedite the flow of east/west traffic in this area.

DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) as follows:

In V-222 "Junction, Tex., INT Junction 112° and San Antonio, Tex., 334° radials; San Antonio; INT San Antonio, 074° and Industry, Tex., 264° radials; Industry;" is deleted and "Junction, Tex.; Stonewall, Tex.; INT Stonewall 112° and Industry, Tex., 269° radials; Industry;" is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

[1] Map filed as part of the original document.

Issued in Washington, D.C., on August 11, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.77-23724 Filed 8-17-77;8:45 am]

[14 CFR Parts 121, 123, and 135]

[Docket No. 15531; Reference Notice No. 76-7]

AIR CARRIERS, COMMERCIAL OPERATORS, AIR TRAVEL CLUBS AND AIR TAXI OPERATORS

Operation of Certain Large Airplanes Under the Rules Governing Air Taxi Operations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This notice withdraws Notice No. 76-7 (41 FR 13952; April 1, 1976) in which the Federal Aviation Administration proposed to permit temporarily, with certain exceptions, the operation of certain airplanes under the rules of Part 135 of the Federal Aviation Regulations. The intended effect is to terminate the rulemaking action proposed by Notice 76-7. This action is necessary because the FAA is developing a comprehensive rulemaking project applicable to Part 135 which will include the general philosophy of Notice 76-7. In addition, the FAA has determined that the proposals in Notice 76-7 would have little relevance to Part 121 or Part 123 certificate holders because they normally do not operate airplanes of the size specified in that notice.

DATE: Effective immediately.

FOR FURTHER INFORMATION CONTACT:

Mr. Raymond E. Ramakis, Regulatory Projects Branch, Safety Regulations Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 755-8716.

SUPPLEMENTARY INFORMATION: The FAA received 78 comments from the public in response to Notice No. 76-7, including one from the National Transportation Safety Board. Of the 78 public comments, 50 were in favor of the proposal while 28 were in opposition.

The greatest number of comments in favor of the proposal, 33 of the 50, were received from Part 135 Air Taxi Commercial Operator certificate holders operating small airplanes. These comments generally reflected the views that (1) the 12,500 pound demarcation between large and small aircraft is no longer a relevant safety consideration in light of current aircraft being operated pursuant to Parts 121, 123, and 135, and (2) requiring the operator of an air taxi service using large aircraft to comply with the provisions of Part 121 applicable to supplemental air carriers places an undue economic burden on the certificate holder operating few aircraft.

Comments presenting an unfavorable view toward part or all of the proposal expressed a variety of opinions. Some stated that they believed Part 135 should be overhauled rather than adopt Notice No. 76-7. Other commentators asserted that if the proposal were adopted, it would cause chaos in the air taxi industry as the FAA would not have sufficient regulatory personnel to provide adequate supervision over the safety aspects of the industry. Several comments reflected the view that helicopters should not have been excluded from the proposal and recommended an amendment to Part 127, while others expressed the fear that safety may be compromised if the fuel load for an airplane certificated for more than one maximum certificated take-off weight must be limited to comply with a take-off weight of less than 12,500 pounds.

Other commentators, not in favor of Notice No. 76-7, stated that the intent of the proposal was an injustice to operators who have complied with the regulations in Part 121 applicable to supplemental air carriers, since FAA's rationale in adopting § 135.2 was based upon the need to provide increased protection for the public. The overall tenor of those comments in opposition to the proposal was that its adoption would lead to a reduced level of safety in turbojet air taxi operations and that the rules governing air taxi operations should be made more stringent, rather than eased as proposed in Notice No. 76-7.

Notice No. 76-7 proposed amending §§ 121.9, 123.5, and 135.2 to reflect the criteria contained in the proposal. Since Part 121 certificate holders are not normally engaged in the operation of airplans having passenger and payload capacities and a maximum zero fuel weight as set forth in Notice No. 76-7, the FAA believes that the proposal would have little relevance to operations presently being conducted pursuant to that part. Similarly, the proposal to amend § 123.5, affecting air travel clubs, is also unnecessary in light of the fact that there are no air travel clubs operating airplanes having passenger and payload capacities and a maximum zero fuel weight as proposed in Notice No. 76-7.

With respect to that part of the proposal which would have amended § 135.2, it is noted that the Part 135 Regulatory Review Program will result in a major overhaul of this part, and a provision reflecting the general philosophy of Notice No. 76-7 will be included as part of a notice of proposed rule making with respect to the revision of Part 135.

The FAA has determined that rulemaking action on Notice No. 76-7 is not warranted at this time. However, withdrawal of this notice does not preclude the FAA from issuing similar notices in the future due to a change in circumstances, nor does it commit the FAA to any course of action.

DRAFTING INFORMATION

The principal authors of this document are William T. Brennan, Air Carrier Regulations Branch, Flight Standards Service, and Marshall S. Filler, Office of the Chief Counsel.

Accordingly, Notice No. 76-7, published in the FEDERAL REGISTER on April 1, 1976 (41 FR 13952), is hereby withdrawn, effective immediately.

(Secs. 313(a), 601, and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1424); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on August 10, 1977.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[File No. 752 3078]

EAST PROVIDENCE CREDIT UNION

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: This consent order, among other things, requires an East Providence, R.I. credit union to cease failing to provide consumers, in connection with the extension of credit, such material and disclosures as are required by Federal Reserve System regulations.

DATE: Comments must be received on or before October 17, 1977.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th and Pennsylvania Ave., NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

William M. Gibson, Dir., Boston Regional Office, (Room 1301), Federal Trade Commission, 150 Causeway St., Boston, MA. 02114. (617) 223-6621.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the FTC Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will

be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

[File No. 752 3078]

EAST PROVIDENCE CREDIT UNION

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

The Federal Trade Commission having initiated an investigation of certain acts and practices of East Providence Credit Union, a corporation, and it now appearing that East Providence Credit Union, a corporation, hereinafter referred to as proposed respondent, is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated.

It is hereby agreed by and between East Providence Credit Union, by its duly authorized officer, and its attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent East Providence Credit Union is a corporation organized, existing and doing business under and by virture of the laws of the State of Rhode Island and Providence Plantations, with its principal office and place of business located at 15 Circle Street, East Providence, Rhode Island.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives: (a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the draft of complaint contemplated thereby will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreements is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to-order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby, and understands that once the order has been issued, it will be required to file one or more compliance reports showing that proposed respondent has fully complied with the order, and that proposed respondent may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

ORDER

It is ordered, That respondent East Providence Credit Union, a corporation, its successors and assigns, and its officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension of consumer credit or advertisement to aid, promote or assist, directly or indirectly, any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Pub. L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to disclose the sum of payments scheduled to repay the indebtedness, using the term "total of payments," as required by § 226.8(b)(3) of Regulation Z.

2. Failing to disclose the total amount of the finance charge, with description of each amount included, using the term "finance charge," as required by § 226.8(d)(3) of Regulation Z.

3. Failing to provide a description of any penalty charge that may be imposed for prepayment of the principal with an explanation of the method of computation of such penalty and the conditions under which it may be imposed, as required by § 226.8(b)(6) of Regulation Z.

4. Failing in any transaction in which respondent retains or acquires a security interest in real property which is used or expected to be used as the principal residence of the customer, to provide customers with two copies of the "Notice of Opportunity to Rescind" in the manner and form required by § 226.9 of Regulation Z.

5. Failing to use the term "amount financed" to describe the amount of credit extended, including all charges, individually itemized, which are included in the amount of credit extended but which are not part of the finance charge, as required by § 226.8(d)(1) of Regulation Z.

6. Representing in any advertisement directly or by implication, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and conspicuously stated, in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z: (a) The amount of the loan;

(b) The number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

(c) The amount of the finance charge expressed as an annual percentage rate; and

(d) The total of payments.

7. Failing, in any consumer credit transaction or advertisement to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z at the time and in the manner, form and amount required by §§ 226.6, 226.8, and 226.10 of Regulation Z.

It is further ordered, That respondent deliver a copy of this order to cease and desist to all present and future personnel of respondent now or hereafter engaged in the consummation of any extension of consumer credit or in any aspect of the preparation, creation, or placing of advertising, and that respondent secure a signed statement acknowledging receipt of said order from each said person.

It is further ordered, That respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

[File No. 752 3078]

EAST PROVIDENCE CREDIT UNION

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement to a proposed consent order from East Providence Credit Union, 15 Circle Street, East Providence, R.I. 02914.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint that led to the proposed order to cease and desist alleged that the proposed respondent has violated the provisions of the Truth in Lending Act and Regulation Z promulgated thereunder by failing to disclose to consumers prior to the consummation of the promissory notes, the amount financed; a description of the penalty charged to be imposed for pre-payment of the obligation, the method by which it is computed and the conditions under which it will be imposed; failing in certain instances to provide consumers with the "Notice of Opportunity to Rescind" and to set out the "Effect of Rescission"; and failing to comply with all requirements of Regulation Z pertaining to the advertising of consumer credit.

The consent order requires the company to cease and desist failing to make the disclosures alleged in the complaint. It further requires that the company make the consumer credit transaction and advertising disclosures required under §§ 226.4 and 226.5 of Regulation Z and in the manner and form prescribed by the Regulation. The consent order also requires the company to deliver a copy of the order to all present and future personnel.

The purpose of this analysis is to facilitate public comment on the proposed order and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

CAROL M. THOMAS,
Secretary.

FUNERAL INDUSTRY PRACTICES

Publication of Presiding Officer's Report Regarding Proposed Trade Regulation Rule

AGENCY: Federal Trade Commission.

ACTION: Publication of Presiding Officer's Report.

SUMMARY: On February 20, 1976 the Presiding Officer published in the FEDERAL REGISTER (41 FR 7787) final notice of the proposed trade regulation rulemaking proceeding. The Presiding Officer's Report, required by the Commission's Rules of Practice for rulemaking (16 CFR 1.13(f)) consisting of his summary, findings and conclusions with regard to the proposed rule and to those issues designated by him and such other findings and conclusions as he saw fit to make, has been made public and placed on Public Record No. 215-46. When completed, the staff's report on the rulemaking record and its recommendations to the Commission also will be made public and notice thereof published in the FEDERAL REGISTER. The Presiding Officer's Report has not been adopted or reviewed on the merits by the Bureau of Consumer Protection or reviewed or adopted by the Commission itself and its publication should not be interpreted as reflecting the present views of the Commission or any individual Commissioner.

DATE: The sixty-day period which the Rules of Practice for rulemaking (16 CFR 1.13(g)) provide for public comment on both the Presiding Officer's report and the staff's report will not commence until the staff's report has been made public and placed on the public record. Therefore, comment on the Presiding Officer's report alone would be considered premature at this time.

FOR FURTHER INFORMATION CONTACT:

Jack E. Kahn, Presiding Officer, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580, 202-724-1152.

Issued: August 16, 1977.

ALBERT H. KRAMER,
Director, Bureau of Consumer Protection.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[23 CFR Chapter I]

[FHWA Docket No. 76-21; Notice 3]

REVIEW OF REGULATIONS AND DIRECTIVES

Supplemental Advance Notice of Proposed Rulemaking

AGENCY: Federal Highway Administration, DOT.

ACTION: Supplemental advance notice of proposed rulemaking.

SUMMARY: The Federal Highway Administration has completed a report, including recommendations, on its regulations and directive requirements in order to improve the Federal-aid highway program delivery procedures. Comments are requested before the Administrator acts upon this study.

DATE: Comments must be received on or before September 20, 1977.

ADDRESS: FHWA Docket No. 76-21, Notice 3, Room 4230, Federal Highway Administration, U.S. Department of Transportation, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Dennis Judycki, Office of the Federal Highway Administrator (202-426-0848), Federal Highway Administration; or Hugh T. O'Reilly, Office of the Chief Counsel (202-426-0761), Federal Highway Administration. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

SUPPLEMENTARY INFORMATION: In November 1976 the Federal Highway Administration (FHWA) undertook a review of its requirements, directive material and program management with a view to determining how its delivery procedures for Federal-aid for highways may be improved.

The FHWA on December 1, 1976, (41 FR 52703) and February 25, 1977 (42 FR 11023), published an Advance Notice of Proposed Rulemaking and Supplmental Advance Notice of Proposed Rulemaking, respectively, soliciting comments on this subject from interested persons.

A report, including recommendations which are directed at improving Federal-aid highway procedures and reducing to a minimum unnecessary requirements on all levels of government, was submitted to the Federal Highway Administrator on June 29, 1977. On August 15 this report was distributed within FHWA, to all State Departments of Transportation/Highway Agencies, and those cities, counties, and special interest groups involved in earlier phases of information gathering.

Prior to the Administrator taking action upon the study recommendations, public comment from interested persons is solicited. For the convenience of interested parties, the study report has been made available for inspection at each of FHWA's document inspection facilities (FHWA offices). Arrangements for inspection of this report may be made by contacting the nearest FHWA office which is located in each State and the Washington, D.C. Headquarters office. Addresses of these offices are published in Title 49 of the Code of Federal Regulations (49 CFR, Part 7, Appendix D). Where inspection is not convenient a limited number of copies of the report are available for distribution on a first come first serve basis from the Federal Highway Administration, HMS-10, Room 4428, 400 Seventh Street SW., Washington, D.C. 20590.

Those wishing to comment on the study report are asked to submit their views in writing. Comments should be addressed to FHWA Docket No. 76-21, Notice 3, Federal Highway Administration, 400 Seventh Street, SW., Room 4230, Washington, D.C. 20590. All comments received on or before September 20, 1977, will be considered. Comments received will be available for public inspection both before and after the closing date at the above address.

(23 U.S.C. 315 and 49 CFR 1.48.)

Issued on August 15, 1977.

L. P. LAMM,
Executive Director,
Federal Highway Administration.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A494]

CALIFORNIA

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Placer County, California, as a result of a severe freeze occurring on March 27, 28 and 29, 1977.

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 94–68, and the provisions of 7 CFR 1832.–3(b) including the recommendation of Governor Edmund G. Brown, Jr., that such designation be made.

Applications for emergency loans must be received by this Department no later than October 11, 1977, for physical losses and May 10, 1978, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance of proposed rulemaking and invite public participation.

Done at Washington, DC, this 11th day of August 1977.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

[FR Doc.77-23891 Filed 8-17-77;8:45 am]

Federal Grain Inspection Service

GRAIN STANDARDS

Arizona Grain Inspection Point

Statement of considerations. On June 3, 1977, a notice was published in the FEDERAL REGISTER (42 FR 28563–28564) announcing that (1) the Agricultural Seed Laboratories, the official agency designated pursuant to section 7(f) of the U.S. Grain Standards Act as amended (7 U.S.C. 79(f)) for Phoenix, Arizona, requested that its designation be transferred to Mr. Thomas B. Storey, Chief Grain Inspector, Agricultural Seed Laboratories; and (2) Mr. Thomas B. Storey had filed an application in accordance with the U.S. Grain Standards Act to become the official agency at Phoenix, Arizona.

Intersted persons were given until July 5, 1977, to submit written views and comments on the requested transfer and/or to make application to become the official agency at Phoenix, Arizona.

No written views, comments, or additional applications have been received in response to the above notice.

After due consideration of all relevant matters, the official agency formerly owned by Mr. Harley M. Reeder, in Phoenix, Arizona, is hereby transferred to Mr. Thomas B. Storey to operate under the same name, the Agricultural Seed Laboratories, P.O. Box 6363, Phoenix, Arizona 85005.

As a point of clarification, it should be noted that the United States Grain Standards Act (7 U.S.C. 71 et seq.), hereinafter referred to as the "Act," has been amended by Pub. L. 94–582, effective November 20, 1976, to extensively modify the official inspection system. The amended Act provides that the Administrator of the newly-created Federal Grain Inspection Service (FGIS), after conducting investigations and other studies, will designate official agencies at the various interior points. In implementing these provisions, FGIS is currently in the process of reviewing the designations of all agencies or persons presently designated to provide official inspection services. The amended Act further provides that existing agencies may continue to operate without a designation under the new law until the Administrator either grants or denies such designation to them or sets a period of time for their termination, not to exceed two years from the effective date of the amended Act, provided such agencies pay any required fees to FGIS.

Accordingly, the transfer of designation, which is the subject of this notice, is on an interim basis and will continue until the Administrator of FGIS either grants or denies an official designation under the amended Act to the recipient or sets a period of time for its termination.

(Sec. 7, 82 Stat. 764, as amended 90 Stat. 2870 (7 U.S.C. 79); sec. 3A, 90 Stat. 2868, 7 U.S.C. 75a.)

Effective date. This notice shall become effective August 18, 1977.

Done in Washington, D.C., on August 12, 1977.

L. E. BARTELT,
Administrator.

[FR Doc.77-23892 Filed 8-17-77;8:45 am]

GRAIN STANDARDS

Illinois Grain Inspection Point

Statement of considerations. On June 14, 1977, a notice was published in the FEDERAL REGISTER (42 FR 30413–30414) announcing that (1) the Illinois State Department of Agriculture, Springfield, Illinois, requested that the asisgnment of inspection points under its designation be amended to revoke Fairfield, Casey, and Shawneetown, Illinois, as designated inspection points and to add Mt. Vernon and Marion, Illinois, as designated inspection points and (2) in order to continue availability of the service and to allow the Illinois State Department of Agriculture to provide more efficient official inspection services at centralized locations as soon as practicable, this amendment of assignment should be made on an interim basis for a period not to exceed 90 days from the publication of the proposal notice in the FEDERAL REGISTER, pending a determination of this matter under the Act.

No comments were received with respect to the June 14, 1977, notice in the FEDERAL REGISTER. After due consideration of market needs and circumstances and other material available to the Department, the designation of the Illinois State Department of Agriculture, Springfield, Illinois, is amended to revoke Fairfield, Casey, and Shawneetown, Illinois, as designated inspection points and to add Mt. Vernon and Marion, Illinois, as designated inspection points.

As a point of clarification, it should be noted that the United States Grain Standards Act (7 U.S.C. 71 et seq.), hereinafter referred to as the "Act," has been amended by Pub. L. 94–582, effective November 20, 1976, to extensively modify the official inspection system. The amended Act provides that the Administrator of the newly created Federal Grain Inspection Service (FGIS), after conducting investigations and other studies, will designate official agencies at the various interior points. In implementing these provisions, FGIS is currently in the process of reviewing the designations of all agencies or persons presently designated to provide official inspection services. The amended Act further provides that existing agencies may continue to operate without a designation under the new law until the Administrator either grants or denies such designation to them or sets a period of time for their termination, not to exceed 2 years from the effective date of the amended Act, provided such agencies pay any required fees to FGIS.

Accordingly, the amendment of designated inspection points, which is the subject of this notice, is made on an interim basis and will continue until the Administrator of FGIS either grants or denies an official designation under the amended Act to the recipient or sets a period of time for its termination.

(Sec. 7, 82 Stat. 764, as amended 90 Stat. 2870, 7 U.S.C. 79; sec. 3A, 90 Stat. 2868, 7 U.S.C. 75a.)

Effective date. This notice shall become effective August 18, 1977.

Done in Washington, D.C., on August 12, 1977.

L. E. BARTELT,
Administration.

[FR Doc.77-23893 Filed 8-17-77;8:45 am]

GRAIN STANDARDS

Texas Grain Inspection Areas

Statement of considerations. Pursuant to sections 7(e)(1) and 7A(c)(1) of the U.S. Grain Standards Act, as amended, (7 U.S.C. 71 et seq.), hereinafter the "Act," the Federal Grain Inspection Service (FGIS) is required to provide official inspection and weighing services for all grain required or authorized to be inspected and weighed by the Act, at those export port locations where a State is not delegated to perform these official services (7 U.S.C. 79(e)(1) and 7 U.S.C. 79a(c)(1)).

The Federal Grain Inspection Service is to assume performance of official inspection and weighing services at such export port locations on a date set by the Administrator of the Service not to exceed 18 months from November 20, 1976, effective date of the amended Act; provided that, subject to meeting certain requirements of the Act, existing official agencies may continue to function during such transition period.

The Federal Grain Inspection Service assumption of inspection and weighing services at the Galveston Cotton Exchange and Board of Trade was originally scheduled for May 8, 1977.

On April 21, 1977, four local unions associated with the International Longshoremen's Association, AFL–CIO, filed a civil suit in the District Court for the Southern District of Texas seeking an injunction to prevent FGIS from providing inspection and weighing service within the State of Texas. Pursuant to an agreement between FGIS officials and the representatives of the union, the implementation of Federal inspection and weighing in the Port of Galveston was rescheduled to July 1, 1977, in order to permit the Court to hear evidence in support of the union request for a preliminary injunction.

After hearing the union's evidence, the Court, on June 24, 1977, ruled that the union had not established the need for a preliminary injunction.

Accordingly, notice is hereby given that the Galveston Cotton Exchange and Board of Trade, Galveston, Texas, a designated official agency in Galveston County, Texas, ceased providing official inspection services effective midnight June 30, 1977, and effective July 1, 1977, the designation of the Galveston Cotton Exchange and Board of Trade, as an official agency, was canceled pursuant to the provisions of section 7(g)(2) (7 U.S.C. 79(g)(2) and (7 U.S.C. 74 note)) of the Act.

Effective July 1, 1977, the Federal Grain Inspection Service assumed provision of official grain inspection and weighing services at the areas previously serviced by the Galveston Cotton Exchange and Board of Trade, in accordance with sections 7(e)(1), 7A(c)(1), and 27 of the Act (7 U.S.C. 79(e)(1), 7 U.S.C. 79a(c)(1), and 7 U.S.C. 74 note). This inspection area is contained within the confines of Galveston County, Texas.

(Sec. 8, (PL–94–582) 90 Stat. 2870 (7 U.S.C. 79); sec. 7A, (Pub. L. 94–582) 90 Stat. 2875 (7 U.S.C. 79a); sec. 27, (Pub. L. 94–582) 90 Stat. 2889 (7 U.S.C. 74 note).)

Effective date. This notice became effective July 1, 1977.

Done in Washington, D.C. on August 12, 1977.

L. E. BARTELT,
Administrator.

Forest Service

LOWER MINAM WILDERNESS STUDY REPORT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Lower Minam Wilderness Study Report USDA–FS–DES(Leg)77–06.

The environmental statement concerns a proposal for the future management of the Lower Minam Wilderness Study Area comprised of approximately 34,000 acres within the Wallowa-Whitman National Forest in Union and Wallowa counties, State of Oregon. This draft environmental statement was transmitted to CEQ on August 11, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. and Independence Ave., SW., Washington, DC 20013.
USDA, Forest Service, Pacific Northwest Region, 319 S.W. Pine Street, Portland, OR 97204.
USDA, Forest Service, Wallowa-Whitman National Forest, Federal Building, 1550 Dewey Avenue, Baker, OR 97814.

A limited number of single copies are available upon request to Forest Supervisor, Wallowa-Whitman National Forest, P.O. Box 907, Baker, OR 97814.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to an environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Wallowa-Whitman National Forest, P.O. Box 907, Baker, OR 97814.

Comments must be received by November 15, 1977, in order to be considered in the preparation of the final environmental statement.

R. MAX PETERSON,
Deputy Chief.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

EXEMPTION OF FOREIGN AIR CARRIERS FROM CUSTOMS DUTIES AND TAXES

Request for Finding of Reciprocity (Guyana)

Notice is hereby given that the Department of Commerce is undertaking to determine whether, pursuant to sections 309 and 317 of the Tariff Act of 1930, as amended (19 U.S.C. 1309 and 1317), and section 4221 of the Internal Revenue Code of 1954, as amended (26 U.S.C. 4221), the Government of Guyana allows substantially reciprocal customs and tax exemptions to aircraft of U.S. registry in connection with international commercial operations to those exemptions granted to aircraft of foreign registry under the aforementioned statutes. The basis of this undertaking is a request on behalf of Guyana Airways Corporation for a finding of such reciprocity.

The above-cited statutes provide exemptions for aircraft of foreign registry from payment of import duties and certain internal revenue taxes on the import or purchase of supplies in the United States for such aircraft in connection with their international commercial operations. "Supplies" as used in this context includes a wide range of articles used by aircraft in international operations, including fuel and lubricants, spare parts, consumable supplies, and ground handling and support equipment. These exemptions apply upon a finding by the Secretary of Commerce, or her designee, and communicated to the Department of the Treasury, that such country allows, or will allow, "substantially reciprocal privileges" to aircraft of United States registry with respect to imports or purchases of such supplies in that country.

Interested parties are invited to submit their views and comments in writing concerning this matter to Mr. S. Stanley Katz, Deputy Assistant Secretary for International Economic Policy and Research, Room 3830, U.S. Department of Commerce, Washington, D.C. 20230. All submissions should be made in five copies and should be received no later than September 2, 1977.

Copies of all written comments received will be available for public inspection between the hours of 8:30 a.m. and 5:00 p.m., Monday through Friday, in the Central Reference and Records Inspection Facility, Office of Organization and Management Systems, Room 5319, Department of Commerce, Washington, D.C.

It is suggested that those desiring additional information contact Ms. Elizabeth R. Grauman, Transportation and Insurance Division, Office of International Finance and Investment, Room 2036, Washington, D.C. 20230, or call area code 202-377-5012.

S. STANLEY KATZ,
Deputy Assistant Secretary for International Economic Policy and Research.

EXEMPTION OF FOREIGN AIR CARRIERS FROM CUSTOMS DUTIES AND TAXES

Consideration of Partial Withdrawal of Finding of Exemption Reciprocity (Japan)

Pursuant to a request of a U.S.-flag air carrier, notice is hereby given that the Department of Commerce is undertaking a review to determine whether, pursuant to sections 309 and 317 of the Tariff Act of 1930, as amended (19 U.S.C. 1309 and 1317), and section 4221 of the Internal Revenue Code of 1954, as amended (26 U.S.C. 4221) there should be a partial withdrawal of the Department's 1954 finding of exemption reciprocity with Japan (TD 53550). The basis for the request is a complaint that aircraft of U.S. registry are being assessed customs duties on ground handling and support equipment imported into Japan for use in international commercial operations.

The above-cited statutes provide exemptions for aircraft of foreign registry from payment of import duties and certain internal revenue taxes on the import or purchase of supplies in the United States for such aircraft in connection with their international commercial operations. "Supplies" as used in this context includes a wide range of articles used by aircraft in international operations, including fuel and lubricants, spare parts, consumable supplies, and ground handling and support equipment. These exemptions apply upon a finding by the Secretary of Commerce, or her designee, and communicated to the Department of the Treasury, that such country allows, or will allow, "substantially reciprocal privileges" to aircraft of United States registry with respect to imports or purchases of such supplies in that country. Such exemptions for aircraft of foreign registry may be subsequently withdrawn, in whole or in part, upon a finding by the Secretary of Commerce, or her designee, that such country has discontinued or will discontinue the allowance of "substantially reciprocal privileges" to aircraft of United States registry.

In its 1954 finding with respect to Japan the Department determined that Japan allowed substantially reciprocal privileges to aircraft of United States registry. The Department's review will be for the purpose of determining whether there should be a withdrawal, in part, of that finding with respect to ground handling and support equipment.

Interested parties are invited to submit their views and comments in writing concerning this matter to Mr. S. Stanley Katz, Deputy Assistant Secretary for International Economic Policy and Research, Room 3830, U.S. Department of Commerce, Washington, D.C. 20230. All submissions should be made in five copies and should be received no later than September 19, 1977.

Copies of all written comments received will be available for public inspection between the hours of 8:30 a.m. and 5:00 p.m., Monday through Friday, in the Central Reference and Records Inspection Facility, Office of Organization and Management Systems, Room 5319, Department of Commerce, Washington, D.C.

It is suggested that those desiring additional information contact Ms. Elizabeth R. Grauman, Transportation and Insurance Division, Office of International Finance and Investment, Room 2036, Department of Commerce, Washington, D.C. 20230, or call area code 202-377-5012.

S. STANLEY KATZ,
Deputy Assistant Secretary for Interna ional Economic Policy and Research.

Economic Development Administration

DAUPHIN SHOE COMPANY, INC.

Petition for a Determination of Eligibility To Apply for Trade Adjustment Assistance

A petition by Dauphin Shoe Company, Inc., 345 Carlisle Street, Harrisburg, Pennsylvania 17104, a producer of footwear for infants and children, was accepted for filing on August 12, 1977, pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93-618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315). Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

CHARLES L. SMITH,
Acting Chief, Trade Act Certification Division, Office of Planning and Program Support.

National Oceanic and Atmospheric Administration

INTERNATIONAL WHALING COMMISSION REGULATION PROHIBITING ALL TAKE OF BOWHEAD WHALES

Public Hearings and Availability of Draft Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 and Section 1500.7(d) of the Council on Environmental Quality Guidelines, informal public hearings have been scheduled and a Draft Environmental Impact Statement has been prepared to consider the environmental impact resulting from a decision to object to or accept the International Whaling Commission's regulation removing the provision under which native take of bowhead whales had previously been allowed.

To facilitate the presentation of comments from all interested persons informal hearings will be held in Washington, D.C., and Alaska, specifically:

Place: Department of Commerce, 14th Street and Constitution Avenue, NW., room B-841, Washington, D.C.
Date: September 8, 1977.
Time: 9 a.m.
Place: North Slope Borough Office, Barrow, Alaska.
Date: September 13, 1977.
Time: 1 p.m.
Place: City Hall, Kotzebue, Alaska.
Date: September 15, 1977.
Time: 10 a.m.

Copies of the Draft Environmental Impact Statement are available for review in the following offices:

National Marine Fisheries Service, 3300 Whitehaven Street, NW., room 410, Washington, D.C.
National Marine Fisheries Service, Box 1668, Juneau, Alaska 99801.
U.S. Fish and Wildlife Service, 1412 Airport Way, Fairbanks, Alaska 99701.

Comments concerning the Draft Environmental Impact Statement are invited and should be submitted by September 23, 1977, to the Director (F33), National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, Phone 202/634-7283.

Purpose of hearing: Interested members of the public are invited to present comments and views concerning the impact on the human environment which can be expected to result from the decision of the Secretary of State, in concurrence with the Secretary of Commerce, to object to or to accept the resolution of the International Whaling Commission adopted at the 29th Annual Meeting, June 20-24, 1977, Canberra, Australia, which would prohibit all take of bowhead whales.

Some of the environmental factors considered relevant to this decision which have been addressed in the Draft Environmental Impact Statement include:

(1) The biology of the bowhead whale (distribution, reproduction, population, etc.);

(2) Description of the harvest by both foreign and Alaskan natives;

(3) Eskimo subsistence hunts affected by this decision;

(4) Factors possibly contributing to increased animal take;

(5) The relationship of the whale to Eskimo life (including the effects of the hunt on Eskimo life style, diet and health, economy, and relationship to the non-native world);

(6) Environmental impact if the United States does not object (including impact on bowhead whale, other species, Eskimos, and future research);

(7) Environmental impact if the United States does object (including impact on bowhead whale, other species, Eskimos, and the International Whaling Commission);

(8) Enforcement and management.

All public comments and views appropriate for assessing the effects upon the human environment caused by a U.S. decision regarding the International Whaling Commission's prohibition on the bowhead whale harvest are encouraged and are in no way limited to the information, insights, and/or issues currently addressed in the Draft Environmental Impact Statement.

The record will remain open to receive written comments and views until September 23, 1977, eight (8) days after the last public hearing. Such written comments, as well as any questions or other communications regarding the hearing or Draft Environmental Impact Statement should be directed to the Director (F33), National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 Phone 202/634-7283.

Dated: August 15, 1977.

WINFRED H. MEIBOHM,
Acting Deputy Director, National Marine Fisheries Service.

NEW ENGLAND FISHERY MANAGEMENT COUNCIL

Three Public Meetings

Notice is hereby given of three meetings of the New England Fishery Management Council established by Section 302 of the Fishery Conservation and Management Act of 1976 (Pub.L. 94-265).

The New England Fishery Management Council has authority, effective March 1, 1977, over fisheries within the fishery conservation zone adjacent to States of Maine, New Hampshire, Massachusetts, Rhode Island, and Connecticut. The Council will, among other things, prepare and submit to the Secretary of Commerce fishery management plans with respect to fisheries within its area of authority, prepare comments on foreign fishing applications, and conduct public hearings.

The first of the three Council meetings will be held on September 7 and 8, 13977, from 10:000 a.m. to 5:00 p.m., and

V42160 AUG 18 77 UM

9:00 a.m. to 4:00 p.m., respectively, at the Holiday Inn, Junction of Routes 1 and 128, Peabody, Mass. The meeting may be extended or shortened depending on progress on the agenda.

PROPOSED AGENDA

1. Silver Hake Management Objectives.
2. Election of Council Officers.
3. Report on Development of Herring and Scallop Plans.
4. Other Management Business.

The second of these Council meetings will be held on October 12 and 13, 1977, from 10:00 a.m. to 5:00 p.m., and 9:00 a.m. to 4:00 p.m., respectively, at the Holiday Inn, Junction of Routes 1 and 128, Peabody, Mass. This meeting may be extended or shortened depending on progress on the agenda.

PROPOSED AGENDA

1. Red Hake and Ocean Perch Management Objectives.
2. Council Annual Budget.
3. Report of Development of Herring and Scallop Plans.
4. Other Management Business.

The third in this series of Council meetings will be held on November 9 and 10, 1977, from 10:00 a.m. to 5:00 p.m., and 9:00 a.m. to 4:00 p.m., respectively, at the Holiday Inn, Junction of Routes 1 and 128, Peabody, Mass. This meeting may be extended or shortened depending on progress on the agenda.

PROPOSED AGENDA

1. Red Hake and Ocean Perch Management Objectives.
2. Report on Development of Silver Hake Plan
3. Other Management Business.

These meetings are open to the public and there will be seating for approximately 30 members of the public available on a first-come, first-serve basis.

Members of the public having an interest in specific items for discussion are also advised that agenda changes are at times made prior to the meeting. To receive information on changes, if any, made to the agendas, interested members of the public should contact on or about 10 days before each of these meetings:

Mr. Spencer Apollonio, Executive Director, New England Fishery Management Council, Peabody Office Building, One Newbury Street, Peabody, Mass. 01960.

At the discretion of the Council, interested members of the public may be permitted to speak at times which will allow the orderly conduct of Council business. Interested members of the public who wish to provide written comments should do so by submitting them to Mr. Apollonio at the above address. To receive due consideration to facilitate inclusion of these comments in the record of the meeting, typewritten statements should be received within 10 days after the close of the Council meeting.

Dated: August 12, 1977.

JOSEPH W. SLAVIN,
Acting Associate Director,
National Marine Fisheries Service.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON APPAREL FROM HAITI

Increasing Import Levels

AUGUST 16, 1977.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Combining the level of restraint established for men's and boys' trousers, slacks, and outer shorts in Category 50 with the level of restraint for women's, misses' and children's trousers, slacks and outer shorts in Category 51 during the agreement year which began on January 1, 1977.

(A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on February 3, 1975 (40 FR 5010), as amended on December 31, 1975 (40 FR 60220), December 30, 1976 (41 FR 56881), January 21, 1977 (42 FR 3888), and March 7, 1977 (42 FR 12898)).

SUMMARY: Under the terms of the Bilateral Cotton, Wool and Man Made Fiber Textile Agreement of March 22 and 23, as amended, between the Governments of the United States and Haiti, agreement has been reached to combine Categories 50 and 51 during the agreement year which began on January 1, 1977 at a level of restraint of 1.7 million square yards equivalent (95,522 dozen) during that period.

EFFECTIVE DATE: August 19, 1977.

FOR FURTHER INFORMATION CONTACT:

Edmond Callahan, International Trade Specialist, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-5423.

SUPPLEMENTARY INFORMATION: On December 30, 1976, a letter of December 27, 1976 was published in the FEDERAL REGISTER (41 FR 56879) from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs which established levels of restraint applicable to certain specified categories of cotton and man-made fiber textile products, produced or manufactured in Haiti and exported to the United States during the twelve-month period which began on January 1, 1977. In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry for consumption, or withdrawal from warehouse for consumption, of cotton textile products in Categories 50/51 in excess of 95,522 dozen during the agreement year which began on January 1, 1977.

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

AUGUST 16, 1977.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

DEAR MR. COMMISSIONER: *This directive* further amends, but does not cancel, the directive issued to you on December 27, 1976 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain specified categories of cotton and man-made fiber textile products.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of March 22 and 23, 1976, as amended, between the Governments of the United States and Haiti, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective on August 19, 1977, and for the twelve-month period which began on January 1, 1977 and extends through December 31, 1977, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 50/51 in excess of 95,522 dozen.[1] This level cancels the level previously established for Category 51 in the directive of December 27, 1976.

Cotton textile products in Category 50, produced or manufactured in Haiti, which have been exported to the United States before January 1, 1977, shall not be subject to this directive.

Cotton textile products in Category 50 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) before the effective date of this directive shall not be denied entry under this directive.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on February 3, 1975 (40 F.R. 5010), as amended on December 31, 1975 (40 F.R. 60220), December 30, 1976, (41 F.R. 56881), January 21, 1977 (42 F.R. 3888), and March 7, 1977 (42 F.R. 12898).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Haiti and with respect to imports of cotton textile products from Haiti have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT S. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.77-24082 Filed 8-17-77;8:45 am]

[1] The level of restraint has not been adjusted to reflect any imports after December 31, 1976.

DEPARTMENT OF DEFENSE

Department of the Army

ARMED FORCES EPIDEMIOLOGICAL BOARD

Open Meeting

1. In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made of the following committee meeting:

Name of Committee: Ad hoc Study Team of the Subcommittee on Disease Control of the Armed Forces Epidemiological Board.

Date of Meeting: September 15, 1977.

Place: Conference Room 3092, Walter Reed Army Institute of Research, Washington, D.C.

Time: 0900-1700.

Proposed Agenda: The proposed morning agenda will include discussion of the epidemiology of meningococcal disease in the United States and in other countries, the current risk of group A meningoccal disease in military recruits and the possible use of bivalent group A and C vaccines for protection of recruits. The proposed afternoon agenda will include discussion of the administration of live virus vaccines to female recruits in Armed Forces Training Centers and the associated scientific, legal, ethical and operational considerations.

2. This meeting fill be open to the public, but limited by space accommodations. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee. Interested persons wishing to participate should advise the Executive Secretary, DASG-AFEB, Room 1B472 Pentagon, Washington, D.C. 20310.

Dated: August 8, 1977.

DUANE G. ERICKSON,
LTC, MSC, USA,
Executive Secretary.

ARMED FORCES EPIDEMIOLOGICAL BOARD

Open Meeting

1. In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made of the following committee meeting:

Name of Committee: Ad hoc subcommittee on Asbestos-Related Health Problems of the AFEB Subcommittee on Environmental Quality.

Date of Meeting: September 29, 1977.

Place: The Surgeon General's Conference Room, Building 3, U.S. Navy Bureau of Medicine and Surgery, 23rd and D Streets NW., Washington, D.C.

Time: 0900-1630.

Proposed Agenda: The proposed agenda will be devoted to a review of potential health hazards associated with asbestos in DOD work environments. The discussions will include current information on health risk assessment, DOD personnel medical surveillance programs, studies underway or planned to provide needed information, DOD programs for control of exposure to asbestos, and related matters.

2. This meeting will be open to the public, but limited by space accommodations. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee. Interested persons wishing to participate should advise the Executive Secretary, DASG-AFEB, Room 1B472 Pentagon, Washington, D.C. 20310.

Dated: August 8, 1977.

DUANE G. ERICKSON,
LTC, MSC, USA,
Executive Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 870]

COMMON CARRIER SERVICES INFORMATION

Applications Accepted for Filing

AUGUST 8, 1977.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (See § 309(c) of the Communications Act), applications filed under Part 68, applications filed under Part 63 relative to small projects, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and Section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. (See § 1.227(b)(3) and 21.30(b) of the Commission's Rules.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

60378-CD-P/ML-77 The Mountain States Telephone and Telegraph Company (KPX44), C.P. for additional facilities to operate on 157.95 MHz. to be located 7 miles NW of Mack's Inn, Idaho.

60379-CD-P ML-77 The Mountain State Telephone and Telegraph Company (new), C.P. for a new Rural Subscriber station to operate on 157.77 MHz to be located 7.1 miles South-Southwest of Table Rock, Wyoming.

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

MAJOR AMENDMENTS

20341-CD-MP-(2)-77 Tel-Air Communications, Inc. (KSW214), Amend to change antenna on 152.18 MHz to a Sinclair SRL-228 oriented at N 280° E. and change effective radiated power. All other particulars of operation remain as reported on PN No. 836, dated December 13, 1976.

INFORMATIVE

Far too many applications for new or modified Common Carrier Station Construction Permits under Part 21 (FCC Form 401) are being received with inadequate references to material stated to be On File at the FCC. Paragraph 7(c) of the Specific Instructions included with the Form 401 specifies that, in referring to material previously included in FCC station files or applications, call signs and file numbers are required. References to docketed proceedings should include the title of the proceeding and the docket number. One practice, among others, which has proven to be particularly wasteful of time, is to include a reference which, when researched, itself contains a reference to another application. These references have been found up to three times removed from the original source. Improperly referenced applications lead to excessive FCC man-hours researching files, often fruitlessly, and delay further processing of backlogged applications.

There are many applications being received that are incomplete in other important respects. Oftentimes, pages are left out, spaces are left blank, or necessary exhibits are not attached. Some of the more commonly missing items include the following:

1. Demonstration of transmitter site availability, see Section 21.15(a) of the Commission's Rules;

2. A copy of a state franchise or other required authorization, a statement that no authorization is needed, or a request for waiver of Section 21.13(f) for filing the application pending the outcome of proceedings at the state level (if a waiver of Section 21.13 (f) is requested, the application must include an affirmative statement indicating that an application for any necessary state authority has already been filed with the appropriate state or local authorities), see item 42 of FCC Form 401 and Section 21.13(f) of the Rules;

3. A copy of a balance sheet dated within 90 days of the filing of the application and copies of all loan or credit arrangements, see item 48 of FCC Form 401 and Section 21.17 of the Rules; and

4. An indication of which technical personnel, if any, have the requisite FCC licenses to perform the necessary maintenance work on transmitting equipment, see item 49 of FCC Form 401 and Section 21.205 of the Rules.

Applications that do not include complete information are defective under Section 21.20 of the Rules and are subject to being returned to the applicant as defective.

CORRECTION

Arch, A Joint Venture appeared on the Commission's Public notice No. 869 dated August 1, 1977 as Major Amendment under Call Sign KDS495 (Developmental). The heading for the Amendment is corrected to read Informative, and the Call Sign corrected to Read New (Developmental). All other particulars are to remain as reported on PN No. 869 dated August 1, 1977.

POINT TO POINT MICROWAVE RADIO SERVICE

3237-CF-MP-77 The Pacific Telephone and Telegraph Company (KMA37), Oat Mtn 5.5 miles SW of Newhall, California. Lat. 34°19'47" N., Long. 118°36'00" W. Modification of C.P. to increase output on frequencies 11305V, 11625V, 11225V, 11465V MHz toward Los Angeles.

FEDERAL ENERGY ADMINISTRATION

GUAM OIL AND REFINERY CO.

Action Taken on Consent Order

Pursuant to 10 CFR 205.197(c), the Federal Energy Administration (FEA) hereby gives notice of final action taken on a Consent Order.

On May 25, 1977, FEA published Notice of a Consent Order which was executed between Guam Oil and Refinery Co., (Guam) and FEA, on April 22, 1977 (42 FR 26, 693 (May 25, 1977)). The Notice of the Consent Order was amended on June 17, 1977, to include the date until which comments on the notice would be accepted by FEA (42 FR 30, 898 (June 17, 1977)). With that Notice and in accordance with 10 CFR 205.197(c) FEA invited interested persons to comment on the Consent Order.

During the period for comment, FEA received no comments regarding the Consent Order. Accordingly, FEA has concluded that the Consent Order as executed between FEA and Guam on April 22, 1977 is an appropriate resolution of the compliance proceedings described in the Notice published on May 25, 1977. FEA, therefore, pursuant to § 205.97(c) hereby gives notice that the Consent Order shall become effective as proposed without modification upon publication of this notice in the FEDERAL REGISTER.

Issued in Washington, D.C., August 12, 1977.

ERIC FYGI,
Acting General Counsel

FEDERAL POWER COMMISSION

[Docket No. CP77-535]

CARNEGIE NATURAL GAS CO.

Application

AUGUST 11, 1977.

Take notice that on July 29, 1977, Carnegie Natural Gas Co. (Applicant), 3904 Main Street, Munhall, Pa. 15120, filed in Docket No. CP77-535, pursuant to Section 1.7(c) of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.7 (c)), an application for a declaratory order disclaiming Commission jurisdiction over certain gathering and compression services performed by Petitioner, or in the alternative an application, pursuant to Section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing said gathering and compression of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant says that it is a pipeline company which operates, inter alia, a natural gas production area of 39,002.51 acres in Mingo and Logan Counties, W. Va. Applicant asserts that under the terms of a 1956 agreement, it dedicated all gas production from the Mingo-Logan field to Hope Natural Gas Co., which was the predecessor to Consolidated Gas Supply Corp. (Consolidated). Gas produced from this Mingo-Logan field is now gathered and sold to Consolidated at the field compressor plant in Logan County, W. Va., says Applicant, under Rate Schedule S-6, First Revised Volume No. 1 of Applicant's tariff on file with the Commission. Applicant asserts that by an agreement dated February 21, 1974, it granted to Ramco Oil and Gas Corp. (Ramco) the right to drill wells in the Mingo-Logan field. According to Applicant, the production from the wells drilled by Ramco is sold by Ramco to Consolidated, but since this drilling is in an area remote from Consolidated's pipeline system, the agreement provides that Ramco will deliver the gas to Applicant's gathering pipeline system for redelivery to Consolidated.

Applicant says that its request for a declaratory order is prompted by a staff audit memorandum from the Commission containing preliminary findings by the Bureau of Natural Gas that the services being performed by Applicant required certificate findings because they involved new gas sold in the interstate market. It is the position of Applicant that its operation of gathering and compression facilities, even though performed for others, is within the "production and gathering" exemption of Section 1(b) of the Natural Gas Act and therefore beyond the Commission's jurisdiction. Applicant emphasizes that all of its services provided to effectuate the sales by Ramco to Consolidated take place behind the central point in the field, the Sweeny Compressor Plant, at which gas is delivered to Consolidated's single line. Consequently, Applicant requests the Commission to issue a declaratory order disclaiming jurisdiction over Applicant's compression and gathering of natural gas produced by others in the Mingo-Logan field.

In the event that the Commission determines it has jurisdiction over the aforementioned services, Applicant requests issuance of a certificate of public convenience and necessity authorizing the gathering and compression of natural gas hereinbefore described. Applicant says that it did not file for a certificate earlier because it believed that its gathering was nonjurisdictional. Applicant believes that its gathering and compression of Ramco's production is in the public interest because it obviates the necessity for duplicate facilities to be built by Ramco and reduces the unit cost of gathering and compressing Applicant's own production.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 6, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

In the event that the Commission should determine that the above described services are jurisdictional, take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on the application for a certificate if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

Petition To Amend

AUGUST 10, 1977.

Take notice that on July 25, 1977, Colorado Interstate Gas Co. (Petitioner), P.O. Box 1087, Colorado Springs, Colo. 80944, filed in Docket Nos. CP66-299 and CP73-238 a petition to amend the Commission's order of July 18, 1966 (36 FPC 116) as amended, and June 19, 1973 (49 FPC 1387) as amended, issued in the instant dockets respectively pursuant to Section 7(c) of the Natural Gas Act so as to permit (1) the orders in Docket No. CP66-299 to be further amended, as necessary and appropriate, to delete the volumes associated with the southern reservoir of the Fort Morgan Field, Colo., and to redesignated Well Nos. 3 and 6 as observation wells and (2) ordering paragraph (E) of the order issued in Docket No. CP73-238 to be amended to permit a maximum storage gas inventory of 14,140,355 Mcf and the maximum shut-in pressure be limited to 1,845 psig (north reservoir only), all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner indicates that pursuant to the Commission's order of July 18, 1966, as amended, it was authorized in Docket No. CP66-299 to develop the Fort Morgan Field in Northeast Colorado as an underground gas storage reservoir to render peaking service during the period November 1 through March 31 of each heating season. Petitioner states that the field was to consist of the northern and southern reservoirs, and that facilities associated with the development and operation of the field were authorized to be constructed over a four-year period beginning in 1966. Such facilities have been constructed, and the field has been in storage service since 1966, it is asserted.

Pursuant to the Commission's order of June 19, 1973, as amended, Applicant was granted authorization in Docket No. CP73-238 to limit the maximum storage inventory in the Fort Morgan Field to 17,500,000 Mcf and to limit the maximum wellhead shut-in pressure to 1,945 psig. Petitioner states that the storage volume consisted of approximately 14,140,355 Mcf in the northern reservoir and approximately 3,359,645 Mcf in the southern reservoir.

It is stated that Petitioner initially questioned the geological interpretation and reliability of Fort Morgan storage field in 1969, and that up to that time, the southern reservoir was believed to be a single structure and the north and south reservoirs were believed to be separate but connected. It is further stated that in 1969, Well No. 18 was drilled between two existing wells, Nos. 3 and 6, in the southern reservoir, and that Well No. 18 was found to be low structurally, water bearing, and in poorly developed sands. This caused a reevaluation of the geological interpretation of the southern reservoir, and it was tentatively identified as two separate reservoirs, it is indicated. Petitioner states that it was determined that the difficulty encountered in ascertaining a geological interpretation made further study and testing necessary in order to assess the southern reservoir's suitability for reliable storage service.

It is indicated that based on injections and withdrawals from 1966 through 1968, the gas in place in the southern reservoir was estimated to be approximately 3,441,540 Mcf as of January 1, 1969, and that approximately 150,000 Mcf was withdrawn during the period September 1969 through February 1970, although only Well No. 6 was productive. It is further indicated that the newly completed Well No. 18 and the existing Well No. 3 produced only water, and that the success of withdrawals from Well No. 6 encouraged continued testing operations in the belief that the other wells in the southern reservoir would eventually become fully productive. Consequently, during the summer of 1970, approximately 125,000 Mcf was injected into the one productive Well No. 6 and satisfactory withdrawals were achieved from early December 1970 through early February 1971 when the flow rate had to be increased to prevent freezing problems, it is said. Petitioner states that the increased flow caused Well No. 6 to water out, and that no further injections or withdrawals have been attempted because the water problems encountered indicated that continued operation of the southern reservoir was too risky and unreliable. Petitioner further states that constant monitoring of the pressure in the southern reservoir to day has confirmed Petitioner's opinion that it would be impractical to attempt any further development of the southern reservoir or to recover the volumes of gas therein.

Petitioner states that because of these factors, Wells Nos. 3 and 6 have been used for observation purposes since 1975. Consequently, Petitioner proposed herein that Well Nos. 3 and 6 be redesignated as observation wells and be continued in use for observation purposes to ensure that gas from the northern reservoir is not migrating.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 31, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Project No. 2336]

GEORGIA POWER CO.

Application for Approval of Revised Recreation Plan (Exhibit R)

AUGUST 11, 1977.

Public notice is hereby given that an application was filed on May 2, 1977, under the Federal Power Act, 16 U.S.C. §§ 791a et seq., by Georgia Power Company (Applicant) (Correspondence to: Mr. I. S. Mitchell, Vice President and Secretary, Georgia Power Company, 270 Peachtree Street, P.O. Box 4545, Atlanta, Georgia 30302) for Commission approval of a revised recreation plan (Exhibit R) for its Lloyd Shoals Project, FPC No. 2336. The project is located on the Ocmulgee River in Butts, Jasper, and Newton Counties, Georgia, in the vicinity of the cities of Jackson and Monticello.

The plan for recreational development presented by the Exhibit R lists the following recreational facilities open to the general public: three areas with boat launching, docking, and storage facilities and restaurants or concession buildings; and two areas that, in addition to the above listed features, also have picnicking and camping facilities.

A Future Farmers of America group camp is located on the Alcovy River arm of the reservoir. Applicant proposes to convey 40 acres of project land on the Yellow River and 106 acres of non-project land to the Cooperative Extension Service of the University of Georgia to be used as a 4-H Club educational camp.

Turtle Cove is a recreational second home development located between Georgia Highway 221 and the reservoir. The development includes five access points to the reservoir for persons who do not have lake front lots. Each access point consists of a paved single lane boat ramp, docks, a beach and a picnic area.

Applicant proposes to donate 15 acres of project lands near Alcovy Shoals to the State for park purposes. Applicant also proposes to make 385 adjacent acres available to the State for park purposes. The State's preliminary plan for use of this area proposes to preserve the natural setting for the enjoyment of anglers, hikers, and white-water enthusiasts.

Applicant further proposes to reserve a 50-acre area near the east abutment of the project dam for future recreational development. A smaller area on the west side of the dam would be initially developed, facilities to include a paved dual lane boat launching ramp, parking, sanitary facilities, picnic area, play area, beach, and a tailrace launching area for canoes and small boats.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 10, 1977, file with the Federal Power Commission, 825 North Capitol Street, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing in the proceeding must file a petition in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Project No. 2336]

GEORGIA POWER CO.

Application for Approval of Change in Land Rights

AUGUST 11, 1977.

Public notice is hereby given that an application was filed on October 20, 1976, under the Federal Power Act, 16 U.S.C. §§ 791a et seq., by Georgia Power Company (Correspondence to: Mr. I. S. Mitchell, III, Vice President and Secretary, Georgia Power Company, 270 Peachtree Street, Atlanta, Georgia 30302) for Commission approval of a proposed grant of 40 acres of land within the boundary of the Lloyd Shoals Project, FPC No. 2336, to the Board of Regents of the University of Georgia. Project No. 2336 is located on the Ocmulgee River in Butts, Jasper and Newton Counties, Georgia, near the cities of Monticello and Jackson.

The Cooperative Extension Service of the University of Georgia proposes to develop a 4-H Club educational camping site on a 106-acre tract owned by Georgia Power Company. The 40-acre parcel of project lands that the Company proposes to convey lies between the 106-acre tract and the Yellow River near the intersection of State Highways 36 and 162 in Newton County. According to the application, the 40 acres are to be used in conjunction with the 4-H camp, but will remain in an undeveloped state.

The application is on file with the Commission and is available for public inspection.

Any person desiring to be heard or to make any protest with referenee to said application should on or before October 3, 1977, file with the Federal Power Commission, 825 North Capitol Street, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 C.F.R. § 1.8 or § 1.10. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing in the proceeding must a file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-102]

PANHANDLE EASTERN PIPE LINE

Further Extension of Time and Postponement of Hearing Procedures

AUGUST 10, 1977.

On August 1, 1977, Panhandle Eastern Pipe Line Company (Panhandle) filed a motion to defer operation of Ordering Paragraph (E) and compliance with OrderingParagraph (F) of the Commission Order issued June 30, 1977, in the above designated proceeding. The motion states that Staff Counsel does not oppose the requested relief.

In support of the instant motion, Panhandle maintains that in view of its concurrent filing of an application for rehearing of the June 30 Order, it would be unfair to require Panhandle to file the revised settlement rates required by Ordering Paragraph (F) until the Commission has had an opportunity to review and act on the application for rehearing.

Upon consideration, notice is hereby given that a further extension of time is granted to and including September 15, 1977, within which Panhandle shall file the revised settlement rates required by Ordering Paragraph (F) of the June 30, 1977, Order. Operation of Ordering Paragraph (E) will be deferred pending action on the August 1, 1977, application for rehearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-513]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Filing

AUGUST 10, 1977.

Take notice that Public Service Company of Oklahoma (PSO) on July 12, 1977 tendered for filing an electric Wholesale for Resale Contract with the City of Copan, Oklahoma (City).

PSO states that prior to the effective date of this Contract, PSO had been serving the City through PSO's transmission facilities for the account of Southwestern Power Administration (SPA). The City then, in effect, has been a customer of SPA.

PSO further states that the Contract makes provisions for a power supply in the event the City negotiates a contract with SPA for partial service. PSO indicates that it anticipates the City will purchase its full requirements from SPA for at least twelve months and revenues to PSO will be zero during that period.

PSO requests waiver of the Commission's notice requirements to allow an effective date of July 1, 1977.

According to PSO copies of the filing were served upon the City of Copan and the Oklahoma Corporation Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or about August 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-117]

CARNEGIE NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

AUGUST 10, 1977.

Take notice that Carnegie Natural Gas Company (Carnegie), on July 29, 1977, tendered for filing Third Revised Sheet No. 15, Volume No. 1.

The proposed tariff sheet sets forth increased rates under Rate Schedule S-6. Rate Schedule S-6 provides for a 23.983 cents increase for each Mcf of gas produced or purchased for resale by Carnegie from the Mingo-Logan field, Mingo-Logan Counties, West Virginia, and an increase of 23.752 cents in the gathering and compression charge. The proposed effective date is September 1, 1977.

Copies of the filing were served upon the company's jurisdictional customer, Consolidated Gas Supply Corporation.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 26, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-534]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

AUGUST 11, 1977.

Take notice that on July 29, 1977, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP77-534 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 18,000 Mcf (14.73 psia) of natural gas per day for United Gas Pipe Line Company (United), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport said gas on an interruptible basis which United would deliver or cause to be delivered into Applicant's existing facilities at the tailgate of Mobile Oil Corporation's Cameron Plant in Cameron Parish, Louisiana. It is said that Applicant would contemporaneously deliver a thermally equivalent quantity to United at an existing authorized interconnection between the two systems in Victoria County, Texas.

The proposed service is pursuant to a transportation agreement dated June 23, 1977, between Applicant and United. It is said that under such agreement United would pay Applicant initially a charge of 3.5 cents per dekatherm (dt) equivalent of gas delivered. It is further stated that no new facilities are required.

It is indicated that United is presently curtailing deliveries of gas to its customers and that the volumes of gas reflected would help to maintain as adequate and reliable service as possible on United's system.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 31, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) as the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CS71-377, et al.]

EXPANO OIL CO., ET AL.

Applications for "Small Producer" Certificates [1]

AUGUST 9, 1977.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 6, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

ARK VALLEY BANKSHARES, INC.

Order Approving Formation of Bank Holding Company

Ark Valley Bankshares, Inc., La Junta, Colorado, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company by acquiring 83 percent of the voting shares of The La Junta State Bank, La Junta, Colorado ("La Junta Bank"), and 56 percent of the voting shares of The Empire State Bank, Rocky Ford, Colorado ("Empire Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a nonoperating corporation organized for the purpose of becoming a bank holding company. La Junta Bank and Empire Bank have aggregate deposits of $14.2 million, representing 0.17 percent of the total deposits in commercial banks in Colorado.[1] Approval of the application would not increase significantly the concentration of banking resources in Colorado.

La Junta Bank ($9.2 million in deposits) is the second largest of seven banks operating in the relevant market, which is approximated by Otero County, while Empire Bank ($5.0 million in deposits), located 11 miles away in Rocky Ford, is the sixth largest bank in that same market. Applicant, upon consummation, would control approximately 24 percent of total deposits in commercial banks in the relevant market, and would be the second largest of the six remaining banking organizations.

No existing competition would be eliminated by this proposal, however. Both banks are commonly owned and managed by principals of Applicant, who purchased a majority of the shares of both banks during 1975. In a case where a prior purchase by an applicant's principals eliminates substantial competition between two banks, the Board is reluctant to approve the formation of a bank holding company, even though such a formation, on its face, would appear to eliminate no existing competition.[2] However, in this instance, the two banks have been under common ownership and control since the formation of Empire Bank in 1949, and therefore the 1975 purchase of both banks by principals of Applicant was not anticompetitive. While approval of the proposal would further solidify the long-existing relationship between these two banks and reduce the likelihood that they would become independent competitors in the future, it is the Board's view that consummation of this proposal would not have any significant adverse effect on existing or potential competition in view of the small size of Empire Bank and the significant number of remaining banking alternatives given the size of the market. Several principals of Applicant are also principals of G. S. Bancshares, Inc., Goodland, Kansas, a one-Bank holding company; the bank controlled by that holding company does not compete in the Otero County banking market, and approval of this proposal would eliminate no existing competition among these three banks. Accordingly, on the basis of the facts of record, the Board concludes that consummation of the proposal would not have any significantly adverse effect on competition.

The financial and managerial resources and future prospects of Applicant and both banks are considered to be satisfactory and are consistent with approval of the application. Although Applicant will incur debt in connection with the proposal, it appears to have the necessary financial resources available to service the debt without impairing the financial condition of either bank. While there will be no immediate increase in the services offered by either bank as a result of the proposed transaction, the considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed transaction would be consistent with the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[3] effective AUGUST 10, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-23860 Filed 8-17-77;8:45 am]

CAPRICE CORP.

Order Approving Acquisition of Bank

Caprice Corporation, Red Lake Falls, Minnesota, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 93.33 percent or more of the voting shares of Plummer State Bank, Plummer, Minnesota ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the 203rd largest banking organization in Minnesota, controls one bank with total deposits of approximately $11.8 million, representing 0.07 per cent of total commercial bank deposits in Minnesota.[1] Acquisition of Bank ($2.1 million in deposits) would increase Applicant's share of Statewide commercial bank deposits by only 0.01 per cent and would have no appreciable effect upon the concentration of banking resources in the State.

Bank ranks seventh out of the eight commercial banking organizations operating in the Thief River Falls banking market (the relevant banking market),[2] and controls approximately 2.2 per cent of the total deposits in commercial banks in the market. Applicant's banking subsidiary, located 13½ miles west of Bank, is the third largest banking organization in the market and controls 12.3 per cent of market deposits. While consummation of the proposal would eliminate the existing competition between Applicant's subsidiary bank and Bank, the competitive effects are mitigated by the relatively small size of these two banks, by the small total amount of existing competition that would be eliminated, and by the fact that the two largest banks in the market control nearly 70 per cent of the market's deposits. In light of the above and other facts of record, the Board concludes that the proposed acquisition would have only a slightly adverse effect on existing competition.

The financial and managerial resources and future prospects of Bank, Applicant, and its bank subsidiary are regarded as satisfactory and consistent with approval. Affiliation with Applicant should enable Bank to expand and improve banking services currently being offered. Accordingly, the Board regards considerations relating to the convenience and needs of the community to be served as lending such weight toward approval of the application as to outweigh any slightly adverse competitive effects that might result from consummation of the proposal. Accordingly, it has been determined that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Minneapolis acting pursuant to delegated authority.

By order of the Board of Governors,[3] effective AUGUST 10, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-23861 Filed 8-17-77;8:45 am]

CENTRAL BANCOMPANY

Order Approving Acquisition of Bank

Central Bancompany, Jefferson City, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of The First National Bank of Mexico, Mexico, Missouri ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. In response to the large number of comments received in opposition to the application from various individuals including Bank's President ("Protestant"), the Board ordered an Oral Presentation which was held at the Federal Reserve Bank of St. Louis on June 14, 1977.[1] The Board has considered the application, all written comments received and the testimony presented at the Oral Presentation in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the eighth largest banking organization in Missouri, controls four banks with aggregate deposits of $374.4 million, representing 2 percent of the total deposits in commercial banks in the State.[2] Acquisition of Bank, which holds deposits of $15.2 million, would increase Applicant's share of Statewide commercial bank deposits by less than 0.1 percent and would have no appreciable effect upon the concentration of banking resources in the State.

Bank is the third largest of six banking organizations in the Mexico banking market and controls approximately 17.1 per cent of the total deposits in commercial banks in the market.[3] Applicant's nearest subsidiary bank is located approximately 40 miles west of Bank. In view of the distance between Bank and Applicant's nearest banking subsidiary, and other facts of record, no significant competition exists between Bank and Applicant's banking subsidiaries.[4] Furthermore, the Mexico banking market is not considered attractive for de novo entry in view of the declining population within the market.[5] The deposits per banking office ratio of $9.1 million for the market is substantially below the State average of $16.6 million. Thus, competition does not appear likely to develop in the future.

Protestant claims that consummation of the proposal would result in 83 per cent of the total bank assets in Audrain County and 100 per cent of the bank assets in Mexico being owned by bank holding companies. Protestant contends that this would amount to an undue concentration of banking resources and a loss of competition within the relevant market.[6] The Board has reviewed the submissions and testimony of Protestant and is unable to agree with this conclusion.

Section 3(c) of the Act requires the Board to consider whether a proposed acquisition would have adverse effects upon competition within a relevant banking market. This analysis relates primarily to the number of existing or potential banking organizations competing in a market. There is nothing in the legislative history of the Act in this regard that indicates that the Board is to consider whether a banking organization is independently owned or owned by a multibank holding company to be in and of itself a competitive factor. Ownership and management do, of course, enter into the convenience and needs factors, as discused below. It appears that the acquisition of Bank by Applicant would result in the introduction of a significant multibank holding company into the market and would stimulate competition between Bank and the two other banks in the market controlled by major bank holding companies.[7] Accordingly, the Board finds that consummation of the proposal would neither eliminate any significant existing or potential competition nor increase the concentration of banking resources in any relevant market and that competitive considerations are consistent with approval of the application.

Protestant maintains that the manner in which Applicant secured tender offers for a majority of Bank's stock reflects so adversely upon Applicant's management as to warrant denial of the application. As further support for a denial of the application due to managerial considerations, Protestant claims that the price Applicant offered for the shares of Bank was unconscionably low, that Applicant lacks the managerial resources to replace Bank's management which has threatened to resign if the application is approved, and that Applicant violated the Act when one of its subsidiary banks acquired sole discretionary authority to exercise voting rights with respect to 100 shares of Bank placed in trust with one of Applicant's subsidiary banks. On the basis of the complete record on the application, the Board makes the following findings.

---

[1] All banking data are as of December 31, 1976.

[2] See the Board's Order of May 11, 1977, denying the application of Mahaska Investment Company, Oskaloosa, Iowa, to become a bank holding company. (63 Fed. Res. Bull. 579 (1977)).

[3] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee and Lilly. Absent and not voting: Governor Gardner.

[1] All banking data are as of December 31, 1976.

[2] The relevant banking market is approximated by Red Lake and Pennington Counties and the eastern two-thirds of Marshall County.

[3] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee and Lilly. Absent and not voting: Governor Gardner.

[1] See the Board's Order of April 11, 1977 (63 Federal Reserve Bulletin 493).

[2] All banking data are as of December 31, 1976.

[3] The Mexico market is approximated by Audrain County plus the town of Auxvasse in adjoining Callaway County.

[4] At the Oral Presentation, Bank's President conceded that there was no significant competition between Bank and Applicant (Transcript p. 117–118).

[5] Population data and estimates from the Bureau of the Census show that the market population declined 2.7 per cent from 1960–70 relative to a gain of 8.3 per cent for the State and it is estimated that the market did not grow from 1970–74 (25,362 to 25,300), relative to an estimated gain of 2.1 per cent for the State during this period.

[6] Protestant contends that the fact that 83 per cent of the banking assets in the relevant market will be controlled by multibank holding companies constitutes an undue concentration of banking resources. This analysis is incorrect. The Board must consider the percentage of the market's banking deposits controlled by each banking organization, not by multibank holding companies as a group or independent banks as a group.

[7] We note as an aside that in any event, three independent banks will remain in the market as alternatives for those individuals who prefer to deal with a bank that is not affiliated with a holding company.

V 42 160 AUG 18 77 UM

The three largest shareholders of Bank are Bradford Brett, President of Bank and owner of 255 shares representing 25.5 per cent of Bank's stock; Ms. Anne Parry, a cousin of Bradford Brett and owner of 210 shares representing 21 per cent of Bank's stock, and Mrs. Miriam Edmonston, a sister of Anne Parry and owner of 240 shares representing 24 per cent of Bank's stock. During 1974 and 1975, Ms. Parry indicated to Mr. Brett that she and her sister, Mrs. Edmonston, were considering selling their Bank stock and requested Mr. Brett's assistance in facilitating a sale. Ms. Parry indicated that she needed more income than the dividends paid on Bank's stock were providing her at that time. Ms. Parry indicated her belief that $1,000 per share was an acceptable price for Bank's stock; however, Mr. Brett indicated to her that it was unlikely that he could obtain more than $600 per share for Bank's stock. Book value of the stock at that time was about $1,200 per share. It appears that neither Ms. Parry nor Mrs. Edmonston was successful in selling her Bank stock.

On July 27, 1976, Mrs. Edmonston mentioned to Mr. R. B. Price, the President of Applicant's subsidiary bank located in Columbia, Missouri, that she and her sister were considering an offer by an individual in Seattle, Washington, to purchase their Bank stock for $1,500 per share. On July 30, 1976, Mrs. Edmonston met with representatives of Applicant and Mr. Price to discuss a possible sale of her Bank stock to Applicant. Negotiations ensued and on August 1, Mrs. Edmonston, Ms. Parry, and another shareholder of Bank, Mr. Stephenson, tendered their shares representing a majority of Bank's stock to Applicant for $2,000 per share. Mr. Brett was not consulted until August 2, 1976, when Mr. Quigg, representing Applicant, informed Mr. Brett of the tender offer and offered to purchase his shares of Bank. Shortly after that meeting, Mr. Brett undertook a campaign to rally public support for his opposition to the proposed acquisition. On August 16, 1976, representatives of Applicant met with the Board of Directors of Bank. A copy of the statement made by Applicant's representatives at that meeting shows that they expressed a desire to operate Bank as a local bank, to retain the officers and employees of Bank, to retain the directors of Bank and to purchase the outstanding shares of Bank at the same price per share that Applicant had agreed to pay for the controlling block of stock already tendered. Bank's Board of Directors apparently rejected Applicant's offers and threatened to resign en masse if the proposal were approved.

The Board is unable to agree with Protestant that Applicant's acquisition of tender offers for a majority of Bank's stock reflects adversely on managerial factors. It appears that the initial contact was initiated by Bank's majority shareholders. Further, Bank's remaining shareholders were offered the opportunity to sell their shares at the same price as Bank's majority shareholders. Applicant had no legal duty to inform the management of Bank that an offer for a majority of Bank's stock was outstanding. The majority shareholders of a bank do not have an obligation to perpetuate the management of a bank or advise management of plans to sell their stock. On the contrary, the obligations and responsibilities run in the opposite direction; management owes a fiduciary duty to all of the shareholders of a bank.

With respect to Protestant's assertion that the price of $2000 per share is so low as to be unconscionable, the Board notes that at the Oral Presentation Mr. Brett estimated that the shares of Bank stock were worth a minimum of $2,500 (Transcript p. 98). This difference of $500 per share between Protestant's valuation and Applicant's offer does not appear to support Protestant's claim that $2,000 is an unconscionably low offer in light of the fact that the $2,000 per share price is 1.6 times the book value of Bank's stock and was freely arrived at by Bank's shareholders and Applicant after extensive negotiations.[8]

With respect to the threatened resignation of Bank's officers and directors, Applicant has indicated, and the Board finds, that Applicant has adequate experienced personnel to assume control of the daily operations and the management of Bank were such action necessary. Moreover, several of the directors who testified at the Oral Presentation, including Mr. Brett himself, indicated that they might remain as directors even if the application is approved and have indicated that they are aware of their fiduciary duties to the shareholders who elected them in the event minority shareholders remain.

Finally, Protestant contends that Applicant may have violated the Act when its subsidiary bank in Columbia, Missouri, established a trust for one of Bank's shareholders in December 1976, a part of the corpus of which was 100 100 shares of Bank. Applicant's subsidiary acquired sole discretionary voting authority over those Bank shares. Protestant contends alternatively that those shares of Bank were not acquired by Applicant's subsidiary bank in good faith, as required by section 3(a) of the Act, or if acquired in good faith, Applicant failed to make proper application to the Board within 90 days to retain the shares as required in section 3(a) of the Act. On the basis of a review of the facts surrounding the formation of the trust, the documents evidencing the trust and the affidavits of the parties to the transaction, it appears that the transaction was not an attempt to evade the Act, that the Federal Reserve Bank of St. Louis was made fully aware of the circumstances surrounding the creation of the trust within 90 days of Applicant's acquisition of sole discretionary voting authority over the shares of Bank, and that the shares of Bank were acquired in good faith in a fiduciary capacity. Applicant has indicated that if its present application is denied it will accept that determination by the Board as a determination that it may not retain the 100 shares of Bank's stock held in trust and will divest of those shares in compliance with the two-year statutory requirement in section 3(a) of the Act. In view of the foregoing, the Board finds that Applicant's conduct with respect to the shares held in trust has not been such as would require denial of this application.

Considerations relating to the financial resources of Bank and Applicant are consistent with approval of the application. The financial resources of Applicant and its subsidiaries are considered satisfactory. Although Applicant would incur some debt in connection with its acquisition of Bank, Applicant has stated that all indebtedness related to Bank's acquisition could be retired within four years.

Protestant contends that the future prospects of Bank and the convenience and needs of the community would be adversely affected by approval of this application. Protestant points to a petition signed by over 6000 local residents supporting Mr. Brett and his effort to keep Bank an "independent" bank. Protestant contends that the future prospects of Bank would be adversely affected by the combination of a loss of Bank's current management and a withdrawal of deposits by citizens opposing the acquisition. The Board has reviewed the complete record and finds that, although some of Bank's management may leave as a result of this acquisition, Applicant has sufficient managerial resources to fill any vacancies that may occur. Moreover, most of Bank's officers, including Mr. Brett, are over 65 years old and would be likely to retire soon in any case. Bank's management presently has no plans for management succession and to that end, Applicant's ability to provide successor management lends some weight toward approval of this application. In addition, the 6,000 signatures Protestant has collected do not indicate an intent on the part of the signatories to terminate their business relationships with Bank. The petitions do not name Applicant or the proposed acquisition. The petitions merely express support for Mr. Brett to do his best to keep Bank an independent bank.

Protestant alleges that independent banks serve their communities better than banks owned by bank holding companies. Moreover, Protestant contends that people within a community should have a choice between doing business with an independent bank and a subsidiary bank of a bank holding company.

[8] It appear that in early 1976, Mr. Brett proposed an exchange of stock with Ms. Parry. Mr. Brett's own valuation of Ms. Parry's Bank stock for purposes of an exchange for unrelated securities held by Mr. Brett was $600 per share. Mr. Brett stated at the hearing that there were no changes that would give rise to a significant increase in th value of Bank's stock in the 18 months since Mr. Brett's exchange offer. (Transcript p. 120–121.)

The Board regards these arguments as being relevant only to the extent that they reflect upon the convenience and needs of the relevant community to be served in each application. The record in this application shows that the Mexico banking market is not a highly competitive banking market.[9] The Comptroller of the Currency has noted in his comments upon this application that "Applicant appears to possess the financial and managerial resources necessary to aid Bank in becoming a more aggressive competitor and a more meaningful banking alternative."

Applicant has stated that it will provide a variety of new or expanded services, including $200 minimum balance free checking, maximum interest rates on customers' savings, expanded operating hours, improved drive-in facilities, trust services, improved data processing services for Bank, direct equipment leasing and an automobile leasing program. Thus, considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. The Board finds that approval of the proposed application would be in the public interest and that the application should be approved.

On the basis of the complete record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,[10] effective AUGUST 11, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-23862 Filed 8-17-77;8:45 am]

METROPOLITAN BANK AND TRUST CO., PHILIPPINE SECURITIES CORP. AND TYTANA CORP.

Order Approving Formation of Bank Holding Companies

Metropolitan Bank and Trust Company ("Metropolitan"), Philippine Securities Corporation ("PSC"), and Tytana Corporation ("Tytana"); all of Makati, Rizal, Philippines (referred to collectively as "Applicants"), have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of bank holding companies by acquiring directly or indirectly up to 35 percent of the voting shares of International Bank of California, Los Angeles, California ("Bank").

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Metropolitan (deposits of approximately $165.3 million)[1] was organized in 1962 as a Philippine commercial bank. It presently operates 86 branches in the Philippines, a branch in Taiwan, and an agency in Los Angeles, California. PSC is principally engaged in the real estate business as a direct investor and dealer. PSC's application to become a bank holding company is necessitated by the fact that it exercises a controlling influence over the management or policies of Metropolitan.[2] Tytana is a Philippine investment company that directly or indirectly owns 27.7 percent of the voting shares of Metropolitan and thus is deemed to control Metropolitan pursuant to section 2(a)(2)(A) of the Act. With the exception of Metropolitan's Los Angeles agency, neither Metropolitan, PSC, nor Tytana is engaged in any activities directly or indirectly in the United States.

Bank (deposits of approximately $4.4 million)[3] ranks 96th out of 98 banking organizations in the relevant banking market and has only a .01 percent share of market deposits.[4] Metropolitan's Los Angeles agency is not authorized to accept domestic deposits, and it does not appear from the facts of record that any meaningful competition between Bank and the agency would be eliminated as a result of this proposal. In view of Bank's size and its rank in the market, the Board believes that its acquisition by Metropolitan, a major Philippine commercial bank, should have a salutary effect on competition by enhancing Bank's competitive capabilities relative to the other banks in the market. Therefore, on the basis of the record, the Board concludes that consummation of the proposal would not have a significant adverse effect on existing or potential competition, nor would it have a significant effect on the concentration of banking resources, in any relevant area. Competitive considerations are, therefore, consistent with approval of the applications.

The financial and managerial resources and future prospects of Applicants are considered generally satisfactory; and, in view of Applicants' intention to strengthen the management of Bank, the same considerations appear to be generally satisfactory with respect to Bank. Accordingly, banking factors are consistent with approval of the subject applications. Although there would be no immediate increase in the services offered by Bank as a result of the proposed transaction, the considerations relating to the convenience and needs of the community to be served are consistent with approval of the applications. In particular, Bank's affiliation with Metropolitan will result in another international banking link between the Philippines and the United States. It is the Board's judgment that the proposed transactions would be consistent with the public interest and that the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Board of Governors,[5] effective August 10, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-23863 Filed 8-17-77;8:45 am]

WISCUB, INC.

Formation of Bank Holding Company

WISCUB, Inc., Milwaukee, Wisconsin, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 780.5 (or more) of the voting shares of The Cleveland State Bank, Cleveland, Wisconsin. The factors that are considered in acting on the applica-

[9] It appears that the other bank located in Mexico is the only subsidiary bank of the third largest holding company in Missouri that does not offer free checking services. Bank does not offer free checking services to its customers either.

[10] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee, and Lilly. Absent and not voting: Governor Gardner.

[1] As of January 31, 1977.

[2] PSC owns approximately 18.8 percent of the voting shares of Metropolitan. In addition, PSC's principals own approximately 35.6 percent of the voting shares of Metropolitan and three of PSC's officers or directors also serve as officers or directors of Metropolitan. PSC has previously been advised that in the view of the Board's staff the rebuttable presumption of control contained in § 225.2(b)(2) of Regulation Y 12 CFR 225.2(b)(2)) would apply to PSC's relationship with Metropolitan if Metropolitan were to become a bank holding company. By virtue of its filing the subject application to become a bank holding company, PSC acknowledges that it would exercise a controlling influence over Metropolitan and thereby waives the notice and opportunity for hearing requirements of section 2(a)(2)(C) of the Act. In connection with its consideration of PSC's application, the Board has determined that PSC exercises a controlling influence over the management or policies of Metropolitan and thus would become a bank holding company upon consummation of the subject proposal.

[3] As of December 31, 1976.

[4] The relevant banking market is approximated by Orange and Los Angeles Counties.

[5] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee, and Lilly. Absent and not voting: Governor Gardner.

VOL 42 160 AUG 18 77 UM

tion are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than September 9, 1977.

Board of Governors of the Federal Reserve System, August 11, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

Meeting

Notice is hereby given, pursuant to PL 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on Thursday, September 8, Friday, Septemebr 9 and Saturday, September 10, 1977. The Committees on Successful Programs/Parent Involvement, Indian Education/Migrant, and Legislative Testimony will meet on Thursday from 7:00 p.m.–9:00 p.m. The regular Council meeting will be held from 9:00 a.m.–4:30 p.m. on Friday, and on Saturday from 9:00 a.m.–1:00 p.m. The three-day activities will be held at 425 Thirteenth Street, NW., Suite 1012, Washington, D.C. 20004.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The purpose of the committee meetings will be to discuss future activities and report on the status of individual committee draft outlines and reports. The full Council meeting is being held to review and comment on written draft materials of committee reports; discuss the implications of President Carter's Welfare Reform on Title I eligibility criteria; and to get a briefing from NIE on the Compensatory Education Study.

The entire meeting will be open to the public. Because of limited space, all persons wishing to attend should call for reservations by September 5, 1977, area code 202/382-6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 Thirteenth Street, NW., Suite 1012, Washington, D.C. 20004.

Signed at Washington, D.C. on August 15, 1977.

GLORIA STRICKLAND,
Acting Executive Director.

[FR Doc.77-23807 Filed 8-17-77;8:45 am]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

[F-22940]

Proposed Withdrawal and Reservation of Lands

AUGUST 10, 1977.

The U.S. Army Corps of Engineers, on February 3, 1976, filed application, Serial No. F-22940, for the withdrawal of the following described lands from settlement, sale, location, or entry, under all of the general land laws, including the mining and mineral leasing laws, subject to valid existing rights:

U.S. Survey 4290, containing 2.06 acres.

The applicant agency desires that the lands be withdrawn and reserved for use by the U.S. Air Force as a radio relay site.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned authorized officer of the Bureau of Land Management on or before September 22, 1977.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501, on or before September 22, 1977. Notice of the public hearing will be published in the FEDERAL REGISTER giving the time and place of such hearing. The public hearing will be scheduled and conducted in accordance with BLM Manual, Sec. 2351.16 B.

The Department of the Interior's regulations provide that the authorized officer of the BLM will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's, and reaching agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency. The determination of the secretary on the application will be published in the FEDERAL REGISTER. The Secretary's determination shall, in a proper case, be subject to the provisions of section 204(c) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2752. The above-described lands are temporarily segregated from the operation of the public land laws, including the mining and leasing laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. The segregative effect of this proposed withdrawal shall terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with this proposed withdrawal should be addressed to the Chief, Branch of Lands and Minerals Operations, Alaska State Office, Bureau of Land Management, Department of the Interior, 555 Cordova Street, Anchorage, Alaska 99501.

CLAIR M. WHITLOCK,
Acting State Director.

[FR Doc.77-23911 Filed 8-17-77;8:45 am]

[CA 2314]

CALIFORNIA

Order Providing For Opening of Lands

AUGUST 11, 1977.

By virtue of the authority contained in Section 24 of the Act of June 10, 1920, 41 Stat. 1075, as amended, 16 U.S.C. 818 (1970), and in accordance with the authority delegated to me by the State Director, California State Office, Bureau of Land Management, dated January 13, 1977 (42 FR 3901), as amended, and pursuant to the determination of the Federal Power Commission in DA-1117 California, May 11, 1977, it is ordered as follows:

1. In DA-1117 California the Federal Power Commission determined that the power withdrawal, as it affects that portion of the following described land lying outside the boundary of Power Project 2179 as shown on approved map Exhibit K, Sheet 1 of 17 (FPC No. 2179-116), is no longer needed for power purposes and is vacated:

MOUNT DIABLO MERIDIAN

T. 5 S., R. 15 E.,
Sec. 2, Lot 1.

The area aggregates approximately 51.8 acres in Mariposa County, California.

2. The Commission finds that the value of those portions of the followng described land lying within the boundary of Project No. 2179 as shown on approved map Exhibit K, Sheet 1 of 17 (FPC No. 2179-116) will not be injured or destroyed by conveyance subject to Section 24 of the Federal Power Act.

MOUNT DIABLO MERIDIAN

T. 5 S., R. 15 E.,
Sec. 2, Lot 1

The area aggregates approximately 6.1 acres in Mariposa County, California.

3. The State of California has waived its preference right of application for highway rights-of-way or material sites afforded it by Section 24 of the Federal Power Act.

4. The land shall be made immediately available for consummation of a pending Bureau of Land Management exchange, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, subject to the provisions of Section 24 of the Federal Power Act, supra.

VIOLA ANDRADE,
Acting Chief, Lands Section, Branch of Lands and Minerals Operations.

[CA 4484]

CALIFORNIA

Proposed Withdrawal and Reservation of Lands

AUGUST 12, 1977.

The Bureau of Reclammation, Department of the Interior, on July 19, 1977, filed application, Serial No. CA 4484, for the amendment of its existing Colorado River Storage Project withdrawal created by Departmental Orders dated September 8, 1903, June 4, 1930, March 26, 1931, and October 16, 1931, to include the following described lands:

SAN BERNARDINO MERIDIAN

T. 4½ N., R. 24 E.,
Sec. 36, Lots 1, 2, 3, 4, and 5, S½SW¼, and SW¼SE¼.

The area aggregates approximately 320.38 acres.

This application for withdrawal from settlement, sale, location, or entry under all of the general land laws, including the mining laws, subject to valid existing rights, is required to conform to the survey of omitted land between Townships 4 and 5 North, Range 24 East of San Bernardino Meridian, California.

On or before September 21, 1977, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Pursuant to Section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the State Director, Bureau of Land Management, at the address shown below, by September 21, 1977. Upon determination by the State Director that a public hearing will be held, the time and place will be announced.

The Department of the Interior's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn as requested by the applicant agency. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

For a period of two years from the date of publication of this notice in the FEDERAL REGISTER, the lands will be segregated from entry as specified above unless the application is rejected or the withdrawal is approved prior to that date. If the withdrawal is approved, the segregation will continue for a time period specified in the withdrawal notice.

All communications (except for public hearing requests) in connection with this withdrawal should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

VIOLA ANDRADE,
Acting Chief, Lands Section, Branch of Lands and Minerals Operations.

[NM 31180]

NEW MEXICO

Application

AUGUST 10, 1977.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Chace Oil Company, Inc. has applied for seven 6-inch and 2-inch pipelines and a compressor site rights-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 22 N., R. 7 W.,
Sec. 11, S½NE¼ and SE¼SE¼;
Sec. 12, W½NW¼ and SE¼NW¼;
Sec. 13, W½NE¼, N½NW¼ and SW¼SW¼;
Sec. 14, E½E½.

The pipelines and compressor site will be used in connection with natural gas operations and will cross 3.066 miles and 0.057 acres of public land in Sandoval County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, New Mexico 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

National Park Service

HISTORIC AMERICAN ENGINEERING RECORD ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Historic American Engineering Record Advisory Committee will be held on September 14 and 15, in Room 5125, 1100 L Street NW., Washington, D.C., between the hours of 10:00 a.m. and 4:00 p.m.

The purpose of the Historic American Engineering Record Advisory Committee is to render advice on matters relating to the task of recording the historic engineering and industrial monuments of the country.

The members of the Advisory Committee are as follows:

Professor Eugene S. Ferguson (Chairman), Curator, Hagley Museum, Greenville, Wilmington, Del. 19807.
Mr. Daniel J. Boorstin, Librarian of Congress, Library of Congress, Washington, D.C. 20560.
Dr. John G. Burke, University of California, Los Angeles, Calif. 90024.
Dr. Emory L. Kemp, West Virginia University, Morgantown, W. Va. 26505.
Mr. Neal FitzSimons, ASCE Committee on the History and Heritage of American Civil Engineering, Kensington, Md. 20795.
Mr. Jerry Rogers, Office of Archeology and Historic Preservation, National Park Service, Washington, D.C. 20240.

The matters to be discussed include the following:

HAER Editorial Projects and Publications Program, HAER Inventory, 1976-77 Projects, Discussion of Current Problems and Future Needs.

The meeting is open to the public, but facilities and space are limited. Any member of the public may file a written statement concerning the matters discussed. Persons wanting further information concerning this meeting or wishing to file written statements should contact the Historic American Engineering Record, Office of Archeology and Historic Preservation, National Park Service, Washington, D.C., 202-523-5460. Minutes of the meeting will be made available for public inspection 5 weeks after the meeting at the office of the Historic American Engineering Record, Room 5125, 1100 L Street NW., Washington, D.C.

Dated: August 9, 1977.

JERRY L. ROGERS,
Chief, Office of Archeology and Historic Preservation.

PROPOSED PACIFIC POWER AND LIGHT COMPANY 500 KV TRANSMISSION LINE BETWEEN MIDPOINT, IDAHO, AND MEDFORD, OREG.

[INT FES 77-28]

Availability of Final Environmental Statement

The final environmental statement for Pacific Power and Light Company's proposal to construct, operate, and maintain a 500 kV electric transmission line between Midpoint, Idaho, and Medford, Oreg., has been released for public inspection.

A limited number of copies of the environmental statement are available upon request at the Oregon State Office, Bureau of Land Management, P.O. Box 2965, Portland, Oreg. 97208, and the Idaho State Office, Bureau of Land Management, P.O. Box 042, Boise, Idaho 83724.

Public reading copies will be available for review at the following locations:

Office of Information, Bureau of Land Management, Room 5625, Interior Building, 18th and C Streets NW., Washington, D.C. 20240.
Idaho State Office, Bureau of Land Management, Room 398, Federal Building, 550 West Fort Street, Boise, Idaho 83724.
Oregon State Office, Bureau of Land Management, Room 100, 729 N.E. Oregon Street, Portland, Oreg. 97208.
Medford District Office, Bureau of Land Management, 310 W. 6th Street, Medford, Oreg. 97501.
Lakeview District Office, Bureau of Land Management, 230 Collins Road, Boise, Idaho Oreg. 97630.
Vale District Office, Bureau of Land Management, 365 "A" Street West, Vale, Oreg. 97918.
Fremont National Forest, 34 "D" Street N., Lakeview, Oreg. 97630.
Burns District Office, Bureau of Land Management, 74 S. Alvord Street, Burns, Oreg. 97720.
Boise District Office, Bureau of Land Management, 230 Collins Road, Boise, Idaho 83702.

Public libraries in Ashland and Portland, Oregon, and Boise, Idaho, also have reading copies available.

A limited number of single copies may be obtained by writing the Oregon State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Dated: August 15, 1977.

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES v. BEATRICE FOODS CO., OLSONITE CORPORATION, BEMIS MANUFACTURING COMPANY AND STANDARD TANK & SEAT CO.

Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. Sections 16 (b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Eastern District of Michigan, Detroit, in Civil Action No. 4-71922, *United States of America* v. *Beatrice Foods Co., Olsonite Corporation, Bemis Manufacturing Company, and Standard Tank & Seat Co.*

The complaint in this case alleges that the defendants, companies which manufacture and sell toilet seats, engaged in a conspiracy to raise, fix, maintain and stabilize the prices of popular priced wood flour toilet seats in the United States. The proposed judgment enjoins the defendants from entering into or adhering to any agreements or arrangements with any manufacturer of toilet seats to raise, fix, stabilize or maintain the price, discount, markup or any other term or condition with respect to the sale of any toilet seat to any third person and also grants certain additional relief.

Public comment is invited on or before October 17, 1977. Such comments and responses thereto will be published in the Federal Register and filed with the Court. Comments should be directed to Joseph H. Widmar, Chief, Trial Section, Antitrust Division, United States Department of Justice, Room 3266, Washington, D.C. 20530.

Dated: August 11, 1977.

BERNARD M. HOLLANDER,
Chief, Judgments and Judgment Enforcement Section.

UNITED STATES DISTRICT COURT, EASTERN DISTRICT OF MICHIGAN, SOUTHERN DIVISION

United States of America, Plaintiff, v. *Beatrice Foods Co.; Olsonite Corp.; Bemis Manufacturing Co; and Standard Tank & Seat Co.*, Defendants.
Civil No. 4-71922.
Filed: August 11, 1977.

STIPULATION

It is stipulated by and between the undersigned parties, plaintiff United States of America, and defendants Beatrice Foods Co., Olsonite Corporation, Bemis Manufacturing Company and Standard Tank & Co., by their respective attorneys, that:

1. The parties consent that a Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16) and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event that plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever and the making of this Stipulation shall be without prejudice to plaintiff and defendants in this or any other proceeding.

Dated: August 11, 1977.

For the Plaintiff: John H. Shenefield, *Acting Assistant Attorney General;* William E. Swope, Charles F. B. McAleer, Joseph H. Widmar, Arthur A. Feiveson, H. Arthur Rosenthal, and Kenneth L. Jost, *Attorneys, Department of Justice.*

For the Defendants: Beatrice Foods Co., Earl A. Jinkinson, *Winston & Strawn, Suite 5000, One First National Plaza, Chicago, Ill. 60603;* Olsonite Corp., A. Stewart Kerr, *Kerr, Wattles & Russell, 2100 Detroit Bank & Trust Bldg., Detroit, Mich. 48226;* Bemis Manufacturing Co., Robert G. Cutler, *Dykema, Gossett, Spencer, Goodnow & Trigg, 2700 City National Bank Building, Detroit, Mich. 48226;* and Standard Tank & Seat Co., Miles W. Kirkpatrick, *Morgan, Lewis & Bockius, 123 S. Broad Street, Philadelphia, Pa. 19109.*

UNITED STATES DISTRICT COURT, EASTERN DISTRICT OF MICHIGAN, SOUTHERN DIVISION

United States of America, Plaintiff, v. *Beatrice Foods Co.; Olsonite Corp., Bemis Manufacturing Co; and Standard Tank & Seat Co.*, Defendants.

Civil No. 4-71922.

Filed: August 11, 1977.

FINAL JUDGMENT

Plaintiff, United States of America, having filed its complaint herein on June 19, 1974, and the plaintiff and the defendants, by their respective attorneys, having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting any evidence against or admission by any party with respect to any issue of fact or law herein:

Now, therefore, without any testimony being taken herein, and without trial or adjudication of any issue of fact or law herein, and upon the consent of all parties hereto, it is hereby

Ordered, adjudged and decreed:

I

This Court has jurisdiction of the subject matter herein and of the parties hereto. The complaint states a claim upon which relief may be granted against the defendants under Section 1 of the Sherman Act (15 U.S.C. § 1).

II

As used in this Final Judgment:

(A) "Person" shall mean any individual, corporation, partnership, firm, association or other business or legal entity; and

(B) "Toilet seat" shall mean any toilet seat which is manufactured from any material and sold with or without the toilet seat cover as the case may be.

III

The provisions of this Final Judgment are applicable to all defendants herein and shall also apply to each of said defendants' officers, directors, agents, employees, subsidiaries, successors and assigns, and to those persons in active concert or participation with any of them who shall have received actual notice of this Final Judgment by personal service or otherwise.

IV

Each defendant is enjoined and restrained from:

(A) Entering into, adhering to, maintaining or claiming any rights under, directly or indirectly, any contract, agreement, understanding, plan, program, combination or conspiracy with any other manufacturer of toilet seats to raise, fix, stabilize or maintain the price, discount, markup or any other term or condition with respect to the sale of any toilet seat to any third person; and

(B) Furnishing to or requesting from any other manufacturer of toilet seats any information concerning any price, discount, markup, or any other term or condition with respect to the sale of any toilet seat, which sale occurs after the date of this Final Judgment, unless the information in question previously has been published and or announced and made generally available to the trade.

V

Nothing contained in Section IV (B) of this Final Judgment shall apply to any negotiation or communication between a defendant and any other defendant, or other manufacturer or seller of toilet seats, or any of their agents, distributors or representatives or any other person whose purpose is (1) a proposed or actual bona fide purchase or sale of toilet seats, or (2) the exchange of information between counsel in connection with bona fide prospective or actual legal proceedings.

VI

(A) Each defendant shall take affirmative steps (including written directives setting forth corporate compliance policies, distribution of this Final Judgment and meetings to review the terms and the obligations it imposes) to advise each of its officers, directors, managing agents and employees who have responsibility for or authority over the establishment of prices, bids, discounts or markups by which said defendant sells or proposes to sell toilet seats of its and their obligations under this Final Judgment and of the criminal penalties for violation of Section IV of this Final Judgment.

(B) In addition, each defendant shall, for a period of five (5) years from the date of this Final Judgment, cause a copy of this Final Judgment to be distributed at least once each year to each of the persons identified in subparagraph (A) above.

(C) Defendants are ordered and directed, within one hundred and twenty (120) days after the entry of this Final Judgment, to serve upon plaintiff affidavits concerning the fact and the manner of their compliance with the provisions of subparagraph (A) above.

V 4211 60 AUG 18 77 UM

VII

For a period of five (5) years from the date of entry of this Final Judgment, each defendant shall file with this Court and with plaintiff, on the anniversary date of this Final Judgment, a sworn statement by an officer or responsible executive, designated by that defendant to perform such duties, setting forth all steps it has taken during the preceding year to discharge its obligations under Paragraph VI (A) and (B) above. Said report shall be accompanied by copies of all written directives issued by said defendant during the prior year with respect to compliance with the terms of this Final Judgment.

VIII

(A) Each defendant is ordered to include with its next price list stating the terms and conditions of sale for toilet seats, or with any other document stating the terms and conditions of sale for toilet seats, a conspicuously placed notice acceptable to plaintiff which shall fairly and fully apprise the readers thereof of the substantive terms of this Final Judgment. This notice shall be sent by each defendant to all its usual toilet seat customers who would be sent such price lists in the normal course of business. The notice must also state that a copy of this Final Judgment may be obtained from the defendant upon request.

(B) The notice required by subsection (A) shall in no circumstances be sent later than one hundred and eighty (180) days after the effective date of this Final Judgment. If any defendant has not disseminated a new price list stating the terms and conditions of sale for toilet seats or any other document stating the terms and conditions of sale for toilet seats within said one hundred and eighty (180) days, then this defendant is required to send as a separate mailing the notice required by subsection (A) to all those customers who would be furnished notice of any price changes in the normal course of business.

(C) Each defendant shall submit an affidavit to the plaintiff within one hundred and ninety-five (195) days after the effective date of this Final Judgment setting forth the manner in which it has complied with this Section.

IX

(A) For the purpose of determining or securing compliance with this Final Judgment, and for no other purpose, any duly authorized representative of the Department of Justice shall, upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to any defendant made to its principal office, be permitted, subject to any legally recognized privilege:

(1) Access during the office hours of such defendant to all books, ledgers, accounts, correspondence, memoranda and other records and documents in the possession or under the control of such defendant relating to any matters contained in this Final Judgment; and

(2) Subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers, directors, agents, partners or employees of such defendant, who may have counsel present, regarding any such matters.

(B) A defendant, upon the written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, shall submit such reports in writing with respect to any of the matters contained in this Final Judgment as may from time to time be requested.

No information obtained by the means provided in this Section IX shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

X

Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or modification of any of the provisions thereof, for the enforcement of compliance therewith, and for the punishment of violations thereof.

XI

Entry of this Final Judgment is in the public interest.

Dated: ----------

United States District Judge.

UNITED STATES DISTRICT COURT, EASTERN DISTRICT OF MICHIGAN, SOUTHERN DIVISION

United States of America, Plaintiff v. *Beatrice Foods Co.; Olsonite Corporation; Bemis Manufacturing Company; and Standard Tank & Seat Co*., Defendants.

Civil No. 4-71922.
Filed: August 11, 1977.

STIPULATION

It is stipulated between the undersigned parties, Plaintiff United States of America, and Defendant Standard Tank & Seat Co., by their respective attorneys, that:

Standard Tank & Seat Co., having ceased to engage in the manufacture or selling of toilet seats, shall not be required to comply with the provisions of Paragraphs VI, VII and VIII of the Final Judgment entered in this action by this Court, so long as Standard Tank & Seat Co. is not engaged in the manufacture or selling of toilet seats.

Dated: August 11, 1977.

For the Plaintiff: John H. Shenefield, *Acting Assistant Attorney General*, William E. Swope, *Attorney, Department of Justice*, Arthur A. Feiveson, *Attorney, Department of Justice*, Joseph H. Widmar, *Attorney, Department of Justice*.

For the Defendant: Standard Tank & Seat Company, Miles W. Kirkpatrick, *Morgan, Lewis & Bockius, 2300 The Fidelity Building, 123 S. Broad Street, Philadelphia, Pennsylvania 19109*.

UNITED STATES DISTRICT COURT, EASTERN DISTRICT OF MICHIGAN, SOUTHERN DIVISION

United States of America, Plaintiff, v. *Beatrice Foods Co.; Olsonite Corporation; Bemis Manufacturing Company; and Standard Tank & Seat Co*., Defendants.

Civil No. 4-71922.
Filed: August 11, 1977.

COMPETITIVE IMPACT STATEMENT

The United States, pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act, 15 U.S.C. §§ 16(b)-(h), files this Competitive Impact Statement relating to the proposed Final Judgment submitted for entry in this civil antitrust proceeding.

I

NATURE OF THE PROCEEDING

On June 19, 1974, the United States filed a civil complaint under Section 4 of the Sherman Act (15 U.S.C. § 4), alleging that the defendants violated Section 1 of the Sherman Act (15 U.S.C. § 1). The Complaint alleges that the defendants and various co-conspirators engaged in a combination and conspiracy in unreasonable restraint of interstate commerce, i.e., to raise, fix, maintain and stabilize the prices of popular priced wood flour toilet seats in the United States.

Entry by the Court of the proposed Final Judgment will terminate the action, except that the Court will retain jurisdiction over the matter for possible further proceedings which might be required to interpret, modify, or enforce the Judgment or to punish alleged violations of any of the provisions of the Judgment.

II

DESCRIPTION OF PRACTICES INVOLVED IN THE ALLEGED VIOLATION

Wood flour toilet seats, including popular priced wood flour toilet seats, are manufactured and sold by the defendants. The popular priced wood flour toilet seats manufactured by the defendants are comparable products and are sold as new or replacement seats for residential or commercial purposes. The defendants sell these toilet seats through manufacturers' representatives to plumbing wholesalers and jobbers, plumbing contractors, general contractors, department stores, and discount houses located throughout the United States. The seats shipped to such customers are for use in specific projects or for resale.

Defendant Beatrice Foods Company has its principal place of business in Chicago, Illinois and its toilet seat manufacturing plant in Columbus, Mississippi. Defendant Olsonite Corporation, with its principal place of business in Detroit, Michigan, manufactures its toilet seats in Michigan, Georgia, and California. Defendant Bemis Manufacturing Company has its principal place of business and its toilet seat manufacturing plant in Sheboygan Falls, Wisconsin. Defendant Standard Tank & Seat Company is now out of business, having sold its assets in part to defendant Bemis. Its principal place of business and toilet seat manufacturing plant were in Camden, New Jersey.

The Complaint alleges that the defendants and co-conspirators engaged in a conspiracy to raise, fix, maintain and stabilize the prices of popular priced wood flour toilet seats in the United States. The defendants carried out the alleged conspiracy in several ways, including:

(a) Holding meetings at various times at different locales and during conventions of the Southern Wholesalers Association and American Supply Association at hotels, motels, apartments and clubs, at which time the defendants and co-conspirators:

(i) Agreed to increase the prices of popular priced wood flour toilet seats;

(ii) Agreed to issue identical price lists for popular priced wood flour toilet seats;

(iii) Agreed to stagger the date of letters announcing new price increases for popular priced wood flour toilet seats;

(iv) Policed adherence to the agreed upon published prices of popular priced wood flour toilet seats;

(b) Publishing price announcements and price lists which included the prices of popular priced wood flour toilet seats in accordance with the aforesaid agreements;

(c) Telephoning and otherwise contacting one another between meetings concerning:

(i) Increased prices on popular priced wood flour toilet sets; and

(ii) Deviations from agreed upon published prices of popular priced wood flour toilet seats.

According to the Complaint, the alleged conspiracy had the following effects: (a) prices of popular priced wood flour toilet seats sold by the defendants were raised, fixed, maintained and stabilized at non-competitive levels; and (b) customers of the defendants were deprived of the opportunity to purchase popular priced wood flour toilet seats in an open and competitive market.

III

EXPLANATION OF THE PROPOSED FINAL

The United States and the defendants have agreed in a Stipulation that a Final Judgment, in a form negotiated by the parties, may be entered by the Court at any time after compliance with the Antitrust Procedures and Penalties Act. The Stipulation provides that there has been no admission by either party with respect to any issue of fact or law. Under the provisions of Section 2(e) of the Antitrust Procdeures and Penalties Act, entry of said Final Judgment by the Court is conditioned upon a determination by the Court that the proposed Final Judgment is in the public interest.

A. *Prohibited Conduct*—The proposed Final Judgment prohibits the defendants from entering into or adhering to any agreements or arrangements with any manufacturer of toilet seats to raise, fix, stablize or maintain the price, discounts, markup, or any other term or condition with respect to the sale of any toilet seat to any third person. The proposed Final Judgment also prohibits defendants from furnishing to or requesting from any other manufacturer of toilet seats any information concerning any price, discount, markup, term, or condition with respect to the sale of any toilet seat unless the information in question has been made generally available to the trade.

B. *Scope of the Proposed Judgment*—The proposed Final Judgment expressly provides the maximum coverage permitted by law. It is applicable to all defendants and to each of the defendants' officers, directors, agents, employees, subsidiaries, successors and assigns, and to all other persons in active concert or participation with any of them who have received actual notice of the Final Judgment by personal service or otherwise.

Further, the proposed Final Judgment provides that each defendant shall take affirmative steps, including the issuance of written directives, distribution of the Final Judgment, and the holding of meetings to advise all of its personnel involved in establishing prices or bids for toilet seats of their obligations under the Final Judgment. The proposed Final Judgment provides that each defendant, for five years, shall cause a copy of the Final Judgment to be distributed at least once each year to personnel responsible for establishing prices. Such extensive service of the decree will effectively insure that all persons or entities who are in a position to act with the defendants in any future conduct prohibited by the proposed Final Judgment can be punished for violations of the decree.

A Stipulation filed with the proposed Final Judgment relieves defendant Standard Tank & Seat Co. of these affirmative steps since this defendant is no longer engaged in the manufacture or sale of toilet seats.

C. *Effect of the Proposed Final Judgment on Competition*—The relief encompassed in the proposed Final Judgment is aimed at preventing any recurrence of the activities alleged in the Complaint. Such activities interfere with the normal interplay of competitive forces in the marketplace, and accordingly result in artifically determined price levels. Entry of the proposed Final Judgment will insure that each defendant's prices, discount terms, and terms and conditions of sale for all toilet seats, not merely the type of seat mentioned in the Complaint, are arrived at independently. The proposed Final Judgment requires the defendants to submit sworn statements, for five years, outlining the steps they have taken to comply with the provisions of the proposed Final Judgment, and the Government is given access, upon reasonable notice, to the records of the defendants to monitor the defendants' compliance with the provisions of the proposed Final Judgment.

Moreover, the proposed Final Judgment requires each defendant to give notice to all its customers of entry of the Final Judgment, and of the terms of the Final Judgment. This provision will alert such customers to the existence of the Final Judgment, and will make it more likely that any violation of the Final Judgment will be brought to the attention of the United States.

Accordingly, it is the opinion of the Department of Justice that the proposed Final Judgment is fully adequate in terms of its prohibitory provisions, as well as its enforcement provisions, to insure that toilet seat prices are determined in a free and competitive market. It is also the opinion of the Department that disposition of the matter without further litigation is appropriate in view of the fact that the proposed Final Judgment includes the form and scope of relief equal to that which might be obtained after a full airing of the issues at trial.

IV

REMEDIES AVAILABLE TO POTENTIAL PRIVATE LITIGANTS

Section 4 of the Clayton Act (15 U.S.C. § 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in Federal court to recover three times the damages such person has suffered, as well as costs and reasonable attorney fees. Entry of the proposed Final Judgment in this proceeding will neither impair nor assist the bringing of any such private antitrust actions. Under the provisions of Section 5(a) of the Clayton Act (15 U.S.C. § 16(a)), the proposed Final Judgment has no prima facie effect in any subsequent private lawsuits which may be brought against these defendants.

V

PROCEDURES AVAILABLE FOR THE MODIFICATION OF THE PROPOSED FINAL JUDGMENT

As provided by the Antitrust Procedures and Penalties Act, any person who wishes to comment upon the proposed Final Judgement may submit written comments to Joseph H. Widmar, Chief, Trial Section, Antitrust Division, United States Department of Justice, Washington, D.C. 20530 within the 60-day period provided by the Act. These comments and the responses to them will be filed with the Court and published in the FEDERAL REGISTER. All comments will be given due consideration by the Department of Justice, which remains free to withdraw its consent to the proposed Final Judement at any time prior to its entry if it should determine that some modification of the Final Judgment is necessary.

VI

ALTERNATIVES TO THE PROPOSED FINAL JUDGMENT

This case does not involve any unusual or novel issues of fact or law which make litigation a more desirable alternative than entry of this consent decree. The Department considers the substantive language in the proposed Final Judgment to be of sufficient scope and effectiveness to make litigation on relief unnecessary as the proposed Final Judgment provides the substantive relief which was requested in the Complaint.

In negotiating this decree, the defendants sought to obtain additional exceptions in Paragraph V of the proposed Final Judgment to allow price discussions in negotiating patents and in petitioning regulatory bodies. The defendants also sought to restrict coverage of the proposed Final Judgment to wood flour toilet seats.

The United States originally sought to include longer time periods in the provisions which now terminate after five years. The United States also sought to enjoin the defendants from belonging to any trade association which engaged in activities forbidden by the proposed Final Judgment. These positions were abandoned as unnecessary in light of the relief obtained in the proposed Final Judgment. In addition, the Complaint in this case requested that, for ten years, each defendant be required to keep records of meetings between pricing personnel of itself and any other toilet seat manufacturer. The Complaint also requested that, for five years, the defendants be required to certify by affidavit with every change in the price of wood flour toilet seats that such change was arrived at independently. These requirements are considered unnecessary in light of the combination of restraints and affirmative obligations contained in the proposed Final Judgment. Finally, the Complaint requested that each defendant be required to withdraw its current price list and issue a new price list arrived at without collusion with other manufacturers. Such a requirement is not in the proposed Final Judgment because the current price lists are not believed to be the result of the conspiracy charged in 1974.

VII

OTHER MATERIALS

There are no materials or documents which the Government considered determinative in formulating this proposed Final Judgment. Therefore, none are being filed along with this Competitive Impact Statement.

Dated: August 11, 1977.

ARTHUR A. FEIVESON,
H. ARTHUR ROSENTHAL,
Attorneys, Department of Justice.

Drug Enforcement Administration

MANUFACTURE OF CONTROLLED SUBSTANCES

Withdrawal of Application

By notice dated July 13, 1977 and published in the FEDERAL REGISTER on July 21, 1977 (42 FR 37455), Applied Science Laboratories, Inc., 139 North Gill Street (Box 440), State College, Pennsylvania 16801, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug:	Schedule
Morphine-n-oxide	I
Normorphine	I
Codeine	II
Ecgonine	II
Methadone	II
Morphine	II

Notice is hereby given that by letter dated August 1, 1977, Applied Science

V42160 AUG 18 77 UM V

Laboratories, Inc., requested the withdrawal of their application for registration as a bulk manufacturer of the above substances.

Therefore, the notice dated July 13, 1977, soliciting comments and objections to the application of Applied Science Laboratories, Inc., to be registered as a bulk manufacturer of morphine-n-oxide, normorphine, codeine, ecgonine, methadone and morphine, is hereby cancelled.

Dated: August 10, 1977.

DONALD E. MILLER,
Acting Deputy Administrator, Drug Enforcement Administration.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-348]

THE ALABAMA POWER CO. (FARLEY NUCLEAR PLANT, UNIT NO. 1)

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission has issued Amendment No. 3 to Facility Operating License No. NPF-2, issued to the Alabama Power Company, which revised Technical Specifications for operation of the Farley Nuclear Plant, Unit No. 1 (the facility) located in Houston County, Alabama. The amendment is effective as of its date of issuance.

The amendment reflects the results of the testing of the residual heat removal system pumps and to clarify the meaning of the surveillance requirement for operability of the residual heat removal pumps.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1974, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Amendment No. 3 to License No. NPF-2 and (2) the Commission's related Safety Evaluation supporting Amendment No. 3 to License No. NPF-2. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the George S. Houston Memorial Library, 212 W. Vurdeshaw Street, Dothan, Alabama 36301. A copy of items 1 and 2 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda Maryland, this 5th day of August 1977.

For the Nuclear Regulatory Commission.

JOHN F. STOLZ,
Chief, Light Water Reactors Branch No. 1, Division of Project Management.

[FR Doc.77-23755 Filed 8-17-77;8:45 am]

[Docket No. 50-348]

ALABAMA POWER CO. (JOSEPH M. FARLEY NUCLEAR PLANT, UNIT 1)

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. NPF-2, issued to the Alabama Power Company which revised Technical Specifications for operation of the Joseph M. Farley Nuclear Plant, Unit 1 (the facility) located in Houston County, Alabama. The amendment was effective as of July 15, 1977.

The Amendment permits control rod drop time measurements for the purpose of testing in facility operational Modes 3, 4 and 5.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Amendment No. 1 to License No. NPF-2, and (2) the Commission's related Safety Evaluation Supporting Amendment No. 1 to License No. NPF-2. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the George S. Houston Memorial Library, 212 W. Vurdeshaw Street, Dothan, Alabama 36301. A copy of items 1 and 2 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda, Maryland, this 29 day of July 1977.

[Docket No. 50-348]

ALABAMA POWER CO. (FARLEY NUCLEAR PLANT, UNIT NO. 1)

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 2 to Facility Operating License No. NPF-2, issued to the Alabama Power Company, for operation of the Farley Nuclear Plant, Unit No. 1 (the facility) located in Houston County, Alabama. The amendment is effective as of its date of issuance.

The amendment removes two temporary conditions to the license which restricted operation of the facility in a hot standby mode. The amendment also removes a temporary condition to the license relating to the completion of certain verification testing programs.

The amendment permits the Farley Nuclear Plant, Unit 1 to proceed to Operational Modes 2 and 1. The amendment complies with the standards and requirements of the Atomic Energy Act of 1974, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Amendment No. 2 to License No. NPF-2 and (2) the Commission's related Safety Evaluation supporting Amendment No. 2 to License No. NPF-2. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the George S. Houston Memorial Library, 212 W. Vurdeshaw Street, Dothan, Alabama 36301. A copy of items 1 and 2 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda Maryland, this 5th day of August, 1977.

[Docket No. 40-3392]

ALLIED CHEMICAL CORP.

Negative Declaration Regarding Renewal of License

The U.S. Nuclear Regulatory Commission (the Commission) is considering the renewal of Source Material License SUB-526 for the continued operation of the Metropolis Works Uranium Hexafluoride Conversion Facility at Metropolis, Illinois.

The Commission's Division of Fuel Cycle and Material Safety has prepared an environmental impact appraisal for the proposed renewal of Source Material License No. SUB-526. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this particular license renewal is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection and copying at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. 20555.

Dated at Silver Spring, Maryland, this 10th day of August, 1977.

For the Nuclear Regulatory Commission.

[Docket No. PRM-70-6]

EBERLINE INSTRUMENT CORP.

Filing of Petition for Rule Making

Notice is hereby given that the Eberline Instrument Corporation, P.O. Box 2108, Santa Fe, New Mexico, by letter dated July 18, 1977, has filed with the Nuclear Regulatory Commission a petition for rule making.

The petitioner requests that the Nuclear Regulatory Commission approve of the air transport of calibration or reference sources which are generally licensed pursuant to 10 CFR 70.19 and manufactured pursuant to a specific license issued by the Commission under 10 CFR 70.39, or in accordance with the specifications contained in a specific license issued to the manufacturer by an Agreement State which authorizes manufacture of the sources for distribution to persons generally licensed by the Agreement State.

The petitioner states that:

These calibration or reference sources are limited by 70.19 to not more than 5 uCi of plutonium (0.00008 g). They can only be distributed by a manufacturer or importer who is specifically licensed under 70.39 of 10 CFR 70. Prior to issuance of such a license, the NRC requires the applicant to perform tests to demonstrate that the sources are safe for general license distribution. They are completely safe and can not be rendered unsafe by any possible accident condition. To obtain a license, each manufacturer must describe the storage container. Recognizing that the material involved is a diminutive quantity in terms of safeguard accountability and that safety is assured by the testing performed under 70.19 we believe that NRC can grant our petition to declare that the storage container is a suitable shipping container for air shipments of these calibration or reference sources.

Alternatively, the petitioner requests the Commission to declare that these calibration and reference sources represent "de minimis" quantities of plutonium for which container certification should not be required. Paragraph (a)(3) of § 70.39 provides that each source will contain no more than 5 microcuries of plutonium.

A copy of the petition for rule making is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch by October 17, 1977.

Dated at Washington, D.C. this 11th day of August 1977.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.77-23778 Filed 8-17-77;8:45 am]

[Docket No. 50-302]

FLORIDA POWER CORP., ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 6 to Facility Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised Technical Specifications for operation of the Crystal River Unit No. 3 Nuclear Generating Plant located in Citrus County, Florida. The amendment is effective as of the date of issuance.

The amendment revises Technical Specification 4.8.1.1.2.c.4 to extend the interval for a demonstration of diesel generator operability from the date of this amendment until the next shutdown but no later that midnight, August 22, 1977.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 4, 1977, (2) Amendment No. 6 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Crystal River Public Library, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 5th day of August 1977.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[Docket No. 70-1308]

GENERAL ELECTRIC CO.

Consideration of Proposed Modification to GE Morris Operation Fuel Storage Facility

The Nuclear Regulatory Commission (the Commission) is considering an application for modification to the irradiated fuel storage facility of the GE Morris Operation currently licensed under Materials License No. SNM-1265. The activities take place in Grundy County near Morris, Illinois.

General Electric Company proposes to construct another fuel storage basin that will be connected to and be an integral part of the existing storage facility in accordance with the licensee's proposal dated April 30, 1977, as supplemented.

VOL 42 NO 160 AUG 18 77 UM

The capacity of the proposed basin is about 1100 TeU, which would provide a total storage capacity of about 1850 TeU. Storage capacity is expressed in terms of metric tons of Uranium (TeU) as contained in light water reactor fuel rods. A metric ton equals 1,000,000 grams. Designated as Basin No. 3, the new structure and associated equipment will essentially duplicate the existing facility designs.

A previous modification to increase the fuel storage capacity by the installation of new storage baskets and supporting grids was approved December 3, 1975.

Prior to a decision on the proposed modification, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The modification to the irradiated fuel storage facility will not be approved until the Commission has reviewed the proposal and has concluded that approval of the modification will not be inimical to the common defense and security and would not constitute an unreasonable risk to the health and safety of the public. The NRC will complete an environmental evaluation in accordance with 10 CFR 51 to determine if the preparation of an environmental impact statement, or negative declaration and environmental appraisal is warranted. The action will be the subject of a notice in the FEDERAL REGISTER.

Pursuant to 10 CFR § 2.105, by September 19, 1977, the licensee may file a request for a hearing; and, any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the approval or disapproval of the modification to the subject irradiated fuel storage facility. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed action. Such petitions must be filed in accordance with this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by September 19, 1977. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to A. A. Kerr, Esq., 175 Curtner Avenue, MC 823, San Jose, California 95125, attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions. In the event no request for a hearing or petition to intervene is filed by the above date, the Commission may upon satisfactory completion of all evaluations, issue a license amendment approving the modification without further prior notice.

In the event that a hearing is held and a person is permitted to intervene, he/she becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he/she may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the licensee's proposal dated April 30, 1977, and supplements thereto, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the local Public Document Room at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451. The amendment to the Commission's license and the Safety Evaluation Report, when issued, may be inspected at the above locations.

Dated at Silver Spring, Maryland, this 10th day of August, 1977.

For the Nuclear Regulatory Commission.

RICHARD W. STAROSTECKI,
Chief, Fuel Reprocessing and Recycle Branch, Division of Fuel Cycle and Material Safety.

[Docket No. 50-333]

POWER AUTHORITY OF THE STATE OF NEW YORK

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 25 to Facility Operating License No. DPR-59, issued to Power Authority of the State of New York (the licensee), which revised Technical Specifications for operation of the James A. FitzPatrick Nuclear Power Plant (the facility) located in Oswego County, New York. The amendment is effective as of its date of issuance.

This amendment revises the provisions in the Technical Specifications relating to the relocation of temperature indicators from the condenser outlet to the plant outlet to allow more accurate measurements.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment sworn to August 31, 1976, as supplemented April 8, 1977, and (2) Amendment No. 25 to License No. DPR-59. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Oswego County Office Building, 46 East Bridge Street, Oswego, New York. A copy of Item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 2nd day of August 1977.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued two guides in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.84, Revision 10, "Code Case Acceptability—ASME Section III Design and Fabrication," and Regulatory Guide 1.85, Revision 10, "Code Case Acceptability—ASME Section III Materials," list those code cases that are generally acceptable to the NRC staff for implementation in the licensing of light-water-cooled nuclear power plants. These two guides were revised to update the listings of acceptable code cases and to reflect public comment and additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific devisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Maryland this 10th day of August 1977.

For the Nuclear Regulatory Commission.

RAY G. SMITH,
Acting Director, Office of Standards Development.

[FR Doc.77-23762 Filed 8-17-77;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 4.13, Revision 1, "Performance, Testing, and Procedural Specifications for Thermoluminescence Dosimetry: Environmental Applications," provides minimum acceptable performance criteria for thermoluminescence dosimetry systems used to measure levels of radiation in the environs of NRC-licensed facilities. This guide endorses ANSI Std N545-1975, "Performance, Testing, and Procedural Specifications for Thermoluminescence Dosimetry (Environmental Applications)."

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Md. this 9th day of August 1977.

For the Nuclear Regulatory Commission.

RAY G. SMITH,
Acting Director, Office of Standards Development.

WITHDRAWAL AND ISSUANCE

Regulatory Guide and Topical Reports

The Nuclear Regulatory Commission staff has withdrawn Regulatory Guide 5.35, "Calorimetric Assay of Plutonium." This guide was issued in June 1974 to describe procedures acceptable to the NRC staff for operating and calibrating heat flow calorimeters in measuring the power associated with plutonium decay in nondestructive determinations of the quantity of plutonium in certain types of materials. The guide is being withdrawn as the result of the publication of a topical report that includes the information contained in the guide along with considerable additional information useful to licensees. This report provides more useful guidance than Regulatory Guide 5.35 for tailoring a program of calorimetric assay of plutonium to the needs of a specific installation. The report is identified as NUREG-0228, "Calorimetric Assay for Plutonium."

The Commission is also issuing a topical report to supplement NUREG-0228 by providing numerical examples to show the practical way of calculating total error for the calorimetric assay of plutonium. This report is NUREG-0229, "Some Examples of the Estimation of Error for Calorimetric Assay of Plutonium-Bearing Solids."

Both reports are available for inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. Copies may be purchased at current rates from the National Technical Information Service, Springfield, Va. 22161. (NUREG-0228—Paper Copy: $3.50, Microfiche: $3.00; NUREG-0229—Paper Copy: $4.00, Microfiche: $3.00)

(5 U.S.C. 552(a).)

Dated at Rockville, Md. this 8th day of August 1977.

[Docket Nos. 50-317 and 50-318]

BALTIMORE GAS AND ELECTRIC CO.

Issuance of Amendments to Facility Operating Licenses and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 23 and 7 to Facility Operating License Nos. DPR-53 and DPR-69 (respectively), issued to Baltimore Gas and Electric Company (the licensee), which revised the Technical Specifications for operation of the Calvert Cliffs Nuclear Power Plant Unit Nos. 1 and 2 (the facilities) located in Calvert County, Md. The amendments are effective as of their date of issuance.

The amendments revised the existing individual Environmental Technical Specifications for the facilities as a single set of specifications common to both units since the units are similar and share the same site. The major changes in the revised specifications are that they (1) permanently remove the maximum limit and rate of change of the condenser discharge temperature for both units (which is consistent with the recently reinstated State of Maryland National Pollutant Discharge Elimination System permit), (2) change the allowable pH factor for discharge liquids, (3) remove some of the previously required environmental monitoring studies, and (4) change the frequency of the environmental monitoring program reports from semi-annual to annual.

The applications for the amendments comply with the standards and requirements of the Atomic Energy act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for the particular action is not warranted because there will be no significant environmental impact attributable to the action other than that which has already been predicted and described in the Commission's Final Environmental Statement for the facilities dated April 1973.

The above appraisal is the one referred to in the Commission's FEDERAL REGISTER Notice issued July 8, 1977 (published July 28, 1977, 42 FR 38439), relating to the issuance of Amendment No. 22 to License No. DPR–53.

For further details with respect to this action, see (1) the application for amendment dated January 3, 1977, as supplemented by a letter dated June 7, 1977, (2) Amendment No. 23 to License No. DPR–53, (3) Amendment No. 7 to License No. DPR–69, and (4) the Commission's Environmental Impact Appraisal. All of these items are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Calvert County Library, Prince Frederick, Md. 20678. A single copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 29th day of July, 1977.

For the Nuclear Regulatory Commission.

DON K. DAVIS,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

INTERNATIONAL ATOMIC ENERGY AGENCY DRAFT SAFETY GUIDE

Availability for Public Comment

The International Atomic Energy Agency (IAEA) is developing a limited number of internationally acceptable codes of practice and safety guides for nuclear power plants. These codes and guides will be developed in the following five areas: Government Organization, Siting, Design, Operation and Quality Assurance. The purpose of these codes and guides is to provide IAEA guidance to countries beginning nuclear power programs.

The IAEA codes of practice and safety guides are developed in the following way. The IAEA receives and collates relevant existing information used by Member Countries. Using this collation as a starting point, an IAEA Working Group of a few experts then develops a preliminary draft. This preliminary draft is reviewed and modified by the IAEA Technical Review Committee to the extent necessary to develop a draft acceptable to them. This draft code of practice or safety guide is then sent to the IAEA Senior Advisory Group which reviews and modifies the draft as necessary to reach agreement on the draft and then forwards it to the IAEA Secretariat to obtain comments from the Member States. The Senior Advisory Group then considers the Member State comments, again modifies the draft as necessary to reach agreement and forwards it to the IAEA Director General with a recommendation that it be accepted.

As part of this program, Safety Guide, SG–QA5, "Management Control and Quality Assurance for Operation of Nuclear Power Plants," has been developed. An IAEA Working Group, consisting of Mr. S. A. Bernsen (Bechtel Power Corporation), United States of America; Mr. J. Burtheret, France; and Mr. H. Simons, United Kingdom developed this draft from an IAEA collation during a meeting on July 11–15, 1977, and we are soliciting public comment on it. Comments on this draft received by September 2, 1977 will be useful to the U.S. representatives to the Technical Review Committee and Senior Advisory Group in evaluating its adequacy prior to the next IAEA discussion.

Single copies of this draft may be obtained by a written request to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

(5 U.S.C. 522(a))

DUKE POWER CO. (PERKINS NUCLEAR STATION, UNITS 1, 2 & 3)

Assignment of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR § 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for this construction permit proceeding:

Alan S. Rosenthal, Chairman; Dr. John H. Buck; Richard S. Salzman.

Dated: August 9, 1977.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[Docket No. 50–423]

NORTHEAST NUCLEAR ENERGY COMPANY, ET AL.[1]

Receipt of Additional Antitrust Information; Time for Submission of Views or Antitrust Matters

Northeast Nuclear Energy Company, et al.,[1] pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, filed on April 18, 1977 and May 9, 1977, information requested by the Attorney General for Antitrust Review as required by 10 CFR Part 50, Appendix L. This information adds Central Maine Power Company as an owner of the Millstone Nuclear Power Station, Unit No. 3, and increases the ownership shares in the units for Massachusetts Municipal Wholesale Electric Company and Montaup Electric Company.

The information was filed by Northeast Nuclear Energy Company in connection with their application for a construction permit and operating license for a pressurized nuclear reactor. Northeast Nuclear Energy Company, et. al. was issued a construction permit on August 9, 1974 for the Millstone Nuclear Power Station, Unit No. 3. Construction is underway on a site located on the north shore of Long Island Sound, in the Town of Waterford, New London County, Connecticut.

The original antitrust portion of the application was submitted on October 31, 1972 and the Notice of Receipt of Application for a Construction Permit and Facility License; Time for Submission of Views on Antitrust Matters was published in the FEDERAL REGISTER on March 23, 1973 (38 FR 7595). The Notice of Hearing was also published in the FEDERAL REGISTER on March 23, 1973 (38 FR 7595).

A copy of all the above stated documents are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut 06385.

Information in connection with the antitrust review of this application can be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. Attn: Antitrust and Indemnity Group, Office of Nuclear Reactor Regulation.

Any person who wishes to have his views on the antitrust matters with respect to the Central Maine Power Company and the Massachusetts Municipal Wholesale Electric Company presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission on or before September 26, 1977.

Dated at Bethesda, Maryland, this 21st day of July, 1977.

For the Nuclear Regulatory Commission.

OLAN D. PARR,
Chief, Light Water Reactors Branch No. 3, Division of Project Management.

[Docket No. STN 50–584]

GIBBS & HILL, INC.

Receipt of Standards Safety Analysis Report

Gibbs & Hill, Inc. has filed with the Nuclear Regulatory Commission (the Commission) its Standard Safety Analysis Report (GIBBSSAR). Following a preliminary review for completeness, the GIBBSSAR application was found to be acceptable and was docketed on May 10, 1977. The GIBBSSAR application was filed in response to Option 1 (Reference System) of the Commission's standardization policy for nuclear power plants, entitled "Methods for Achieving Standardization of Nuclear Power Plants," issued on March 5, 1973, and pursuant to Appendix 0 to 10 CFR Part 50. Docket No. STN 50–584 has been assigned to GIBBSSAR and should be referenced in any correspondence relating thereto.

Under the "Reference System" option, an entire facility design or major portions of it can be identified as a standard design to be used in multiple applications. GIBBSAR describes the balance-of-plant portion of a standard nuclear power plant and is based upon Gibbs & Hill, Inc.'s experience in the design of the balance-of-plant portion of nuclear power plants. It is intended that GIBBSSAR be referenced in conjunction with the Westinghouse RESAR–414 as part of a utility applicant's Preliminary Safety Analysis Report for a 3800 MWt Pressurized Water Nuclear Power Plant.

When its review of GIBBSSAR is complete, the Commission's Office of Nuclear Reactor Regulation (staff) will publish a Safety Evaluation Report documenting the results of the review. In addition, GIBBSSAR will be referred to the Advisory Committee on Reactor Safeguards (ACRS) for its review and a report thereon. Copies of the Safety Evaluation Report and the ACRS report will be made available to the public. A notice relating to the availability of these documents will be published in the FEDERAL REGISTER.

All interested persons who desire to submit written comments for consideration by the staff and ACRS during their review of GIBBSSAR should send them to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by October 17, 1977.

A copy of the GIBBSSAR Standard Safety Analysis Report is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555. When available, the Safety Evaluation Report and the ACRS report will be made available for inspection by the public at the Commission's Public Document Room.

Dated at Bethesda, Maryland, this 12th day of August 1977.

For the Nuclear Regulatory Commission

STEVEN A. VARGA,
Chief, Light Water Reactors Branch 4, Division of Project Management.

NATIONAL TRANSPORTATION SAFETY BOARD

[N–AR 77–33]

ACCIDENT REPORT; SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Aircraft Accident Report No. NTSB–AAR–77–4.—The National Transportation Safety Board has recently made public its report on the investigation of the crash of a Beechcraft Baron 58 after takeoff from the Chillicothe (Missouri) Municipal Airport on August 3, 1976.

The report indicates that the aircraft took off at 2115 from Runway 14. The sky was dark but clear, with 15 miles visibility. At an altitude between 50 and 100 feet above the runway, the left engine failed. The aircraft then turned to the left and descended abruptly into a field where it crashed and burned. All six occupants, including Congressman Jerry Litton of Missouri, were killed. The aircraft, owned by Rupp Automotive, Inc., was destroyed.

Probable cause of the accident, the Safety Board found, was the sudden failure of the airplane's left engine at a point on the takeoff flightpath where the airplane's single-engine performance in the takeoff configuration and its height above the ground combined to make the pilot's ability to sustain flight marginal. The pilot's failure to retract the landing gear and control the airplane to maintain a safe airspeed contributed to the accident and were factors in causing the high acceleration loads when the airplane struck the ground.

The investigation revealed evidence that the left engine failed shortly after takeoff when the crankshaft broke at the No. 7 crankcheek. The Board found that a preexisting fatigue crack had propagated through the crankcheek which could no longer withstand the operating stresses imposed by the takeoff power demand on the engine.

The Beechcraft Baron was equipped with two Teledyne Continental IO–520–C piston engines. During investigation of the Chillicothe crash, the Safety Board found that the Continental IO–520 engine had experienced 12 other crankshaft fractures in the No. 7 crankcheek area for reasons undetermined—a record sufficient to indicate that a problem exists with this particular crankshaft, over 15,000 of which had been installed in IO–520 engines as of August 1976.

As a result of the investigation of this accident, the Safety Board on June 20 recommended that the Federal Aviation Administration initiate a program for (1) inspecting the crankshafts from IO–520 series engines for cracks whenever the crankshafts are available for inspection, and (2) reviewing the results of these inspections to determine whether any deficiencies exist in these engines. (Recommendations A–77–43 and 44; see 42 FR 33391, June 30, 1977.)

Highway Safety Recommendations H–77–7 and 8.—The Safety Board continues to be concerned about the need for safe roadside traffic barrier design. In 1971 the Board made recommendations to the National Park Service (NPS) regarding the need for barriers that would prevent errant vehicles from penetrating bridge rails on the George Washington Memorial Parkway in Virginia. Subsequently, smooth-faced concrete barriers were constructed on several of the bridges. These barriers now bear marks which clearly show that they have successfully deflected vehicles.

In an effort to further enhance traffic barrier safety, the Board on August 11 recommended that the Department of Interior's National Park Service:

Request the assistance of the Federal Highway Administration in developing attractive and performance-designed and evaluated traffic barriers that minimize hazards to vehicle occupants when the barriers are struck by passenger vehicles or buses. (H–77–7)

Upon completion of the traffic barrier research, implement a program to improve existing and future roadside barriers under jurisdiction of the National Park Service consistent with the newly developed designs. (H–77–8)

In issuing these Class II (priority followup) recommendations, the Safety Board takes note of the fact that NPS recently repaired an earth retaining wall that also serves as a traffic barrier on the George Washington Memorial Parkway, about one-half mile north of Key Bridge. The surface of the barrier on the traffic side contains snags of heavy stone that are as much as 6 inches deep and which would contact the side or bumpers of any car moving 5 feet beyond the normal path of travel. The Board believes that these snags are a hazard not consistent with accepted standards and guidelines for barrier faces, such as those adopted by the Federal Highway Administration. Also, measurements of the barrier indicate that its finished height might not comply with minimum FHWA requirements.

The Board further notes that a rough surface can increase substantially the severity of impact by either causing the vehicle to snag and spin out or by sub-

[1] The following are the holders of Construction Permit No. CPPR–113: Ashburnham Municipal Light Plant, Boylston Municipal Lighting Plant, Central Maine Power Company, Central Vermont Public Service Corporation, Chicopee Municipal Lighting Plant, City of Burlington, Vermont, City of Holyoke, Massachusetts Gas and Electric Department, the Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Green Mountain Power Corporation, The Hartford Electric Light Company, Marblehead Municipal Light Department, Massachusetts Municipal Wholesale Electric Company, Middleton Municipal Light Department, Montaup Electric Company, New England Power Company, North Attleborough Electric Department, Northeast Nuclear Energy Company, Paxton Municipal Light Department, Peabody Municipal Light Plant, Public Service Company of New Hampshire, Shrewsbury Light Plant, Templeton Municipal Lighting Plant, Town of South Hadley Electric Light Department, The United Illuminating Company, Vermont Electric Cooperative, Inc., Vermont Electric Power Company, Inc., Wakefield Municipal Light Department, West Boylston Municipal Lighting Plant, Western Massachusetts Electric Company, Westfield Gas and Electric Light Department.

V42N160 AUG 18 77 UM

stantially increasing vehicle property damage with a potentially hazardous result to vehicle occupants. The rough surface also enhances the ability of a vehicle to override the barrier; this is particularly true for larger vehicles, such as buses.

RESPONSES TO SAFETY RECOMMENDATIONS

Aviation: A-76-89.—Federal Aviation Administration's letter of August 2 advises the Safety Board that action on this recommendation has been completed and that Airworthiness Directive 77-13-01, Docket No. 76-SO-25, Amendment 39-2919, was issued June 7 and published in the FEDERAL REGISTER June 20 with an effective date of June 21. A-76-89 recommended that FAA prohibit occupancy of the jump seat and require a placard on each aircraft until that aircraft has been modified structurally so that the nose landing gear strut cannot penetrate the cockpit floor. FAA's initial response was made last August 18 (41 FR 37166, September 2, 1976).

Aviation: A-77-30 and 31.—Federal Aviation Administration's letter of August 4 is in response to recommendations issued after the Safety Board found that four accidents within the past year involving Enstrom helicopters were caused by material failures, fatigue failures in tail rotor spindle P/N 28-15202 causing three of the accidents. (See 42 FR 28194, June 2, 1977.)

Recommendation A-77-30 asked FAA to inspect Enstrom Helicopter Corporation's quality assurance program to insure that all materials, pieces, parts, and components used in the manufacture of helicopters comply with the certificating provisions of 14 CFR 21.33(b) (2) through (4). In answer, FAA said that the reference to that section does not apply to materials, pieces, parts, and components used in the manufacture of aircraft which have been certificated. "This rule applies to the certification process and provides for inspections and tests, as necessary, to prove compliance with airworthiness requirements," FAA stated. Once a type certificate has been issued, the materials, parts, pieces, etc., are produced under an FAA manufacturing authorization. FAA states that Enstrom has such an authorization in accordance with CFR 21, Subpart G.

Accordingly, FAA has assessed recommendation A-77-30 relative to compliance with Part 21, Subpart G. FAA further said that an intensive investigation and critical reexamination of Enstrom's quality control system, including a quality assurance system analysis conducted in March 1976 did not reveal any evidence of degradation in the quality assurance program. However, these improvements were made: (1) Part traceability of the tail rotor spindle was improved by identifying each spindle with a serial number, and (2) all purchased aluminum parts which were formerly accepted on Material Certification only are now required to be verified by physical hardness checks.

FAA reports that Enstrom's quality control system is being maintained in compliance with system procedures, instructions, and specifications approved by FAA in accord with CFR 21 Subpart G; further action is not considered by FAA to be necessary at this time.

Recommendation A-77-31 asked FAA to review the certification engineering data to insure that critical tolerance considerations are included in the fatigue replacement time evaluation of the tail rotor spindle as set forth in 14 CFR 27.571(c) and, in view of the low-time failures and possible fatal consequences, to require that tail rotor spindle P/N 28-15202 to be added to the critical parts list. FAA reports that the certification engineering data have been reviewed and are considered satisfactory, and that the tail rotor spindle life limits are being added to the critical parts list as recommended.

Aviation: A-77-40 through 42.—On July 19, Bell Helicopter Textron of Fort Worth, Texas, advised the Safety Board that Part Number 204-040-620-5, referred to the Board's letter of June 16 issuing these recommendations to the Federal Aviation Administration (42 FR 31851, June 23, 1977), was in error. Bell said that the correct part number is 204-040-620-7. These recommendations concern failures of the No. 4 section of the tail rotor drive shaft in Bell Model 212 helicopters.

The Safety Board on August 8 informed FAA that the static balanced 204-040-620-3 shaft was replaced with the dynamic balanced 204-040-620-7 shaft rather than the 204-040-620-5 shaft as printed in the Board's recommendation.

NOTE.—The above notice consists of summaries of Safety Board documents made available, and safety recommendation responses received, during the week preceding publication of this notice in the FEDERAL REGISTER. The accident report and the safety recommendation letter in their entirety are available to the general public; single copies are obtainable without charge. Copies of the full text of responses to recommendations and any Board correspondence may be obtained at a cost of $4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this notice in the FEDERAL REGISTER. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

PRIVACY ACT OF 1974

Reports on New Systems

The purpose of this notice is to list reports on new systems filed with the Office of Management and Budget to give members of the public the opportunity to make inquiries about them and to comment on them.

The Privacy Act of 1974 requires that agencies give advance notice to the Congress and the Office of Management and Budget of their intent to establish or modify systems of records subject to the Act (5 U.S.C. 552a(o)). During the period July 24, 1977 through August 5, 1977 the Office of Management and Budget received the following reports on new (or revised) systems of records.

DEPARTMENT OF COMMERCE

System Names:

(1) Participants in Clinical Dental Projects.

(2) Participants in Human Factors Studies.

(3) Participants in Psychoacoustic Experiments.

Report Date:

July 22, 1977.

Point-of-Contact:

Mr. Joseph O. Smiroldo, Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

Summary:

The National Bureau of Standards, Department of Commerce, proposes to combine three systems of records on research subjects.

PANAMA CANAL COMPANY

System Name:

Race and Ethnic Data.

Report Date

July 27, 1977.

Point-of-Contact:

Mr. Joseph J. Wood, Agency Records Officer, Panama Canal Company, Box M, Balboa Heights, Canal Zone.

Summary:

The National Bureau of Standards, Department of Commerce, proposes to combine three systems of records on research subjects.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 20138 (70-6042)]

ALLEGHENY POWER SYSTEM, INC.

Proposed Issuance and Sale of Short-Term Notes to Banks and to Commercial Paper Dealer and Request for Exception From Competitive Bidding

AUGUST 12, 1977.

Notice is hereby given that Allegheny Power System, Inc. ("Allegheny"), 320 Park Avenue, New York, New York 10022, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Allegheny proposes to borrow funds during the period ending March 31, 1979, through the issuance and sale of short-term notes to banks and commercial paper dealer to a commercial paper dealer in an aggregate amount not to exceed $70,000,000 outstanding at any one time. It is stated that the notes and commercial paper will be issued and renewed from time to time as funds may be required prior to March 31, 1979, provided that no such notes or commercial paper will mature after September 30, 1979. Accordingly, Allegheny requests that, from the date of the granting of the application filed in this matter to March 31, 1979, the exemption from the provisions of Section 6(a) of the Act afforded to it by the first sentence of Section 6(b) thereof be increased to the extent necessary to permit the proposed program of short-term borrowing.

Each note payable to a bank will be dated as of the date of the borrowing which it evidences, will mature not more than two hundred-seventy (270) days after the date of issuance or renewal thereof, will bear interest at the prime or equivalent interest rate of the bank at which the borrowing is made in effect at the time of issuance, or in effect from time to time, and will be payable at any time without premium or penalty. The names of the banks from which such borrowings are proposed to be effected and the maximum amount of the borrowings to be outstanding from each bank at any one time are as follows:

Citibank, N.A., New York, N.Y.	$40,000,000
The Chemical Bank, New York, N.Y.	38,000,000
Mellon Bank, N.A., Pittsburgh, Pa.	45,000,000
Pittsburgh National Bank, Pittsburgh, Pa.	7,500,000
Manufacturers Hanover Bank, New York, N.Y.	45,000,000
Irving Trust Co., New York, N.Y.	5,000,000
Chase Manhattan Bank, New York, N.Y.	2,500,000
Total	183,000,000

No commitment or agreement has been made with respect to the proposed borrowings. The maximum amount of such borrowings at any one time outstanding will not, when taken together with any commercial paper then outstanding, be in excess of $70 million. Allegheny and its subsidiaries maintain balances to meet regular operating requirements at all of these banks which vary in amount from time to time. It is stated that such balances are generally either on the basis of a percentage of the line of credit extended by such bank (for example 10 pct), or a higher percentage of notes outstanding (for example 20 pct), whichever is greater, or a percentage of the line of credit (for example 10 pct) plus a percentage (for example 10 pct) of notes outstanding, in every case on an average annual basis. If such balances were maintained by Allegheny solely to fulfill compensating balance requirements for borrowings to be made by Allegheny, the effective interest cost to Allegheny of issuing and selling the notes would be no more than 8.75 pct on the basis of a prime commercial credit rate of 7 pct.

The proposed commercial paper will be in the form of promissory notes in denominations of not less than $50,000 nor more than $5,000,000, will be of varying maturities, with no maturity more than 270 days after the date of issue, and will not be prepayable prior to maturity. The commercial paper notes will be sold directly to the dealer, at a discount not in excess of the discount rate per annum prevailing at the time of issuance for commercial paper of comparable quality and of the particular maturity. The dealer may reoffer the commercial paper at a discount rate of $\frac{1}{8}$ of 1 pct per annum less than the discount rate to Allegheny. Allegheny may issue commercial paper notes if (1) the interest cost thereof is equal to or less than the effective interest cost at which Allegheny could borrow the same amount from the banks named herein at that time or (2) Allegheny cannot at that time borrow the same amount for the same period of time from the banks named herein. The dealer will reoffer the commercial paper notes to not more than 200 of its customers, identified and designated in a list (nonpublic) prepared in advance. It is expected that the commercial paper notes will be held by the dealer's customers to maturity, but if the customers wish to resell prior to maturity, the dealer, pursuant to a verbal repurchase agreement, will repurchase the notes and reoffer them to others on said list. Exception from the competitive bidding requirements of Rule 50 has been requested for the proposed issuance and sale of commercial paper pursuant to paragraph (a)(5) thereof, since it is not practicable to invite competitive bids for commercial paper and current rates for commercial paper for prime borrowers such as Allegheny are published daily in financial publications. Allegheny has also requested authority to file certificates under Rule 24 with respect to the issuance and sale of commercial paper on a quarterly basis.

It is stated that Allegheny will use the proceeds of the proposed short-term borrowings to make investments in its electric utility subsidiaries to assist them in financing their construction programs, such investments to be in the form of cash capital contributions or purchases of common stock, as may be appropriate from time to time, and for other corporate purposes. The presently estimated construction programs of the subsidiaries for 1977, 1978, and 1979 aggregate $311,000,000, $319,000,000, and $291,000,000, respectively. Presently projected investments by Allegheny in the subsidiaries aggregate $80,000,000 in 1977, $50,000,000 in 1978, and $51,000,000 in 1979.

It is stated that the fees and expenses to be incurred by Allegheny in connection with the proposed transaction are estimated to be approximately $10,400, including credit rating fees of $8,000. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 9, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the applicant, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[Release No. 20139 (70-6037)]

ARKANSAS POWER & LIGHT CO.

Proposal To Enter Into Installment Sales Agreements in Connection With the Issuance of Pollution Control Revenue Bonds

AUGUST 12, 1977.

Notice is hereby given that Arkansas Power & Light Company ("AP&L"), First National Building, Little Rock, Arkansas 72203, a wholly owned subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 9(a), 10 and 12(d) of the Act and Rule 44 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

In order to comply with prescribed federal, state and local standards with respect to air and water quality and the disposal of sewage and solid waste it has been and will be necessary to construct certain facilities for pollution control purposes at two 700 MW nominally rated coal fired generating units known as White Bluff Unit Nos. 1 and 2 ("White Bluff Plant") presently under construction in Jefferson County, Arkansas. AP&L has sold a 35 percent undivided interest in the White Bluff Plant to Arkansas Electric Cooperative Corporation (HCAR No. 20076) and plans to sell a 5 percent undivided interest in the White Bluff plant to the City of Jonesboro, Arkansas by September 1, 1977. AP&L now proposes to dispose of, and to contract to acquire, its anticipated 60 percent undivided interest ("Pollution Facilities") in certain of the pollution control facilities at the White Bluff Plant and its 60 percent undivided interest ("Industrial Facilities") in certain machinery, equipment and other facilities at the White Bluff Plant.

In order to effect such transactions, AP&L proposes to enter into two separate installment sale agreements ("Agreements") with Jefferson County, Arkansas ("County"), which will provide for the acquisition, construction and installation of the Pollution Facilities and the Industrial Facilities on behalf of the County. The Agreement relating to the Pollution Facilities will contemplate the issuance by the County under a trust indenture between the County and a trustee of not to exceed $35,000,000 aggregate principal amount of its Pollution Control Revenue Bonds, Series 1977 (Arkansas Power & Light Company Project) ("Pollution Bonds"). The net proceeds of the sale of Pollution Bonds will be used to defray the cost of construction of the Pollution Facilities. The Agreement relating to the Industrial Facilities will contemplate the issuance by the County under a trust indenture between the County and a trustee of $1,000,000 aggregate principal amount of its Industrial Development Revenue Bonds, Series 1977 (Arkansas Power & Light Company Project) ("Industrial Bonds"), the net proceeds of which would be used to defray the cost of construction of the Industrial Facilities. The operative terms and provisions of the two Agreements and the Pollution Bonds and the Industrial Bonds (collectively "Bonds") and the respective indentures ("Indentures") under which they are to be issued will be substantially identical.

The Agreements will provide for the sale of the Facilities by the County to AP&L, subject to a lien and security interest retained by the County and the payment by AP&L of the purchase price of the Facilities, together with interest thereon, in semi-annual installments over a term of years. In the Agreements AP&L will assent to the assignment and pledge to the trustees under the Indentures of the rights of the County in the Facilities and of the County's interest in, and of the moneys receivable by the County Under, the Agreements, except for certain rights to indemnification and reimbursement of expenses.

The Agreements will further provide that the purchase price of the Facilities payable by AP&L will be such amount as shall be sufficient (together with other moneys held by the trustees under the Indentures and available therefor) to pay the principal of the Bonds as the same becomes due and payable. AP&L under the Agreements will also agree to pay interest on the unpaid balance of the purchase price of the Facilities equal to the premium, if any, and interest on the Bonds. Under the Agreements AP&L will also be obligated to pay (i) the fees and charges of the trustee and any paying agent or agents under the Indentures, (ii) all expenses incurred by the County in connection with its rights and obligations under the Agreements, (iii) all expenses necessarily incurred by the County or the trustees under the Indentures in connection with the transfer or exchange of Bonds and (iv) all other payments which AP&L agrees to pay under the Agreements.

The Agreements will provide that AP&L may at any time prepay all or any portion of the unpaid balance of the purchase price of the Facilities, together with interest thereon, in whole or in part, such payment to be sufficient (together with other moneys held by the trustees under the Indentures and available therefor) to redeem on or after October 1, 1987, a specified principal amount of Bonds in the manner and to the extent provided in the Indentures, including any applicable premium, which will be 3 percent of the principal amount in the 11th year and which will reduce by ½ of 1 percent annually thereafter.

The Agreements will also provide that, upon occurrence of certain events relating to the operation of the White Bluff Plant or the Facilities, AP&L may at any time prepay the entire unpaid balance of the purchase price of the Facilities together with interest thereon. It will also provide that in the event of certain rulings of the Internal Revenue Service or certain court determinations relating to the taxability of the interest on the Bonds, AP&L shall be obligated to prepay the entire unpaid balance of the purchase price of the Facilities, together with accrued interest. The payments by AP&L in such circumstances shall be sufficient (together with other moneys held by the trustees under the Indentures and available therefor) to pay the principal of all Bonds together with interest accrued or to accrue to the redemption date.

It is proposed that the Bonds will be issued as either serial bonds ("Serial Bonds") or term bonds ("Term Bonds"), or a combination thereof. The Term Bonds will mature not later than 30 years from the first day of the month in which they are initially issued and will be subject to a mandatory cash sinking fund. Serial Bonds, if any, will mature at various times prior to the maturity of the Term Bonds. The effect of the mandatory cash sinking fund of the Term Bonds together with the serial maturities of the Serial Bonds, if any, will be calculated to retire no less than 25 percent of the aggregate principal amount of the Bonds prior to ultimate maturity on the first day of the month in which the Bonds are issued in the year 2007. The Indentures will provide for the application of such of the proceeds of the Bonds which, after completion of the Facilities, may remain unused for the redemption of purchase of the Bonds, at the direction of AP&L.

In order to provide security for the performance of AP&L's obligations under the Agreements, AP&L will grant to the County a lien on and security interest in ("County Lien") the Facilities. The County will assign the County Lien to the trustees pursuant to the Indentures.

The Agreements will provide that prior to the sale of the Facilities by the County to AP&L, AP&L will convey to the County such portions of the Facilities as have already been constructed or acquired by AP&L, subject to the lien of AP&L's Mortgage and Deed of Trust, dated as of October 1, 1944, made by the Company to Morgan Guaranty Trust Company of New York and John W. Flaherty, as Trustees, as supplemented and amended.

It is contemplated that the Bonds will be sold by the County pursuant to arrangements with a group of underwriters represented by Salomon Brothers, Goldman, Sachs & Co. and Stephens Inc. In accordance with the laws of the State of Arkansas, the interest rate to be borne by the Bonds will be fixed by the County. AP&L will not be party to the underwriting arrangements; however, the Agreements provide that the terms of the Bonds and their sale by the County, shall be satisfactory to AP&L. AP&L understands that interest payable on the Bonds will be exempt from federal income taxes under the provisions of the Internal Revenue Code. AP&L has been advised that the annual interest rates on obligations, interest on which is so tax exempt, historically have been and can be expected at the time of issuance of the Bonds to be 1% to 2% lower than the rates of obligations of like tenor and comparable quality, interest on which is fully subject to federal income tax.

A statement of the fees and expenses to be incurred in connection with the proposed transactions will be filed by amendment. AP&L has applied to the Arkansas Public Service Commission in connection with the proposed transactions. It is stated that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 8, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[Rel. No. 9888 (812-4157)]

INVESTORS' CORPORATE INCOME TRUST, SERIES 1 (AND SUBSEQUENT SERIES) VAN KAMPEN, SAVERMAN, INC, AND DAIN, KALMAN & QUAIL, INC.

Filing of Application for an Order Pursuant to Section 6(c) of the Act Granting Exemptions From the Provisions of Sections 14(a) and 22(d) of the Act and From Rules 19b-1 and 22c-1 Under the Act

AUGUST 12, 1977.

Notice is hereby given that Investors' Corporate-Income Trust, Series 1 (And Subsequent Series) ("Trust"), a unit investment trust registered under the Investment Company Act of 1940 ("Act") and its Sponsors, Van Kampen, Sauerman, Inc., 208 South LaSalle Street, Chicago, Illinois 60604, and Dain, Kalman & Quail, Inc., 100 Dain Tower, Minneapolis, Minnesota 55042, ("Sponsors") (hereinafter the Sponsors and the Trust are referred to collectively as "Applicants"), have filed an application on July 19, 1977, and amendments thereto on July 25, 1977, and August 9, 1977, pursuant to Section 6(c) of the Act for an order of the Commission exempting the Applicants from the provisions of Sections 14(a) and 22(d) of the Act, and Rules 19b-1 and 22c-1 under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Series 1 of the Trust is a unit investment trust, and is the first of a series of similar but separate trusts which the Sponsors intend to form (hereinafter all such subsequent Series are collectively referred to as the "Series"). The Series will be created under the laws of the Commonwealth of Massachusetts pursuant to separate trust agreements, such agreements containing certain standard terms and conditions of trust common to all the Series. The Applicants represent that the investment objective of each Series will be to seek a high level of current interest income and the conservation of capital through the investment in long-term debt obligations of corporations and other entities ("Debt Obligations") and, subject to certain limitations set forth in the application, Units of previously-issued Series of the Trust (the Debt Obligations and previously-issued Units are collectively called herein the "Trust Securities"). The Trust Securities which will constitute the portfolio of each Series will be selected in advance and will be identifiable in respect of each Series on the date of deposit with the Trustee.

The Sponsors have filed a Form S-6 Registration Statement under the Securities Act of 1933 ("1933 Act") covering fractional undivided interests in Series 1 to be offered to investors at a public offering price set forth in the prospectus included in the S-6 Registration Statement. The 1933 Act Registration Statement has not yet become effective. The Sponsors have also filed a Form N-8A Notification of Registration and a Form N-8B-2 Registration Statement under the Act relating to Series 1.

Each Series of the Trust will be governed by the provisions of a trust indenture and agreement ("Indenture") to be entered into by the Sponsors and a corporation organized and doing business under the laws of the United States or a state thereof, which is authorized under such laws to exercise corporate trust powers and having at all times an aggregate capital, surplus, and undivided profits of not less than $5,000,000 ("Trustee"). It is contemplated that the Bradford Trust Company will serve as Trustee for Series 1. It is also contemplated that Bradford Trust Company of Boston will serve as Co-Trustee for Series 1. Interactive Data Services, Inc. will serve as Evaluator for Series 1. A separate Indenture will be entered into each time a Series is created and activated and the Trust Securities which comprise its portfolio (or delivery statements relating to contracts for the purchase of such Trust Securities together with funds represented by cash or an irrevocable letter of credit issued by a major commercial bank in the amount required for their purchase) are deposited with the Trustee. Each Series will be substantially identical except as to size, number of Units and the individual Trust Securities in the portfolio.

When a Series of the Trust is created, the Sponsors and the Trustee will enter into an Indenture and the Trust Securities to constitute such Series of the Trust (or delivery statements relating thereto and funds for the purchase thereof as set forth above) will be delivered to and deposited with the Trustee by or on behalf of the Sponsors. Substantially concurrently, the Trustee will issue in the name of the Sponsors, or such other name or names as the Sponsors may direct, one or more certificates evidencing the ownership of all of the undivided interests in such Series of the Trust. These Units will be separately offered for sale to the public at prices based upon their then respective current net asset values after the registration statement filed in respect thereto under the 1933 Act has become effective.

Applicants state that Trust Securities will not be pledged or be in any other way subjected to any debt at any time after they are deposited with the Trustee. The Sponsors have been accumulating Trust Securities for the purpose of deposit in Series 1 and will follow a similar procedure of accumulating Trust Securities for each subsequent Series.

The assets of the Trust may consist of Debt Obligations initially deposited, such Debt Obligations as may continue to be held from time to time in exchange for or substitution of any of the Debt Obligations, accrued and undistributed interest, undistributed cash and Units of previously issued Series of the Trust. Certain of the Debt Obligations may from time to time be sold under the circumstances set forth in the Indenture, or may be redeemed or may mature in accordance with their terms. The proceeds from such dispositions may, at the discretion of the Sponsors, be reinvested in substitute obligations meeting specified criteria or may be distributed to the holders of Units of the Trust ("Unitholders") and not reinvested.

Each Unit of the Trust will represent a fractional undivided interest, the numerator of the fractional interest represented will be 1 and the denominator will be the number of Units issued and outstanding in any particular Series. Units are redeemable, and in the event that any Units are redeemed, the fractional undivided interest represented by each Unit will be increased accordingly. Units will remain outstanding until redeemed or until the termination of the Indenture. The Indenture may be terminated by 100% agreement of the Unitholders or, in the event that the value

V 42 160 AUG 18 77 UM

of Trust Securities shall fall below an amount specified, either upon direction of the Sponsors to the Trustee or by the Trustee without such direction. There is no provision in the Indenture for the issuance of any Units after the initial issuance and such activity will not take place (except to the extent that the secondary trading by the Sponsors in the Units is deemed the issuance of Units under the Act).

The Sponsors while under no obligation to do so, intend to maintain a market for Units of the Trust and to offer to purchase such Units at prices in excess of the redemption price as set forth in the Indenture. In the absence of such a market, Unitholders may only be able to dispose of their Units by redemption.

SECTION 14(a)

Section 14(a) of the Act, in substance, provides that no registered investment company and no principal underwriter for such a company shall make a public offering of securities of which such company is the issuer unless (1) the company has a net worth of at least $100,000; (2) at the time of a previous public offering it had a net worth of $100,000; or (3) provision is made that a net worth of $100,000 will be obtained from not more than twenty-five responsible persons within ninety days, or the entire proceeds received, including sales charge, will be refunded.

Applicants seek an exemption from the provisions of Section 14(a) in order that a public offering of Units of the Trust as described above may be made. In connection with the requested exemption from Section 14(a) the Sponsors agree (1) to refund, on demand and without deduction, all sales charges to purchasers of Units of a Series if, within ninety days from the time that a registration statement for a Series becomes effective under the Securities Act of 1933, the net worth of the Series shall be reduced to less than $100,000, or if such Series is terminated; (2) to instruct the Trustee on the date Trust Securities are deposited in each Series that in the event that redemption by the Sponsors of Units constituting a part of the unsold Units shall result in that Series having a net worth of less than 40% of the principal amount of Trust Securities originally deposited for such Series, the Trustee shall terminate the Series in the manner provided in the Indenture and distribute any Trust Securities or other assets deposited with the Trustee pursuant to the Indenture as provided therein; and (3) in the event of termination for the reasons described in (2) above, to refund any sales charges to any purchasers of Units purchased from the Sponsors on demand and without any deduction.

The Sponsors have further represented that no Series of the Trust will be created which will contain in the portfolio on the date of deposit, Trust Securities (or delivery statements relating thereto and funds for the purchase thereof) having a face amount of less than $3,000,000. In the event the value of such a Series should decrease to the greater of $1,000,000 or 20% of the amount of the Trust Securities initially deposited, for any reason, the Trustee may, and when so directed by the Sponsors shall, terminate and liquidate the Series. Thus, Applicants represent that it is highly unlikely that, except during the course of liquidation, the net worth of any Series would ever decline to $100,000 or less.

RULE 19b-1

Rule 19-1 provides in substance that no registered investment company which is a "regulated investment company" as defined in Section 851 of the Internal Revenue Code shall distribute more than one capital gain dividend in any one taxable year. Paragraph (b) of the Rule contains a similar prohibition for a company not a "regulated investment company" but permits a unit investment trust to distribute capital gains dividends received from a "regulated investment company" within a reasonable time after receipt.

Distributions of interest on each Series will be made to Unitholders semi-annually unless a Unitholder elects to receive them monthly or quarterly. Distributions of principal on each Series will be made to Unitholders semi-annually. Applicants represent that distributions of principal constituting capital gains to Unitholders may arise in the following instances: (1) If an issuing authority calls or redeems an issue of Debt Obligations held in the portfolio, the sums received by the Trust will be distributed on a pro-rata basis to each Unitholder on the next distribution date; (2) if Units are redeemed by the Trustee and Trust Securities from the portfolio are sold to provide the funds necessary for such redemption, each Unitholder will receive his pro-rata portion of the proceeds from the Trust Securities sold over the amount required to satisfy such redemption distribution; (3) if Trust Securities held in the portfolio must be disposed of in order to maintain the qualification of a Series as a regulated investment company under the Internal Revenue Code, the sums received by the Trust will be distributed on a pro-rata basis to each Unitholder on the next distribution date; and (4) if Debt Obligations held in the portfolio are sold to maintain the investment stability of a Series of the Trust, the sums received by the Trust may be distributed on a pro-rata basis to each Unitholder on the next distribution date. In such instances, a Unitholder may receive in his distribution funds which constitute capital gains, since in some cases the value of the Trust Securities redeemed or sold may have increased since the date of initial deposit.

As noted, Paragraph (b) of Rule 19b-1 provides that a unit investment trust may distribute capital gain dividends received from a "regulated investment company" within a reasonable time after receipt. Applicants assert that the purpose behind such provision is to avoid forcing unit investment trusts to accumulate valid distributions received throughout the year and distribute them only at year end, and that the operations of Applicants in this regard are squarely within the purpose of such provision. However, in order to comply with the literal requirements of the Rule, each Series of the Trust would be forced to hold any monies which would constitute capital gains upon distribution until the end of its taxable year. The application contends that such practice would clearly be to the detriment of the Unitholders.

In support of the requested exemption, Applicants state that the dangers against which Rule 19b-1 is intended to guard do not exist in the situation at hand since neither the Sponsors nor the Trust has control over events which might trigger capital gains, e.g., the tendering of Trust Units for redemption and the prepayment of portfolio Debt Obligations by the issuing authorities. In addition, it is alleged that any capital gains distribution will be clearly indicated as captial gains in the accompanying report by the Trustee to the Unitholder. Finally, Applicants assert that the sale of Debt Obligations in an effort to maintain the investment stability of a Series of the Trust is an activity designed generally to prevent or to retard deterioration of values when certain adverse factors exist. These factors include a default in the payment of principal or interest on Debt Obligations, an action involving the issuer thereof which will adversely affect its ability to continue payment of the principal and the interest on its Debt Obligations, or an adverse change in the market, revenue or credit factors affecting the investment stability of the Debt Obligations. However, Applicants also contend that sale of Debt Obligations in an effort to maintain investment stability of any Series is not expected to result in capital gains distributions to the Trust or its Unitholders because the above factors will normally have a depressing effect on the market value of the Debt Obligations.

RULE 22c-1

Applicants state that following the initial offering period, the Sponsors, while not obligated to do so, intend to offer to purchase the Units in the secondary market at prices based on the offering side evaluation of the Trust Securities in any Series, determined on the last business day of each week, effective for all sales made during the following week.

Applicants also state that the Sponsors have undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide estimated evaluations on trading days. In the case of a repurchase, if the Evaluator cannot state that the previous Friday's price is at least equal to the current bid price, the Sponsors will order a full evaluaiton. The Sponsors agree that, in case of the resale of Units in the secondary market, if the Evaluator

cannot state that the previous Friday's price is not more than one-half point ($5.00 on a unit representing $1,000.00 principal amount of underlying Trust Securities) greater than the current offering price, a full evaluation will be ordered. Under these circumstances, the Applicants contend that the exemption of the Sponsors from the provisions of Rule 22c-1 will in no way affect the operations of the Trust and will benefit the Unitholders by providing a repurchase price for their Units which is in excess of the current net asset value of such Units as computed for redemption purposes.

Rule 22c-1 provides, in pertinent part, that no registered investment company issuing any redeemable security, and no dealer in any such security, shall sell, redeem, or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicants state that Rule 22c-1 has two purposes: (1) to eliminate or to reduce any dilution of the value of outstanding redeemable securities of registered investment companies which might occur through the sale, redemption or repurchase of such securities at prices other than their current net asset values; and (2) to minimize speculative trading practices in the securities of registered investment companies.

The secondary market activities of the Sponsors and the manner for the acquisition by investors of new Units, may be deemed to violate Rule 22c-1 because of the absence of daily pricing. Applicants contend, however, that the purposes of Rule 22c-1 will not be offended by the Sponsors in the secondary market activities. Applicants assert that the pricing of Units by the Sponsors in the secondary market will in no way dilute the assets of the Trust, and that Unitholders will benefit from the Sponsors' pricing procedure in the secondary market since they will normally receive a higher repurchase price for their Units than they could be redeeming their Units at the current net asset value, and that this will be accomplished without the cost burden to the Trust of daily evaluations of the Unit redemption value.

Applicants also contend that speculation in Units of any Series is unlikely because price changes are limited in respect to the kind of Trust Securities which will be held by such Series.

To avoid the Sponsors receiving more than the specified sales charge on the resale of Units, the Sponsors have undertaken not to resell any Units which they may repurchase at a price below the offering side evaluation of the Trust Securities in any Series.

Applicants therefore request an exemption from the provisions of Rule 22c-1 for Series 1 and for all subsequently created Series insofar as the Rule may apply after completion of the primary distribution of Units of such Series.

SECTION 22(d)

Applicants propose to offer the right to participate in an automatic reinvestment option ("ARO Plan") to Unitholders of record in each of its Series who have selected the semi-annual plan of distribution. This ARO Plan will permit Unitholders to invest income and capital gains distributions made to them on a predecessor Series of the Trust into Units of a subsequent Series of the Trust ("Reinvestment Series") at a reduced sales charge. Applicants state that its Unitholders will be able to join the ARO Plan at any time by delivering to the Trustee an Authorization Form. Likewise, a participant may withdraw at any time upon written notice to the Trustee. To assist in withdrawals, the Trustee intends to establish a toll free telephone number. However, if notification of withdrawal has not been given to the Trustee prior to a particular semiannual distribution date, the participant will be deemed to have elected to participate in the ARO Plan with respect to that particular distribution, and his withdrawal will become effective for the next succeeding distribution. Each participant will have his interest and principal distributions reinvested on the corresponding distribution date in the appropriate Reinvestment Series of the Trust. Applicants represent that they intend to see to it that each Reinvestment Series will be declared effective by the Commission in sufficient time to allow distribution to Plan participants of final prospectuses relating to such Reinvestment Series. As presently contemplated, it is intended that each Reinvestment Series will become effective on or about each semi-annual record date for determining who is eligible to receive distributions on the related Distribution Date. Applicants state that if a Reinvestment Series has not been declared effective in such sufficient time, the ARO Plan will be suspended with respect to that Series and recommenced with the next succeeding Series. In such a case, a participant would receive his normal cash distribution. Applicants represent that fractional Units in the denomination of tenths will be purchased under the ARO Plan and any excess cash from each distribution not utilized to purchase such Units will be distributed to the respective Plan participants.

In order that distributions may be reinvested on the next succeeding Distribution Date, the Authorization Form must be received by the Trustee no later than the 15th day of the month preceding such Distribution Date. Any Authorization Form received after such date will result in the commencement of reinvestment on the second Distribution Date thereafter. Once delivered to the Trustee, an Authorization Form will, except in the following instance, constitute a valid election to participate in the Plan for each subsequent distribution as long as the Unitholder continues to participate in the Plan.

The Applicants have agreed that in the event any Reinvestment Series should materially differ from the particular Series of the Trust into which participants in the ARO Plan originally invested or the preceding Reinvestment Series, the Unitholders' authorization to participate in the ARO Plan will be voided, and, after the filing of a registration statement under the 1933 Act for such Reinvestment Series, participants will be provided with a prospectus meeting the requirements of Section 10(a) of the 1933 Act for such Reinvestment Series, a notice of the material change, and a new Authorization Form.

Unless a Unitholder notifies the Trustee in writing to the contrary, any Unitholder who has acquired Units through the ARO Plan will be deemed to have elected the semi-annual plan of distribution and to participate in the ARO Plan with respect to distributions made in connection with Units so purchased under the ARO Plan. A Unitholder may withdraw from the ARO Plan with respect to distributions related to Units purchased under the ARO Plan, and remain in the Plan with respect to Units acquired other than through the Plan. All such distributions made with respect to Units purchased under the Plan will be accumulated with distributions generated from the Units of the Series of the Trust used to purchase such additional ARO Plan Units, but no distributions generated from Units of other Series of the Trust will be accumulated with the foregoing distributions for ARO Plan purchases. Thus, if a person owns units in more than one Series of the Trust (which are not the result of purchases under the ARO Plan), distributions with respect thereto will not be aggregated for purchases under the ARO Plan. Any funds not utilized to purchase Units in the denomination of tenths in the Reinvestment Series will be automatically distributed by the Trustee on the Distribution Date. Confirmations of sales relating to Units purchased under the ARO Plan and certificates relating thereto will be provided in the normal course of business. Both the Sponsors and the Trustee reserve the right to suspend, modify, or terminate the Plan at any time. All participants will receive notice of any such suspension, modification or termination.

Units of each existing Series of the Trust will be offered at a public offering price of approximately $1,050 per Unit plus accrued interest. However, as noted above, it is the Sponsors' intention to permit purchases under the ARO Plan of fractional units in the denomination of tenths rather than require purchases of full units. The purpose of allowing purchases of fractional Units is to allow a minimum purchase requirement in the primary distribution of Trust Units, but at the same time permit maximum use of distributions for purchases through the reinvestment program.

Applicants propose to offer Reinvestment Series Units under the ARO Plan at a price reflecting a sales charge of 3½% of the underlying net asset value

V42160 AUG 18 77 UMI

of the Trust Securities in such Series rather than the customary 4½% sales charge which applies to all primary and secondary sales of Units in the various Series of the Trust including primary and secondary sales of Reinvestment Series Units other than through the ARO Plan).

Section 22(d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it except to or through a principal underwriter for distribution or at a current public offering price described in the prospectus, and, if such class of security is being currently offered to the public by or through an underwriter, no principal underwriter of such security and no dealer shall sell any such security to any person, except a dealer, a principal underwriter or the issuer, except at a current public offering price described in the prospectus. Rule 22d–1 permits certain variations in sales load, none of which it is alleged are applicable to the proposed ARO Plan.

In support of the request, Applicants assert that applying a sales charge of less than the customary 4½% charge in the case of ARO Plan purchases is both beneficial to ARO Plan participants, and also warranted in light of the related cost savings. Applicants state that approximately 3½% of the customary 4½% sales charge is attributable to brokerage efforts to make the initial customer solicitation, to ascertain the customer's financial requirements and to counsel him on the Sponsors' specific product. Applicants represent that each Reinvestment Series will be substantially similar to the Series of the Trust which the ARO Plan participant originally purchased with the exception of the make-up of the Series portfolio and certain portfolio related information. Consequently, the support for that portion of the sales charge attributable to counselling the participant on the Sponsors' product is reduced, as is the selling effect relating to initial solicitations. It is the Applicants' belief that cost savings related thereto should be passed on to ARO Plan participants.

However, with respect to any particular Reinvestment Series, Applicants believe a participant may seek professional advice, and, thus, a reduced sales charge for such financial services is warranted. It is the Applicants' belief that a charge of 1½% of the net asset value of the underlying Trust Securities in each Reinvestment Series (or assuming a net asset value of approximately $1,000 per Unit a sales charge of $15.00 per Unit) is a reasonable and justifiable expense to be allocated to the soliciting broker for his professional assistance in connection with each Reinvestment Series.

Applicants further assert that implementation and continuation of the ARO Plan will create special out-of-pocket costs which should properly be borne by the Plan participants. It is the Sponsors' belief that the special out-of-pocket expenses related to the Plan (including such items as (a) maintaining Trustee records on participants, (b) mailing, shipping and miscellaneous delivery charges, (c) maintaining a toll free telephone number with knowledgeable operators, and (d) separate printing charges) will amount to $10.00 per unit (assuming the above net asset value, 1% of such value). Finally, prior experience indicates that the normal out-of-pocket costs for establishing each Series of the Trust approximate 1% of the underlying asset value of the Trust's portfolio. Applicants represent that all such costs will be covered in the proposed 3½% sales charge. Thus, Applicants conclude that the proposed 3½% sales charge for ARO Plan purchases not only passes through certain cost savings to ARO Plan participants but also charges such persons for reasonable expenses related to the creation of the ARO Plan, and for fees relating to periodic, professional, financial advice.

Section 6(c) of the Act provides, in pertinent part, that the Commission may, upon application, conditionally or unconditionally, exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given, That any interested person may, not later than September 6, 1977, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing, upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[Rel. No. 20137 (70–6038)]

METROPOLITAN EDISON CO.

Proposed Issuance and Sale of First Mortgage Bonds at Competitive Bidding

AUGUST 12, 1977.

Notice is hereby given that Metropolitan Edison Company ("Met-Ed"), 2800 Pottsville Pike, Muhlenberg Township Berks County, Pennsylvania 19605, an electric utility subsidiary of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed proposes to issue and sell for cash, after competitive bidding in accordance with the requirements of Rule 50 under the Act, up to $35,000,000 principal amount of first mortgage bonds, to be dated the date of their issue and to mature September 1, 2007 ("New Bonds"). The Bonds are to be issued under the Indenture dated November 1, 1944, between Med-Ed and Guaranty Trust Company of New York (now Morgan Guaranty Trust Company of New York), Trustee, as heretofore supplemented and amended and as to be further supplemented and amended by a Supplemental Indenture. The bidding procedures which Met-Ed will use with respect to the New Bonds will require that (1) the price specified in the bid shall be not less than 98 percent and not more than 101 percent of the principal amount of the New Bonds, plus accrued interest from September 1, 1977 to the date of delivery, and (2) the interest rate to be borne by the New Bonds, which shall be specified in such bids, shall be a multiple of ⅛th of 1 percent. The bidding procedure will not establish a minimum or maximum interest rate within which bids may be submitted. Prior to September 1, 1982, none of the New Bonds may be redeemed at the option of Met-Ed if the moneys for such redemption are obtained by Met-Ed borrowings at an interest cost less than the annual yield to maturity of the New Bonds, except under certain circumstances.

Met-Ed states that substantially all of the proceeds from the sale of the New Bonds will be applied to the payment at or before maturiay of a like amount of Met-Ed's approximately $87,000,000 of short-term bank loans expected to be outstanding at the date of sale of the New Bonds and the balance, if any, will be applied to reimburse Met-Ed's treasury for funds previously expended therefrom for construction purposes. The estimated cost of Met-Ed's 1977 and 1978 construction programs are approximately $58,000,000 and $6,000,000 respectively.

Met-Ed states that the Pennsylvania Public Utility Commission has jurisdiction with respect to the proposed issuance and sale of the New Bonds.

It is further stated that no other state commission and no federal commission, other than this Commission has jurisdiction with respect to the proposed transaction. It is stated that the fees and expenses to be incurred in connection with the proposed transaction are to be filed by amendment.

Notice is further given that any interested person may, not later than September 6, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, and reasons for such request, and the issue of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

PHILADELPHIA STOCK EXCHANGE

Application for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 12, 1977.

In the matter of an application of the Philadelphia Stock Exchange, Inc. for unlisted trading privileges in a certain security. The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the security of the company as set forth below, which security is listed and registered on one or more other national securities exchanges:

International Couriers Corporation, File No. 7–4975, Common Stock—$1.00 Par Value.

Upon receipt of a request, on or before August 29, 1977 from any interested person, the Commission will determine whether the application with respect to the company named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[License No. 09/12-0002]

CONTINENTAL CAPITAL CORP.

Filing of Application for Approval of Conflict of Interest Transaction Between Associates

Notice is hereby given that Continental Capital Corporation (CCC), 555 California Street, San Francisco, California 94104, a Federal Licensee under the Small Business Investment Act of 1958, as amended (Act), has filed with the Small Business Administration (SBA) an application pursuant to Section 107.1004 of the Regulations governing small business investment companies (13 CFR 107.1004 (1977)), for approval of a conflict of interest transaction. CCC is also registered under the Investment Company Act of 1940, as a non-diversified, closed-end, management investment company.

CCC will purchase up to 6.667 common shares of Beaver Insurance Company (Beaver), Suite 440, 300 Montgomery Street, San Francisco, California 94104, at $52.50 per share for a total investment up to $350,017.50. The shares represent CCC's pro-rata interest in a 20,000 share stock offering by Beaver. The transaction falls within the purview of Section 107.1004(b)(1) of the Regulations and requires prior written approval by SBA because three associates of CCC, as defined in Section 107.3 of the Regulations, are also directors of Beaver. Two of the CCC associates are also shareholders of Beaver. Mr. Fred Parr Cox, Chairman of the Board of Directors of CCC and shareholder of CCC, owns 400 Beaver shares and is a Director of Beaver. Mr. D. Forrest Greene, a Director and shareholder of CCC, is a Director of Beaver. His children purchased 100 Beaver shares in 1975. Mr. William C. Tait, who is Cox's father-in-law, recently sold his shares of Beaver to Mr. Cox. Mr. Tait is also a director of Beaver. Mr. Cox and Mr. Greene intend to purchase 1,000 and 4,300, respectively, of the Beaver shares to be sold.

On July 14, 1977, the Securities and Exchange Commission published (Release No. 9849) a Notice of filing of this application pursuant to Sections 17(b) and 17(d) of the Investment Company Act of 1940 (ICA), and Rule 17d-1 thereunder for an order exempting this transaction from Section 17(a) of the ICA and permitting participation in said transaction. This exemption was granted on August 9, 1977.

CCC's original investment in Beaver was approved by SBA on February 18, 1970, as an exemption to Section 107.1001 (a), which deals with relending. A previous application for SBA approval of a conflict of interest transaction by CCC in Beaver was published in the FEDERAL REGISTER in July 28, 1976, and approved by SBA on August 17, 1976.

Notice is hereby given that any person may, not later than September 2, 1977 submit to SBA in writing, comments on the proposed transaction. Any such comments should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street NW., Washington, D.C. 20416.

A copy of this Notice shall be published by CCC in newspapers of general circulation in Los Angeles and San Francisco, California.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: August 12, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

HONOLULU DISTRICT ADVISORY COUNCIL

Public Meeting

The Small Business Administration Honolulu District Advisory Council will hold a public meeting at 9 a.m., Monday, September 19, 1977, at the Ala Moana Hotel, 410 Atkinson Drive, Honolulu, Hawaii to discuss such matters as may be presented by members, staff of the Small Business Administration, or others present. For further information, write or call David K. Nakagawa, District Director, U.S. Small Business Administration, 300 Ala Moana, Room 2213, P.O. Box 50207, Honolulu, Hawaii 96850, 808-546-8950.

Dated: August 12, 1977.

K. DREW,
Deputy Advocate for Advisory Councils.

[FR Doc.77-23931 Filed 8-17-77;8:45 am]

[Proposed License No. 02-02-0334]

VENTURE SBIC, INC.

Application for a License to Operate as a Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to Section 107.102 of the Regulations governing small business investment companies (CFR 107.102 (1977)) under the name of Venture SBIC, Inc., 249-12 Jericho Turnpike, Bellerose, New York 11426, for a license to operate as a small business investment company under the provisions of the Small Business Investment Act of 1958, as amended (the Act), and the rules and regulations promulgated thereunder.

The proposed officers, directors and shareholders are as follows:

Name and Title

Arnold Feldman, 209-39 23rd Avenue, Bayside, New York 11432, President and Director, 50 percent.

Jerome Feldman, 175-27 Wexford Terrace, Jamaica, New York 11432, Secretary and Director, 50 percent.

Arnold and Jerome Feldman are brothers. Each is a partner in a general accounting firm known as Feldman and Feldman. Arnold is a licensed public accountant and has been with the firm since 1956. Jerome is a certified public accountant and has been with the firm since March, 1948.

The applicant proposes to commence operations with capital of $510,000, of which $200,000 will be borrowed funds. It is the intention of the applicant to conduct its business primarily within the State of New York but may extend its range of operations to include the states of New Jersey, Connecticut, Pennsylvania, Massachusetts and California. Applicant further intends to provide a source of supplementary capital for businesses, which because of economic conditions, strict lending policies and relative newness of their enterprises, cannot qualify for loans from institutional investors. It is not the applicant's intention of using the services of an Investment Adviser; but will provide management consulting services to its clients, including business consulting.

Matters involved in SBA's consideration of the application include the general business reputation of the owner and management, and the probability of successful operations of the new company, in accordance with the Act and Regulations.

Notice is further given that any person may, not later than September 2, 1977, submit to SBA, in writing, relevant comments on the proposed licensing of this company. Any such communications should be addressed to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: August 12, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 77-149]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from May 12, 1977 to June 5, 1977 (List No. 9-77). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to the approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

LIFE PRESERVERS, KAPOK, ADULT AND CHILD (JACKET TYPE), MODELS 3 AND 5

The Campco Ventures Company, A Division of American Recreation Group, 1891 Woolner Avenue, Fairfield, California 94533, no longer manufactures certain kapok life preservers and Approval Nos. 160.002/2/1 and 160.002/3/1 were therefore terminated effective May 18, 1977.

LIFE PRESERVERS; REPAIRING AND CLEANING

The Vacuum Sterilizing Company, 1354 York Street, San Francisco, California 94110, Approval No. 160.006/27/0 expired and was terminated effective June 3, 1977.

SEA ANCHORS, LIFEBOAT

The Samuel Fassman Company, 2776 Atlantic Avenue, Brooklyn, New York 11207, Approval No. 160.019 11 0 expired and was terminated effective June 5, 1977.

BUOYANT VESTS, KAPOK, OR FIBROUS GLASS

The Campco Ventures, Inc., P.O. Box 49, 1891 Woolner Avenue, Fairfield, California 94533, no longer manufactures certain kapok buoyant vests and Approval Nos. 160.047/300.0, 160.047 301/0 and 160.047/302/0 were therefore terminated effective May 18, 1977.

BUOYANT CUSHIONS, KAPOK, OR FIBROUS GLASS

The Campco Ventures, Inc., P.O. Box 49, 1891 Woolner Avenue, Fairfield, California 94533, no longer manufactures certain kapok buoyant cushions and Approval Nos. 160.048/3 0 and 160.048 5, 1 were therefore terminated effective May 18, 1977.

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM

The Campco Ventures, Inc., P.O. Box 49, 1891 Woolner Avenue, Fairfield, California 94533, no longer manufactures certain unicellular plastic foam buoyant vests and Approval Nos. 160.052/119 1, 160.052/120/1 and 160.052/121/1 were therefore terminated effective May 18, 1977.

WORK VESTS, UNICELLULAR PLASTIC FOAM

The Campco Ventures, Inc., P.O. Box 49, 1891 Woolner Avenue, Fairfield, California 94533, no longer manufactures certain unicellular plastic work vests and Approval No. 160.053/4/1 was therefore terminated effective May 18, 1977.

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD, FOR MERCHANT VESSELS

The Campco Ventures Company, A Division of American Recreation Group, (A Limited Partnership), P.O. 49, Fairfield, California 94533, no longer manufactures certain unicellular plastic foam life preservers and Approval Nos. 160.055/60/0 and 160.055/61/0 were therefore terminated effective May 18, 1977.

MARINE BUOYANT DEVICE

The Stearns Manufacturing Company, Division Street at Thirtieth, St. Cloud, Minnesota 56301, no longer manufactures certain marine buoyant devices and Approval Nos. 160.064/251, 0 and 160.064/252/0 were therefore terminated effective June 3, 1977.

The Stearns Manufacturing Company, Division Street at Thirtieth, St. Cloud, Minnesota 56301, Approval No. 160.064/253 0 expired and was terminated effective May 12, 1977.

The Campco Ventures, Inc., 1891 Woolner Avenue, Fairfield, California 94533, no longer manufactures certain marine buoyant devices and Approval Nos. 160.064 861/0, 160.064 862, 0, 160-064 863 0, 160.064 864 0 and 160.064 865 0 were therefore terminated effective May 18, 1977.

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

The J. P. Stevens & Company, Inc., 1460 Broadway, New York, New York 10036, Approval No. 164.009 148/0 expired and was terminated effective May 24, 1977.

Dated: August 10, 1977.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

NATIONAL BOATING SAFETY ADVISORY COUNCIL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the National Boating Safety Advisory Council to be held on Wednesday and Thursday, September 28-29, 1977 in Room 2230, Nassif Building, 7th and "D" Streets SW., Washington, D.C. The meeting is scheduled to begin at 9 a.m. both days and adjourn at 10:45 p.m. on Wednesday, September 28th and in the early afternoon on Thursday, September 29th. The agenda for this meeting will be as follows:

1. Review of action taken at the sixteenth meeting of the Council.
2. Executive Director's Report.
3. Discussion and vote on proposed change to fixed fire extinguisher requirements for recreational boats.
4. Discussion and vote on proposed Capacity Label Regulation Amendment.
5. Discussion and technical vote on proposed ventilation requirement changes.
6. Progress Report on Navigation Light Project.
7. Discussion and vote on amendments to the Fuel and Electrical Standards.
8. Discusison on Hull Identification Problems.
9. Progress Report on Compliance Program.
10. Discussion on Start-In-Gear Protection.
11. Day-time and night-time Visual Distress Signals Demonstrations will be conducted September 28 at approximately 2 p.m. and 8 p.m., respectively, at the Maryland Marine Police Academy, Matapeake, MD.
12. Discussion and Vote on Proposed Visual Distress Signals Regulation.

V42160 AUG 18 77 UMI

13. Office of Boating Safety Report.
14. Members' Items.
15. Chairman's Session.

Attendance is open to the interested public. With approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from Cdr. M. Tubella, Jr., Executive Director, National Boating Safety Advisory Council, U.S. Coast Guard (G-BA), Washington, D.C. 20590, or by calling 202-426-1080. Any member of the public may present a written statement of the Council at any time.

Issued in Washington, D.C. on August 5, 1977.

D. F. LAUTH,
Rear Admiral, U.S. Coast Guard, Chief, Office of Boating Safety.

NATIONAL BOATING SAFETY ADVISORY COUNCIL; CAPACITY LABEL SUBCOMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the National Boating Safety Advisory Council's Capacity Label Subcommittee to be held on Tuesday, September 27, 1977, in Room 4119, Trans Point Building, 2100 Second Street SW., Washington, D.C. The meeting is scheduled to begin at 1:30 p.m. and adjourn at 5 p.m.

The purpose of this meeting is to review a Coast Guard technical proposal for an amendment to the Capacity Label Standards. Attendance is open to the interested public.

With the approval of the Chairman, members of the public may present oral statements at this meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from Commander M. Tubella, Jr., Executive Director, National Boating Safety Advisory Council, U.S. Coast Guard (G-BA), Washington, D.C. 20590, or by calling 202-426-1080.

Issued in Washington, D.C. on August 5, 1977.

D. F. LAUTH,
Rear Admiral, U.S. Coast Guard, Chief, Office of Boating Safety.

NATIONAL BOATING SAFETY ADVISORY COUNCIL; MARINE DEALERS RESPONSIBILITY SUBCOMMITTEE

Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the National Boating Safety Advisory Council's Marine Dealers Responsibility Subcommittee to be held on Tuesday, September 27, 1977 in Room 4317, Trans Point Building, 2100 Second Street SW., Washington, D.C. The meeting is scheduled to begin at 1 p.m. and adjourn at 5 p.m.

The purpose of this meeting is to review a draft of a proposed rule which will require certain actions by marine dealers to assist manufacturers in maintaining an accurate first purchasers list for boats and affected equipment.

With the approval of the Chairman, members of the public may present oral statements at this meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from Commander M. Tubella, Jr., Executive Director, National Boating Safety Advisory Council, U.S. Coast Guard (G-BA), Washington, D.C. 20590, or by calling 202-426-1080.

Issued in Washington, D.C., on August 5, 1977.

D. F. LAUTH,
Rear Admiral, U.S. Coast Guard, Chief, Office of Boating Safety.

Materials Transportation Bureau

HAZARDOUS MATERIALS REGULATIONS

Exemptions

AGENCY: Materials Transportation Bureau, DOT.

ACTION: Notice of grants and denials of applications for exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given of the exemptions granted July 1977. The modes of transportation involved are identified by a number in the "Nature of Exemption Thereof" portion of the table below as follows: (1) Motor vehicle, (2) Rail freight, (3) Cargo vessel, (4) Cargo-only aircraft, (5) Passenger-carrying aircraft.

Application numbers prefixed by the letters EE represent applications for Emergency Exemptions.

RENEWALS

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
930-X	DOT-E 930	Callery Chemical Co., Callery, Pa....	49 CFR 172.101, 173.2, 173.34(d)(3), 173.328.	To ship a flammable, poisonous gas in DOT 3AA1800, DOT 3AA2015, and DOT 3AA 2400 specification cylinders. (Modes 1, 2, and 3.)
3109 X	DOT-E 3109	Raytheon Co., Lowell, Mass.; U.S. Department of Defense, Washi-	49 CFR 173.302(a).....	To ship nonflammable, nonliquefied compressed gas in a nonrefillable, non-DOT specification cylinder. (Modes 1, 2, 3, and 4.)
3780 X	DOT-E 3780	American Cyanamid Co., Wayne, N.J.	49 CFR 173.328(a)(2)...	To ship certain class A poisonous liquid in DOT 3AA180, 3AA180 or 3AA180 X cylinders. (Modes 1 and 2.)
4067-X	DOT-E 4067	Stauffer Chemical Co., Westport, Conn.	49 CFR 173.315.....	To ship hydrogen sulfide in DOT specification MC 331 cargo tanks. (Mode 1.)
4111 X	DOT E 4111	Container Corporation of America, Wilmington, Del.	49 CFR 173.34(e).....	To ship liquid paving material in a DOT specification 21P fiber drum overpack having an inside DOT specification 2U polyethylene container. (Modes 1 and 2.)
4490 X	DOT-E 4490	Air Products and Chemicals, Inc., Allentown, Pa.	49 CFR 173.30(a).....	To allow multiple partial unloading of a tank motor vehicle transporting liquefied hydrogen. (Modes 1 and 2.)
4575-P	DOT-E 4575	ICI United States, Wilmington, Del..	49 CFR 173.34(e), 173.315(a)(1).	To become a party to exemption 4575. See application No. 4575 X. (Modes 1 and 2.)
4608 X	DOT E 4608	American Bosch Arma Corp., Springfield, Mass.	49 CFR 173.302(a)(1), 175.3.	To ship certain liquefied compressed gases in welded or seamless, nonrefillable, non-DOT specification steel cylinders. (Modes 1, 2, 3, and 4.)
5112 X	DOT E 5112	Atlas Powder Co., Cleveland Ohio; E. I. du Pont de Nemours & Co., Inc., Wilmington, Del.	49 CFR 173.62(a), 177 C.F.R. 1, 3, 177.848(e).	To ship class A explosives in non-DOT specification steel portable tanks. (Mode 1.)
5206 P	DOT E 5206	Atlas Powder Co., Cleveland Ohio.	49 CFR 173.48(a).....	To become a party to exemption 5206. See application No. 5206 X. (Mode 1.)
5322 P	DOT-E 5322	San Diego Gas and Electric Co., San Diego, Calif.	49 CFR 172.101, 173.34(e).	To become a party to exemption 5322. See Application No. 5322 X. (Modes 1 and 2.)
5451 X	DOT E 5451	Union Carbide Corp., Tarrytown, N.Y.; Allied Chemical Corp., Morristown, N.J.; Air Products and Chemicals, Inc., Allentown, Pa.	49 CFR 173.301(d), 173.301(e).	To ship propellant low explosives in DOT specification 4A, 4AA, 4AA480, 4AA1800, and 4B240 cylinders. (Mode 1.)
5600 P	DOT E 5600	Atlantic Richfield Co., Houston, Tex.	49 CFR Part 171.....	To become a party to exemption 5600. See application No. 5600 X. (Modes 1, 2, and 3.)
5767 X	DOT E 5767	Dow Badische Chemicals, Cincinnati, Ohio; American Products, Inc., Ashley, Pac Mallinkrodt, Inc., St. Louis, Mo.; Oxy Metal Industries Corp., Mosher, Mich.	49 CFR 172.101, 173.245, 173.264, 173.272, 173.290.	To ship certain flammable liquids in a non-DOT specification steel tank car. (Modes 1 and 2.)
5972 X	DOT E 5972	Tridental Lines, Inc., New York, N.Y.	49 CFR 173.119(b), 173.125, 173.128, 46 CFR 98.35.	To ship certain flammable and combustible liquids in a non-DOT portable tank, comparing with DOT specification MC 306 or MC 307 with certain exceptions. (Modes 1 and 3.)
6016 P	DOT E 6016	KanKakee Welding Supply Co., KanKakee, Ill.; CryoDyne Corp., Danbury, Conn.; Moore Bros., Sacramento, Calif.; Virginia Welding Supply Co., Charleston, W. Va.; Welder Welding Co., Inc., Dayton, Ohio; Huber Supply Co., Mason City, Iowa.	49 CFR 172.101, 173.315(a).	To become a party to exemption 6016. (See application No. 6016 X.) (Mode 1.)
6145 X	DOT E 6145	The Kerr-McGee Chemical Corp., Oklahoma City, Okla.; Union Carbide Corp., Tarrytown, N.Y.; G. Frederick Smith Chemical Co., Columbus, Ohio.	49 CFR 173.34(e).....	To ship liquid [illegible] in DOT specification MC 306, MC 307, MC 311 or MC 312 cargo tanks. (Mode 1.)
6197-P	DOT-E 6197	Cities Transportation, Inc., North Hampton, N.H.	49 CFR 173.315(a)(1), 172.101.	To become a party to exemption 6197. (See application No. 6197 X.) (Mode 1.)
6205-P	DOT-E 6205	Chemplex Co., Rolling Meadows, Ill..	49 CFR 173.315(a)(1), 172.101.	To become a party to exemption 6205. (See application No. 6205 X.) (Mode 1.)
6231-X	DOT-E 6231	Lox Equipment Co., Livermore, Calif.	49 CFR 172.101, 178.314(c).	To ship liquefied ethylene in a non-DOT specification, vacuum insulated tank car designed and constructed to comply with the AAR proposed specification 113C120W or 113 C60W. (Mode 2.)
6403-X	DOT-E 6403	Ethyl Corp., Baton Rouge, La.; El Paso Products, Odessa, Tex.	49 CFR 172.101, 173.315(a).	To ship liquefied ethylene in a non-DOT specification cargo tank, designed and constructed in accordance with sec. VIII of the ASME code. (Mode 1.)
6432-X	DOT-E 6432	Chemetron Corp., Chicago, Ill.....	49 CFR 173.315(a).....	To ship certain nonflammable gases in a non-DOT specification vacuum insulated cargo tank designed and constructed in accordance with sec. VIII of the ASME code. (Mode 1.)
6443-X	DOT-E 6443	Montana Sulfur and Chemical Co., Billings, Mont.	49 CFR 173.315(a)(1), 172.504.	To ship hydrogen sulfide in DOT specification MC 331 cargo tank. (Mode 1.)
6484-X	DOT-E 6484	IMC Chemical Group, Inc., Terre Haute, Ind.; Dow Chemical Co., Midland, Mich.	49 CFR 172.101.....	To ship nitromethane mixtures in DOT specification MC 307 or MC 312 tank motor vehicles. (Mode 1.)
6538-P	DOT-E 6538	The Coleman Co., Wichita, Kan.; The Aladdin Industries, Inc., Nashville, Tenn.	49 CFR 173.304(b)(3)(ii), 178.33.	To become a party to exemption 6538. (See application No. 6538 X.) (Modes 1 and 3.)
6557 X	DOT E 6557	General Fire Extinguisher Corp., Northbrook, Ill.	49 CFR 173.3, 178.36-4(c), 178.37-4(c), 178.37a(c).	To ship certain nonflammable compressed gases in DOT specification 4, 4A, 4AA or 4B cylinders with certain exceptions. (Modes 1, 2, 3, 4, and 5.)
6608 X	DOT E 6608	California Liquid Gas Corp., Sacramento, Calif.	49 CFR 173.315(a)(1).....	To ship propane in non-DOT steel portable tank in compliance with DOT specification MC 331. (Modes 1 and 3.)
6672-X	DOT E 6672	Chandler Evans, Inc., West Hartford, Conn.	49 CFR 173.302(a)(4), 175.3.	To ship certain liquefied compressed gases in welded or seamless, nonrefillable, non-DOT specification steel cylinders. (Modes 1, 2, and 4.)
6724 X	DOT-E 6724	U.S. Department of Defense, Washington, D.C.	49 CFR 172.101, 173.89, 175.3.	To ship class C explosives in non-DOT inside fiberboxes overpacked in a non-DOT strong wooden box. (Modes 1 and 4.)
6733 X	DOT E 6733	Honeywell Inc., Lexington, Mass.....	49 CFR 173.21(a), 173.304(a), 175.3.	To ship nonflammable and flammable compressed gases in a non-DOT solid cryogen cooler. (Modes 1 and 4.)
6757-X	DOT E 6757	FMC Corp., Philadelphia, Pa.; Degussa Central Transport Department, Frankfort, West Germany.	49 CFR 173.266(b)(2).....	To ship hydrogen peroxide solution in a non-DOT specification aluminum portable tank. (Modes 1 and 3.)
6762-X	DOT-E 6762	Du Bois Chemicals, Cincinnati, Ohio.	49 CFR 173.286(b)(2), (c), 175.3.	To ship certain corrosive liquids in non-DOT chemical kits, overpacked in a non-DOT fiberboard box. (Mode 1, 2, and 4.)
6826-P	DOT-E 6826	Atlantic Research Corp., Gainesville, Va.; Vought Corp., Dallas, Tex.	49 CFR 173.92(b), 175.3.	To become a party to exemption 6826. (See application No. 6826-X.) (Modes 1 and 1.)
6917-X	DOT-E 6917	Atlas Powder Co., Dallas, Tex.....	49 CFR 173.239(a)(1).....	To ship a flammable solid in a DOT specification 21C fiber drum. (Modes 1 and 2.)
6919-P	DOT-E 6919	Chemplex Co., Rolling Meadows, Ill.	49 CFR 172.101, 173.315(a).	To become a party to exemption 6919. (See application No. 6919-X.) (Mode 1.)
6951-X	DOT-E 6951	HTL Industries, Inc., Monrovia, Calif.	49 CFR 173.302(a), 175.3.	To ship nitrogen in a non-DOT specification cylinder in compliance with DOT specification 3E with certain exceptions. (Modes 1, 2, 3, 4, and 5.)

7480-X	DOT-E 7480	Air Products and Chemicals Inc., Wayne, Pa.	49 CFR 173.154.....	To ship an oxidizing material in DOT specification MC-307 and MC-311 insulated cargo tanks. (Modes 1 and 2).
7549-X	DOT-E 7549	Stauffer Chemical Co., Westport, Conn.	49 CFR 172.245a(a).....	To ship ethyl chlorothioformate in non-DOT portable tanks, constructed and in compliance with DOT specification 51 with certain exceptions. (Modes 1, 2, and 3.)
7565-X	DOT-E 7565	Phillips Petroleum Co., Lafayette, La.	46 CFR 90.05-35; 49 CFR 174.119.	To ship crude oil, petroleum in a non-DOT specification portable tank. (Mode 3.)
7604-X	DOT-E 7604	Nuclear Valve Div., Borg Warner Corp., Van Nuys, Calif.	49 CFR 172.302(a) (4), 175.3.	To ship certain nonliquefied compressed gases in a non-DOT welded or seamless, nonreclaimable, non-DOT specification steel cylinders made in compliance with DOT Specification 39 with certain exceptions. (Modes 1, 2, and 4.)
7721-X	DOT-E 7721	Applied Equipment Co., Van Nuys, Calif.	49 CFR 173.302(a)..	To ship nonliquefied compressed gases in a non-DOT welded or seamless, nonreclaimable, non-DOT specification steel cylinders made in compliance with DOT specification 39 with certain exceptions. (Modes 1, 2, and 4.)

NEW EXEMPTIONS

7531-N	DOT-E 7531	National Aeronautics and Space Administration, Washington, D.C.	49 CFR 173.88-(c)(2)(ii), 173.92(b).	To ship rocket motor with initiators installed and in a propulsive state. (Mode 1.)
7586-N	DOT-E 7586	Rockwell International, Downey, Calif.	49 CFR 173.88(c)(2)(ii), 173.92.	To ship a rocket motor, as part of a global positioning system, in a propulsive state. (Mode 1.)
7589-N	DOT-E 7589	Recordati, Milano, Italy.....	49 CFR 173.245(a)	To ship corro-ive liquids in a non-DOT specification cylindrical glass carboy overpacked in a steel drum wooden box packaging. (Modes 1 and 3.)
7599-N	DOT-E 7599	Martin Marietta Corp., Charlotte, N.C.	49 CFR 173.28(m), 173.-365(a)(2), 178.118.	To ship cla s B poisonous solids in non-DOT steel drums complying with DOT specification 17H with certain exceptions. (Mode 1.)
7600-N	DOT-E 7600	Lubbock Manufacturing Co., Lubbock, Tex.	49 CFR 172.101, 173.-315(a)(1).	To manufacture, mark and sell non-DOT specification insulated cargo tanks for use in the transportation of liquefied ethylene. (Mode 1.)
7632-N	DOT-E 7632	Enterprise Service Co., Houston, Tex.	49 CFR 173.315(a)(1), (c)(1).	To ship liquefied, flammable compressed ga es in a DOT specification MC-331 tank motor vehicle. (Mode 1.)
654-N	DOT-E 7654	Texas Eastman Co., Longview, Tex.	49 CFR 173.119(f).....	To ship acetaldehyde in a non-DOT 1 pt glass bottle overpacked in a DOT specification 12H fiberboard box. (Modes 1 and 2.)
7655-N	DOT-E 7655	Tennessee Eastman Co., Kingsport, Tenn.	49 CFR 173.119(m).....	To ship a flammable liquid in 1-gal polyethylene container packed in a DOT Specification 19A wooden box. (Mode 1.)
7685-N	DOT-E 7685	Cordova Chemical Co., Sacramento, Calif.	49 CFR 173.65(b).....	To ship certain class A explosives in 2 non-DOT 4 mil polyethylene film bags overpacked in a DOT specification 21C 250 fiber drum. (Mode 1.)
7711-N	DOT-E 7711	Illinois Central Gulf Railroad, Chicago, Ill.	49 CFR 174.25(a).....	To allow the use of other symbols to enclo-e the placard endorsement on carrier billing. (Mode 2.)
7711-N	DOT-E 7711	Suttons International, New Orleans, La.; W. R. Zanes and Co., New Orleans, La.	49 CFR 173.245, 46 CFR 90.05-35.	To ship certain corrosive and combustible liquids in a non-DOT steel portable tank built in accordance with section VIII of the ASME code. (Modes 1, 2, and 3.)
7730-N	DOT-E 7730	Western Company of North America, Fort Worth, Tex.	49 CFR 178.343-5(b)(2)(iii).	To ship certain corro-ive materials in a DOT specification MC 312 cargo tank with certain exceptions. (Mode 1.)

APPLICATIONS RECEIVED AND GRANTED

EE7801-N	DOT-E 7801	International Protein Corp.....	49 CFR 173.295.....	To ship fishmeal containing between 6 pct. and 12 pct. water in a standard 40-ft closed freight container. (Mode 3.)
EE7806-N	DOT-E 7806	Dow Chemical Co., Strongsville, Ohio.	49 CFR 173.272(a)(4)....	To ship bromine, transferred from a damaged cargo tank, in a DOT specification MC 310 or MC 312 tank motor vehicle loaded less than required. (Mode 1.)
EE7810-N	DOT-E 7810	Allied Chemical Corp., Morristown, N.J.	49 CFR 173.314(c).....	To ship dichlorodifluoromethane in DOT specification 106A500 or 106A500X tank car tanks. (Mode 3.)
EE7816-N	DOT-E 7816	Goldkist Inc., Atlanta, Ga.....	49 CFR 173.377(i).....	To ship a class B poisonous solid in a specified number of non-DOT specification paper bags. (Mode 1.)

DENIALS

3536-P Request by U.S. Energy Research & Development Administration, Washington, D.C.—To add three parties to DOT-E 3563, denied July 1, 1977.

5985-X Request by Nuclear Fuel Services, Inc., Erwin, Tenn.—To ship pyrophoric thorium metal powder or compacts in greater net quantities than permitted, denied July 29, 1977.

6231-P Request by Mobil Chemical Co., Beaumont, Tex.—To become a party to Exemption 6231 authorizing shipment of liquefied ethylene in non-DOT specification vacuum insulated tank car tank, denied July 11, 1977 as being unnecessary.

6231-P Request by Chemplex Co., Rolling Meadows, Ill.—To become a party to Exemption 6231 authorizing shipment of liquefied ethylene in non-DOT specification vacuum insulated tank car tank, denied July 11, 1977 as being unnecessary.

6516-P Request by Minerec Corp., Baltimore, Md.—To become a party to Exemption 6516 authorizing shipment of methyl chloroformate or ethyl chloroformates in prescribed DOT specification tank cars, denied July 27, 1977 as being unnecessary.

6531-P Request by Douglas Aircraft Co., Long Beach, Calif.—To become a party to Exemption 6531 authorizing shipment of a nonflammable gas in a non-DOT specification cylinder, denied July 26, 1977 as being unnecessary.

EE6563-P Request by Vital Air Oxygen Co., Cleveland, Ohio—To become a party to Exemption 6563 authorizing shipment of nonliquefied, nonflammable compressed gases in a non-DOT specification steel cylinder, denied July 19, 1977.

6720-P Request by Superintendence Co., Inc., New York, N.Y.—To become a party to Exemption 6720 authorizing shipment of hazardous materials in non-DOT specification portable tanks, denied July 11, 1977.

6972-X Request by Dow Chemical Co., Midland, Mich.—To authorize the use of hot melt glue to close the flaps on DOT Specification 12B fiberboard boxes, denied July 19, 1977 as being unnecessary. (Docket HM-139 obviates the need).

7521-P Request by Enthone Inc., New Haven, Conn.—To become a party to Exemption 7521 to ship chemical kits containing poisonous materials without the prescribed label, denied July 12, 1977.

7554-N Request by Varian and Associates, Palo Alto, Calif.—To ship by air chemical kits containing certain corrossive materials and certain other hazardous materials in glass bottles in the same outer shipping container, denied July 29, 1977.

7581-N Request by Mobay Chemical Corp., Pittsburgh, Pa.—To ship certain corrosive and poisonous liquids and poisonous solids in a non-DOT steel drums, denied July 19, 1977 as being unnecessary.

7612-N Request by Phillips Petroleum Co., Bartlesville, Okla.—To become a party to Exemption 7612-N authorizing retrofit Shelf E or Shelf F couplers in lieu of head shields on all uninsulated pressure tank cars, denied July 12, 1977.

7618-N Request by Koppers Company, Inc., Pittsburgh, Pa.—To authorize the product name "Wolmanac concentrate" as a proper shipping name, denied July 19, 1977.

7624-N Request by Standard Milling Co., Kansas City, Mo.—To authorize shipment of up to 60,000 lbs. of charcoal in one rail car, denied July 27, 1977 as being unnecessary.

7630-N Request by Palmer Chemical & Equipment Co., Inc., Douglasville, Ga.—To authorize shipment of excepted quantities of certain Class B poison liquids in unlabeled packages, denied July 29, 1977.

7705-N Request by The LEA Manufacturing Co., Waterbury, Conn.—To authorize shipment of packages of Class B poisons without the Class B poison label, denied July 15, 1977.

7736-N Request by Siegling America, Inc., Englewood, N.J.—To authorize shipment of a flammable and poisonous liquid in unlabeled non-DOT specification containers, denied July 27, 1977.

EE7804-N Request by Igloo Corp., Houston, Tex.—To authorize the manufacture of inside polyethylene containers, similar to DOT Specification 2SL, for use in the shipment of various hazardous materials, denied July 18, 1977.

EE7809-N Request by U.S. Rubber Reclaiming Co., Inc., Vicksburg, Miss.—For an emergency exemption to ship ground rubber in non-DOT specification polyethylene bags, denied July 25, 1977.

WITHDRAWALS

7718-X Request by Atlas Powder Co., Dallas, Tex.—To ship Class A explosives on board the M/V Sol Reefer, withdrawn June 6, 1977.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Operations.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I), notice is hereby given of a meeting of the National Motor Vehicle Safety Advisory Council to be held on September 8 and 9, 1977 at the DOT Headquarters Building, 400 Seventh Street SW., Washington, D.C.

On September 8 from 8:30 a.m. to 1:00 p.m. in room 2230 the Congress Committee will meet to discuss recommendations from the Fifth International Congress on Automotive Safety held July 11-13 in Cambridge, Mass.

The Motorcycle Subcommittee will meet on September 8 from 2:00 p.m. to 5:00 p.m. to review recommendations from the Head and Neck Workshop and to discuss any proposed resolutions in connection with mopeds.

On September 9 from 9:00 a.m. to 4:00 p.m. the full Council will hold its last meeting. The Council will hear reports from the Congress Committee and the Motorcycle Subcommittee and discuss any pending old or new business.

The above meetings are subject to the approval of the National Highway Traffic Safety Administrator.

With the approval of the Chairman, members of the public may present oral statements at the meeting. Any member of the public may present a written statement to the Council at any time.

Additional information may be obtained from the NHTSA Executive Secretary, room 5215, 400 Seventh Street SW., Washington, D.C. 20590, telephone 202-426-2872.

Issued in Washington, D.C. on August 12, 1977.

ROBERT DOHERTY,
Assistant Executive Secretary.

[FR Doc.77-23839 Filed 8-17-77;8:45 am]

TRUCK AND BUS SAFETY SUBCOMMITTEES

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I), notice is hereby given of a meeting of the Truck and Bus Safety Subcommittees of the National Highway Safety Advisory Committee and the National Motor Vehicle Safety Advisory Council. The Subcommittees will meet on September 7 from 8:30 a.m. to 5:00 p.m. in room 2230 of the DOT Headquarters Building, 400 Seventh Street SW., Washington, D.C.

The full Subcommittees will meet to review drafts of a driver training pamphlet and a mechanic's maintenance manual and to discuss the findings from the August 16 and 17 technical meetings. Old and new business will also be discussed.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Any member of the public may present a written statement to the Subcommittees at any time. This meeting is subject to the approval of the appropriate DOT officials.

Additional information may be obtained from the NHTSA Executive Secretary, Room 5215, 400 Seventh Street SW., Washington, D.C. 20590, telephone 202-426-2872.

Issued in Washington, D.C. on August 12, 1977.

ROBERT DOHERTY,
Assistant Executive Secretary.

V 42 160 AUG 18 77 UM

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Dept. Circular Public Debt Series, No 20-77]

TREASURY NOTES OF AUGUST 31, 1979, SERIES T-1979

AUGUST 12, 1977.

1. INVITATION FOR TENDERS

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $2,900,000,000 of U.S. securities, designated Treasury Notes of August 31, 1979, Series T-1979, (CUSIP No. 912827 GY 2). The securities will be sold at auction with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts may also be issued for cash to Federal Reserve Banks as agents of foreign and international monetary authorities.

2. DESCRIPTION OF SECURITIES

2.1. The securities will be dated August 31, 1977, and will bear interest from that date, payable on a semiannual basis on February 28, 1978, and each subsequent 6 months on August 31 and February 28 until the principal becomes payable. They will mature August 31, 1979, and will not be subject to call for redemption prior to maturity.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $5,000 $10,000, $100,000, and $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing U.S. securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. SALE PROCEDURES

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Tuesday, August 23, 1977. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, August 22, 1977.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $5,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11 percent. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed $1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by a deposit of 5 percent of the face amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a guarantee of such deposit by a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full at the weighted average price (in three decimals) of accepted competitive tenders, and competitive tenders with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.500. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the weighted average price of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full or when the price is over par.

4. RESERVATIONS

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. PAYMENT AND DELIVERY

5.1. Settlement for allotted securities must be made or completed on or before Wednesday, August 31, 1977, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing U.S. securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than:

(a) Friday, August 26, 1977, if the check is drawn on a bank in the Federal Reserve District of the institution to which the check is submitted (the Fifth Federal Reserve District in case of the Bureau of the Public Debt), or

(b) Thursday, August 25, 1977, if the check is drawn on a bank in another Federal Reserve District.

Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at the applicable Federal Reserve Bank. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment is not completed on time, the deposit submitted with the tender, up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered as deposits and in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. GENERAL PROVISIONS

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

PAUL H. TAYLOR,
Deputy Fiscal Assistant Secretary.

CLEAR SHEET GLASS, WEIGHING OVER 28 OUNCES PER SQUARE FOOT, FROM FRANCE

Antidumping; Tentative Determination To Modify or Revoke Dumping Finding

AGENCY: United States Treasury Department.

ACTION: Tentative Modification of Finding of Dumping.

SUMMARY: This notice is to advise the public that it appears that Saint-Gobain Industries of France is no longer selling clear sheet glass, weighing over 28 ounces per square foot, from France at less than fair value. Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries. In addition, Saint-Gobain has given assurances that it is not, and does not intend to resume selling clear sheet glass weighing over 28 ounces per square foot to the United States. If this action is made final, the finding of dumping covering the subject merchandise from France will be modified to exclude that merchandise produced and sold by Saint-Gobain. Interested persons are invited to comment on this action.

EFFECTIVE DATE: August 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Ms. Barbara Victor, Duty Assessment Division, United States Customs Service, 1301 Constitution Avenue, N.W., Washington, D.C. 20229, Telephone (202) 566-5492.

SUPPLEMENTARY INFORMATION: A finding of dumping with respect to clear sheet glass weighing over 28 ounces per square foot from France was published at T.D. 71-293 in the FEDERAL REGISTER of December 9, 1971 (36 FR 23360).

After due investigation, it has been determined tentatively that clear sheet glass from France, weighing over 28 ounces per square foot, produced and sold by Saint-Gobain Industries is no longer being, nor likely to be, sold to the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

Statement of Reasons On Which This Tentative Determination Is Based. The investigation indicated that there have been no shipments of clear sheet glass, weighing over 28 ounces per square foot, by Saint-Gobain to the United States since 1972, and Saint-Gobain has given assurances that it does not intend to resume shipments of this merchandise to the United States.

Accordingly, notice is hereby given that the Department of the Treasury intends to modify the finding of dumping with respect to clear sheet glass weighing over 28 ounces per square foot from France to exclude such glass produced and sold by Saint-Gobain Industries.

In accordance with § 153.40, Customs Regulations (19 CFR 153.40), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, NW., Washington, D.C. 20229, in time to be received by his office not later than August 28, 1977. Requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than September 18, 1977.

This notice is published pursuant to § 153.44(c) of the Customs Regulations (19 CFR 153.44(c)).

HENRY C. STOCKELL, Jr.,
Acting General Counsel of the Treasury.

AUGUST 12, 1977.

INTERSTATE COMMERCE COMMISSION

[Rule 19, Ex Parte No. 241, 26th Rev. Exemption No. 12]

ATLANTA & SAINT ANDREWS BAY RAILWAY CO., ET AL.

Exemption Under Provision of Mandatory Car Service Rules

It appearing, that the railroads named herein own numerous plain boxcars; that under present conditions there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the railroads listed herein, resulting in unnecessary loss of utilization of such cars.

It is ordered, that, pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, I.C.C.–R.E.R. No. 404, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM", and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b).

Atlanta & Saint Andrews Bay Railway Company
Reporting Marks: ASAB
Atlantic and Western Railway
Reporting Marks: ATW
Chicago & Illinois Midland Railway Company.

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 15, 1977.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC-FC 77257. By application filed August 8, 1977, MAGWIL TRANSPORT CORP., 1281 Viele Avenue, Bronx, N.Y. 10474, seeks temporary authority to transfer the operating rights of Duncan Petroleum Transport, Inc., 3170 College Point Causeway, Flushing, N.Y. 11352, under section 210a(b). The transfer to Magwil Transport Corp., of the operating rights of Duncan Petroleum Transport, Inc., is presently pending.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc 77-23928 Filed 8-17-77;8:45 am]

[Notice No. 210]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before September 19, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77204 filed July 14, 1977. Transferee: CASK TRANSPORTATION, INC., 2927 41st Avenue, Long Island City, New York, 11104. Transferor: Spirit Deliveries, Inc., 799 Broadway, New York, New York, 10003. Applicants' representative: Morris Honig, 150 Broadway, New York, New York, 10038. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 63072, issued May 5, 1977, as follows: *candy and alcoholic and malt beverages*, between New York, N.Y., on the one hand, and, on the other, points in New Jersey within 25 miles of City Hall, New York, N.Y.; and *alcoholic beverages*, from Hoboken and Jersey City, N.J., to points in Westchester, Suffolk, and Nassau Counties, N.Y., within 25 miles of New York, N.Y. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77209 filed July 14, 1977. Transferee: CONTINENTAL TRAVEL SERVICES, INC., 6016 14th Street West Bradenton, Florida, 33507. Transferor: Frank S. Boyce, doint business as Boyce Travel Agency, 3399 Espanola Drive, Sarasota, Florida, 33580. Applicants' representative: Charles J. Williams, 1815 Front Street, Scotch Plains, New Jersey, 07076. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in License No. MC 130136, issued March 16, 1972, as follows: *Passengers and their baggage*, moving in round trip tours, by motor vehicle or by any combination of transportation, beginning and ending at points in Sarasota, Manatee, and Pinellas Counties, Fla., and extending between points in the United States (including Alaska and Hawaii) Transferor is authorized to engage in the above specified operations as a broker at Sarasota, Fla. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77238, filed July 29, 1977. Transferee: HOLMAN TRANSPORTATION, INC., Ft. Dodge Road, Dodge City, Kans. 67801. Transferor: Dahlsten Truck Line, Inc., 101 West Edgar St., Clay Center, Nebr. 68933. Applicants' representative: Clyde N. Christey, Attorney at Law, 514 Capitol Federal Bldg., Topeka, Kans. 66603. Authority sought for purchase by transferee of the portion of the operating rights of transferor set forth in Certificate No. MC 115669 (Sub-No. 1), issued November 15, 1974, as follows: Anhydrous ammonia, from the plant site of Farmland Industries, Inc., at Dodge City, Kans., to points in Colorado, Wyoming, Texas, Oklahoma, Missouri, Nebraska, and Iowa. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b) of the Act.

No. MC-FC-77243, filed August 4, 1977. Transferee: FRANK E. HICKS TRUCKING INC., P.O. Box 95, Somerset, CA 95684. Transferor: Frank E. Hicks, doing business as Frank E. Hicks Trucking, P.O. Box 95, Somerset, CA 95684. Applicants' representative: Michael S. Rubin, Attorney-at-Law, 256 Montgomery St., San Francisco, CA 94104. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificates Nos. MC 135679 (Sub-No. 1) and MC 135679 (Sub-No. 2), issued April 6, 1973, and August 19, 1976, respectively, as follows: Cement, in bulk, from Fernley, Nev., to points in Alpine, Amador, Calaveras, El Dorado, Madereo, Merced, Placer, Sacramento, San Joaquin, and Stanislaus Counties, Calif., and from Fernley, Nev., to points in Butte, Lassen, Plumas, Sierra, Nevada, and Yuba Counties, Calif. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b) of the Act.

No. MC-FC-77247, filed August 2, 1977. Transferee: ISAAC TRUCK LINE, INC., 402 Layton, Dodge City, Kans. 67801. Transferor: Evart Isaac, doing business as Isaac Truck Line, 402 Layton, Dodge City, Kans. 67801. Applicant's representative: Clyde N. Christey, Attorney-at-Law, Suite 514 Capitol Federal Bldg., 700 Kansas Ave., Topeka, Kans. 66603. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificate No. MC 115871 (Sub-No. 8), issued October 28, 1969, as follows: Liquid tallow, in bulk, in tank vehicles, from Dodge City, Garden City, Great Bend, and Pratt Kans., to points in Missouri, and those in that part of Arkansas on and west of U.S. Highway 65. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b) of the Act.

No. MC-FC-77251, filed August 5, 1977. Transferee: POINTS WEST TRUCKING, INC., P.O. Box 55085, Valencia, Calif. 91355. Transferor: Condor Contract Carriers, Inc., P.O. Box 1354, Garden Grove, Calif. 92642. Applicant's representative: Patrick E. Quinn, Bradford E. Kistler, Attorney-at-Law, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought for purchase by transferee of that portion of the operating rights of transferor set forth in Permit No. MC 138054, issued March 6, 1975, as follows: Electrical motors and component parts thereof (except commodities which because of size or weight, or length, require the use of special equipment or special handling), between Milford, Conn., Mena, Ark., St. Louis, Mo., Prescott, Ariz., Philadelphia, Miss., Chicago, Ill., and Los Angeles and Stanton, Calif., Memphis, Tenn., and Hastings, Nebr., restricted to a transportation service to be performed under a continuing contract or contracts with Emerson Electric Co., of St. Louis, Mo. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

H. G. HOMME, Jr.,
Acting Secretary.

[Volume No. 30]

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

AUGUST 12, 1977.

PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket", "sub", and "suffix" (e.g. M1, M2) numbers identified by the FEDERAL REGISTER notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 109821 (Sub-No. 5), M1 (Notice of filing of petition to add an additional base point), filed July 12, 1977. Petitioner: H. W. TAYNTON COMPANY, INC., 40 Main St., Wellsboro, Pa. 16901. Petitioner's representative: Dewey Whitford (same address as applicant). Petitioner holds motor *common carrier* Certificate in No. MC 109821 (Sub-No. 5) issued May 9, 1957, authorizing transportation, as pertinent, over irregular routes, of: *Manufactured glass products* and *commodities and equipment* used in the manufacture, sale, and shipment of manufactured glass products, between Buffalo, Corning, Elmira, and Horseheads, N.Y., Boyertown, Bradford, Charleroi, Port Allegany, and Wellsboro, Pa., and Fairmont and Parkersburg, W. Va., on the one hand, and, on the other, points in Connecticut, Indiana, Kentucky, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and West Virginia (except that no traffic shall be transported between Bradford and Port Allegany, Pa., on the one hand, and, on the other, points in that part of New York on and west of a line beginning at Oswego, N.Y., and extending along New York Highway 57 to Syracuse, N.Y., and thence along U.S. Highway 11 to the New York-Pennsylvania State line).

By the instant petition, petitioner seeks to add Dale Summit, Pa., as an additional base point to the above authority.

No. MC 116254 (Sub-No. 108), M1 (Notice of filing of petition to clarify or modify certificate), filed July 20, 1977. Petitioner: CHEM-HAULERS, INC., P.O. Box 339, Florence, Ala. 35630. Petitioner's representative: Maxwell A. Howell, 1100 Investment Building, 1511 K Street, NW., Washington, D.C. 20005. Petitioner holds a motor *common carrier* Certificate in No. MC 116254 (Sub-No. 108), issued June 14, 1971, authorizing transportation over irregular routes, of *gravel, sand, clay, ore, slag, and products* composed of or produced from such commodities (except in bulk, tank vehicles), between points in Minnesota, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Tennessee, Kentucky, West Virginia, Virginia, Maryland, Delaware, Pennsylvania, Ohio, Indiana, Illinois, Wisconsin, Michigan, New Jersey, New York, Vermont, New Hampshire, Maine, Massachusetts, Rhode Island, Connecticut, and the District of Columbia, restricted against the transportation of sand, clay, and clay products, in packages and containers, originating at (1) points in Aiken County, S.C.; (2) Guion, Ark.; and (3) the plant sites of Sewanee Silica Co., at or near Sewanee, Tenn., and Wyandotte Chemical Corp., in Tippah County, Miss.

By the instant petition, petitioner seeks a finding by the Commission that the phrase "products composed of or produced from such commodities" means products which have their origins in any one or more than one of the five base commodities, i.e., gravel, sand, clay, ore and slag, and which are not limited by the number of manufacturing processes from which they might evolve, or in the alternative, to modify the authority above so that the commodity description will read: "gravel, sand, clay, ore, slag, and products composed of or produced from such commodities, including metal and metal products, glass and glass products."

No. MC 129455 and (Sub-Nos. 2 and 3), M1 (notice of filing of petition to broaden commodity description). Petitioner: CARRETTA TRUCKING, INC., 301 Mayhill St., Saddle Brook, N.J. 07662. Petitioner's representative: Martin M. Geffon, P.O. Box 154, Willingboro, N.J. 08046. Petitioner holds motor *contract carrier* Permits in No. MC 129455 and (Sub-Nos. 2 and 3), issued July 10, 1970, November 10, 1969, and March 23, 1972, respectively, authorizing transportation (1) in No. MC 129455, as pertinent, over irregular routes of: *Swimming pools, garden sheds, and radiator enclosures*, from Paterson, N.J., and the plant site of Quaker City Industries located at Carlstadt, N.J., to points in Arkansas, California, Illinois, Indiana, Kentucky, Michigan, Minnesota, Missouri, New York, Ohio, Oklahoma, Virginia (except Arlington and Fairfax Counties), and those points in that part of Pennsylvania west of the Susquehanna River, under a continuing contract, or contracts with Quaker City Industries of Carlstadt, N.J.; (2) in No. MC 129455 (Sub-No. 2), as pertinent, over irregular routes, *of swimming pools, garden sheds, and radiator enclosures*, from Carlstadt and Paterson, N.J., to points in Georgia, Florida, South Carolina, North Carolina, Maryland, Delaware, Connecticut, Rhode Island, Massachusetts, Washington, Colorado, Utah, Arizona, Texas, Louisiana, Wisconsin, Tennessee, the District of Columbia, points in Arlington and Fairfax Counties, Va., and points in that part of Pennsylvania east of the Susquehanna River, under a continuing contract or contracts with Quaker City Industries, Inc., of Carlstadt, N.J.; (3) in No. MC 129455 (Sub-No. 3) over irregular routes, of: *Swimming pools, garden sheds, and radiator enclosures*, from Paterson, Carlstadt, and Saddle Brook, N.J., to points in Alabama, Idaho, Iowa, Kansas, Maine, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, Oregon, South Dakota, Vermont, West Virginia, and Wyoming, under a continuing contract or contracts with Quaker City Industries, Inc., of Saddle Brook, N.J.

By the instant petition, petitioner seeks to broaden the commodity description of all three of the above Permits to include "redwood products."

No. MC 129455 and (Sub-Nos. 2, 5 and 6) M1 (Notice of filing of petition to Broaden Commodity Description and Add Origin Points), filed June 13, 1977. Petitioner: CARRETTA TRUCKING INC., 301 Mayhill Street, Saddle Brook, N.J. 07662. Petitioner's representative: Martin M. Geffon, P.O. Box 154, Willingboro, N.J. 08046. Petitioner holds motor *contract carrier* Permits in No. MC 129455 and (Sub-Nos. 2, 5 and 6) issued July 10, 1970; November 10, 1969; September 27, 1974 and November 11, 1975, respectively, authorizing transportation in (1) No. MC 129455, as pertinent, over irregular routes, of *Materials and supplies* used in the manufacture of swimming pools and garden sheds, from St. Louis, Mo., and Bakerstown, Pa., to Paterson, N.J., and the plant site of Quaker City Industries at Carlstadt, N.J., with no transportation for compensation on return except as otherwise authorized. Restriction: The operation authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Quaker City Industries of Carlstadt, N.J. (2) in MC 129455 (Sub-No. 2), as pertinent, over irregular routes of *Steel coils*, from McKeesport, Pa., to Paterson, N.J., with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts with Quaker City Industries, Inc., of Carlstadt, N.J.; (3) in No. MC 129455 (Sub-No. 5) over irregular routes, of *Steel* used in the manufacture of garden sheds, (a) from Youngstown, Ohio, to Saddle Brook, N.J., with no transportation for compensation on return except as otherwise authorized; (b) from Wheeling, W.Va., to Lyndhurst and Saddle Brook, N.J., with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Quaker City Industries, Inc.

(4) in MC 129455 (Sub-No. 6) over irregular routes of (A) *Steel* used in the manufacture of garden sheds, (1) from Yorkville, Ohio, to Lyndhurst and Saddle Brook, N.J., and Allentown and Morrisville, Pa., with no transportation for compensation on return except as otherwise authorized; and (2) from Morrisville and Allentown, Pa., to Saddle Brook, N.J., with no transportation for compensation on return except as otherwise authorized; (B) *Steel* in coils, from Philadelphia, Pa., to Allentown, Pa., and Lyndhurst and Saddle Brook, N.J., with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Quaker City Industries, Inc., of Saddle Brook, N.J. By the instant petition, petitioner seeks to include *materials and supplies used in the manufacture of swimming pools and garden sheds* and to add the origins points of Pennsylvania, West Virginia and Ohio, in the above-named authorities, under a continuing contract, or contracts, with Quaker City Industries, Inc., of Saddle Brook, N.J.

No. MC 129742 (Sub-No. 9) M1 (Notice of Filing of Petition to Modify a Restriction), filed June 17, 1977. Petitioner: PUROLATOR COURIER, LTD., 302 The East Mall, Suite 303, Islington, Toronto, Ontario, Canada M9B 6C7. Petitioner's representative: Peter A. Greene, 900 17th St. NW., Washington, D.C. 20006. Petitioner holds a motor *common carrier* Certificate in No. MC 129742 (Sub-No. 9), issued September 27, 1976, authorizing transportation, over irregular routes, *General commodities* (except articles of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and such commercial papers, documents and written instruments as are used in the business of banks and banking institutions), (1) between ports of entry on the International Boundary line between the United States and Canada located at or near the St. Lawrence River and Rooseveltown, Ogdensburg, and Alexandria Bay, N.Y.; on the one hand, and, on the other, points in New York; (2) between ports of entry on the International Boundary line between the United States and Canada located at or near the Niagara River and Lewiston, Niagara Falls, and Buffalo, N.Y., on the one hand, and, on the other, points in New York; and (3) between ports of entry on the International Boundary line between the United States and Canada located at or near Detroit, Port Huron, and Sault Ste. Marie, Mich., on the one hand, and, on the other, points in Michigan, subject to several restrictions including the following: "Restricted against the transportation of package weighing more than 50 pounds and each package or article shall be considered a separate and distinct shipment." By the instant petition, petitioner seeks to modify the foregoing restriction by deletion of the phrase "with each package or article considered as a separate and distinct shipment." Petitioner states that the proposed modification will not effect the present weight restriction but will only eliminate unnecessary multiple documentation and assessment of multiple per shipment minimum charges.

No. MC 129808 (Sub-No. 10) M1 (Notice of Filing of Petition to Add an Additional Origin and Destination Point), filed July 5, 1977. Petitioner: GRAND ISLAND CONTRACT CARRIER, INC., West Highway No. 30, P.O. Box 2078, Grand Island, Nebr. 68801. Petitioner's representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, Nebr. 68501. Petitioner holds motor *contract carrier* Permit in No. MC 129808 (Sub-No. 10), issued May 23, 1974, authorizing transportation over irregular routes, of (1) *Grain storage bins, grain drying bins, bulk feed tanks, metal buildings and parts, materials and supplies* used in connection therewith, automotive parts and accessories, ballast masters and hand carts, from the plant sites and storage facilities of Chief Industries, Inc., located at or near Grand Island, Nebr., Fort Dodge, Iowa and Rensselaer, Ind., to points in the United States (except Alaska and Hawaii); and (2) *Raw materials, parts supplies, and tools* used in connection with the manufacture, distribution and erection of the commodities named in (1) above, from points in the United States (except Alaska and Hawaii) to the plant sites and storage facilities of Chief Industries, Inc., located at or near Grand Island, Nebr., Fort Dodge, Iowa, and Rensselaer, Ind., restricted against the transportation of commodities in bulk, under a continuing contract or contracts with Chief Industries, Inc.

By the instant petition, petitioner seeks to include the facilities of the Caldwell Manufacturing Company, located at Kearney, Nebr., as both an additional origin and destination point to the above authority.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 34975 (Sub-No. 9) (Republication), filed March 3, 1975, published in the FEDERAL REGISTER issue of March 26, 1975, and republished this issue. Applicant: TREDWAYS EXPRESS, INC., 512 Myrtle Avenue, Boonton, N.J. 07005. Applicants' representative: William J. Augello, 120 Main Street, P.O. Box Z, Huntington, N.Y. 11743. The Initial Decision of the Administrative Law Judge, dated April 30, 1976, and served May 11, 1976, finds that the present and future public convenience and necessity require the tacking or joinder by applicant of the operating rights presently held by applicant with the operating rights authorized to be acquired by said applicant in the directly-related finance proceeding in No. MC–F12334 (also republished in this same FEDERAL REGISTER issue). The operating rights sought in No. MC 34975 (Sub-No. 9) involve operations as a *common carrier* over irregular routes, of *general commodities* (except those of unusual value, livestock, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in New Jersey, Philadelphia, Allentown, Bethlehem, and Easton, Pa., and points in Nassau and Suffolk Counties, N.Y., on the one hand, and, on the other, points in Columbia, Dutchess, Orange, Ulster, and Westchester Counties, N.Y., and from points in New Jersey, Philadelphia, Allentown, Bethlehem, and Easton, Pa., and points in Nassau and Suffolk Counties, N.Y., to points in Putnam and Rockland Counties, N.Y. Applicant also requests authority to effect joinder of rights so as to render direct service between said points, and to eliminate the New York, N.Y. gateway in such joinder. The purpose of this republication is to give notice of the amendment of this application by the addition of Ulster County to the radial territory.

No. MC 35807 (Sub-No. 67) (republication), filed December 20, 1976, published in the FEDERAL REGISTER issue of February 10, 1977, and republished this issue.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 42 160 AUG 18 77 UM

Applicant: WELLS FARGO ARMORED SERVIC CORPORATION, P.O. Box 4313, 210 Baker Street, NW., Atlanta, Ga. 30302. Applicant's representative: Harry J. Jordan, 1000 16th Street, NW., Washington, D.C. 20036. An Order by the Commission, Review Board Number 1, dated June 23, 1977, and served July 14, 1977, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle over irregular routes, in the transportation of *Currency, coin, securities and other negotiable instruments* between Salt Lake City, Utah, Nyssa, Ontario, and Vale, Oreg., under a continuing contract, or contracts, with the Federal Reserve Bank of San Francisco, of San Francisco, Calif., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to include currency and coin" in the commodity description.

No. MC 94350 (Sub-No. 377) (Republication), filed January 24, 1977, published in the FEDERAL REGISTER issue of March 10, 1977, and republished this issue. Applicant: TRANSIT HOMES, INC., P.O. Box 1628, Greenville, S.C. 29602. Applicant's representative: Mitchell King, Jr. (same address as applicant). An Order of the Commission, Review Board Number 3, dated July 20, 1977, and served August 2, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of (1) *trailers* designed to be drawn by passenger automobiles, in initial movements, and (2) *buildings*, in sections, mounted on wheeled undercarriages, from points in Montgomery County, Tenn., to points in Illinois, Indiana, Kentucky, Missouri, North Carolina, Tennessee, and West Virginia; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the modifications made to the commodity description in application's grant of authority.

No. MC 124964 (Sub-No. 27) (republication) filed July 2, 1976, published in the FEDERAL REGISTER issue of August 5, 1976, and republished this issue. Applicant: JOSEPH M. BOOTH, doing business as J. M. BOOTH TRUCKING, P.O. Box 907, Eustis, Fla. 32726. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. An Order of the Commission, Review Board Number 1, dated July 22, 1977, and served July 28, 1977, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, in the transportation of *bakery products*, from points in Dade County, Fla., to Bridgeport, Conn., under a continuing contract or contracts with the Grand Union Company, or East Patterson, N.J., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the subsitution of Dade County, Fla., as the origin in lieu of Hialeah, Fla., in applicant's grant of authority.

No. MC 129068 (Sub-No. 37) (republication), filed January 3, 1977, published in the FEDERAL REGISTER issue of February 10, 1977, and republished this issue. Applicant: GRIFFIN TRANSPORTATION, INC., 3002 S. Douglas Blvd., Oklahoma City, Okla. 73150. Applicant's representative: Jack L. Griffin (same address as applicant). An Order of the Commission, Review Board Number 3, dated July 14, 1977, and served August 1, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of (1) trailers, designed to be drawn by passenger automobiles, in secondary movements; and (2) *buildings*, complete or in sections, mounted in wheeled under carriages, from points in Kansas, to points in the United States (except Alaska, Hawaii, and Kansas) restricted against the transportation of camping trailers and travel trailers; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to give notice that those portions of the authority authorizing the transportation of buildings, complete or in sections, mounted on wheeled under carriages, are being granted without the restriction against the transportation of "modular units and prefabricated buildings" set forth in the prior publication.

No. MC 130248 (Sub-No. 1) (republication), filed December 6, 1976, published the FEDERAL REGISTER issue of January 13, 1977, and republished this issue. Applicant: EAST TENNESSEE AUTOMOBILE CLUB INCORPORATED, 100 West Fifth Avenue, Knoxville, Tenn. 39717. Applicant's representative: Morris J. Levin, 1620 Eye Street, NW., Washington, D.C. 20006. An Order of the Commission, Review Board Number 2, dated July 5, 1977, and served August 4, 1977, finds that operation by applicant as a *broker* at Bristol, Va., and Knoxville and Kingsport, Tenn., in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of passengers and their baggage, in round trip tours, in special or charter operations, (1) beginning and ending at points in Anderson, Blount, Bradley, Campbell, Carter, Claiborne, Cocke, Grainger, Green Hamblen, Hancock, Hawkins, Jefferson, Johnson, Knox, Loudon, McMinn, Meigs, Monroe, Morgan, Polk, Rhea, Roane, Scott, Sevier, Sullivan, Union, Unicoi, and Washington Counties, Tenn., and extending to points in the United States (including Alaska and Hawaii, but excluding Tennessee), and (2) between points in the United States, restricted to the transportation of tour parties beginning or ending at points in the counties specified in (1) above further restricted to the transportation of tour parties having an immediately prior or subsequent transportation by air, water, or rail, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is (a) to indicate the addition of Hawaii in applicant's grant of authority; and (b) to indicate the authorization of brokerage of intermodal tours.

No. MC 130420 (Republication) filed November 1, 1976, published in the FEDERAL REGISTER issue of November 24, 1976, and republished this issue. Applicant: BRUCE THOMPSON, doing business as VIRGINIA SKI TRAVEL SERVICE, 701 Sir Walter Circle, Virginia Beach, Va. 23452. Applicant's representative: Willis J. Spaulding, 808 Maritime Tower, Norfolk, Va. 23510. An Order of the Commission, Review Board Number 2, dated July 19, 1977, and served August 2, 1977, finds that operation by applicant as a *broker* at Norfolk, Va., in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of *passengers and their baggage*, in ski tours, in special or charter operations, beginning and ending at Chesapeake, Hampton, Newport News, Norfolk, Portsmouth, Virginia Beach, and Williamsburg, Va., and extending to points in Maine, Maryland, New Hampshire, New York, Pennsylvania, Vermont, and West Virginia, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the grant of authority to operate as a broker at Norfolk, Va., in lieu of Virginia Beach, Va.

No. MC 142685 (Republication filed November 24, 1976, published in the FEDERAL REGISTER of December 23, 1976, and republished this issue. Applicant: JOHN R. VERDINO, doing business as J & S MOTOR SERVICE, 2038 North Keeler Street, Chicago, Ill. 60639. Applicant's representative: Robert W. Loser, II, 1009 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. An Order of the Commission, Review Board Number 2, dated July 21, 1977, and served August 4, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *packaging materials and supplies*, used in butcher shops, from the warehouse facilities of Kraft Paper Sales Co., at Harvey, Ill., to Goshen, Portage, and Valparaiso, Ind.; that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the substitution of Harvey, Ill. in lieu of Chicago, Ill. in the origin point description, and the substitution of Goshen, Ind. as a destination point in lieu of Elkhart, Ind. in applicant's grant of authority.

No. MC–F–12334 (republication) filed October 9, 1974, published in the FEDERAL REGISTER issue of October 23, 1974, republished in part, as corrected, in the FEDERAL REGISTER issue of November 6, 1974, and republished this issue. Authority sought for purchase by TREDWAYS EXPRESS, INC., 512 Myrtle Avenue, Boonton, N.J. 07005, of a portion of the operating rights of Empire Carriers Corporation (Alfred A. Rosenberg, Trustee), 245 Fifth Avenue, New York, N.Y. 10016, and for acquistion by Trucking Enterprises, Inc., 744 Broad Street, Newark, N.J. 07102, Joseph E., Joseph A., and Albert M. Saldutti, all of Boonton, N.J. 07005, of control of such rights through the purchase. Applicant's attorney and representative: William J. Augello, 120 Main Street, Huntington, N.Y. 11743, and Alfred Rosenberg, Trustee, 16 Court Street, Brooklyn, N.Y. 11241. The Initial Decision of the Administrative Law Judge, dated April 30, 1976, and served May 11, 1976, orders that the purchase by Tredways Express, Inc., of the below described portion of the operating rights of Empire Carriers Corp., and the acquisition by Trucking Enterprises, Inc., Joseph E. Saldutti, Joseph A. Saldutti, and Albert M. Saldutti of control of said rights through the transaction, be approved and authorized. Said operating rights are as follows: *General commodities*, with the usual exceptions, as a *common carrier* over irregular routes, between New York, N.Y., on the one hand, and, on the other, points in Westchester, Dutchess, Columbia, Ulster, and Orange Counties, N.Y., and from New York, N.Y. to points in Putnam and Rockland Counties, N.Y. The purpose of this republication is to give notice of the amendment of the Tredways purchase application so as to include Columbia County within the radial territory to be served in conjunction with the New York, N.Y. base area.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR §1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with Section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if not representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 2421 (Sub-No. 14), filed July 1, 1977. Applicant: NEWTON TRANSPORTATION COMPANY, INC., P.O. Box 678, Lenoir, N.C. 28645. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue & 13th St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *flat glass*, from Crystal City, Missouri, to the plant sites of Lenoir Mirror Company in and/or near Lenoir, N.C.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at St. Louis, Mo. or Washington, D.C.

No. MC 2860 (Sub-No. 163), filed July 5, 1977. Applicant: NATIONAL FREIGHT, INC., 71 West Park Avenue, Vineland, N.J. 08360. Applicant's representative: W. Randall Tye, 1400 Candler Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: such merchandise as is dealt in by wholesale and retail chain department and food stores, and equipment, material and supplies used in the conduct of such business: between the distribution center of S.S. Kresge Company or K Mart Stores, Inc. at or near Newman, Georgia on the one hand, and, on the other, points in Alabama, Arkansas, Connecticut, Florida, Kentucky, Louisiana, Maryland, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia and West Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, Applicant requests that it be held at Atlanta, Georgia, Washington, D.C., or Detroit, Michigan.

No. MC 2960 (Sub-No. 14), filed June 24, 1977. Applicant: ENGLAND TRANSPORTATION COMPANY OF TEXAS, INC., 2301 McKinney Street, Houston, Tex. 77023. Applicant's representative: E. Larry Wells Suite 1125 Exchange Park, P.O. Box 45538, Dallas, Tex. 75245. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except liquid commodities in bulk, in tank vehicles), from the plantsite and storage facilities of Bel-Tex at Fort Worth, Tex., to Houston, Tex. Restricted to traffic moving in refrigerated containers and to traffic having a subsequent movement by water.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Dallas, or Houston, Tex.

No. MC 5470 (Sub-No. 126), filed: June 29, 1977. Applicant: TAJON, INC., R.D. 5, Mercer, Pa. 16137. Applicant's representative: Donald E. Cross, 918 16th Street, NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in dump vehicles, from the port site and facilities of the Paducah-McCracken County River Port Authority located at Paducah, Kentucky to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New York, North Carolina, Ohio, Pennsylvania, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

V 42 160 AUG 18 77 UM

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Cincinnati, Ohio or Washington, D.C.

No. MC 5470 (Sub-No. 128), filed July 5, 1977. Applicant: TAJON, INC., R.D. 5, Mercer, Pa. 16137. Applicant's representative: Brian L. Troiano, 918 16th Street, NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores and metals*, in dump vehicles, from Baltimore, Maryland, to points in Ohio on and east of U.S. Highway 23, points in Pennsylvania on and west of U.S. Highway 219, and points in West Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pennsylvania.

No. MC 11207 (Sub-No. 395), filed June 21, 1977. Applicant: DEATON, INC., 317 Avenue W., P.O. Box 938, Birmingham, Alabama 35201. Applicant's representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Avenue, Washington, D.C. 20014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *ground clay, floor sweeping compounds, and absorbents* (except in bulk), from the plantsite and warehouse sites of Oil-Dri Corporation of America, located at or near Ochlocknee, Georgia, to points in Alabama, Arkansas, Florida, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia and West Virginia; and (2) *floor sweeping compounds, and absorbents* (except in bulk), from the plantsite and warehouse sites of Oil-Dri Corporation of America located at or near Ripley, Mississippi to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Chicago, Illinois.

No. MC 13569 (Sub-No. 33), filed July 5, 1977. Applicant: THE LAKE SHORE MOTOR FREIGHT COMPANY, a Corporation 1200 South State Street, Girard, Ohio 44420. Applicant's representative: John P. Tynan, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum, Sheet or Strip*, between the plant site of Matthiessen & Hegeler Zinc Co. located at or near LaSalle, Illinois and the plant site of Ekco Products, Inc., located at or near Clayton, N.J.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Chicago, Ill or Washington, D.C.

No. MC 19105 (Sub-No. 45), filed July 1, 1977. Applicant: FORBES TRANSFER COMPANY, INC., P.O. Box 3544, Wilson, N.C. 27893. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th St. NW., Washington, D.C. 20423. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plywood panels*, from the facilities of Plywood Panels, Inc., at Norfolk, Va., to points in North Carolina; and (2) *plywood, composition board, plastic articles and moulding*, from the facilities of Weyerhaeuser Company, at Chesapeake, Va., to points in North Carolina. The above authority is restricted to traffic originating at and destined to the named origins and destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Norfolk, Va., or Washington, D.C.

No. MC 20916 (Sub-No. 25), filed June 21, 1977. Applicant: JOHN T. SISK, Rt. 2, Box 182–B, Culpeper, Va. 22701. Applicant's representative: Frank B. Hand, Jr., P.O. Drawer C, Berryville, Va. 22611. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) from points in Amelia, Albemarle, and Campbell Counties, Va., to points in New Jersey and points in Rockland, Nassau, Orange, Suffolk, Queens, and Westchester Counties, N.Y.; (2) from points in Louisa County, Va., to points in Rockland, Nassau, Orange, Suffolk, Queens, and Westchester Counties, N.Y.; and (3) from points in Culpeper County, Va., to points in Connecticut, Massachusetts, Ohio, and Vermont.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Richmond, Va. Applicant holds contract carrier authority in MC 134427 and Sub No. 2 thereunder, therefore dual operations may be involved.

No. MC 31389 (Sub-No. 229), filed July 1, 1977. Applicant: McLEAN TRUCKING COMPANY (a corporation), 617 Waughtown Street, Winston-Salem, N.C. 27107. Applicant's representative: David F. Eshelman, P.O. Box 213, Winston-Salem, N.C. 27102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the site of United Gas Pipe Line Company Compressor Station near Vinton, La., as an off-route point in conjunction with applicant's regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Houston, Tex or Washington, D.C.

No. MC 33433 (Sub-No. 2), filed June 22, 1977. Applicant: FRANK STEFANELLI TRUCKING, 1297 Van Houten Ave., Clifton, N.J. 07013. Applicant's representative: Frank Stefanelli (same address as applicant). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *Plastic materials, aggregates of plastics materials and equipment and supplies* used in the manufacture of Plastics, in packages, between points in Middlesex County, N.J., on the one hand, and, on the other, New York, N.Y., and points in Westchester, Nassau, and Suffolk Counties, N.Y.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Newark, N.J., or Trenton, N.J.

No. MC 35334 (Sub-No. 80), filed June 29, 1977. Applicant: COOPER-JARRETT, INC., Hanover Plaza, Morristown, N.J. 07960. Applicant's representative: Irving Klein, 371 Seventh Avenue, New York, N.Y. 10001. Authority sought to operate as a *common carrier* by motor vehicle over regular routes transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment). Route 1—Between Cincinnati, Ohio and Lexington, Ky.: From Cincinnati, Ohio via Interstate Highways 71/75 to junction Interstate Highways 71 and 75, thence via Interstate Highway 75 to Lexington, Ky. and return over the same route. Route 2—Between Cincinnati, Ohio and Louisville, Ky.: From Cincinnati, Ohio via Interstate Highways 71 75 to junction Interstate Highways 71 and 75, thence via Interstate Highway 71 to Louisville, Ky. and return over the same route. Route 4—Between Lexington, Ky. and Catlettsburg, Ky.: From Lexington, Ky. via Interstate Highway 75 to junction Interstate Highways 64 and 75, thence via Interstate Highway 64 to junction Interstate Highway 64 and U.S. Highway 23, thence via U.S. Highway 23 to Catlettsburg, Ky. and return over the same route.

Route 5—Between Catlettsburg, Ky. and South Portsmouth, Ky.: From Catlettsburg, Ky. via U.S. Highway 23 to South Portsmouth, Ky. and return over the same route. Route 6—Between Lexington, Ky. and Jellico, Ky.: From Lexington, Ky. via Interstate Highway 75 to junction Interstate Highway 75 and U.S. Highway 25W, thence via U.S. Highway 25W to Jellico, Ky. and return over the same route. Route 7—Between Lexington, Ky. and Elizabethtown, Ky.: From Lexington, Ky. via U.S. Highway 60 to junction U.S. Highway 60 and 62, thence via U.S. Highway 62 to Elizabethtown, Ky. and return over the same route. Route 8—Between Louisville, Ky. and Henderson, Ky.: From Louisville, Ky. via U.S. Highways 31W 60 to junction U.S. Highway 60, thence via U.S. Highway 60 to Henderson, Ky. and return over the same route. Route 9—Between Louisville, Ky. and Bowling Green, Ky.: From Louisville, Ky. via U.S. Highways 31W/60 to junction U.S. Highway 31W and U. S. Highway 60, thence via U.S. Highway 31W to Bowling Green, Ky. and return over the same route.

Route 10—Between Louisville, Ky. and Paducah, Ky.: From Louisville, Ky. via U.S. Highways 31W/60 to junction U.S. Highway 31W and U.S. Highway 60, thence via U.S. Highway 31W to Elizabethtown, Ky., thence via U.S. Highway 62 to Paducah, Ky. and return over the same route. Route 11—Between Bowling Green, Ky. and Owensboro, Ky.: From Bowling Green, Ky. via U.S. Highway 231 to Owensboro, Ky. and return over the same route. Route 12—Between Bowling Green, Ky. and the junction of Interstate Highway 65 and U.S. Highway 31W: From Bowling Green, Ky. via U.S. Highway 231 to junction Interstate Highway 65, thence via Interstate Highway 65 to junction Interstate Highway 65 and U.S. Highway 31W and return over the same route. Route 13—Between Bowling Green, Ky. and the junction of U.S. Highway 41 and U.S. Highway 62 at or near Nortonville, Ky.: From Bowling Green, Ky. via U.S. Highway 68 to Hopkinsville, Ky., thence via U.S. Highway 41 to junction U.S. Highway 41 and U.S. Highway 62 at or near Nortonville, Ky. and return over the same route. Route 14—Between Henderson, Ky. and the junction of U.S. Highways 41 and 62 at or near Nortonville, Ky.: From Henderson, Ky. via U.S. Highway 41 to junction U.S. Highways 41 and 62 at or near Nortonville, Ky. and return over the same route.

Route 15—Between Paducah, Ky. and Fulton, Ky.: From Paducah, Ky. via U.S. Highway 45 to Fulton, Ky. and return over the same route. Route 16—Between Cincinnati, Ohio and Maysville, Ky.: From Cincinnati, Ohio via Interstate Highways 71/75 to junction Kentucky State Highway 8, thence via Kentucky State Highway 8 to Maysville and return over the same route. Route 17—Between Lexington, Ky. and Maysville, Ky.: From Levington, Ky. via U.S. Highways 27/68 to junction U.S. Highways 27 and 68, thence via U.S. Highway 68 to Maysville, Ky. and return over the same route. Route 18—Between Bowling Green, Ky. and Somerset, Ky.: From Bowling Green, Ky. via U.S. Highway 31W to junction U.S. Highway 68/Kentucky State Highway 80, thence via U.S. Highway 68/Kentucky State Highway 80 to junction U.S. Highway 68, thence via Kentucky State Highway 80 to Somerset, Ky. and return over the same route. Route 19—Between Lexington, Ky. and the junction of U.S. Highway 27 and the Kentucky-Tennessee State Line at or near Strunk, Ky.: From Lexington, Ky. via U.S. Highway 27 to junction U.S. Highway 27 and the Kentucky-Tennessee State Line at or near Strunk, Ky. and return over the same route.

Route 20—Between Henderson, Ky. and Paducah, Ky.: From Henderson, Ky. via U.S. Highway 60 to junction U.S. Highway 62, thence via U.S. Highway 62 to Paducah, Ky., and return over the same route. Service is authorized to and from all intermediate points and off-route points in Kentucky.

Restriction: The operations authorized on all of the above routes are subject to the following conditions: Said operations are restricted against the transportation of traffic originating at, destined to, or received from or delivered to connecting carriers at Cincinnati, Ohio, and points in its commercial zone as defined by the Commission. Said operations are restricted to the transportation of traffic moving from, to, or through junction Interstate Highways 79 and 80 at or near Mercer, Pa. No authority herein is granted to serve any points in the commercial zones of any city in Kentucky located outside the State of Kentucky unless otherwise authorized.

No. MC 42487 (Sub-No. 866), filed July 1, 1977. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, California 94025. Applicant's representative: V. R. Oldenburg, P.O. Box 5138, Chicago, Illinois 60680. Authority is sought to operate as a *common carrier*, by motor vehicle, over regular routes transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), serving the plantsite and warehouse facilities of Rheem Manufacturing Company located at or near Milledgeville, Georgia as an off-route point in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Atlanta, Ga.

No. MC 51004 (Sub-No. 8), filed July 1, 1977. Applicant: PAUL H. LISKEY, Kearneysville, West Virginia 25430. Applicant's representative: Daniel B. Johnson, 1123 Munsey Building, 1329 E Street N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural lime*, from Jefferson County, West Virginia to points in Delaware. (2) *Sand*, (a) from Adams County, Pennsylvania to points in Berkeley and Jefferson Counties, West Virginia; Clarke, Frederick and Loudoun Counties, Virginia; and Washington and Frederick Counties, Maryland, (b) from Howard, Prince Georges and Baltimore Counties and Baltimore City, Maryland, to points in Berkeley and Jefferson Counties, West Virginia; and Clarke, Frederick and Loudoun Counties, Virginia. (3) *Feed and feed supplement and ingredients*, (a) from Camp Hill and York, Pennsylvania to points in Jefferson and Berkeley Counties, West Virginia; Frederick, Clarke and Loudoun Counties, Virginia; and Frederick, Washington and Montgomery Counties, Maryland, (b) from Charles Town, West Virginia to points in Jefferson and Berkeley Counties, West Virginia; Frederick, Clarke and Loudoun Counties, Virginia; and Washington, Frederick and Montgomery Counties, Maryland.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Charles Town, West Virginia or Martinburg, West Virginia.

No. MC 52323 (Sub-No. 2), filed July 7, 1977. Applicant: E. I. BRANDT TRUCKING CO., INC., 576 No. George Washington Blvd., P.O. Box 125, Yuba City California 95991. Applicant's representative: E. I. Brandt, 576 No. George Washington Blvd., Yuba City, California 95991. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Canned goods and preserved fruit products from Yuba City, California to Roseville, Sacramento, Stockton, Oakland and San Francisco, California.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at San Francisco or Sacramento, California.

No. MC 54444 (Sub-No. 8), filed July 1, 1977. Applicant: MAIN EXPRESS & STORAGE CO., a Corporation, 5938 South 13th St., Milwaukee, Wisc. 53221. Applicant's representative: Rolfe E. Hanson, 121 West Doty Street, Madison, Wisc. 53703. Authority sought to operate as a *common carrier* by motor vehicle over irregular routes transporting: *Such merchandise* as is dealt in by retail radio and electronic equipment stores, between Milwaukee, Wisc., on the one hand, and, on the other, points in Wisconsin, restricted to traffic originating at or destined to retail stores of Radio Shack division of Tandy Corporation, in Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary applicant requests it be held at either Madison or Milwaukee, Wisc. Common control may be involved.

No. MC 56679 (Sub-No. 93), filed June 27, 1977. Applicant: BROWN TRANSPORT CORP., 352 University Avenue, S.W., Atlanta, Georgia 30315. Applicant's representative: John T. Coon (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General Commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment):

(1) Between Atlanta, Georgia and Columbus, Georgia, serving all intermediate points; From Atlanta, Georgia over U.S. Highway 41 to its junction with Georgia Highway 54, thence over Georgia Highway 54 to Fayetteville, Georgia, thence over Georgia Highway 85 to Woodbury, Georgia, thence over Georgia Highway 85E to Manchester, Georgia, thence over Georgia Highway 85 (U.S. 27A) to Columbus, Georgia, and return over the same route, serving the off-route points of Turin, Sharpsburg, Brooks and Woodland, Georgia.

From Atlanta, Georgia over U.S. Highways 41 and 19 to Griffin, Georgia, thence over Georgia Highway 19 to Zebulon, Georgia, thence over Georgia Highway 18 to Woodbury, Georgia, connecting with the route next above to Columbus, Georgia, and return over the same route and between Hampton and Zebulon, Georgia.

(2) Between Columbus, Georgia and Abbeville, Georgia, for operating convenience only, serving no intermediate points except Cordele, Georgia and Ab-

V42 N160 AUG 18 77 UM

beville, Georgia, for purposes of joinder only. From Columbus, Georgia over U.S. Highway 280 to Abbeville, Georgia, and return over the same route.

(3) Between Dothan, Alabama and Columbus, Georgia, for operating convenience only, serving no intermediate points. From Dothan, Alabama over U.S. Highway 431 to Columbus, Georgia, and return over the same route.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Georgia or Washington, D.C. Common control may be involved.

No. MC 56679 (Sub-No. 94), filed June 30, 1977. Applicant: BROWN TRANSPORT CORP., 352 University Avenue, S.W., Atlanta, Ga. 30315. Applicant's representative: John T. Coon (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen Foodstuffs* or *Frozen Foodstuffs when in mixed shipments with Foodstuffs*, (not frozen) from Dade City, Fla. to points in Virginia, Maryland, Delaware, District of Columbia, New Jersey, Pennsylvania, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont and Maine.
